

MOUNT ROYAL UNIVERSITY

CALENDAR 2011–2012

CALENDAR STATEMENT

VISION

Creating exceptional learning experiences for a world of possibilities.

FOSTERING SUCCESS AND SATISFACTION

Mount Royal's core purpose is to foster the success and satisfaction of our students in the pursuit of their educational goals.

THE MOUNT ROYAL UNIVERSITY CALENDAR

This calendar will help you learn more about Mount Royal and its programs and courses. Once you have read the material in the calendar, we encourage you to visit our website for further information about our academic programs, admission requirements, student services and student life at Mount Royal.

As you gather the information you need to make decisions, please keep in mind:

- As a student, you are personally responsible for keeping your individual academic records complete and accurate, and ensuring that you meet the graduation requirements of any program in which you enrol.
- By applying for admission to Mount Royal, you will be agreeing to comply with the rules and regulations of Mount Royal, both as they exist and are modified or amended from time to time by the Board of Governors of Mount Royal or other persons with the authority to do so.
- Not all courses listed in this calendar will be offered in the 2011-2012 academic year. Be sure to consult the online Schedule of Classes before registering.

This calendar is published once a year by the Office of the Registrar at Mount Royal. It presents a list of academic programs, courses, policies and regulations about admissions, examinations and fees, as well as general information about Mount Royal.

Should you have any questions about the information in the calendar, please contact the Office of the Registrar.

THIS CALENDAR SETS FORTH AT THE TIME OF ITS PUBLICATION THE INTENTION OF MOUNT ROYAL WITH RESPECT TO ALL MATTERS CONTAINED THEREIN. MOUNT ROYAL RESERVES THE RIGHT WITHOUT PRIOR NOTICE TO DEVIATE FROM WHAT APPEARS IN THE CALENDAR, EITHER IN ORDER TO SERVE THE BEST INTERESTS OF THE UNIVERSITY OR BECAUSE OF CIRCUMSTANCES OR OCCURRENCES BEYOND MOUNT ROYAL'S REASONABLE CONTROL. MOUNT ROYAL EXPRESSLY DENIES RESPONSIBILITY OR LIABILITY TO ANY PERSON WHO MAY SUFFER LOSS OR WHO MAY BE OTHERWISE ADVERSELY AFFECTED BY SUCH CHANGE.

INFORMATION FOR STUDENTS

HOW TO USE THIS CALENDAR

The calendar is comprised of four major sections:

- Academic Regulations and Policies
- Program Descriptions
- Course Descriptions
- Outline of Services Available for Students

The *Table of Contents* and *Index* will provide more detailed information about calendar content. A *Glossary* is also provided for unfamiliar terms.

The calendar contains important information. It is the responsibility of each student to become familiar with the calendar's content. Particular attention should be paid to the first section, which provides detailed information about admission and registration procedures, examination policy, academic disqualification policy, general graduation requirements and grading practices. Students should also refer to the *Academic Schedule* in the calendar which outlines significant dates and timelines, such as registration and drop/add deadlines, examination dates, holidays and deadline dates for fee refunds.

HOW TO RECEIVE THIS CALENDAR

In Person

Calendars may be purchased in person for \$5 per copy at the University BookStore. Please note that calendar prices are subject to change.

By Mail

Calendars can be ordered by mail from the BookStore by calling 403.440.6300. They can also be ordered online at mtroyal.ca/bookstore. Calendar prices are subject to change.

Web

The calendar is available free of charge on the Mount Royal University website: mtroyal.ca

FREEDOM OF INFORMATION AND PROTECTION OF PRIVACY ACT

Mount Royal is committed to the protection of privacy and confidentiality of staff and students. The purpose of data collection is directly related to the need of Mount Royal to administer the institution / student relationship.

The personal information that students provide when applying for Mount Royal programs and courses is collected under the Post-Secondary Learning Act (s. 65) and the Freedom of Information and Protection of Privacy Act (s. 33 a & c). Personal information is protected by Alberta's Freedom of Information and Protection of Privacy Act and can be reviewed on request. If you have any questions about the collection or use of this information, please contact the Office of the Registrar at 403.440.6346.

Only a student's name, whether or not s/he is registered and the credential awarded (i.e., degree, applied degree, diploma, certificate, etc.) are defined as the student's public record. All other information is considered confidential and will be used and disclosed in accordance with privacy legislation.

Mount Royal may also receive personal information from other relevant sources including, without limitation, secondary schools, other colleges, universities and other institutions previously attended and third-party services and test score providers where the items collected form a part of the admission process to a Mount Royal program.

Data collected by Mount Royal is used for a variety of purposes such as those detailed below. Individuals' information will only be used and disclosed in accordance with privacy legislation.

Academic administration

Aggregate information (i.e., information that does not identify an individual student) on admission, registration, other activities related to attending courses of instruction, academic standing and graduation will be used for statistical, program evaluation and institutional research purposes by Mount Royal. Aggregate information may also be disclosed to other post-secondary educational institutions as well as the provincial and federal governments for similar purposes. Admission information will form part of the student record which will be used to record academic standing, administer awards and financial aid, authorize Library access and produce graduation lists.

Administration of Mount Royal academic support services

An individual's information on admission, registration, academic standing and graduation may be disclosed and used for the routine administration of Mount Royal academic support services including but not restricted to Career Services, the Office of Student Conduct, Student Learning Services, Accessibility Services, Student Counseling, Iniskim Centre, Academic Advising and Financial Services.

Administration of Mount Royal non-academic support services

An individual's information on admission, registration, academic standing and graduation may be disclosed and used for the routine administration of Mount Royal services including but not restricted to the Office of Student Conduct, the Residence Life Program, Recreation, Security Services, Parking Services and Alumni Relations.

Scholarship and Financial Aid

Personal information submitted on scholarship and bursary applications will be used to determine an individual's eligibility for an award and for contact purposes. In the event an award is given, personal information will be used for taxation purposes.

Marketing and Recruitment

Aggregate information on admission, registration, activities related to attending courses of instruction, academic standing and graduation may be used for promotional or recruitment activities.

Cooperation with Student Association (SAMRU)

Mount Royal also collects information on behalf of the Students Association of Mount Royal (SAMRU) for the purpose of membership administration, elections and the administration of student benefit plans. Students should contact the SAMRU office for additional information.

Disposal of information

All documents submitted to support admission become the property of Mount Royal and will not be returned.

Status of minors

In the absence of specific provincial legislation and consistent with current practice in other post-secondary institutions in Alberta, information pertaining to a minor who is registered at Mount Royal will only be used and disclosed in accordance with privacy legislation.

OTHER PUBLICATIONS

The University produces various brochures about the programs and services it offers. These publications may be ordered free of charge from:

MOUNT ROYAL UNIVERSITY: AN INTRODUCTION

Established as a college in 1910, Mount Royal became a university in September, 2009. Building on its proud 99-year academic tradition, Mount Royal University provides innovative undergraduate programs that meet the needs of students, the wider community and the marketplace. Renowned for its single-minded dedication to student success, Mount Royal University helps graduates prepare for a world of possibilities, whether continuing their studies or in their chosen fields. Mount Royal offers:

- Personalized teaching by professors passionate about learning and scholarship.
- Outstanding academic support services.
- Education as an instrument for individual, community and economic development.
- Open communication, honesty, integrity and respect for individuals.

Mount Royal is a co-educational, non-denominational, publicly supported, post-secondary institution. Graduates leave with a well-rounded knowledge base and strong critical thinking skills, and many enjoy a 100 per cent related work employment rate.

Mount Royal operates under the provincial Post-secondary Learning Act. The conduct, management and control of Mount Royal and all its property, revenue and business affairs are vested in the Board of Governors of Mount Royal University. Mount Royal's Academic Council, called the General Faculties Council, is a body representative of the Mount Royal community that reviews and develops policies concerning the academic activities and recommends academic policies to the Board. Administrative officers appointed by the Board are responsible for the implementation of policy and the operation of Mount Royal. The President is the Chief Executive Officer of the University.

The Students' Association of Mount Royal University (SAMRU) is a legally incorporated body under the Post-Secondary Learning Act. It is responsible for a wide range of extracurricular activities and the appointment of student representatives to Mount Royal committees. The Students' Council, elected to manage the business affairs of the SAMRU, is the official medium of communication between the students of Mount Royal, the administration and the Board of Governors.

HISTORICAL MILESTONES

- 1911** Mount Royal College opens in downtown Calgary under the sponsorship of the Methodist Church
- 1925** Mount Royal becomes a secondary school of the United Church of Canada
- 1931** Becomes a Junior College affiliated with the University of Alberta and introduces first-year university transfer courses
- 1966** Becomes a public institution under the Colleges Act of the Province of Alberta
- 1972** Main campus relocates to Lincoln Park
- 1995** Canada's first two applied baccalaureate degree programs introduced by Mount Royal College
- 1997** Course delivery through the Internet begins with Forensic Health Studies
- 1999** Cougars Athletics program receives Canadian Colleges Athletic Supremacy Award for 25 years of excellence
- 2000** Institute for Nonprofit Studies is launched — Canada's first
- 2001** MR begins a \$150-million expansion project

2002 \$5-million dollar donation establishes Bissett School of Business in honour of David and Leslie Bissett.

2005 The Integrative Health Institute opens

2006 David Bissett donates a further \$7 million to the Bissett School of Business. Centre for Continuous Learning opens; named in honour of Roderick Mah in 2008. Mount Royal's first endowed Chair, named for Hon. Ralph Klein, is established in the Faculty of Communication Studies

2008 Five new degrees launched: Bachelor of Arts, Bachelor of Arts — Criminal Justice, Bachelor of Science, Bachelor of Communication, Bachelor of Business Administration. The Institute for Scholarship of Teaching and Learning is established. The Criminal Justice Research Lab opens.

2009 Mount Royal's Bachelor of Computer Information Systems is launched. The Centre for Child Well-Being opens.

2009 The Government of Alberta approves Mount Royal's request to use "university" in its name. Mount Royal University becomes a member of the Association of Universities and College of Canada (AUCC).

2010 Mount Royal kicks off a 16-month centennial celebration.

MOUNT ROYAL UNIVERSITY TODAY

Approximately 13,000 students attend Mount Royal in bachelor's degree, applied degree, university transfer, diploma and certificate programs. Another 44,000 individuals are enrolled in courses offered by the Faculty of Continuing Education and Extension and the Languages Institute. An additional 9,000 attend the Mount Royal University Conservatory, which began in 1911 and has a national reputation for music excellence. It offers the Academy of Music Program for gifted young musicians and credit programs in Music Performance.

Mount Royal offers seven university-level bachelor degrees with 27 majors or concentrations. You can choose from a variety of programs including:

- Bachelor's — Four-year university-level degrees offered by Mount Royal
- Applied degree — Four-year university-level degrees which provide a good balance of theory, applied coursework, arts and science courses, and hands-on experience
- University transfer — Take up to two years of courses at Mount Royal before transferring to another institution to finish your degree
- Diploma — Two-year programs. Some diplomas can prepare you for further studies in a degree program at Mount Royal or another institution
- Certificates — Courses that are often flexible and can be taken part-time

The demand for professional career upgrading and skill development is met by the Faculty of Continuing Education and Extension, which creates new programs to meet evolving needs.

SATELLITE CAMPUSES

The Holy Cross Campus, located at 2204 — 2 St. SW in Calgary, houses the Centre for Complementary Health Education, which opened in 1999. Funeral Director and Embalmer, Massage Therapy and other complementary health programs are offered at the Centre as well as a student practicum centre. For information, call 403.503.4886.

The Mount Royal Aviation Hangar Campus is located at 143 MacLaurin Drive in Springbank, Alberta. For information, call 403.288.9551.

UNIVERSITY MANDATE

Mount Royal University is a public, board-governed institution established under the Post-secondary Learning Act of Alberta.

Mount Royal is a learning community that focuses on instruction informed by scholarship. Its mission is to develop excellence in baccalaureate and applied degrees along with certificate and diploma programs. Mount Royal's programs combine liberal and applied studies in order to develop informed and thoughtful citizens and to provide individual fulfillment, opportunities for further study and employment to its graduates.

Mount Royal offers programs in arts and science, nursing and health, business, communications, community studies, design, education, performing arts, and aboriginal studies that lead to the following credentials:

- University-level baccalaureate degrees and transfer programs to prepare learners for further study and employment.
- Applied degrees to prepare learners for employment.
- Certificate and diploma programs to prepare learners for employment and lead to further credentials.
- Post-secondary entrance programs that facilitate learner access to further studies.

Mount Royal supports scholarly activity that contributes to instructional excellence and to the cultural, social, and economic well-being of the community locally and internationally.

Students taking Mount Royal programs are supported by a range of services that contribute to the academic, social and personal development of students. These services include library services, academic advising, learning skills development, career services, counseling, recreation, and wellness programs.

Mount Royal's primary service area includes Calgary and the surrounding region. In addition, Mount Royal serves a wider learner population provincially, nationally and internationally through face-to-face and distance delivery and through strategic alliances with other post-secondary institutions. Mount Royal serves its communities by creating and communicating knowledge and by meeting the needs of the labour market in fields related to its program areas.

Mount Royal also serves its communities by providing contract training, professional development, international programming and, through its internationally recognized conservatory, music instruction particularly for younger people. Through these programs, Mount Royal enhances its commitment to continuous, life long learning and to global awareness in an inter connected world.

ACADEMIC FREEDOM

The common good of society depends upon the search for knowledge and its free exposition. Academic freedom in educational institutions is essential to both these purposes in the teaching function of the institution as well as in its scholarship and research. Academic staff shall not be hindered or impeded in any way by the institution or faculty association from exercising their legal rights. Academic members of the community are entitled, regardless of prescribed doctrine, to freedom in carrying out research and in publishing the results thereof, freedom of teaching and of discussion, freedom to criticize the University and the faculty association and freedom from institutional censorship. Academic freedom does not require neutrality on the part of the individual. Rather, academic freedom makes commitment possible. Academic freedom carries with it the duty to use that freedom in a manner consistent with the scholarly obligation to base research and teaching on an honest search for knowledge. In exercising the freedom to comment and criticize, academic staff members have a corresponding obligation to use academic freedom in a responsible manner. This implies a recognition of the rights of other members of the academic community and a tolerance of differing points of view.

MOUNT ROYAL UNIVERSITY FOUNDATION

The Mount Royal University Foundation plays a fundamental role in the success of Mount Royal and its outstanding reputation as a student-centred and teaching-focused institution. As Mount Royal continues to evolve, so do the financial needs of the University. The Foundation assists Mount Royal in meeting its priorities by raising funds through the generosity of alumni, individuals and corporate and community supporters. In doing so, we help Mount Royal address its priorities which include increasing the number and value of scholarships and bursaries available to our students, supporting program initiatives and expanding campus facilities to ensure all students have an exceptional learning experience at Mount Royal.

For more information about the Foundation, please contact our office at 403.440.7700 or visit mtroyal.ca/foundation.

ALUMNI RELATIONS

The Office of Alumni Relations strives to inspire students and alumni to share a life-long commitment to, as well as pride in and passion for Mount Royal University. We work closely with the Mount Royal University Alumni Association to promote the spirit of volunteerism and develop programs and services that add value to the alumni experience and to the life and work of the University. We engage alumni as active members of the University community.

For more information, please visit the Alumni office in F101 on Main Street at Lincoln Park. You can also reach us by phone at 403.440.7000, email alumni@mtroyal.ca, or visit our website at mtroyal.ca/alumni.

ADMISSIONS

INITIAL INQUIRY – ADMISSIONS AND RECRUITMENT OFFICE

Information about programs offered at Mount Royal as well as admission policies and procedures can be found throughout this Calendar or they may be accessed on the Mount Royal website (mtroyal.ca). You may submit an information request on the website to receive further information on program offerings or you may apply for admission online (within the timelines specified in the Academic Schedule section of this calendar). Additional inquiries relating to admission may be directed to the Admissions and Recruitment Office, Mount Royal University, 4825 Mount Royal Gate S.W., Calgary, Alberta, T3E 6K6. Telephone: 403.440.5000 (Press option #5), Toll Free: 1.877.440.5001, Fax: 403.440.7252, Questions: <https://mr4u.mymru.ca>

If you plan to live in residence to enjoy the full Mount Royal experience you may apply for residence at the same time as you submit your Application for Admission. More information on residence is available in the Services for Students section of this calendar or on the website. Please also visit mtroyal.ca/awards for information on entrance scholarships and bursaries.

GENERAL ADMISSIONS REQUIREMENTS

General Information

The admission requirements in this section apply to full-time and part-time admission to designated programs of study with the exception of the following programs:

- Certificate programs – see Academic Programs section of this calendar for admission information to each certificate program.

Full-time status refers to a student who enrolls in three (3) or more courses (normally a minimum of nine [9] credits) in a semester. **Part-time status** refers to a student who enrolls in one (1) or two (2) credit courses (normally fewer than [9] credits) in a semester. Students interested in enrolling in courses outside of a designated program of study may choose to enrol in Open Studies – please see Open Studies in this section of this calendar for further information. Admission to Mount Royal University is competitive and as such admission will be granted to those applicants who have the highest average based on the conditional admission criteria for each admission category. For some programs, applicants may be required to participate in additional admission criteria such as an interview or audition or provide additional information such as a resume or letter of intent — see Admission

Requirements for each program found in the Academic Programs section of this calendar.

Admission Categories

There are five categories for admission to Mount Royal:

- High School Standing
- Post-secondary Standing
- Mature Standing
- University Entrance Option
- Open Studies

The admission category that the applicant will be considered under will be determined by Mount Royal on the following basis:

1) High School Standing

Applicants will be considered on the basis of High School Standing if they are currently in high school or have left or completed high school, but have not completed sufficient post-secondary courses to be considered in the post-secondary category. To be eligible for admission on the basis of High School Standing, applicants must present five appropriate grade 12 subjects (or their equivalents) with no grade below 50%.

Conditional Admission – High School Standing

The conditional admission average will be based on the two highest self-reported mid-term/interim or final grades from the list of grade 12 subjects in Group A. Self-reported grades should be the grades received through a formal reporting process at the applicant's high school and verification of the grades reported may be requested by Mount Royal. Equivalent post-secondary courses may be substituted for required high school subjects where appropriate. Post-secondary courses used for admission to a program may also be applied to program graduation requirements, depending on the applicability of the course to the curriculum, the standard of performance achieved, and the time limits of the program.

For some programs applicants may be required to participate in additional admission criteria such as an interview or audition or provide additional information such as a resume or letter of intent — see Admission Requirements for each program found in the Academic Programs section of this calendar.

Final Admission – High School Standing

Final admission for this admission category will be based on verification of admissibility once final/official transcripts, including all previous high school and post-secondary coursework, have been received and reviewed and all conditions of the applicant's admission have been met. Unless a specific (higher) admission average is required as indicated in the Admission Requirements for each program found in the Academic Programs section of this calendar, high school applicants are required to have an overall admission average of 60% on the five appropriate grade 12 subjects and remain in good academic standing if they are currently enrolled in any post-secondary coursework. Official transcripts must include final grades for all subjects required by the program of study as indicated in the General Admission Requirements and the Admission Requirements for each program found in the Academic Programs section of this calendar and be received by **August 1** for admission to the Fall Semester or by **December 1** for admission to the Winter Semester.

2) Post-secondary Standing

Applicants will be considered on the basis of Post-secondary Standing if they have completed four post-secondary courses (minimum 12 credit hours) by **December 31** and will have completed eight post-secondary courses (minimum 24 credit hours) by **June 30** for admission to the Fall Semester or will have completed eight post-secondary courses (minimum 24 credit hours) by **August 31** for admission to the Winter Semester. Courses presented for admission must be from a recognized post-secondary institution and must be transferable courses as determined by Mount Royal University.

Conditional Admission – Post-secondary Standing

Grades used to assess conditional admission will be calculated on the four most recently completed courses (minimum 12 credit hours) by **December 31** for the Fall Semester or the eight most recently completed courses (minimum of 24 credit hours) by **August 31** for the Winter Semester. Official transcripts showing all post secondary courses completed by these dates are required to be considered for conditional admission. Post-secondary courses used for admission to a program may also be applied to program graduation requirements, depending on the applicability of the course to the curriculum, the standard of performance achieved, and the time limits of the program.

Final/official high school transcripts are also required by Mount Royal. Reporting of high school grades is required to ensure successful completion of the specific high school course requirements for the applicant's program of study as indicated in the Admission Requirements for each program found in the Academic Programs section of this calendar. Equivalent post-secondary courses may be substituted for required high school subjects where appropriate.

For some programs applicants may be required to participate in additional admission criteria such as an interview or audition or provide additional information such as a resume or letter of intent — see the Admission Requirements for each program found in the Academic Programs section of this calendar.

Note: Students who have been required to withdraw from another post-secondary institution for academic reasons should refer to (Re)-admission to Mount Royal Following a Requirement to Withdraw, further on in this section of the Calendar.

Final Admission - Post-secondary Standing

Final admission for this admission category will be based on verification of admissibility once final/official transcripts, including all previous high school and post-secondary coursework, have been received and reviewed and all conditions of the applicant's admission have been met. Unless a specific (higher) admission average is required as indicated in the Admission Requirements for each program found in the Academic Programs section of this calendar, post-secondary applicants are required to have a 2.00 Grade

Point Average (GPA) on the eight most recently completed post-secondary courses (minimum 24 credit hours).

Official transcripts must include final grades for all subjects required by the program of study as indicated in the General Admission Requirements and the Admission Requirements for each program found in the Academic Programs section of this calendar and be received by **August 1** for admission to the Fall Semester or by **December 1** for admission to the Winter Semester.

Repeated Courses

When an applicant presents the same course with more than one grade (i.e. the course has been repeated), the higher grade shall be used for evaluating admissibility.

3) Mature Standing

Applicants who do not meet the High School Standing requirements or have not completed sufficient courses to be considered for Post-secondary Standing and are 21 years of age by **September 1** for the Fall Semester or **January 1** for the Winter Semester to which they are applying will be considered in this category. High school and post-secondary transcripts are required regardless of the level attained. Reporting of high school grades is required to ensure successful completion of the specific high school course requirements for the applicant's program of study as indicated in the Admission Requirements for each program found in the Academic Programs section of this calendar and to provide grade information required for consideration for conditional admission — see below.

Conditional Admission – Mature Standing

The conditional admission average will be based on the two highest self-reported mid-term/interim or final grades from of grade 12 subjects in Group A. Equivalent post-secondary courses may be substituted for required high school subjects where appropriate. Post-secondary courses used for admission to a program may also be applied to program graduation requirements, depending on the applicability of the course to the curriculum, the standard of performance achieved, and the time limits of the program.

For some programs applicants may be required to participate in additional admission criteria such as an interview or audition or provide additional information such as a resume or letter of intent – see Admission Requirements for each program found in the Academic Programs section of this calendar.

Final Admission – Mature Standing

Final admission for this admission category will be based on verification of admissibility once final/official transcripts, including all previous high school and post-secondary coursework, have been received and reviewed and all conditions of the applicant's admission have been met. Mature applicants are required to remain in good standing if they are currently enrolled in any post-secondary coursework.

Official transcripts must include final grades for all subjects required by the program of study as indicated in the General Admission Requirements and the Admission Requirements for each program found in the Academic Programs section of this calendar and be received by **August 1** for admission to the Fall Semester or by **December 1** for admission to the Winter Semester.

4) University Entrance Option

The University Entrance Option is intended for students who wish to pursue a baccalaureate degree but do not currently meet the admission requirements and/or competitive admission average for the baccalaureate degree of their choice. Admission is competitive and applicants will be considered in the high school or mature student categories only. A student is allowed to earn a maximum of 30 credits (typically ten, three-credit courses) in the University Entrance option and Open Studies combined. Refer to the University Entrance Option section in this Calendar.

5) Open Studies

Open Studies is intended to remove many of the significant barriers inherent in a competitive admissions process by providing opportunities for a variety of students to pursue academic courses outside of degree, diploma or certificate programs. A student is allowed to earn 30 credits (typically ten, three-credit courses) in Open Studies and the University Entrance Option combined. Refer to Open Studies section in this Calendar.

Appropriate Grade 12 Subjects

Applicants must have the required subjects for their intended program of study – as specified within the Admission Requirements for each program found in the Academic Programs section of this calendar. The additional subjects which may be presented for evaluation of admissibility include the following courses from Group A, B and C:

High School Standing

Degree programs (baccalaureate, applied and university transfer)

Specific courses required by the program must be included in the five subjects below.

- 1) English Language Arts 30 – 1
- 2) Group A course
- 3) Group A course
- 4) Group A or B course
- 5) Group A, B, or C course

Diploma programs

Specific courses required by the program must be included in the five subjects below.

- 1) English Language Arts 30 – 1 (or English Language Arts 30 – 2 if accepted by the program)
- 2) Group A course
- 3) Group A, B or C course
- 4) Group A, B or C course
- 5) Group A, B, or C course

Post-Secondary Standing

Specific courses required by the program must be presented for admission.

Mature Standing

Specific courses required by the program must be presented for admission.

- 1) English Language Arts 30 – 1 (or English Language Arts 30 – 2 if accepted by the program)
- 2) Group A course

Group A Courses:

- English Language Arts 30-1 (or English Language Arts 30 – 2 if accepted by the program)
- Mathematics 30 (Pure)
- Mathematics 30 (Applied)
- Mathematics 31
- Biology 30
- Chemistry 30
- Physics 30
- Science 30
- Social Studies 30-1
- French 30, French 31, French Language Arts 30, Francais 30
- All other Languages 30

Group B* Courses:

- Art 30
- Art 31
- Drama 30
- Music 30
- Physical Education 30
- Religious Studies 35
- Social Studies 30 – 2

* Courses must be 5 credits.

Group C Courses:

- Other 5 credit Grade 12 subjects or a combination of two 3 credit grade 12 subjects
- 5 credits of Advanced Career and Technology (CTS) courses

Note:

- Special Projects 30 cannot be used for admission.
- Applicants cannot use two courses from the same subject area for the purpose of admission with the exception of Mathematics 31 and one of Mathematics 30 (Pure or Applied).

HIGH SCHOOL MATRICULATION EQUIVALENTS (CREDIT-FREE)

The Mount Royal University courses that may be used in place of Alberta Grade 12 (30-level) subjects for purposes of admission to Mount Royal University, and other post-secondary institutions in Alberta are listed as follows:

Mount Royal University (credit-free) Upgrading Course	Corresponding Alberta High School Course
Biology 0130	Biology 30
Chemistry 0130	Chemistry 30
English 0130	English Language Arts 30-1
Mathematics 0130	Mathematics 30 (Pure)
Mathematics 0131	Mathematics 31
Physics 0130	Physics 30
Social Science 0130	Social Studies 30
Chinese 1107	Chinese 30
French 1111*	French 30
German 1107	German 30
Japanese 1107	Japanese 30
Spanish 1101	Spanish 30

* French 1111 has a prerequisite of French 1109.

NOTIFICATION OF ADMISSION STATUS

A letter mailed to an applicant's address, as shown on the applicant's record in Admissions and Recruitment (Enrolment Services), will be deemed adequate notification to the applicant for all matters concerning Mount Royal. It is the applicant's responsibility to notify Mount Royal of any change in address. Mount Royal will not be responsible for incorrect mailings or for missed deadlines due to an applicant's failure to report a change of address or to have supporting admission documents delivered to Mount Royal by the dates required.

APPLICATION TIMELINES

Fall Semester

Early Admission:

December 1 – March 1

To be considered for Early Admission, the Application for Admission with self-reported grades or final/official high school transcripts and final/official post-secondary transcripts must be received at Mount Royal by March 1.

Ongoing Admission: March 2 – until the program is declared full

Applicants who submit their Application for Admission with self-reported grades or final/official high school transcripts and final/official post-secondary transcripts on or after March 2 will be considered on an ongoing basis until the program is declared full. Programs will be removed from the online application when they are declared full.

Application Deadlines

For application deadlines for specific programs, refer to the Admission Requirements for each program found in the Academic Programs section of this calendar. If no deadline is specified, applications will be processed until the program is declared full. Some programs may continue to accept applicants until August 31.

For programs with a specific application deadline, all documents as specified under Early Admission and Ongoing Admission above, must be received by the application deadline for that program.

Winter Semester

Please check the online Application for Admission at mtroyal.ca to determine which programs are accepting applications for the Winter Semester as the list of programs offered varies from year to year.

Early Admission: October 1 – November 1

To be considered for Early Admission, the Application for Admission with self-reported grades or final/official high school transcripts and final/ official post-secondary transcripts must be received at Mount Royal by November 1.

Ongoing Admission: November 2 – until the program is declared full

Applicants who submit their Application for Admission with self-reported grades or final/official high school transcripts and final/official post-secondary transcripts on or after November 2 will be considered on an ongoing basis until the program is declared full. Programs will be removed from the online application when they are declared full.

Application Deadline

Applications will be processed until the program is declared full.

ADMISSION PROCEDURES FOR PROSPECTIVE STUDENTS

1. Apply online by completing the Application for Admission Form: mtroyal.ca

Note: You may apply for admission to two programs of study.

2. A non-refundable \$70 application processing fee is required with your Application for Admission. Credit card (Visa or MasterCard) payment is required at the time of completion of the online application.
3. Self-reported high school grades must be submitted, as requested on the Application for Admission Form.
4. Official transcripts from all high school and post-secondary institution(s) you have attended are required for Mount Royal to make an admission assessment. Some transcripts (within the province of Alberta) will be obtained by Mount Royal on your behalf while you will be required to request others yourself. A list of the transcripts you will be required to obtain will be provided when you apply for admission.

An official transcript is one which is sent directly to Mount Royal University from the Department of Education (for Alberta, British Columbia, and Saskatchewan), from the high school you attended if from another province or from any post-secondary institution(s) you attended.

If you attended high school in any province other than Alberta, British Columbia or Saskatchewan, write or fax the last high school you attended to request submission of your official high school transcript directly to Admissions at Mount Royal University. All documents (including transcripts) submitted for admission purposes become the property of Mount Royal University and will not be released to, nor photocopied for, the applicant or anyone outside of Mount Royal. Documents submitted by applicants who are not accepted or who do not attend are destroyed one year after the start of the semester for which admission was requested.

ADMISSIONS PROCEDURES FOR INTERNATIONAL (STUDY PERMIT) APPLICANTS

The Application for Admission and all supporting documentation (final/official transcripts from high school and all post-secondary transcripts) must be submitted according to the dates indicated in the Application Timelines section (above) to be considered for Early or Ongoing Admission. If the original transcripts are not in English, applicants must also submit a certified translated copy from an approved translation service.

There are two categories of international applicants:

1. Those residing and applying from outside Canada. This type of student is accepted for the Fall Semester only.
2. Those presently studying in Canada at Mount Royal or another institution. Applicants who entered Canada on a Study Permit to attend another educational institution must complete at least one semester at that institution before their application for admission to Mount Royal can be considered. This type of student may be considered for admission to the Fall Semester or the Winter Semester.

For students applying from outside of Canada or the United States, although early application and submission of documents is recommended the Application for Admission and all supporting documentation (final/official transcripts from high school and all post-secondary transcripts) must be submitted by **April 1** for admission to the Fall Semester.

A conditional offer of admission may be given on the basis of the official documentation provided, however, final documents with any further course work and documentation to verify that the English Language Proficiency Requirement has been met, if your primary or first language (meaning the main language learned and used as a child) is not English, must be submitted by **August 1** for admission to the Fall Semester.

Admitted international students are solely responsible for all arrangements relating to their immigration status and entry into Canada.

ENGLISH LANGUAGE PROFICIENCY REQUIREMENT

The primary language of instruction and communication at Mount Royal is English and it is essential that all students have an adequate knowledge in the areas of reading, writing, listening, and speaking in the English language in order for them to be successful in their studies. All applicants must demonstrate English Language Proficiency for the purpose of admission in **one of the following ways** if their primary or first language (meaning the main language learned and used as a child) is not English.

1. Successful completion of the equivalent of two years of full-time study (minimum of three courses per semester excluding English as a Second Language courses) in an English language secondary or post-secondary institution or a combination of the two. Study must have been in an English speaking country⁽¹⁾ as recognized by Mount Royal and include the successful completion of English Language Arts 30 -1 or 30 - 2 (or equivalent).
2. Successful completion (with a grade of B- or better) of the highest level of the English for Academic Purposes program at Mount Royal's Languages Institute.
3. Presentation of the Test of English as a Foreign Language (TOEFL)⁽²⁾ with an overall minimum score of 83 on the internet-based test (iBT) and a minimum score of 20 in each of the four testing sections. (1.800.468.6335 or ets.org/toefl)
4. Presentation of the International English Language Test (Academic IELTS)⁽²⁾ with an overall minimum score of 6.5 (with a minimum score of 5.0 in each band). (ielts.ca)

5. Presentation of the Canadian Academic Language Assessment (CAEL)⁽²⁾ with an overall minimum score of 70 (with a minimum score of 50 in each band). (cael.ca)
6. Presentation of the Michigan English Language Assessment Battery (MELAB)⁽²⁾ with an overall minimum score of 85 (must include the oral component with a minimum score of 3). (lsa.umich.edu/eli/testing/melab)

Please note that applicants must satisfy two separate and distinct English requirements for admission to Mount Royal:

1. The English course required for admission to your intended program of study – English Language Arts 30 – 1 (or English Language Arts 30 – 2 if accepted by your program) AND
2. This English Language Proficiency Requirement (if your first or primary language is not English).

Notes:

- (1) For list of English speaking countries for the purpose of this ELP requirement, visit mtroyal.ca/admission.
- (2) All test results must be “official” meaning that they must be sent directly from the issuing institution to Mount Royal.

Applicants who do not meet the language requirement can apply to enter the English for Academic Purposes (EAP) program offered through the Languages Institute at Mount Royal.

LIMITATIONS ON ENROLMENT

Enrolment in Mount Royal University programs and courses is limited to the number of students who can be accommodated within available resources while maintaining quality of education. As a result, all programs of study at Mount Royal University have a fixed capacity on the number of students that may be admitted. All students who are issued a letter of acceptance will be required to pay a \$125 non-refundable registration deposit by the specific date indicated in their notification of acceptance into the program. The deposit will apply toward tuition fees for the semester to which the student is admitted. The balance of fees owing must be paid within the published timelines; see section entitled Fees and Deposits. Failure to pay the registration deposit by the required date will result in cancellation of acceptance. The vacancy created will be offered to another qualified applicant.

Waitlists may be formed for some programs, if necessary, during the admission cycle. Applicants who are placed on a waitlist may be notified at any point in the admission cycle if a space in the program becomes available. If the applicant does not gain admission by the first day of classes for the semester to which he or she has applied, the waitlist will not be carried forward to the next semester and the applicant must reapply if he or she wishes to be considered in a subsequent semester.

Registration in specific courses is subject to the availability of those courses at the time the student registers. Class capacity is limited in many disciplines; as a result, space in specific courses is assigned on a first come, first served basis. **Delay in registering in a program of studies may result in the unavailability of some or all courses.**

POLICE INFORMATION AND OTHER BACKGROUND CHECKS

Certain programs include periods of placement or observation experience with community institutions or agencies as part of the course requirements. Many of these institutions or agencies, either for statutory reasons (e.g. Protection for Persons in Care Act) or for policy reasons, require police information or other background checks from employees as well. It is the responsibility of the student to obtain, at the student's expense, the necessary checks. Further information regarding these requirements will be provided to the affected students at the appropriate time.

In some circumstances, the checks will be provided by the student directly to the institution or agency. In other circumstances, the institution or agency will require Mount Royal to coordinate the submission of the checks for all students in a particular course or program. Where Mount Royal is involved in the process, the information will be retained in a separate file within the department and used only for the purposes of placing students at the applicable institutions or agencies. This process will be done in accordance with the Freedom of Information and Protection of Privacy Act. It is each institution's or agency's decision to accept or reject a student for placement or observation experience based upon the results of a police information or other background check. Since both completion of course requirements and eventual employment in a field of study may be dependent upon the results of such checks, students who have concerns should discuss the matter with the department Chair or designate prior to applying for admission.

Police Information checks are normally obtained from the police department having jurisdiction where the student normally resides. For those normally resident in the City of Calgary, the appropriate agency is the Calgary Police Service (Security Clearance Unit, 316 – 7 Avenue S.E. Calgary, AB, T2G 4Z1, 403.268.2052). Outside Calgary, students should contact their local police agency. At the time of publication, the typical cost of a police information check was between \$25 and \$50.

RE-ADMISSION TO THE INSTITUTION

Students who have discontinued their studies for a twelve (12) month period or longer and wish to return to Mount Royal must complete the application procedures in accordance with the application timelines published in this Calendar, pay the non-refundable application processing fee, and be accepted on each return. To qualify for Mount Royal University graduation status, re-admitted students must fulfill the graduation requirements in effect at the time of their re-admission.

RE-ADMISSION FOLLOWING AN INTERRUPTION OF PROGRAM OF STUDIES

Students wishing to return to the same program at Mount Royal after an absence of a twelve (12) month period or longer must re-apply for admission to the specific program. Admission to the program is subject to review by the academic department and the availability of space in the program.

If approved the student will be required to submit all additional official post-secondary transcripts if they have attended another post-secondary institution during their absence from Mount Royal. The student's application will be processed in the same time frame using the standard admission processes and is subject the applicable fees. A student re-admitted to the program is governed by the program requirements in effect at the time of the most recent admission.

(RE-) ADMISSION TO MOUNT ROYAL FOLLOWING ACADEMIC DISQUALIFICATION OR A REQUIREMENT TO WITHDRAW

A student who has been Required to Withdraw from Mount Royal, or any other post-secondary institution, will not be admitted to Mount Royal until at least a twelve (12) month period has elapsed since the student was required to withdraw.

Applicants who have been Required to Withdraw from Mount Royal, or another post-secondary institution, for academic reasons may be considered for admission to their intended program of study, either on the basis of high school standing or mature standing, after a twelve (12) month period has elapsed.

A student may register in non-credit academic upgrading courses as an Open Studies student during the twelve (12) month waiting period.

Students who have been Required to Withdraw must apply for re-admission in accordance with re-admission procedures.

ADMISSION APPEALS

Students who have not been offered admission can request that the Chair and/or Dean consider an Exceptional Admission. There is no appeal of the Chair and/or Dean's decision.

ADVANCED PLACEMENT (AP)

Applicants who successfully complete Advanced Placement (AP) courses may use applicable AP courses for the purpose of admission and/or transfer credit. Admission and/or transfer credit will be awarded on the basis of current articulation agreements with Alberta universities as cited in the AP section of the Alberta Transfer Guide. Applicants, who complete both Advanced Placement courses and senior matriculation/secondary school courses, will be assessed on the grades which are most advantageous for the student.

INTERNATIONAL BACCALAUREATE (IB)

Applicants who successfully complete International Baccalaureate (IB) courses may use applicable IB courses for the purpose of admission and/or transfer credit. Admission and/or transfer credit will be awarded on the basis of current articulation agreements with Alberta universities as cited in the IB section of the Alberta Transfer Guide.

Applicants, who complete both International Baccalaureate courses and senior matriculation/secondary school courses, will be assessed on the grades which are most advantageous for the student.

HOME SCHOOL

Home schooled applicants who present recognized secondary credentials will be considered for admission to Mount Royal.

SCHOLARSHIPS & BURSARIES

MOUNT ROYAL
UNIVERSITY

TRANSFER CREDIT AND PLAR

TRANSFER CREDIT AND APPLICATION OF CREDIT

Applicable course work completed at other recognized or accredited post-secondary institutions will be considered for possible transfer credit toward a Mount Royal University degree, applied degree, diploma or certificate, subject to the following limitations:

1. Only course work completed at recognized or accredited post-secondary institutions will be considered for possible transfer credit.
2. Transfer credit based on course work completed at other recognized or accredited post-secondary institutions will be assessed only upon a student's admission to a certificate, diploma or degree at Mount Royal University and receipt of the official transcripts.
3. Only those courses completed at another recognized or accredited post-secondary institution which are applicable to and required for graduation from a degree, diploma or certificate program will be assessed and recorded as transfer credits on a Mount Royal University transcript.
4. The amount of transfer credit that may be awarded is limited by the University's residence requirements which specify that at least 50% of the course work required for a Mount Royal University parchment must be completed at the University. For more information, see the Academic Programs and General Graduation Requirements sections.
5. Transfer Credit will be considered only for those courses which have been completed with the minimum grade required for program continuance; see individual program curriculums. If a program continuance is not stated, the minimum grade is 'D'.
6. Normally there is no time limitation for the application of credit toward a Mount Royal University credential for any course completed at Mount Royal University or at any recognized accredited post-secondary institution. However, time limitations for individual courses may be imposed if the course content is particularly time-sensitive. Any such time limitations must be approved by the dean/director of the appropriate faculty/school/centre upon recommendation from the Chair.
7. Unspecified credit for courses which Mount Royal University does not currently offer will not be considered except when the course has been completed at an accredited, post-secondary institution and is at the same or higher level than courses offered by Mount Royal University. In that case students may be granted unspecified credit up to the maximum number allowable under specific program requirements and/or residency requirements.

Students may view their transfer equivalencies online in their MyMRU account, under Online Services, Transfer Equivalencies.

TRANSFER CREDIT GENERAL EDUCATION

Students wishing to satisfy General Education requirements through transfer credit from other institutions need to contact the Office of the Registrar to have their course(s) evaluated. Students planning to transfer to another institution need to contact that institution for information on their transfer credit process.

RECOGNITION OF CREDIT FOR DEGREE HOLDERS

1. Students entering an applied degree who possess an acceptable degree from a recognized or accredited university or post-secondary institution will be exempted from the six (6) Arts and Science Requirements, depending upon the program which they are intending to complete. (See *General Graduation Requirements section*). The degree program must have included an appropriate arts and science component in terms of both breadth and depth.

2. Entering students who possess an acceptable degree from a recognized or accredited university or post-secondary institution will also be exempt from any program elective requirements as defined and specified in the University calendar, subject to the approval of the department Chair.
3. Both types of exemptions will be granted regardless of when the degree was obtained.
4. All of these exemptions also apply to students admitted into an applied degree program who have successfully completed a career diploma program at Mount Royal University. Students are encouraged to consult a faculty or academic advisor early in the application process.

LETTER OF PERMISSION

Students who are registered in baccalaureate degree, diploma, or certificate programs at Mount Royal University may be granted permission to take a limited number of courses at other recognized or accredited post-secondary institutions, which, if completed successfully, will be counted for credit toward their program at Mount Royal University. Such permission must be obtained before the student registers at the other post-secondary institution and is always at the discretion of the Chair of the department in which the student is registered. The number of courses that can be completed elsewhere with a *Letter of Permission* is also limited by the number of transfer credits permitted toward a parchment by the department concerned. (See policy on *Residence Requirements* in the section entitled *General Graduation Requirements*). A *Letter of Permission* must be obtained prior to taking the course(s) at another post-secondary institution, and it is the student's responsibility to ensure that the Office of the Registrar at Mount Royal receives the official transcript indicating final results.

A student enrolled at Mount Royal University should not enrol simultaneously with another educational institution without prior permission from the Registrar of Mount Royal University and the Registrar of the other educational institution the student wishes to attend. A *Letter of Permission* form will be required to complete the approval process.

PRIOR LEARNING ASSESSMENT AND RECOGNITION

Policy

Many students enter Mount Royal University with work, academic, and life experiences that may reflect sound knowledge of subject matter covered in courses offered for credit by the University. Prior learning assessment is a method of recognizing and accrediting the demonstrated knowledge that has resulted from those experiences.

Mount Royal University fully supports the following academic principles with respect to prior learning assessment and recognition which have been developed and endorsed by the Alberta Council on Admissions and Transfer.

1. Recognition of prior learning should be based on demonstrated learning.
2. Recognition of prior learning should be appropriate to the course or program in which it is accepted.
3. Recognition of prior learning should be consistent with the achievement levels required by the post-secondary program in which it is accepted.
4. Recognition of prior learning should be for learning that has a balance, appropriate to the subject, between theory and practical application.
5. Assessment of prior learning by post-secondary institutions should be made by content specialists, with external advice as necessary.

At Mount Royal University, demonstrated prior learning resulting from work, life, and academic experiences may be assessed by any one of the following evaluation methods or some combination of them:

1. Formal examinations (including challenge examinations and standardized external examinations);
2. Course equivalencies involving evaluation of non-collegiate and/or non-credit programs, courses, certificates and designations; and
3. Documentation and demonstration of achievement through portfolio assessment and portfolio-assisted assessment (including product assessment [work samples], simulation/performance assessment, interviews and oral examinations, and practical and laboratory demonstrations).

The most appropriate evaluation method in any particular case is to be determined by the department Chair, acting on the advice of the content specialists for the subject and/or discipline area for which recognition or credit is requested. The relevant department Chair shall also have the responsibility to evaluate each student's application for prior learning assessment and determine which courses and/or subject areas or disciplines may be reviewed for possible recognition or accreditation, subject to the general academic regulations specified below. Each department shall also compile and maintain a list of courses for its area which shall not be considered for credit or recognition through the prior learning assessment methods indicated above.

Application for recognition of prior learning must be made through the Office of the Registrar.

Procedures

1. In order to obtain recognition of prior learning by the University, the individual requesting the assessment of prior learning must be a registered student at the start of the semester and when the assessment is conducted. New and continuing students who wish to avail themselves of this service are strongly advised to explore and, as appropriate, to initiate the prior learning assessment and recognition process outlined here as early as possible after their acceptance into a program of studies offered by the University. Requests must be received by the end of the first week of classes in any semester. The final assessment of prior learning must be completed by the end of the fourth week of classes in any semester.
2. Students may obtain the Application for Prior Learning Assessment and Recognition (PLAR) Form from the Office of the Registrar. The student must discuss the request with the Collaboration and Articulation Officer who will determine if the request meets policy requirements. If approved the student will complete the form and take it to the appropriate discipline Chair.
3. The Chair will evaluate the student's request for assessment and recognition of prior learning and determine if credit for a specific course or courses may be obtained in this manner. Upon completion of the initial evaluation, the decision of the Chair will be recorded on the Application for Prior Learning Assessment and Recognition (PLAR) Form.
4. The student shall return the form to the Office of the Registrar. The student will be notified when he or she has been registered in the PLAR and fees have been assessed.
5. The assessment of prior learning will be conducted by the department, which will determine whether the student clearly shows above average knowledge of the subject matter. The grading shall be either "CR" (credit awarded) or "NC" (credit not awarded). Under no circumstances will a letter grade be assigned. Courses for which credit is received in this manner will contribute to the student's total credits.
6. Students may confirm online the specific credits they have been awarded through the prior learning assessment process by accessing Student Web Services on the Mount Royal University website (**mtroyal.ca**). The Office of the Registrar shall make the appropriate notation on the student's permanent academic record.
7. A student may request a review of a particular assessment through the normal grade appeal process.

Limitations

1. The purpose of prior learning assessment is to allow students to complete their studies at Mount Royal University successfully. Prior learning assessment is not intended to be used to aid students in transferring to another institution. Any university transferable courses offered at Mount Royal University that are at the 1000 level or higher will not be granted credit by prior learning assessment.
2. Students may not apply for credit by prior learning assessment in any course in which they are currently or have previously been registered at any institution. However, courses taken over six (6) years ago may be recognized for credit through prior learning assessment.
3. In cases where prerequisites exist, students may request assessment and recognition of prior learning only for those courses for which they have the stated prerequisites.
4. No student may receive credit by prior learning assessment in more than two (2) courses within a given subject or discipline area, nor in more than a total of three (3) courses at the University if registered in a diploma or certificate program or in more than a total of six (6) courses if registered in a baccalaureate degree program.
5. This policy, procedures, and limitations are intended to govern the award of academic credit through the assessment and recognition of demonstrated learning resulting from prior life, work, educational and other extracurricular experiences. The assessment and recognition of work experience credit based on prior work experience for purposes of satisfying the graduation requirements of the University's baccalaureate degree programs are covered under separate policy and procedures that apply specifically and exclusively to those baccalaureate degree programs.
6. Students should be aware that academic credit awarded through prior learning assessment at Mount Royal University is guaranteed only toward the University's graduation requirements. Other institutions may or may not allow transfer credit towards degrees, diplomas or certificates for courses recognized or accredited through the University's prior learning assessment process.

ADVANCED PLACEMENT (AP)

Upon admission to a certificate, diploma or degree, students who successfully complete Advanced Placement courses may be considered for transfer credit for approved courses. An official AP transcript must be sent directly from the Advanced Placement program to Admissions, Mount Royal University.

INTERNATIONAL BACCALAUREATE (IB)

Upon admission to a certificate, diploma or degree, students who successfully complete International Baccalaureate (IB) courses may be considered for transfer credit for approved courses. An official IB transcript must be sent directly from the IBNA office to Admissions, Mount Royal University.

REGISTRATION INFORMATION

GENERAL INFORMATION

Registration is the process of formally recording the enrolment of a student in a course or courses. Registration requires agreement by the student to be bound by the rules and regulations of the University, accepting that these may be amended from time to time. Only a student who has been admitted or re-admitted or who is continuing from one semester to the next and whose transcript of record indicates eligibility to continue may register in credit courses.

The Office of the Registrar may adjust or cancel any course registrations which are inappropriate or for which the stated prerequisites are not satisfied. Consult the Course Prerequisite Requirements found within the section How to Register.

Student Responsibility

Students are responsible for the completeness and accuracy of their course registration. It is the student's responsibility to ensure that courses selected are appropriate and meet program/graduation requirements. Academic advisors are available to assist students in the selection of their courses. Students are expected to adhere to all critical dates and deadlines as outlined in the Academic Schedule.

Registration Dates

Students must register according to the registration timelines outlined in the *Academic Schedule* section of the University calendar. Dates are subject to change. Contact the Office of the Registrar in person or visit the Mount Royal University website (mtroyal.ca) for current information on registration. Applications for admission should be completed and submitted to the Office of the Registrar well in advance of the registration period.

Availability of Courses

Registration in specific courses is subject to the availability of those courses at the time the student registers.

Workplace Hazardous Materials Information System (WHMIS)

The Workplace Hazardous Materials Information System (WHMIS) is a federally legislated program, which ensures that all persons working with, or in proximity to, chemicals and other defined hazardous materials have access to information about hazardous materials in their workplace. All students registered in courses involving work with chemicals and other defined hazardous materials are required to attend a WHMIS training session at the beginning of each semester. The University reserves the right to withdraw students from those courses requiring this training if students have not completed the training session or cannot produce evidence of having completed comparable WHMIS training in the previous 12-month period.

Students Covered by the Government of Alberta's Workers' Compensation Account

As a result of WCB coverage, students may be eligible to receive workers' compensation benefits in the event of an accident. However, if covered, they do not have the right to sue the employer or the institution.

Any student that has an accident related to their student activities while on Campus or at an authorized site must report the accident to their supervisor/professor and to Campus Security as soon as possible. If necessary, WCB claim forms may have to be completed and filed with the University's Occupational Health and Safety Coordinator.

WCB Coverage for Student Work Experience Outside of Alberta

WCB-Alberta may extend coverage to students working outside of Alberta if the conditions of Section 28⁽¹⁾ of the Alberta Workers' Compensation Act are met. A link to the WCB legislation is found at wcb.ab.ca/public/policy/legislation.asp.

If you are uncertain if you qualify for WCB coverage while on a practicum or DFS outside the province, check with your supervisor or practicum/DFS coordinator. A WCB fact sheet on Student Coverage is available at wcb.ab.ca/pdfs/workers/WFS_Student_coverage.pdf.

HOW TO REGISTER

Students may register online by accessing MyMRU on the Mount Royal University website (mtroyal.ca). Refer to *Online Registration Instructions* for more information regarding online registration. In person registration assistance is also available at the Office of the Registrar. Consult the Mount Royal University website for more detailed instructions registration. Students experiencing difficulty with MyMRU may contact the Registration Help Line at 403.440.3303 or toll free at 1.877.676.0686.

New Students

Those students who wish to register in any given semester must follow the procedures outlined in the *Admissions* section of this calendar. Academic advisors are available and may be consulted by students when planning a program prior to registering in courses. Students in some undergraduate programs must consult with an Academic advisor before they will be permitted to register in courses.

Those students who are not admitted to a defined program of study may apply and register as an open studies student. Open Studies students are eligible to take up to five (5) courses (any combination of credit and credit-free upgrading courses) per semester. For additional information about Open Studies, please visit: mtroyal.ca/openstudies

Continuing Students

Continuing students may register according to the dates posted on MyMRU on the Mount Royal University website (mtroyal.ca) prior to the start of the registration cycle for each semester. Students in some undergraduate programs must consult with an Academic advisor before they will be permitted to register in courses.

Returning Students (absence of less than twelve (12) months)

Students who have interrupted their studies for one or two semesters are not required to re-apply for admission provided they are returning to the same program. Students wishing to continue their studies in the same program must advise the Office of the Registrar of their intent to register to register by email at creditregistration@mtroyal.ca.

Course Prerequisite Requirements

Prerequisites for each course are listed in the online Schedule of Classes and indicated in the course description section of the University calendar.

It is the responsibility of the student to de-register themselves from any course(s) for which they do not satisfy the prerequisite. Failure to do so may result in deregistration from that course(s).

If a prerequisite has been completed in high school and/or at a previous post-secondary institution(s), it is the student's responsibility to submit an official transcript(s) which must be received in accordance with the deadlines outlined in the Academic Schedule.

Course Waitlists

If requested classes are full and there are no alternative sections available, students can place themselves on a waitlist for a class. Students are chronologically registered in courses from the waitlist if space becomes available. There is no guarantee that a student will receive a seat in the desired course regardless of their position on the waitlist. Students may only waitlist for one section per course. It is the responsibility of each student to check MyMRU (mtroyal.ca) to confirm whether he or she has been registered in a class for which he or she was initially waitlisted.

Three weeks prior to the start of each semester the option to waitlist will no longer be available and all pre-established waitlists will be dissolved. After waitlists are dissolved, and up to the end of the registration adjustment (Drop/Add) period, students can only register in courses with available seats. Students are not permitted to attend any classes in which they are not registered. It is the responsibility of each student to begin attending those classes for which he or she is shown as registered. Students who are added to a class from a waitlist, but who subsequently decide that they do not wish to attend that particular course must drop it from their timetable by making a registration adjustment within the deadline dates specified in the Academic Schedule. Students who do not officially cancel or drop a course to which they have been added from a waitlist will be considered as registered in that course and will be charged full fees for that course whether they subsequently attend classes or not.

Confirmation of Registration

During and after each registration session, students may confirm their course registration status by accessing MyMRU on the Mount Royal University website (mtroyal.ca). It is the responsibility of the student to notify the Office of the Registrar of any discrepancy in their course registration status and to arrange for correction where appropriate. If a student stops attending a course for which he or she is officially registered and does not take proper cancellation or withdrawal action, she or he will be awarded a grade appropriate to their performance in the course. The University does not automatically cancel or withdraw those students who cease to attend classes and fail to follow appropriate cancellation or withdrawal procedures.

Audit Students

Auditors are students who have been granted permission in writing by a professor to attend lectures in a course on the understanding that they may not participate in assignments or examinations. Such permission will be contingent upon seats in the course being available. Once she or he has registered to audit a course, a student may not change to credit, nor will the student who has registered for credit in a course be permitted to change to audit. Audit courses will be reflected on the student's permanent record with the symbol "AU". The student may, in succeeding semesters, take any course for credit, which has previously been audited.

Auditors must present a signed Registration form to the Office of the Registrar. Final permission to audit a course cannot be given until the day after the registration adjustment (Drop/Add) period, when the space available in a course is known. Requests for permission to audit must be received by the end of the fourth week of classes in any semester.

See *Fees and Deposits* section for course fee.

Maximum Student Course Load

Students may carry up to five (5) courses (normally between 14- and 19-credits) per semester depending on the program of study. Students who seek permission for course overload should review their academic record with their program Chair or academic advisor prior to registration. A student with a less than satisfactory academic performance record may be advised to take a course load reduced to below the normal load shown in the calendar.

The University may refuse to grant a student permission to enrol in more courses than the normal program load. Students transferring from other institutions are not eligible for course overload in their first semester at Mount Royal University.

Late Registration

All students who apply and register for Open Studies on or after the first day of classes will be required to pay a non-refundable late registration deposit of \$75 in addition to the \$70 application fee. This late registration deposit will not be applied toward tuition. **Under no circumstances will requests for late registration be accepted after the end of the registration adjustment (Drop/Add) period.**

Incomplete Registration

Failure to satisfy any of the admission, registration, or fee payment requirements may result in deregistration from all classes.

Mount Royal Campus Card

The Mount Royal Campus Card is the official identification card for students and employees at Mount Royal University. The information contained on your card includes your name, student/employee identification number, and your photo. It will be necessary to have this card with you to access a variety of University departments such as the Library, Recreation and computer labs (You will have to meet eligibility requirements at these locations).

Once you have been issued a Campus Card it's yours for life. You don't need a replacement card when you enroll in a new semester. To validate your card, pick up a new validation sticker available from the Campus Card (E251) office a couple of weeks prior to the start of any semester. Students and employees must provide their Mount Royal Campus Card at Security Services (X200) to access Mount Royal University after 10 p.m.

eCampusAlberta

eCampusAlberta is a consortium of 15 Alberta Colleges Technical Institutes, and Universities acting in partnership to offer students greater access to online learning opportunities. Each member institution develops, contributes and offers its respective online courses, and as well, offers services and supports to students taking online courses from other member institutions. Institutions participating in eCampusAlberta have articulated their commitment to quality, access, transferability and partnership in the provision of online learning opportunities for Albertans. This approach gives Alberta learners flexible and convenient access to a wide array of post-secondary learning opportunities in a supported learning environment. Students enrolled in courses through eCampusAlberta have access to round-the-clock technology support 7 days a week by phone or by e-mail. A technical support fee of \$25 is applied to each eCampusAlberta course to cover this support. To view an inventory of online learning opportunities available through eCampusAlberta, visit the website at: ecampusalberta.ca For additional information about eCampusAlberta at Mount Royal University, please contact us by phone at 403.440.3303 or toll free at 1.877.676.0686 or by e-mail at: ecampus@mtroyal.ca

CHANGE OF REGISTRATION

CANCELLATION PROCEDURES

Students who decide to cancel their registration must do so in writing or online through MyMRU on the Mount Royal University website (**mtroyal.ca**) prior to the last day of the registration adjustment (Drop/Add) period specified in the *Academic Schedule*. No fees will be refunded after this date.

COURSE CANCELLATION BY THE UNIVERSITY

All courses must meet minimum enrolment requirements. Therefore, the appearance of a course in the *Schedule of Classes* is no guarantee that it will be taught.

A course cancelled by the University, for whatever reason, is automatically removed from the student's registration record and, where applicable, tuition refunds will be given.

CHANGE OF PROGRAM

Students wishing to change their program of study must formally apply to enter the new program and complete an Application for Admission Form available at the Office of the Registrar or online on the Mount Royal University website (**mtroyal.ca**). All requests for admission to limited enrolment programs are subject to the approval of the department Chair.

DROPPING/ADDING A COURSE

The courses for which a student is registered at the end of the registration adjustment (Drop/Add) period constitute that student's official registration and semester load.

Students can add or drop courses up until midnight on the day of the registration adjustment (Drop/Add) deadline specified in the Academic Schedule. Students who drop a course will receive a tuition refund minus applicable fees. There is no notation on the transcript for a dropped course.

Note: Students who add a course up to midnight on the day of the Drop/Add deadline are responsible for ensuring the difference in fees has been paid before the fee payment deadline.

WITHDRAWAL FROM A COURSE

After the registration adjustment (Drop/Add) deadline and up until the withdrawal deadline, a student can withdraw from any course by submitting a completed Withdrawal Request Form to the Office of the Registrar. Depending on the circumstances, a student will receive a 'W' or 'WC' notation on their transcript. Students are encouraged to consult with their instructor or academic advisor before making a decision to withdraw from a course. No tuition refunds will be given.

The official withdrawal date from a course or program is the date the student first advises the Office of the Registrar in writing of the intent to withdraw. Students who stop attending classes and do not follow the proper withdrawal procedures will be assigned an "F" grade for that course. Students wishing to withdraw from the last course in which they are registered must follow the procedures for Withdrawal from the University.

WITHDRAWAL FROM THE UNIVERSITY (COMPLETE WITHDRAWAL)

Students who find it necessary to stop attending Mount Royal must withdraw officially by means of a Withdrawal Request Form. Until a student officially withdraws, the student remains registered in all courses and at the end of the semester will normally be assigned an "F" grade for each course. Normally, no student will be permitted to withdraw after the last day of classes (as per the Academic Schedule). Students who follow the proper

procedure will be assigned a "W" or "WC" on their academic transcript for the course(s) in which they were registered.

Students who have decided to withdraw completely from Mount Royal must get a signature from an advisor, a Chair or Mount Royal counsellor on the Withdrawal Request Form. We also encourage students who are experiencing emotional distress to contact Student Counselling before initiating a complete withdrawal.

Note: Students are advised that, if withdrawal results in a semester course load of less than nine credits and fewer than three courses (normally), they make themselves ineligible for financial assistance. See the section entitled Financial Aid.

It is the responsibility of the student to inform the Office of the Registrar in writing if he or she intends to discontinue attending class. **Telephone withdrawals will not be accepted under any circumstances.**

LATE WITHDRAWAL

A student may request approval for a course or complete withdrawal after the deadline (as per the Academic Schedule) solely on the basis of the following reasons:

1. Serious illness verified in writing by a physician; or
2. Severe emotional distress verified in writing from Student Counselling Services or other registered mental health care professional.

A student asking for withdrawal because of special circumstances must submit a completed Withdrawal Request Form to the Office of the Registrar prior to the last day of classes. Students who follow the proper procedure and who receive approval will be assigned "WC" on their academic transcript for the course(s) in which they were registered.

Normally, a request for a late withdrawal will not be considered after the last day of classes. Except under exceptional circumstances, a 'WC' will not be assigned if the student has an 'I' contract agreement in place for the course. **Under no circumstances will applications for a late withdrawal be accepted after the final examination for a course(s) has taken place.**

The following table suggests the type of documentation that is required at various times of the semester.

Up to deadline	Documentation Required	Refund Consideration
Drop/Add	None.	Automatic refund
Withdrawal	None required (W) Medical / mental health note (WC)	None.
Last day of classes	Medical / mental health letter that specifies (i) why you could not meet the deadline and (ii) why it is not possible for you to finish the semester. It is usually not enough to say you have been sick.	None.
Final exam	As a first step, you will be asked if you applied for a deferred exam or an 'I' contract. Severe medical / mental health condition verified in writing by physician and/or mental health care professional.	None.

FREQUENTLY ASKED QUESTIONS

When can I register?

Current students: check your Registration Access Date on MyMRU.

New students: register on or after your registration access date on MyMRU, or following your advising session or appointment.

I've been offered admission into a full-time program but I can't activate my MyMRU account.

You need to pay your \$125 non-refundable registration deposit before you are able to activate your MyMRU account. Processing of registration deposits will take one to two business days after you have paid your deposit.

Do I require advising?

If you require advising, indicated with your registration access date, you must contact your academic advisor to make an appointment. Your academic advisor can then arrange access to the registration system (MyMRU) on or after your posted registration date. Although you may not require advising for your current program, you may require advising if you are admitted into a new program.

Do I have the prerequisites?

Specific prerequisites for all courses can be found in the course description section of this calendar and in the Schedule of Classes. Proof of successful completion of a prerequisite course must be submitted to the Office of the Registrar in accordance with the transcript deadlines outlined in the Academic Schedule and on the Mount Royal website. Students must de-register themselves from any course(s) for which they do not satisfy the prerequisite. Failure to provide proof of successful completion may result in deregistration from that course(s).

What if a course is restricted?

Some courses at the University are restricted to students in specific programs. If you are not in that program and you try to register in a restricted course, you will receive an error message, and be unable to register.

Periodically program Chairs may remove program restrictions from courses allowing other students to register for those courses. Check MyMRU to determine if program restrictions have been removed.

May I change to a different section of a course?

Yes, but make sure that the section of the course you want is available before you drop one in which you are currently registered.

How will I know if I received a waitlisted course?

If your waitlisted course or section becomes available, you will automatically be registered for it. Three weeks prior to the start of each semester the option to waitlist will no longer be available and all pre-established waitlists will be terminated. It is your responsibility to check to see if you have been registered in a waitlisted course and pay fees by the fee payment deadline.

How do I pay my fees?

- Log on to and pay by Mastercard or Visa.
- Through your bank, using online or telephone banking. Use your student ID as the payment account number and allow for two business days for bank processing.
- On Campus, drop your cheque/money order into the drop box located at the Office of the Registrar in Kerby Hall. Be sure to include your Student ID number on your payment.

Where can I get assistance using MyMRU for course registration and waitlisting?

- Contact the Credit Registration Help Line at 403.440.3303 or toll-free at 1.877.676.0686 during regular office hours.
- E-mail Credit Registration at creditregistration@mtroyal.ca
- On the MRU website at: mtroyal/creditregistration

ONLINE REGISTRATION INSTRUCTIONS

mymru.ca

1

Login using your username and password. If you do not yet have an account, click on [Account](#) to activate your account. Remember to read and accept the terms of the [Acceptable use policy](#).

In order to activate your account you are required to identify yourself using your first name, last name, MRU student identification number and your date of birth.

If you are having problems activating your account, please first check your information carefully, then call our Helpdesk at 403.440.6000.

2

Once you are signed in, click the [Student resources](#) tab.

3

Click the [Registration](#) link.

4

Click on [Select term](#) and choose the appropriate semester for registration.

5

Proceed with registration using the [Add/drop classes](#) link or the [Look up classes](#) link.

If you require further assistance contact the Registration helpline at 403.440.3303 or toll-free at 1.877.676.0686.

Schedule of Classes

The courses offered in each semester are listed in the online Schedule of Classes. Course information is available several months prior to the commencement of the semester. Information in the Schedule regarding room assignments and professors is current at the time of posting on the Mount Royal University website: mtroyal.ca. The University reserves the right to make any changes it deems necessary and to adjust any student's registration in accordance with the information presented in the Schedule. Updated information is available through the Student Resources section on MyMRU.

REGISTRATION — TROUBLESHOOTING

WAITLIST INFORMATION

- Students may carry up to five courses (normally between 14 and 19 credits) per semester depending on their program of study. Any registered and/or waitlisted course above the maximum will be dropped.
- Students waitlisting for courses with an accompanying LAB or TUTORIAL, must waitlist for the LAB and TUTORIAL at the same time. Failure to do so will result in the waitlisted course being dropped.
- Students are encouraged to create a conflict free timetable including courses for which they are waitlisted.
- Students may not waitlist in an additional section of a course in which they are already registered.
- Students waitlisting in multiple sections of the same course will be dropped from all duplicate waitlisted sections.
- Students may view a list of courses for which they have waitlisted by going to the Add/Drop screen (in MyMRU) for the current semester. This screen will also allow students to remove themselves from a waitlist.
- If your waitlisted course becomes available, you will automatically be registered for it. Three weeks prior to the start of each semester the option to waitlist will no longer be available and all pre-established waitlists will be terminated. It is your responsibility to check to see if you have been registered in a waitlisted course and pay fees by the fee payment deadline.

HOW TO WAITLIST FOR A CLASS

1. Click on the Add/drop classes option on the registration menu.
2. Enter the CRNs for the classes you want to add.
3. Click on the Submit changes button.
4. If a class is full, you will receive a registration error message showing the class is closed and the number of people waitlisted.
STATUS: CLOSED-006 WAITLISTED.
5. Select the Waitlisted option in the action drop down box. (Note: if it is past the last day to waitlist, the Wait Listed option will not appear in the action drop down box).
6. Click on the Submit changes button.

REGISTRATION ERROR MESSAGES: WHEN THEY OCCUR AND HOW TO RESOLVE THEM

Closed-002 waitlisted

This class is full and has two students on the waitlist. You may waitlist for this course (you would be #3 on the waitlist) or drop the class. Please note, waitlisted courses do not appear on your timetable.

Degree/program/major restriction

This course is reserved for students in a specific program of study.

Duplicate CRN

You have chosen a class in which you are already enrolled.

Link errors

If you receive a Link error you have attempted to enrol in a lecture without the supporting tutorials and/or labs. Check your Schedule of Classes.

Maximum hours exceeded

Most students register in a maximum of five courses and part-time students are normally restricted to two courses. If your registration exceeds the maximum, this error will appear. Please contact the Registration Helpline for assistance.

Pre req: Test score error

You are attempting to register in a class for which you have not successfully completed the prerequisite.

Time conflict with CRN XXXX

The class with the error message overlaps by day and/or time with the class indicated. You must choose a different section of this class or a different class altogether.

Please contact the registration administrator for your time ticket

- You may have tried registering without selecting the correct registration term. Go back to Registration Menu and select the appropriate term.
- You may be trying to register before your registration date.

Note: if you exit without resolving registration errors, you will NOT be registered in the courses selected.

If you require further assistance contact the Registration Helpline at 403.440.3303 or toll-free at 1.877.676.0686.

The payment of all fees and deposits is mandatory. The Board of Governors reserves the right to change fees and deposits when necessary and without notice.

All students in all semesters will pay tuition, Recreation and Athletics, instructional equipment, laboratory and insurance fees. Students' Association fees are set by the Students' Association and are collected by the University on their behalf.

Students enrolled in the Athabasca University designated courses within the Bachelor of Arts – Athabasca University at Mount Royal University and the Bachelor of Nursing – Athabasca University at Mount Royal University will pay rates established by Athabasca University, which may include compulsory course material fees.

FEES AND DEPOSITS

The payment of all fees and deposits is mandatory. The Board of Governors reserves the right to change fees and deposits when necessary and without notice.

All students in all semesters will pay tuition, Recreation and Athletics, instructional equipment, laboratory and insurance fees. Students' Association fees are set by the Students' Association and are collected by the University on their behalf.

Students enrolled in the Athabasca University designated courses within the Bachelor of Arts – Athabasca University at Mount Royal University and the Bachelor of Nursing – Athabasca University at Mount Royal University will pay rates established by Athabasca University, which may include compulsory course material fees.

HOW TO PAY FEES

Students may pay their fees by cash, cheque, Canadian bank money order/bank draft, debit card, Visa or MasterCard using the following methods:

- Visa or MasterCard payment via MyMRU on the Mount Royal University website (**mtroyal.ca**);
- Online banking via your financial institution, ensure that you allow two to three business days for bank processing;
- Telephone banking via your financial institution. Ensure that you allow two-three business days for bank processing;
- Mail a cheque or Canadian money order payable to Mount Royal University and attention to Student Fees (A101). Ensure that you allow sufficient time for mail delivery;
- Place a cheque or Canadian money order in the Student Fees drop box (outside A101);
- In person at the Office of the Registrar (Room A101 at the entrance to Kerby Hall);
- If fees are to be paid from government student loans, you must notify the Student Awards and Financial Aid Office to ensure the deferral of fees.

Note: Any changes to Program or Registration Status may affect a student's account balance. It is the student's responsibility to check their account balance any time changes are made.

Note: Post-dated cheques are not accepted.

Fee Payment Procedures all Semesters

Any unpaid fees owing on either Fee Deadline results in cancellation of registration in all classes for the Semester. After the initial Fee Deadline is missed, students may re-register, and are automatically assessed a \$50 re-registration fee. After the second and final Fee Deadline is missed, students may only re-register at the Office of the Registrar, and are automatically assessed a \$50 re-registration fee. All students that apply and register for Open Studies/part-time studies on or after the first day of classes will pay a late registration fee of \$75 in addition to the \$70 application fee. This fee will not be refunded nor is it applied to regular tuition fees.

All new full-time students pay a \$125 non-refundable registration deposit. The Registration Deposit for new students confirms their acceptance of an offer or a conditional offer of admission into a program. Although the deposit is non-refundable, it will be credited toward regular tuition fees.

FEE PAYMENT DEADLINES

Fall 2011

For Fall Semester 2011, all registered students must pay FULL FEES by **August 10, 2011**. Students who have not paid their fees by this date for the Fall semester will be de-registered from all classes. If registering on or after **August 11, 2011** fees must be paid by **September 19, 2011**. Students registering and paying their fees after **August 10, 2011** risk not being able to register in required classes. Early registration and payment of fees by **August 10, 2011** is recommended. Students cancelling their registration after **August 10, 2011** will receive a full refund less \$125 non-refundable registration deposit. No fees will be refunded after **September 16, 2011**. Students who have not paid their fees in full for the Fall semester by **September 19, 2011**, will be de-registered from all classes. After this date, students can only be reinstated into ALL of their classes by re-registering at the Office of the Registrar and by paying their fees IN FULL plus a late registration fee on or before **September 30, 2011**. Students who fail to pay their fees by this date will not be allowed to register in any classes unless proof of a student loan application can be provided.

Winter 2012

For Winter Semester 2012, all registered students must pay FULL FEES by **December 1, 2011**. Students who have not paid their fees for the Winter semester by this date will be de-registered from all classes. If registering on or after **December 2, 2011** fees must be paid by **January 18, 2012**. Students registering and paying their fees after **December 1, 2011** risk not being able to register in required classes. Early registration and payment of fees by **December 1, 2011** is recommended. Students cancelling their registration after **December 1, 2011** will receive a full refund less the \$125 non-refundable registration deposit. No fees will be refunded after **January 17, 2012**. Students who have not paid their fees in full for the Winter semester by **January 18, 2012** will be de-registered from all classes. After this date, students can only be reinstated into ALL of their classes by re-registering at the Office of the Registrar and by paying their fees IN FULL plus a late registration fee on or before **January 31, 2012**. Students who fail to pay their fees by this date will not be allowed to register in any classes unless proof of a student loan application can be provided.

Spring 2012

For Spring Semester 2012, all registered students must pay FULL FEES by **April 25, 2012**. Students who have not paid their fees for the Spring semester by this date will be de-registered from all classes. If registering on or after **April 26, 2012** fees must be paid by **May 11, 2012**. Students registering and paying their fees after **April 25, 2012** risk not being able to register in required classes. Early registration and payment of fees by **April 25, 2012** is recommended. Students cancelling their registration after **April 25, 2012** will receive a full refund less the \$125 non-refundable registration deposit. No fees will be refunded after **May 10, 2012**. Students who have not paid their fees in full for the Spring semester by **May 11, 2012** will be de-registered from all classes. After this date, students can only be reinstated into ALL of their classes by re-registering at the Office of the Registrar and by paying their fees IN FULL plus a late registration fee on or before **May 16, 2012**. Students who fail to pay their fees by this date will not be allowed to register in any classes unless proof of a student loan application can be provided.

FEE DEFERRALS

Students who present evidence of sponsorship by a government agency or a student loan are eligible to have their tuition and fee payment deferred. Evidence of student loan or sponsorship must be presented each semester. Students must register in at least three (3) courses and a minimum of nine (9) credits to qualify for government loans and deferral of fee payment to the University. If confirmation is not on record, students must present to the Student Awards and Financial Aid office (Room E102) proof of a student loan prior to the fee payment deadlines shown above. Failure to provide confirmation of student loan prior to the appropriate fee payment deadlines will result in cancellation of registration.

Students eligible for sponsorship and government loans are given special payment deferral privileges whereby automatic deregistration of all courses does not occur once fee deferral has been granted. Therefore, unless formal cancellation procedures are followed prior to the deadlines shown in the *Academic Schedule*, students receiving sponsorship and/or loans are required to pay all fees.

Note: Once a student loan is signed by the University, payment of fees for any courses that are added (from the wait list or due to a registration/program adjustment) are the responsibility of the student. Students are de-registered from all classes if any charges remain outstanding on the Fee Deadline.

NON-PAYMENT OF FEES

Student transcripts, diplomas, scholarships, medals, prizes and standing will not be issued nor will students be permitted to register in subsequent semesters until all financial obligations attributable to fees, fines, deposits and non-return of equipment, material or library books, etc. are settled.

Returned Cheques

Any student who presents a cheque that is returned by the bank (e.g., N.S.F., Stop Payment, Account Closed, etc.) will have a Financial Hold placed on their account for one (1) year. Any future payments must be made by cash, certified cheque, money order, debit, Visa or MasterCard. In addition, a charge of \$25 will be assessed on each returned cheque.

Fee Refunds

Refunds are only issued to students who follow formal cancellation procedures before the deadlines shown in the *Academic Schedule*. No refunds will be issued after the end of the registration adjustment (Drop/Add) period for each semester.

In calculating the refund, the University retains a \$125 registration deposit/cancellation fee and will only refund the balance of fees paid.

Students should allow five to seven weeks for refund processing. If originally paid by cash, cheque, debit, or online banking, refund will be processed by cheque. Please ensure that your address is current as cheque refunds cannot be processed if your address on file is inactive. For payments made by Visa or MasterCard (including via MyMRU), where possible refunds will be credited back to credit card originally used for payment. Alternatively the refund will be processed by cheque.

Fee Reassessment Due to Registration Adjustments

After the registration adjustment deadline has passed, students are responsible for verifying and paying any outstanding balance. Refunds will be issued for those students who have overpaid.

Students will not be allowed to register in subsequent semesters or to receive transcripts or other services until all financial obligations are met.

SCHEDULE OF FEES

Registration Fee

All new full-time students pay a \$125 non-refundable registration deposit. The Registration Deposit for new full-time students confirms their acceptance of an offer or conditional offer of admission into a program. Although the fee is non-refundable, it will be credited toward regular tuition fees.

Any continuing students or re-admitted students requesting a program change must also pay a \$125 non-refundable registration deposit. The Registration Deposit for re-admitted or continuing students is a conditional acceptance subject to their academic status at the time of registration. Although the fee is non-refundable, it will be credited toward regular tuition fees.

Application Fee

A non-refundable processing fee of \$70 must accompany every application requesting admission or re-admission to the University. Applications received without the fee will not be processed. The fee is not credited toward tuition fees. Students can apply and pay online using Visa or MasterCard. Payment can also be made in person at the Office of the Registrar by (Room A101 at the entrance to Kerby Hall) Visa, MasterCard, debit, cash or cheque/Canadian money order.

Audit Student Fee

Students choosing to audit a course are assessed fees at one-half the normal course fee cost for the course. See *Registration Information* section for audit regulations.

University Calendar

The University Calendar is available from the University BookStore. The calendar is also available on Mount Royal University's website at mtroyal.ca/AcademicSupport/AcademicCalendar.

Credit Extension and Part-time Studies Course Fee

To offset extra costs involved, a supplementary fee may be assessed for credit extension courses given off-campus.

Deferred Final Examination Fee

Students deferring a final exam are assessed a \$35 fee. This fee is waived in cases of medical exemption or when a student has three (3) exams scheduled in one day. See *Academic Regulations* section for details.

Duplicate Document Fee

Students requesting replacement T2202A forms are required to pay \$10 for each copy requested. Replacement tax forms from 2003 onwards are available free of charge via MyMRU.

Enrolment Verification Fee (International Students)

Registered students who require formal verification of enrolment status will be assessed an enrolment verification fee of \$50 for each enrolment verification requested.

Convocation Fee

Students taking part in Convocation will pay a \$50 graduation fee.

Late Registration Fee

All students who apply and register for Open Studies on or after the first day of classes will pay a late registration fee of \$75 in addition to the \$70 application fee. This fee will not be refunded nor is it credited toward regular tuition fees.

Locker Rentals

Full-length, Half-length and Box lockers are available for rent at the Parking & Transportation Services office. Rental agreements are for September to April (Fall & Winter Semester) and May to June (Spring Semester). For current price information please visit our website at mtroyal.ca/AboutMountRoyal/TransportationParking/Lockers/index.htm or visit the Parking & Transportation Services Office. Lockers must be completely cleared of contents upon expiration of the rental agreement. Any contents remaining in the lockers at the expiration of the locker rental agreement will be turned over to the Lost & Found collection (administrated by Campus Security) and will be disposed of if not claimed within 30 days.

Mount Royal University does not accept responsibility for any damage to the contents or loss of items from lockers, which have been rented to students and/or other parties. Valuables should not be stored in lockers. Students must use the locks provided by the University.

Mount Royal Campus Card

A lost, stolen, or damaged card will be replaced by the Campus Card office for a fee of \$10. (This fee will be waived if you provide a photocopy of a Calgary Police Service report.) If you lose your Mount Royal Campus Card, please contact Security Services immediately at 403.440.6897.

Parchment Replacement Fee

Students are required to pay a \$50 fee for replacement of parchments.

Parking Fee

Limited parking is available to students on campus. Students may apply for a parking permit for a fee per semester. The display of a valid parking permit in the vehicle does not guarantee a parking space, but authorizes parking in available spaces in designated student parking lots.

Prior Learning Assessment and Recognition Fee (PLAR)

Students wishing to have their prior learning assessed and recognized (to satisfy graduation requirements of a baccalaureate applied degree, diploma, or certificate program) will pay fees as assessed at one-half the normal course fee cost for the particular course for which recognition of credit is requested. See *Transfer Credit and Evaluation of Prior Learning* section for prior learning assessment and recognition regulations.

Registration Deposit/Cancellation Fee

Students who cancel their registration after the fee payment due date and prior to the drop date will forfeit a registration deposit/cancellation fee of \$125 which will be withheld from the refund of any fees that have been paid.

Registration Reinstatement Fee

Students whose registration is cancelled for non-payment of tuition and/or other fees must pay a non-refundable \$50 registration reinstatement fee after each Fee Deadline has passed. Registration reinstatement is subject to course availability and is therefore not guaranteed.

Spring Semester Fee

A \$15 per full course surcharge will be added to tuition fees for students enrolled in the Spring Semester.

2011/2012 Student Fee Schedule

The 2011/2012 Student Fee Schedules had not been finalized as of the date of publication of this calendar.

Students should consult the University's web-site at mtroyal.ca for the most up to date information on tuition fees for 2011/2012 and subsequent years. Students may also obtain up to date fees information by calling the Fees Office at 403.440.8880.

Please also refer to the Fees and Deposit section of this calendar to obtain a detailed description of the fees that will be assessed to students. The payment of all fees and deposits is mandatory. The Board of Governors reserves the right to change fees and deposits when necessary without notice.

Technology Support Fee for eCampusAlberta Courses

eCampusAlberta is a consortium of 15 Alberta Colleges, Technical Institutes, and Universities acting in partnership to offer Albertans greater access to online learning opportunities. Students registered in eCampusAlberta courses have access to round-the-clock technology support. A \$25 technical support fee is applied to each course to cover this support. Students access the 7-day-a-week technology support by toll-free phone 1.866.548.8544 or by e-mail ecampusalberta.ca/support. For more information on eCampusAlberta, visit the website at: ecampusalberta.ca

Transcript Fee

Costs for official transcripts are \$10 for each copy ordered. Official transcripts are normally issued to educational institutions, potential employers, and students upon request. Generally, two to three working days are required for processing requests for official transcripts. Students who request an unofficial copy of their complete academic transcript are charged \$2 for each copy requested; unofficial transcripts are generated on demand.

EXPLANATION OF FEE SCHEDULES

International Student

Non-Resident Fee Schedule

All international students with student visa or non-Canadian resident status enrolling at Mount Royal University for the first time and for subsequent semesters, will be required to pay fees based on the International Student Fee Schedule.

General Fees

The payment of all general fees is mandatory for all students. The general fees cover instructional equipment and lab fees, Recreation and Athletics fees, and an accident insurance fee. The instructional equipment and lab fees provide supplementary funding for the purchase of supplies and equipment used for instructional support purposes by students and faculty. The Recreation and Athletics fee is used to support and develop varsity sport and recreation programs and services for the University community.

Universal Bus Pass Fee

All eligible students taking 3 courses (minimum of nine credits) in each semester are assessed a fee for the universal bus pass (U-Pass) which provides unlimited rides on Calgary Transit buses and C-Trains for a one-time per semester fee. The U-Pass program is administered through the Parking and Transportation Services Office. For additional information on the U-Pass program please visit the following web link

mtroyal.ca/AboutMountRoyal/TransportationParking/U-PassFAQs/index.htm.

Student Accident Insurance Fee

This fee is levied each semester and is intended to provide students with the following benefits (subject to change):

- **Accident Expense Reimbursement**
- **Dental Accident Reimbursement**
- **Permanent Total Disability Benefit**
- **Other Benefits**

When Coverage Applies – Those students who have enrolled in a minimum of 3 full courses are covered for all accidents on a 24-hour basis for the course term.

For those students who have enrolled in less than 3 full courses, coverage applies only while such students are in or on University buildings or premises for the purpose of attending classes or while they are in attendance at or participating in any University activity approved and supervised by a proper authority of the University.

For application forms and further information and specific plan information, contact Health Services (Room U220).

Students' Association Fees

All Students' Association Fees are collected by Mount Royal University on behalf of the Students Association of Mount Royal University (SAMRU). Any questions on any of these fees should be directed to the SAMRU in the Wyckham House Student Centre in the Z wing.

Students' Association General Fee

This fee is levied each semester to provide services and representation to Mount Royal students, and to operate the Wyckham House Student Centre. There are over 90 programs and services available to students, including subsidized events and entertainment, emergency student loans, Peer Support Centre, Native Student Centre, Cultural Mosaic Centre, AccessAbility Centre, Sustainability Centre, Diversity Centre, Student Outreach and Safewalk, and CopyWrite. Please visit our offices in Z222 or samru.ca for a full list of services and representatives.

Students' interests are represented on several University committees including the two governing boards, the Board of Governors and the General Faculties Council, and their subcommittees, Tuition Consultation Committee, and Budget Advisory Committee. Students' Association representatives currently serve on over 80 University committees ensuring that the student voice is heard in decision-making.

Student representation also extends to the provincial and federal level where post-secondary funding originates and is allocated. The Students' Association is a member of the Alberta Student Executive Council (ASEC) and the Canadian Alliance of Students' Associations (CASA) and meets regularly with key political figures to lobby on behalf of student interests.

Students' Association Scholarship Fee

This fee is levied each semester to provide scholarships and bursaries to Mount Royal University students. An endowment is being established that will ensure that funds for students continue to be available in the future.

Students' Association Capital Campaign Fee

This fee is levied to provide the capital funds necessary for the Students' Association to develop its building, the Wyckham House Student Centre, to better accommodate student needs as the University expands, and to pay the mortgage for the newly expanded student centre. The centre has recently undergone a massive expansion, providing 45% more space for students and staff, a new council chambers, new programs, new and exciting food kiosks and much more. Please see samru.ca for further information.

Students' Association Health and Dental Plan Fee

All eligible students taking nine credits or more in each semester of registration are enrolled in the Students' Association extended Health and Dental Plan. The fee is charged in both the Fall and Winter semesters; insurance coverage extends from September 1 to August 31 of each year provided there has been no change in a student's full-time status.

This fee is distinct from the fee charged for the Student Accident Insurance Plan.

Students must fill out the *Personal Information Form* at the Student Benefits Plan Office (room Z001 in Wyckham House) in order to activate their coverage.

Eligible students who have comparable health and/or dental coverage elsewhere may apply to waive benefits. Please note that the provincial health care plan does not qualify as an extended health plan. Each student is given an opportunity to waive benefits under the health and/or dental plan(s) each year, usually within the first three weeks of classes if they are enrolled in another plan with extended coverage. All waiver forms must be completed through the Student Benefits Plan Office or through the One-Time Online Opt-Out and must be received by the applicable deadline for the semester period of enrolment. (Please visit samru.ca for more information). Confirmation of existing coverage must show the name of the insurance company providing coverage and the policy number. The easiest way for students to provide confirmation of coverage is by presenting a copy of a benefits card or a confirmation letter from the employer/insurance company. Confirmation may also be provided by presenting other documents such as a recent statement of claim, web page print-out or other insurance company document identifying you, the insurer and the policy number. **Once confirmation of coverage is obtained**, any confirmation documentation provided is destroyed. Approval of waiver forms will result in the plan fee being refunded. Opt-out cheques will be available for pick up in the fall and winter semesters for eligible students (9 or more credits at MRU). There will be no exceptions or extensions for students who fail to submit their completed waiver to the SAMRU Student Benefits Plan Office prior to the applicable deadline. Students who have previously waived their benefits and have lost comparable coverage, must come into the SAMRU Student Benefits Plan Office and opt-in before the applicable deadline. For full details, please visit the Student Benefits Plan Office in room Z001 in Wyckham House.

Schedule of Special Fees

Special Course Fees

Physical Education

- PHED 1215 \$40

Special Program Fees

Aviation

In addition to regular tuition and general fees, flight training fees are assigned to the flight training courses. Flight training fees, which amount to approximately, \$50,000 over the two-year program, are subject to change depending on operating costs for aircraft and related services.

Bachelor Degree Programs

Mount Royal University (MRU) offers several Bachelor Degree programs. The Board of Governors has approved a supplemental per full course program fee of \$84.50 per full course for all students enrolled in any of MRU's Bachelor's degree programs. The fee is assessed per course based upon the actual number of courses in which the student is enrolled. This fee is a supplemental fee over and above the base per course tuition fees as outlined in the tuition fee tables.

Bachelor of Arts – Athabasca University at Mount Royal University (Admission Suspended)

Students enrolled in the Athabasca University courses offered within the Bachelor of Arts – Athabasca University at Mount Royal University will pay rates established by Athabasca University, which may include compulsory material fees.

Bachelor of Nursing – Athabasca University at Mount Royal University (Admission Suspended)

Students enrolled in the Athabasca University courses offered within the Bachelor of Nursing – Athabasca University at Mount Royal University will pay rates established by Athabasca University, which may include compulsory material fees.

Degree Program Non-credit work experience and Co-operative Education

Non-credit work experience and non-credit co-operative education courses will be assessed a fee of \$482.30 per course (subject to change see University's website for final fees for 2011/2012).

The non-credit work experience professional development course and the non-credit co-operative education preparation course will be assessed a fee of \$241.15 per course (subject to change see University's website for final fees for 2011/2012).

Music

Students enrolled in the Music Performance Diploma will pay a fee of \$225 per semester for private instruction.

Other students will pay an hourly rate as established by the Mount Royal Conservatory.

Application forms and information for all financial assistance programs described below are available from Student Awards and Financial Aid (Room E102).

It is recommended that completed forms be returned to this office. There is no deadline for Alberta residents to apply; however, students are advised to apply well before the beginning of the academic session for which assistance is required.

To be eligible for full-time student financial assistance, Students Finance Board guidelines state that a student must be enrolled in at least 60% of a full course load in a post-secondary program of study that leads to a degree, diploma, or certificate. At Mount Royal University, a student must generally be enrolled in at least three (3) full courses and a minimum of nine (9) credits to meet this criteria.

Application forms and information for all financial assistance programs described below are available from Student Awards and Financial Aid, Enrolment Services (Room E102). Alberta students may be eligible to apply for government student financial assistance on-line at alis.gov.ab.ca.

There is no deadline for Alberta residents to apply; however, students are advised to apply well before the beginning of the academic session for which assistance is required.

To be eligible for full-time student financial assistance, Students Finance Board guidelines state that a student must be enrolled in at least 60 percent of a full course load in a post-secondary program of study that leads to a degree, diploma, or certificate. At Mount Royal, a student must generally be enrolled in at least three (3) full courses and a minimum of nine (9) credits to meet this criteria.

FINANCIAL AID

Information on all financial assistance programs described below is available from Student awards and Financial Aid, Enrolment services (Room E102).

There is no deadline for Alberta residents to apply; however, students are advised to apply well before the beginning of the academic session for which assistance is required.

To be eligible for full-time student financial assistance Students Finance guidelines state that a student must be enrolled in at least 60 per cent of a full course load in a post-secondary program of study that leads to a degree, diploma, or certificate. At Mount Royal, a student must generally be enrolled in at least three (3) credit courses and a minimum of (9) credits to meet this criteria.

CANADA STUDENT LOANS

The Canada Student Loan Program is designed to assist students whose resources are insufficient to provide for the cost of full-time studies at the post-secondary level. To be eligible, applicants must be Canadian citizens or have landed immigrant status. The maximum loan to a student for a full academic year is \$7,140 (\$3,570 per semester).

CANADA STUDENT GRANTS

These grants are available to post-secondary students with permanent disabilities, students from low and middle income families, and students with dependants. Canada Student Grants are available to both full-time and part-time students.

PROVINCE OF ALBERTA ASSISTANCE

The Province of Alberta also provides financial assistance in the form of loans and in some circumstances, grants to residents of Alberta to meet their educational expenses. The maximum combined loan (including both Canada and Alberta loans) for an eight-month period is \$13,300. The lifetime loan limit is \$60,000.

MAINTENANCE GRANTS

These grants, to a maximum of \$6,000, are available to Alberta students with special circumstances. Students considered for these grants include, but are not restricted to single parents, married/common law students whose spouse/partner cannot work for medical reasons or single students required to make maintenance payments.

REPAYMENT

Loans are interest-free during periods of full-time attendance. Students are responsible for providing adequate proof of enrolment to their lender(s) e.g. EDULINX or the National Student Loans Services Centre. The Confirmation of Enrolment forms necessary to let your lender know that you are currently a full-time student are available from the Student Awards and Financial Aid Office.

WITHDRAWAL

Should a student withdraw from the University or drop to part-time status before the end of the academic session for which loan assistance was granted, they would be required to begin repayment of the entire loan amount within six (6) months of the change in academic status. Students are encouraged to contact their lender(s) e.g. EDULINX or the National Student Loans Services Centre regarding their repayment obligations and schedule.

PART-TIME STUDENTS

There are a number of part-time assistance programs available to Albertans. Part-time students who are enrolled in courses (including Continuing Education courses) may be eligible. Part-time funding is income based and is intended to cover the costs of tuition, books, travel and childcare (if required).

ESTIMATE OF FINANCIAL NEED

To assess financial need, the student should estimate living costs (room and board, local transportation, food and clothing, etc.), tuition, incidental fees, books and supplies for the period of attendance (one or two semesters). From total estimated expenses, the student should subtract contributions from savings, cash received or to be received from parents, and any other income that may be received during the period of attendance. The net result is an estimate of the financial assistance needed.

A single student living at home should estimate living costs for one academic year at \$3,456 and living away from home at \$7,528. Living expenses include room and board, transportation, food and clothing and entertainment.

The Student Awards and Financial Aid Office can check over your student loan application before it is submitted to Students Finance, and answer any questions you may have with regards to your funding.

SKILLS INVESTMENT ALBERTA WORKS GRANT FUNDING

Alberta Employment, Immigration and Industry makes grant funding available for unemployed adult Albertans and those currently or recently on Employment Insurance (EI) to help pay tuition, book and living costs. Mount Royal offers this funding for students in the Aboriginal Education Program, English as a Second Language, Transitional Vocational Program, as well as Occupational Training (approved certificate programs). For information including eligibility or a list of funded programs, go to our webpage mtroyal.ca/moneymatters

For information on Mount Royal scholarships, bursaries, and awards, see mtroyal.ca/awards.

ACADEMIC REGULATIONS

Academic regulations will be found throughout this calendar and may not necessarily be contained only in the section that follows.

ACADEMIC SEMESTERS

Mount Royal University operates on a 13-week semester system. The Fall Semester normally begins in September and ends in December. The Winter Semester begins in January and ends in April. Full-time students normally enrol for the Fall and Winter Semesters.

The University also offers a Spring/Summer Semester, which begins in May and ends in August. Most courses offered during this period are six and a half (6.5) weeks in length and meet in May and June. Although course offerings are more limited than during the Fall and Winter Semesters, courses from most departments are included. Credits earned may be applied to a student's program in the same manner as credits acquired in other semesters.

CREDIT WEIGHT

Credit weight reflects student workload rather than classroom contact hours. Normally, students are expected to devote nine to twelve (9 – 12) hours of academic time and effort per week for a three (3) credit course. Academic time and effort includes class time (e.g., lectures, labs, studios, tutorials, etc.) as well as any experiential or blended components. In addition, all independent study (e.g., assignments, readings, preparation, study, etc.) is included.

Courses are normally valued as three (3) credits or multiples of three credits.

ATTENDANCE POLICY

Students are allowed to attend a course once they have officially registered, are enrolled on a credit or audit basis and have paid the appropriate fees. It is the responsibility of the student to attend all classes. University policy requires a student to conform to the particular attendance requirements established by the instructor of each course. **Students should be aware that there is a possibility of losing their seat in a class if they fail to attend the class on the first day it meets.** In the situation where circumstances prevent a student from attending the first class, notification to the instructor of expected absence will ensure that the seat in the class is held.

GRADUATION

Changes in regulations governing programs may be made from time to time. Students who have not interrupted their program will be given the option of graduating in accordance with the old regulations or completing their program under the new regulations governing their current registration. Such students must make their choice known to their Academic advisor and the Office of the Registrar at the time of their application for graduation.

Where a required course for graduation is no longer offered, the department Chair may specify an alternative. In extreme cases where students cannot complete their program under the old regulations, they will be phased into the new program without disadvantage. Students who interrupt their program for a period of twelve (12) months or more will be required to comply with the new graduation requirements published in the calendar in effect at the time they are readmitted to the University.

EXAMINATION POLICY

All final examinations must be scheduled by the Office of the Registrar except those which are take-home examinations, oral examinations or term projects. In courses where an alternative means of final assessment other than a final examination is more appropriate, the department Chair shall recommend to the dean or director the alternative type of assessment, indicating its rationale. The decision of the dean or director shall be final.

Students must be available for examinations up to the last day of the examination period as specified in the Academic Schedule section of this calendar.

Other regulations related to the conduct of examinations appear in the examination booklets.

LIMITATION ON EXAMINATION WEIGHTING

In the calculation of the final grade average, the following limitations apply:

- The final examination shall comprise not less than 20% nor more than 50% of the final grade.
- Evaluation accounting for not less than 25% of the total final grade must be completed and the results communicated back to the student at least five (5) working days before the final withdrawal date for each semester.
- Any tests carried out during the last two weeks of lectures may not account, in total, for more than 10% of the final grade, except in the case of laboratory or oral testing, take-home examinations or term projects.
- "Take-home" examinations cannot count for more than 25% of the final grade for a course.

POSTING THE FINAL EXAMINATION TIMETABLE

The Final Examination Timetable shall be prepared and made available on the University's website by the Office of the Registrar no later than six weeks before the end of a major (13-week) semester.

DETERMINATION OF A FINAL GRADE

Each professor responsible for a course is required to make available to each student in the class, within two weeks of the first day of classes in that course, a written statement of the method of grading and the weights to be assigned to the various components that are to be considered in determining the final grade (term papers, laboratory work, class participation, tests, final examination). This weighting may not be changed during the semester or at the time of final grade reporting. The format of the written outline may be in hardcopy or online as deemed appropriate for the course.

DEFERRED EXAMINATION

The authority to grant or deny a deferred final examination rests with the Chair of the department in which the course is offered. Under no circumstances is the deferred examination to be granted after a student has written the original examination. A student who is unable, for a valid reason, to write a final examination at the scheduled time may apply for a deferred examination. Valid reasons for requesting deferral of a final examination include but are not restricted to: personal illness, bereavement, personal injury, unavoidable and unanticipated demands in caring for dependents. The department Chair may also consider other compelling reasons that are outside the student's control. The application must be supported by appropriate documentation.

If the intended absence is due to religious conviction, the Registrar and professor must be informed in writing of the conflict at least two weeks prior to the date of the examination. If a student becomes ill or is notified of an incident that creates severe emotional distress during an examination, he or she should report at once to the invigilating professor, hand in the unfinished examination paper and request that it be cancelled. If illness is the cause, he or she must report directly to Health Services so that any subsequent application for a deferred examination may be supported by a medical certificate. Should Health Services be closed, a medical certificate must be obtained from an off-campus physician. The professor and department Chair should be informed of the circumstances in writing, and the medical certificate must be delivered to the Office of the Registrar within 48-hours after the scheduled examination.

Should a student write an examination, hand in her paper for marking, and later report extenuating circumstances to support the request for cancellation of the paper or examination, such requests will not be considered.

Students who have more than two exams scheduled on any calendar day may request and shall be granted a deferral for the third (fourth, fifth, etc.) examinations scheduled on the day. In the event a conflict arises because two or more exams are scheduled at the same time, the Registrar (or designate) will consult with faculty members and assign the deferred examination.

LOSS OF PRIVILEGE

Students who are eligible, but who do not apply for a deferred examination by the prescribed deadlines, shall automatically lose this privilege. Students who have been granted deferred final examination privileges, but who do not show acceptable cause for not writing at the prescribed time, shall automatically lose the privilege of further deferral.

DEFERRED WORK

Professors are normally free, subject to any established departmental or faculty procedures, to administer their own policies regarding deadlines for the completion of term papers or assignments; students must be made fully aware of these policies. However, should extensions of time for completing term work be requested beyond the deadline for return of final course grades, the procedures for "I" grades must be followed.

CORRECTION OF GRADES

Once a student's final grade has been recorded by the Office of the Registrar, a professor may not request that this final grade be changed unless it was assigned in error. A *Change of Grade* form must be submitted certifying the reasons why the first grade is in error. The form must be signed by the professor and the department Chair offering the course. Requests for a change of grade must reach the Office of the Registrar no later than 30 days after the start of the next major (13-week) semester. **Under no circumstances will professor-initiated grade changes be accepted after this period.**

TRANSCRIPTS AND THE RELEASE OF INFORMATION

A permanent record of each student's accumulated courses, attempted credits, grades earned and address information is maintained by the Office of the Registrar.

Official transcripts are normally issued to educational institutions, potential employers and students upon request. The student is responsible for any cost associated with this service. Transcripts issued to the student are unofficial. Transcripts may be ordered online, by mail, fax, or in person. When ordering transcripts by mail or fax from the Office of the Registrar, the following information must be included in the written request:

- Full name (and former names, if applicable)
- Student identification number (if known)
- Date of birth
- Dates of attendance at Mount Royal University
- Name and address to which transcripts are to be sent
- Number of transcripts required
- When transcripts are to be mailed out, one of the following should be specified:
 - Send immediately
 - Hold for Fall Semester grades
 - Hold for Winter Semester grades
 - Hold for Spring Semester grades
- Student signature and date
- Daytime telephone number

If you have applied to graduate and wish to have your certificate, diploma or degree noted on the issued transcript, indicate that your transcript is to be held until the graduation notation has been recorded.

The personal information that students provide when applying for Mount Royal programs and courses is collected under the Post-Secondary Learning Act (s. 65) and the Freedom of Information and Protection of Privacy Act (s. 33 a & c). Personal information is protected by Alberta's Freedom of Information and Protection of Privacy Act and can be reviewed on request.

Only a student's name, whether or not s/he is registered and the credential awarded (i.e., degree, applied degree, diploma, certificate, etc.) are defined as the student's public record. All other information is considered confidential and will be used and disclosed in accordance with privacy legislation. Information pertaining to a minor who is registered at Mount Royal will only be used and disclosed in accordance with privacy legislation. All third-party inquiries should contact the Office of the Registrar to obtain a Release of Information form.

If you have any questions about the collection or use of this information, please contact the Office of the Registrar at 403.440.6346.

RELEASE OF GRADES

Only the Office of the Registrar has the authority to issue or release official grade information or other academic records and transcripts. However, department Chairs or their delegates are authorized to release or post final grades at the end of each semester in accordance with privacy legislation.

The University does not mail out final grade statements. Students are responsible for confirming their final grades and academic status at the end of each semester by accessing MyMRU on the Mount Royal University website (mtroyal.ca). Students may obtain printed copies of their final course grades by accessing MyMRU (mtroyal.ca) from one of the University's Student Computing Centres, or from a public access terminal located outside the Office of the Registrar or inside the Admissions and Recruitment Office.

NAME AND/OR ADDRESS CHANGE

Every student is required to report a mailing address at the time of registration and to report any change of address thereafter. A letter mailed to a student's address as currently on record in the Office of the Registrar will be deemed adequate notification to the student for all matters concerning the University. In the case of change of address, notification must be made to the Office of the Registrar. The University will not be responsible for incorrect mailings, for missed deadlines or for any inconvenience or difficulties arising from a student's failure to report a change of address. Change of name must also be reported to the Office of the Registrar; appropriate documentation confirming the change of name (birth, marriage, divorce certificate or relevant court documents) must be provided.

All e-mail correspondence from the Office of the Registrar will go to a student's MyMRU e-mail account. These messages will be considered received.

COUNTERFEITING AND ALTERING

No person(s) shall reproduce, copy, misuse, tamper with or alter in any way, manner, shape or form whatsoever any official writing, record, document or identification form used or maintained by Mount Royal University. Any student who submits fraudulent documents (e.g., transcripts, parchments, etc.) as part of the admission or registration processes will be reported to the Office of Student Conduct.

ACADEMIC APPEALS AND GRIEVANCES

A. INTRODUCTION

The basic principles governing the hearing of student appeals and grievances are as follows:

- That fairness will be applied to all parties in procedures and decisions;
- That sound academic decisions will not be set aside on the basis of minor irregularities in procedures;
- That academic decisions should be made as close as possible to the level on which the academic competence resides;
- That all members of a committee hearing an appeal should be free of bias;
- That students may wish to consult with the Students' Association at any stage of the process;
- That all parties have the option of having a third party present during any stage of this process, this third party being a peer or colleague chosen by the individual.
- It is not intended that any appeal or grievance hearing shall be conducted on an adversarial basis or like a trial in law. In keeping with the spirit of this policy, Mount Royal does not permit representation by legal counsel at appeal and grievance hearings.
- A complete copy of the pertinent policy and procedure is available from the Office of the Registrar.

B. APPEAL OF FINAL GRADE/ACADEMIC JUDGEMENT

1. You can appeal the final grade in your course if you can present evidence that:

- The final grade was not calculated on all of the work completed and as indicated in the course outline; or
- There was a mathematical miscalculation of the final grade; or
- There was an alleged unfair assessment of academic performance. If you choose this option, you will be asked to present documentation that specifies the basis for your belief that the assessment was unfair.

2. General Procedure

The following steps outline the general procedures and timelines for appealing your final grade(s). If you need advice on the process, you should contact your academic advisor, counsellor, Students' Association representative, the Ombudsperson or the Office of the Registrar. If you need support during the process, you should contact the Students' Association, Counselling Services or anyone else that you trust.

Step 1: Informal Discussion with Professor

If you wish to challenge the final grade awarded in a course, you should first discuss the matter with your professor before going to the next step.

Step 2: Review of Final Grade by Chair

If you are not satisfied with the result from Step 1, you can file a **Final Grade Review Request Form** (available from the Office of the Registrar). You must do this no later than fifteen (15) days after the final grade has been posted. Remember that you are obliged to present evidence that your request for a higher grade has strong merit based on the grounds outlined in Section 1 above.

Once you have completed the proper form, return it to the Office of the Registrar. The form will be sent to the Chair who has a number of options: (i) Further discussion with the professor and you; (ii) Re-examination of the work in dispute; (iii) Review of the course outline; (iv) Conduct a review of work submitted by other students (if possible) or (v) Request that your work be remarked by another qualified professor. There may be other options but these are the actions most frequently taken.

When the Chair has made a decision, s/he will return the form to the Office of the Registrar and inform the professor and you in writing of the decision. Under normal circumstances, the process up to this point should not take more than twenty-five (25) working days.

Step 3: Appeal of Final Grade to the Dean/Director or Faculty Appeals Committee

If you are not satisfied with the result of the Chair's review, you can complete a **Final Grade Appeal Form** (available from the Office of the Registrar). Once you have completed the form, return it to the Office of the Registrar within five (5) working days of receiving the Chair's decision. The form will be sent to the Dean/Director of the faculty who will normally act as the Chair of a Faculty Appeals Committee. Your appeal will be considered if, and only if, any or all of the following grounds can be convincingly demonstrated to the Chair of the Faculty Appeals Committee:

- (a) There is new evidence that was not considered by the Chair; or
- (b) There was a procedural error in reaching the decision; or
- (c) The findings of the Chair were not supported by the evidence.

If the Chair feels the evidence is not sufficiently convincing, s/he will deny your request. If s/he feels that there are grounds for an appeal, s/he will convene a Faculty Appeals Committee consisting of the Dean, a Students' Association representative, two faculty members and the Registrar. The student representative and faculty members must be unfamiliar with the dispute or the parties.

Normally, this step will take an additional ten (10) to twenty (20) working days depending on the course of action. Except under extraordinary circumstances, the decision of the Committee Chair or the Committee is final.

Step 4: Appeal of the Decision of the Faculty Appeals Committee

You can appeal the decision of the Dean/Director or the Faculty Appeals Committee, whichever has rendered the decision if you are not satisfied. However, you must convincingly demonstrate that any or all of the following conditions are present.

- (a) Alleged bias of the Faculty Appeals Committee; or
- (b) Alleged unfair procedures on the part of the Faculty Appeals Committee; or
- (c) Substantial new evidence that could not have been presented to the Faculty Appeals Committee.

If you feel you have grounds for appeal at this level, you must provide a written statement to the Office of the Registrar that raises reasonable doubt as to the appropriateness of the decision made by the Faculty Appeals Committee and that support your request for a hearing. You must do this within five (5) working days of receiving the decision from Step 3. You will be notified in writing about the next actions that will be taken.

C. APPEAL OF FINAL GRADE / NON-ACADEMIC JUDGEMENT

1. General procedure

If you feel that there has been an injustice in determining your academic standing in a course or program on grounds other than the exercise of academic judgment, you must first discuss the matter informally with your professor or Chair to attempt a resolution of the problem. You will be asked to present documentation that specifies the behaviour(s) that led to your allegation and when the alleged injustice(s) occurred. The following steps outline the general procedures and timelines for appealing your final grade(s) because of a perceived injustice.

If you need advice on the process, you should contact your academic advisor, counsellor, Students' Association representative, the Ombudsperson/Human Rights Office or the Office of the Registrar. If you need support during the process, you should contact the Students' Association, Counselling Services or anyone else that you trust.

Step 1: Informal Discussion with the Professor

If you are alleging an injustice in determining your academic standing in a course or program on grounds other than the exercise of academic judgment, you must first discuss the matter informally with the professor or Chair to attempt a resolution of the problem.

Step 2: Informal Hearing with the Dean/Director

If the problem cannot be resolved after informal discussion with the professor or Chair, you must file a **Notice of Appeal: Non-Academic Judgment** (available from the Office of the Registrar). You need to submit this form to the Office of the Registrar within five (5) working days of the action or circumstance in question. You will need to state the basis for the allegations and must include the following:

- (a) A summary of the academic decision being appealed;
- (b) Grounds for the appeal; and
- (c) The suggested remedy.

Once the Dean/Director has received the completed form and other documents from the Office of the Registrar, the individual who made the original decision will have time to outline the reasons for the decision and a suggested remedy. On receipt of the reply from the Chair, the Dean/Director will convene a meeting for the purpose of informal discussion and resolution of the dispute. All parties to the dispute will attend the meeting at which time all parties to the dispute will be given an opportunity to question each other and make representations.

The Dean/Director will render a decision following the meeting, which will be given to the parties to the dispute in writing. Normally, these two steps will be complete within twenty (20) working days.

Step 3: Appeal of Final Grade to the Dean/Director or Faculty Appeals Committee

If you are not satisfied with the result of the Dean/Director's decision, you can submit a request in writing to the Office of the Registrar that a Faculty Appeals Committee (to be chaired by a different Dean/Director) hear the appeal. This written request must be submitted to the Office of the Registrar within five (5) working days after the informal hearing decision is released. Your appeal will be considered if, and only if, any or all of the following grounds can be convincingly demonstrated to the Chair of the Faculty Appeals Committee:

- (a) There is new evidence that was not considered by the Dean/Director; or
- (b) There was a procedural error in reaching the informal hearing decision; or
- (c) The findings of the Dean/Director were not supported by the evidence.

If the Chair feels the evidence is not sufficiently convincing, s/he will deny your request. If s/he feels that there are grounds for an appeal, s/he will convene a Faculty Appeals Committee consisting of the Dean, a Students' Association representative, two faculty members and the Registrar. The student representative and faculty members must be unfamiliar with the dispute or the parties. The Chair of the Faculty Appeals Committee will communicate the decision in writing to the professor and you.

Normally, this step will take an additional ten (10) working days depending on the course of action. Except under extraordinary circumstances, the decision of the Faculty Appeals Committee is final.

Step 4: Appeal of the Decision of the Faculty Appeals Committee

You can appeal the decision of the Dean/Director or the Faculty Appeals Committee, whichever has rendered the decision if you are not satisfied. However, you must convincingly demonstrate that any or all of the following conditions are present.

- (a) Alleged bias of the Faculty Appeals Committee; or
- (b) Alleged unfair procedures on the part of the Faculty Appeals Committee; or

(c) Substantial new evidence that could not have been presented to the Faculty Appeals Committee.

If you feel you have grounds for appeal at this level, you must provide a written statement to the Office of the Registrar that raises reasonable doubt as to the appropriateness of the decision made by the Faculty Appeals Committee and that support your request for a hearing. You must do this within five (5) working days of receiving the decision from Step 3. You will be notified in writing about the next actions that will be taken.

D. OTHER INFORMATION

1. Status of Student During An Appeal Process

During the course of any appeal or complaint procedure, you retain the right to participate in all classes until a final decision is given.

2. Access to Graded Course Work

Students have the right to supervised access to completed final examination papers which have been graded, without the benefit of a review with the professor or another University employee, within fifteen (15) working days whenever possible after the end of the semester in which the grade is awarded. Chairs should ensure that arrangements are made to meet this commitment in the event that faculty leave campus immediately after the end of the semester.

Graded course work retained by a professor may be destroyed one year after the end of the semester in which the work was graded. Students are responsible for producing the original graded course work which is the subject of the dispute. Altered work submitted for review or appeal will be considered an act of academic dishonesty.

3. Challenging the Course Weighting System

All students must be given a course outline at the beginning of the semester. The course outline must include the weight assigned to different components of the course. Challenges to the weighting applied to different components of the course will not be considered as part of a review or appeal process.

E. COMPLAINTS AND APPEALS WITH RESPECT TO MATTERS NOT INVOLVING ACADEMIC DECISIONS

Any student or employee of Mount Royal who feels they have a complaint about the operations of Mount Royal will be given an opportunity to be heard. Under normal circumstances, the first step is to discuss your complaint(s) or grievance(s) with the person(s) against whom your complaint is directed. If this is not possible or does not produce satisfactory results, you are encouraged to discuss the matter with the direct supervisor(s). If that step does not produce the desired result, the Ombudsperson/Human Rights Office and its resources are available. Call 403.440.5956 to book an appointment.

CODE OF STUDENT CONDUCT

Mount Royal has a responsibility to define standards of student behavior and to provide reasonable expectations for student discipline with regard to conduct that jeopardizes the functioning of academic and non-academic activities. It is also the obligation of Mount Royal to protect the safety, rights and/ or property of its members or visitors. To this end, Mount Royal implemented the *Code of Student Conduct* policy.

Academic Misconduct

Academic misconduct is defined as the giving, taking or presenting of information or material that unethically or dishonestly aids oneself or another on any work which is to be considered in the determination of a grade, the compilation of academic requirements or the enhancement of a student's record or academic career.

Non-Academic Misconduct

Behaviour that is subject to disciplinary action under the Code includes violations of established civil and criminal statutes; conduct that threatens the safety or wellbeing of members of Mount Royal community; and any behavior that seriously and adversely affects Mount Royal or its educational mission.

The Code of Student Conduct is available through the Office of Student Conduct (C109), the Students' Association of Mount Royal University or at: mtroyal.ca/codeofstudentconduct

HARASSMENT OR DISCRIMINATION

Sexual harassment and other forms of discrimination are unacceptable at Mount Royal University. In cases of harassment or discrimination or for information about Mount Royal's Individual Rights Policy, you are advised to contact the Ombudsperson/ Human Rights Advisor in Room U216C.

ACADEMIC STANDING

Introduction

Mount Royal is committed to maintaining high academic standards, promoting student success, and endeavouring to support students who have difficulty meeting academic requirements. In the event a student is unable to meet academic requirements, Mount Royal will make all reasonable attempts to ensure that s/he is aware of potential consequences and that information about available support services is available.

Academic Standing in its various forms applies to all current Mount Royal students and relates to students' eligibility to register in credit courses within a Mount Royal program and their eligibility to graduate from a program. Students should be aware that specific programs may have additional **continuance requirements** that place additional conditions on how a student maintains eligibility to remain in a program of study. Students are solely responsible for being familiar with program-specific continuance requirements and general program- requirements in order to be eligible to graduate.

Academic Standing / Definitions

A student will be in **Good Standing** when s/he has accumulated a minimum of nine (9) earned credits, and has a cumulative Grade Point Average (GPA) of 2.00 or better.

A student is **Eligible to Graduate** when s/he has satisfied all program requirements specified in the curriculum at the time of admission to the program or the current program curriculum, and has met the requirements for Good Standing at the time the application to graduate is evaluated.

A student will be placed on **Academic Warning (AW)** when s/he has accumulated a minimum of nine (9) earned credits and has a cumulative Grade Point Average (GPA) of less than 2.00. A student will be permitted to remain on Academic Warning for a maximum of two (2) semesters within a twelve month period.

A student will be placed on **Academic Probation (AP)** when s/he has been on Academic Warning for two (2) semesters and has a cumulative Grade Point Average (GPA) less than 2.00. A student will be permitted to remain on Academic Probation for a maximum of one (1) semester within a twelve month period.

A student is **Required to Withdraw (RTW)** from the institution for a minimum of twelve months when s/he has been on Academic Probation for one (1) semester and has a cumulative Grade Point Average (GPA) less than 2.00.

A student is permitted to register for non-credit classes after a requirement to withdraw. For additional information about the application process please refer to the Mount Royal website or contact the Office of the Registrar. Students readmitted to Mount Royal after a minimum absence of twelve (12) months as a Requirement to Withdraw, will have their semester Grade Point Average (GPA) for the purpose of establishing academic standing calculated solely on the basis of credits earned since their return.

A student can demonstrate **significant improvement** if s/he has a semester GPA of 2.20 or better over two, three-credit courses.

Note: There is no appeal process for Academic Warning or Academic Probation.

APPEALING A REQUIREMENT TO WITHDRAW (RTW)

Students can appeal their Requirement to Withdraw by completing the appropriate form available at the Office of the Registrar. The application must include supporting documentation or it will not be processed.

The only permissible grounds for appealing a Requirement to Withdraw will be as follows:

- (a) Medical reasons verified in writing by a physician. Documentation must establish a clear and substantive link to his/her academic standing over the period of time the credits were earned; **or**
- (b) Severe emotional distress verified in writing by a Mount Royal Counsellor or other certified mental health professional. Documentation must establish a clear and substantive link to his/her academic standing over the period of time the credits were earned; **or**
- (c) Significant improvement in a minimum of two, three credit courses during the semester preceding the Requirement to Withdraw.

A student who believes there may be other extenuating circumstances that do not fit the three categories above may submit an appeal.

Re-Admission to a Program After the Requirement to Withdraw (RTW)

Students who have been required to withdraw from Mount Royal must apply for re-admission in accordance with the application deadlines for new students that are specified in the Academic Schedule published in the Mount Royal Calendar.

Students seeking (re)-admission to a program must meet with a Mount Royal academic advisor regarding their academic plans. The academic advisor may refer the student to a University counselor if deemed appropriate. Students are required to bring a letter to the meeting with the academic advisor which: (1) offers an explanation for their having been previously unsuccessful, (2) outlines their academic plans, and (3) explains why they are now likely to be successful. The academic advisor will indicate to the Admissions Office when this consultation process has occurred in order to complete the student's application procedure. Admission is not automatic and will be considered on an individual basis.

ACADEMIC STATUS

GRADING SYSTEM

Description	Alpha Grade	4.0 Point Scale
Excellent	A+	4.0
	A	4.0
	A-	3.7
Good	B+	3.3
	B	3.0
	B-	2.7
Satisfactory	C+	2.3
	C	2.0
	C-	1.7
Poor	D+	1.3
Minimal Pass	D	1.0
	Failure	F

0.0

Symbols (not calculated in Grade Point Average)

AU	The AU symbol is given if a course is audited.
CR	Prior Learning Credit This refers to credit assigned through the Prior Learning and Recognition (PLAR) assessment process.
NC	No Prior Learning Credit This refers to credit not assigned through the Prior Learning and Recognition (PLAR) assessment process. Refer to the <i>Prior Learning Assessment and Recognition</i> policy and procedures in the Transfer Credit and Evaluation of Prior Learning section.
EF	Experiential Fail Indicates unsatisfactory performance in an experiential learning course (practicum, fieldwork, internship, or clinical placement).
EP	Experiential Pass Indicates successful completion of an experiential learning course (practicum, fieldwork, internship, or clinical placement).
F	Fail (Co-op courses only).
P	Pass (Co-op courses only).
I	Incomplete Temporarily applied when a student has not completed semester work to the satisfaction of the professor and has been granted an extension to complete that work. (See section below for conditions).
IP	In Progress Applied to the first semester when a course is more than one semester in length.
Q	Unassigned Grade An administrative code assigned by the Registrar's Office in extenuating circumstances and on an interim basis, along with appropriate transcript notation, pending resolution of a final grade decision.
W	Withdrawal A student receives a "W" following official withdrawal from a course. (See section below for conditions).
WC	Withdrawal with Cause A student receives a "WC" following official withdrawal from a course due to special circumstances. (See section below for conditions).

The method by which professors arrive at the final course grades is left to their discretion. In different departments and within departments, different percentages might be required for a Satisfactory standing. However, the system used must be communicated to the students at the beginning of the semester and should be stated in the course outline for each course. Professors must convert their own method for determining course standing to the official grading system when submitting final grades to the Office of the Registrar. The University will not undertake any official conversion or equation of letter grades with any percentage or other grading systems.

Conditions for 'I' symbol

The decision as to whether or not the student will be permitted to enter into a contract for the completion of a course rests with the professor. If the professor is not available, the student should contact the appropriate department/program Chair.

The agreement must be arranged prior to the deadline for submission of final grades and a copy of the agreement must be forwarded to the Office of the Registrar by the professor.

Course requirements must be completed within a maximum of 60 calendar days after the end of the semester.

The contract must indicate what the letter grade for the course will be if the student does not complete the course work specified in the professor-student contract (i.e., the grade earned in the course to that date).

Unless the Office of the Registrar has been notified before, at the end of the 60-day period, the "I" symbol will be changed to a letter grade as determined by the professor, or, if the specified course work has not been completed, the "I" will be changed to the grade indicated in the professor-student contract.

Extension of the 'I' symbol contract beyond the 60-day period can be made at the discretion of the professor.

Conditions for 'W' symbol

A 'W' symbol can be applied up to and including the withdrawal deadline as stated in the Academic Schedule.

Any consideration for withdrawals after this deadline must be supported by medical and/or psychological documentation.

No withdrawals are permitted after the last day of classes.

Conditions for 'WC' symbol

Students can apply for a 'WC' at any time during the semester up to and including the last day of scheduled classes.

A 'WC' will apply under the following conditions:

- serious illness, verified in writing by a physician, or
- severe emotional distress, verified in writing by Student Counselling Services or other registered mental health professional.

Except under exceptional circumstances, a student who has entered into an 'I' contract will not be eligible for a 'WC'.

Note: Students who apply for a 'WC' after the withdrawal deadline stated in the Academic Schedule must provide documentation that explicitly states (i) why s/he could not meet the deadline and (ii) why it is not possible for him/her to finish the semester. Confidential information is not required but these questions must be answered for any consideration. Normally, no consideration will be given after the final exam for the course has been written.

Special Grading Conditions Alternative Grading Schemes

Departments offering courses requiring a student to demonstrate a satisfactory standard of performance in designated skills before a passing grade in the course can be awarded may, subject to the approval of the Dean, use alternative grading systems for those courses. The grading of such courses may vary considerably from the normal grading system.

In such cases, the grading system to be used must be communicated to the students in the course outline.

Failure to attain a passing standard for any component of such a course may result in a failing grade for the course.

Removal from Experiential Learning course

At the professor's discretion, a student in an experiential learning course (such as, practicum, fieldwork, directed field study, internship, or clinical placement) may be removed from the course at any point in that course and assigned an "F" or "EF" grade at the end of the course, when under exceptional circumstances, the student's academic performance directly or indirectly threatens the safety of, or increases the risk to, others.

GRADE POINT AVERAGE

The Grade Point Average is determined by dividing the total grade points earned by the number of credit hours attempted. The "AU", "CR", "I", "NC", "P", "Q", "IP" and "W" and "WC" grades are not included in calculating the Grade Point Average. Academic upgrading courses (those numbered 0100-0999) are also not included in calculating the Grade Point Average.

Example: Assume a student earns the following grades: Administration – A, Chemistry – B, English – C, Geology – D, German – F, Mathematics – I and Psychology – W.

Course	Grade	Points		Credits		Points
CHEM 1201	B	3	x	5	=	15
ENGL 0212	C	2	x	4	=	8
GEOL 1101	D	1	x	4	=	4
GERM 1105	F	0	x	3	=	0
INDS 2225	A	4	x	4	=	16
MATH 1224	I	NA	x	5*	=	0
PSYC 1101	W	NA	x	3*	=	0
				20		43
Total Grade Points						43
Total Credits*						20*
Grade Point Average						= 2.15

* "I" and "W" grades are not counted.

DEAN'S HONOUR ROLL

A student who earns twelve (12) or more credit hours in a semester at Mount Royal University with a Grade Point Average of 3.50 or higher will be placed on the Dean's Honour Roll for that semester.

PRESIDENT'S HONOUR ROLL

A student who earns twenty-four (24) or more credit hours in an academic year at Mount Royal University with a Grade Point Average of 3.75 or higher will be placed on the President's Honour Roll.

REPETITION OF A COURSE

Students may repeat any course. When a course is repeated, the original grade remains on the student's academic record. Only the higher grade awarded is used to determine the cumulative Grade Point Average, eligibility to graduate and continuance as a student in good standing at the University.

A course may only be counted once for any program requirement pertaining to graduation.

STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES

This Statement of Student Rights and Responsibilities is intended to constitute a guideline to be observed by the Board of Governors, students, faculty, staff, and administrators of Mount Royal University. It does not constitute a legal contract between the students and the University, and it cannot override any collective agreement or other legally enforceable contract where there is conflict. The statement is not intended to create a foundation for civil proceedings in the Courts of the Province of Alberta.

The purpose of the statement is to identify a set of rights and responsibilities of the students enrolled in the credit programs of Mount Royal University. In the event of a perceived or alleged breach of the statement, a student, students or the Students' Association may seek resolution through established University procedures.

Students enrolled in credit programs at Mount Royal University should have rights and assume responsibilities in accordance with applicable University policies and procedures, as set out in this section of the calendar. All of the rights and responsibilities apply to full-time students and all, except items 8, 9, and 10, apply to part-time students.

1. **RIGHT:** To have their rights respected by fellow students, faculty, staff, administrators and other persons associated with the University.

RESPONSIBILITY: To respect the rights of fellow students, faculty, staff, administrators and other persons associated with the University.

2. **RIGHT:** To a University environment that complies with institutional and relevant government regulations, policies and procedures.

RESPONSIBILITY: To observe University and relevant government regulations, policies and procedures intended to protect the environment of the University.

3. **RIGHT:** To participate and to be represented in the affairs of the University through the Students' Council and/or the Student Executive Committee of the Mount Royal Students' Association, an organization dedicated to being responsive and responsible to the student body at large.

RESPONSIBILITY: To be active members in good standing of the Students' Association and to participate when feasible in the democratic processes of the Association.

4. **RIGHT:** To have access to current information printed in the University Calendar or, when such publication is not timely, posted at the Office of the Registrar and at locations other than the Lincoln Park campus where credit courses are offered regarding academic regulations; policies and procedures, including admission and registration requirements and procedures; course descriptions; course and program change and withdrawal procedures; program and graduation requirements; final examination policy and regulations; and transfer arrangements as outlined in the *Alberta Transfer Guide*.

RESPONSIBILITY: To familiarize themselves with current information regarding academic regulations, policies and procedures and to follow those regulations, policies and procedures, to the extent that such regulations, policies and procedures are printed in the University Calendar or posted at the Office of the Registrar and at locations other than the Lincoln Park campus where credit courses are offered.

5. **RIGHT:** To the availability of their course professors for assistance and consultation outside of scheduled class periods, at mutually agreeable times.
RESPONSIBILITY: To monitor their academic progress and to seek help to resolve their academic or career choice difficulties.
In the case of academic difficulties, students shall first discuss such matters with their course professors before enlisting other advice and assistance.
6. **RIGHT:** To the confidentiality of their transcript and the grade assigned for each course, except by their express written permission. The University reserves the right to confirm or deny questions concerning students' registration and/or completion of a program. The University reserves the right to make transcripts available for authorized purposes within the University without student permission (e.g. for scholarship and financial aid eligibility, academic advising, etc.).
RESPONSIBILITY: To respect the confidentiality of the academic records of other students.
7. **RIGHT:** To view in the Office of the Registrar the University's official student record as contained in their permanent file.
RESPONSIBILITY: To respect University regulations regarding the viewing of the official student record.
8. **RIGHT:** To have access to a place in each core or required course of the program in which they are registered at least once during the normal length of the program for full-time students.
RESPONSIBILITY: To take each core or required course of the program in which they are registered as soon as a place becomes available after the prerequisites for those courses have been met.
9. **RIGHT:** To have the graduation requirements of the program in which they are registered remain unchanged from those in effect when they registered in that program. If and when the requirements are changed, students registered in that program will be given the choice of which curriculum to follow except where the change is dictated by external agencies.
RESPONSIBILITY: To endeavor to complete the program under the curriculum best suited to their personal circumstances in view of the reasons for the change.
10. **RIGHT:** To have the length of the program in which they are registered remain unchanged from the length of the program when they registered in that program. If and when the length of a program is changed, students registered in that program will be given the choice of which curriculum to follow except in cases where the length of the program is dictated by external agencies.
RESPONSIBILITY: To endeavour to complete the program under the curriculum best suited to their personal circumstances in view of the reasons for the change.
11. **RIGHT:** To have the opportunity to complete, within its normal duration, the program in which they are registered as a full-time student if and when that program is discontinued by the University.
RESPONSIBILITY: To consider the reasons for the discontinuation of the program and to endeavour to complete the program within its normal duration for full-time students or choose an alternative based on that consideration.
12. **RIGHT:** To make available a written outline, at the beginning of the courses in which they are registered, of the objectives of the course, the evaluation system to be used, the requirements regarding class attendance and punctuality, the format and due dates of major assignments, as well as penalties if they are to be employed. In the event that circumstances beyond the control of the professor compel substantial changes to course content and/or classroom procedures, rules and regulations, the students registered in the course will be given written notice of such changes. The format of the written outline may be in hardcopy or online as deemed appropriate for the course.
RESPONSIBILITY: To make themselves aware of and to follow the requirements of the written course outline even when they are absent from particular classes.
13. **RIGHT:** To have course times, as scheduled in the University timetable at the time of registration, remain unchanged except in exceptional circumstances as determined by the University and to have classes start and end at the scheduled times.
RESPONSIBILITY: To arrive on time for their classes and to remain for the duration of those classes, except in exceptional circumstances.
14. **RIGHT:** To be notified, whenever possible, of class cancellations in advance of the class meeting.
RESPONSIBILITY: To accept exceptional circumstances and to be prepared to spend the time on other useful endeavours.
15. **RIGHT:** To the assurance that various sections of the same course have common course-specific objectives and comparable requirements and evaluation standards and to have these described in the course outline.
RESPONSIBILITY: To respect the faculty member's right to determine the course content, instructional methodology and evaluation procedures within the guidelines set for the course.
16. **RIGHT:** To have access to a review with the professor of in-course tests, examinations and course assignments within 14 days after they have been evaluated and to have supervised access to final examinations, in the departmental office and without benefit of a review with the professor or other University employee, within 14 days after the release of final grades by the Office of the Registrar.
RESPONSIBILITY: To request a review or access to tests, examinations, or course assignments, if they wish such review or access, within the 14-day time period.
17. **RIGHT:** To have student views taken into consideration in University-sponsored evaluations of instruction and student-oriented services and to be assured that their individual contributions will be kept confidential.
RESPONSIBILITY: To participate in such evaluations when requested.
18. **RIGHT:** To have appeal and grievance procedures established by the University and printed in the University Calendar or, when such publication is not timely, posted at the Office of the Registrar and at locations other than the Lincoln Park campus where credit courses are offered.
RESPONSIBILITY: To make themselves aware of appeal and grievance procedures.

GENERAL GRADUATION REQUIREMENTS

Generally, all students who expect to receive a parchment from Mount Royal University must satisfy the graduation requirements for a baccalaureate degree program, a diploma program or a certificate program as shown in this section. Several programs have special graduation requirements, which must also be met before a degree, diploma or certificate can be awarded. The additional requirements are shown in the program description section of the programs concerned. (Also see Academic Regulations – Graduation). Students are cautioned to note the general statements regarding graduation and the restrictions and interpretations that follow. Do not hesitate to consult the Office of the Registrar if you are uncertain about your graduation status.

APPLICATION TO GRADUATE

All students who are candidates for the award of a baccalaureate degree, diploma or certificate are responsible for notifying the Office of the Registrar of their intention to graduate. They must complete and submit to the Office of the Registrar the Application to Graduate Form prior to the relevant deadline indicated in the *Academic Schedule* in this calendar. The application form is available online or at the Office of the Registrar.

Candidates graduate in accordance with the conditions and requirements shown in the calendar of the year in which they first enrolled in the program, provided there has been no break in their attendance at the University. Students who discontinue their studies will be subject to the graduation requirements published in the calendar at the time of their return to the University. Also see *Graduation* component of the *Academic Regulations* section.

ELIGIBILITY TO GRADUATE

In order to graduate from any Mount Royal credit program, a student must satisfy all program requirements specified in the curriculum at the time of admission to the program or the current program curriculum, and meet the requirements for Good Standing (see Academic Standing section) at the time the application to graduate is evaluated.

Admission to program

To be eligible to graduate from a Mount Royal University program, a student must have been **officially admitted** into the program and must normally complete **at least 25%** of the graduation requirements as a student within the program, except where written approval has been given by the Dean/Director of the faculty/centre/school.

Residency

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at Mount Royal, except where written approval has been given by the Dean/Director of the appropriate faculty/centre/school.

In addition, at least 50% of the Directed Field Study requirement for an applied degree must normally be completed as a student of Mount Royal.

Program Pattern

A student must successfully complete all requirements as stated in the approved program pattern (see the Academic Program section). This includes earning the number of required credits, successfully completing all courses identified as the program core and the English requirement, meeting the requirements for Arts & Science or General Education as well as any specific requirements identified in the program section of this calendar.

Cumulative Grade Point Average (GPA)

A student must have a cumulative GPA of **at least 2.00** based on all courses required for graduation in the program which will include all the core courses specified in the published curriculum pattern for that program, as well as all approved options and electives, the English Requirement and all Arts & Science / General Education courses. Some programs may require a higher GPA for graduation.

Arts & Science / General Education Requirements

As Mount Royal phases out Arts & Science requirements in favour of General Education, students are advised to consult closely with their advisor to ensure that they are meeting program requirements.

mtroyal.ca/ProgramsCourses/FacultiesSchoolsCentres/Arts/Programs/GeneralStudiesDiploma/CurriculumCourses/index.htm

mtroyal.ca/gened/courses

Applied Degree Programs With a Diploma Exit Option

In Applied Degree programs with a diploma exit option, students may be eligible to be awarded a diploma after completing their second year of studies **without exiting** from the program. Students wishing to receive the diploma must declare their intention to graduate (without exit from the program) within their second year of studies prior to the relevant deadline indicated in the current Academic Schedule.

University Transfer Programs

Students in a University Transfer program can apply for a General Studies Certificate upon completion of 10 appropriate courses in recognition of their completion of a full year of undergraduate studies.

RESTRICTIONS

- No course may be presented to fulfill more than one graduation requirement **within one credential**. (For example, English 1101 may not be used to satisfy a program core requirement and a General Education requirement.)
- No high school or matriculation equivalent course (level 30 or lower) may be used for graduation purposes (see list of high school/matriculation equivalent courses in the section entitled High School Matriculation Equivalents).
- Students may apply credits obtained under one Mount Royal program towards the graduation requirements of another, different program up to **a maximum of 50 per cent** of the graduation requirements of the new program (e.g., transferring credits from a diploma to a baccalaureate degree).
- Students may apply credits obtained under one Mount Royal program towards the graduation requirements of another, similar program up to **a maximum of 75%** of the graduation requirements of the new program (e.g., transferring credit from a Bachelor of Arts to Bachelor of Science). Within Applied Degree programs, transfer credit will normally only be given for 50% of the Directed Field Study requirement of the new program.

- English 2263 is not considered to be a senior-level Arts and Science course for graduation purposes.
- English 0212 is a university-level course but unless it is specifically required for a program, it can only be used to satisfy an elective requirement.
- No more than one course (not to exceed four (4) credits) of Directed Readings can be used for graduation purposes.

LETTER OF PERMISSION

Students who wish to complete relevant course work for a baccalaureate applied degree, diploma or certificate program at another recognized or accredited post-secondary institution must receive prior approval by completing and submitting a Letter of Permission Form which may be obtained from the Office of the Registrar. *The Letter of Permission* must be signed by the appropriate department Chair(s) and returned to the Office of the Registrar for final approval and processing. See section entitled *Transfer Credit and PLAR* for information on the *Letter of Permission*.

TIME LIMITATION – BACCALAUREATE OR APPLIED DEGREE COURSE WORK

All graduation requirements for a baccalaureate or an applied degree program must be completed within eight (8) years of initial admission to and enrolment in the baccalaureate or applied degree program. The prior learning of all students entering baccalaureate or applied degree programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight [8] years) as is permitted to complete the program.

TIME LIMITATION – DIPLOMA OR CERTIFICATE COURSE WORK

All graduation requirements for a certificate or diploma program must be completed within six (6) years of initial admission to and enrolment in that certificate or diploma program.

The prior learning of all students entering certificate or diploma programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (six [6] years) as is permitted to complete the program.

PROGRAM DEFINITIONS

Baccalaureate Degree

Normally, baccalaureate degree programs consist of forty, three-credit courses (typically eight semesters) and consist of courses in three categories: Program Core, General Education, and Electives. Because of accreditation requirements and other professional requirements, the number of courses required to meet core requirements may vary. Specific requirements are:

- Normally, the program core will not be more than twenty-four courses within a forty course program.
- General Education requirements in a program will normally consist of twelve courses: Four courses will be taken at the foundation level: one from each of the General Education Program's four thematic cluster areas. Four courses will be taken at the second level: one from each of the thematic clusters. Four courses must be taken at the third level, selected from at least two of the thematic clusters.
- Normally, electives constitute a minimum of four courses from the total number of courses that make up the program.

Major

A major is a prescribed set of no less than fourteen courses or normally no more than twenty-four courses within a forty course program. The designation for major will normally appear on the transcript and the degree parchment.

Minor

A minor is a prescribed set of no less than six courses and no more than ten courses. The designation for minor will appear on the transcript but not on the degree parchment.

Applied Degree

Applied degree programs require a minimum of forty, three-credit courses, and shall not require more than forty-four, three credit courses (or equivalent) and have the following requirements:

- A minimum of 30 credits to be delivered through experiential learning, which may be embedded in classroom-based courses or other courses.
- A minimum of six appropriate Arts and Science courses. (NOTE: Refer to the program pattern listed in the program section of this calendar or your advisor for more information on how to satisfy this requirement).
- At least one course of a student's choosing without restriction.

Diploma

- Generally, diploma programs will have a minimum of 60 credits and a maximum of 72 credits and have the following requirements (effective for Fall 2010 admissions):
- Five General Education requirements: Cluster 4, Foundation; four other courses chosen from each cluster at the foundation or higher level. (NOTE: Some diplomas may have been granted exemptions to these requirements. Students should consult with an advisor or refer to the appropriate section in this calendar.); and
- Program core courses (no fewer than 36 credits), electives and approved options.

Credit Certificate

Programs offering this type of credential may include program core courses, electives and approved options (minimum of 18 credits and 6 courses). Generally, programs of this type will be from 6 to 10 courses in length and will focus on professional development, post-diploma or post-baccalaureate education.

Certificate of Achievement

This type of certificate is given to acknowledge completion of an approved series of related credit courses (minimum of 9 credits and 3 courses). Generally, programs of this type will be from 3 to 5 courses in length and will focus on professional development.

Credit-Free Certificate

Programs offering this type of credential include at least three required program core courses and in addition, there may be a series of options from which a specified number may be selected. Programs of this type must have a minimum of 60 instructional hours and individual courses within the program will not usually be less than 15 hours in length.

ACADEMIC FACULTIES

Mount Royal University offers instruction leading to the award of the following degrees, diplomas, and certificates:

FACULTY OF ARTS

Bachelor of Arts

- Anthropology
- English
- History
- Policy Studies
- Psychology
- Sociology
- Spanish

Bachelor of Applied Interior Design

BISSETT SCHOOL OF BUSINESS

Bachelor of Business Administration

- Accounting
- General Management
- Human Resources
- Marketing

Diploma – Aviation

Certificate – Business Administration

- Advanced Accounting
- Human Resources
- Marketing

FACULTY OF COMMUNICATION STUDIES

Bachelor of Communication

- Information Design

- Journalism

- Public Relations

Diploma – Broadcasting

Diploma – Music Performance – Classical

Diploma – Music Performance – Jazz

Diploma – Theatre Arts – Performance

Diploma – Theatre Arts – Technical

Certificate – Journalism

Certificate of Achievement – International Communication

FACULTY OF HEALTH AND COMMUNITY STUDIES

Bachelor of Arts – Criminal Justice
 Bachelor of Nursing
 Bachelor of Applied Business and Entrepreneurship – Sport and Recreation
 Bachelor of Applied Child Studies
 Bachelor of Applied Ecotourism and Outdoor Leadership
 Bachelor of Physical Education (University Transfer)
 Diploma – Child and Youth Care Counsellor
 Diploma – Disability Studies
 Diploma – Early Learning and Child Care
 Diploma – Social Work
 Certificate – Athletic Therapy
 Certificate – Early Learning and Child Care
 Certificate – Studies in Aging
 Aging
 Entrepreneurship
 Post-Basic Certificates
 Advanced Studies in Critical Care Nursing
 Critical Care Nursing
 Emergency Nursing
 Neuroscience Nursing
 Advanced Studies in Mental Health (Admission Suspended for Fall 2011)
 Advanced Studies in Perinatal and Neonatal Nursing
 Neonatal Nursing
 Perinatal Nursing
 Forensic Studies
 Bridge to Canadian Nursing – Certificate of Achievement

FACULTY OF SCIENCE AND TECHNOLOGY

Bachelor of Computer Information Systems
 Bachelor of Science
 Cellular and Molecular Biology
 General Science
 Geology
 Health Science
 Bachelor of Applied Science – Environmental Science
 Bachelor of Engineering (University Transfer)
 Bachelor of Science – Computer Science (University Transfer)
 Certificate – Environmental Science

FACULTY OF TEACHING AND LEARNING

Bachelor of Education (University Transfer)

MISCELLANEOUS PROGRAMS

Aboriginal Education Program
 University Entrance Option
 Open Studies

TRANSFER OF CREDIT TO OTHER EDUCATIONAL INSTITUTIONS

It is the responsibility of students who intend to transfer to another institution after completing studies at Mount Royal University to ensure that courses taken at the University are acceptable to the receiving institution.

Students are advised to consult the appropriate edition of the *Alberta Transfer Guide* at transferalberta.ca issued by the Alberta Council on Admissions and Transfer or the calendars of the receiving institutions for further details regarding admission requirements, transfer policies, procedures and advanced credit arrangements.

FACULTY OF ARTS

PROGRAMS OFFERED

Bachelor of Arts BA

Majors:

Anthropology	Psychology
English	Sociology
History	Spanish
Policy Studies	

Minors:

Anthropology	Philosophy
Art History	Policy Studies
Economics	Political Science
Education	Psychology
English	Religious Studies
Film Studies	Sociology
French	Spanish
Linguistics	Teaching English as a Second Language
History	Women's Studies
Humanities	

Honours:

Anthropology
English
History
Policy Studies
Psychology
Sociology

Bachelor of Applied Interior Design BID (Applied)

BACHELOR OF ARTS

GENERAL INFORMATION

A Bachelor of Arts degree opens doors to a wide range of learning and career opportunities.

Features of the Mount Royal Bachelor of Arts program include the following:

- high academic standards;
- relevant, current, and rigorous curriculum based on clearly articulated outcomes;
- strong General Education/breadth component;
- special emphasis on developing communication and critical thinking skills;
- high level of student-teacher interaction;
- highly qualified faculty dedicated to excellent instruction;
- both Major and Honours streams available in several disciplines to accommodate career-oriented students as well as those planning further study;
- use of leading edge technology to enhance learning and classroom delivery;
- experiential learning components where applicable, including Internships and a Co-operative Education option; and
- opportunities for international study.

As well as obtaining breadth of knowledge, students in the Mount Royal Bachelor of Arts program will achieve depth of knowledge in the subject area they select for their Major. BA students also have the option of selecting a Minor area of concentrated study in addition to their Major. Qualified students planning to pursue graduate school or wishing to explore their selected field in more depth can apply to the Honours stream. A Co-operative Education option is available for qualified students who wish to include work experience as part of their BA program.

BA students at Mount Royal can pursue a Major in seven subject areas, an Honours stream in six subject areas, and a Minor in 18 subject areas.

Subject Area	Major	Honours	Minor
Anthropology	X	X	X
Art History			X
Economics			X
Education			X
English	X	X	X

Sociology	X	X	X
Spanish	X		X
Teaching English as a Second Language			X
Women's Studies			X

OPPORTUNITIES FOR FURTHER STUDY

Entrance into graduate or professional school is competitive. The Bachelor of Arts degree, including the Honours stream, does not guarantee admission into graduate or professional school. Graduates must meet the individual university's admission requirements in a competitive process. Students considering graduate school or professional school are encouraged to investigate their postgraduate educational plans with an academic advisor at the institution in which they are seeking to enrol.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF ARTS

In addition to meeting the general admission requirements indicated in the Admissions section of this calendar, applicants must also satisfy the following criteria for each Major:

ACADEMIC COURSE REQUIREMENTS

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts program:

Majors: Anthropology, English, History, Sociology, and Spanish

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure or Applied) or a 30-level language

Major: Psychology

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure or Applied)

NOTE: Beginning Fall 2011, there will be an enrolment cap on the Psychology major. Students who apply will be considered for admission to the Psychology major on the basis of a competitive admission average.

Major: Policy Studies

- English Language Arts 30-1 – 60%
- Mathematics 30 – (Pure or Applied) – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

PROGRAM STRUCTURE FOR MOUNT ROYAL BACHELOR OF ARTS DEGREES

1. Total number of three-credit courses (or equivalent) 40 courses minimum
2. Program Core/General Education/Electives
 - a. Program Core (See each Major for specific core course requirements) 14-24 courses
 - b. General Education 12 courses minimum
 - c. Electives 4-14 courses
3. First-year course limit 16 courses maximum
4. Minimum number of courses which must be selected from courses offered in the Faculties of Arts or Science, or be courses designated as General Education courses 32 courses
5. Course limit in a single discipline 24 courses maximum
6. Grade Point Average (GPA) to graduate 2.00 minimum

Note: Each program area may have additional graduation requirements.

Refer to the specific section in this calendar for details and/or consult with a faculty or Academic Advisor.

PROGRAM STRUCTURE FOR MOUNT ROYAL BACHELOR OF ARTS DEGREES (HONOURS)

1. Total number of three-credit courses (or equivalent) 40 courses minimum
2. Program Core/General Education/Electives
 - a. Program Core (See each Honours program for specific core course requirements) 18-24 courses
 - b. General Education 12 courses minimum
 - c. Electives 4-10 courses
3. First-year course limit 16 courses maximum
4. Minimum number of courses which must be selected from courses offered in the Faculties of Arts or Science, or be courses designated as General Education courses 32 courses
5. Course limit in a single discipline 24 courses maximum
6. Grade Point Average (GPA) for last 20 courses completed 3.00 minimum

Note: Students taking honours in Policy Studies are allowed 3 electives

DECLARATION OF MAJOR

Students must declare their Major field of study within two years (twenty courses) of enrolling in the program. Students who have decided on their Major are advised to declare it as soon as possible to facilitate proper course selection and access to core courses.

NOTE: Undeclared students admitted to the Bachelor of Arts in Fall 2011 or later should be aware that there is an enrolment cap on the Psychology major. Undeclared students will be admitted to the Psychology major on the basis of a competitive admission average on the courses they have completed towards their B.A., which must include Psychology 1103 and 1104. Other majors are not subject to enrolment caps at this time.

HONOURS STREAM

Students who are interested in pursuing graduate school or who wish to explore their selected field in more depth are advised to apply for admission into the Honours stream in the Bachelor of Arts program. Core BA program requirements are augmented with additional work in the subject area, such as completing more courses in the subject area, taking part in Honours seminars, completing an Honours thesis requiring original research, or completing an Honours project.

Acceptance Requirements – Honours Stream

Normally, students will complete a Department application for acceptance into the Honours stream upon successful completion of 20 courses (but not later than the successful completion of 30 courses) in the Bachelor of Arts program.

Acceptance into the Honours stream is competitive and is not guaranteed. Students must present a minimum Grade Point Average of at least 3.00 in the last 10 courses completed. Contact a department Advisor for current information on the GPA and other criteria required for the Honours stream in your specific area of interest.

Application for Entrance into the Honours Stream

In order to apply for entrance into the Honours Stream, students must complete an Application for Entrance into the Honours Program, available from the department/discipline in which the Honours program is housed. Before applying for Honours, students must also have declared a major in the Honours discipline. Students will normally apply for entrance into Honours by May 15 of the academic year in which they have completed (or in the case of students registered in Spring courses, will complete) twenty (20) courses. Departments/disciplines in which Honours programs are housed will meet to decide on who will be admitted into Honours, based on the number of applications received and the qualifications of the students who have applied.

RESIDENCY REQUIREMENT

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University, except where written approval has been given by the dean/director of the appropriate faculty/centre/school.

In addition, the internship component of the Policy Studies BA Major must normally be completed as a student of Mount Royal.

GENERAL EDUCATION

For course information visit mtroyal.ca/gened/courses. Students are encouraged to meet with an advisor before registering in a course.

TIME LIMITATION

All graduation requirements for the BA degree program must be completed within eight (8) years of initial admission to and enrolment in the program. The prior learning of all students entering baccalaureate programs will be fully assessed at the point of admission for possible advanced standing or transfer credit. Applicable credit for prior learning which is recognized at the point of entry into the program will remain valid for the same time limit (eight [8] years) as is permitted to complete the program.

COMPLETION DATES

Given the year-by-year phase-in of the new BA program, students should plan on the following being the earliest dates of completion for the program:

- Major in Policy Studies – April 2011
- Major in Anthropology, English, History, Psychology, Sociology, or Spanish – April 2012
- Honours stream in any discipline – April 2012

ACADEMIC PROGRESS AND CONTINUANCE REQUIREMENTS

Students accepted into the Mount Royal Bachelor of Arts program must comply with all Mount Royal policies and regulations regarding academic progress and continuance.

In addition, all students in the BA program must obtain a minimum grade of C- (1.70 on the 4-point grade scale) in all courses to be used as prerequisites.

ACADEMIC PROGRESS AND CONTINUANCE REQUIREMENTS — HONOURS

Students accepted into the Honours BA stream have the additional continuation requirement of maintaining a minimum grade of B (3.00 on the 4-point grade scale) for each course in their Honours subject area and an overall GPA of 3.00 in each year of study.

Specific subject areas may have additional requirements for academic progress, continuance, and performance. Check the specific subject area sections below for details and/or consult with an Advisor. Subject to review by the Chair, once students are accepted into the Honours program, students who fail to maintain an overall GPA of 3.00 and a minimum grade of B (3.00 on the 4-point grade scale) in each of the courses in their Honours discipline will lose their place in the Honours program. Students will normally not be permitted to reapply for Honours, and may do so only with the permission of the Chair of their honours discipline. Students permitted to reapply must follow the procedures for "application into the Honours stream," as mentioned above. There is no guarantee that a student will be re-admitted into the Honours program.

ELIGIBILITY TO GRADUATE

To be eligible to graduate from a Mount Royal program, a student must have been officially admitted into the program and must normally complete at least 25% of the graduation requirements as a student within the program, except where written approval has been given by the dean/director of the faculty/centre/school.

To be eligible to graduate with a Bachelor of Arts with a Major, students must satisfactorily complete all the General Graduation Requirements for the BA with a Major as well as all the Specific Graduation Requirements for their Major area of study (see below). To be eligible to graduate with a Bachelor of Arts with Honours, students must satisfactorily complete all the General Graduation Requirements for the BA with Honours as well as all the Specific Graduation Requirements for the BA with Honours for their area of study. Students completing the Honours Program who have failed to satisfy all the requirements for an Honours degree but who have satisfied all requirements for a BA Major degree shall receive a BA Major degree upon graduation.

Students must follow the graduation application procedure outlined in the current Mount Royal Calendar. Applications must be submitted by the date published in the Calendar.

Note: For course descriptions refer to:

Bachelor of Arts

mtroyal.ca/arts/bacharts/curriculum.shtml

Application for Honours after receiving a Bachelor of Arts in the same discipline. A student who has graduated with a Bachelor of Arts may not apply to enter Honours in the same discipline in which he or she has received the Bachelor of Arts degree.

MINORS IN ARTS

In addition to the requirement to select a major, students may choose to complete a minor in the following approved areas of study: Anthropology, Art History, Economics, Education, English, French, History, Humanities, Linguistics, Philosophy, Policy Studies, Political Science, Psychology, Religious Studies, Sociology, Spanish, Teaching English as a Second Language (TESL), and Women's Studies.

Choosing a minor allows students to focus on a secondary area of interest and to have that focus recorded on their transcript. Students should consider a minor if they have more than one main interest or if they want to connect two areas of study (for example, a major in Spanish with a minor in Linguistics, or a major in History with a minor in Economics). Students may not graduate with a major and a minor in the same discipline.

To complete a minor, students must take a minimum of **eight** courses from the specific discipline, and graduate with a minimum GPA of at least 2.00 (2.30 in Education) in the courses in the minor subject area.

Minor in French or Spanish: Students taking courses in French or Spanish are subject to placement testing. This can be done by going to the Department of Languages and Cultures office. In the case of French an on-line placement test is available on the French web page. Students who achieve placement at higher than the 1000-level must still take eight courses in their subject area in order to complete a minor.

Students planning to complete a minor should check with an Advisor early in their studies, so that they can ensure that they meet all requirements before graduation. Most courses at the 3000 and 4000 level have prerequisites, so students should consider those prerequisites when selecting their 1000 and 2000 level courses.

Declaring a minor: Students do not have to declare a minor until they are ready to apply for graduation, at which point students who have taken the requisite eight courses and completed the requirements for a minor will have the minor recorded on their transcripts.

Minors in Science, Business, or Computer Information Systems

Bachelor of Arts students may choose to complete a minor in a Science, Business, or a Computer Information Systems discipline. To receive a minor in a Science discipline, students must complete a specified number of courses in one area of scientific study (for example, Chemistry, Biology, Geography) as specified by the Faculty of Science and Technology. Students should consult with an Advisor before choosing their courses.

To receive a minor in a Business discipline, students must fulfill the requirements of the specific business minor they wish to pursue. The Bissett School of Business offers minors in a variety of business disciplines. Students should consult with an Advisor before choosing their courses. Please refer to the appropriate section in the Calendar for further details about the various business minors.

Each minor has specific requirements, as listed below.

To receive a minor in Computer Information Systems, students must complete courses as specified by the Department of Computer Science and Information Systems. Students should consult with an Advisor before choosing their courses.

Minor	Max # of courses in subject area 1000 level	Min # of courses in subject area 3000 and/or 4000 level	Required courses
Anthropology	4	2	ANTH 1102, 1103, 1104 and 1106
Art History	2	3	ARTH 1101, 1103, 3315 and at least one course at the 4000 level
Economics	2	1	ECON 1101, 1103, 2211, 2213 and 3395.
Education	3	0	EDUC 1231 and 1233, (with a minimum grade of 'B') EDUC 2321 and 2325 (with a grade of C+ in all their Education classes)
English	2	2	Students are strongly recommended to take ENGL 2210 and 2211.
Film Studies	2	3	Students must select 8 courses from the following: FILM 1143, 2214, 2246, 3345, 3349, ENGL 3305, ARTH 1101, 1103, 2207, 2209, ANTH 2243, HIST 2291, FREN 3343, SPAN 3312. Students must take FILM 1143 and one of ARTH 1101 or 1103; One of HIST 2291, ARTH 2207 or 2209; ENGL 3305; and at least 2 3000-level FILM courses.
French	1	2	Two of FREN 1113, 2216, and 2218 Note: FREN 1109 and 1111 are prerequisite courses and do not count towards a minor in French.
History	4	2	Must include at least one 1000-level course from two of the following areas: Canadian History, European History, and American History.
Humanities	4	2	One of ENGL 2210 and 2211. At least one of RELS 1101, 1103, and 1105; at least one of PHIL 1101 and 1149; and at least one of HIST 1101, 1103, 1131, 1133, 1111, 1117, and 1119). Students who are interested in the Humanities minor should speak with an Academic Advisor as early as possible.
Linguistics	2	2	Required courses include LING 1111, 1113 and LING 2201. Four of the following courses: LING 2207, 2215, 2221, 2231, 3315 and 3371.
Philosophy	3	2	Must include at least one course from each of the following areas: (1) logic and argumentation, (2) value-theory, and (3) epistemology/metaphysics. The following courses may be used to satisfy each of the areas: Logic and Argumentation: PHIL 1175, PHIL 1179 Value Theory: PHIL 1149, 2219, 2223, 2229, 2237, 2253, 2291, 3333 and 3345 Epistemology / Metaphysics: PHIL 1101, 2211, 2215, 2221, 2263, 2267, 2281 and 3307
Policy Studies	N/A	6	POST 2201 and 2209. Please note that Policy Studies minors may not take the POST 3030 Internship.
Political Science	3	2	PLSC 1101
Psychology	2	2	PSYC 1101 and 1102
Religious Studies	4	2	RELS 1101, 1103, and 1105 HUMN 2297 can count as a Religious Studies course for this minor.
Sociology	2	2	SLGY 1101, 1103, 2231 and 2232.
Spanish	1	4	SPAN 1103 (or equivalent), 2211, 2213, and 2223, 3305 and 3309.
Teaching English as a Second Language (TESL)	3	2	LING1111 and either Linguistics 1113 for non-Education majors or EDUC 2371 for Education majors. LING 2221 and EDUC 2271 and 3372 Two or more of the following: LING 1113, 2207, 2231, or 3371 EDUC 4471
Women's Studies	4	2	WMST 1172, 3301 and 3302.

CO-OPERATIVE EDUCATION OPTION

A Co-operative Education option is available, subject to available resources and placements, to qualified BA students who wish to acquire work experience as part of their BA education at Mount Royal. The co-op component will comprise relevant, productive, and paid work in addition to the eight regular semesters (120 credits) of academic study. For more information, contact an Advisor or visit the Mount Royal Career Services website at mtroyal.ca/careerservices.

INTERNATIONAL EDUCATION OPPORTUNITIES

Qualified Mount Royal students have the opportunity to take part in international education experiences such as international field schools and semesters abroad. For more information, contact an Advisor or the Mount Royal Office of International Education.

BACHELOR OF ARTS IN ANTHROPOLOGY

The Bachelor of Arts degree in Anthropology provides students with a broad, integrated knowledge of the subject. Through its four major fields – Cultural Anthropology, Physical Anthropology, Linguistic Anthropology and Archaeology – Anthropology explores all aspects of human life, both ancient and modern, from cradle to grave. By creating a strong balance between humanistic and scientific approaches, this degree offers a holistic comparative understanding of Anthropology and therefore provides an excellent foundation for graduate studies as well as careers in Anthropology and other areas such as teaching, social work, curatorial work, and international affairs.

Graduates majoring in Anthropology at Mount Royal will acquire an extensive knowledge of all four major fields – Cultural Anthropology, Physical Anthropology, Linguistic Anthropology, and Archaeology – and the interconnections among them. Anthropological training will uniquely prepare graduates to engage competently and critically with the major issues of globalization, multiculturalism, and cultural heritage in the larger context of the human experience. This program will also foster proficiency in the methods of research, analysis, and scientific reasoning that distinguish Anthropology as an interdisciplinary realm within the social sciences.

Students with a major interest in Cultural Anthropology or Linguistic Anthropology should take related courses in subjects such as Economics, History, Philosophy, Political Science, Psychology, Religious Studies, and Sociology.

Students with a major interest in Archaeology should take related courses in subjects such as Art History, History, Geography, Geology, and Chemistry.

Students with a major interest in Physical Anthropology should take related courses in subjects such as in Biology, Psychology, and Sociology.

Students who are contemplating a specialization in a particular geographical region should take related courses in subjects such as Geography, History, Political Science, and the language of that region.

Mount Royal's BA in Anthropology aims to provide students with the following competencies:

1. foundational knowledge in the historical development, philosophical and theoretical trends, methodology, and practice of the discipline of Anthropology;
2. the ability to utilize and value the holistic and interdisciplinary approaches that are fundamental to Anthropology;
3. solid cross-cultural understanding of the nature and diversity of present and past cultures;
4. the ability to recognize the biases that societies carry in their understanding of human cultures and how anthropological training can help to overcome these biases;

5. an open-minded and culturally sensitive appreciation of different cultures and their relevance in the contemporary world;
6. solid competency in locating, reading, and comprehending primary and secondary sources;
7. strong analytical and critical thinking skills;
8. mastery of multiple methodologies and the scientific method;
9. the ability to formulate and communicate cogent arguments;
10. specific skills in managing, evaluating, and interpreting data derived from past and present cultures;
11. the ability to work and communicate effectively in collaborative group projects;
12. the ability to articulate points of view clearly and persuasively to others;
13. the ability to view situations reflectively by seeing oneself as both subject and object;
14. the ability to engage in participant-observation and promote cultural curiosity through experiential fieldwork;
15. the ability to engage in and evaluate both humanistic and scientific approaches through critical thinking and rigorous logical thought processes;
16. the ability to contextualize biological and cultural phenomena in terms of both local and global perspectives.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH A MAJOR IN ANTHROPOLOGY

All students must meet the general graduation requirements for the Bachelor of Arts with a Major, as indicated in the General Graduation Requirements – Bachelor of Arts with a Major section of this calendar. In addition, Anthropology Major students must meet the following graduation requirements.

1. Students must take a minimum of 14 ANTH courses (not including courses taken in fulfillment of the General Education requirements).
2. Students may take a maximum of 24 ANTH courses (including electives and courses taken in fulfillment of the General Education requirements).
3. Students must take the following four 1000-level ANTH courses, which are introductions to the four fields in Anthropology: ANTH 1102, ANTH 1103, ANTH 1104, and ANTH 1106.
4. Students must take a minimum of 10 ANTH courses at the 2000-level or higher, including:
 - a. the following six courses, some of which are prerequisites or strongly recommended for other upper-level ANTH courses:
 - ANTH 2225 – Ancient Civilizations
 - ANTH 2229 – Anthropology of "Race"
 - ANTH 2241 – Ethnography in Anthropology
 - ANTH 3305 – History of Anthropology
 - ANTH 3307 – Introduction to Anthropological Statistics
 - ANTH 4401 – Anthropological Theory
 - b. four additional senior-level ANTH courses, as follows:
 - a minimum of three other ANTH courses at the 2000/3000-level, not including the required courses listed above;
 - a minimum of one other ANTH course at the 4000-level, not including the required courses listed above.

Note: Students may pursue a general background in Anthropology or they may elect to focus on a particular field or fields (Cultural Anthropology, Linguistic Anthropology, Physical Anthropology, and Archaeology). If a focus is desired, then students should consult with the Anthropology Advisor in order to prepare the proper array of courses.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH HONOURS IN ANTHROPOLOGY

All students must meet the general graduation requirements for the Bachelor of Arts with Honours, as indicated in the General Graduation Requirements – Bachelor of Arts with Honours section of this calendar. In addition, Anthropology Honours students must meet the following graduation requirements.

1. Students must take a minimum of 18 ANTH courses (not including courses taken in fulfillment of the General Education requirements).
2. Students may take a maximum of 24 ANTH courses.
3. Students must take the following four 1000-level ANTH courses, which are introductions to the four fields in Anthropology: ANTH 1102, ANTH 1103, ANTH 1104, and ANTH 1106.
4. Students must take a minimum of 14 ANTH courses at the 2000-level or higher, including:
 - a. the following eight courses, some of which are prerequisites or strongly recommended for other upper-level ANTH courses:
 - ANTH 2225 – Ancient Civilizations
 - ANTH 2229 – Anthropology of “Race”
 - ANTH 2241 – Ethnography in Anthropology
 - ANTH 3305 – History of Anthropology
 - ANTH 3307 – Introduction to Anthropological Statistics
 - ANTH 4401 – Anthropological Theory
 - ANTH 5110 – Research Design/Professional Development
 - ANTH 5120 – Honours Thesis
 - b. six additional senior-level ANTH courses, as follows:
 - a minimum of four other ANTH courses at the 2000/3000-level, not including the required courses listed above;
 - a minimum of two other ANTH courses at the 4000-level, not including the required courses listed above.

Note: Students may pursue a general background in Anthropology or they may elect to focus on a particular field or fields (Cultural Anthropology, Linguistic Anthropology, Physical Anthropology, and Archaeology). If a focus is desired, then students should consult with the Anthropology Advisor in order to prepare the proper array of courses.

BACHELOR OF ARTS IN ENGLISH

The Bachelor of Arts program in English is designed to enable students to explore many aspects of English studies. The Department of English offers courses in composition, creative writing, film, literature, and literary theory. A distinctive feature of this English department is the commitment to improving students’ writing skills. Given this focus on writing and on reading different types of texts, students will find these programs useful for a variety of occupations and/or further study.

Graduates will be aware, not only of the historical and generic categories of English literature, but also of the role language plays in shaping our perceptions of everyday life. Mount Royal English graduates will be broadly literate for having engaged with written, visual and other types of social text. Mount Royal English graduates will be able to articulate the cultural processes that produce literatures in a variety of different geographic settings including Canada. In order to achieve this level of understanding, graduates will have taken a variety of courses stressing different literatures, genres, media and approaches to forms of cultural production.

Graduates will be able to communicate effectively in a variety of contexts. Graduates will be in firm possession of other core, transferable skills, such as thinking strategies, ethical reasoning, information retrieval and evaluation capabilities, computer literacy and group effectiveness, thus enabling them to succeed in further studies and career opportunities. Qualified graduates may go on to professional programs like law or develop careers in business, writing, or teaching. Graduates will have experienced different learning environments and developed metacognition (that is, a high level of self-awareness regarding learning and professionalization) around learning styles and preferences, an important outcome for the life-long learner in the education system or the workplace.

The graduate will

1. demonstrate a writing style that exhibits clarity, eloquence, and precision.
2. consider the audience when selecting rhetorical strategies.
3. articulate positions clearly and persuasively.
4. support arguments with appropriate sources of information.
5. analyze, evaluate and synthesize information from different sources.
6. construct reasonable and informed readings of texts.
7. be aware of genre conventions and literary traditions.
8. recognize various theoretical and critical approaches to texts.
9. address different positions in the course of developing an argument.
10. interrogate the ways in which ethical assumptions are shaped and analyze how one’s own ethical framework affects one’s readings of texts.
11. document sources in an ethically responsible way.
12. use information technologies effectively.
13. apply group process skills in diverse settings.
14. assess personal effectiveness in learning.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH A MAJOR IN ENGLISH

Students must meet the general graduation requirements for the Bachelor of Arts with a Major, as indicated in the General Graduation Requirements – Bachelor of Arts with a Major section of this calendar. In addition, English Major students must meet the following graduation requirements.

1. Students must take a minimum of 16 one-semester ENGL courses (40% of total courses).
2. Students may take no more than 24 ENGL courses (including electives and courses taken in fulfilment of the General Education requirements).
3. Students must take at least one but no more than two of the following 1000-level Literature courses: ENGL 1131, ENGL 1135, ENGL 1137, ENGL 1141.
4. Students must take two English Literature Survey courses: ENGL 2210 – English Literature to the Restoration and ENGL 2211 – English Literature from the Restoration to the Present; or equivalent.
5. Students must take a minimum of one 2000-level Writing course.
6. Students must take ENGL 2202 – Theory in English Studies.
7. Students must take a minimum of one Canadian Literature course.
8. Students must take a minimum of one Post-Colonial Literature course.
9. Students must take a minimum of four 3000-level English courses, at least two of which must focus on Pre-1900 Literature.
10. Students must take a minimum of two 4000-level English courses.
11. Students must fulfil a Language/Linguistics requirement. This requirement can be satisfied by taking ENGL 3306 – History of the English Language; or one Language course; or one Linguistics course; or by demonstrating proficiency in a language other than English.

Category requirements can be met by taking courses at the 1000, 2000, 3000, or 4000 level unless otherwise specified.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH HONOURS IN ENGLISH

All students must meet the general graduation requirements for the Bachelor of Arts with Honours, as indicated in the General Graduation Requirements – Bachelor of Arts with Honours section of this calendar. In addition, English Honours students must meet the following graduation requirements.

1. Students must take a minimum of 20 one-semester ENGL courses (50% of total courses).
2. Students may take no more than 24 ENGL courses (including electives and courses taken in fulfilment of the General Education requirements).
3. Students must take at least one but no more than two of the following 1000-level Literature courses: ENGL 1131, ENGL 1135, ENGL 1137, ENGL 1141.
4. Students must take two English Literature Survey courses: ENGL 2210 – English Literature to the Restoration and ENGL 2211 – English Literature from the Restoration to the Present; or equivalent.
5. Students must take a minimum of one 2000-level Writing course.
6. Students must take ENGL 2202 – Theory in English Studies.
7. Students must take a minimum of one Canadian Literature course.
8. Students must take a minimum of two Post-Colonial Literature courses.
9. Students must take a minimum of six 3000-level English courses. In satisfying this requirement, students must take the following:
 - at least four courses in Pre-1900 Literature, two of which must focus on Pre-1750 Literature
 - at least one Theory course.
10. Students must take a minimum of four 4000/5000-level English courses one of which is ENGL 5110 – Honours Seminar.
11. Students must fulfil a Language/Linguistics requirement. This requirement can be satisfied by taking ENGL 3306 – History of the English Language; or two Language courses; or two Linguistics courses; or by demonstrating proficiency in a language other than English.

Category requirements can be met by taking courses at the 1000, 2000, 3000, or 4000 level unless otherwise specified.

BACHELOR OF ARTS IN HISTORY

The History major in the Bachelor of Arts four-year program is designed to provide students with a broad base of knowledge in Canadian, European, and American History. Students will also have the opportunity to study a variety of other topics such as Film and History, Latin American History, and Public History. In addition, students will also develop an understanding of the methods of historical research and analysis, and historical reasoning that distinguish History as a branch of knowledge in the Humanities and Social Sciences. Beyond the intrinsic value of historical study, a BA in History prepares students for graduate studies in History and/or careers in areas such as teaching, law, archival studies, international affairs, journalism, and public administration.

Mount Royal's BA in History aims to provide students with the following competencies:

1. foundational knowledge in Canadian, European and/or American History and introduction to a variety of other topics such as Film and History, Latin American History, and Public History;
2. the ability to locate, read and understand primary and secondary historical sources;
3. an understanding of historical reasoning and analysis;
4. a critical understanding of the nature and diversity of past political, economic, social and cultural institutions;
5. an awareness of the importance of historical context and its relevance to understanding the contemporary world;
6. the ability to formulate and present, both orally and in writing, cogent interpretations of the past.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH A MAJOR IN HISTORY

Students must meet the general graduation requirements for the Bachelor of Arts with a Major, as indicated in the General Graduation Requirements – Bachelor of Arts with a Major section of this calendar. In addition, History Major students must meet the following graduation requirements.

1. Students must take at least four introductory (1000-level) HIST courses, including one 1000-level course each in Canadian, American and European History. Students who declare a major in History from Fall of 2011 onwards, must take HIST 1100 – Introduction to History and at least three other introductory (1000-level) HIST courses, including one 1000-level course each in Canadian, American and European History.
2. Students must take at least 12 HIST courses at the 2000 level or higher. In satisfying this requirement, students must also satisfy the following requirements:
 - a. HIST 2202 – The Historian's Craft
 - b. Minimum of four HIST courses at the 4000 level.
3. Students must take a minimum of 16 HIST courses (not including courses taken in the fulfillment of the General Education requirements).
4. Students may take a maximum of 24 HIST courses (including electives, courses taken in the fulfillment of the General Education requirements, and non-HIST courses* specified as satisfying the requirements of the History program).

* The following courses can be used to satisfy HIST course requirements: CNST 1131, CNST 2233, HUMN 2219, and HUMN 2221.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH HONOURS IN HISTORY

All students must meet the general graduation requirements for the Bachelor of Arts with Honours, as indicated in the General Graduation Requirements – Bachelor of Arts with Honours section of this calendar. In addition, History Honours students must meet the following graduation requirements.

1. Students must take at least four introductory (1000-level) HIST courses, including one 1000-level course each in Canadian, American and European History. Students who declare a major in History from Fall of 2011 onwards, must take HIST 1100 – Introduction to History and at least three other introductory (1000-level) HIST courses, including one 1000-level course each in Canadian, American and European History.
2. Students must take at least 14 HIST courses at the 2000 level or higher. In satisfying this requirement, students must also satisfy the following requirements:
 - a. HIST 2202 – The Historian's Craft
 - b. HIST 5110 – Honours Project I
 - c. HIST 5120 – Honours Project II*
 - d. Minimum six HIST courses at the 4000 level or higher (including HIST 5110 and HIST 5120)
- * Students are strongly advised to select a topic for their Honours Project from subject areas in which they have taken a minimum of four courses, at least one at the 4000 level.
3. Students must take a minimum of 20 HIST courses (not including courses taken in the fulfillment of the General Education requirements).
4. Students may take a maximum of 24 HIST courses (including electives, courses taken in the fulfillment of the General Education requirements, and non-HIST courses** specified as satisfying the requirements of the History program).
5. Students must achieve a minimum GPA of 3.0 in the last eight History courses completed in the program.

** The following courses can be used to satisfy HIST course requirements: CNST 1131, CNST 2233, HUMN 2219, and HUMN 2221.

Students completing the Honours Program who have failed to satisfy all the requirements for an Honours degree (e.g., minimum GPA of 3.0 in their last eight History courses) but who have satisfied all requirements for a BA Major degree shall receive a BA Major degree upon graduation.

BACHELOR OF ARTS IN POLICY STUDIES

The Policy Studies major in the Bachelor of Arts four year program is designed to provide students with a solid academic foundation in policy theory, political science, and economics, as well as a semester of work experience. With these two key components, this degree will prepare graduates to embark on further study and/or challenging policy careers in the public, private, and non-profit sectors.

With its Bachelor of Applied Policy Studies, and now with the Bachelor of Arts, Major in Policy Studies, Mount Royal joins a small number of universities in Canada who offer policy studies at the undergraduate level. The department of Policy Studies at Mount Royal encompasses the disciplines of economics and political science in addition to policy studies. Consequently it was able to build an integrated curriculum with a much better balance between economics and political science than is usually found. Students who graduate from the Bachelor of Arts, Major in Policy Studies program will have the theoretical background and practical skills – quantitative, computer analysis, writing and presentation – to understand the evolving relationships between business, governments, non-governmental organizations and interest groups, (policy communities). Graduates will be able to apply their skills to research, develop and evaluate policy proposals and will be qualified for positions such as management and communications assistants, planning and co-ordination officers and policy and economic analysts in private, public and not-for-profit sectors.

Students will have the opportunity to put theory into practice with a semester-long paid Internship, which is normally taken during the third year of the degree program. Given the increased demand for policy professionals in Alberta and indeed throughout Canada, Mount Royal's innovative BA in Policy Studies makes an exceptionally relevant fit with today's economic, social and political challenges. Graduates of this degree program not only are keenly aware of the challenges our economy and society face; they also possess the knowledge to help address these challenges.

The six principal Policy Studies degree outcomes are as follows:

1. Comprehending policy contexts,
2. Applying analytical and research skills,
3. Behaving professionally,
4. Utilizing policy expertise,
5. Communicating effectively, and
6. Applying theory.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH A MAJOR IN POLICY STUDIES

All students must meet the general graduation requirements for the Bachelor of Arts with a Major, as indicated in the General Graduation Requirements – Bachelor of Arts with a Major section of this calendar. In addition, Policy Studies Major students must meet the following graduation requirements.

1. Students must complete all PLSC, ECON, ENGL, and POST courses identified in items 2 to 5, below.
2. Economics (ECON)
 - a. ECON 1101 – Principles of Microeconomics
 - b. ECON 1103 – Principles of Macroeconomics
 - c. ECON 2213 – Intermediate Economic Theory - Macroeconomics
 - d. ECON 2244 – Managerial Economics
 - e. ECON 2255 – Canadian Public Finance
3. English (ENGL)
 - a. ENGL 2263 – Technical Writing
4. Political Science (PLSC)
 - a. PLSC 1101 – Introduction to Government and Politics
 - b. PLSC 2231 – The Canadian State
 - c. PLSC 2259 – Comparative Government and Politics
 - d. PLSC 2287 – Introduction to International Relations
5. Policy Studies (POST)
 - a. POST 2201 – Introduction to Public Policy
 - b. POST 2209 – Statistics and Methodology
 - c. POST 3303 – Federalism
 - d. POST 3305 – Interest Groups and Group Behaviour
 - e. POST 3030 – Policy Studies Internship
 - f. POST 4421 – International Economic Policy
 - g. POST 4431 – Managing and Implementing Public Policy
 - h. POST 4443 – Survey of Public and Private Law Principles
 - i. POST 5010 – Selected Topics in Public Policy
 - j. POST 5020 – Integrative Professional Practice
6. Policy Studies Major students must obtain a minimum grade of 2.00 (C) in all the courses specified in items 2 to 5, above.
7. In addition to the required courses indicated above, Policy Studies Major students must also fulfill for graduation
 - a. All General Education course requirements; and
 - b. four (4) elective courses.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH HONOURS IN POLICY STUDIES

All students must meet the general graduation requirements for the Bachelor of Arts with Honours, as indicated in the General Graduation Requirements – Bachelor of Arts with Honours section of this calendar. In addition, Policy Studies Honours students must meet the following graduation requirements.

1. Students must complete all of the required PLSC, ECON, ENGL, and POST courses identified in items 2 to 5 above (Bachelor of Arts with a Major in Policy Studies) for Policy Studies with a minimum grade of 3.00 (B) for each of these courses. Any student who fails to maintain this minimum will lose her/his place in the Policy Studies Honours program.
2. A student will apply for admission into the Policy Studies Honours program by May 15 of the year in which she/he will complete a minimum of 20 courses, but no later than the completion of 30 courses into the program.
3. Policy Studies Honours students must fulfill all General Education requirements as specified for the Bachelor of Arts degree.
4. Policy Studies Honours students will have completed three (3) electives for graduation, instead of the four (4) required for Majors.
5. Students must produce an Honours thesis, the content of which must be approved by the Policy Studies Honours Advisor and the Policy Studies Department Chair.
6. The POST 5120 Honours Thesis will be completed during the student's last semester in the program. Complete information for the Honours Thesis program is provided by the department in the Policy Studies Honours Information Handbook, available at the Department of Policy Studies General Office (EA 3039).

BACHELOR OF ARTS IN PSYCHOLOGY

The Mount Royal BA in Psychology is designed to provide students with a broad base of knowledge in the key areas of the discipline by requiring courses in six core areas. It will also provide an understanding of research processes, the scientific method, and statistical analysis through specific courses in these areas as well as in senior courses that cover this material as it relates to specific topics. Students will also have the opportunity to choose from courses that will enable them to focus on a particular area within the Psychology discipline. The knowledge, skills, and abilities acquired in the BA program can lead students to a variety of career opportunities or to further study in Psychology and related fields.

It is recommended that students who meet the qualifications and who intend to pursue graduate study consider applying to the Honours BA in Psychology.

Specific targeted outcomes for the graduates of the program include the following:

1. Knowledge of Psychology
 - a. Students will acquire foundational knowledge in the core areas of Psychology and in those areas in which they choose to focus. This outcome will be achieved through courses at the introductory and senior levels that cover the basic concepts, perspectives, and research findings from the main topic areas in Psychology. The core required areas include developmental Psychology, cognitive Psychology, social Psychology, theories of personality, abnormal behaviour, and biological Psychology.
 - b. Students will develop an understanding of major theoretical perspectives, both historical and current, and will apply their understanding of these perspectives in a variety of content areas.

- c. Students will acquire the ability to locate, read and understand primary and secondary sources in Psychology, and will be able to communicate with others, both orally and in writing, in the language of the discipline.
2. **Research Methods in Psychology**
Students will understand and apply basic research methods in Psychology, including research design, data analysis, and interpretation. This goal will be achieved through one required course in statistics and one in research methods, through optional senior statistics and research-methods courses, through participation in research projects, and through assignments in senior content courses. Students will also demonstrate the ability to design appropriate research strategies and will demonstrate proficiency in data analysis in assessing research results. Students in the Honours program will be expected to achieve a higher level of understanding through participation in senior statistics and research methods courses.
3. **Thinking Skills in Psychology**
Students will apply critical and creative thinking as well as problem-solving skills to research questions and issues related to behavioural and mental processes. They will develop the ability to recognize and critically examine the assumptions informing Psychology and to assess the credibility and validity of information. Students will have opportunities to apply psychological principles to personal, social, and other real-life issues.
4. **Ethics, Values, and Diversity in Psychology**
Students will learn to tolerate ambiguity in psychological explanations, to understand the necessity for ethical guidelines in Psychology and act accordingly, and to develop appropriate objectivity and open-mindedness. They will appreciate and respect multicultural and interpersonal diversity.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH A MAJOR IN PSYCHOLOGY

Students must meet the general graduation requirements for the Bachelor of Arts with a Major, as indicated in the General Graduation Requirements – Bachelor of Arts with a Major section of this calendar. In addition, Psychology Major students must meet the following graduation requirements.

1. Students must take a minimum of 16 PSYC courses.
2. Students may take no more than 24 PSYC courses (including electives and courses taken in the fulfillment of the General Education requirements).
3. Students must complete the following PSYC courses as part of their 16 minimum required courses:
 - a. PSYC 1103 – Introduction to Psychology I: Natural Science
 - b. PSYC 1104 – Introduction to Psychology II: Social Science
 - c. PSYC 2210 – Statistical Methods for Psychology I
 - d. PSYC 2211 – Statistical Methods for Psychology II
 - e. PSYC 2213 – Research Methods I
 - f. PSYC 2235 – Life-Span Development
 - g. PSYC 2245 – Social Psychology
 - h. PSYC 2265 – Cognitive Psychology
 - i. PSYC 2283 – Personality
 - j. PSYC 2285 – Introduction to the Psychology of Abnormal Behaviour
 - k. PSYC 3375 – Brain and Behaviour
4. Students must complete at least two PSYC courses at the 4000 level.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH HONOURS IN PSYCHOLOGY

The Psychology Honours program is a highly competitive two-year program that is intended to provide advanced preparation in research to exceptional students. All students must meet the general graduation requirements for the Bachelor of Arts with Honours, as indicated in the General Graduation Requirements – Bachelor of Arts with Honours section of this calendar. In addition, Psychology Honours students must meet the following graduation requirements.

1. Students must complete a minimum of 20 courses in PSYC, including the required courses from the Psychology Major program (see above) and those listed below.
 - a. PSYC 3305 – History of Psychological Thought
 - b. PSYC 4412 – Behavioural Statistics II
 - c. PSYC 4413 – Research Methods II
 - d. PSYC 5110 – Honours Thesis I
 - e. PSYC 5120 – Honours Thesis II
2. Students may take no more than 24 PSYC courses (including electives and courses taken in the fulfillment of the General Education requirements).
3. Students must complete at least five PSYC courses at the 4000/5000 level (included in this total will be 1c, 1d, and 1e from above).
4. In the final year of their program, while enrolled in PSYC 5110 and PSYC 5120, students are required to conduct a research project under faculty supervision and to write a thesis. Students must present their research results at a Psychology Department undergraduate conference.

Interested students should consult the Psychology Department's website for more detailed information about the Psychology Honours program.

BACHELOR OF ARTS IN SOCIOLOGY

The Major in Sociology is designed to expand students' sociological imaginations by challenging them to think critically about the ways in which society is created, maintained, and changed. Through courses that explore the historical, philosophical, and theoretical development of the discipline, students will be exposed to the conceptual and methodological tools required to conduct critical and reasoned analyses of all areas of social life from small-scale micro-level social interaction to large-scale macro-level social institutions. Sociology at Mount Royal focuses on the study of social power and inequality, on exposing the ways in which interlocking systems of domination shape and define the individual and the collective social condition and on strategies of social resistance to that domination. Apart from the intrinsic value of learning to think critically about the taken-for-granted world, a BA in Sociology helps prepare students for graduate school and/or a wide range of careers in areas such as independent research, social services, community advocacy, and teaching.

Mount Royal's BA in Sociology aims to provide students with the following competencies:

1. A sociological imagination and an intimate familiarity with core Sociology concepts in order to examine critically the taken-for-granted world.
2. The ability to locate, read and critically analyze primary and secondary sociological sources (theoretical and empirical).
3. Knowledge of the use of social theory in Sociology and a familiarity with the central sociological perspectives.
4. An understanding of all of the components of the research process both qualitative and quantitative.
5. An understanding of how social life is structured by inequality and shaped by factors such as social class, gender, race/ethnicity, sexuality, and subcultural membership.
6. An understanding of the interaction between individuals, and historical, cultural, and social forces.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH A MAJOR IN SOCIOLOGY

Students must meet the general graduation requirements for the Bachelor of Arts with a Major, as indicated in the General Graduation Requirements – Bachelor of Arts with a Major section of this calendar. In addition, Sociology Major students must meet the following graduation requirements.

1. Students must take a minimum of 16 SLGY courses.
2. Students may take no more than 24 SLGY courses.
3. Sociology course requirements by year:
 - a. In year one, students are required to complete Introduction to Sociology (SLGY 1101) and The Sociological Imagination (SLGY 1103).
 - b. In year two, students are required to complete Classical Sociological Theory (2231), Introduction to Sociological Research Methods (2232) and three additional Sociology courses at the 2000 level.
 - c. In year three, students are required to complete Quantitative Methods and Statistics (SLGY 3321), Qualitative Research Methods (SLGY 3323) Contemporary Social Theory (SLGY 3333), and three additional Sociology courses at the 3000 level.
 - d. In year four, students are required to complete Intersections in Social Life (SLGY 5010) and two additional Sociology courses at the 4000 level.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH HONOURS IN SOCIOLOGY

The Sociology Honours major is a competitive program designed to provide exceptional students with the opportunity to study sociology in more depth and with a sharper focus. Honours students must meet the general graduation requirements for the Bachelor of Arts with Honours, as indicated in the General Graduation Requirements – Bachelor of Arts with Honours section of this calendar. In addition, Sociology Honours students must meet the following graduation requirements.

1. Students must take a minimum of 20 SLGY courses.
2. Students may take no more than 24 SLGY courses.
3. Sociology course requirements by year:
 - a. In year one, students are required to complete Introduction to Sociology (SLGY 1101) and The Sociological Imagination (SLGY 1103).
 - b. In year two, students are required to complete Classical Sociological Theory (SLGY 2231), Introduction to Sociological Research (SLGY 2232) and three additional Sociology courses at the 2000 level.
 - c. In year three, students are required to complete Contemporary Social Theory (SLGY 3333), Quantitative Methods and Statistics (SLGY 3321) Qualitative Research Methods (SLGY 3323) and three additional Sociology courses at the 3000 level.
 - d. In year four, students are required to complete the Honours Thesis I (SLGY 5110) and Honours Thesis II (SLGY 5120) and two additional Sociology courses at the 4000 level. Students can fulfill their remaining Sociology credits from any combination of Sociology courses at the 2000 level or above.

BACHELOR OF ARTS IN SPANISH

The Bachelor of Arts with a Major in Spanish is designed to develop students' communication skills in the Spanish language and their understanding of Hispanic cultures. The aim is to prepare students to function effectively in a variety of social contexts. Students will gain linguistic and cross-cultural skills by analyzing fiction, film and mass media texts from Spain, Latin America and Hispanic culture in North America. They will be provided with tools to explore, reflect and compare their native culture with the target cultures presented in their studies.

The program offers language courses as well as courses from four different areas of study: Hispanic Literatures and Cultures, the Teaching of Spanish as a Second Language, Translation, and Business Spanish. The Major in Spanish provides a solid undergraduate education in Spanish as well as preparation for a Bachelor of Education to teach Spanish in elementary and secondary schools. It prepares students to embark on careers such as translation, interpretation and international business in the public, private and non-profit sectors. A Bachelor of Arts degree in Spanish can prepare graduates to work in a variety of other areas as well, as the ability to communicate cross-culturally has become key to functioning in a global society. The ability to communicate in Spanish is a definite asset for job opportunities related to a large geographical area, from the south-western United States to the tip of South America as well as Spain.

The Bachelor of Arts degree in Spanish provides all students with a broad base of skills and also offers them the option to develop skills in four areas of interest. There are six broad program competencies and additional competencies for each area of interest.

Graduates with a Bachelor of Arts in Spanish will:

1. Have language proficiency in academic and informal discourse. Students will achieve an Advanced/Advanced-Plus proficiency in Spanish as defined by the Proficiency Guidelines of the American Council on the Teaching of Foreign Languages (ACTFL).
2. Have analytical and critical thinking skills. Students will articulate positions clearly and persuasively.
3. Have an understanding of cultural life in Spanish-speaking countries. Students will have a good level of cross-cultural understanding by having reflected upon and analyzed their native and target cultures.
4. Have foundational knowledge in Literature and History of Spain and Spanish America.
5. Be able to research topics effectively from various sources in Spanish.
6. Be familiar with texts from various periods, genres and nations. Students will understand a variety of literary and other media texts that are conceptually abstract and linguistically complex.

Additionally, graduates will have the opportunity to take a variety of courses in Hispanic Literatures and Cultures, the Teaching of Spanish as a Second Language, Translation and Business Spanish, thereby developing the following competencies:

1. Have knowledge of the genres and trends of the different periods of Spanish and Spanish American literatures, including indigenous voices.
2. Gain an understanding of literary texts through essay writing, textual analysis, class discussions and oral presentations.
3. Have foundational knowledge on the nature of language, second language acquisition theory, second language teaching methodologies and how these have been applied in a variety of learning contexts.
4. Have basic skills in preparing instructional plans for beginner and intermediate Spanish as second language courses.
5. Have skill in rendering texts of mainly a general nature from English to Spanish and Spanish to English in written communication.

6. Develop a cultural business background and lexicon to function effectively in Spanish-speaking commercial environments. Students will develop strategies for effective writing, listening comprehension and speaking on business topics.

SPECIFIC GRADUATION REQUIREMENTS – BACHELOR OF ARTS WITH A MAJOR IN SPANISH

Students must meet the general graduation requirements for the Bachelor of Arts with a Major, as indicated in the General Graduation Requirements – Bachelor of Arts with a Major section of this calendar. In addition, Spanish Major students must meet the following graduation requirements.

1. Students must take a minimum of 16 SPAN courses.
2. Students may take no more than 24 SPAN courses (including electives and courses taken in the fulfillment of the General Education requirements).
3. Students must take a minimum of four 4000-level SPAN courses.
4. The following 9 SPAN courses are mandatory:
 - a. SPAN 1103 – Beginners' Spanish II
 - b. SPAN 2211 – Intermediate Spanish I
 - c. SPAN 2213 – Intermediate Spanish II
 - d. SPAN 2221 – Contemporary Hispanic Cultures and Oral Practice
 - e. SPAN 2223 – Introduction to Textual Analysis and Composition
 - f. SPAN 3305 – High Intermediate Spanish
 - g. SPAN 3309 – Critical Thinking in Spanish
 - h. *SPAN 3311 – Introduction to Literature from Spain and Latin America*
 - i. SPAN 4401 – Advanced Spanish
5. Students must complete a minimum of seven other SPAN courses. Students have a variety of areas to choose from: Hispanic Literatures and Cultures, the Teaching of Spanish as a Second Language, Translation, and Business Spanish. Students should consult with an Advisor to select the best combination of courses for their areas of interest.
6. In addition to the 16 courses in Spanish, students are required to take four Hispanic culture courses in English: a) ROST 1101- Topics in Romance Culture (a section including Spain) or SPAN 2219- Contemporary Spanish Culture and Society, b) LAST 1101- Introduction to Contemporary Latin American Cultures, c) LAST 2201-Cultures of South America and d) LAST 2202-Cultures of Mexico, Central America and the Caribbean. These courses are delivered in English and provide a strong background for the understanding of Hispanic cultures. They are offered by the Department of Languages and Cultures.
7. Students are not required, but strongly encouraged, to participate in a study semester at a university in a Spanish-speaking country. International Education at Mount Royal has several exchange agreements with universities in Mexico and Spain. Students can participate when they have completed a minimum of one course at the 2000 level and have a minimum GPA of 3.00. A maximum of five courses taken at an exchange institution can be transferred as long as they meet the requirements of equivalent courses in the Spanish program.
8. Placement test: Students with Spanish language knowledge must consult the Spanish section of the Department of Languages and Cultures to be placed in a course corresponding to their ability. Placement tests will be administered in order to assess prior knowledge. Students should contact the Department to make an appointment to complete their placement test at least within two weeks before the beginning of classes each semester. The Spanish section of the Department of Languages and Cultures reserves the right to place students in the language course that is appropriate to their level of language proficiency.

Students who are placed at a higher level upon entry to the program will still need to complete a minimum of 16 SPAN courses for the major and 8 courses for the minor. Students who have completed courses at other institutions should consult the Spanish Faculty Advisor.

Students who have no prior knowledge of Spanish should take SPAN 1101 before entering the major and minor programs.

Note: Courses in Italics are under development.

BACHELOR OF APPLIED INTERIOR DESIGN

GENERAL INFORMATION

Interior design is a dynamic and rewarding profession. It involves the analysis of clients' needs, goals and life safety issues to create interior design solutions that are functional, soundly constructed, and aesthetically unified. This requires strong skills in three-dimensional visualization, space planning, construction detailing, visual communication and understanding of interior design business practices. Interior designers must also be well-versed in building codes and building systems, historical precedents in art and design and social issues that impact the well-being of humans and the environment.

The Bachelor of Applied Interior Design program at Mount Royal University emphasizes both practical and theoretical skill-building relative to the demands of the interior design profession. This is accomplished through six semesters of studio-based projects, seminars and lectures, and two semesters of paid work experience within the design industry. Emphasis is placed on developing competency in the design of interior volumes, design and specification of construction details, visual representation of design solutions, selection of colour and finish materials, understanding of art and design theory and administration of interior design business practices.

In addition to developing the fundamental skills required of interior design practitioners, the Bachelor of Applied Interior Design program emphasizes global skills required to be successful in today's workforce. These include the ability to research, communicate well, think critically, reason ethically and work effectively in a team environment.

Given the broad based application of creative problem solving skills developed in this program, employment opportunities for graduates are far-ranging. Students may enter into the profession directly as interior design practitioners, or become involved in careers such as facility management, construction management, building development and leasing or sales and marketing of interior design related products.

The Bachelor of Applied Interior Design program is accredited by CIDA - Council for Interior Design Accreditation.

OPPORTUNITIES FOR FURTHER STUDY

Applied baccalaureate degree programs offered by Mount Royal University have been designed primarily to prepare graduates for immediate employment within, or related to, their area of study. The applied degree credential does not guarantee either eligibility for, or admission into, graduate and professional programs. Nevertheless, in response to demand by students and the community at large, the University is actively investigating and pursuing opportunities to have these baccalaureate credentials recognized, in whole or in part, for admission to appropriate and relevant graduate and professional programs offered by universities. Specific arrangements and opportunities for graduate study will be publicized as these are formalized. Graduating applied baccalaureate degree students who are interested in further study rather than immediate employment are encouraged to discuss their post-graduate education plans with an academic advisor at the institution in which they are seeking to enrol.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF APPLIED INTERIOR DESIGN DEGREE

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Applied Interior Design program:

- English Language Arts 30-1 – 65%
- Mathematics 30 (Pure)

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

- Directed portfolio requirement(s):
- In-person discussion of the applicant's portfolio submission and related design topic(s).

Applicants will be evaluated for admission on the basis of a strong showing in their entry-level academic subjects, the portfolio and the in-person discussion.

Admission on the Basis of Transfer from a Recognized School of Interior Design

Applicants will be assessed under this category if:

- Transcripts and portfolio of student work demonstrate eligibility for transfer and;
- Seats are available in the Bachelor of Applied Interior Design program

Note: Request for admission on this basis must be submitted directly to the Department of Interior Design & Art History on or before the deadline for application to the Bachelor of Applied Interior Design program.

Application Deadline: March 1

DIRECTED FIELD STUDIES

Directed Field Studies are designed to provide an extension of the learning process in a relevant work environment. Delivered in two semesters, comprising 25 per cent of the curriculum for applied baccalaureate degree programs, Directed Field Studies integrate academic learning with paid work experience. Each Directed Field Studies semester has specific course objectives and outcomes. Students are responsible to complete requirements assigned by Mount Royal University faculty and are obligated to fulfill commitments made to employers. Students receive 15 credits for the successful completion of each semester.

Given the fluctuating nature of the local labour market, opportunities for work experience can be located outside Calgary, across Canada and in international markets. Students should be prepared to relocate and to receive intern or entry-level compensation.

Directed Field Studies are considered an academic component of the program. Therefore, students are advised to refer to other parts of the calendar including *Evaluation of Prior Learning* and *Fees and Deposits*.

CONTINUANCE IN THE PROGRAM

Students who fail to achieve a minimum grade of "C" (2.00 GPA) in each of the required core courses in the program will not be allowed to continue in interior design core courses in the subsequent semester, and must repeat any required core courses in which the "C" minimum was not met. This grade requirement does not apply to the English requirement, or the eight arts and science courses, and approved options. A minimum grade of "C" is required in all interior design core courses in order to qualify for a degree. If students wish to be re-admitted to the Bachelor of Applied Interior Design program to continue their studies, they must provide a letter of intent to the Department of Interior Design & Art History four (4) months prior to the commencement of the semester in which they are seeking re-admittance.

CURRICULUM

Bachelor of Applied Interior Design

The Bachelor of Applied Interior Design includes six semesters of courses plus two Directed Field Studies. Program requirements are normally scheduled over a three-year period.

Year One

ARTH 1101 – The History of Art: Prehistory to Renaissance
 ARTH 1103 – The History of Art: Renaissance to the Present
 ENGL 1101 or any other 1100 level (or higher) English
 INDS 2211 – Design I
 INDS 2213 – Design Communication I
 INDS 2221 – Design II
 INDS 2223 – Design Communication II
 INDS 2225 – Construction I
 INDS 2231 – Colour and Light
 INDS 2233 – Materials
 INDS 2235 – Universal Design
 INDS 3309 – History of Interiors

Year Two

INDS 2010 – Directed Field Studies I
 (normally completed in summer of Year Two)
 INDS 2229 – Lighting
 INDS 3301 – Design III
 INDS 3305 – Construction II
 INDS 3311 – Design IV
 INDS 3313 – Design Communication III
 INDS 3315 – Construction III
 INDS 3317 – Interior Design Business I
 INDS 3323 – Design Communication IV
 INDS 3327 – Interior Design Business II
 INDS 3331 – Computer Drafting
 INDS 3333 – Case Studies in Design
 INDS 3335 – Building Code and Systems I
 INDS 4435 – Building Code and Systems II
 Arts and Science Requirement
 Arts and Science Requirement

Year Three

INDS 3010 – Directed Field Studies II
(normally completed in winter of Year Three)

INDS 4401 – Design V

INDS 4405 – Construction IV

INDS 4407 – Interior Design Business III

INDS 4411 – Design VI

INDS 4413 – Design Communication V

INDS 4415 – Construction V

INDS 4421 – Design Issues

INDS 4437 – Design Theory

Arts and Science Requirement

Arts and Science Requirement

Senior Arts and Science Requirement

Senior Arts and Science Requirement

Note: Arts and Science Requirements must be selected from four (4) different areas. At least two (2) arts and science courses (a minimum of six [6] credits) must be at the senior level (see program/academic advisor for details). See General Graduation Requirements section for a full listing of approved Arts and Science Requirements, areas and restrictions.

BISSETT SCHOOL OF BUSINESS

The Bissett School of Business offers a focused and interactive environment that encourages strong relationships and independent thinking. Our business programs recognize the challenges of today's world and fosters thinking that can shape the future.

Once accepted into the Bissett School of Business, you can elect to specialize in one of the following areas:

- Accounting
- Aviation
- Entrepreneurship
- Financial Services
- General Management
- Human Resources
- Insurance
- International Business
- Marketing
- Nonprofit Management
- Supply Chain Management
- Business and Society

PROGRAMS OFFERED

Degrees:

Bachelor of Business Administration – Accounting, Human Resources, Marketing, General Management

Degree Minors:

Business and Society, Entrepreneurship, Financial Services, Human Resources, Insurance, International Business, Marketing and Business, Nonprofit Management, Supply Chain Management

Diplomas:

Aviation

Business Administration – General Business (Admission Suspended for Fall 2011)

Business Administration – Human Resources (Admission Suspended for Fall 2011)

Business Administration – Marketing (Admission Suspended for Fall 2011)

Business Administration and Insurance (Co-op and Non-Co-op) (Admission Suspended for Fall 2011)

Certificates:

Advanced Accounting, Human Resources, Marketing

BACHELOR OF BUSINESS ADMINISTRATION

GENERAL INFORMATION

The Bachelor of Business Administration (BBA) program is designed to prepare students to be successful in the commercial, nonprofit, and public sectors of the Canadian and global economy, while being engaged citizens in their communities. The Bachelor of Business Administration is primarily designed to prepare students for immediate employment upon graduation. The BBA may also be considered sufficient preparation for admission to appropriate and relevant professional accreditation programs as well as graduate degrees offered by many Canadian and international universities. Students wishing to pursue a graduate degree are advised to verify the admission requirements for entry into graduate programs, and to determine whether their baccalaureate degree would fulfill those requirements.

BBA students will have the opportunity to specialize in one of several majors, including Accounting, Human Resources, and Marketing. We also offer a General Management major which allows students to specialize in other fields of business, including Entrepreneurship, Financial Services, Insurance, International Business, Nonprofit Management, Supply Chain Management, Business and Society, and Aviation. Students may also use the General Management major to pursue minors in areas of study offered outside of the Bissett School of Business.

Each major incorporates the study of the business disciplines of general management, accounting, marketing, human resources, entrepreneurship, finance, law, operations management, international business, business communication, organizational behaviour, and strategic management, in addition to fulfilling the General Education components required of all Mount Royal baccalaureate students.

GENERAL ADMISSION REQUIREMENTS – BACHELOR OF BUSINESS ADMINISTRATION

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF BUSINESS ADMINISTRATION

In Addition to meeting the general admission requirements, indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or their equivalencies) with the specified minimum grades are required for admission into the Bachelor of Business Administration program:

- ELA 30 – 1 – 60%
- Math 30 (Pure or Applied) – 60%

or successful completion of a two-year business diploma, applied degree or four-year business baccalaureate from an accredited post-secondary institution.

Although conditional admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission into the program.

BUSINESS GRADUATE ENTRANCE OPTION

Students possessing a completed two-year business diploma, or applied business degree, or four year business baccalaureate from any accredited post-secondary institution in Canada may apply to enter the BBA. Students accepted with a post-secondary diploma, applied degree, or baccalaureate will normally receive transfer credit for up to 60 credits (20 courses) towards the Bachelor of Business Administration. Other advanced business credentials may also be accepted.

POST-SECONDARY ENTRANCE OPTION

Students who possess previous post-secondary credit but have not completed a two-year business diploma, applied degree, or four year business baccalaureate will be assessed on a course-by-course basis. Please consult an Advisor for details.

BACHELOR OF BUSINESS ADMINISTRATION CURRICULUM

The foundation of the BBA includes seventeen (17) required core business courses, nine (9) major courses, twelve (12) General Education* courses, and two (2) Electives, for a total of 40 courses over four (4) years.

* Please consult the University Calendar for information concerning the University's General Education requirement.

The seventeen (17) required core business courses in the BBA consist of the following:

- ACCT 2121 – Financial Accounting Concepts
- ACCT 3224 – Management Accounting I
- ECON 1101 – Principles of Microeconomics
- ECON 1103 – Principles of Macroeconomics
- ENTR 4433 – Business Plan Development
- FNCE 3227 – Introduction to Finance
- HRES 2170 – Introduction to Human Resources
- INBU 3301 – Global Business Environment
- LSCM 4403 – Operations Management
- MGMT 2130 – Management Principles & Practices
- MGMT 2262 – Business Statistics I
- MGMT 2263 – Business Statistics II
- MGMT 3210 – Business Communication Theory & Practice
- MGMT 3230 – Business Law
- MGMT 3276 – Organizational Behaviour
- MGMT 5333 – Strategic Management
- MKTG 2150 – Introduction to Marketing

All BBA students are initially registered as General Management majors. After completing 30 credits in the BBA students may choose to focus their studies in one of the other BBA majors in Accounting, Human Resources, or Marketing. Each major in the BBA includes nine (9) courses chosen by the student from a list of approved courses specific to their major. Certain majors are designed to meet external accreditation requirements. Students are strongly advised to consult their Advisor before choosing their major and elective courses.

MINORS IN THE BACHELOR OF BUSINESS ADMINISTRATION

All students enrolled in the Bachelor of Business Administration may pursue a minor offered by any Faculty/School/Centre at Mount Royal University. To receive a minor, a student must meet the specific minor requirements of that Faculty/School/Centre.

BACHELOR OF BUSINESS ADMINISTRATION – ACCOUNTING MAJOR

The Bachelor of Business Administration – Accounting major is designed to ensure that graduates emerge with a solid grounding in the principles and practices of accounting. Graduates in this major will have fulfilled the degree requirements for entry into any of the professional accounting designation programs (CA, CMA, or CGA).

All BBA – Accounting students must complete the following nine (9) major courses as part of their requirements:

- ACCT 3220 – Financial Accounting Practices
- ACCT 3221 – Intermediate Accounting I
- ACCT 3228 – Management Accounting II
- ACCT 4222 – Intermediate Accounting II
- ACCT 4225 – Principles of Auditing
- ACCT 4280 – Personal & Corporate Income Tax
- ACCT 4381 – Advanced Financial Accounting
- ACCT 4382 – Advanced Managerial Accounting
- MGMT 3265 – Management Information Systems

Students who wish to pursue a professional accounting designation post-graduation may have additional program requirements, which may be met through the Electives. Students wishing to pursue a designation must consult their Advisor.

BACHELOR OF BUSINESS ADMINISTRATION – HUMAN RESOURCES MAJOR

The Bachelor of Business Administration – Human Resources major is designed to provide graduates with a solid grounding in the principles and practices of Human Resource Management. Students in this major may elect to pursue a Certified Human Resources Professional designation (CHRP) upon graduation. This designation is a national standard that is increasingly valued by organizations that employ human resource professionals in various roles.

The Human Resource major consists of nine (9) courses, seven (7) of which are required courses and two (2) are chosen from a list of options.

Students are strongly advised to consult an Advisor before choosing their Human Resource major courses and electives.

All BBA – Human Resource major students must complete the following seven (7) major courses as part of their major requirements:

- HRES 3274 – Recruitment & Selection
- HRES 3275 – Compensation & Benefits
- HRES 3277 – Organizational Learning and Development
- HRES 3278 – Employee Relations
- HRES 4273 – Labour Relations
- HRES 4407 – Transition Management
- HRES 5101 – Strategic Human Resources Management

All BBA – Human Resource major students must complete two (2) of the following option courses (exceptions require Departmental approval):

- ANTH 2213 – Contemporary Aboriginal Issues in Canada
- DAST 2201 – Disability Work Management
- INBU 2201 – Cross-Cultural Management
- LSCM 4407 – Business Negotiations/Project Management
- MGMT 4402 – Corporate Social Responsibility
- MGMT 4407 – Governance & Ethical Issues in Organizations
- MGMT 4431 – Leadership Development
- NPRO 2247 – Introduction to Volunteer Management
- NPRO 3305 – Program Planning & Assessment for the Nonprofit Sector
- PHIL 2229 – Business Ethics
- PSYC 2283 – Personality
- PSYC 2285 – Introduction to the Psychology of Abnormal Behaviour
- SLGY 2233 – Sociology of Gender
- SLGY 2265 – Social Stratification and Inequality
- SLGY 2275 – Theories of “Race” and Ethnicity
- WMST 1172 – Issues for Canadian Women

BACHELOR OF BUSINESS ADMINISTRATION – MARKETING MAJOR

The Bachelor of Business Administration – Marketing major is designed to ensure that graduates emerge with a solid grounding in the principles and practices of marketing management. Every graduate with a BBA – Marketing will have the opportunity to develop a well-rounded base of marketing skills applicable to enterprises of all sizes and across all sectors. This focus includes a strategic orientation towards research, professional selling, advertising, promotions strategy, and brand management.

All BBA – Marketing major students must complete the following seven (7) required courses as part of their major requirements:

- MKTG 2154 – Professional Selling
- MKTG 3255 – Services Marketing
- MKTG 3256 – Advertising & Sales Promotion
- MKTG 3257 – Business to Business Marketing
- MKTG 3258 – Marketing Research
- MKTG 4150 – Buyer Behaviour
- MKTG 4259 – Marketing Decision Making

All BBA – Marketing major students must complete two (2) of the following option courses (exceptions require Departmental approval):

- ACOM 2203 – Applied Visual Communications I
- COMM 1841 – Introduction to Public Relations
- ENTR 2301 – The Entrepreneurial Experience
- ENTR 3302 – Innovation & Creativity for Entrepreneurial Practice
- INBU 3302 – International Marketing
- INBU 3304 – Global Supply Chain Management
- INBU 3305 – International Market Entry Strategies
- INBU 3306 – International Trade Research
- INBU 3307 – International Trade Law
- INBU 4408 – International Trade Management
- MGMT 2275 – Creativity in the Workplace
- MKTG 3253 – Retail Management
- MKTG 3254 – Sales Management

Students are strongly advised to consult an Advisor before choosing their Marketing major courses and electives.

BACHELOR OF BUSINESS ADMINISTRATION – GENERAL MANAGEMENT MAJOR

The Bachelor of Business Administration – General Management major is designed to offer students flexibility in program design and transferability. Students pursuing a General Management major may choose from a variety of business courses with the intention of obtaining a general business education. In addition to the seventeen (17) required core business courses, students may choose any nine (9) courses offered by the Bissett School of Business. These may include Accounting, Entrepreneurship, Human Resources, Nonprofit Management, Marketing, International Business, Financial Services, Supply Chain Management, Insurance, and Aviation. Students may also choose to “design” their own specialization from other courses outside of the Business School. These specializations or minors may include courses from the Faculty of Arts, Faculty of Science and Technology, Faculty of Communication Studies and the Faculty of Health and Community Studies.

Students enrolled in the General Management major are encouraged to pursue one of the following minors designed to meet the requirements of the General Management major.

Students are strongly advised to consult an Advisor before choosing courses in completion of a General Management major:

- Entrepreneurship
- International Business
- Financial Services
- Supply Chain Management
- Nonprofit Management
- Insurance
- Business and Society

MINOR IN BUSINESS

The minor in Business provides a general overview of the business environment to students in degree programs outside of the Bissett School of Business. Through exposure to the major functional areas in business, students will be able to supplement their discipline studies as they prepare to launch their careers following graduation. This minor is not available to students enrolled in the BBA.

MINOR IN BUSINESS AND SOCIETY

This minor explores the relationship between business and society at large and how business and society influence one another. Students will examine the different roles that an organization can play relating to all of the various stakeholders in a constantly changing environment.

MINOR IN ENTREPRENEURSHIP

The minor in Entrepreneurship focuses on the attitudes, behaviours and skills necessary to launch and sustain a wide variety of opportunities. This unique and highly experiential educational offering of six specialised and highly integrated courses reflects best practices in entrepreneurship education. These courses, which focus on developing entrepreneurship, creativity and innovation, make up an intense and challenging experience during which students discover and pursue their passions and gain relevant experience for developing opportunities within existing for-profit and non-profit organizations and business start-ups. Mount Royal has been offering courses in entrepreneurship since 1995. Career options include management positions in private or public organizations, business owner, operator, or business venture analyst.

MINOR IN FINANCIAL SERVICES

This series of courses offer the principles of financial services in a variety of financial planning positions which students can apply to banking, investment or insurance. In completion of all courses, students are prepared to write the examinations leading to the CFP (Certified Financial Planner) designation. Career options include financial planner, mutual fund broker or investment adviser.

MINOR IN HUMAN RESOURCES

The minor in Human Resources provides a general overview of the human resource discipline for students in degrees outside of the Bissett School of Business. This minor exposes students to introductory and advanced topics in the field of human resources. Students enrolled in the BBA – General Management major may also choose to complete a minor in Human Resources.

MINOR IN INSURANCE

Businesses of all kinds, from sports and entertainment to oil and gas development, need professionals to advise them on the appropriate insurance coverage for their business. This series of courses (including IIC examinations) earns students credit toward a CIP (Chartered Insurance Professional) designation.

MINOR IN INTERNATIONAL BUSINESS

A series of international business courses has been designed for students who want to participate in the global economy, international trade, marketing goods and services internationally, increasing the competitiveness of an organization through co-operation with foreign partners or suppliers or even establishing a business venture beyond Canadian borders. In the completion of these international business courses, students have an opportunity to earn a Forum for International Trade Training diploma.

MINOR IN MARKETING

The minor in Marketing provides a general overview of the marketing discipline for students in degree programs outside of the Bissett School of Business. This minor exposes students to introductory and advanced topics in the field of marketing. Students enrolled in the BBA – General Management major may also choose to complete a minor in Marketing.

MINOR IN NONPROFIT MANAGEMENT

This series of interdisciplinary courses is tailored to individuals who seek to become leaders in the nonprofit, voluntary and charitable sector. The size and scope of the nonprofit sector in Canada is extensive. Currently there are over 175,000 nonprofit organizations providing services in the areas such as healthcare, arts, culture, recreation, human services, sports education, environment and international development. The nonprofit sector is a major employer providing over 1.3 million jobs with annual revenues of \$90 billion and assets over \$120 billion. Courses cover a broad range of issues including public policy, governance, service delivery, economics, volunteerism, social change and community development. Career options include fund development manager, program manager or non-government organization administrator.

MINOR IN SUPPLY CHAIN MANAGEMENT

Supply Chain Management includes management of the flow and transportation of goods from raw materials through to the consumer. Areas of study include production planning, logistics management, purchasing, inventory management, material handling, transportation, enterprise resource planning, and global logistics. Course credits may be transferable to professional programs such as the Certified Professional Purchaser (CPP), Certified Professional Logistician (CPL) and the Canadian Institute of Traffic and Transportation (CITT). Students with an interest in supply chain can be prepared for careers in professional purchasing, international trade, and demand forecasting as well as management positions in transportation, inventory, and distribution.

MINORS OFFERED BY THE BISSETT SCHOOL OF BUSINESS

All students enrolled in four-year baccalaureate degree programs at Mount Royal have the opportunity to pursue a minor in one of several business disciplines. The Bissett School of Business offers minors in Business, Human Resources, Marketing, Financial Services, Insurance, Supply Chain Management, Nonprofit Management, Entrepreneurship, International Business, and Business & Society.

Each minor requires that the student complete between six and nine courses. Some courses required in each minor have prerequisite requirements. Students are advised to consult with an Advisor before choosing their courses. Courses used to fulfill the requirements for a minor may also be used to fulfill other program requirements.

MINOR IN BUSINESS

Required Courses:

- ACCT 2121 – Financial Accounting Concepts
- HRES 2170 – Introduction to Human Resources
- MGMT 2130 – Management Principles & Practices
- MKTG 2150 – Introduction to Marketing
- Plus any three (3), 3000-level or higher course offered by the Bissett School of Business

MINOR IN BUSINESS AND SOCIETY

Required Courses:

- INBU 2201 – Cross Cultural Management
- ENTR 3370 – Society, Innovation and Enterprise
- MGMT 4402 – Corporate Social Responsibility
- MGMT 4403 – Environmental Management & Sustainable Development
- MGMT 4407 – Governance & Ethical Issues in Organizations
- PHIL 2229 – Business Ethics

MINOR IN ENTREPRENEURSHIP

Required Courses:

- ENTR 2301 – The Entrepreneurial Experience
- ENTR 3302 – Innovation & Creativity for Entrepreneurial Practice
- ENTR 4331 – Opportunity Development in the Entrepreneurial Venture
- ENTR 4332 – Modeling & Start-up of the Entrepreneurial Venture
- ENTR 4343 – Start-up to Survival of the Entrepreneurial Venture
- ENTR 4344 – Growth of the Entrepreneurial Venture

MINOR IN FINANCIAL SERVICES

Required Courses:

- FNCE 2132 – Introduction to the Stock Market
- FNCE 3201 – Retirement Planning
- FNCE 3203 – Income Tax Planning
- FNCE 3205 – Strategic Investment Planning
- FNCE 3207 – Risk Management & Estate Planning
- FNCE 3301 – Canadian Securities Course I
- FNCE 3303 – Canadian Securities Course II
- FNCE 4407 – Investment Principles
- MKTG 2154 – Professional Selling

MINOR IN HUMAN RESOURCES

Required Courses:

- HRES 2170 – Introduction to Human Resources
- HRES 3278 – Employee Relations

Plus any other four (4), 3000-level or higher HRES course

MINOR IN INSURANCE

Required Courses:

- INSR 2140 – Principles & Practices of Insurance
- INSR 2141 – Insurance on Property
- INSR 2143 – Automobile Insurance
- INSR 2144 – Loss Adjusting
- INSR 2145 – Insurance Agency
- INSR 3247 – Underwriting Essentials
- INSR 3249 – Liability Insurance

Plus any two (2) of the following:

- FNCE 2130 – Personal Finance
- FNCE 3207 – Risk Management & Estate Planning
- MKTG 2154 – Professional Selling

MINOR IN INTERNATIONAL BUSINESS

Required Courses:

- INBU 2201 – Cross Cultural Management
- INBU 3301 – Global Business Environment
- INBU 3302 – International Marketing

Plus any five (5) of the following:

- CNST 2233 – Canada in Comparative and International Perspective
- INBU 3303 – International Finance
- INBU 3304 – Global Supply Chain Management
- INBU 3305 – International Market Entry Strategy
- INBU 3306 – International Trade Research
- INBU 3307 – International Trade Law
- INBU 4408 – International Trade Management
- PLSC 3485 – The Politics of the International Economic Order
- PLSC 3489 – Foreign Policies of the Major Powers
- Any Language course

MINOR IN MARKETING

Required Courses:

- MKTG 2150 – Introduction to Marketing
- MKTG 3258 – Marketing Research

Plus any four (4) of the following:

- Any marketing course (MKTG)
- INBU 3302 – International Marketing

MINOR IN NONPROFIT MANAGEMENT

Required Courses:

- ACOM 2251 – Introduction to Fund Development
- MGMT 4407 – Governance & Ethical Issues in Organizations
- NPRO 2201 – Canada's Nonprofit Sector - Foundations
- NPRO 2247 – Introduction to Volunteer Management
- NPRO 3305 – Program Planning & Assessment for the Nonprofit Sector
- NPRO 4405 – Strategic Management for the Nonprofit Sector

Plus any two (2) of the following:

- ACOM 4449 – Fund Development & Corporate Philanthropy
- COMM 1841 – Introduction to Public Relations
- PLSC 1101 – Introduction to Government & Politics
- SLWK 3331 – International Community Development

MINOR IN SUPPLY CHAIN MANAGEMENT

Required Courses:

- LSCM 2201 – Introduction to Logistics & Supply Chain Management
- LSCM 3203 – Principles of Quality Management
- LSCM 3301 – Introduction to Physical Distribution
- LSCM 3303 – Fundamentals of Purchasing
- LSCM 3305 – Physical Distribution & Logistics
- LSCM 4402 – Inventory & Warehouse Management
- LSCM 4407 – Business Negotiations/Project Management
- LSCM 4409 – Supply Chain Decision Making
- LSCM 4411 – Integrated Business Solutions

BACHELOR OF BUSINESS ADMINISTRATION CO-OPERATIVE EDUCATION OPTION

The Academic Plan of Mount Royal stresses the importance of experiential education in all academic curricula. Accordingly, we offer all students enrolled in the Bachelor of Business Administration program the opportunity to pursue their degree as a Co-operative Education degree. Students who successfully complete three co-op work terms will be eligible for a notation on both their transcript and their parchment, in accordance with the guidelines of the Canadian Association for Co-operative Education (CAFCE).

To be eligible to participate in the BBA Co-operative Education Option, students must have completed the prerequisite courses required for entrance into their respective co-op work-term placements. Additionally, before beginning their first of three (3) work terms, all co-op students must complete the Co-operative Education orientation course (COOP 0001).

For additional information about co-operative education, please contact the Career Services Department at 403.440.7074, Room A200.

CO-OPERATIVE EDUCATION FEES – BACHELOR OF BUSINESS ADMINISTRATION

A half course fee is assessed for the Orientation to Co-operative Education preparation prior to the first work-term. Fees for each Co-operative Education work term is assessed thereafter on a course-by-course basis. These fees must be paid or notice of financial assistance provided by the fee deadline for the semester in which the placement occurs.

GENERAL EDUCATION

For course information visit mtroyal.ca/gened/courses.

Students are encouraged to meet with an Advisor before registering in a course.

DECLARATION OF MAJOR

All students accepted into the Bachelor of Business Administration program will initially be enrolled in the General Management major. At the start of the second year, students wishing to enter one of the other majors (Accounting, Marketing or Human Resources) should declare their intent to do so. Declaration forms are available from the Advising offices in the Bissett School of Business.

DIPLOMA – AVIATION

GENERAL INFORMATION

The Aviation Diploma program is designed to prepare students to succeed in Canada's aviation industry. In addition to the training required for a Commercial Pilot's Licence and Multi-Engine Instrument Rating, the program provides students with a strong science and business background, the aeronautical subjects associated with flight in modern high performance aircraft and an understanding of the expectations of the industry. Students who wish to continue their education at university are encouraged to take appropriate university transfer courses.

Student success rates in Air Flight Training courses are significantly increased for those students successfully completing Physics 30. Therefore, it is strongly recommended that students planning to apply to the Aviation Diploma Program include Physics 30 in their selection of high school courses.

The program is certified by Transport Canada. Mount Royal University is also an active member of the Canadian Association of Aviation Colleges, Aviation Alberta, and the Air Transport Association of Canada's Flight Training Committee. The instructors are predominantly Airline Transport-rated Pilots with Class 1 and 2 instructional classifications, or graduates of Mount Royal's Aviation Program.

In addition to the flight and academic requirements, students in this program will be required to meet the expectations of the aviation profession in terms of dress, deportment and professional conduct at all times.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – AVIATION DIPLOMA

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Aviation Diploma program:

- English Language Arts 30 – 1 – 60%
- Mathematics 30 (Pure) – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

- **Physical** – Applicants must hold an unrestricted Class I Aviation Medical issued by Transport Canada valid as of September 1 for the Fall Semester to which they are applying and must continue to hold a Class I Medical for the entire period of their training. Applicants should be aware that the major airlines may have vision restrictions that are more stringent than the basic Transport Canada requirements.
- **Private Pilot's License** – Applicants must possess an unrestricted Canadian Private Pilot's License by September 1 for the Fall Semester to which they are applying. Possession of a Private Pilot's Licence is not essential prior to being accepted.

SPECIAL PROGRAM FEES

In addition to regular tuition and general fees, flight training fees are approximately \$45,000 for a student in the two-year Aviation Diploma. A Private Pilot License (cost approximately \$11,000) must be completed prior to entering the Diploma program. Students will be required to make a substantial deposit at the beginning of each semester and maintain a minimum balance of \$500 at all times. Deposits can be paid using Visa or MasterCard via **MyMRU.ca** or to the Student Fees Office (A102). Flight training fees are subject to change depending on operating costs for aircraft and related services.

FINANCIAL ASSISTANCE

Due to the cost of this program, students may be eligible for the maximum Canada Student Loan and Government of Alberta Loan. Please refer to the section on *Financial Aid* for further information.

Advance savings to complement the loan funds are essential. All fees for the program are to be paid to Mount Royal University.

CONTINUANCE IN THE PROGRAM

In addition to the general graduation requirements students must achieve the following:

1. A minimum grade of "C" is required in all Air Flight Training (AIRF) courses.
2. Continuing satisfactory progress is required in flight training.
3. Before beginning specific training for a rating for flight test, students will be required to demonstrate that they have met the prerequisites and have sufficient funds to complete that portion of the training.

OPERATIONAL PROCEDURES

Mount Royal University Aviation operational procedures are outlined in the Student Information Manual, the Company Operating Procedures and other manuals produced by the department. Students are required to make themselves familiar with these documents and all of the policies and procedures contained therein. In exceptional and legitimate circumstances, extensions or exemptions may be granted by the CFI or Program Chair. Procedures for applying for an exception or exemption are available from either the CFI or the Program Chair.

FLIGHT TRAINING REQUIREMENTS

1. All published syllabus flights must be completed in Mount Royal University aircraft under the supervision of Mount Royal University instructors*
2. Students must complete all of the published syllabus flights and simulator training for Year 1 by the end of the first year.
3. Students must complete all of the published syllabus flights and simulator training for Years 1 and 2 in order to graduate.
4. Students must successfully complete the following Transport Canada requirements in order to graduate:

- Commercial Pilot License
- Night Rating
- Multi-Engine Rating
- Group I Instrument Rating

* The only exception to number 1 is that students who are admitted to the program with complete advanced training (Night Rating or ME). They may receive credit at the discretion of the CFI for that training.

* Students should be aware that Transport Canada requires that all of the licensing requirements for the Commercial License must be completed within one year of the date of the flight test. As a result, it is the students' responsibility to ensure that the timing of their flight test is planned accordingly, in order to ensure they will not have to retake the flight test.

** Students should also be aware that they require 50hrs Pilot-in-command Cross-Country experience prior to commencing the multi-engine/instrument (MI) phase of training. As a result, students should have completed a sufficient number of Navigation exercises to ensure this requirement is met in a timely manner prior to beginning the MI training.

CURRICULUM

Diploma – Aviation

Year One

- AIRF 1101 – Introduction to Aviation Navigation
- AIRF 1109 – Aviation Meteorology (Introductory)
- AIRF 1130 – Aircraft Engines
- AIRF 2101 – Aviation History and Air Law
- AIRF 2111 – Aeronautics and Flight Operations
- AIRF 2209 – Aviation Meteorology (Advanced)
- GEOG 1101 – The Physical Environment
- MGMT 2130 – Principles and Practice of Management
- General Education Requirement
- General Education Requirement - Foundation Level Cluster 4

Year Two

- AIRF 3202 – Multi-Engine Instrument Rating
- AIRF 3206 – Advanced Operations, GPS, and Crew Coordination
- AIRF 3210 – Aircraft Systems
- AIRF 3242 – Human Factors and Aviation Safety
- LSCM 2201 – Introduction to Logistics and Supply Chain
- LSCM 3301 – Introduction to Transportation
- MATH 2505 – Puzzling Adventures in Mathematics
- PHED 2410 – Wilderness Survival Techniques
- General Education Requirement
- General Education Requirement
- General Education Requirement

GRADUATION REQUIREMENTS

- Minimum overall Grade Point Average of 2.00 on all courses included in the program.
- A minimum grade of "C" is required in all Air Flight Training courses.

Please consult the University Calendar for information concerning the University's General Education requirement.

CERTIFICATE – BUSINESS ADMINISTRATION

GENERAL INFORMATION – CERTIFICATE PROGRAMS

Three patterns have been designed to provide students with a sound foundation in business. The timetable is arranged so that part-time and evening students, as well as full-time students, can be accommodated.

ADMISSION REQUIREMENTS

Post-secondary diploma or degree. Applicants with a combination of partial post-secondary education and relevant work experience may be considered pending receipt of a current resume.

GRADUATION REQUIREMENTS

To graduate, all Business Administration Certificate students must meet the following criteria:

- Successfully complete all the courses in the curriculum with a minimum overall Grade Point Average of 2.00.

CURRICULUM

These programs are specialized in nature and cover three areas of career interest. Students will take a small number of required courses and specialize in one of the following areas: Advanced Accounting, Marketing or Human Resources.

Certificate – Advanced Accounting

Program Prerequisites

The prerequisite requirements for entry into the Advanced Accounting Certificate program are ACCT 2121 and 3220 or equivalent; or the consent of the Department.

Core Requirements

- ACCT 3221 – Intermediate Accounting I
- ACCT 3224 – Management Accounting I
- ACCT 4222 – Intermediate Accounting II
- ACCT 4225 – Principles of Auditing
- ACCT 4280 – Introduction to Personal and Corporate Income Tax
- FNCE 3227 – Introduction to Finance
- Approved Option 1
- Approved Option 2

Approved Options

Students must take any two (2) of the following courses:

- ACCT 3228 – Management Accounting II
- ACCT 4381 – Advanced Financial Accounting
- ACCT 4382 – Advanced Managerial Accounting
- ACCT 4403 – Accounting Theory
- ECON 2241 – Money and Banking
- FNCE 4407 – Investment Principles
- INBU 3301 – Global Business Environment
- LSCM 4403 – Operations Management
- MGMT 2262 – Business Statistics I
- MGMT 2263 – Business Statistics II
- MGMT 3230 – Business Law

- MGMT 3265 – Management Information Systems
- MGMT 3276 – Organizational Behaviour
- MGMT 5333 – Strategic Management
- PHIL 2229 – Business Ethics

Certificate – Human Resources

Core Requirements

- HRES 2170 – Introduction to Human Resources
- HRES 3278 – Employee Relations
- MGMT 2130 – Management Principles & Practices
- MGMT 3230 – Business Law
- MGMT 3276 – Organizational Behaviour
- Approved Option 1
- Approved Option 2
- Approved Option 3

Approved Options

Students must take any three (3) of the following courses.

- HRES 3274 – Recruitment & Selection
- HRES 3275 – Compensation and Benefits
- HRES 3277 – Organizational Learning and Development
- HRES 4407 – Transition Management

Certificate – Marketing

Core Requirements

- MGMT 3210 – Business Communications, Theory and Practice
- MKTG 2150 – Introduction to Marketing
- MKTG 2154 – Professional Selling
- MKTG 3258 – Marketing Research
- Approved Option 1
- Approved Option 2
- Approved Option 3
- Approved Option 4

Approved Options

Students must take any four (4) of the following courses.

- COMM 1841 – Introduction to Public Relations
- ENTR 2301 – The Entrepreneurial Experience
- ENTR 3302 – Innovation & Creativity for Entrepreneurial Practice
- INBU 3302 – International Marketing
- MGMT 2262 – Business Statistics I
- MGMT 2275 – Creativity in the Workplace
- MKTG 3253 – Retail Management
- MKTG 3254 – Sales Management
- MKTG 3255 – Services Marketing
- MKTG 3256 – Advertising and Sales Promotion
- MKTG 3257 – Business to Business Marketing

Note: Prerequisites for these courses must be followed.

FACULTY OF COMMUNICATION STUDIES

PROGRAMS OFFERED

Bachelor of Communication BCMM

Information Design

Journalism

Public Relations

Diploma – Broadcasting

Certificate – Journalism

Certificate of Achievement – International Communication

Diploma – Music Performance – Classical

Diploma – Music Performance – Jazz

Diploma – Theatre Arts – Performance

Diploma – Theatre Arts – Technical

Minor – Speech

Centre: 403.440.6901

Dean, Faculty of Communication Studies

M. Chikinda: 403.440.6117

Chair, Broadcasting

I. Ratuszniak: 403.440.6114

Chair, Journalism

T. Field: 403.440.6189

Chair, Public Relations

J. McNichol: 403.440.5697

Chair, Information Design

G. Ruhl: 403.440.6732

Chair, Department of Theatre, Speech and Music Performance

J. Brennan: 403.440.6811

BACHELOR OF COMMUNICATION

BACHELOR OF COMMUNICATION – INFORMATION DESIGN

GENERAL INFORMATION

Information design is the art and science of preparing or “designing” information so that it can be used by human beings with efficiency and effectiveness. Information design applies traditional and evolving design principles to the process of translating complex, unorganized, or unstructured data into valuable meaningful information. In short, information designers design understanding and there are few, if any, occupations that do not feel the influence and benefits of good information design.

An information designer works in a variety of settings. These include working with strategic digital communications companies to develop Web-based applications, designing and conducting usability tests, or working with multimedia, publishing, and other knowledge management products. Information designers must have skill in writing and understand the central importance of typography in how to produce understandable and attractive documents ranging from operating instructions, brochures, and training manuals to magazines and style guides. In all cases, information designers place their focus on the user and understand the importance of usability research. Finally, the study of ethics is fundamental to information design. Information designers understand how people who read and use information must be treated with dignity and how their work can affect various constituencies—from co-workers to customers to the general public—and even the environment itself. A key strength for Information Design graduates is their ability to conceptualize procedure and compete in the global marketplace.

The interdisciplinary curriculum of the Bachelor of Communication – Information Design degree responds directly to current market trends. The degree combines skills in graphic design, typography, writing, project management, instructional design, human performance technology, and human factors that reach far beyond traditional programs in design, technical communication, or publishing. Information Design is also interdisciplinary and students will work with other communication students in Journalism or Public Relations and will complete work experience in a variety of settings. The intent of the curriculum is to prepare graduates who can not only work formatively and creatively, but also understand how to work using scientific and didactical methods as part of the field of communication research. As a result, information retrieval techniques and information assessment are central to the program and provide expertise in areas pertaining to research methods and usability.

COMMUNICATION WORK EXPERIENCE

For graduation purposes, Information Design students are required to complete one, non-credit, semester-long supervised work experience (with a 12 fulltime work week minimum) in the communications field during their program. To be eligible, all students must complete a range of prerequisites. Because work experience involves professional placements, the program chair can, for a fixed period, deny eligibility to any student who has acted in an inappropriate and unprofessional manner during the preparation phase. Any student who receives a work experience assessment of Fail for exhibiting professional misconduct may be required to withdraw from the program, subject to terms of the Student Code of Conduct.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the admissions section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF COMMUNICATION – INFORMATION DESIGN

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Communication – Information Design program.

- English Language Arts 30-1 – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

- Interview with information design faculty

Transfer Credit

Students who have completed, in good standing, a diploma in a related field such as technical design or multimedia from Medicine Hat, Mount Royal, NAIT, SAIT, or other Universities in Alberta or other provinces, may be eligible for transfer credit. Information Design is a distinct discipline and students considering transfer must appreciate the importance of the need for required foundation courses in writing and design theory.

GENERAL EDUCATION

For course information visit mtroyal.ca/gened/courses. Students are encouraged to meet with an advisor before registering in a course.

CONTINUANCE IN THE PROGRAM

Students accepted into the Bachelor of Communication program must comply with all Mount Royal policies and regulations relating to baccalaureate degrees and continuance.

Students enrolled in the Bachelor of Communication degree program must obtain a minimum cumulative grade point average of 2.00. Students with a cumulative grade point average of less than 2.00 will be disqualified from the program for one year. After one year, they may reapply for admission.

All degree candidates in Information Design must complete all courses in the program, General Education requirements and electives included, with a final grade of “C” or better to continue in the program, except that a maximum of two courses in total may be completed with a pass grade of less than “C”.

RESIDENCY REQUIREMENTS

A minimum of 50 percent of the course requirements for the degree must be completed as a registered student of Mount Royal, not including the required non-credit work experience.

GRADUATION REQUIREMENTS

- Successful completion of the total required credits and courses for graduation as listed.
- Minimum overall Grade Point Average of 2.00 on all courses included in the program.
- Successful completion of one non-credit work experience and the non-credit work experience preparation seminar.
- Minimum grade of “C” in all course, except that a maximum of two courses in total may be completed with a pass grade of less than “C”.

Note: For course descriptions refer to:

Bachelor of Communication – Information Design:

mtroyal.ca/communicationstudies/infodesign/curriculum.shtml

STUDENT CONDUCT

Information Design students are expected to adhere to the Code of Ethics and Professional Practices, to which all students at Mount Royal are expected to practice. Any deliberate breaches will result in disciplinary action with transgressions being equated to academic dishonesty, and with consequences as outlined in the Mount Royal Code of Student Conduct referenced in this calendar.

CURRICULUM

Bachelor of Communication – Information Design

COMM 2500 – Intro to Communication Studies

COMM 2501 – Media History and Contemporary Issues

COMM 3500 – Media, Culture and Communication Theory

COMM 4501 – Roles and Practices in Contemporary Communication

All of:

COMM 1600 – Foundations of Information Design

COMM 1610 – Tools for Information Designers

COMM 1620 – Foundations of Graphics

COMM 1661 – Technical Writing I

COMM 2663 – Rhetoric

COMM 2666 – Typography

COMM 2667 – Information Architecture

COMM 2670 – Programming for Information Designers

COMM 2673 – Introduction to Digital Layout

COMM 2680 – Intercultural Communication in Information Design

COMM 3600 – Usability

COMM 3605 – Research in Information Design

COMM 3610 – Visual Communication for Information Design I

COMM 3611 – Visual Communication for Information Design II

COMM 3620 – Document Production I

COMM 3670 – Project and Content Management

COMM 4620 – Document Production II

COMM 4665 – Instructional Design

COMM 4679 – Issues in Communication: Ethics and Law

COMM 4680 – Portfolio

And these non-credit program elements:

COMM 4690 – Info Design Workplace Issues and Preparation Seminar

*non credit

COMM 4691 – BCMM Information Design Work Experience I*non credit

COMM 4692 – BCMM Information Design Work Experience II*non credit

– optional

**All courses three credits except non-credit courses COMM 4690, 4691 and 4692.*

GENERAL EDUCATION AND ELECTIVES

In addition to the courses listed above Information Design students require 12 General Education courses and four electives. It is recommended that electives be chosen from areas of interest that complement career interests.

For details on the nature and structure of General Education visit: mtroyal.ca/gened/courses.

For course descriptions for the Bachelor of Communication – Information Design visit: mtroyal.ca/ProgramsCourses/FacultiesSchoolsCentres/Communications/Programs/BachelorofCommunication/index.htm.

BACHELOR OF COMMUNICATION – JOURNALISM

The world of journalism is varied and challenging and Mount Royal's goal is to ensure that journalism graduates have a range of skills and understandings that they can draw upon in this ever-changing landscape. The best journalism is accomplished by people with a thorough grasp of the fundamentals of reporting, writing, editing and illustrating news, the ability to think critically about their work and work environment, and a deep curiosity about how society functions, or often does not function. The Journalism major in the four-year Bachelor of Communication program is based on integrating classroom learning with practical experience, including professional work experiences, and is focused on providing students with a broad-based journalism education in writing, idea and story development, newspaper production, broadcasting, photography, and Internet-based news requirements. It additionally includes:

- Considerable exposure to written, spoken and mediated communications, and to the effective use of computers.
- The opportunity to develop and practice a range of presentation skills.
- A focus on critical reflection about journalism generally, and the student's own work through instructor feedback, peer critiques, and self-reflection.
- Consideration of the social context for the practice of journalism including media history, law and ethics.
- Direct workplace exposure in communications through a required professional work experience.
- A strong General Education component that ensures both breadth of study and the potential to achieve a concentration in a given discipline, such as political science, history, sociology, or a second language among other possibilities.
- Electives students can use to explore a specific discipline more fully.
- Information retrieval techniques and information assessment are presented in a number of courses, while a course in research design and methodology encourages a more comprehensive understanding of the goals and nature of research.
- A Communication Studies component with specific attention to key theories that explain the interaction inherent in communication processes.
- Complementary communications courses in Information Design or Public Relations.
- Strict attention to ethical practice as detailed in a program-wide journalism policy manual.

This blend of elements introduces journalism students to the expectations and requirements of professional practice in context of the role journalism plays in society, while allowing them to step outside that frame to consider other ideas and forces that shape their world; and to acquire a depth and breadth of knowledge intended to serve journalism graduates in a variety of ways.

STUDENT CONDUCT

Professional work completed in the Journalism program is guided by a Journalism Code of Ethics and Professional Practices, to which all journalism students at Mount Royal are expected to adhere. Any deliberate breaches will result in disciplinary action with transgressions being equated to academic and/or nonacademic misconduct, and with consequences as outlined in the Mount Royal Code of Student Conduct. For information on the Code of Student Conduct please visit the Office of Student Conduct website.

COMMUNICATION WORK EXPERIENCES

Journalism students are encouraged to complete two non-credit semester-long work experiences (with a 12 full time work week minimum) in the communications field during their program, but are required for graduation purposes to complete one such supervised work experience. To be eligible, all students must complete a range of prerequisites. Because work experiences are professional placements the program chair can, for a fixed period, deny work experience eligibility to any student who has acted in an inappropriate and unprofessional manner during the preparation phase, or during a work experience. Any student cited for professional misconduct in advance of or during an work experience will be required to withdraw from the work experience process, and could be subject to further sanctions under terms of the Student Code of Conduct.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the admissions section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF COMMUNICATION – JOURNALISM

In Addition to meeting the general admission requirements, indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Communication – Journalism program.

- English Language Arts 30-1 – 60%
- Social Studies 30-1

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criterion:

- Interview with journalism faculty

STUDENTS WITH A COMMUNICATIONS DIPLOMA

Students who have completed in good standing a diploma in journalism, broadcasting or multimedia from Grant MacEwan, Mount Royal, NAIT, SAIT, or other community colleges in Alberta or other provinces, may be eligible for entry into the third year of the Bachelor of Communication – Journalism program. Contact the journalism program for details.

CONTINUANCE IN THE PROGRAM

Students accepted into the Bachelor of Communication program must comply with all Mount Royal policies and regulations relating to baccalaureate degrees and continuance. Students enrolled in the Bachelor of Communication degree program must obtain a minimum cumulative grade point average of 2.00. Students with a cumulative grade point average of less than 2.00 will be disqualified from the program for one year. After one year, they may reapply for admission. Meanwhile, a grade point average of 3.0 or above is strongly encouraged for those who want to work in the journalism field after graduation; any grade point average below that mark generally does not produce strong portfolio-quality work, and may greatly limit post-graduation work opportunities.

All degree candidates in Journalism must complete all courses in the program, General Education requirements and electives included, with a final grade of "C" or better to continue in the program, except that a maximum of two courses in total may be completed with a pass grade of less than "C".

RESIDENCY REQUIREMENTS

A minimum of 50 percent of the course requirements for the degree must be completed as a registered student of Mount Royal, not including the required non-credit work experience and preparation seminar.

GRADUATION REQUIREMENTS

- Successful completion of 120 - credits and all courses for graduation as listed.
- Minimum overall Grade Point Average of 2.00 on all courses included in the program.
- Successful completion of one non-credit internship and the non-credit internship preparation seminar.
- Minimum grade of "C" in all courses, except that a maximum of two courses in total may be completed with a pass grade of less than "C".

Note: For course descriptions refer to:

Bachelor of Communication – Journalism:

mtroyal.ca/ProgramsCourses/FacultiesSchoolsCentres/Communications/Programs/BachelorofCommunication-Journalism/CurriculumCourses/index.htm

- For course information on the nature and structure of General Education visit the website for the Department of General Education in the Faculty of Teaching and Learning at Mount Royal.

STUDENT CONDUCT

Professional work completed in the Journalism program is guided by a Journalism Code of Ethics and Professional Practices, to which all journalism students at Mount Royal are expected to adhere. Any deliberate breaches will result in disciplinary action with transgressions being equated to academic and/or nonacademic dishonesty, and with consequences as outlined in the Mount Royal Code of Student Conduct. For specific information on the conduct code please visit the website for the Office of Student Conduct at Mount Royal.

COMM 4792 – Journalism Work Experience II *non credit – optional

**All courses three credits but for non-credit courses COMM 4790, 4791 and 4792.*

GENERAL EDUCATION

In addition to the above list Journalism students require 12 General Education courses and four electives. For details on the nature and structure of General Education visit: mtroyal.ca/gened/courses.

For course descriptions for the Bachelor of Communication – Journalism visit: mtroyal.ca/ProgramsCourses/FacultiesSchoolsCentres/Communications/Programs/BachelorofAppliedCommunications-Journalism/index.htm

Communication

BACHELOR OF COMMUNICATION – PUBLIC RELATIONS

GENERAL INFORMATION

Globalization, technology, new attitudes toward work, workplace turbulence and the speed of change are all affecting organizations' ability to communicate effectively and responsibly. Now, more than ever, the public relations professional must be ready to bring communication solutions to the challenges experienced in organizations large and small and across all sectors in society. The Bachelor of Communication – Public Relations degree at Mount Royal is designed for individuals interested in learning how to assist organizations to manage their communication with a variety of audiences and key stakeholders in ways that build and maintain ethical and mutually beneficial relationships.

The degree blends human and organizational communication theory with interdisciplinary curriculum that will allow students to learn and work with students in journalism, broadcasting and information design. As well, a strong General Education component, common to all Mount Royal degrees, will ensure breadth of study and the ability for students to pursue a discipline outside of communication more fully.

The Public Relations curriculum includes basic and strategic communication planning, research theory and design, international and intercultural communication, media relations, fund development and corporate philanthropy, issues management and crisis communications, and the basics of financial communication through a course in investor relations. Specific skills, critical to a successful public relations professional are learned through several intensive writing courses, computer mediated communication, the basics of layout and design, and event management.

Note: The nature and structure of the General Education component is common to all degrees.

COMMUNICATION WORK EXPERIENCE

To ensure our graduates are ready to take their place in the profession, Public Relations students are required to complete two non-credit, work experiences involving four months of paid, fulltime supervised work in a public relations setting. These work experiences not only put newly learned skills to work, they expand the students' network, build confidence and create opportunities to travel. Students in the Public Relations Program take their first work experience during the summer following their third year, and the second in the winter semester of their final (fourth) year. To be eligible, all students must complete a range of prerequisites. Both work experiences involve professional placements and, as such, the program chair can, for a fixed period, deny eligibility to any student who has acted in an inappropriate and unprofessional manner during the preparation phase. Any student who receives a work experience assessment of Fail for exhibiting professional misconduct will be ineligible to continue in core courses until the work experience has been successfully completed or may be required to withdraw from the program, subject to the terms of the Student Code of Conduct.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs as indicated in the admissions section of this Calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF COMMUNICATION – PUBLIC RELATIONS

In Addition to meeting the general admission requirements, indicated in the Admissions section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Communication – Public Relations program.

- English Language Arts 30-1 – 60%
- Social Studies 30-1

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

ADDITIONAL CRITERIA

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

- Interview with public relations faculty

Transfer Credit

Students who have completed (in good standing) a diploma in public relations from Grant MacEwan University or Kwantlen University College, or other Universities in Canada may be eligible for transfer credit. Public Relations is a distinct discipline and students considering transfer must appreciate the importance of the need for required foundation courses in public relations theory and writing.

GENERAL EDUCATION

For course information visit mtroyal.ca/gened/courses. Students are encouraged to meet with an advisor before registering in a course.

CONTINUANCE IN THE PROGRAM

Students accepted into the Bachelor of Communication – Public Relations degree must comply with all Mount Royal policies and regulations relating to baccalaureate degrees and continuance.

Students enrolled in the Bachelor of Communication degree program must obtain a minimum cumulative grade point average of 2.0. Students whose grade point average drops below 2.0 will be disqualified from the program for one year. After one year, they may reapply for admission.

All degree candidates in public relations must complete all core courses in the program, general education requirements and electives included, with a final grade of "C" or better to continue in the program. However, students in public relations may complete two courses in total from electives or general education courses with a passing grade less than a "C."

RESIDENCY REQUIREMENTS

A minimum of 50% of the course requirements for the degree must be completed as a registered student of Mount Royal.

GRADUATION REQUIREMENTS

- Successful completion of the total required credits and courses for graduation as listed
- Minimum overall grade point average of 2.0 on all courses included in the program
- Successful completion of two non-credit work experiences and the non-credit work experiences preparation seminar.
- Minimum grade of "C" in all courses, (Although a maximum of two elective or general education courses may be accepted with a passing grade of less than a "C".)

Note: For course descriptions refer to:

Bachelor of Communication – Public Relations:

mtroyal.ca/communicationstudies/prelations/curriculum.shtml

STUDENT CONDUCT

Public relations students are expected to adhere to the Code of Student Conduct as outlined for all students at Mount Royal. As well, students will learn and be held accountable for knowing and adhering to the Canadian Public Relations Society's Code of Professional Standards. Any deliberate breaches to either Code, such as academic dishonesty, will incur consequences as outlined in the Mount Royal Code of Student Conduct.

CURRICULUM

Bachelor of Communication – Public Relations

All of:

- COMM 1841 – Introduction to Public Relations
- COMM 1845 – Interpersonal Communication
- COMM 1849 – Applied Writing I for Public Relations
- COMM 2500 – Introduction to Communication Studies
- COMM 2501 – Media History and Contemporary Issues
- COMM 2803 – Visual Communication for Public Relations
- COMM 2849 – Applied Writing II for Public Relations
- COMM 3500 – Media, Culture and Communication Theory
- COMM 3841 – Media Relations
- COMM 3843 – Communication and Organizational Dynamics
- COMM 3847 – Public Relations Management
- COMM 3851 – Computer Mediated Communication
- COMM 3855 – Research Methods for Public Relations
- COMM 3860 – Government Public Relations
- COMM 4841 – Strategic Communication Planning

One of:

- COMM 4845 – Investor Relations or
- COMM 4849 – Fund Development and Corporate Philanthropy

One of:

- COMM 1661 – Technical Writing I or
- COMM 1700 – Journalism in Society or
- COMM 3670 – Project and Content Management

And these non-credit program elements:

COMM 4890 – Public Relations Workplace Issues and Preparation Seminar
COMM 4891 – BCMM Public Relations Work Experience I *non credit - required

COMM 4892 – BCMM Public Relations Work Experience II *non credit - required

**All courses three credits except non-credit courses COMM 4890, 4891 and 4892.*

GENERAL EDUCATION AND ELECTIVES

In addition to the courses listed above Public Relations students require 12 General Education courses and four electives. It is

recommended that electives be chosen from areas of interest that complement career interests.

For details on the nature and structure of General Education visit: mtroyal.ca/gened/courses.

For course descriptions for the Bachelor of Communication – Public Relations visit: mtroyal.ca/ProgramsCourses/FacultiesSchoolsCentres/Communications/Programs/BachelorofCommunication-PublicRelations/index.htm

To be completed during the winter semester in the student's 4th year.

CERTIFICATE OF ACHIEVEMENT IN INTERNATIONAL COMMUNICATION

Students in any major of the Bachelor of Communication (BCMM), offered through the Faculty of Communication Studies (FCS), may obtain a Certificate of Achievement in International Communication following completion of a number of courses: including at least two courses in a second language, three courses with an international focus in a range of disciplines, and an acceptable international volunteer, study abroad, or work experience. Students may satisfy requirements of the certificate while completing their degree, with completed courses counting towards both. In doing so they will use some of their general education course requirements at level two or three, some of their communication courses, and some or all of the four elective courses in their program of study. Completing the certificate within the framework of the degree requires planning beginning in year one of the degree programs. Interested students may obtain a full description of the requirements and processes from their program chair.

DIPLOMA – BROADCASTING

GENERAL INFORMATION

The Broadcasting program at Mount Royal University offers participants the knowledge and skills necessary to qualify for entry-level positions in the broadcasting industry.

Theoretical learning and tutorials in radio and television practice are combined with practical experience in on-campus and off-campus radio and television stations.

The program of study emphasizes broadcast journalism, announcing, commercial writing, producing and presenting, program writing and radio and television operations and production. Program participants in Semester 4 will specialize in one of: television operations and production television newswriting, reporting and presenting or television commercial writing, producing and presenting.

UNIVERSITY TRANSFER

Information on specific transfer possibilities is available from the program Chair, Broadcasting.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar

ADDITIONAL ADMISSION REQUIREMENTS – BROADCASTING DIPLOMA

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Broadcasting Diploma program:

- English Language Arts 30-1 – 60%
- Social Studies 30-1

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the College. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

- Interview

CONTINUANCE IN THE PROGRAM

Program participants who fail to achieve a minimum of a “C” grade in any required course in the program will be disqualified and will not be permitted to continue in the program in the subsequent semester. This grade requirement applies to all courses in the program except five General Education Requirements. Participants who have been disqualified may apply for re-admission to the program and, if re-admitted, must repeat any required courses in which the “C” minimum was not met.

ADDITIONAL EXPENSES

Participants in the Broadcasting program can expect to incur at least \$1,000 in expenses for materials and supplies during the course of the program.

CURRICULUM

Diploma – Broadcasting

Year One

COMM 1112 – Introduction to Radio Writing
COMM 1114 – Introduction to Broadcast Journalism (Radio)
COMM 1116 – Introduction to Radio Operations
COMM 1206 – Radio Performance
COMM 1201 – Advanced Radio Operations
COMM 1209 – Television Operations

One of:

COMM 1202 – Radio Commercial Writing

or COMM 1203 – Radio New

Note: First choice of specialization in Semester 2 is not guaranteed. Registering in either Communications 1202 or Communications 1203 is dependent upon students achieving a minimum grade of B+ in the prerequisite Semester 1 core courses. See course outlines for further details.

Year Two

COMM 1204 – Broadcast Journalism (Television)
COMM 1205 – Radio Practicum
or COMM 1281 – Television Practicum
COMM 1240 – Television Program Production and Television Operations
COMM 1241 – Television Creative Writing/Producing
COMM 1244 – Broadcast Industry Organizational Structure

One of the following combinations:

COMM 1211 – Advanced Television Production

COMM 1213 – Extended Broadcast Studies

or

COMM 1247 – Television News Production

COMM 1248 – Television News and Documentary Writing

or

COMM 1242 – Advanced Television Creative Writing/Producing

COMM 1245 – Advertising for Broadcasters

Note: First choice of specialization in Semester 4 is not guaranteed. Registering in either Communications 1211 and Communications 1213, or Communications 1247 and Communications 1248, or Communications 1242 and Communications 1245 is dependent upon students achieving a minimum grade of B+ in the prerequisite Semester 3 core courses. See course outlines for further details.

For *Restrictions and Interpretations* concerning the program requirements for General Education courses, refer to the section entitled *General Graduation Requirements*.

Students must choose one foundation or higher level course from each of the four General Education clusters (Cluster 1-Numeracy and Scientific Literacy; Cluster 2-Values, Beliefs and Identity; Cluster 3-Community and Society; Cluster 4-Communications), and in addition, a fifth course must be one foundation level course from Cluster 4-Communications.

CERTIFICATE – JOURNALISM

GENERAL INFORMATION

The Certificate in Journalism consists of two (2) semesters or eight months of intensive undergraduate study of the practice and theory of journalism including exposure to print, broadcast, online and photojournalism. This certificate is open to prospective students who have completed the equivalency of a bachelor's degree from a recognized college or university. It is designed to offer previously successful students, who may not have studied journalism before, sufficient industry understanding and journalism skills to apply to work in the media. The certificate also allows students to choose a number of courses they feel will be most valuable to them and best suit their goals. The certificate may also appeal to those interested in expanding their understanding of journalism in the context of their interest in other disciplines, or as additional preparation for graduate studies.

OPTIONAL COMMUNICATIONS WORK EXPERIENCE

Certificate students who successfully complete all courses may with program approval opt to take, during the summer of the same year in which the student completes the certificate, a Mount Royal organized and supported non-credit work experience in the communications industry. In doing so the student agrees to abide by all rules and requirements of the work experience process. Details of this option will be discussed fully during the fall semester in COMM 4790 – Workplace Issues and Internship Preparation Seminar. Because work experiences are professional placements the program chair can, for a fixed period, deny work experience eligibility to any student who has acted in an inappropriate and unprofessional manner during the preparation phase, or during a work experience. Any student cited for professional misconduct in advance of or during a work experience will be required to withdraw from the work experience process, and could be subject to further sanctions under terms of the Student Code of Conduct.

ADMISSION REQUIREMENTS

The Certificate in Journalism requires completion of a bachelor or graduate degree in any field or discipline. In addition to meeting all academic admission criteria, applicants must meet the following criteria:

- Interview with Journalism Faculty

CONTINUANCE

Students accepted into the Certificate in Journalism must comply with all Mount Royal policies and regulations relating to continuance, including successful completion of all courses in the their first semester with a minimum final grade of 'C' in each course, and a grade of Pass in the non-credit work experience preparation seminar. A grade of less than 'C' in any credit course will result in disqualification from the program. Disqualified students may reapply according to college policy. A grade of Fail in the Workplace Issues and Work Experience Preparation Seminar will disqualify the student from participation in a Mount Royal organized Work Experience.

CURRICULUM

Journalism Certificate required courses

COMM 1720 – Digital Media Management

COMM 3707 – Newspaper Reporting

COMM 3709 – Newspaper Editing and Reporting

COMM 3717 – Specialized Writing

COMM 3729 – Online Writing, Editing & Production

COMM 3740 – Broadcast Reporting

COMM 3747 – Broadcast Production

COMM 4790 – Workplace Issues and Work Experience Preparation Seminar

COMM 4791 – Journalism Work Experience I *optional

Two courses in fall semester chosen from:

COMM 2501 – Media History and Contemporary Issues

COMM 3511 – Information Media 2.0

COMM 4757 – Corporate Communications

One course in winter semester chosen from:

COMM 3720 – Newspaper Production and Design

COMM 4707 – Editorial Board *with consent of the program chair

**All courses three credits but for non-credit courses COMM 4790 and 4791.*

GRADUATION REQUIREMENTS

Successful completion of 30 credits and all courses in the certificate curriculum including the non-credit work term seminar, with a minimum final grade of 'C' or a 'Pass' in each course, as appropriate.

DIPLOMA – MUSIC PERFORMANCE

GENERAL INFORMATION

In response to the special needs of young musicians who may have the potential to become professional performers, Mount Royal University has developed a diploma program in Music Performance with streaming to fit the needs of different instruments. Our program is unique in that it provides the academic rigour of the conventional music performance program while enhancing the emphasis on the development of performing skills.

The diploma in Music Performance is designed to prepare students for positions in professional performing organizations or for further studies, by allowing them approximately five (5) hours a day for concentrated practice and by giving them the opportunity to develop their performance skills under very careful guidance.

Recognizing that many students will want to pursue a Bachelor of Music, the diploma in Music Performance is fully transferable within the Alberta post-secondary system.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – MUSIC PERFORMANCE DIPLOMA

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Music Performance Diploma program:

High School and Post-secondary Standing

- English Language Arts 30-1

Mature Standing

- English Language Arts 30-1 – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

- Audition and interview – applicants must exhibit performance skills at an advanced level through presentation of major works of repertoire on their instrument or voice. Applicants must play or sing before an audition panel. A tape/CD is acceptable for those applying from out of the province or country. Applicants will be assessed on their technique, artistry and potential to fulfill program requirements. Applicants will also be interviewed.
- Placement tests in music theory and ear training will be required.

ADDITIONAL FEES

There is also an additional fee of \$225 per semester over and above the standard University fees.

CONTINUANCE IN THE PROGRAM

Students who fail to achieve a minimum grade of “C-” (1.70 Grade Point Average) in each of the required core courses in the program will not be allowed to continue in Music Performance diploma core courses in the subsequent semester, and must repeat any required core courses in which the “C-” minimum was not met. This grade requirement does not apply to the English requirement or the four Arts and Science Requirements. A minimum grade of “C-” is required in all Music Performance core courses in order to qualify for a diploma.

CURRICULUM

Diploma – Music Performance – Classical

In addition to meeting standard General Education requirements Classical Music students need complete these required Classical Music courses:

Year 1

MUSC 1104 – Chamber Ensemble I or

Approved Language Requirement – Voice*

MUSC 1109 – Theory of Music I

MUSC 1115 – Choir I or MUSC 1119 – Orchestra I

MUSC 1120 – Chamber Ensemble II or

Approved Language Requirement – Voice*

MUSC 1123 – Theory of Music II

MUSC 1214 – Choir II or MUSC 1219 – Orchestra II

MUSC 2201 – Introduction to Music History

MUSC 2241 – History of Musical Style I

MUSD 1100 Level – Principle Instrument or Voice

MUSD 1200 Level – Principal Instrument or Voice

Year 2

MUSC 1215 – Choir III or MUSC 1220 – Orchestra III

MUSC 1216 – Chorus IV or MUSC 1221 – Orchestra IV

MUSC 1230 – Chamber Ensemble III or

Approved Language Requirement – Voice*

MUSC 1240 – Chamber Ensemble IV (not required for Voice)

MUSC 2109 – Theory of Music III

MUSC 2123 – Theory of Music IV

MUSC 3343 – History of Musical Style II

MUSC 3345 – History of Musical Style III

MUSD 1300 Level – Principal Instrument or Voice

MUSD 1400 Level – Principal Instrument or Voice

Diploma – Music Performance – Jazz

In addition to meeting standard General Education requirements Jazz Music students need complete these required Classical Music courses:

Year 1

MUSC 1104 – Chamber Ensemble I

MUSC 1109 – Theory of Music I

MUSC 1115 – Choir I or MUSC 1119 – Orchestra I

MUSC 1120 – Chamber Ensemble II

MUSC 1123 – Theory of Music II

MUSC 1214 – Choir II or MUSC 1219 – Orchestra II

MUSC 1234 – Jazz History I

MUSD 1100 Level – Principal Instrument or Voice

MUSD 1200 Level – Principal Instrument or Voice

Year 2

MUSC 1215 – Choir III or MUSC 1220 – Orchestra

MUSC 1216 – Chorus IV or MUSC 1221 – Orchestra IV

MUSC 1230 – Chamber Ensemble III

MUSC 1240 – Chamber Ensemble IV

MUSC 2201 – Introduction to Music History

MUSC 2251 – Jazz Theory I

MUSC 2253 – Jazz Theory II

MUSC 2261 – Jazz Composition and Arranging I

MUSC 2263 – Jazz Composition and Arranging II

MUSC 2281 – Jazz Improvisation I

MUSC 2283 – Jazz Improvisation II

MUSD 1300 Level – Principal Instrument or Voice

MUSD 1400 Level – Principal Instrument or Voice

* Students in the Vocal Stream will enrol in an approved university level transfer language course with a minimum of 3 credits at Mount Royal or at another post-secondary institution in French, German, or Italian. Courses acceptable at Mount Royal University are: French 1109/1111/1113/1115/1117, German 1105/1107/1125/1127, Italian 1101/1103.

For *Restrictions and Interpretations* concerning the program requirements for General Education and Elective Requirements, refer to the section entitled *General Graduation Requirements*.

DIPLOMA – THEATRE ARTS

GENERAL INFORMATION

There is a growing interest in theatre arts education in Canada. Professional theatre companies in the country are demanding higher levels of training and skill from prospective employees and interns; theatre arts studies are now a part of most secondary school curricula; and continuing national concern about our cultural identity has drawn increased attention to developments in Canadian performing arts industries. Furthermore, television and film companies, both Canadian and foreign, have discovered a great resource in Canada's theatre technicians, production personnel and performers, creating an increased demand on the talent pool.

Mount Royal University is responding to these demands by offering an intensive and specialized program in Theatre Arts. Students who wish to continue their studies after high school or seek training at a later stage in their careers may apply for admission to the Mount Royal University program in either of the Performance or Technical Streams, each of which features a transition course for film/television in the final semester. Another unique feature of this program is the high level of involvement of local professional companies whose personnel are integrally involved in teaching the courses offered. Training takes place at Mount Royal University and in local theatre venues.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – THEATRE ARTS DIPLOMA

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Theatre Arts Diploma program:

High School and Post-secondary Standing

- English Language Arts 30-1 or English Language Arts 30-2

Mature Standing

- English Language Arts 30-1 or English Language Arts 30-2 – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

Performance Stream

- An interview.
- A resume indicating all theatre experience and training as well as related or unrelated work experience.
- An individual performance audition.
- Selected applicants from the individual performance audition will be contacted for a group call-back audition.

Technical Stream

- A resume indicating all theatre experience and training as well as related or unrelated work experience.
- One letter of reference from teachers and/or work supervisors.

CONTINUANCE IN THE PROGRAM

Students must complete all required courses each term, in the sequence outlined in the calendar. Any exceptions must receive approval of the department chair. Students in the Technical Stream must pass all courses each term in order to proceed in the program; students in the Performance Stream must pass all Arts and Science Requirements and achieve a minimum of a "C-" in all Theatre Arts courses in order to proceed in the program.

Students who are no longer enrolled or who have been disqualified from the program may apply for re-admission by forwarding a letter of intent directly to the department and submitting an application for admission to the Office of the Registrar. Re-admission is at the discretion of the department faculty, and is not automatic. Students who are re-admitted must meet with the theatre arts advisor and must repeat any course in which the minimum grade was not met before continuing on a full-time basis in the program.

PROFESSIONAL CONDUCT

Students should adhere to University policy regarding non-academic conduct as defined in the calendar. In addition, students in the Theatre Arts program are expected to conduct themselves in a professional manner in rehearsal, performance and in any department-affiliated activity. Inappropriate behaviour will be dealt with firmly and may result in disqualification from the program.

CURRICULUM

Diploma – Theatre Arts – Performance

Year 1

THEA1105 – Production Practicum I*

THEA 1110 – Acting I

THEA 1120 – Movement I

THEA 1130 – Voice for the Actor I

 THEA 1268 – Stage Carpentry and Scenic Construction II

* Students are required to be involved in rehearsals and performances of department productions; the extent of their involvement increases as they progress through the program and the number of hours varies.

For *Restrictions and Interpretations* concerning the program requirements for General Education and Elective Requirements, refer to the section entitled *General Graduation Requirements*. General Information

MINOR IN SPEECH

What is a Speech Minor?

A minor in Speech is an interdisciplinary program which focuses on the study of spoken communication and how we present ourselves in a variety of settings, from interpersonal communications, leadership and small group participation and interviews, to speaking to large audiences. The skills learned are transferable both personally and professionally. A Minor in Speech is advantageous and beneficial to any career path that requires communication, including but not limited to Education, Business, Languages and Communications. Material covered includes Speech Writing, Public Speaking, Interpersonal Communications, Linguistics, Delivery Techniques, Persuasion, Intercultural Communication and Professional Speaking

REQUIRED COURSES:

- LING 1111 – The Nature of Language I
- SPCH 2001 – Introduction to Public Speaking
- SPCH 2003 – Delivery Techniques for Presentation
- SPCH 2009 – Great Speakers, Great Speeches

OTHER COURSES:

Choose 3 of the following:

- LING 1113 – The Nature of Language II
- PSYC 1121 – Interpersonal Communications I
- SPCH 1115 – Bridging Communication Tradition
- SPCH 1120 – Accent Modification
- SPCH 2005 – Oral Tradition, Narration, and Story-telling
- SPCH 2007 – Professional Speaking
Prerequisite: SPCH 2001 or equivalent
- SPCH 3001 – Persuasive Speaking
Prerequisite – SPCH 2001

BACHELOR OF ARTS – CRIMINAL JUSTICE

GENERAL INFORMATION

The Bachelor of Arts – Criminal Justice is a four (4) year baccalaureate degree program. The curriculum for the degree educates students in six program areas including; Foundations in Justice Studies, Human Relations, Human Justice, Criminological Literacy, Experiential Learning and General Education. This program provides professional preparation for students wishing to pursue careers such as Law Enforcement, Canadian Border Services, Immigration Canada, Federal, Provincial and Community Corrections and Probation/ Parole. As well, the Bachelor of Arts – Criminal Justice will prepare students for a range justice-related careers outside of law enforcement and corrections. The Honours stream in the Bachelor of Arts – Criminal Justice is unique in Alberta. Students in the Honours stream will develop enhanced knowledge and skills that are particularly suited for preparation to apply for graduate study in criminology/criminal justice and law school.

OPPORTUNITIES FOR FURTHER STUDY

The Bachelor of Arts – Criminal Justice degree, and the Honours stream, do not guarantee either eligibility for, or admission into, graduate studies or law school. Graduates must meet the individual universities' admission requirements in a competitive process. However, past graduates of Mount Royal's justice-related undergraduate degree have earned admission into several justice-related Master of Arts degrees and law schools across Canada. Students considering graduate school or law school are encouraged to investigate their postgraduate educational plans with an academic advisor at the institution in which they are seeking to enrol.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF ARTS – CRIMINAL JUSTICE

In addition to meeting the general admission requirements indicated in the Admissions section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Arts – Criminal Justice program:

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure or Applied)

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

POLICE SECURITY CLEARANCE

Note: In order to graduate with the Bachelor of Arts – Criminal Justice degree, students may complete a practicum course in a justice-related agency. In some cases, agencies may require students to provide proof of a police information check prior to commencing the course. All costs related to the police information check are the responsibility of the student. Refer to the statement regarding police information and Other Background Checks in this calendar.

GENERAL EDUCATION

For course information visit mtroyal.ca/gened/courses. Students are encouraged to meet with an advisor before registering in a course.

PRACTICA IN THE BACHELOR OF ARTS – CRIMINAL JUSTICE

Students in the Bachelor of Arts – Criminal Justice must complete a 6-credit capstone practicum in order to graduate. There is no practicum requirement in the Honours stream.

Capstone Practicum

A capstone practicum normally occurs in the fourth year of study. Coordinated by the Department's Practicum Coordinator, students are placed with a justice-related agency to gain practical experience and enhance their experiential learning. Traditionally, practica are unpaid work experiences. Practica involve approximately 2.5 days of full-time work within an agency, biweekly academic seminars and required course assignments supervised by a faculty instructor. In total, practica involves 360 hours of placement hours and academic work over the academic term. Students are required to work with the Department's Practicum Coordinator well in advance of going out on a placement and before registering for the practicum course.

HONOURS STREAM IN THE BACHELOR OF ARTS – CRIMINAL JUSTICE

Students who are interested in pursuing graduate or law school after graduating from Mount Royal should consider applying for admission into the Honours stream in the Bachelor of Arts – Criminal Justice. The Honours stream involves a different set of fourth year courses than those found in the 4th year of study in the Bachelor of Arts – Criminal Justice. In place of completing a 6-credit practicum and one Criminal Justice Option course, students complete an Honours seminar and a 6-credit Honours research project (spread over two semesters).

Acceptance Requirements – Honours Stream in the Bachelor of Arts – Criminal Justice

Normally, students will complete a Department application for acceptance into the Honours stream upon successful completion of 25 courses in the Bachelor of Arts – Criminal Justice degree.

Students must also meet the following requirements:

- Minimum Grade Point Average of 3.25 while registered as a student in the Bachelor of Arts - Criminal Justice degree.
- Written sponsorship of a full-time tenured or tenure-track instructor in the Department of Justice Studies indicating a willingness to act as the student's Honours project advisor.

Part-time and term-certain instructors cannot serve as an Honours project advisor unless it is approved by the Chair of the Department.

CONTINUANCE IN THE BACHELOR OF ARTS – CRIMINAL JUSTICE DEGREE

Students accepted into the Bachelor of Arts – Criminal Justice degree program must comply with all University policies and regulations relating to Bachelor of Arts degrees and continuance.

CURRICULUM

Bachelor of Arts – Criminal Justice

PRACTICUM STREAM

The foundation of the Bachelor of Arts – Criminal Justice degree (Practicum Stream) includes eighteen (18) required core courses, three (3) criminal justice option courses, twelve (12) General Education* courses and four (4) Electives, for a total of 37 courses over four (4) years.

*Please consult the University Calendar for information concerning the University's General Education requirements.

The eighteen (18) required core courses in the Bachelor of Arts – Criminal Justice degree (Practicum Stream) consists of the following:

- CRJS 1001 – Introduction to Criminology
- CRJS 1003 – Introduction to the Criminal Justice System
- CRJS 1011 – Introduction to Human Relations
- CRJS 1013 – Diversity Issues and the Criminal Justice System
- CRJS 2003 – Young Persons in Conflict with the Law
- CRJS 2005 – Aberrant Behavior
- CRJS 2009 – Selected Issues in Human Justice
- CRJS 2013 – Interviewing Skills
- CRJS 2015 – Introduction to Research Methods
- CRJS 3001 – Quantitative Research Methods and Data Analysis
- CRJS 3005 – Qualitative Research
- CRJS 3007 – Professional Ethics
- CRJS 3009 – Crisis Intervention and Conflict Resolution
- CRJS 3011 – Criminal Law
- CRJS 4001 – Human Rights and Civil Liberties
- CRJS 4003 – Advanced Criminological Theory
- CRJS 5025 – Capstone Practicum
- PLSC 2243 – Law, Politics and the Judicial Process

All students in the Bachelor of Arts – Criminal Justice (Practicum Stream) must complete three (3) of the following criminal justice option courses (exceptions require Department approval):

- CRJS 2004 – Issues and Trends in Canadian Policing
- CRJS 2006 – Corrections
- CRJS 2008 – Geography of Crime: Prevention, Patterns and Trends
- CRJS 2011 – Comparative Criminal Justice Systems
- CRJS 2019 – Restorative Justice
- CRJS 4002 – Critical Analyses of Forensic Sciences in the Criminal Justice System
- CRJS 4007 – Conflict Resolution
- CRJS 4013 – Evidence and Procedures
- CRJS 4015 – Advanced Topics in Law, Criminology and Criminal Justice
- CRJS 4017 – Casework Methods and Practice
- CRJS 4021 – Women and Crime
- FORE 4401 – Forensic History, Risk Populations and Issues
- FORE 4403 – Forensic Psychiatric and Corrections Populations
- FORE 4405 – Victims of Violence
- FORE 4407 – Forensic Science
- FORE 4409 – Expert Witness Testimony
- FORE 4411 – Crime Scene Investigation and Evidence

Bachelor of Arts – Criminal Justice

HONOURS STREAM**

The foundation of the Bachelor of Arts - Criminal Justice degree (Honours Stream) includes twenty (20) required core courses, two (2) criminal justice option courses, twelve (12) General Education* courses and four (4) Electives, for a total of 38 courses over four (4) years.

*Please consult the University Calendar for information concerning the University's General Education requirements.

** Please see the earlier description of the acceptance requirements into the Honours Stream in the Bachelor of Arts – Criminal Justice.

The twenty (20) required core courses in the Bachelor of Arts – Criminal Justice degree (Honours Stream) consists of the same courses as those previous listed for the Practicum Stream with the following exceptions:

In place of CRJS 5025 – Capstone Practicum, students in the Honours Stream must complete:

CRJS 5001 – Honours Seminar

CRJS 5010 – Honours Research Project – Part A

CRJS 5020 – Honours Research Project – Part B

All students in the Honours Stream in the Bachelor of Arts – Criminal Justice must complete two (2) of the criminal justice option courses listed previously under the Practicum Stream.

GRADUATION REQUIREMENTS

To be eligible for graduation, students must satisfactorily complete all degree program requirements and coursework. Students must achieve a minimum overall GPA of 2.00 to be eligible for graduation.

Students must follow the graduation application procedure outlined in the current Mount Royal Calendar. Applications must be submitted by the date published in the Calendar.

Note: For course descriptions refer to:

Bachelor of Arts – Criminal Justice

mtroyal.ca/healthcomm/criminal/curriculum.shtml

MINORS

Students in the Bachelor of Arts – Criminal Justice may choose to complete a minor in other approved areas of study at Mount Royal University. To earn a minor, students must complete between 6 to 9 designated courses from a specific discipline, and graduate with a minimum GPA of at least 2.00 (2.30 in Education) in the courses in the minor subject area. Specific courses making up a minor are determined by the discipline of study offering the minor.

Subject areas for minors at Mount Royal University are offered within the Faculty of Arts, Faculty of Science and Technology and the Bissett School of Business. Please refer to the appropriate sections in the Calendar for further details about the various minors.

Students planning to complete a minor should check with the Justice Studies Academic Advisor early in their studies so that they can ensure that they have met all requirements before graduation. Most courses at the 3000 and 4000 levels have prerequisites, so students should consider those prerequisites when selecting their 1000 and 2000 level courses.

Declaring a minor: Students do not have to declare a minor until they are ready to apply for graduation, at which point students who have taken the requisite 6 to 8 courses and completed the requirements for a minor will have the minor recorded on their transcripts.

BACHELOR OF MIDWIFERY

PROGRAM PENDING APPROVAL. FOR INFORMATION ON THIS PROGRAM PLEASE REFER TO THE MOUNT ROYAL WEBSITE OR CONTACT THE FACULTY OF HEALTH AND COMMUNITY STUDIES 403.440.7296.

GENERAL INFORMATION

The Bachelor of Midwifery is a four (4) year baccalaureate degree program that prepares its graduates to provide comprehensive, evidence-based midwifery care to essentially healthy women throughout pregnancy, childbirth and postpartum care to six weeks. Midwifery care is premised on a partnership model in which women fully participate in decision making. Midwives address the physical, socio-cultural and emotional needs of clients, provide supportive teaching and counselling, function in the community and in hospitals and collaborate with other health professions as needed. Program graduates will be prepared to meet established standards for registration and function safely within the Canadian Competencies for Midwives including their own responsibility within the context of the Alberta and Canadian health care systems.

BACHELOR OF NURSING

GENERAL INFORMATION

The Bachelor of Nursing Program is a four (4) year degree program. This degree program prepares students for professional careers as Registered Nurses in a variety of settings. Students will benefit from the program's learner centred approach and strong emphasis on nursing practice preparation and specialization opportunities.

The program is offered over four (4) Fall and Winter academic years with required Spring Semesters. Most courses will be offered in both the Fall and the Winter Semesters. Students completing all degree requirements will be awarded a Bachelor of Nursing (BN) degree from Mount Royal University.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this calendar

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF NURSING

In addition to meeting the general admission requirements indicated in the Admissions section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Nursing program:

- English Language Arts 30 – 1 – 60%
- Math 30 (Pure)
- Biology 30

One of the following courses:

Chemistry 30, Physics 30 or Science 30

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the College. Applicants who do not meet these minimum grade requirements will be denied admission.

Minimum Overall Average Required for Admission

To be eligible for admission on the basis of High School Standing, applicants must present a minimum admission average of 65% on their five appropriate grade 12 subjects.

To be eligible for admission on the basis of Post-secondary Standing, applicants must present a minimum Grade Point Average (GPA) of 2.00 on the 8 most recently completed post-secondary courses (minimum 24 credit hours).

Application Deadline: March 1

GENERAL EDUCATION

Mount Royal's Bachelor of Nursing program requires specific general education courses to meet graduation requirements. These are specified in the program curriculum. For incoming students in the Bachelor of Nursing program, it is important to seek clarification of these requirements and up-to-date registration information through the Academic Advisors.

TRANSFER CREDIT ASSESSMENT

Transfer credit towards Mount Royal University nursing (NURS) courses will be limited to courses that have been successfully completed within seven (7) years from the date of initial registration in the student's original nursing program.

ACADEMIC PERFORMANCE AND PROGRESSION REQUIREMENTS

In order to be considered a continuing student of record in the Bachelor of Nursing program, the student must achieve a minimum 'C' grade or "EP" (Experiential Pass) grade in all nursing (NURS) courses. The required Health Studies Courses (HLTH) are also considered nursing courses. Students are required to achieve a passing grade, as determined by each discipline, in all non-nursing courses. To be eligible for graduation, the student must achieve a minimum cumulative Grade Point Average of 2.00.

Grades below a 'C' in a nursing course or an unsatisfactory ("EF": Experiential Fail) in a nursing clinical practice course must be cleared by repeating the course before students may progress to any further nursing courses.

Students with two failures in the same nursing course will be required to withdraw from the program and will not be eligible for re-admission to the program.

Students are permitted one re-registration in the same required nursing program course (a course with the prefix NURS, BIOL, INTS or HLTH). That is, students are not allowed more than two (2) grades below the minimum pass or two (2) withdrawals in the same nursing program course, nor are they permitted one (1) withdrawal and one (1) grade below the minimum pass within the same nursing program course. Students who are unsuccessful after two registrations in the same nursing program course will be required to withdraw from the program and will not be eligible for re-admission.

GRADING SCHEME

Mount Royal University Undergraduate Nursing Grading System *

Description	Alpha Grade	4.0 Scale
	A+	4.0
Excellent	A	4.0
	A-	3.7
	B+	3.3
Good	B	3.0
	B-	2.7
	C+	2.3
Minimal pass	C	2.0
Course failure	C-	1.7
	D+	1.3
	D	1.0
	F	0

* The practice (clinical) experience is graded "Pass/Fail" (EP/EF). A student is evaluated according to criteria based on the program and course intents. All criteria must be met at a satisfactory level in order to receive a pass in the clinical experience.

REGULATIONS

Students are responsible for familiarizing themselves with the policies and procedures of Mount Royal University as outlined in the Calendar, Code of Student Conduct and the Student Handbook: Undergraduate Nursing Program. Refer to the *Student Handbook* for details.

DURATION OF THE PROGRAM

Program requirements for degree completion can be completed in four (4) academic years. Students have seven (7) calendar years from the date of initial registration in the Bachelor of Nursing Degree to complete all requirements. Students seeking an extension beyond seven (7) years may be required to complete additional course work.

CANADIAN REGISTERED NURSE (RN) EXAMINATION

Students will be eligible to write the Canadian Registered Nurse Examination upon satisfactory completion of all degree program requirements. Students are responsible for all costs related to the examination.

STUDENTS WITH DISABILITIES

When warranted, and without compromising academic and professional nursing practice standards, Mount Royal University will provide reasonable accommodation for the students with documented disabilities. Students need to fulfill program requirements to be eligible for graduation.

POLICIES RELATIVE TO NURSING PRACTICE EXPERIENCE

Students must demonstrate satisfactory clinical performance as delineated in each course syllabus.

Students' nursing practice experiences may be scheduled at varied hours, including evenings, nights and weekends. Approximately half of each student's clinical placements will be in community settings – this may require the use of a vehicle. Students may be completing practice experiences at sites distant to Calgary. All travel and accommodation costs associated with practice experiences are the responsibility of the student. Students will require a standard uniform for most practice experiences and should refer to the MRBN Student Handbook for the uniform policy.

Participation in practice, tutorial and laboratory sessions is mandatory. A student who is unable to attend practice experiences due to exceptional circumstances, and therefore is unable to meet course objectives may apply to the Chair for a deferral of course work. Students are cautioned that even if a deferral is granted, required practice and/or tutorial experiences may not be immediately available and student progress through the program may be delayed.

A student may be prohibited from attending or completing a practice experience if there is evidence to suggest that the student's physical and/or psychological health may be detrimental to patients or patient care.

IMMUNIZATION

Proof of up-to-date immunization status is required for all professional practice courses and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization status will result in immediate withdrawal from the clinical practice area.

CARDIOPULMONARY RESUSCITATION (C.P.R.) CERTIFICATION

Students must provide annual proof of current C.P.R. Certification for Healthcare Providers. Evidence of certification is to be provided to the School of Nursing office, by August 1 each year. All associated costs are the responsibility of the student.

Failure to maintain current CPR certification will result in immediate withdrawal from the clinical practice area.

POLICE INFORMATION CHECK

Provincial legislation requires that new employees and volunteers in publicly-funded agencies including; hospitals, seniors' lodges, group homes and nursing homes are subject to a police information check (i.e., Police Information check). In some cases, agencies may require students to provide proof of a police information check prior to commencing a clinical course. Thus, students may be required to obtain more than one police information check during their program of studies. All costs related to the police information check are the responsibility of the student. If a student is denied a clinical placement, then the student will be unable to meet course requirements and will be required to withdraw from the program. Refer to the statement regarding *Police Information and Other Background Checks* in this calendar.

MASK FIT TESTING

As a prerequisite for acute care clinical practice all students must be fitted for N95 masks in accordance with Alberta Health Services policy. Mask fit testing is valid for two years or less if you have weight gain or loss greater than 4.5 kilograms, or following nasal fracture or facial scarring. Evidence of mask fit testing is to be provided to the Department of Nursing office and students must have their mask size with them for practice experiences. All costs associated with this service are the responsibility of the student.

INTERRUPTION OF PROGRAM

Students who interrupt their program are advised that they will be required to comply with any regulations that may have come into effect in regard to their program and requirements. Students will be required to re-apply for admission and notify the Department of Nursing at Mount Royal University in writing by March 15 of their intention to return for the following Fall Semester or by October 1 for the following Winter Semester.

GRADUATION REQUIREMENTS

To be eligible for graduation, students must satisfactorily complete all degree program requirements. Students must maintain an overall a minimum GPA of 2.00 to be eligible for graduation.

Students completing degree requirements will be awarded a Bachelor of Nursing degree from Mount Royal University.

Students applying to graduate must do so by the date published in the Mount Royal University Calendar.

PROGRAM OF STUDY

To fulfill Mount Royal University's residency requirements for degree completion, students must complete the 3000 and 4000 level nursing courses, with the exception of the 4000 level senior nursing option, through Mount Royal University. Students are responsible for ensuring they have met the residency requirements.

To fulfill the course requirements for the senior-level Nursing Option (NURS 4XXX) students may choose to register in a course offered through the Department of Nursing or the post-basic certificate programs offered through the Department of Advanced Specialty Health Studies at Mount Royal University. Students will need to consult an Academic Advisor prior to registering in a course.

CURRICULUM

Bachelor of Nursing

All MRBN students must complete the following thirty-one (31) required courses as part of their program requirements:

BIOL 1220 – Anatomy and Physiology I

BIOL 1221 – Anatomy and Physiology II

HLTH 2250 – Research for Practice in Health and Community Studies

INTS 1240 – Fundamentals of Interpersonal Communication

MATH 2333 – Statistics for Life Sciences

NURS 1111 – Theoretical Foundations of Nursing I

NURS 1112 – Health Promotion with Individuals I

NURS 1213 – Health Promotion with Individuals II

NURS 1214 – Professional Practice I

NURS 2111 – Theoretical Foundations of Nursing I

NURS 2112 – Alterations in Health: Nursing Knowledge and Therapeutics I

NURS 2113 – Alterations in Health: Nursing Knowledge and Therapeutics II

NURS 2114 – Professional Practice II

NURS 2215 – Health Promotion with Populations, Communities, Families

NURS 2216 – Professional Practice III

NURS 3102 – Adult Health

NURS 3104 – Professional Practice in Adult Health

NURS 3112 – Family Newborn Health

NURS 3114 – Professional Practice in Family Newborn Health

NURS 3122 – Child Health

NURS 3124 – Professional Practice in Child Health

NURS 3132 – Mental Health

NURS 3134 – Professional Practice in Mental Health

NURS 3142 – Seniors' Health

NURS 3144 – Professional Practice in Seniors' Health

NURS 4111 – Leadership/Trends and Issues

NURS 4112 – Integrated Professional Practice

NURS 4XXX – Senior Nursing Option

NURS 5114 – Transition to Independent Practice

PHED 2007 – Nutrition

PSYC 2235 – Life Span Development

All MRBN students will also be required to complete one course for each of the four foundation level General Education clusters.

NOTE: Courses are not necessarily offered in the sequence shown.

Students are responsible to ensure that all prerequisite and co-requisite requirements are met prior to registering in a course.

Courses may be offered in Spring or Summer semesters to accommodate clinical placement availability.

BACHELOR OF APPLIED BUSINESS AND ENTREPRENEURSHIP

SPORT AND RECREATION

GENERAL INFORMATION

The Sport and Recreation stream of the Bachelor of Applied Business and Entrepreneurship degree is jointly offered by the Bissett School of Business and the Department of Physical Education and Recreation Studies in a collaborative manner. Core courses in the program offered by the Bissett School of Business emphasize the development of skills and attitudes necessary for success in an entrepreneurial business environment. Course offerings from the Department of Physical Education and Recreation Studies develop the Sport and Recreation competencies and the specific technical and theoretical background that will allow graduates to be successful in sport and recreation positions. The remainder of the curriculum consists of the College-wide requirements for English, Arts and Science Requirements, Computers, Physical Education options and Directed Field Studies. The combination of entrepreneurial and sport and recreation courses will create a graduate ideally suited for small business and self-employment in the field of sport and recreation.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF APPLIED BUSINESS AND ENTREPRENEURSHIP – SPORT AND RECREATION DEGREE

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Applied Business and Entrepreneurship – Sport and Recreation program.

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure or Applied) – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

CURRICULUM

Bachelor of Applied Business and Entrepreneurship – Sport and Recreation

Year One

ACOM 2251 – Introduction to Fund Development
 ENGL 1101 – Critical Reading and Writing (or higher level)
 ENTR 2301 – The Entrepreneurial Experience
 MKTG 2150 – Introduction to Marketing
 PHED 1201 – Foundations of Sport and Recreation
 PHED 1203 – Organization and Administration of Sport and Recreation
 PHED 1216 – Program Planning for Physical Activity and Sport
 Arts and Science Requirement
 Open Elective
 Physical Education Option

Year Two

MGMT 2262 – Business Statistics I
 MGMT 3210 – Business Communication Theory & Practice
 PHED 1050 – Practicum I in Sport, Recreation, and Physical Activity
 RECR 1203 – Community Development
 RECR 1247 – Theory and Practice in Leadership

Year Four

ENTR 3251 – Market Research for Small Business
 MGMT 3230 – Business Law
 PHED 3150 – Practicum II in Sport, Recreation, and Physical Activity
 PHED 4267 – Issues and Trends in Sport and Recreation
 Arts and Science Requirement
 Open Elective
 Open Elective
 Open Elective

Note: Arts and Science courses must be selected from four (4) different areas. At least two (2) Arts and Science courses (a minimum of six [6] credits) must be at the senior-level (see program/academic advisor for details). See *General Graduation Requirements* section for a full listing of approved Arts and Science Requirements, areas, and restrictions.

* An Elective is any 3 credit course offered by Mount Royal.

According to University policy relating to applied baccalaureate degree programs, successful completion of an Entrepreneurship course is a graduation requirement for all applied baccalaureate degree programs. In the Bachelor of Applied Business and Entrepreneurship degree programs, an elective course has been substituted for this Entrepreneurship Studies graduation requirement.

GRADUATION REQUIREMENTS

- Successful completion of a minimum of 123 credits (to include a minimum of 94.5 credits of academic course work and a minimum of 30 credits of work experience).
- Successful completion of the two (2) Directed Field Studies; ENTR 2015 and 3015.
- A minimum overall Grade Point Average of 2.00 on all courses required for the program. This includes all core "ACCT", "ACOM", "COMP", "ENTR", "MKTG", "MGMT", "PHED" and "RECR" courses, all approved business options, the Arts and Science requirements, and the English requirement.
- A minimum grade of C in all required core "PHED" and "RECR" courses in the program. In addition, core will also include the two Directed Field Studies – ENTR 2015 and 3015.

See *General Graduation Requirements* section.

BACHELOR OF APPLIED CHILD STUDIES

GENERAL INFORMATION

With increasing evidence regarding the importance of supporting children's development during the early years, there is a need for professionally trained and skilled staff to provide ongoing treatment, support and services to children, youth and families.

The Bachelor of Applied Child Studies combines six (6) semesters of academic study with two (2) terms of Directed Field Studies. This unique interdisciplinary program draws on the disciplines of Early Learning and Child Care, Disability Studies, Social Work and Child and Youth Care to prepare students to work with diverse groups of children, provide support to parents in child rearing and contribute to community services development. Graduates of the Bachelor of Applied Child Studies degree will be prepared to develop, implement and co-ordinate new and flexible child and youth centered services to meet the unique needs of each community. They will be able to apply their knowledge of child, family and community development to design and implement a variety of assessment strategies, as well as plan, develop and implement a wide range of preventive and intervention programs for children and families and to evaluate programs. Graduates will be able to communicate effectively with children, youth and adults, understand the ethical foundations of human service providers and apply knowledge of leadership and management in professional roles in the community. In addition, graduates will learn research skills, effective teamwork, critical thinking, information access and retrieval and computer skills.

OPPORTUNITIES FOR FURTHER STUDY

Applied baccalaureate degree programs offered by Mount Royal University have been designed primarily to prepare graduates for immediate employment within, or related to, their area of study. The applied degree credential does not guarantee either eligibility for, or admission into, graduate and professional programs. Nevertheless, in response to demand by students and the community at large, the University is actively investigating and pursuing opportunities to have these baccalaureate credentials recognized, in whole or in part, for admission to appropriate and relevant graduate and professional programs offered by universities. Specific arrangements and opportunities for graduate study will be publicized as these are formalized. Graduating applied baccalaureate degree students who are interested in further study rather than immediate employment are encouraged to discuss their post-graduate education plans with an academic advisor at the institution in which they are seeking to enrol.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF APPLIED CHILD STUDIES DEGREE

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Applied Child Studies program:

- English Language Arts 30-1 – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

DIRECTED FIELD STUDIES

Directed Field Studies are designed to provide an extension of the learning process in a relevant work environment. Delivered in two semesters, comprising 25 per cent of the curriculum for applied baccalaureate degree programs, Directed Field Studies integrate academic learning with paid work experience. Each Directed Field Studies semester has specific course objectives and outcomes. Students are responsible to complete requirements assigned by Mount Royal University faculty and are obligated to fulfill commitments made to employers. Successful completion of each semester receives a total of 15 credits.

Given the fluctuating nature of the local labour market, opportunities for work experience can be located outside Calgary, across Canada and in international markets. Students should be prepared to relocate and to receive intern or entry-level compensation.

In order to ensure the protection of clients, students will be expected to provide an up-to-date police information check, at their expense, before beginning their first observations in the first semester. In consultation with faculty, the chair may judge that there is evidence that a student is professionally unsuitable or a risk to clients. In such a case, the chair may prohibit a student from attending or completing Directed Field Studies.

Directed Field Studies are considered an academic component of the program. Therefore, students are advised to refer to other parts of the calendar including *Evaluation of Prior Learning* and *Fees and Deposits*.

CONTINUANCE IN THE PROGRAM

Students accepted into the applied degree program must comply with all University policies and regulations relating to applied degrees and continuance. Students enrolled in the applied degree program must obtain a minimum grade of "C" in all required core courses, program required courses and options in areas of concentration and maintain a minimum cumulative Grade Point Average of 2.00.

CURRICULUM

Bachelor of Applied Child Studies

The interdisciplinary educational program in the Bachelor of Applied Child Studies combines theoretical knowledge with practical skills to prepare students to take leadership roles in the provision of services for children and families in community settings.

- CHST 1101 – Professional Preparation
- CHST 2010 – Directed Field Studies I
- CHST 2201 – Social and Environmental Conditions
- CHST 2203 – Child and Youth Human Rights
- CHST 2211 – Disabling Conditions
- CHST 2241 – Observing Children in Play-Based Settings
- CHST 2243 – Observing Child Studies Systems
- CHST 2281 – Introduction to Child Focused Services
- CHST 2283 – Supporting Children Through Play
- CHST 3010 – Directed Field Studies II
- CHST 3301 – Policies and Issues
- CHST 3303 – Working with Families
- CHST 3305 – Diversity Issues
- CHST 3307 – Community Development
- CHST 3309 – Interviewing Skills
- CHST 3311 – Program Planning and Evaluation
- CHST 3341 – Observing Services for Children and Youth with Disabilities
- CHST 3381 – Children and Youth at Risk
- CHST 4401 – Working with Groups
- CHST 4403 – Community Based Research
- CHST 4405 – Ethics and Ethical Issues
- CHST 4407 – Leadership in Human Services
- CHST 4441 – Observing Specialized Services for Children and Youth
- CHST 4443 – Observing Community Collaboration
- CHST 4481 – Children's Mental Health Interventions

Support Courses

- Elective
- ENGL 1101 or any other 1100-level (or higher) English
- INTS 1240 – Fundamentals of Interpersonal Communication
- PSYC 1105 – Introduction to Psychology
- PSYC 3351 – Topics in Child Development*
- Arts and Sciences, 4 junior level and 2 senior level requirements
- * Prerequisite waived.

Sequence of Directed Field Studies

Directed Field Studies typically occur during the fifth and eighth semesters.

GRADUATION REQUIREMENTS

- Successful completion of a minimum of 123 credits, of which 30 credits will be for Directed Field Studies.
- Minimum Grade Point Average of 2.00 on all courses included in the program.
- Successful completion of two (2) terms of Directed Field Studies.

See *General Graduation Requirements* section.

For *Restrictions and Interpretations* concerning the program requirements for English, Elective, and Arts and Science courses, refer to the section entitled *General Graduation Requirements*.

BACHELOR OF APPLIED ECOTOURISM AND OUTDOOR LEADERSHIP

GENERAL INFORMATION

Mount Royal University and Medicine Hat College have collaborated to design a unique Bachelor of Applied Ecotourism and Outdoor Leadership degree program that recognizes the demand for participation in tourism and outdoor activities. The degree provides a solid interdisciplinary base in tourism and business, sociocultural heritage, outdoor pursuits, environmental science and leadership and communication.

The Bachelor of Applied Ecotourism and Outdoor Leadership degree program is an intensive program which combines nine semesters of academic study. The specialized courses and practical opportunities provide graduates with knowledge, skills and experience to provide and administer ecotourism and outdoor activities within natural, cultural and historical environments.

Exposure to practical problems and opportunities are provided through the application of experiential learning activities including field trips, expeditions, research projects, research activities, visitations, leadership opportunities, independent learning, technology enhanced learning and professional certification.

OPPORTUNITIES FOR FURTHER STUDY

Applied baccalaureate degree programs offered by Mount Royal University have been designed primarily to prepare graduates for immediate employment within, or related to, their area of study. The applied degree credential does not guarantee either eligibility for, or admission into, graduate and professional programs. Nevertheless, in response to demand by students and the community at large, Mount Royal University is actively investigating and pursuing opportunities to have these baccalaureate credentials recognized, in whole or in part, for admission to appropriate and relevant graduate and professional programs offered by universities. Specific arrangements and opportunities for graduate study will be publicized as these are formalized. Graduating applied baccalaureate degree students who are interested in further study rather than immediate employment are encouraged to discuss their post-graduate education plans with an academic advisor at the institution in which they are seeking to enrol.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF APPLIED ECOTOURISM AND OUTDOOR LEADERSHIP DEGREE

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Applied Ecotourism and Outdoor Leadership program:

- English Language Arts 30-1 – 60%
- Biology 30

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by Mount Royal University. Applicants who do not meet these minimum grade requirements will be denied admission.

Note: The Bachelor of Applied Ecotourism and Outdoor Leadership degree program will require students to participate in strenuous, multi-day outdoor activities. Applicants should be healthy, physically active and willing to cope with harsh all-season conditions and challenging terrain.

WORK-RELATED PRACTICA

Practica are designed to provide an extension of the learning process in a relevant work environment. Delivered in two semesters, comprising 25 percent of the curriculum for applied baccalaureate degree programs, practica integrate academic learning with paid work experience. Each practica semester has specific course objectives and outcomes. Students are responsible to complete requirements assigned by Mount Royal faculty and are obligated to fulfill commitments made to employers. Successful completion of each semester receives a total of 4 and 8 credits respectively. Given the fluctuating nature of the local labour market, opportunities for work experience can be located outside Calgary, across Canada and in international markets. Students should be prepared to relocate and to receive entry-level compensation.

Practica are considered an academic component of the program. Therefore, students are advised to refer to other parts of the calendar including *Evaluation of Prior Learning and Fees and Deposits*.

CONTINUANCE IN THE PROGRAM

Students accepted into the Bachelor of Applied Ecotourism and Outdoor Leadership degree program must comply with all University policies and regulations relating to applied baccalaureate degrees and continuance. Students enrolled in the Bachelor of Applied Ecotourism and Outdoor Leadership degree program must maintain a minimum grade of "C" (2.00 GPA) in each of the required core courses in the program and maintain a minimum cumulative Grade Point Average of 2.00. Core courses are designated with "ETOL", "RECR", and "PHED."

CURRICULUM

Bachelor of Applied Ecotourism and Outdoor Leadership Year One

COMP 1209 – Introduction to Computing for Applied Degrees
ECOL 1210 – Ecology
ENGL 1101 – Critical Reading and Writing
ETOL 2201 – Foundations of Outdoor Leadership
ETOL 2303 – Sustainable Tourism
ETOL 3303* – Expedition I
GEOG 1101 – The Physical Environment
PHED 1005 – Leadership & Communication in Physical Education
PHED 2402 – Introduction to Backpacking
PHED 2404 – Introductory Rock Climbing
PHED 2410 – Wilderness Survival Techniques
PHED 2414 – Introductory Canoeing
PHED 2416 – Introduction to Kayaking

Year Two

ETOL 2011 – Practicum I
ETOL 2401 – Ecotourism Facilitation Skills
ETOL 3305 – Program Planning
ETOL 3307 – Administration of Outdoor Centres
NTSC 1112 – Introduction to Current Environmental Issues
PHED 2406 – Back Country Skiing
PHED 2408 – Mountain Bike Trekking
PHED 2418 – Introductory Mountaineering
RECR 1217 – Marketing for Sport and Recreation
RECR 1247 – Theory and Practice in Leadership
Arts and Science Requirement
Arts and Science Requirement
Elective 1

Year Three

ENTR 1232 – Entrepreneurship Studies
ETOL 3301 – Practicum II
ETOL 3309 – Individual Projects
GEOG 2443 – Tourism and Recreation Geography
Arts and Science Requirement
Arts and Science Requirement
Arts and Science Requirement
Arts and Science Requirement
Senior Arts and Science Requirement
Elective 2
Elective 3

Year Four

ETOL 4405 – Issues in Ecotourism
ETOL 4409 – Applied Leadership
ETOL 5010 – E-Portfolio
Senior Arts and Science Requirement
Elective 4

* Ecotourism 3303 consists of a 10 day expedition in early May or late August of semester 3. Students will be responsible for personal subsistence costs associated with Ecotourism and Outdoor Leadership 3303. For details on the date, consult an advisor in the Department of Physical Education and Recreation Studies.

Note: Arts and Science Requirements must be selected from four (4) different areas. At least two (2) arts and science courses (a minimum of six [6] credits) must be at the senior level (see program/academic advisor for details). See *General Graduation Requirements* section for a full listing of approved Arts and Science Requirements, areas and restrictions.

GRADUATION REQUIREMENTS

- Successful completion of a minimum of 120 credits
- Successful completion of the two work related practica, ETOL 2011 and ETOL 3011
- A minimum overall Grade Point Average of 2.00 on all courses required for the program. This includes all core "ETOL", "PHED" and "RECR" courses, all approved options, the Arts and Science Requirements. English 1101 and Computer Science 1209.
- A minimum grade of "C" (2.00 GPA) in all required core "ETOL", "PHED" and "RECR" courses in the program.

Additionally, students must complete the following graduation requirements:

- A self-directed outdoor expedition, approved by the department;
- A Wilderness and Remote Emergency Response certificate, provided by the department; and
- An advanced certificate related to the ecotourism and outdoor leadership field, approved by the department

BACHELOR OF PHYSICAL EDUCATION (UNIVERSITY TRANSFER)

BACHELOR OF PHYSICAL EDUCATION

Transfer arrangements have been established with the University of Calgary and with the University of Lethbridge for the Bachelor of Arts/Bachelor of Science/Bachelor of Education combined degrees with Physical Education/Kinesiology. Students may transfer up to two years of course work into these programs at the University of Calgary or the University of Lethbridge. Because the university transfer curriculum includes a wide selection of courses, students at Mount Royal University should consult an academic advisor in the Department of Physical Education and Recreation Studies to plan their program prior to registration.

The core curriculum at Mount Royal University for students transferring to the University of Calgary includes:

- PHED 1001* (U of C Knes 261)
- PHED 1003 (U of C Knes 243)
- PHED 1007 (U of C Knes 213)
- PHED 2005 (U of C Knes 253)
- PHED 2007 (U of C Knes 237)
- PHED 2201** (U of C Knes 201)
- PHED 2203 (U of C Knes 203)
- PHED 3001 (U of C Knes 263)
- PHED 4003 (U of C Knes 245)
- BIOL 1216 (Knes 303.60)

* PHED 1001 must be completed with a grade of at least a C- before enrolling in PHED 3001

** PHED 2201 is recommended to be completed with a grade of at least a C- before or concurrent with enrolling in PHED 3001

Note: that students can only transfer 9 core courses to the Kinesiology program at the University of Calgary. All other transferable courses must be non-core.

The core curriculum at Mount Royal University for students transferring to the University of Lethbridge includes:

- PHED 1001** (U of L Knes 2600)
- PHED 1003 (U of L Knes 2130)
- PHED 1005 (U of L Knes 2xxx)
- PHED 1007* (U of L Knes 2200)
- PHED 2203 (U of L Knes 1000)

- PHED 3001 (U of L Knes 2xxx)
- PHED 4003 (U of L Knes 2xxx)

* KNES 2200 at the U of L is a prerequisite for all 3000 and 4000 level Kinesiology courses

** KNES 2600 at the U of L is a prerequisite for Knes 2110.

Note: Students who wish to take a combined degree program in Physical Education/ Education at the University of Lethbridge must complete at least 20 courses (60 credit hours) including EDUC 1231/1233 (U of L EDUC 2500/2XXX) and at least eight (8) semester courses (24 credits) in Physical Education before being accepted into the program at the University of Lethbridge.

Students wishing to transfer to an institution within Alberta should consult a physical education academic advisor in the Department of Physical Education and Recreation Studies before registering in their courses. Entrance requirements, transfer arrangements and core course requirements vary with each institution.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF PHYSICAL EDUCATION UNIVERSITY TRANSFER PROGRAM

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria.

ACADEMIC COURSE REQUIREMENTS

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure)
- Biology 30
- Chemistry 30

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

DIPLOMA – CHILD AND YOUTH CARE COUNSELLOR

GENERAL INFORMATION

The Child and Youth Care Counsellor Diploma is a comprehensive two-year program that prepares graduates to work with vulnerable children, youth and families. The children and youth may have suffered physical, sexual or emotional abuse; neglect, failure, family breakdown, and may have behavioural or learning difficulties. The scope of future employment opportunities includes: group homes; institutional settings; youth justice programs; school settings; outreach/street programs; mental health centres; family and community based programs; therapeutic foster care; and day treatment programs.

To become a Child and Youth Care Counsellor you need to be strong physically, emotionally and morally. You require self-awareness and an interest in learning about the treatment of a variety of issues dealing with vulnerable children, youth and families.

The two-year CYCC diploma articulates to various university and college child and youth care programs across Canada. In addition, many of the credits from the diploma articulate to the Bachelor of Applied Child Studies program at Mount Royal University. Consult an academic advisor for details.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – CHILD AND YOUTH CARE COUNSELLOR DIPLOMA

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Child and Youth Care Counsellor Diploma program:

- English Language Arts 30-1 or English Language Arts 30-2

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Additional Criteria

In addition to meeting all academic admission requirements, applicants must meet the following criteria:

- Applicants must be 19-years-of-age or older by September 1 for the Fall Semester to which they are applying

FIELDWORK AND PRACTICUM PLACEMENTS

The program has a major fieldwork and practicum component. During the first year students will observe different agencies while gaining information about many others. This experience assists in determining a successful placement in the second year. As part of an integration of practice and theory, students are in a practicum placement two days (15-hours) per week for the entire second year of the program, provided all prerequisite requirements have been met. Students apply for practicum placements through an interview process and must show a high level of commitment and professional suitability. Both a Criminal and Intervention Record Check will be required prior to commencement of any fieldwork experience. All students will be required to have a current CPR and First Aid Certificate prior to entry into the second year practicum placement.

CONTINUANCE IN THE PROGRAM

In order to be considered as a continuing student of record in the Child and Youth Care Counsellor program, students must maintain a minimum "C" grade in all child and youth care counsellor courses. A 2.00 cumulative Grade Point Average must be maintained in all non-child and youth care counsellor courses required to complete the program.

Students who are no longer students of record in the Child and Youth Care Counsellor program may apply for re-admission to the program. Students may repeat courses only at the discretion and with permission of the child and youth care coordinator.

CURRICULUM

Diploma – Child and Youth Care Counsellor

Year One

CYCC 1110 – Fundamental Skills in Interviewing
 CYCC 1130 – Mental Health and Substance Abuse Issues
 CYCC 1132 – The Profession of Child and Youth Care
 CYCC 1142 – Fieldwork
 CYCC 1221 – Fundamental Skills in Counselling
 CYCC 1232 – Working with Vulnerable Children, Youth and Families
 PSYC 2235 – Life Span Development
 General Education Requirement (recommended Cluster 3 - PSYC 1105, prerequisite for PSYC 2235)
 General Education Requirement
 General Education Requirement
 General Education Requirement

Year Two

CYCC 2210 – Policies, Systems and Issues Regarding Children and Youth
 CYCC 2216 – Group Process and Counselling Theory
 CYCC 2226 – Assessment and Intervention
 CYCC 2235 – Youth Care Practice with Families
 CYCC 2241 – Practicum
 CYCC 2242 – Practicum
 PSYC 3351 – Topics in Child Development
or PSYC 3355 – Topics in Adolescence
 General Education Requirement Foundation Level Cluster 4

DIPLOMA – DISABILITY STUDIES

GENERAL INFORMATION

The Disability Studies diploma program will provide students with advanced skills and knowledge required to create an environment of emotional and social support for disabled persons in the community. As a part of a team of professionals, graduates design and implement intervention/teaching plans in residential, social, employment and recreation settings.

The first year of the program will provide students with the development of a basic conceptual understanding of the field of disability studies and the development of necessary practical skills. The second year of the program allows students to focus on areas of personal interest through assignments and practicum placements. Students are provided extensive practicum opportunities throughout the diploma program. Students will develop a strong understanding of educational psychology, relevant social policy and health and wellness issues and methods. They will also acquire a wide range of helping and support skills that enhance quality services for persons with disabilities.

DIPLOMA PROGRAM

All students entering the diploma program will be required to complete the core courses and the General Education Requirements.

UNIVERSITY TRANSFER

This program can also serve as the basis of admission into the third-year of the Bachelor of Community Rehabilitation program at the University of Calgary. Additional information is available from the Coordinator of the Disability Studies program at Mount Royal University. Refer to the *University of Calgary Calendar* for additional admission requirements.

Following completion of the Disability Studies diploma, students may continue to take courses at Mount Royal University to provide the equivalent of a third-year of credit toward the Bachelor of Community Rehabilitation degree at the University of Calgary. Students wishing to do so should contact their academic advisor following their acceptance into the Disability Studies program.

PROVINCIAL GUIDELINES

The Provincial Rehabilitation and Disability Studies college programs have agreed to broad course content areas. The agreement facilitates transfer between the first and second year for Rehabilitation and Disability Studies students among Alberta Colleges. Transfer between the first and second year for Rehabilitation and Disability Studies students among Alberta Colleges is available on a course by course basis.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – DISABILITY STUDIES DIPLOMA

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Disability Studies Diploma program:

- English Language Arts 30-1

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

FIELD WORK AND PRACTICUM REQUIREMENTS

All students will be selected for practicum on the basis of academic performance, professional suitability and availability of practicum sites. A student may be prohibited from attending or completing a practice experience if there is evidence to suggest that the student's physical and/or psychological health may be detrimental to the client care.

Note: Students will be required to present a current Criminal Record Check prior to the placement. Those students wishing to work with children and youth will be required to have an Intervention Record Check in addition to the Criminal Record Check. It is each practicum agency's decision to accept or reject a student for placement based upon the results of the criminal record and Intervention checks.

INTERNATIONAL PRACTICUM OPPORTUNITY

Students may have an opportunity to complete a practicum in an international placement during the Spring Semester.

CURRICULUM

Diploma – Disability Studies

Year One

DAST 1102 – Disabling Conditions I

DAST 1104 – Disabling Conditions II

DAST 1111 – Social History of Disability

DAST 1123 – Positive Behavioural Supports

DAST 1124 – Field Experience

DAST 1126 – Practicum I

General Education Requirement

Note: Students will be accepted into practica on the basis of academic performance, professional suitability, fitness and conduct. To be placed in Disability Studies 2224 and 2226, students must obtain a minimum Grade Point Average of 2.00 in all courses other than General Education Requirements.

For *Restrictions and Interpretations* concerning the program requirements for General Education and Elective courses, refer to the section entitled General Graduation Requirements.

DIPLOMA AND CERTIFICATE – EARLY LEARNING AND CHILD CARE

GENERAL INFORMATION

The Early Learning and Child Care (ELCC) program instructs students about child development from infancy to age twelve; providing them with the knowledge and skills to interact with young children while working in an early learning and child care setting. Courses include information about how to design, implement and evaluate developmentally appropriate play experiences and how to communicate effectively with parents and professionals about the needs of the children in their care. Completion of the Early Learning and Child Care program qualifies graduates to work in many interesting employment options such as; nursery school teachers, kindergarten aides and early childhood educators.

The Diploma includes two full years of study. Courses are offered in both face-to-face and blended formats. The Certificate program is the equivalent of a full year of course work with courses offered fully online.

Upon successful completion of one three credit course, students will be eligible as a Child Development Assistant through Alberta Day Care Staff Qualifications. Upon successful completion of the certificate program, graduates will be eligible as a Child Development Worker through Alberta Day Care Staff Qualifications. Upon successful completion of the diploma program, graduates will be eligible as a Child Development Supervisor through Alberta Day Care Staff Qualifications.

TRANSFER GUIDELINES

The Alberta Public Early Learning and Child Care programs have a transfer agreement between Alberta post secondary institutions for the first year of this program.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – EARLY LEARNING AND CHILD CARE DIPLOMA AND CERTIFICATE PROGRAMS

In addition to meeting the general admission requirements indicated in the Admissions section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Early Learning and Child Care Diploma and Certificate programs:

- English Language Arts 30-1 or English Language Arts 30-2

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Note: Students will be required to present a current Police Information Check and Intervention Record Check, prior to the fieldwork course and practicum placement. All costs related to these requirements will be the responsibility of the student.

CONTINUANCE IN THE PROGRAM

Students must have an overall Grade Point Average of 2.00 or better in core Early Learning and Child Care courses after each semester to continue in the program and all prerequisites must be met.

CURRICULUM

Diploma – Early Learning and Child Care

Year One

ELCC 1104 – Introduction to Early Learning and Child Care

ELCC 1109 – Principles of Development I

ELCC 1110 – Learning Through Play I

ELCC 1120 – Learning Through Play II

PROGRAM EXIT

Students who successfully complete the first two semesters of studies and have a Grade Point Average of at least 2.00 or higher, including the following courses, may apply for a Certificate in Early Learning and Child Care: ELCC 1104, 1109, 1110, 1120, 1180, 1209, 1213, 1282, HLTH 1213 and ENGL 0212 or ENGL 1101 or any 1100-level (or higher) English. Upon successful completion of these courses, students will be eligible for Certification through the Alberta Day Care Staff Qualifications Board as a Child Development Worker.

Certificate – Early Learning and Child Care

ELCC 1104 – Introduction to Early Learning and Child Care

ELCC 1109 – Principles of Development I

ELCC 1110 – Learning Through Play I

ELCC 1120 – Learning Through Play II

ELCC 1180 – Field Work

ELCC 1209 – Principles of Development II

ELCC 1213 – Communicating with Parents and Professionals in Early Childhood Settings

ELCC 1282 – Practicum I

HLTH 1213 – Health, Safety and Nutrition

Note: Students must complete English 0212 or 1101 to graduate.

DIPLOMA – SOCIAL WORK

GENERAL INFORMATION

Social Work is a two year program which combines knowledge and skills in social work, humanities, and behavioural sciences. The program prepares students to do social work practice with individuals, families, groups and communities. Graduates are employed in a broad range of government (public), non-profit and private agencies. Social Work diploma graduates are eligible to apply to become registered social workers in Alberta.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this calendar.

CANADIAN ABORIGINAL STUDENTS

Canadian Aboriginal students may choose to identify themselves as Aboriginal on the MRU application for admission form. The Social Work Diploma program recognizes the need to increase post-secondary educational opportunities for Aboriginal students. Each year 15% of admissions to the program will be reserved until June 1st for students who identify as Aboriginal and who meet the minimum admissions criteria.

ADDITIONAL ADMISSION REQUIREMENTS — SOCIAL WORK DIPLOMA

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Social Work Diploma program:

- English Language Arts 30-1

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

PRACTICUM REQUIREMENTS

All students will be selected for practicum on the basis of academic performance, professional suitability, volunteer community service and availability of practicum sites.

At the time of practicum, students will be required, at their own expense, to obtain a Police Information Check. It is each practicum agency's decision to accept or reject a student for placement or observation experience based upon the results of a police information or other background check. Since both completion of course requirements and eventual employment in a field of study may be dependent upon the results of such checks, students who have concerns should discuss the matter with the department chair or designate prior to applying for admission.

INTERNATIONAL PRACTICUM

Qualified students may have an opportunity to complete a second year practicum in an International setting during the Spring session.

Note: In addition to the courses required for graduation, all students will have their progress reviewed each semester by a committee comprised of faculty members of the Department of Social Work and Disability Studies. Students found to be in academic difficulty or whose professional suitability is of concern may be referred for remedial assistance, or in extreme cases, asked to withdraw from the program. The Code of Ethics of the Alberta College of Social Workers will be used as a measure of professional behaviour and suitability.

CURRICULUM

Diploma – Social Work

Year One

SLWK 1114 – Introduction to Social Work Practice

SLWK 1187 – Social Welfare Policies and Issues

SLWK 1215 – Social Work Methods

SLWK 1216 – Counselling Skills

General Education Requirement

General Education Requirement

General Education Requirement

Note: All students will be selected for practicum on the basis of academic performance, professional suitability and availability of practicum sites. A student may be prohibited from attending or completing a practicum if there is evidence to suggest that the student's physical and/or psychological health may be detrimental to client care.

To be placed in practica student's must have completed all coursework up to semester 2 for SLWK 1287 and semester 4 for SLWK 2297. Students must have their police information check approved by their practicum agency.

For *Restrictions and Interpretations* concerning the program requirements for General Education and Elective courses, refer to the section entitled *General Graduation Requirements*.

CERTIFICATE – ATHLETIC THERAPY

GENERAL INFORMATION

This program is designed to provide participants with advanced knowledge, experience and skills in the delivery of athletic therapy services. This program is accredited through the Canadian Athletic Therapists Association. The program includes theoretical, field and clinical practicum experiences that prepare practitioners for the certification exams (practical and written) for certification as a Certified Athletic Therapist (Canadian). Graduates will have completed a major portion of their clinical and field practicum required for certification. Additional clinical and field practicum may be obtained on an individual basis.

This program is taught at a post-degree level. The program intensity is such that expectations in the classroom and in practical settings are extremely high. The time commitments for this program include classroom activities for most days and late afternoon and/or evening practicum commitments.

ADMISSION REQUIREMENTS

Category 1 Applicants

Applicants for the Athletic Therapy program must possess a degree in kinesiology, physical education, human kinetics, exercise science or equivalent. Successful applicants must have completed the following courses (either as part of their degree matriculation or subsequent to the degree):

- Human Anatomy
- Human Physiology
- Exercise Physiology
- Biomechanics
- Prevention and Care of Athletic Injuries
- Strength, Conditioning and Flexibility

The following courses may not be part of the standard kinesiology, physical education, human kinetics or exercise science curriculum. Therefore, students are typically conditionally accepted (if all other requirements are met) with the condition of successful completion of the two courses below. See department for more details for each course.

- Taping and Prophylactic Support
- Emergency Medical Responder (EMR)

The following courses may not be part of the standard kinesiology, physical education, human kinetics or exercise science curriculum. Therefore, students are typically accepted into the program but unable to graduate from the certificate until they can provide proof of completion of the courses.

- Sport Psychology
- Nutrition

It is recommended that students have a course in computer usage.

For Category 1 students, preference will be given to applicants with an overall minimum Grade Point Average of 3.00 on a 4.00 point scale, including a Grade Point Average of 3.00 in Human Anatomy and in Prevention and Care of Athletic Injuries.

Additional Criteria – Category 1 Applicants

- 50 practical hours in the sport medicine field must be completed prior to entering the program (this experience must have been supervised by a Certified Athletic Therapist, a Sports Physiotherapist, a Sports Medicine Physician or a Chiropractor).
- A letter of support from the supervisor that includes a verification of the number of practical hours.
- Applicants will be required to achieve a grade of 65% on an introductory anatomy and physiology examination prior to entering the program. Once all other admission criteria have been met, the applicant will be notified regarding the procedures to complete the examination requirement.
- Applicants who meet the above criteria may be required to attend an interview and submit a resume outlining relevant volunteer and work experience. The resume may be used to assist in the selection of students after the initial criteria are met.

Category 2 Applicants

- The department has a formal agreement with the University of Calgary, the University of Regina, Trinity Western University and the University of Lethbridge for this program. Students enrolled in one of the three university partners come to Mount Royal University in the third year of their program and then return to their respective institution to complete their degree requirements. Students interested in this route should refer to each institution's academic advisor(s) and/or calendar requirements for more admission criteria information.

CURRICULUM

Advanced Certificate – Physical Education – Athletic Therapy

PHED 3301 – Musculoskeletal Assessment – Spinal

PHED 3303 – Musculoskeletal Assessment – Peripheral

PHED 3305 – Therapeutic Modalities in Athletic Therapy

PHED 3307 – Rehabilitation Techniques in Athletic Therapy

PHED 3350 – Field Practicum I

PHED 3311 – Advanced Rehabilitation Techniques in Athletic Therapy

PHED 3313 – Issues in Sports Medicine

PHED 3315 – Clinical Management and Administration in Athletic Therapy

PHED 3352 – Field Practicum II

PHED 3354 – Clinical Practicum I

PHED 3356 – Advanced Clinical and Field Practicum**

Note: Courses in Semester 2 may will be delivered in a block-placement format.

** Not a requirement for the University of Calgary Category II.

POST-BASIC CERTIFICATES

CERTIFICATE – ADVANCED STUDIES IN CRITICAL CARE NURSING

GENERAL INFORMATION

The certificate program is designed for post-basic study for registered nurses seeking to develop knowledge, skills and expertise in the areas of critical care, emergency or neuroscience nursing. The program is designed with theoretical and clinical courses that prepare practitioners to deal effectively with critically ill, emergency and neuroscience patients in rural, regional and tertiary hospitals.

The program offers two (2) levels in each of the streams (Critical Care, Emergency, and Neuroscience Nursing). Upon completion of Level 1 courses, students receive a Certificate in Advanced Studies in Critical Care Nursing. Level II courses offer students the opportunity to pursue more focused and advanced study in any of the streams. Upon completion of Level II, students receive a Certificate of Achievement in Advanced Studies in Critical Care Nursing that reflects their particular area of focus.

Students may study part-time or full-time. Students will have two years to complete Level I and a further two years to complete Level II of the program.

Theory courses are designed for distance learning incorporating a combination of print material, teleconference, video conference, video/audio tapes, electronic mail, web support, and student/instructor telephone conferences. The Neuroscience Nursing Theory course is offered online. In addition, several courses have been designed to offer the option of Internet/web/CD-ROM delivery.

Each course will require from 10 to 12 hours per week study time. Optional on-campus seminars/tutorials are offered for some courses.

Clinical practica are arranged for each student by the program faculty in critical care, neuroscience or emergency departments and other related settings to meet the student's learning needs, skill development and competence (as assessed by program faculty). Ongoing supervision and guidance are provided jointly through a preceptorship experience in conjunction with program faculty. Clinical agencies are pre-approved to meet objectives of the Advanced Critical Care Nursing program.

Students may be required to complete a police information check prior to commencing their clinical experience, depending on the institution.

All of these courses may be reported as nursing practice hours for renewal of CARNA (College and Association of Registered Nurses of Alberta) registration. Students who meet specific criteria may receive credit by prior learning assessment for the clinical course.

UNIVERSITY TRANSFER

The Advanced Studies in Critical Care Nursing Certificate is transferable to post-registered nursing baccalaureate programs at most Alberta universities. Students must meet the admission requirements for the university of their choice. Students considering transfer credit are encouraged to investigate their education plans with an academic advisor at the institution and faculty in which they are seeking to enrol, or are enrolled in.

ADMISSION REQUIREMENTS FOR THE ADVANCED STUDIES IN CRITICAL CARE NURSING – CERTIFICATE

- Graduation from a recognized post-secondary educational institution with a diploma or degree and is a Registered Nurse
- Nursing students with senior-level status in a recognized nursing program are permitted to take theory courses in the program

In addition, applicants must submit the following documents:

- The Mount Royal Application for Admission form
- The Advanced Studies in Critical Care Nursing program information form (available from the department of Advanced Specialty Health Studies)
- Final/Official transcripts from all post-secondary institutions attended
- Proof of current, active nursing registration
- To complete the clinical practicum in Alberta, students must submit a current, active permanent or temporary license with CARNA

FINANCIAL ASSISTANCE

Information regarding financial assistance is available from the College and Association of Registered Nurses of Alberta (CARNA), the Students' Finance Board, and Student Awards and Financial Aid (Mount Royal). Other possible sources of funding may include: Health Regions; Alumni Associations and Specialty Interest Groups. Scholarship information is available on the Mount Royal website.

PRIOR LEARNING ASSESSMENT AND RECOGNITION

Before making application for *Prior Learning Assessment*, students should consult with the Coordinator. Recognition for prior learning may be given to students who have clinical experience and/or national certification in specialty areas (e.g. Critical Care, Emergency or Neuroscience Nursing).

ADVANCED STUDIES IN CRITICAL CARE NURSING (ACCN)

Theory courses in the Advanced Studies in Critical Care Nursing Post-Basic Certificate program are offered on a home study basis (distance delivery) in the Fall and Winter Semesters. Some theory courses may be offered in the Spring. Clinical practice courses are organized in intensive care, neuroscience or emergency units in the Fall, Winter and Spring Semesters.

CONTINUANCE IN THE PROGRAM AND GRADUATION REQUIREMENTS

A minimum grade of "C" is required in all courses and a minimum of 18 credits for the Critical Care Nursing, Emergency Nursing and Neuroscience Nursing Streams.

A Certificate of Achievement is awarded upon successful completion of 9 additional credits in the Critical Care, Neuroscience or Emergency Nursing Streams.

CURRICULUM

Certificate – Advanced Studies in Critical Care Nursing – Critical Care Nursing Critical Care Stream

Core Requirements – Level I Credits

ACCN 5501 – Critical Care Nursing: Physiology
 ACCN 5505 – Critical Care Nursing: Pathophysiology
 ACCN 5507 – Pharmacology for the Acutely Ill
 ACCN 5531 – Critical Care and Emergency Nursing: Assessment
 ACCN 5581 – Critical Care Nursing: Clinical I

Certificate – Advanced Studies in Critical Care Nursing – Emergency Nursing Emergency Stream

Core Requirements – Level I Credits

ACCN 5531 – Critical Care and Emergency Nursing: Assessment
 ACCN 5551 – Emergency Nursing – Pathophysiology
 ACCN 5553 – Emergency Nursing Part A: Management of the Acutely Ill and Injured
 ACCN 5555 – Emergency Nursing Part B: Management of the Acutely Ill and Injured
 ACCN 5591 – Emergency Nursing – Clinical I

Certificate – Advanced Studies in Critical Care Nursing – Neuroscience Nursing Neuroscience Stream

Core Requirements – Level I Credits

ACCN 5501 – Critical Care Nursing: Physiology
 ACCN 5507 – Pharmacology for the Acutely Ill
 ACCN 5531 – Critical Care and Emergency Nursing: Assessment
 ACCN 5571 – Neuroscience Nursing Theory
 ACCN 5573 – Neuroscience Nursing Clinical

Level II – Advanced Studies in Critical Care Nursing Critical Care Emergency and Neuroscience Streams

Core Requirements – Level II

Level II ACCN students are required to take 2 theory courses and a focused clinical practicum. At least one of the theory courses must be from Mount Royal. Students determine their desired clinical focus and plan courses to facilitate learning in this area prior to the clinical experience. Students then plans clinical objectives in consultation with program faculty which meet their clinical focus. Students must have at least 3 years of experience in the clinical specialty area.

Theory Courses Credits

Courses which are considered for theory options in level II include:

ACCN 5507 – Pharmacology for the Acutely Ill
 ACCN 5513 – Advanced Trauma Care
 ACCN 5571 – Neuroscience Nursing Theory
 FORE 5505 – Forensic Studies: Victims of Violence

Other courses from Mount Royal post-basic certificates and/or external courses may be considered in consultation with the Coordinator. National certification in specialty nursing areas (e.g. Critical Care, Emergency or Neuroscience) will be considered for course credit for one of the theory options if not used in Level I for credit.

Clinical Courses Credits

Students complete 105 hours of clinical practicum in a clinical area related to their course objectives.

ACCN 5583 – Advanced Clinical II

CERTIFICATE – ADVANCED STUDIES IN MENTAL HEALTH

GENERAL INFORMATION

The Advanced Studies in Mental Health program is designed for practicing professionals such as Registered Nurses, Registered Psychiatric Nurses, and Social Workers (degree) who are seeking to enhance or develop their mental health knowledge and skills for working in areas of psychiatric/mental health practice. Such areas include acute or psychiatric emergency, a variety of community mental health agencies, corrections, home care, and long-term care.

The course content addresses changes in health care which have impacted the roles of health and human service professionals. The context of practice has broadened significantly, calling on these professionals to have increased knowledge and skills in mental health not only across community and institutional settings but across the life-span.

The program is taken on a part-time basis and learners are granted three years from initial registration to complete the certificate requirements. Computer access is a requirement for program participation.

The Advanced Studies in Mental Health is a credit-based program designed for busy professionals who can learn from their home using web technology (including participation in on-line discussions), connecting via teleconferences, e-mails, and telephone. Each course requires 9-12 hours per week of study time.

Clinical practica are arranged by the program faculty. Decisions regarding clinical practica are made based on student's learning needs, skill level and availability of clinical facilities, and current registration with their respective professional associations. Ongoing supervision and guidance are provided jointly through a preceptorship experience in conjunction with program faculty. Students may be required to submit a police information check before commencing their practica. Where applicable, students must provide evidence of current professional registration prior to the practicum.

Courses in the Advanced Studies in Mental Health program may have transfer credit to some universities. Students must meet the admission requirements for the university they select.

All courses may be reported as nursing practice hours for renewal of College and Association of Registered Nurses of Alberta (CARNA) registration and for continuing professional competency.

ADMISSION REQUIREMENTS FOR THE ADVANCED STUDIES IN MENTAL HEALTH – CERTIFICATE

- Graduation from a recognized post-secondary educational institution with a diploma or degree as a Registered Nurse, Registered Psychiatric Nurse or degree in Social Work
- Proof of current registration or eligibility to register with the appropriate licensing or regulatory body

In addition, applicants must submit the following documents:

- The Mount Royal Application for Admission form
- The Advanced Studies in Mental Health program information form (available from the department of Advanced Specialty Health Studies)
- Final/Official transcripts from all post-secondary institutions attended
- Proof of registration or eligibility to register with an appropriate licensing or regulatory body

FINANCIAL ASSISTANCE

Information regarding financial assistance is available from the College and Association of Registered Nurses of Alberta (CARNA), the Students' Finance Board, and Student Awards and Financial Aid Office at Mount Royal.

CERTIFICATE REQUIREMENTS

A minimum grade of "C" is required in all courses and a total of 18 credits are required for the completion of the Advanced Studies in Mental Health Certificate.

CURRICULUM

Certificate – Advanced Studies in Mental Health (ASMH) (Admission Suspended for Fall 2011)

Core Requirements

- ASMH 5501 – Mental Health: Theory and Assessment I
- ASMH 5503 – Mental Health: Theory and Assessment II
- ASMH 5505 – Psychopharmacology
- ASMH 5507 – Mental Health Interventions
- ASMH 5591 – Practicum: in a Focus Area

CERTIFICATE – FORENSIC STUDIES

GENERAL INFORMATION

The Forensic Studies Certificate is a general forensic studies program aimed at professionals in health, social service, science and law enforcement disciplines. It is designed to prepare students with the forensic knowledge, skills and attitudes necessary for comprehensive forensic practice. Goals of the program include: increased collaborative efforts between disciplines and agencies; promote violence prevention; enhanced recognition and treatment of victims as well as perpetrators of trauma, abuse, violence and neglect.

The Forensic Studies Certificate offers state-of-the-art credit-based training using web technology. The program is designed for maximum flexibility to meet the needs of professionals seeking to study while they continue to work without relocating, as well as to choose a customized program unique to their learning needs. Each course is offered on the web with faculty and student interaction opportunities provided without requiring specific class times. Students should allow approximately 9-12 hours of study time per week for each course. They will require computer and e-mail access.

ADMISSION REQUIREMENTS FOR THE CERTIFICATE – FORENSIC STUDIES

- A completed diploma or degree from a recognized post-secondary institution in health, allied health, social science, criminology or justice studies, or be an undergraduate student in the senior-year of study

In addition, applicants must submit the following documents:

- The Mount Royal Application for Admission form
- The Forensic Studies program information form (available from the department of Advanced Specialty Health Studies – toll free in North America 1.800.240.6891)
- Final/Official transcripts from all post-secondary institutions attended

Note: Registration is open, although students are encouraged to register early to ensure courses will be offered or spaces are available

FINANCIAL ASSISTANCE

Information regarding financial assistance is available from the Student Awards and Financial Aid Office (Mount Royal).

TRANSFER CAPABILITIES AND PRIOR LEARNING

Transfer credit may be considered for external forensic courses on approval by the department chair. No more than three external courses can be applied to the certificate. Transfer courses must have similar content and instructional hours to Forensic Studies certificate courses. Prior learning assessment may be considered for relevant experience and training opportunities in consultation with the Coordinator.

Students may request to use an external forensic course they have completed previously as an open elective toward the Forensic Studies certificate if we do not offer a comparable course. This elective would count as one of the three external courses allowed. Requests must be approved by the Program Coordinator. The course must meet the following criteria: a minimum of a three credits (48 hours instruction) from a post-secondary institution; have a forensic focus; and be relevant to the student's forensic specialty area or interest.

The courses in the Forensic Studies program are designed to be transferable to senior baccalaureate or entry Master's level programs in other universities. Students may apply at other institutions to have these courses credited toward other programs. Courses may also be considered for use as electives in other post-basic certificates and degrees at Mount Royal.

CURRICULUM

A "Certificate – Forensic Studies" will be awarded upon successful completion of a minimum of 6 of the courses (18 credits)* listed below. Professionals admitted to the Forensic program who are not nurses or physicians may take FORE 5513, although a background in anatomy and physiology is strongly recommended and/or prior completion of FORE 5505. They are not eligible, however, to take the clinical course (FORE 5515) associated with this course. All courses are Web based distance delivery. Students may take courses on a part-time or full-time basis. Students may take these courses in any order. Consultation to plan courses with the Coordinator is recommended for new students in the program.

Core Requirements

FORE 5501 – Forensic History, Risk Populations and Issues

FORE 5503 – Forensic Psychiatric and Correctional Populations

FORE 5505 – Victims of Violence

FORE 5507 – Forensic Science

FORE 5509 – Expert Witness Testimony

FORE 5511 – Crime Scene Investigation and Evidence

**FORE 5513 – Sexual Assault Examination and Intervention Theory

**FORE 5515 – Sexual Assault Examination and Intervention Practicum

Approved Option ***

* Students select courses of their choice to a minimum of 18 credits.

** Not open to undergraduate students.

*** Students must consult with an advisor to determine if a course satisfies this requirement.

All courses will be offered each year provided there are adequate registrations.

CONTINUANCE IN THE PROGRAM AND GRADUATION REQUIREMENTS

A minimum grade of "C" is required in all courses, and a minimum of 18 credits is required for the Forensic Studies Certificate.

CERTIFICATE – ADVANCED STUDIES IN PERINATAL & NEONATAL NURSING

GENERAL INFORMATION

The post-basic certificate program in Advanced Studies in Perinatal & Neonatal Nursing (ASPN) is designed for Registered Nurses and Senior nursing students wishing to develop knowledge and skills in these specialty areas. The theory and clinical courses prepare nurses to provide family-centred perinatal or neonatal care in a variety of patient care settings. Students select and maintain a focus throughout their program of study.

Students may register for either part-time or full-time status. Part-time students will be granted five years from the time of initial registration in the program to complete the requirements for the certificate.

The method of study is distance delivery. Theory courses incorporate a combination of: independent study of written material, videotape, e-mail and instructor/student telephone conferences. Some courses are supported through web/CD-ROM delivery. Each theory course requires 10 to 12 hours per week study time.

For all ASPN focus areas, students must complete at least one clinical course. All clinical courses are instructor and preceptor guided. Faculty will determine the clinical practicum placement depending on availability of clinical facilities and the student's learning needs, skill development and competence. It is imperative for the student to submit a formal request for the clinical practicum to the Coordinator by the end of September for registration in the upcoming Winter or Spring practica. Due to the scarcity and high demand for these specialty clinical areas, there is no guarantee that the placement can be secured as the student has requested. Students may be required to study in Calgary. Students completing their clinical course in Calgary will be required to show proof of a police information check prior to commencing their clinical experience. Students completing their clinical course outside of Calgary may be required to complete a police information check before commencing their clinical course.

Transfer credit agreements exist with Alberta universities. Students must meet the admission requirements for the university they select.

ADMISSION REQUIREMENTS FOR THE MATERNAL INFANT CHILD HEALTHCARE CERTIFICATE

Registered Nurses:

- Graduation from a recognized post-secondary educational institution with a diploma or degree as a Registered Nurse.
- Proof of current, active nursing registration.
- Senior nursing students enrolled in a recognized post-secondary educational institution..

In addition, applicants must submit the following documents:

- The Mount Royal Application for Admission form.
- The Maternal Infant Child Healthcare program information form (available from the department of Advanced Specialty Health Studies).
- Final/Official transcripts from all post-secondary institutions attended.
- Proof of current registration with a provincial nursing association.

CONTINUANCE IN THE PROGRAM AND GRADUATION REQUIREMENTS

A minimum grade of "C" is required in all courses and a total of 18 credits is required for the completion of the Certificate in Maternal Infant Child Healthcare.

CURRICULUM

Certificate – Advanced Studies in Perinatal and Neonatal Nursing

Focus: Neonatal Nursing

Core Requirements

ASPN 5501 – Development and Homeostasis

ASPN 5503 – Assessment

ASPN 5506 – Critical Moments I

ASPN 5508 – Critical Moments II

ASPN 5591 – Neonatal Clinical Experience

Focus: Perinatal Nursing

Core Requirements

ASPN 5501 – Development and Homeostasis

ASPN 5503 – Assessment

ASPN 5506 – Critical Moments I

ASPN 5508 – Critical Moments II

ASPN 5593 – Perinatal Nursing Clinical Experience.

Nurses with experience in their area of focus who meet specific criteria may apply for prior learning assessment and recognition. Students should consult with the Program Coordinator. University procedures related to evaluation of prior learning are identified in this calendar.

CERTIFICATE – STUDIES IN AGING (SAGE)

GENERAL INFORMATION

The certificate program is designed for post-secondary students and post diploma/degree professionals from a broad range of disciplines who are seeking to develop knowledge, skills and expertise working with or providing services for older adults. The program offers an Aging Stream and an Entrepreneurship Stream.

Some courses in this program are transferable to other universities and colleges. Most SAGE courses may be reported as nursing practice hours for renewal of College and Association of Registered Nurses of Alberta (CARNA) registration. As well, they can be accepted as proof of continuing education competency for professionals in a variety of fields.

The department has a formal agreement with the University of Regina for this program. Students enrolled in the Faculty of Kinesiology and Health Studies at the University of Regina and who have completed 60 credits are eligible to take Mount Royal's SAGE certificate program while completing their degree requirements. Students interested in this route should refer to their academic advisor(s) and/or the *University of Regina academic calendar* for admission criteria and program information.

ADMISSION REQUIREMENTS FOR STUDIES IN AGING

- Undergraduate students currently enrolled in a post-secondary institution, certificate/diploma/degree holders or by department approval.

In addition, applicants must submit the following documents:

- The Mount Royal Application for Admission form.
- The SAGE program information form (available from the website).
- Final/Official transcripts from all post-secondary institutions attended.

Note: Admission for applicants who do not meet the above requirements may be made on an individual basis. Entrance to the certificate program is based on consent of the Advanced Specialty Health Studies department and Bissett School of Business. Course-only registration by other University students is encouraged.

Studies in Aging Stream

The purpose of this stream is to prepare graduates to work effectively with older adults in a variety of health and human services areas. Students will broaden their knowledge of aging, adapt previously learned knowledge and skills and acquire new knowledge and skills for working with older adults. Aging will be examined from both personal and professional perspectives. All courses emphasize wellness and health promotion in later life. Students gain understanding of theories of aging based on biological, social and behavioural sciences. In addition to examining personal attitudes, students will reflect on societal attitudes about aging. They will assess and understand the varying needs of older individuals and develop ways to access resources. Students will become familiar with services for older adults in their geographical area. A clinical practicum provides opportunities for students to apply and integrate the program knowledge and skills. Students may complete the practicum at their place of employment.

COURSE DELIVERY

All courses are offered as independent study by distance delivery. Distance delivery mechanisms provide flexible learning opportunities to match personal life circumstances and individual learning needs. Courses are delivered using combinations of online materials, instructor-student telephone contact, teleconferences, e-mail, audiovisual materials and Internet support. Each 3 credit course requires 9-12 hours of study time per week.

Courses in this program are transferable to some universities and are recognized by the Alberta Pharmaceutical Association for continuing education credit. All courses may be reported as nursing practice hours for renewal of College and Association of Registered Nurses of Alberta (CARNA) registration.

Core Courses

SAGE 2401 – Perspectives in Aging

SAGE 3403 – Health and Aging

SAGE 3407 – Aging and Physical Health **or**

SAGE 4409 – Nursing Practice with Older Adults

SAGE 4405 – Aging and Mental Health

SAGE 4490 – Capstone Project

One of:

SAGE 3413 – Aging Families

SAGE 3415 – Sexuality and Aging

SAGE 4417 – Interdisciplinary Teamwork in Aging

SAGE 4499 – Directed Readings

Entrepreneurship Stream

This unique stream of the SAGE Certificate Program combines courses in Studies in Aging and business, and is designed to prepare graduates to build on existing careers by expanding into new growth industries such as seniors-related businesses in recreation, development and sales of seniors' products and housing, recreational properties, financial services and tourism. The stream uses a combination of courses in gerontology and business. Graduates will gain knowledge of the changing demographics, aging processes, and unique needs of the older adult population. This will be complemented by development of skills in business management and entrepreneurship. The student will have the opportunity to pursue, in more depth, a specific course in either Studies in Aging or business and entrepreneurship, based on their desired area of interest.

COURSE DELIVERY

To facilitate access to the program for adult learners, all SAGE courses are offered by distance delivery. Distance delivery strategies incorporate online materials, telephone tutoring, teleconferencing, video conferencing and web-based activities to enable the coursework to be done anytime anywhere. The Entrepreneurship courses are not online. Some of the business courses will be offered on-site during evenings, weekends, and Spring semester in addition to regular daytime offerings. Students usually take the program on a part-time basis. Students must complete 18 credits to meet the requirements of the certificate.

Core CoursesCredits

ENTR 2201 – Introduction to Entrepreneurship or

ENTR 2301 – The Entrepreneurial Experience

MGMT 2131 – Introduction to Business Administration

SAGE 2401 – Perspectives in Aging

SAGE 3401 – Health and Aging

Electives

Students select one of the following Business courses*

ACCT 2120 – Principles of Accounting

ENTR 2237 – Human Resources for Small Business

HRES 2170 – Introduction to Human Resources

MGMT 3210 – Business Communication Theory and Practice

MGMT 3230 – Business Law

MGMT 4431 – Leadership Development

MKTG 2150 – Introduction to Marketing

Students select one of the following SAGE courses:

SAGE 3407 – Aging and Physical Health

SAGE 3413 – Aging Families

SAGE 3415 – Sexuality and Aging

SAGE 4405 – Aging and Mental Health

SAGE 4417 – Interdisciplinary Teamwork in Aging

SAGE 4499 – Directed Readings

* Students may submit a request to substitute a credit course that they have completed previously for one of the recommended elective courses offered by the Bissett School of Business. Requests must be approved by the Chair, Entrepreneurship and Marketing, and the course must meet the following criteria: a minimum of a three credit course from a post-secondary institution and have a business focus.

CONTINUANCE IN THE PROGRAM AND GRADUATION REQUIREMENTS

A minimum grade of "C" is required in all courses, and a total of 18 credits are required for graduation.

FINANCIAL ASSISTANCE

Information regarding financial assistance is available from the Students' Finance Board and Student Awards and Financial Aid, Mount Royal. Other possible sources of funding include: professional associations, alumni associations, health regions and specialty interest groups.

ADULT MENTAL HEALTH CERTIFICATE OF ACHIEVEMENT FOR LICENSED PRACTICAL NURSES

GENERAL INFORMATION

INTAKE TO THIS PROGRAM HAS BEEN SUSPENDED

GERONTOLOGY CERTIFICATE OF ACHIEVEMENT FOR LICENSED PRACTICAL NURSES

GENERAL INFORMATION

INTAKE TO THIS PROGRAM HAS BEEN SUSPENDED

BRIDGE TO CANADIAN NURSING PROGRAM

GENERAL INFORMATION

The Bridge to Canadian Nursing (BCN) Program certificate of achievement program is an individualized course of study offered at Mount Royal at the Alberta South (located in Calgary, AB) and North (located in Edmonton, AB) sites. This “bridging” program is designed to prepare Internationally Educated Nurses (IENs) for the roles and expectations of Registered Nurses in the province of Alberta and make a successful transition to nursing practice in Canada. The College and Association of Registered Nurses of Alberta (CARNA) identifies Internationally Educated Nurses who are required to take specific courses in the Bridge to Canadian Nursing program. Other IENs, who are interested in the program, are also welcome to apply.

The BCN program of study addresses concepts such as professional communication skills for nurses, professional nursing in Canada, health alterations and therapeutics, health assessment, professional nursing skills, clinical reasoning skills, nursing theory, and nursing clinical practice in a medical/surgical environment to prepare nurses who have been educated outside of Canada for safe, competent nursing practice in Canadian health care settings. Optional coursework is also offered to help IENs address knowledge and practice differences in three specific areas of nursing practice: professional nursing in mental health, child health and family newborn health.

Successful completion of bridging courses support Internationally Educated Nurses to write the Canadian Registered Nursing Exam (CRNE) in preparation for registered nurse employment in Canada. Candidates completing 19 credits in the program will receive a certificate of achievement.

APPLICATION TO PROGRAM

Prospective students will complete the Mount Royal Application for Admission form, indicating on the form that they are applying for the Bridge to Canadian Nursing program.

ADMISSION REQUIREMENTS FOR THE BRIDGE TO CANADIAN NURSING PROGRAM

Applicants must meet eligibility requirements for licensure as a Registered Nurse in Alberta. Prospective Bridge to Canadian Nursing program applicants may have a letter from the College and Association of Registered Nurses of Alberta (CARNA) identifying specific required courses. Applicants must also have a sufficient level of English fluency.

The language level for entry for the BCN program is set at a benchmark level of 8 on the 12-point scale used by Canadian Language Benchmarks or a successful pass in an English Language Test accepted by Mount Royal University or CARNA.

If the applicant is admitted to the Bridge to Canadian Nursing Program based on the CELBAN assessment tool and wishes to transfer to another academic program, they will be required to complete an English Language Proficiency assessment accepted by MRU.

For detailed information about Canadian Language Benchmarks, including contact information for assessment centres, visit www.language.ca. Admission decisions for this program are made by the Bridge to Canadian Nursing Program, School of Nursing. Enrolment in this program is limited. Intakes to the program occur during the Fall and Winter semesters at Alberta South (located in Calgary, AB) and North (located in Edmonton, AB) sites.

PROGRAM DEPOSIT

All students accepted into the Bridge to Canadian Nursing program will be required to pay a non-refundable registration deposit within two weeks of notification of acceptance into the program.

TRANSFER CREDIT ASSESSMENT

This program will not offer transfer credit for coursework completed at other institutions.

DURATION OF THE PROGRAM

Program requirements for the Bridge to Canadian Nursing program must be completed in two academic years.

STUDENTS WITH DISABILITIES

When warranted, and without compromising academic and professional nursing practice standards, Mount Royal will provide reasonable accommodation for students with documented disabilities.

NURSING PRACTICE EXPERIENCE POLICIES

Students must demonstrate satisfactory clinical performance as outlined in the course syllabus. Students' nursing practice experience may be scheduled at varied hours, including days, evenings, nights and weekends. Students may be required to complete practice experiences at sites distant to their place of residence. An out-of-town practice experience may be scheduled. All travel and accommodation costs associated with practice experiences are the responsibility of the student.

Participation in classroom, clinical practice, tutorial and laboratory sessions is mandatory. A student who is unable to attend these experiences due to exceptional circumstances, and therefore, is unable to meet course objectives may apply for deferral of course work. Students are cautioned that even if a deferral is granted, required practice and/or tutorial experiences may not be immediately available and student progress through the program may be delayed as a result.

A student may be prohibited from attending or completing a clinical practice experience if there is evidence to suggest that the student's physical and/or psychological health may be detrimental to patients or patient care. Approval of the Department Chair is required for entry into the clinical course.

MASK FIT TESTING

As a prerequisite for acute care clinical practice all students must be fitted for N95 masks in accordance with Alberta Health Services policy. Mask fit testing is valid for two years unless there has been weight gain or loss greater than 4.5 kilograms, or following nasal fracture or facial scarring, in which case, refitting is required sooner. Evidence of mask fit testing is to be provided to the BCN Academic Advisor and students must have their mask size with them for practice experiences. All costs associated with this service are the responsibility of the student.

IMMUNIZATION

Proof of up-to-date immunization status is required for all professional practice courses and is the responsibility of the student. All associated costs are the responsibility of the student. Failure to maintain a current immunization status will result in immediate withdrawal from the clinical practice area.

C.P.R. CERTIFICATION

Students must provide proof of current C.P.R. Certification at the Basic Life Support for Healthcare Provider Level C on an annual basis. Evidence of certification is to be shown to the clinical instructor prior to the beginning of all clinical experiences. All associated costs are the responsibility of the student.

POLICE INFORMATION CHECK

Provincial legislation requires that new employees and volunteers in publicly funded agencies including: hospitals, seniors' lodges, group homes and nursing homes are subject to a police information check and vulnerable sector check. In some cases, agencies may require students to provide proof of a police information check prior to commencing a clinical course. Thus, students may be required to obtain more than one police information check during their program of studies. All costs related to the police information check are the responsibility of the student.

If a student is denied a clinical placement, then the student will be unable to meet course requirements and will be required to withdraw from the program. Refer to the statement regarding Police Information and Other Background Checks in the University Calendar.

INTERRUPTION OF PROGRAM

Students who interrupt their program are advised that they will be required to comply with any regulations that may have come into effect with regard to their programs and requirements. Students will be required to re-apply for admission and notify Mount Royal by **March 15** of their intention to return for the following Fall Semester or by **October 1** for the following Winter Semester. Students who are required to withdraw for academic reasons must re-apply for admission.

ACADEMIC PERFORMANCE AND PROGRESSION REQUIREMENTS

In order to be considered a student of record in the Bridge to Canadian Nursing program at Mount Royal, the student must achieve a minimum "C" grade or "EP" (Experiential Pass) in all BCN courses. Grades below a 'C' in a BCN theory course or an unsatisfactory ("EF": Experiential Fail) in a BCN clinical practice course must be cleared by repeating the course before students may progress to any further nursing courses which require the failed course as a pre-requisite. Students with two failures in the same BCN course will be withdrawn from the program and will not be eligible for re-registration unless approval is received from the Department Chair.

Students are permitted one re- registration in the same BCN course. That is, students are not allowed more than two (2) grades below the minimum pass or two (2) withdrawals in the same nursing program course, nor are they permitted one (1) withdrawal and one (1) grade below the minimum pass within the same nursing program course. Students who are unsuccessful after two registrations in the same nursing program course will be required to withdraw from the program and will not be eligible for re-admission.

PROGRAM COMPLETION REQUIREMENTS

To be eligible for the Bridge to Canadian Nursing program Certificate of Achievement, students must complete the program and achieve a cumulative grade point average of 2.00 with no grade less than "C" in each of their courses.

CURRICULUM SEQUENCE

The Bridge to Canadian Nursing (BCN) program is an individualized program of study which provides the following listed courses. Please note that attendance at Student Advising sessions (individualized or group) is strongly recommended to facilitate a smooth progression through the program.

HLTH 3101 – Professional Communication Skills for Nurses

HLTH 3103 – Professional Nursing in Canada

HLTH 3105 – Health Alterations and Therapeutics I

HLTH 3107 – Professional Nursing Health Assessment

HLTH 3109 – Health Assessment Workshop

HLTH 3211 – Health Alterations and Therapeutics II

HLTH 3217 – Professional Nursing in Family Newborn Health

HLTH 3219 – Professional Nursing in Child Health

HLTH 3221 – Professional Nursing in Mental Health

HLTH 3313 – Professional Nursing Skills

HLTH 3415 – Professional Clinical Practice

POST-BASIC CERTIFICATES

POLICE INFORMATION CHECK

Provincial legislation requires that new employees and volunteers in publicly funded agencies including: hospitals, seniors' lodges, group homes and nursing homes are subject to a police information check. In some cases, agencies may require students to provide proof of a police information check prior to commencing a clinical course. Thus, students may be required to obtain more than one police information check during their program of studies. All costs related to the police information check are the responsibility of the student.

If a student is denied a clinical placement, then the student will be unable to meet course requirements and will be required to withdraw from the program. Refer to the statement regarding *Police Information and Other Background Checks* in this calendar.

WORKERS' COMPENSATION BOARD COVERAGE

Students requiring clinical practicum placements must be aware that agencies and employers usually require Workers' Compensation Board (WCB) coverage on behalf of the student. MRU can provide WCB coverage for students attending in Alberta, BC, Ontario, PEI and possibly a few other provinces. Applicants from Saskatchewan, Manitoba, Nova Scotia, Newfoundland and the Yukon should be aware that MRU is not able to purchase WCB coverage in these provinces. It will be up to the student to make the required arrangements with the employer/agency where the practicum is to take place. For further information, please contact the Coordinator prior to application. Alternate practicum arrangements may be possible.

BACHELOR OF COMPUTER INFORMATION SYSTEMS

GENERAL INFORMATION

This program, jointly offered by the Department of Computer Science and Information Systems and the Bissett School of Business, offers a forward looking combination of computer and business courses. Throughout 8 academic semesters and up to 3 cooperative work terms, students will develop the expertise required by computing professionals.

The program has been developed by following well-recognized international curriculum standards from the Association for Computing Machinery (ACM) and the Canadian Information Processing Society (CIPS) as well as through continuous consultation with senior managers from Calgary businesses. The end result is a degree that meets the needs of business as well as the needs of graduates who must adapt to change in the future.

Employers are looking for computer professionals with a wide range of skills and abilities. Besides technical skills, employees also need solid business knowledge, the ability to work effectively in teams, a willingness to think creatively, and to communicate effectively using speech, written words, and images. This degree will prepare you for this environment through courses in computer science, business, communications, and general education.

The program concentrates on the practical application of computer systems in a business environment. Students acquire a solid foundation in programming, systems analysis and design, Internet development, hardware and networking support and in-depth knowledge of standard business practices. Students will widen their learning by extending it to the workplace during a minimum of one and up to three cooperative work terms where they will gain hands-on work experience.

In addition, by completing the approved business courses in this degree program and with proper option selection, you may qualify for a **Minor in Business**.

With this blend of abilities graduates are well suited to work in large or small companies, act as self-employed consultants, or start their own businesses. Graduates may expect to find work as programmers or junior analysts, as user and technical support specialists, as web developers, as database developers, or in one of many other IT-based jobs.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF COMPUTER INFORMATION SYSTEMS

In addition to meeting the general admission requirements indicated in the Admissions section, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Computer Information Systems program.

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure) – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

WORK EXPERIENCE

The Academic Plan of Mount Royal stresses the importance of experiential education in all academic curricula. The Bachelor of Computer Information Systems degree requires that all students complete at least one non-credit work experience term. Students can then proceed to take an optional work term, if they so wish.

COOPERATIVE WORK EXPERIENCE

We offer students enrolled in the Bachelor of Computer Information Systems (BCIS) degree program the opportunity to pursue their degree as a Co-operative Education degree.

Students who successfully complete three co-op work terms will be eligible for a notation on both their transcript and their parchment, in accordance with the guidelines of the Canadian Association for Co-operative Education (CAFCE).

For more information on the co-operative work experience program please consult the department.

CONTINUANCE IN THE PROGRAM

Students accepted into the Bachelor of Computer Information Systems degree program must comply with all University policies and regulations relating to baccalaureate degrees and continuance. Students enrolled in the Bachelor of Computer Information Systems degree program must obtain a minimum grade of "C-" in all required computer courses in the program and maintain a minimum cumulative Grade Point Average of 2.00.

CURRICULUM

ACCT 2121 – Financial Accounting Concepts

COMP 1501 – Programming I: Problem Solving using a Programming Toolkit

COMP 1502 – Programming II: Object Oriented Programming

COMP 1511 – Web I: Client Development

COMP 2503 – Programming III: Data

COMP 2521 – Database I - Data Modeling and Query Languages

COMP 2531 – Operating Systems and Computer Architecture

COMP 2541 – Systems Analysis

COMP 3512 – Web II: Web Application Development

COMP 3532 – System Administration and Maintenance

COMP 3533 – Network Infrastructure

COMP 3309 – Information Technology and Society

(General Education Requirement Level 3, Cluster 3)

COMP 4543 – Project Management and Quality Assurance

ENTR 2201 – Introduction to Entrepreneurship

HRES 2170 – Introduction to Human Resources

MATH 1505 – Puzzling Adventures in Mathematics

(General Education Requirement Level 2, Cluster 1)

MGMT 2130 – Management Principles and Practices

MGMT 3210 – Business Communication Theory and Practice

*(3) For Approved Senior Computer Science or Business Option choose from: the list of approved computer science options *(1), or Entrepreneurship 2301 – The Entrepreneurial Experience, or the list of approved senior business options *(2)

* (4) Level 2 General Education Cluster 2, 3, or 4. Students must have one Level 2 course from each cluster.

*(5) Level 3 General Education courses must be taken from at least two different clusters.

GRADUATION REQUIREMENTS

To be eligible for graduation a student must

- Satisfy the curriculum requirements for the Bachelor of Computer Information Systems
 - Attain a minimum GPA of 2.00 on all courses required for the program.
 - Attain a minimum grade of C- in all required computer courses
 - Successfully complete a minimum of three courses from General Education Cluster 4, two of which are level 2 or higher.
 - Successfully complete at least one Work Experience Term
- See General Graduation Requirements section for further requirements

BACHELOR OF SCIENCE

GENERAL INFORMATION

Mount Royal has a long and successful history of providing relevant and practical education to students in an environment that favours learning. Small class sizes, instructors who are learner centred, and facilities and services that support the University's ideals of student success and satisfaction all come together in our Bachelor of Science programming.

The Bachelor of Science is a four (4) year degree program. You may choose to explore your interests in a wide variety of science disciplines by electing the General Science major or focus your specific interests in a major in Geology; Cellular and Molecular Biology; or Health Science. All majors will allow you to pursue interesting and exciting careers in the sciences and beyond.

The program is offered over eight (8) fall and winter academic semesters. Students completing all degree requirements will be awarded a Bachelor of Science degree from Mount Royal.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF SCIENCE

In addition to meeting the general admission requirements indicated in the Admissions section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Science program:

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure) – 60%
- Chemistry 30 – 60%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified

minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

GENERAL EDUCATION

For course information visit mtroyal.ca/gened/courses. Students are encouraged to meet with an advisor before registering in a course.

RESIDENCY REQUIREMENTS

Normally, 50% of the academic work completed toward the award of a Mount Royal parchment must be completed at the University except where written approval has been given by the dean/director of the appropriate faculty/centre/school.

CONTINUANCE IN THE PROGRAM

Students accepted into the Bachelor of Science program must comply with all Mount Royal policies and regulations relating to baccalaureate degrees and continuance.

All students accepted into the Bachelor of Science will initially be enrolled in the General Science Major. At the start of the second semester students wishing to enter one of the other majors will be asked to declare their intent to do so. Declaration forms will be available online and through the departmental offices in the Faculty of Science and Technology.

Students enrolled in the Bachelor of Science degree program must obtain a minimum cumulative grade point average of 2.00. Students with a cumulative grade point average of less than 2.00 will be disqualified from the program for one year. After one year, they may reapply for admission.

All degree candidates must complete all courses in the program, General Education requirements and electives included, with a final grade of “C” or better to continue in the program, except that a maximum of two courses in total may be completed with a pass grade of less than “C”.

TRANSFER CREDIT

Transfer credit towards Mount Royal science courses will be limited to courses that have been successfully completed within seven (7) years prior to admission to this Bachelor of Science program.

ACADEMIC PERFORMANCE AND PROGRESSION REQUIREMENTS

Many courses in the Bachelor of Science require minimum prerequisite grades of “C-” or better.

For the purpose of graduation students enrolled in the Bachelor of Science may accumulate only one “D” grade in any required course (that is, any course other than General Education or elective courses) during the course of their studies and three “D” grades overall.

DURATION OF PROGRAM

Program requirements for degree completion can be completed in four (4) academic years. Students have seven (7) calendar years from the date of initial registration in the Bachelor of Science Degree to complete all requirements. Students seeking an extension beyond seven (7) years may be required to complete additional course work.

INTERRUPTION OF PROGRAM

Students who interrupt their program for more than twelve months are advised that they will be required to comply with any new regulations that may have come into effect in regard to their program and requirements. Students will be required to re-apply for admission and notify the department in which their major resides or the Office of the Dean of the Faculty of Science and Technology at Mount Royal in writing by March 15 of their intention to return for the following fall semester or by October 1 for the following winter semester.

GRADUATION REQUIREMENTS

To be eligible for graduation, students must satisfactorily complete all degree program requirements. Students must maintain an overall minimum GPA of 2.00 to be eligible for graduation.

Students are advised that they may Not use more than 16 junior level (1000 level) courses towards the completion of their degree graduation requirements.

Students completing degree requirements will be awarded a Bachelor of Science degree in their chosen major (General Science, Geology, Cellular and Molecular Biology or Health Sciences) from Mount Royal.

Note: For course descriptions refer to:

CURRICULUM

Bachelor of Science – General Science

i) During the first two years of studies, students will take two courses from each of four areas of specialization: (Biological Sciences, Physical Sciences, Mathematics and Computer Sciences, and Earth Sciences) for a total of eight core science courses in years one and two.

ii) After completing the core science requirements in (i), students will take a minimum of 16 additional science courses. These courses, referred to as Approved Science Options, must be taken from at least two of the four areas of specialization (Mathematics and Computing Sciences, Physical Sciences, Earth Sciences, and Biological Sciences).

iii) Students will also take 12 General Education courses and 4 Electives. The electives may include further science courses listed under the Areas of Specialization.

Bachelor of Science – Geology

Entry into the program

Students who are enrolled in the Bachelor of Science – General Science program can apply to transfer into the Bachelor of Science – Geology program early in the Winter semester. This is a competitive process based on overall GPA and GPA in six defined courses from Year 1 of the General Science program. An interview may be necessary. Students are informed of the decision of the Department Earth Sciences at the end of the Winter semester.

Students admitted into the Geology Major must register in the following courses in the Fall semester immediately following their acceptance into the program, in order to maintain their position in the program:

GEOL 2101 Introduction to Geologic Field Methods

GEOL 2103 Minerals and Rocks

GEOL 2105 Structural Geology

Field Schools and Field Trips

Field Schools and Field Trips are an integral part of the Geology major program. Students should note that there will be costs, in addition to tuition, to cover transportation, food and accommodation for the following Field Schools:

GEOL 2101 Introduction to Geologic Field Methods

GEOL 3101 Advanced Geologic Field Methods

Note that these courses will be held for approximately 12-14 days after the end of the Winter semester or before the start of the Fall semester.

In addition to Field Schools, individual courses may include Field Trips as part of the curriculum. These trips are typically 1-2 days in length but may be longer.

The department will make every effort to keep the additional costs to students of Field Schools and Field Trips as low as possible.

Note: Courses in *Italics* are under development

Approved Option*

*Approved 3 credit Options may include the following. Choose one Option from List A and another Option from either List A or List B.

List A:

BIOL 4209 – Neuroscience, BIOL 4212 – Biochemical Pharmacology.

List B:

BIOL 3103 Introduction to Biophysics, BIOL 4204 Evolution in Health and Disease, BIOL 4211 Applied Human Physiology, BIOL 4217 Epidemiology, MIBI 3105 Medical Microbiology.

MINOR IN BIOLOGY

In general, minors allow students to obtain recognition for achieving some level of expertise in a discipline outside of their major, and thus contribute to a broad-based education. The biology minor is based on the following general requirements: 8 to 10 courses from the department of Chemical and Biological Sciences, including a maximum of 3 courses at the 1000-level, and a minimum of 2 biology or microbiology courses at the 3000-level or higher. A minimum GPA of 2.00 is required in the courses comprising the minor. Although only one Biology minor is offered, students will need to follow an area of interest within the minor in order to obtain a minimum of 2 courses at the 3000-level or higher. This is due to the multiple prerequisite course requirements which exist for most senior-level biology courses.

Students interested in Physiology are advised to take:

BIOL 1202 – An Introduction to Cell Biology
CHEM 1201 – General Chemistry I
CHEM 1202 – General Chemistry II
BIOL 2203 – Human Anatomy
BIOL 2101 – Genetics
BIOL 2202 – Cellular and Molecular Biology
BIOL 3104 – Human Physiology I
BIOL 3205 – Human Physiology II

Students interested in Cellular/Molecular Biology are advised to take:

BIOL 1202 – An Introduction to Cell Biology
CHEM 1201 – General Chemistry I
CHEM 1202 – General Chemistry II
CHEM 2101 – Organic Chemistry I
BIOL 2101 – Genetics
BIOL 2202 – Cellular and Molecular Biology
BCEM 2201 – General Biochemistry
MIBI 2201 – Microbiology
Plus two of the following:
BIOL 3101 – Molecular Genetics
BIOL 3102 – Intermediate Cell Biology
BIOL 3203 – Genomes
MIBI 3105 – Medical Microbiology

Students interested in General Biology are advised to take:

BIOL 1202 – An Introduction to Cell Biology
BIOL 1204 – The Evolution of Eukaryotes
Plus two to four BIOL courses at the 2000-level
Plus two to four BIOL courses at the 3000-level or higher for a minimum of eight courses.

MINOR IN CHEMISTRY

The Chemistry minor is based on the following general requirements: 8 courses in Chemistry (CHEM) or Biochemistry (BCEM), including a maximum of 3 courses at the 1000-level, and a minimum of 2 courses at the 3000-level or higher. Although only one Chemistry minor is offered, students will be able to follow an area of interest within the minor in order to tailor the minor program to their interests and future plans. Some of the courses may require prerequisites outside the discipline, in particular Physics and Math courses. Please consult the Academic Calendar, the department, or the Faculty of Science Advisor for more information.

MINOR IN COMPUTER INFORMATION SYSTEMS

A Minor in Computer Information Systems provides a powerful option to students who wish to pursue a degree in a non-computer related field of study and be equipped with a significant understanding of information and computer technology as they head out into the workplace. The Minor in Computer Information Systems consists of the following: a set of four core courses and a number of conceptually linked courses ("Areas of Interest"). The student is required to take the core courses and then choose courses from one area of interest or from a combination of areas in order to attain a total of eight to ten courses of which at least two courses must be 3000 level or above.

Core Requirements

COMP 1501 – Programming I: Introduction to Problem Solving and Programming

or COMP 1001 – Introduction to Computer-Based Problem Solving for the Sciences

COMP 1502 – Programming II: Object Oriented Programming

COMP 1511 – Web I: Client Development

COMP 2521 – Database I: Data Modeling and Query Languages

Development/Web Area of Interest

COMP 2503 – Programming III: Data Structures

COMP 2541 – Systems Analysis

COMP 3512 – Web II: Web Application Development

COMP 3504 – Programming IV: Best Practices in Design and Development

COMP 3551 – GUI Development

COMP 4513 – Web III: Advanced Internet Application Development

COMP 4553 – Human Computer Interaction

COMP 4555 – Games Development

Network/Security Area of Interest

COMP 2531 – Computer Architecture and Operating Systems

COMP 3532 – Systems Administration and Maintenance

COMP 3533 – Network Infrastructure and Security

COMP 4535 – Computer Security

Analyst Area of Interest

COMP 2541 – Systems Analysis

COMP 3307 – Computing Applications in Small Business and Entrepreneurship

COMP 4543 – Project Management and Quality Assurance

COMP 4545 – Information Systems Organization

MGMT 3265 – Management Information Systems

MINOR IN GEOGRAPHY

The Geography Minor requires a minimum of 7 Geography courses

1. Three required first year courses:

GEOG 1101 – Physical Environment

GEOG 1103 – Human Environment

GEOG 1105 – Introduction to Mapping, GIS and Remote Sensing

2. One of the following:

GEOG 2107 – Weather and Climate

GEOG 2109 – Soil Characteristics and Formation

GEOG 2111 – Landform Processes and Morphology

GEOG 2553 – Geographic Information Systems

GEOG 2555 – Remote Sensing

3. One of the following:

GEOG 2225 – Regional Geography of Canada

GEOG 2230 – Regional Geography of Europe

GEOG 2333 – Economic Geography

GEOG 2337 – Political Geography

GEOG 2445 – Environmental Problems and Resource Management

4. One of the following:

GEOG 3107 – Advanced Biogeography (Prerequisite: GEOG 2107; 2109; or 2111)

GEOG 3109 – Overseas Field Study in Physical Geography

GEOG 3309 – Overseas Field Study in Human Geography

GEOG 3445 – Global Environmental Issues (Prerequisite: GEOG 2333; 2337; or 2445)

GEOG 3553 – Spatial Analysis and GIS (Prerequisite: GEOG 2553 or 2555)

5. And one other geography course from the list above or one of the following:

GEOG 1102 – World Regional Geography

GEOG 2335 – Introduction to Urban Geography

GEOG 2443 – Tourism and Recreation Geography

GEOG 2437 – Biogeography

GEOG 3129 – Advanced Physical Overseas Field School

GEOG 3329 – Advanced Human Overseas Field School

MINOR IN MATHEMATICS

The student is required to take the three core courses and then choose four courses from the approved Mathematics option in order to attain a total of seven courses of which at least two courses must be 3000 level or above.

Core Requirements

MATH 1200 – Calculus for Scientists I

MATH 1202 – Calculus for Scientists II

MATH 1203 – Linear Algebra for Scientists and Engineers

Approved Options

MATH 1271 – Discrete Mathematics

MATH 1505 – Puzzling Adventures in Mathematics

MATH 2101 – Abstract Algebra

MATH 2207 – Mathematical Methods

MATH 2301 – Calculus III

MATH 2302 – Calculus IV

MATH 2311 – Linear Algebra

MATH 2321 – Mathematical Probability

MATH 2323 – Introduction to Mathematical Statistics

MATH 3101 – Numerical Analysis

MATH 3102 – Mathematical Modeling

MATH 3301 – Differential Equations

MATH 3303 – Topics in Applied Mathematics and Data Analysis

MATH 3325 – Theory of Interest

MATH 4102 – Analysis I

MATH 4103 – Complex Numbers

MATH 4104 – Abstract Algebra II

MATH 4105 – Applied Linear Models

MINOR IN PHYSICS

The student is required to take a total of six physics courses: five core courses, and one approved option (as well as prerequisites as needed). A minimum grade of C+ must be achieved in all physics courses comprising the minor.

Core courses:

PHYS 1201 – Classical Physics I

PHYS 1202 – Classical Physics II

PHYS 2201 – Acoustics, Optics and Radiation

PHYS 2203 – Electromagnetism

PHYS 3602 – Elementary Quantum Mechanics

Approved options:

PHYS 3101 – Introduction to Biophysics

PHYS 3401 – Solid State

PHYS 3601 – Thermodynamics

GENERAL INFORMATION

Environmental performance and protection are increasingly becoming an evolving, strategic objective of industry, non-government organizations and government. In response to this movement, the environmental profession has become Canada's fastest growing and most diverse field of employment (source: ECO Canada). Mount Royal University has responded to these developments with the Applied Degree in Environmental Science program.

Our environmental science program provides graduates with the knowledge and skills to obtain employment in both the traditional and emerging sectors of environmental employment. Alberta's rapidly expanding economy, based largely on the oil and gas industry, provides many environmentally related career opportunities in areas related to environmental protection and environmental management. These employment opportunities deal with past and present issues of compliance with governmental regulations and company environmental policy. Our program also looks to the future, by exploring areas of environmental science that deal with preventing pollution and promoting the efficient and appropriate use of energy, materials and natural resources. These new approaches encourage industries to establish sustainable systems that can help protect the environment as well as improve the corporate bottom line. Environmental protection is facilitated through a variety of evolving strategies. Learning these new strategies within the program is unique, timely and important. This new environmental science paradigm provides a compass for moving industry and government towards sustainable development.

Students in our program develop a broad set of environmental skills and knowledge that allow them to play an active role in evaluating, managing, and improving the environmental and economic performance of industry. They are exposed to traditional and leading-edge environmental knowledge and techniques that allow them to make a difference in the quest for a more sustainable future. The graduate will have appropriate environmental skills and competencies, blended with a general education component. This will produce an individual with the breadth and flexibility to communicate, problem solve, think creatively, manage and adapt.

Graduates are encouraged to apply for their Certified Environmental Professional in Training (CEPIT) designation which is offered by the Canadian Environmental Certification Approvals Board (CECAB). Certification as an Engineering Technologist by the Alberta Society of Engineering Technologists (ASET) is also possible when students choose appropriate courses. With additional course work, students may be eligible for certification with the Alberta Institute of Agrologists.

The Bachelor of Applied Science – Environmental Science degree has two points of entry. Direct entry provides a comprehensive grounding in all major aspects of environmental science and industrial ecology, and will be the normal route of entry into the field. There is also an Indirect Entry option for applicants with relevant education, and/or work experience.

The Bachelor of Applied Science – Environmental Science program combines six (6) semesters of academic study and two (2) semesters of Directed Field Studies (work-terms). This applied degree program will emphasize relevant and applied learning of current and leading-edge practices in environmental science and environmental management.

OPPORTUNITIES FOR FURTHER STUDY

Applied baccalaureate degree programs offered by Mount Royal University have been designed primarily to prepare graduates for immediate employment. Nevertheless, the University is actively investigating and pursuing opportunities to have these baccalaureate credentials recognized for admission to appropriate and relevant post-graduate programs offered by Canadian Universities. Currently there are formal agreements with Royal Roads University and Montana Tech (University of Montana) that allow students in the Direct Entry Stream to study at the Masters level. Opportunities for students in the Direct Entry streams to study abroad are also available through formal international agreements.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF APPLIED SCIENCE – ENVIRONMENTAL SCIENCE DEGREE

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

The following specific courses (or equivalencies) with the specified minimum grades are required for admission into the Bachelor of Applied Science – Environmental Science program:

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure)– 60%
- Chemistry 30 – 60%
- Biology or Physics

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

DIRECTED FIELD STUDIES

Directed Field Studies (DFS) are designed to provide an experiential extension of the learning process in a relevant industry work setting. Delivered in two semesters, presently comprising 25 per cent of the curriculum for applied baccalaureate degree programs, Directed Field Studies integrate academic learning with paid work experience. Each Directed Field Studies semester has specific course objectives and outcomes. Students are responsible to complete requirements assigned by Mount Royal University which include satisfactory completion of pre-employment Professional Development sessions and Safety Courses prior to the first work placement. During the DFS students are obligated to fulfill commitments made to employers. Successful completion of each DFS work experience receives a total of 15 credits.

Given the nature of the local labour market and environmental industry, some opportunities for work experience may be located outside Calgary, across Alberta, across Canada and/or international markets. Students should be prepared to relocate and to receive intern or entry-level compensation.

Directed Field Studies are considered an academic component of the program. Therefore, students are advised to refer to other parts of the calendar including *Evaluation of Prior Learning and Fees and Deposits*.

CONTINUANCE IN THE PROGRAM

Students accepted into the Bachelor of Applied Science – Environmental Science degree program must comply with all University policies and regulations relating to applied baccalaureate degrees and continuance. Students enrolled in the Bachelor of Applied Science – Environmental Science degree program must obtain a minimum grade of “C” in all required core courses in the program and maintain a minimum cumulative Grade Point Average of 2.00.

CURRICULUM

Bachelor of Applied Science – Environmental Science – Direct Entry

CHEM 2209 – General Chemistry for Engineers
CHEM 3357 – Industrial Organic Chemistry
COMP 1209 – Computing for Applied Degrees
ECOL 2211 – Terrestrial Ecology
ECOL 2219 – Aquatic Ecology
ENGL 1101 or any other 1100-level (or higher) English
ENTR 1232 – Entrepreneurship Studies
ENVS 2201 – Introduction to Industrial Ecology
ENVS 2205 – Data Processing and Statistics.
ENVS 2211 – Health and Safety Issues in the Environment Industry
ENVS 3321 – Water Pollution and Surface Water Analysis I
ENVS 3333 – Groundwater Contamination
ENVS 3315 – Applied Instrumentation
ENVS 3323 – Watershed Management
ENVS 3335 – Issues in Environmental Assessment
ENVS 4433 – Quality Assurance/Quality Control
ENVS 4405 – Air Quality
ENVS 4413 – Principles of Eco-Industrial Development
ENVS 4431 – Management of Residuals
ENVS 4441 – Site System Remediation Design
ENVS 3303 – Life-Cycle Assessment
ENVS 4407 – Pollution Prevention: Toward Zero Emissions
ENVS 4417 – Design for the Environment
ENVS 4419 – Regulatory Management
ENVS 4423 – Market Based Initiatives
ENVS 2010 – Directed Field Studies I
ENVS 3010 – Directed Field Studies II
MATH 2285 – Calculus with Applications
MIBI 1217 – Applied Industrial Microbiology
Arts and Science Requirement
Arts and Science Requirement
Arts and Science Requirement
Arts and Science Requirement
Arts and Science Requirement
Arts and Science Requirement

Bachelor of Applied Science – Environmental Science – Indirect Entry

Open to applicants having appropriate post-secondary backgrounds and/or relevant work experience in the environmental sector. Please consult department.

ENTR 1232 – Entrepreneurship Studies

ENVS 2201 – Introduction to Industrial Ecology

ENVS 3303 – Life-Cycle Assessment

ENVS 4407 – Pollution Prevention – Toward Zero Emissions

Environmental Science Option

Environmental Science Option

Environmental Science Option.

Approved Mathematics Option*

Arts and Science Requirement

Arts and Science Requirement

ENVS 2010 – Directed Field Studies I

ENVS 3010 – Directed Field Studies II

*Approved Mathematics Options: Mathematics 1200, 2251 and 2285.

GRADUATION REQUIREMENTS

- Successful completion of a minimum of 124 credits of which 30 credits will be for work experience.
- Minimum overall Grade Point Average of 2.00 on all courses included in the program.
- Successful completion of the two (2) semesters of work experience.

See *General Graduation Requirements* section.

DIPLOMA EXIT

Students who successfully complete the first four semesters of the Bachelor or Applied Science – Environmental Science – Direct Entry (20 courses) will be awarded a Diploma in Environmental Science. To be eligible the students must have selected their four arts and science courses from four (4) different areas

CERTIFICATE PROGRAM

A related Environmental Science Certificate is also offered.

BACHELOR OF ENGINEERING (UNIVERSITY TRANSFER)

GENERAL INFORMATION

This university transfer program is designed to cover between one and two years of the common core courses of a baccalaureate degree program in engineering. The common core prepares students for many branches of engineering including chemical, civil, computer, electrical, geomatics, manufacturing, mechanical, petroleum and software engineering.

First year courses at Mount Royal University include:

- Chemistry 2209
- Engineering 1205
- Mathematics 1217
- Engineering 1261
- Engineering 1271
- Mathematics 1203
- Physics 2130
- Chemistry 2210
- Engineering 1215
- Mathematics 1219
- Engineering 1263
- Engineering 1303
- Engineering 1233
- Engineering 3349

Second year courses at Mount Royal University include:

- Engineering 3319
- Chemistry 3357
- Mathematics 1271
- Mathematics 3309
- Mathematics 3101
- Mathematics 3307
- Physics 3369
- Economics 1109
- English 2263

A list of electives and complementary study courses is available on the departmental website.

All of these courses are directly transferable to the University of Calgary and/or the University of Alberta. There is a full first-year transfer programme to both the University of Calgary and the University of Alberta. For information on transferability to universities outside of Alberta and for further information on transferability to the University of Calgary and the University of Alberta, contact the Department of Mathematics, Physics and Engineering or go to blogs.mtroyal.ca/engadvising.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF ENGINEERING UNIVERSITY TRANSFER PROGRAM

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria.

ACADEMIC COURSE REQUIREMENTS

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure) – 65%
- Mathematics 31 – 65%
- Chemistry 30 – 65%
- Physics 30 – 65%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

Minimum Overall Average Required For Admission

To be eligible for admission on the basis of High School Standing, applicants must present a minimum admission average of 65% on their five appropriate grade 12 subjects.

To be eligible for admission on the basis of Post-secondary Standing, applicants must present a minimum Grade Point Average (GPA) of 2.50 on the 8 most recently completed post-secondary courses (minimum 24 credit hours).

BACHELOR OF SCIENCE – COMPUTER SCIENCE (UNIVERSITY TRANSFER)

GENERAL INFORMATION

This program offers the first two years of the University of Calgary's Bachelor of Science degree in Computer Science and allows students to transfer between one and two years of studies to other universities. Mathematical ability is necessary for success in this program because of its emphasis on theoretical computing science and mathematics.

If you are interested in combining high school upgrading and university transfer courses, you should apply directly to the General Arts and Science program. A computer science academic advisor should be consulted regarding course selection.

Curriculum at Mount Royal University includes:

COMP 2231 – Introduction to Computer Science I
COMP 2233 – Introduction to Computer Science II
COMP 2265 – Computer Architecture and Low-Level Programming
COMP 3313 – Introduction to Computability
COMP 3325 – The Hardware/Software Interface
COMP 3331 – Information Structures I
COMP 3333 – Foundations of Software Engineering
COMP 3349 – Programming Paradigms
MATH 1200 – Calculus for Scientists I
MATH 1203 – Linear Algebra for Scientists and Engineers
MATH 1271 – Discrete Mathematics
PHIL 1179 – Introduction to Symbolic Logic
Option
Option
Option

Non-science Option

Non-science Option

Non-science Option

Non-science Option

Non-science Option

Mathematics 1211 and English 2263 are recommended options. Information on requirements at various universities can be obtained from a computer science academic advisor. A few transferable courses such as introductory courses in computer science designed for non-majors, may not be accepted towards a degree by some universities.

Students are normally permitted to repeat a course only once.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF SCIENCE – COMPUTER SCIENCE UNIVERSITY TRANSFER PROGRAM

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria.

ACADEMIC COURSE REQUIREMENTS

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure) – 65%

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

CERTIFICATE – ENVIRONMENTAL SCIENCE

GENERAL INFORMATION

This program provides a good basic training in environmental science. It is aimed at those individuals possessing on-the-job experience of an environmental nature and/or a post-secondary credential in a related field. A timetable may be able to be arranged to accommodate part-time and evening students who are employed full-time and who wish to broaden their background. Some courses may be able to be designed to allow students, in consultation with the instructor and advisor, to select specific topics to be covered during the course. These topics will be selected with the intent of making them relevant to the student's interests and needs.

Upon completion of the program, graduates with appropriate course work may be eligible to apply for certification by the Alberta Institute of Agrologists, the Alberta Society of Engineering Technologists, or the Canadian Environmental Certification Approvals Board.

ADMISSION REQUIREMENTS

- Alberta High School Diploma or 18-years-of-age by September 1 for the Fall Semester to which the applicant is applying.
- Enrolment is restricted to persons with experience in environmental management and/or related fields.
- Students interested in this program should speak with the academic advisor.

Note: Entrance to the certificate program is based on consent of the department. Students may progress at their own rate; however, it is recommended that the certificate requirements be completed within three years. Laboratory requirements will depend upon the student's background. Enrolment may be limited in the program.

NON-CERTIFICATE STUDENTS

Persons wishing to take certain courses in the program but not intending to obtain a certificate may register for those courses with the permission of the academic advisor.

CURRICULUM

This program is offered on a part-time basis and may take more than one year to complete.

Certificate – Environmental Science Courses

- ENVS 3303 – Life Cycle Assessment
- ENVS 3323 – Watershed Management
- ENVS 4405 – Air Quality
- ENVS 4407 – Pollution Prevention: Toward Zero Emissions
- ENVS 4431 – Management of Residuals
- ENVS 4433 – Quality Assurance/Quality Control
- Approved Option

BACHELOR OF EDUCATION (UNIVERSITY TRANSFER)

GENERAL INFORMATION

Mount Royal University offers you the opportunity to discover if teaching is the career for you. Education courses are designed to give you a sound understanding of teaching and learning. Education 1231, 1233, 2321 and 2371 include practical experience. In each of these courses, you will have a placement in a public, separate or private school working with students and teachers.

An education coordinator, academic advisors and counsellors are available to assist you in career counselling, course selection, information on universities and university transfer.

Sample program guides, showing first year course patterns, are available on the Academic Advising Services website under the Program Planning tab. advising.mtroyal.ca

Mount Royal students may enrol in education courses that are fully transferable as unspecified courses to the University of Calgary. Education courses transfer directly to the University of Lethbridge, where they will count as part of the core curriculum in their Bachelor of Education program. You can take up to 20 university transfer courses at Mount Royal University to transfer to a receiving institution, although some programs may have lower transfer limits. Please note that you must meet the admission requirements of the receiving institution.

The Calgary school boards require that adults working in the school possess a recently completed Police Security Clearance letter. Thus, students will be required to obtain more than one Police Security Clearance during their program of studies. All costs related to the Police Security Clearance check are the responsibility of the student. The clearance letters will be provided to the student and the student is responsible to ensure that a copy of the clearance letter is received by the Admissions Office of Mount Royal as a condition of admission to the Bachelor of Education program. The student is also required to present this clearance letter to the Calgary school when the placement begins.

Since both completion of the course requirements and eventual employment in the field of Education may be dependent upon the results of such checks, students who have concerns should discuss the matter with the Department of Education and Schooling Chair or designate prior to applying for admission. If a student is denied placement, they are then not able to meet course requirements and will be required to withdraw from the program.

Police Security Clearance checks are obtained from the police department having jurisdiction where the student normally resides. For students resident in Calgary, the appropriate agency is the Calgary Police Service (Security Clearance Unit, 316 – 7 Avenue SE Calgary, AB, T2G 4Z1, phone 403-268-2052). Outside of Calgary, students should contact their local police agency. At the time of publication, the typical cost of a clearance check for volunteers was between \$25 and \$50.

The conduct of all students registered at Mount Royal University is governed by the Code of Student Conduct. In addition, students enrolled in the Education program and courses are bound by, and shall comply with, the Alberta Teacher's Association Professional Code of Conduct. Issues of non-compliance may warrant action being taken under the Code of Student Conduct and/or in the student being required to withdraw from the Education program. Mount Royal University offers the following courses for students wishing to pursue a career in teaching or interested in finding out if it is a suitable career:

- EDUC 1209 – The Learner: Elementary Art Education I (formerly 2209)
- EDUC 1231 – The Teacher: Professional Dimensions I (formerly 2231)
- EDUC 1233 – The Teacher: Professional Dimensions II (formerly 2233)
- EDUC 2307 – The Learner: Elementary Art Education II (formerly 3307)
- EDUC 2312 – The Learner: Elementary Music Education I (formerly 3312)
- EDUC 2321 – The Learner: Education and Individual Development (formerly 3321)
- EDUC 2325 – The Community: Understanding Current and Emerging Pedagogical Technologies (formerly 3325)
- EDUC 2371 – The Learner: Language Development and Literacy (formerly EDUC 3371)
- EDUC 4321 – The Teacher: Developing a Philosophy of Education
- EDUC 4325 – The Community: The Impact of Social Issues in Education and Schooling
- EDUC 4491 – The Community: Community Involvement in the Fine Arts (formerly 3491)

Transfer Credit Note: Please check the current Alberta Transfer Guide and your academic advisor for further information.

The major and non-education option course offerings vary depending on the area of specialization you choose and/or the level of teaching (elementary or secondary).

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the *Admissions* section of this calendar.

ADDITIONAL ADMISSION REQUIREMENTS – BACHELOR OF EDUCATION UNIVERSITY TRANSFER PROGRAM

In addition to meeting the general admission requirements indicated in the *Admissions* section of this calendar, applicants must also satisfy the following criteria.

ACADEMIC COURSE REQUIREMENTS

- English Language Arts 30-1 – 60%
- Mathematics 30 (Pure or Applied) or a second Language 30

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of specified minimum grades will take place after all final/official transcripts have been received by the University. Applicants who do not meet these minimum grade requirements will be denied admission.

GENERAL EDUCATION

GENERAL EDUCATION

General Education at Mount Royal is a consciously structured pursuit of the aims of what has traditionally been known as 'liberal education'. It ensures students achieve both breadth and depth in the skills and knowledge that are relevant to the world in which they will live. Thus, General Education provides students with the opportunity to build their ability to think critically, develop their communication and mathematical skills, stimulate their capacities for creative, innovative thinking, and enrich their knowledge of the wider social, cultural, and natural worlds in which they will live and work.

General Education at Mount Royal recognizes that undergraduate education should also strive to enrich the individual's life and benefit society apart from the requirements of employment. It should, in particular, foster knowledge and a strong reflective capacity with respect to the social, cultural, and scientific matters of importance to both the individual and the communities in which they live.

General Education courses are organized into four thematic clusters:

- Cluster 1 Numeracy & Scientific Literacy
- Cluster 2 Values, Beliefs & Identity
- Cluster 3 Community & Society
- Cluster 4 Communication

Each thematic cluster has three different levels: foundation level, level two, and level three.

In total, students registered in baccalaureate programs at Mount Royal are normally required to take 12 General Education courses as part of their degree. Normally, the sequence within a baccalaureate degree is as follows:

- **Foundation Level (4 courses)**

Choose one course from each cluster.

Within first 10 courses: Numeracy & Scientific Literacy (Cluster 1)

Communication (Cluster 4)

Within first 20 courses: Values, Beliefs & Identity (Cluster 2)

Community & Society (Cluster 3)

- **Second Level (4 courses)**

Choose one course from each cluster.

- **Third Level (4 courses)**

Choose courses from at least two clusters.

Transfer Credit

Transfer credit is available for students with prior university-transferable post-secondary coursework.

General Education Courses

There is a wide variety of courses that will satisfy the requirements for General Education. Full descriptions of these courses are listed in the course description section of the calendar or on-line at mtroyal.ca/gened/courses

	Numeracy & Scientific Literacy 	Values, Beliefs and Identify 	Community and Society 	Communication 
Foundation Level Study Take four courses – one from each thematic cluster	<i>Take one of:</i> GNED 1101 GNED 1102 Normally taken within first 10 courses	<i>Take one of:</i> GNED 1201 GNED 1202 GNED 1203 Normally taken within first 20 courses	<i>Take one of:</i> GNED 1301 GNED 1304 Normally taken within first 20 courses	<i>Take one of:</i> GNED 1401 GNED 1402 GNED 1403 Normally taken within first 10 courses

Students normally take a total of 12 approved General Education courses. *Inventory of approved General Education options: mtroyal.ca/gened/courses				

ACADEMIC DEVELOPMENT CENTRE

MISSION/CORE PURPOSE

The Academic Development Centre (ADC) is committed to fostering teaching excellence and innovation in support of learning.

Faculty and staff of the ADC offer professional development services, initiatives, and programs to the Mount Royal community supporting: classroom and online teaching, the use of learning technologies for faculty and students, curriculum development and principles of assessment, scholarship of teaching and learning, web-based instructional design, media production, and audio/video conferencing.

INSTITUTE FOR SCHOLARSHIP OF TEACHING AND LEARNING

The Institute for Scholarship of Teaching and Learning builds on Mount Royal's long-standing commitment to academic excellence by encouraging and facilitating scholarly inquiry related to teaching and learning. The activities of the Institute are intended to increase our understanding of student learning; inform and enhance teaching practice; encourage collaborative and interdisciplinary scholarship related to teaching and learning; and contribute to the knowledge base around teaching-learning practices in higher education.

**ADMISSION SUSPENDED.

GENERAL INFORMATION – BACHELOR OF ARTS – ATHABASCA UNIVERSITY AT MOUNT ROYAL UNIVERSITY (WITH A MAJOR IN ENGLISH, HISTORY, OR PSYCHOLOGY)

Athabasca University is Canada's leading distance-education university. Unlike traditional campus-based universities, most of Athabasca University's students are home-based, taking courses where and when it suits them, rather than at set times in a classroom. Since its inception in the early '70's, Athabasca University has gained an international reputation for expertise in the field of distance learning, providing students with a variety of traditional and non-traditional methods to obtain their degrees. The Bachelor of Arts with Mount Royal University gives students an opportunity to take advantage of the traditional strengths of Athabasca University while also having access to the student-centered teaching that is a hallmark of a Mount Royal University education.

Students graduate with a Bachelor of Arts from Athabasca University (with a major in English, History or Psychology). They must take a total of 40 courses to graduate. Of those courses, 30 will be Mount Royal University courses and 10 will be Athabasca University courses. Except in unusual circumstances, courses (whether Mount Royal University or Athabasca University courses) will be offered on-site at Mount Royal University. Course numbers beginning with an "A" designate Athabasca University courses taught at Mount Royal University (e.g. ENGL A344).

For some courses, prerequisites may vary depending on whether the course is taught on-site at Mount Royal University or through Athabasca University distance delivery.

GENERAL INFORMATION – BACHELOR OF NURSING – ATHABASCA UNIVERSITY AT MOUNT ROYAL UNIVERSITY – DEGREE

The Bachelor of Nursing – Athabasca University (AU) at Mount Royal University (MRU) Program is a four year integrated degree program. The curriculum is offered on-site at Mount Royal University; select courses are also offered through distance delivery.

This partnership offers students the opportunity to take advantage of the traditional strengths of distance education through Athabasca University while also having access to the intimate, student-centred teaching that is a hallmark of a Mount Royal University education. The broad range of courses offered by these educational institutions will support students in the pursuit of their nursing career goals.

This degree program prepares students for professional careers as registered nurses in a variety of settings. Students will benefit from the program's flexibility, accessibility, accelerated program of study, strong emphasis on practice preparation and specialization opportunities.

The program is offered over four (4) Fall/Winter Semesters with optional Spring Semesters. Most courses will be offered in both Fall and Winter Semesters to facilitate an accelerated program of study. Students completing all degree requirements will be awarded a Bachelor of Nursing (BN) degree by Athabasca University. An optional diploma exit is available. Students selecting this route will be awarded a diploma in Nursing by Mount Royal University. Students completing all degree requirements will be awarded a Bachelor of Nursing (BN) degree by Athabasca University.

Note: The College and Association of Registered Nurses of Alberta (CARNNA) requires the baccalaureate degree in nursing as the minimal education requirement for entry to the practice of nursing by January 1, 2010. Students accepted into the BN: AU at MRU degree program prior to fall 2006 and considering the diploma-exit option, are advised that all diploma-exit requirements must be completed by the timing of the final sitting of the Canadian Nurse Registration Exam (CRNE) during the year 2009. When considering the diploma exit option, students are advised to be aware of each province's requirements for licensure as a registered nurse.

ABORIGINAL EDUCATION PROGRAM

PROGRAMS OFFERED

University College Entrance Preparation

FACULTY INFORMATION

Director, Iniskim Centre

L. Gauthier: 403.440.5668

Aboriginal Education Program, Administrator

K. Paul: 403.440.6020

GENERAL INFORMATION

The Aboriginal Education Program at Mount Royal is a University College Entrance Program (UCEP) offering advanced upgrading for students of Aboriginal ancestry who wish to pursue a college or university education.

The program offers three levels of study, designed to ensure each student achieves the requirements for future educational goals, with concentration in English and math. The core subjects are supplemented with study skills, computer, language, and Native Studies courses. The program is supported by the Iniskim Centre programs including Aboriginal Housing Program, Elders/Medicine Trail (Naato'ohsokoy) Program and academic advising.

The inclusion of Aboriginal cultural content and support services is an integral part of the Aboriginal Education College Preparation Program.

GENERAL ADMISSION REQUIREMENTS

Acceptance into the program is based on attendance at an information session, the completion of an AEP application and admittance is dependant on the number of seats available for new students. All students must:

- Be of Aboriginal ancestry.
- Be a minimum age of twenty or possess the equivalent of an Alberta High School Diploma.
- Have successfully completed grade 10 or better.
- Submit an MRU application form indicating AEP with a letter of intent (an interview may also be required).
- Successfully complete a placement test.

- Submit all transcripts from upgrading and/or secondary institutions.

All criteria must be met for an application to be considered. Please note that enrolment in this program is limited and final admission is based on the criteria as well as available seats.

ACADEMIC COURSE REQUIREMENTS

- Complete one semester of placement leveled English and math.
- Student must have met academic requirements to continue on in their program of choice.
- Students who are accepted into the Aboriginal Education Program are placed in one of the three levels according to the performance on the placement test, as well as the information contained on their transcripts. Specific attention will be placed on the subject areas related to English and math. Once a student has been placed into one of the three levels, the student will be registered in the courses specified by the program curriculum.

CONTINUANCE IN THE PROGRAM

Students must have an overall grade point average of 2.0 or better and must be in good standing and comply with general University standards. If you are a continuing student you must meet the above requirements and complete a performance review once an academic year.

FINANCIAL ASSISTANCE

You are responsible for seeking out and maintaining funding. However, after your funding is secured the Aboriginal Education Program works closely with your funding agent. Other resource information regarding funding and scholarships is also available from the Student Awards and Financial Aid Centre on campus. The following is a list of possible funding sources for students:

- Individual First Nations communities
- Government agencies
- Various urban agencies

CURRICULUM

Aboriginal Education Program

Level 1

1. ENGL 0115
2. MATH 0115A (equivalent to Math 10)
3. COMP 0110
4. PREP 0109
5. SCIE 0110

Level 2

1. ENGL 0130/0212
2. MATH 0115B (equivalent to Math 20)
3. NTST 0130
4. SPCH 1115/2005

Options:

- BIOL 0115
- CHEM 0115
- BKFT 0130
- CREE 0130

Level 3

1. ENGL 0212/1101/1131
2. MATH 0130
3. PSYC 1101 + 1102
4. Arts/Science credit classes

Options:

- BIOL 0130
- CHEM 0130
- BKFT 0130
- CREE 0130

UNIVERSITY ENTRANCE

GENERAL INFORMATION

The University Entrance option is designed for students who have applied to, or intend to apply to, one of Mount Royal's baccalaureate degree programs but may lack specific admission requirements or do not meet the competitive admission average for the program. Students in the university entrance option will register primarily in post-secondary courses but are permitted to enroll in high-school equivalency courses in order to meet admission requirements of their intended degree program. Admission to the University Entrance option does not guarantee subsequent admission to a Mount Royal degree program.

The University Entrance option provides learning opportunities for students who wish to:

- participate in post-secondary education, and plan to pursue a university degree but may lack the specific admission requirements
- enhance their admissibility for a Mount Royal degree program through completion of post-secondary coursework and/or high-school equivalency courses
- take courses that are required for the completion of a Mount Royal degree while improving their admissibility for degree-level study

Students can complete a maximum of 30 credits (normally ten courses) as a University Entrance student. (This 30 credit limit includes any courses which the student may take as an Open Studies student.) Students are strongly encouraged to consult with an academic advisor before they reach this credit limit to ensure they are taking the appropriate courses. Students who reach this limit and who have not been admitted into a Mount Royal program will not be permitted to register in additional courses and may not apply to Open Studies. There is no appeal process to extend this limit.

University Entrance students who wish to upgrade their high school courses may enroll in various credit-free high school equivalency courses offered at Mount Royal. While these courses are not eligible for Alberta Education graduation credits or high school transcript purposes, they are accepted as alternative entrance requirements for undergraduate programs offered by Mount Royal and other Alberta universities.

GENERAL ADMISSION REQUIREMENTS

All students must meet the general admission requirements for Mount Royal University programs, as indicated in the Admissions section of this Calendar except where the information contained in this section differs.

ADDITIONAL ADMISSION REQUIREMENTS – UNIVERSITY ENTRANCE OPTION

In addition to meeting the general admission requirements indicated in the Admissions section of this calendar, applicants must also satisfy the following criteria:

Academic Course Requirements

Admission to the University Entrance option is competitive. The grade 12 subjects which may be presented for evaluation for admissibility include the following courses from Group A, B, and C. To allow applicants who are missing a specific course requirement or require a higher grade in a specific course an opportunity to upgrade their course(s), specific subjects such as English, mathematics, etc. are not required for admission to UE.

High School Standing

- Group A course
- Group A course
- Group A course
- Group A or B course
- Group A, B, or C course

Mature Standing

- Group A course
- Group A course

Although Conditional Admission may be granted in advance of receipt of final/official transcripts, confirmation of the achievement of the course requirements above will take place after all final/official transcripts have been received by the University. Applicants who do not meet these requirements will be denied admission.

Post-secondary Standing

Applicants who have completed four (or more) post-secondary courses by December 31 for the Fall Semester or August 31 for the Winter Semester are not eligible for the University Entrance option. Therefore, there is no post-secondary admission route available. All applicants will be considered on the basis of high school or mature standing above.

CURRICULUM

The four required courses consist of the following:

General Education Foundation Course – Cluster 1

General Education Foundation Course – Cluster 2

General Education Foundation Course – Cluster 3

General Education Foundation Course – Cluster 4

The following course is strongly recommended:

UGST 1001 – Effective Learning in the Undergraduate Context

The remaining five courses are of the student's choosing. Please consult the appropriate section of this calendar for course requirements of various Mount Royal degree programs, and/or Academic Advising Services: advising.mtroyal.ca.

ADMISSION TO A MOUNT ROYAL DEGREE PROGRAM FOLLOWING STUDY IN THE UNIVERSITY ENTRANCE OPTION

Admission to the University Entrance option does not guarantee subsequent admission to a Mount Royal degree program. However, University Entrance students who meet the competitive admission average/GPA of the previous year for their intended program, and who meet all other general and program-specific requirements of the program, will be offered admission to the program. Such students must apply for admission to their intended program during the early admission period.

OPEN STUDIES

GENERAL INFORMATION – OPEN STUDIES

Open Studies provides a highly flexible opportunity for students to explore their educational options at Mount Royal. Open Studies is designed for students who would like to combine different types of study and/or for students who may be undecided about their post-secondary goals. Students may complete a maximum of thirty credits (normally ten courses) at the credit level or choose to combine post-secondary credit classes with upgrading. Open Studies provides full- or part-time learning opportunities for students who:

- wish to participate in post-secondary education but do not wish to enter a specific program of study at this time;
- would like to sample courses in order to determine what program of study to pursue;
- wish to take courses for professional development or personal interest;
- need to pick up a course(s) to meet the admission requirements for their intended program of interest; or
- may have missed an admission deadline for a specific program.

NOTE: Students can complete a maximum of 30 credits (normally ten courses) as an Open Studies and/or University Entrance student. Students who reach this limit and who have not been admitted into a Mount Royal program will not be permitted to register in additional courses. There is no appeal process to extend this limit. Students are strongly encouraged to consult with an advisor before they reach the limit.

ADMISSION REQUIREMENTS

Open Studies applicants are not required to meet the General Admission Requirements for Mount Royal programs. Open Studies does not have specific course-based admission criteria, thereby providing students with an opportunity to upgrade and prepare for further post-secondary studies.

Applicants are required to provide the appropriate official documentation to meet the English Language Proficiency Requirement if their mother tongue (first language spoken as a child) is not English (see English Language Proficiency Requirement).

Although applicants are not required to provide high school or post-secondary transcripts for admission, it is necessary to provide transcripts to show evidence of successful completion of prerequisite subjects and if you wish to be considered for scholarships or bursaries at Mount Royal. It is also helpful to have official transcripts for review when working with an academic advisor to select the appropriate courses to meet future goals.

Note that Open Studies students who choose to apply to a program at Mount Royal in the future will be required to provide all final/official transcripts which have not previously been provided.

Open Studies students:

- may take upgrading courses alone or in combination with university-level courses,
- are allowed to earn a maximum of 30 credits (typically 10-three credit courses) in Open Studies and/or the University Entrance Option,
- are not eligible to receive a Letter of Permission to take a course or courses from other institutions,
- do not have access to restricted courses (i.e., those reserved for program students).

Students who wish to upgrade their high school courses may enroll in various credit-free high school equivalency courses offered at Mount Royal. While these courses are not eligible for Alberta Education graduation credits or transcript purposes, they are accepted as alternative entrance requirements for undergraduate programs offered by Mount Royal and other Alberta universities.

Open Studies students often will take courses that lead towards program requirements for a Mount Royal University program. Please consult the appropriate section in this calendar for course requirements for Mount Royal programs on the Academic Advising Services webpage:

advising.mtroyal.ca.

MOUNT ROYAL UNIVERSITY COURSES

How To Interpret A Course

SAGE 4405 – Aging and Mental Health

(3 credits – TG) Distance Delivery

This is an overview of current concepts in mental health in relation to older adults. Common mental health concerns of the older adult are presented and approaches to assessment and treatment are addressed, with an emphasis on cognitive and behavioural strategies.

Pre or Corequisite: Studies in Aging 4401 and 4403 or consent of the department.

Credit Value and Transfer Guide Designator

Credit weight reflects student workload rather than classroom contact hours. Normally, students are expected to devote nine to twelve (9 – 12) hours of academic time and effort per week for a three (3) credit course. Academic time and effort includes class time (e.g., lectures, labs, studios, tutorials, etc.) as well as any experiential or blended components. In addition, all independent study (e.g., assignments, readings, preparation, study, etc.) is included. Courses are normally valued as three (3) credits or multiples of three credits. A specific number of credits is required to complete each diploma or certificate program the University offers.

Courses with a TG listed beside the credits are courses that are accepted under certain conditions for transfer to some or all of the Alberta universities. Students may receive full or partial credit for these courses. For further information, consult the Alberta Transfer Guide, which is available at the Office of the Registrar.

Subject Abbreviation

The full name for a subject abbreviation is shown at the beginning of the particular subject group.

Course Description

This is a brief description of the topics to be covered in the course. A more detailed description, called a Course Outline or Syllabus, is available through the department offering the course.

Course Numbers (pre-Fall 2008)

0100-0999 Credit-Free Preparatory Courses do not carry any credit value and cannot be counted towards a degree, diploma, certificate or Grade Point Average. Special credit-free fees may apply.

1100-1199 Introductory college courses

1200-1299 Advanced college courses requiring previous college-level work.

1300-1399 Senior college courses requiring advanced college-level work.

2000-2999 Junior-level undergraduate courses offered at Mount Royal University.

3000-4999 Senior-level undergraduate courses offered at Mount Royal University.

eCampusAlberta

One or more sections of certain courses are available online through the eCampusAlberta option. The eCampusAlberta logo will appear on specific courses. See the eCampusAlberta website for registration information and other details: <http://www.ecampusalberta.ca> A technology support fee will be charged for course sections offered through eCampusAlberta.

Note: The following course numbering scheme will be adopted over the next academic year and is not represented in all programs.

GNED 1101 – Scientific and Mathematical Literacy for the Modern World

(3 credits) 3 hours lecture

Students will expand their understanding of the intersections of mathematics, science and technology with daily life. The course will develop and apply critical thinking and scientific reasoning skills through the examination of issues drawn from the real world and current events.

Course Numbers (Fall 2008 onward)

Academic Upgrading.0110, 0115, 0120, 0130, 0131

Pre-degree courses0200 – 0299

Level 1 (junior).1000 – 1999

Level 2 (senior)2000 – 2999

Level 3 (senior)3000 – 3999

Level 4 (senior)4000 – 4999

Honours, capstone or post-basic courses (senior)5000 – 5999

General Education (GNED)

Courses identified with the 'G' icon satisfy requirements for the General Education program. See program/academic advisor for details.

Hours and Type of Instruction

Unless otherwise stated, the number of hours indicates hours of instruction each week. Courses normally run 13 weeks (excluding the examination time) each Fall and Winter Semester and 6.5 or 13 weeks during Spring Semester including examinations. Therefore, this sample course involves a total of 71.5 hours of instruction. Instruction at Mount Royal University is made up of lectures, tutorials, laboratory sessions, seminars and guided independent study. Any course may use one or all of these different methods of instruction.

Prerequisites, Corequisites, and Recommended Preparation

Prerequisites must be completed before registering in the class. Corequisites must be taken at the same time as other particular courses. Recommended preparation should be completed before taking certain courses. Other special notes about extra fees, special restrictions, etc., are usually noted after the course description.

Blended Delivery

Courses in which a portion of scheduled class/lab time is replaced by technology-mediated teaching-learning activities using the Internet or CD-ROM.

Course Letters

Courses beginning with an "A" designate Athabasca University sections of courses taught at Mount Royal University (e.g. ENGL A344).

ACCOUNTING (ACCT)

ACCT 2010 – Directed Field Studies I

(15 credits)

This Directed Field Studies course requires students to work for an employer in an accounting position. The employer and position must be approved by the work experience coordinator. The work term will normally be completed over a four-month period. Any deviation from this pattern must be approved in advance by the work experience coordinator and the faculty advisor. Under no circumstances will a work-term consist of less than 450 hours of work. Students will typically be employed in either a public accounting firm, in government, or in industry. Students are also required to complete a series of research projects to relate practical experience to their academic studies.

Prerequisites: Accounting 4222, 3228, 4225, 4280, and Management 3210 with a minimum grade of "C+" or higher; and successful completion of the work experience Professional Development Seminars.

ACCT 2110 – The Language of Business: Accounting Made Easy

(3 credits) 1 hour lecture, 2 hours lab

This course is designed for non-accounting people who need to know basic accounting concepts in order to more fully understand their contribution to improved productivity, profitability, and wealth creation, for both their employer and themselves. It takes the student beyond statements and spreadsheets to learn a logic and a language that is specific to the world of business, and will help them converse confidently within an accounting environment. It provides a solid foundation in accounting literacy so that successful students can better control the money side of their personal and business lives.

ACCT 2120 – Principles of Accounting

(3 credits – TG) 4 hours lecture, 1 hour lab

This course provides an introduction to basic accounting principles and practices. Topics include journals; ledgers; financial statements; merchandise accounting; internal control procedures, cash, accounts receivable, current liabilities, inventories, plant and equipment. This course introduces students to the use of accounting data as a management tool.

Note: Business students should take Accounting 2121. Credit will not be granted for both Accounting 2120 and 2121.

ACCT 2121 – Financial Accounting Concepts

(3 credits – TG) 4 hours lecture, 1 hour lab

This course provides an introduction to accounting principles. Topics include fundamental concepts such as accounting principles, assumptions, constraints, and the preparation and the reporting of financial information to investors, managers, and others. Emphasis is on financial statement analysis and the use of accounting information for decision-making. Specific accounting issues and choices for assets and liabilities are also covered.

Note: Students enrolled in the Bachelor of Applied Business Administration – Accounting program should take Accounting 2120. Credit will not be granted for both Accounting 2120 and Accounting 2121.

ACCT 2221 – Financial Management for Non-Financial Managers

(3 credits – TG) 2 hours lecture, 1 hour tutorial

In order to perform in today's complex business environment, people must be able to anticipate and assess the financial consequences of business decisions. Students will learn about analysis and integration of financial statements, capital budgeting and proposal evaluation, financial planning and cash flows, and relevant cost decision-making. Students will also be introduced to the sources and forms of financing, the management of capital structure and management of working capital.

Prerequisite: Accounting 2120 or 2121.

ACCT 3010 – Directed Field Studies II

(15 credits)

This Directed Field Studies course requires students to work for an employer in an accounting position. The employer and position must be approved by the work experience coordinator. The work term will normally be completed over a four-month period. Any deviation from this pattern must be approved in advance by the work experience coordinator and the faculty advisor. Under no circumstances will a work-term consist of less than 450 hours of work. Students will typically be employed in either a public accounting firm, in government or in industry. Students are also required to complete a series of research projects to relate practical experience to their academic studies.

Prerequisites: Accounting 2010 and successful completion of the work experience Professional Development Seminars.

ACCT 3220 – Financial Accounting Practices

(3 credits – TG) 4 hours lecture

This course builds on the concepts and skills learned in introductory accounting and prepares the student for the more conceptual approach required for Intermediate Accounting. Students learn to apply the accounting conceptual framework, and further develop skills for recording transactions and events by covering revenue recognition, long-term liabilities, partnership accounting, shareholders' equity, investments and the cash flow statement.

Prerequisite: Accounting 2120 or 2121.

ACCT 3221 – Intermediate Accounting I

(3 credits – TG) 4 hours lecture

This course examines issues and problems related to GAAP including income determination, revenue recognition and matching and measurement and accounting for assets.

Prerequisite: Accounting 3220 or 3220.

ACCT 3223 – Computerized Accounting

(3 credits) 4 hours lecture

An intensive, hands on analysis of AccPac Plus for Windows. This course is intended for accounting majors. The general ledger, accounts receivable and accounts payable modules will be covered in detail. Formatting of financial statements is an integral part of this course. A key component of this course is the conversion of a fictitious company's manual accounting system to a computerized format using AccPac Plus for Windows.

Prerequisite: Accounting 3220 or 3220.

ACCT 3224 – Management Accounting I

(3 credits – TG) 4 hours lecture

This course provides an introduction to the nature, scope and use of managerial accounting. Topics include: management planning and control, inventory and cost flows, job order costing, standard costs and variance analysis, budgeting, breakeven analysis, relevant costs and decision making.

Prerequisite: Accounting 2120 or 2121.

ACCT 3226 – Petroleum Accounting

(3 credits – TG) 3 hours lecture

Students are given an introduction to the accounting principles and practices associated with oil and gas exploration and development in Alberta, as well as a study of the impact of income tax on the industry.

Recommended Preparation: Accounting 2120 or equivalent, and Geology 1151.

ACCT 3228 – Management Accounting II

(3 credits) 3 hours lecture

In this course, students will learn alternative costing methods and additional analytical tools used by management accountants to provide information and recommendations relevant to short-term and long-term decision-making. This includes incorporating the time-value-of-money concept into cost analyses. On completion of this course, students will have developed an awareness of current issues and ethical dilemmas affecting the role of the management accountant.

Prerequisite: Accounting 3224.

ACCT 3320 – Accounting Applications

(3 credits) 3 hours lecture, 1 hour tutorial

This course provides students with skills, which are critical to managing a business. The student who successfully completes this course will have a general knowledge of partnership and corporate accounting. In addition, the student will be exposed to cash flow analysis as an analytical tool, working capital management, selected personal and corporate taxation issues, and the construction of the appropriate systems to ensure internal accounting controls are in place. Students learn to maintain computerized accounting records, prepare computerized personal tax returns and file GST returns and payroll submissions.

Prerequisite: Accounting 2120 or 2121 with a minimum grade of C or higher.

ACCT 4222 – Intermediate Accounting II

(3 credits – TG) 4 hours lecture

This course provides an in-depth analysis of accounting theory and principles encountered in connection with reporting liabilities and equity and their related effects on income statements. Topics include short- and long-term liabilities (including bonds), leases, pensions, corporate income taxes, shareholders' equity, complex financial instruments, earning per share, the cash flow statement and accounting changes and error analysis.

Prerequisite: Accounting 3221.

ACCT 4225 – Principles of Auditing

(3 credits – TG) 3 hours lecture

This course examines the role of the internal or external auditor in business and explores the legal and ethical environment of auditing. Emphasis is placed on methods and procedures used in auditing and reporting as they relate to specific financial statement areas such as assets, liabilities, equities, revenues, and expenses. Other topics covered include internal control, risk and materiality, the audit of fraud, and auditing in a computer environment.

Prerequisite: Accounting 3221.

ACCT 4280 – Introduction to Personal and Corporate Income Tax

(3 credits – TG) 4 hours lecture

This course covers Canadian income tax laws affecting corporations, proprietors, partnerships and salaried employees. Topics include the computation of income tax, taxable income, taxes payable, corporate distributions, taxation of capital gains, problem solving, and the preparation of corporate and personal tax returns.

Prerequisite: Accounting 3220 or 3320.

ACCT 4323 – Advanced Computerized Accounting

(3 credits) 4 hours lecture

This course is a continuation of Accounting 3223 for accounting majors; more advanced accounting transactions will be covered. Additional modules such as accounts receivable, accounts payable, and payroll will be introduced. Formatting of financial statements will be covered as well as the preparation of other accounting schedules.

Prerequisites: Accounting 3223 and 4222.

ACCT 4381 – Advanced Financial Accounting

(3 credits – TG) 4 hours lecture

This is an advanced course in financial accounting, which covers the following areas: intercompany investments, partnerships and joint ventures, foreign currency transactions, and financial reporting.

Prerequisite: Accounting 4222.

ACCT 4382 – Advanced Managerial Accounting

(3 credits – TG) 4 hours lecture

This course builds on the concepts introduced in Managerial Accounting I and II, and introduces advanced management accounting practices aimed at helping managers to formulate and implement new strategies, to motivate and evaluate organizational performance, and to achieve operational excellence. It covers current management accounting practices being adopted by companies within a variety of business environments. These practices include the theory of constraints, activity-based management, cost-based decision-making, the balanced scorecard and EVA.

Prerequisite: Accounting 3228 and 4222.

ACCT 4403 – Accounting Theory

(3 credits) 3 hours lecture

In this course, students will be provided with an overview of contemporary accounting theory and research, and they will explore how these theories and research are applied in the development and practice of the accounting profession. Emerging, thought-provoking issues in the field of accounting will also be covered.

Prerequisite: Accounting 4222.

ACCT 5383 – Management Processes and Problems

(3 credits) 4 hours lecture

This is a comprehensive course in management case analysis which covers the following topics: marketing, operations management, personnel management, performance measurement, planning and control, strategic planning, programming budgets, controllership, revenue, expense profit and investment centres, service organizations, non-profit organizations and the planning process.

Pre or Co-requisites: Accounting 4381 and 4382.

ADVANCED STUDIES IN CRITICAL CARE NURSING (ACCN)

ACCN 5501 – Critical Care Nursing: Physiology

(3 credits – TG) Distance Delivery

In-depth study of principles of physiology pertinent to critical care nursing, such as cell membrane physiology, work of breathing and determinants of cardiac output. This course focuses on cellular physiology followed by physiology of five systems: pulmonary, neurologic, cardiovascular, renal and defence.

ACCN 5505 – Critical Care Nursing: Pathophysiology

(3 credits – TG) Distance Delivery

Principles of physiology, first addressed in Advanced Studies in Critical Care Nursing 5501 are applied to critical illness. Emphasis is placed on breathing, circulation, neurologic renal and body defence of the critically ill to illustrate organ dysfunction and illness experiences. Therapeutics for each of the five systems are discussed including mechanical ventilation and pharmacotherapy.

Pre or Co-requisite: Advanced Studies in Critical Care Nursing 5501 or approval of department chair.

ACCN 5507 – Pharmacology for the Acutely Ill

(3 credits – TG) Distance Delivery

Principles and physiological mechanisms related to pharmacology are addressed. Emphasis is placed on a thorough understanding of major drug categories and current medications frequently used for the acutely ill patient. Pharmacological considerations are addressed in relation to management and prevention of complications.

Pre or Co-requisite: Advanced Studies in Critical Care Nursing 5501 or approval of department chair.

Note: This course may be taken by Emergency Stream nurses in level II or with prior approval of the Emergency Stream coordinator.

ACCN 5513 – Advanced Trauma Care

(3 credits – TG) Distance Delivery

Addresses injury prevention within the community and contains detailed discussions of injury epidemiology and injury prevention programming. Prevention of cellular injury through current and novel resuscitative practices is discussed. Addresses how best to prevent secondary organ injury following admission of a trauma patient to the critical care setting.

Prerequisite: Approval of department chair.

ACCN 5531 – Critical Care Nursing and Emergency Nursing: Assessment

(3 credits – TG) Distance Delivery

Examines various aspects of assessment within a physiologic systems framework, particular to acute/critically ill patients. Emphasizes analysis and integration of physical, laboratory and computer derived findings.

Note: Transfer credit for this course may be given to students who have national certification in either Critical Care or Emergency Nursing.

ACCN 5551 – Emergency Nursing – Pathophysiology

(3 credits) Distance Delivery

Provides a thorough review of physiological and pathophysiological mechanisms and their relationships to human body systems across the age span. Facilitates study of mechanisms underlying selected clinical conditions that are common and/or emergent in the emergency setting. Uses pathophysiology as a basis for understanding clinical conditions in order to guide relevant history taking, assessment and management of patients with these conditions.

ACCN 5553 – Emergency Nursing: Care of the Acutely Ill and Injured – Part A

(3 credits) Distance Delivery

This is the first of a two-part course, which describes the nursing care of the acutely ill and injured patients in the emergency department. There is an emphasis on pathophysiology as a basis for assessing, triaging, planning, implementing and evaluating care (the nursing process). The course begins with a discussion of factors common to all patients and/or emergency departments such as primary/secondary assessment, documentation, confidentiality, crisis responses, and pain management. The remaining units focus on acute illnesses and injuries affecting the respiratory, cardiovascular and neurological systems for adults. Special considerations for elderly and children are also presented. Illness and injuries are grouped according to the patient's presenting complaint or predominant physiologic abnormality.

Pre or Co-requisites: Advanced Studies in Critical Care Nursing 5531 and 5551 or approval of department chair.

ACCN 5555 – Emergency Nursing: Care of the Acutely Ill and Injured – Part B

(3 credits) Distance Delivery

This is the second of a two-part course series on emergency nursing. As with part A, the nursing process and pathophysiology are the basis for the management of adults and children with illnesses and injuries affecting the body systems not previously discussed (EENT, gastrointestinal, urinary, reproductive, and musculoskeletal). Additional topics include management of specific toxicologic and environmental emergencies, disaster and flight nursing, advanced triage, professional leadership, evidence based practice and multisystem/multitrauma disorders.

Pre or Co-requisites: Advanced Studies in Critical Care Nursing 5531, 5551 and 5553 or approval of department chair.

ACCN 5571 – Neuroscience Nursing Theory

(3 credits) Distance Delivery - Internet

Advance Studies in Critical Care Nursing 5571 is an advanced neuroscience nursing course which provides a thorough review of neurological/neurosurgical physiological/ pathophysiological mechanisms and their relationship to human body systems to provide a foundation for assessment, goal setting and intervention with adult neuroscience patients.

Pre or Co-requisite: Advanced Studies in Critical Care Nursing 5501 or approval of department chair.

Note: Prior learning recognition may be given to students who have national certification in Neuroscience Nursing.

ACCN 5573 – Neuroscience Nursing Clinical

(6 credits) 210 hours practicum

Provides opportunities to integrate and apply more in-depth knowledge and skills in the neuroscience setting. Learning objectives are in part defined by the individual needs of the student. Students gain hands-on experience with advanced neuroscience concepts and skills.

Prerequisites: Advanced Studies in Critical Care Nursing 5501, 5531 and 5571.

ACCN 5581 – Critical Care Nursing: Clinical I

(6 credits – TG) 210 hours practicum

The clinical practicum provides the student with opportunities to integrate and apply critical care skills and theory in clinical practice. Students gain hands-on experience with a variety of assessment and clinical interventions. Nurses with critical care experience may apply for prior learning credit.

Prerequisites: Advanced Studies in Critical Care Nursing 5501, 5505 and 5531 and approval of the department.

Pre or Co-requisite: Advanced Studies in Critical Care Nursing 5507.

ACCN 5583 – Advanced Clinical II

(3 credits – TG) 105 hours practicum

Students integrate and apply basic and advanced theoretical knowledge and technical skills in a variety of settings dependant upon their focus. This is a self-directed clinical experience whereby students plan their clinical experience to focus on, elaborate or broaden their understanding in an area of interest in Critical Care, Emergency, or Neuroscience Nursing in consultation with program faculty.

Prerequisites: Advanced Studies in Critical Care Nursing Level I Certificate and completion of the theory requirements for Level II or approval of department chair.

ACCN 5591 – Emergency Nursing – Clinical I

(6 credits) 210 hours practicum

This clinical practicum provides the student with opportunities to integrate and apply emergency nursing theory and skills in the clinical setting. Students gain hands-on experience with a variety of assessment and clinical interventions. Nurses with emergency experience may apply for prior learning credit.

Prerequisite: Advanced Studies in Critical Care Nursing 5531, 5551, 5553, 5555 and approval of the department.

Co-requisite: Advanced Studies in Critical Care Nursing 5507 or approval of department chair.

ADVANCED STUDIES IN MENTAL HEALTH (ASHM)

Courses in the Advanced Studies in Mental Health program are offered by distance delivery in the Fall and/or Winter Semesters.

ASHM 5501 – Mental Health: Theory and Assessment I (formerly ASHM 4401)

(3 credits) Distance Delivery

This course introduces a philosophical framework and theoretical basis for holistic practice in mental health in a variety of institutional and community settings. It includes an in-depth study of mental disorders and mental health assessment. Using a holistic and culturally sensitive perspective, students will explore mental health issues that affect individuals across the life span. Course content incorporates the current diagnostic classification system of mental disorders (DSM IV-TR).

ASHM 5503 – Mental Health: Theory and Assessment II (formerly ASHM 4403)

(3 credits) Distance Delivery

This course is a continuation of Advanced Studies in Mental Health 5501 providing a theoretical basis for mental health practice in a variety of institutional and community settings.

Prerequisite: Advanced Studies in Mental Health 5501 or consent of the department chair.

ASHM 5505 – Psychopharmacology (formerly ASHM 4405)

(3 credits) Distance Delivery

The course provides the learner with opportunities to master psychopharmacology. Students will examine the neurobiology of the brain systems with which psychotropic drugs interact. The course offers an in-depth review of chemical neurotransmission as a mediator of disease action; and explores how drugs interact with the body and the brain across the lifespan related to pharmacokinetics (how drugs are handled by the body) and pharmacodynamics (how drugs act).

ASMH 5507 – Mental Health Interventions (formerly ASHM 4407)

(3 credits) Distance Delivery

This course will explore major concepts and practices of contemporary therapeutic modalities in mental health practice. It provides in-depth study of current interventions that will assist the practitioner to mobilize the client to effect change in his/her life.

ASMH 5591 – Clinical Practicum (formerly ASHM 4491)

(6 credits) Minimum 210 hours clinical experience

This course provides an opportunity for synthesis and application of mental health principles, theories and interventions in a practice setting that addresses mental health concerns. Students will identify and complete extensive study in a practice area relevant to their specific interests.

Pre or Co-requisites: Advanced Studies in Mental Health 5501, 5503, 5505 and 5507 and approval of the department.

ADVANCED STUDIES IN PERINATAL AND NEONATAL NURSING (ASPN)

ASPN 5501 – Development and Homeostasis

(3 credits – TG) Distance Delivery

This course serves as an introductory course for the ASPN Post-Basic Certificate program. As such, it is a prerequisite or co-requisite for all other ASPN courses. The intent of this course is to investigate elements that must be in balance to move along a trajectory toward optimal health and development. Students will focus on one of two populations: perinatal or neonatal.

ASPN 5503 – Assessment

(3 credits – TG) Distance Delivery

This course focuses on the knowledge and skills required to perform physiological and behavioral assessments. Students will focus on one of two populations: perinatal or neonatal.

Pre or Co-requisite: Advanced Studies in Perinatal and Neonatal Nursing 5501 or approval of department chair.

ASPN 5506 – Critical Moments I

(3 credits – TG) Distance Delivery

This course uses an adaptation-development framework to examine selected critical moments that may occur in the perinatal or neonatal populations. Students will focus on one of the two patient populations: perinatal or neonatal. A critical moment is defined as the culmination of events that influences the patient to diverge from a trajectory toward health. For example, childbirth and the recovery phase are considered as critical moments in the perinatal period. Students will focus on one of the two patient populations. Students in the neonatal stream will also focus on the therapeutic modalities that promote the childbearing family's or neonate's return to homeostasis.

Pre or Co-requisites: Advanced Studies in Perinatal and Neonatal Nursing 5501, 5503 or approval of department chair.

ASPN 5508 – Critical Moments II

(3 credits – TG) Distance Delivery

This course uses an adaptation-development framework to examine selected critical moments that may occur in the perinatal, or neonatal populations. Students will focus on one of the two patient populations. Practice, legal and ethical issues of perinatal or neonatal nursing are explored within the context of the patient, family and community. Areas of discussion include parental responses and caring practices, vulnerability and outcomes, legal principles, ethical dilemmas and decision making.

Pre or Co-requisites: Advanced Studies in Perinatal and Neonatal Nursing 5501, 5503, 5506 or approval of department chair.

ASPN 5511 – Advanced Decision-Making in Neonatal Intensive Care

(3 credits – TG) Distance Delivery

This course focuses on professional development and nursing practice in the Neonatal Intensive Care Unit. Theory related to advanced assessment, problem identification and intervention will be examined with particular emphasis on newborn resuscitation and stabilization.

Prerequisites: Advanced Studies in Perinatal and Neonatal Nursing 5501, 5503, 5506, 5508 and 5591 or approval of department chair. The student must have maintained a focus on the neonatal population throughout their studies in the Advanced Studies in Perinatal and Neonatal Nursing program.

Note: Students may register for this course only, providing they successfully complete a pretest and submit evidence of prior learning.

ASPN 5591 – Neonatal Nursing Clinical Experience

(6 credits – TG) 210 hours clinical practice

Students will be provided with the opportunity to integrate and apply knowledge of assessment, homeostasis, and adaptation to the neonate in a variety of clinical settings including Special Care Nursery, Level 3 Intensive Care and in the community. With the approval and assistance of the program faculty, students will select a clinical experience that best meets their program objectives.

Pre or Co-requisites: Advanced Studies in Perinatal and Neonatal Nursing 5501, 5503, 5506, 5508 and approval of the department.

Note: This is an instructor-guided preceptored experience.

ASPN 5593 – Perinatal Nursing Clinical Experience

(6 credits – TG) 210 hours clinical practice

Students will be provided with the opportunity to integrate and apply knowledge of homeostasis and adaptation to the antenatal, labour and delivery, and postpartum/newborn periods. Students will select a clinical experience in supportive care during the antenatal period, labour and birth or supportive care for breast-feeding and postpartum families.

Pre or Co-requisites: Advanced Studies in Perinatal and Neonatal Nursing 5501, 5503, 5506, 5508 and approval of the department.

Note: This is an instructor-guided preceptored experience.

AIR FLIGHT TRAINING (AIRF)

AIRF 1101 – Introduction to Aviation Navigation

(3 credits) 3 hours lecture

This course introduces students to aviation navigation in preparation for their Commercial Pilot's License. It is designed in part to provide students with the knowledge to not only achieve the Transport Canada requirements respecting navigation and aviation operations but to develop a broader understanding of air navigation.

AIRF 1109 – Introduction to Aviation Meteorology (Introductory) (formerly GEOG 1109)

(3 credits) 3 hours lecture

This course meets the meteorology requirements for the Department of Transport Commercial Pilot's Licence, basic meteorology as it applies to aviation and the ability to interpret weather information for pilots as supplied by Atmospheric Environment Services.

Prerequisite: Acceptance into the Aviation program or Instructor's permission.

AIRF 1130 – Aircraft Engines

(3 credits) 3 hours lecture

This course is designed to give students a theoretical, practical and working knowledge of an aircraft piston engine and its ancillary controls. Students will also be introduced to the turbo prop and turbo jet engine.

AIRF 2101 – Aviation History and Air Law

(3 credits) 3 hours lecture

This course is a wide-ranging examination of the Aviation regulations, including the structure of the regulatory system, the organization of the Canadian Aviation Regulations and the rules of the air. Students will also explore the historical context of the regulatory and legal environment. In addition, the course explores the implications of the legal issues that confront pilots and the airline industry.

AIRF 2111 – Aeronautics, Industry and Flight Operations (formerly AIRF 1111)

(3 credits) 3 hours lecture

This course is aimed at developing students' understanding of the aviation industry, flight operations and aeronautics. Topics include physics of flight, aircraft identification, professional conduct, pilot decision making, and the present state of the industry.

Prerequisite: Air Flight Training 1101.

AIRF 2209 – Advanced Aviation Meteorology (formerly AIRF 1209)

(3 credits) 3 hours lecture

This course prepares students for the meteorological portion of the Instrument Flying Test. It deals with practical flight planning problems, both low level and high level. Upon successful completion of the course students should have a good grounding in practical meteorological problems confronting an aircraft captain.

Prerequisite: Air Flight Training 1109.

AIRF 2240 – Aviation Management (formerly AIRF 1240)

(3 credits) 3 hours lecture

This course is an introduction to the economics of air transportation in the Canadian airline industry. Topics explored include airline strategy and market barriers, demand and supply of air services, elasticity of air demand, capacity management, scheduling, cost management, government regulation, risk management, and safety management systems. Relevant current issues in the industry are also discussed.

AIRF 3202 – Multi-Engine Instrument Rating and GPS (formerly AIRF 1202)

(3 credits) 3 hours lecture

This course is designed to introduce students to the theory and practice of advanced instrument flying and GPS systems. They will be exposed to IFR navigation and the air law respecting instrument flying. The material in Transport Canada's Study and Reference Guide for Instrument Rating will also be covered through lectures.

Prerequisite: Air Flight Training 2111.

AIRF 3206 – Advanced Operations, GPS, and Crew Coordination (formerly AIRF 1206)

(3 credits) 3 hours lecture

This course is designed to give students advanced knowledge of aircraft operations, performance, and navigation. Students will also be taught the theory and practice of multi-crew operations and Standard Operating Procedures.

Prerequisite: Air Flight Training 3202.

AIRF 3210 – Aircraft Systems (formerly AIRF 1210)

(3 credits) 3 hours lecture

This course is designed to give students a theoretical and working knowledge of aircraft hydraulic, pneumatic, electric, pressurization, oxygen, fire and ice protection systems.

Prerequisite: Air Flight Training 1130.

AIRF 3242 – Human Factors and Aviation Safety (formerly AIRF 1242)

(3 credits) 3 hours lecture

This course examines current issues related to aviation safety. Of primary interest are human factors as they apply to pilots, air traffic control, managers, and other related parties. The impact of human factors on aviation safety will be investigated. Aviation psychology and physiology will be discussed, and strategies for successful pilot decision-making will be developed. Case studies will involve both Air Transport Category and General Aviation aircraft situations. The transportation of dangerous goods and accident investigation will be introduced.

AIRF 2299, 3399 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ANTHROPOLOGY (ANTH)**ANTH 1101 – Introduction to Primatology and Human Evolution (formerly ANTH 2201)**

(3 credits – TG) 3 hours lecture

This course will consider human evolution, the role of biosocial phenomena in the evolution of physical structure and social behaviour, and the origins and development of culture.

**ANTH 1102 – An Introduction to Physical Anthropology (formerly ARKY 2203)**

(3 credits – TG) 3 hours lecture, 3 hours lab

This course is a survey of major topic areas in Physical Anthropology including human evolution, Mendelian and population genetics, osteology, and human variation. In the laboratory portion of this course, students will engage in applied exercises for each of the given areas.

**ANTH 1103 – Introduction to Cultural Anthropology (formerly ANTH 2203)**

(3 credits – TG) 3 hours lecture

This course is a cross-cultural exploration of the nature of human culture and society: its elements, variability and perpetuation. Topics will include symbolism and meaning, subsistence strategies, sex and gender, kinship, social organization, and political, economic, and religious institutions.

**ANTH 1104 – Introduction to Archaeology (formerly ARKY 2201)**

(3 credits – TG) 3 hours lecture, 3 hours lab

This course introduces the basic principles used in archaeological exploration throughout the world. In lecture and lab settings, students will study and use the processes with which archaeologists work in the field, including mapping and site location methods, excavation practices and artifact processing, artifact and site interpretation, and principles of cultural heritage management.

**ANTH 1105 – Ancient Peoples and Places (formerly ARKY 2205)**

(3 credits – TG) 3 hours lecture

This course provides a broad survey of Old and New World archaeology from the emergence of humans and the development of culture from hunting/gathering to agriculture and ancient complex societies.

**ANTH 1106 – Introduction to Linguistic Anthropology (formerly ANTH 3381)**

(3 credits – TG) 3 hours lecture

This course explores the anthropological study of language, culture, and communication. Topics will include the origin, evolution and socio-historical development of languages, the structure of language, comparative analysis and classification of languages, the impact of language and culture on one another, how language is used in particular socio-cultural contexts, and a brief survey of field methods, analytical methods, and theory.

**ANTH 2204 – Archaeology of North America (formerly ARKY 3303)**

(3 credits – TG) 3 hours lecture

This course is a general survey of the prehistory of the North American continent north of Mexico, beginning with the earliest evidence for human occupation in the western hemisphere and ending with the period of European contact. Selected geographical and cultural areas include the Arctic, the Northwest Coast, California, the Southwest, the Eastern Woodlands, and the Prairie-Plains.

ANTH 2205 – Marriage, Family, Kinship and Descent

(3 credits – TG) 3 hours lecture

This course explores anthropological approaches to understanding kinship and descent systems, forms of marriage, and types of family that have been found at different times and places. Topics include kinship and descent terminologies; theories of incest and exogamy; bridewealth, brideservice, dowry, and inheritance; arranged versus “free choice” marriage; and the influences of urbanization and industrialization on traditional rural extended families.

Prerequisite: Anthropology 1103 or consent of the department.

**ANTH 2206 – Cross-Cultural Communication and Business
(formerly ANTH 3301)**

(3 credits – TG) 3 hours lecture

This course explores ways in which differences in cultural patterns of communication affect interaction between business parties, particularly those of differing cultural/national/ethnic backgrounds.

ANTH 2111 – Biological Anthropology of South Asia

(3 credits – TG) 3 hours lecture

This course offers an overview of prehistoric human dispersals, trends in human evolution, and biological variation among South Asian populations. Emphasis will be placed upon the fossil record, archaeological evidence, and recent morphological, genetic and linguistic diversity of South Asians.

Prerequisite: Anthropology 1101 or 1102 or consent of the department.

**ANTH 2213 – Contemporary Aboriginal Issues in Canada**

(3 credits – TG) 3 hours lecture

This course considers the history of Aboriginal-state relations, the development of “Indian policy” in Canada and socio-cultural and legal aspects of current issues (such as land claims treaties, status of women, human rights, and expression of aboriginal identity and stereotyping of Aboriginal people) that various Aboriginal groups define as central to their existence and cultural survival.

**ANTH 2214 – Ethnography of the Northwest Coast
(formerly ANTH 3313)**

(3 credits – TG) 3 hours lecture

This course is a survey of the aboriginal cultures of the Northwest Coast. Initial topics include prehistory, language, subsistence and settlement patterns, material culture, social organization, religion, ceremonial life and traditional art and mythology. Subsequent discussion will focus on European contact and colonization, social change, and major contemporary issues such as aboriginal rights, land claims and the environment.

Recommended Preparation: At least one 1000-level course in Anthropology, Archaeology, Psychology or Sociology.

**ANTH 2215 – Archaeology of the Levant
(formerly ARKY 3315)**

(3 credits – TG) 3 hours lecture

This course examines four successive phases of civilization and its development within Syria, Lebanon, Cyprus, Israel and Jordan, from the third millennium BC through the decline of Roman domination during the third century AD. The emphasis is on understanding the characteristics of those civilizations, and how each civilization responded to external cultural influences from its rise to its demise.

Prerequisite: Anthropology 1104 or consent of the department.

Recommended Preparation: Anthropology 1105 or 2225.

**ANTH 2218 – Culture and Society in
Contemporary India (formerly ANTH 3318)**

(3 credits – TG) 3 hours lecture

This course is a selective survey of contemporary India with an emphasis on the ways that colonialism, globalization and the media have intersected with and shaped contemporary Indian life and the identities of the Indian populace. Topics include religion, family, gender, the partition of India, nationalism, and the Indian diaspora.

Prerequisite: Anthropology 1103 or consent of the department.

**ANTH 2221 – Hot Topics in Old World Prehistory
(formerly ARKY 3321)**

(3 credits – TG) 3 hours lecture

This course is designed to help students think critically about contemporary controversial topics dealing with biological and cultural origins of our early human ancestors of Africa, Eurasia, and Australia between 5 million and 40,000 years ago. Topics may include molecular advances, new hominin fossil discoveries, bipedalism, sexual dimorphism, behavioural reconstructions, and archaeological site interpretation.

Prerequisite: Anthropology 1101 or 1102 or consent of the department.

**ANTH 2225 – Ancient Civilizations
(formerly ARKY 3325)**

(3 credits – TG) 3 hours lecture

This course critically examines the theories and facts behind what is meant by “civilization”, the origins of agriculture and its impact on social complexity. The focus is on several of the earliest civilizations in both the Old and New World, including the Sumerians of Mesopotamia, the Harappans of the Indus Valley, Old Kingdom Egypt, China, the Andes, and the Maya of Mesoamerica.

**ANTH 2226 – Archaeology of Early Empires: Assyrians,
Babylonians and Persians (formerly ARKY 3326)**

(3 credits – TG) 3 hours lecture

This course examines the rise, fall and characteristics of three of the world’s greatest successive early empires—the Assyrians, the Babylonians and the Persians—from c 1000 BC to the conquest of Alexander the Great within Iraq and Iran, and how each responded to and incorporated external cultural influences.

Recommended Preparation: Anthropology 1104, 1105 or 2225; or History 1101; or Religious Studies 1101; or consent of the department.

ANTH 2227 – Archaeology and Early Islam

(3 credits) 3 hours lecture

This course is a detailed study, both diachronic and synchronic, of the ideals behind and artistic embellishments of monuments and artefacts in the Muslim world, as expressions of Islamic beliefs and traditions. The focus is on the Middle East, from the Arabian Peninsula through North Africa and Spain, in order to address specific regional developments from late pre-Islamic times (1st - 6th centuries AD) into the early Crusades (about 1100 AD).

Note: No previous knowledge of Islam or of Arabic is assumed or necessary.

**ANTH 2229 – Anthropology of “Race”
(formerly ANTH 3329)**

(3 credits – TG) 3 hours lecture

This discussion-based course takes a critical examination of historical and modern anthropological perspectives on the biological term “race”. Historically, race in a Biological Anthropology context examines the classification of modern human physical variation. Today this context has expanded including the impact of genetic variation, biological determinism of race and racial definitions of ancient human ancestors.

ANTH 2231 – The Anthropology of Gender (formerly ANTH 3331)

(3 credits – TG) 3 hour lecture

This course is a comparative analysis of gender as a central feature of social identity and social relations of power. Biological, archaeological, feminist and post-modern approaches to the understanding of women's and men's experiences in their historical and cultural varieties form the basis of the course. Case studies will be drawn from western and non-western cultures around the world.

Prerequisite: Anthropology 1103 or consent of the department.

ANTH 2233 – The Anthropology of Religion

(3 credits) 3 hours lecture

This course surveys anthropological approaches to the study of religion. Topics will include religious specialists, such as shamans, sorcerers and priests; practices such as witchcraft, sacrifice, spirit possession, and healing; the role of religion and religious rituals in various cultures; and the ways in which religious belief and practice responds to and promotes social and cultural change.

Prerequisite: Anthropology 1103 or consent of the department.

ANTH 2235 – Culture and Environment of Selected Circumpolar Peoples (formerly ANTH 3335)

(3 credits – TG) 3 hours lecture

This course is an ethnographic survey of the Peoples and cultures of the circumpolar area with an emphasis upon environmental adaptation and the effects of culture contact. Selected cultures include the Sámi, Chukchi, Evenks and Tungus, Aleuts, Yupik, Inuit, Athabascans and Algonquians.

Prerequisite: Anthropology 1103 or consent of the department.

ANTH 2241 – Ethnography in Anthropology

(3 credits) 3 hours lecture

Ethnography ("writing culture") is central to the discipline of Anthropology. Through the reading of complete ethnographic works and critical treatises on ethnography, students will explore the entirety of the ethnographic enterprise: how ethnography allows unique insights into specific cultures, how ethnographic research is designed and carried out, how ethnographic texts are constructed, and how ethnographic representations have been responded to and interpreted.

Prerequisite: Anthropology 1103.

ANTH 2243 – Anthropology Through Film

(3 credits – TG) 3 hours lecture

This course takes a historical and theoretical perspective of ethnographic film, the visual medium through which anthropologists and filmmakers have "captured" and presented human cultural experience for almost 100 years. Students will engage in a critical analysis of the representations presented in ethnographic film and consider relationships between the development of the ethnographic film genre and the development of Anthropology as a whole.

Prerequisite: Anthropology 1103 or consent of the department.

ANTH 2253 – Introduction to Applied Archaeology (formerly ARKY 3313)

(3 credits) 3 hours lecture

This course is an introduction to the methods of archaeological reconnaissance and survey. Heritage Resource Impact Assessment Studies required by legislation enacted in Western Canada will be emphasized. Searches of government files, topographic map and aerial photo interpretation will form the core of the course material. The ability to locate archaeological sites using the UTM and legal land description systems will be acquired as well.

Recommended Preparation: Anthropology 1104.

Note: Anthropology 2253 cannot be used as partial credit for either Anthropology 2290 or 2291.

ANTH 2255 – An Ethnographic Survey of Native North America (formerly ANTH 3355)

(3 credits – TG) 3 hours lecture

This course provides an overview of native cultures of North America, examining relationships among subsistence and settlement patterns, material culture, social and political organization, ideological structures, ceremonial life, mythology and art. Because of the number and diversity of native peoples in North America, "typical" groups from each culture area will form the basis of description and analysis.

Prerequisite: Anthropology 1103 or consent of the department.

ANTH 2258 – Anthropology in the Public Eye (formerly ANTH 3358)

(3 credits – TG) 3 hours lecture

This discussion-based course focuses on the public's perception of Anthropology, not content of Anthropology itself. Students will take an anthropological perspective by critically examining and evaluating the relevance, and substance of current topics such as the role of the media, popular perspectives, public engagement, repatriation of mortuary remains, anthropological representation in museums, ethics, and the antiquities trade.

ANTH 2270 – Archaeology of Egypt and the Nile Valley (formerly ARKY 3331)

(3 credits – TG) 3 hours lecture

This course provides an overview of the development of civilizations along the Nile. Beginning with hunter-gatherers, archaeological evidence will be reviewed detailing the transition to civilizations. Emphasis will be placed upon archaeological evidence, history and epigraphy in understanding the two major civilizations of the Nile Valley: Egypt and Kush.

ANTH 2283 – Anthropological Perspectives on Discourse Strategies (formerly ANTH 3383)

(3 credits) 3 hours lecture

This course examines cultural constructions of narrative and discourse. Topics include inter-tribal and inter-ethnic interaction; communication between genders and classes; discourse in institutional settings such as the courtroom, classroom and work settings; and discourse in the media.

Prerequisite: Anthropology 1106 or consent of the department.

ANTH 2290 – Field Course in Archaeological Techniques I (formerly ARKY 3317)

(3 credits – TG) 3 weeks Field Work

This course provides an introduction to the practical application of modern field techniques in Archaeology, including excavation and recording and analysis of sites, artifacts, and related materials. The course will require travel to an international archaeological site, usually during the summer.

Prerequisites: Anthropology 1104 and 2215.

Note: Anthropology 2253 and 2290 cannot be used as partial credit for 2291.

Note: Students will be responsible for paying all costs, including travel associated with the international field school experience.

ANTH 2291 – Field Course in Archaeological Techniques II (formerly ARKY 3319)

(6 credits – TG) 6 weeks Field Work

This course provides a comprehensive introduction to the practical application of modern field techniques in archaeology, including excavation and recording and analysis of sites, artifacts, and related material. This course will require travel to an international designated archaeological site, usually during the summer.

ANTH 3302 – Ethnographic Methods

(3 credits – TG) 2 hours lecture, 2 hours lab

This class will explore the ways in which ethnographic research is designed, carried out, and analyzed. A variety of ethnographic methods will be discussed, with an emphasis on conducting participant-observation and on in-depth interviewing. Under the guidance of the instructor, students will design, conduct, and report on an ethnographic project of their own choosing.

Prerequisite: Anthropology 2241 or 3305 or consent of the department.

ANTH 3304 – Anthropological Perspectives on Globalization

(3 credits – TG) 3 hours lecture

Anthropologists study globalization to learn how the complex flows of people, goods, capital, and ideas that traverse the globe are understood, experienced, and negotiated by peoples in specific contexts. This class will explore the ways that living in a globalized world affects the lives, sensibilities, and identities of the inhabitants of the so-called “global village”.

Prerequisite: Anthropology 1103 or General Education 1301 or consent of the department.

ANTH 3305 – History of Anthropology

(3 credits – TG) 3 hours lecture

This course follows the historical development of Anthropology from early predecessors to its inception as an academic discipline in the nineteenth century and finally to present-day configurations. Emphasis will be placed on the creation of American and Canadian anthropology, the development of specialized approaches within the four fields of anthropology, and the impacts of feminism and postmodernism.

Prerequisites: One of Anthropology 1103 or 1106 and one of Anthropology 1102 or 1104, or consent of the department.

ANTH 3306 – Old World Prehistory: A Historical Perspective

(3 credits – TG) 3 hours lecture

This course follows the historical development of Physical Anthropology and Archaeology from early scientific thinkers in the natural sciences to the establishment of Anthropology as an academic discipline in the nineteenth and twentieth centuries. Emphasis is on humans' place in nature, human variation, evolutionary theory, classification/typology/technology, chronology, and how cultural evolution is viewed.

Prerequisites: Anthropology 1101 or 1102 or 1104 or consent of the department.

ANTH 3307 – Statistics for Anthropology

(3 credits – TG) 1 hours lecture, 2 hours tutorial

This course offers an introduction to descriptive and inferential statistical techniques as applied to anthropological research. Through instruction and laboratory practice, students will develop a working knowledge of how statistical concepts can be used to correctly analyze, interpret, and evaluate research findings.

Prerequisites: Anthropology 1102 or 1104 and Anthropology 1103 or 1106 and one of the second year core courses (Anthropology 2225, 2229, or 2241) or consent of the department.

Strongly recommended: Mathematics 30 (Pure or Applied).

ANTH 3309 – Ceramic Analysis

(3 credits – TG) 3 hours lecture, 3 hours lab

In this intensive survey course, students will develop a working knowledge of and approach to all aspects of current archaeological and contemporary ceramics research through lectures and hands-on labs. The course content is structured to lead directly into research design development for a study of ceramics within the student's area, culture(s) and time period(s) of interest, from prehistoric to contemporary cultures worldwide, including ethnoarchaeology.

Prerequisite: Anthropology 1104, or consent of the department.

Strongly recommended: Anthropology 3307.

ANTH 3311 – Practical Problems in Archaeological Interpretation

(3 credits – TG) 3 hours lecture

In this course students analyze and interpret data sets from archaeological sites worldwide, focusing on the interrelationships between theory, method, and interpretation. The student will develop a solid working knowledge of approaches on those data sets and their interpretation through a series of readings and exercises focused on data interpretation.

Prerequisites: Anthropology 1104 and two Anthropology courses at the 2000 level, or consent of the department.

ANTH 3319 – Ethnography of the Great Plains (formerly ANTH 3419)

(3 credits – TG) 3 hours lecture

This course is a comparative study of peoples of the Great Plains past and present. Focus is upon the material culture, settlement and subsistence patterns, language, social and political structures, gender roles, religion, world view, ritual and art of the indigenous peoples of the region. Anthropological and ethnohistorical sources will form the primary data, with a comparison to aboriginal sources.

ANTH 3321 – Human Osteology

(3 credits) 3 hours lecture, 3 hours lab

In this intensive lab-based course, students will identify and interpret human skeletal and dental remains using physical anthropological techniques. Assessment of qualitative features, quantitative measurement analyses, and forensic approaches are central components of this field of study. Areas of focus will be functional anatomy, palaeopathology and applied osteology.

Prerequisite: Anthropology 1101 or 1102 or consent of the department.

ANTH 3322 – Human Adaptation

(3 credits) 3 hours lecture

This course examines the processes involved in interpreting modern human diversity. Emphasis is placed on biological adaptive responses to particular environments and the cultural influences affecting human diversity. Topics include heat and cold stress, high and low altitude adaptations, skin colour, and physical structure of the human body.

Prerequisite: Anthropology 1101 or 1102 or consent of the department.

ANTH 3333 – Pastoral Nomads of the Old World: Past and Present

(3 credits – TG) 3 hours lecture

This course is an in-depth exploration, from archaeological and anthropological perspectives, of an often “unseen” component of society, pastoral nomads such as “Bedouin” and the Roma (previously known as “Gypsies”). The course will focus on the continents of Africa, Asia, and Europe where pastoral nomads are best represented.

Prerequisites: consent of the department and one of the following: Anthropology 1103, 1104, 2225, or 3361; or History 1101 or 1103; or Humanities 1109 or 1111; or Philosophy 2253; or Romance Studies 1101; or Sociology 1101.

ANTH 3341 – Medical Anthropology

(3 credits – TG) 3 hours lecture

Medical Anthropology explores beliefs, practices and experiences of health, illness and healing in cross-cultural perspective. Topics will include the role of healers, their patients, and the relationship between the two, the cultural aspects of biomedicine, the ways in which the members of different cultures experience, understand and treat illness, and the transformation of traditional medical systems in the face of globalization.

Prerequisite: Anthropology 1103 or consent of the department.

ANTH 3361 – Hunter-Gatherer Adaptations

(3 credits – TG) 3 hours lecture

This course explores the theoretical literature relating to contemporary, historic, and prehistoric hunter-gatherer adaptations. Some topics include the social dynamics of hunter-gatherer societies, marginal environmental adaptations, and hunter-gatherers of the tropical forest, maritime, Arctic and Subarctic regions.

Prerequisite: Anthropology 1103 or the consent of the department.

ANTH 3368 – An Anthropology of Art – Art in Small-Scale Societies

(3 credits – TG) 3 hours lecture

This course focuses upon art as a dynamic process involving not only the human creation of objects, but the circulation of these objects within the various social, cultural and historical contexts that give them meaning. Students will be provided with a foundation in the anthropological study of art, aesthetics and material culture. Special attention will be given to the arts of the “smallscale” societies, the indigenous or aboriginal peoples of North America, Africa, Australia and Oceania.

Recommended Preparation: At least one 1000-level course in Anthropology, Psychology or Sociology.

ANTH 3379 – Urban Anthropology

(3 credits – TG) 3 hours lecture

This course is a study of tribalism, ethnicity, sub-cultures, social networks and related phenomena in urban societies. Attention will be paid to planning and applied urban Anthropology.

Prerequisite: Anthropology 1103 or consent of the department.

ANTH 4401 – Anthropological Theory

(3 credits – TG) 3 hours lecture

This course follows the development of anthropological theory from the inception of Anthropology as an academic discipline in the nineteenth century to contemporary theoretical configurations. Emphasis will be placed on the development of specialized approaches within the discipline. Examples and case studies will come from archaeology, biological anthropology, cultural anthropology and linguistic anthropology.

Prerequisites: Anthropology 3305 and 3306 or consent of the department.

ANTH 4450 – Advanced Topics in Cultural Anthropology

(3 credits) 3 hours lecture

The specific topics of this seminar will vary based on the specialties of the faculty in cultural anthropology.

Prerequisite: Anthropology 2241 and 3305; or consent of the department.

ANTH 4850 – Advanced Topics in Archaeology

(3 credits) 3 hours lecture

The specific topic of this seminar-based course may vary with the specialties of the faculty in Anthropology and their research activities.

Prerequisites: Anthropology 2225 and 3305.

Note: Consult with the Anthropology Advisor or the Department of Sociology and Anthropology for the specific topic to be covered.

ANTH 5110 – Research Design and Professional Development

(3 credits) 3 hours lecture

This course will provide a solid foundation for the design and organization of an advanced research project in Anthropology. Students will receive coaching through a series of group workshops and student-faculty advisor contact in research design and professional development, culminating in the production and dissemination of an honours thesis proposal.

Prerequisites: Anthropology 3305 and Anthropology 3306.

Note: This course is restricted to students in the final year of their program who are officially accepted and enrolled in the Anthropology Honours Program.

ANTH 5120 – Honours Thesis

(3 credits) 3 hours lecture

Anthropology Honours students are required to demonstrate their mastery of anthropological knowledge, including method and theory, by completing an independent written research project, culminating in an honours thesis.

Prerequisites: Anthropology 4401 and 5110.

Note: These prerequisite courses must be successfully completed by or during the fall term of the student's final year in the Anthropology Honours BA degree. Co-op students may be exempt from this timing requirement.

Note: This course is restricted to students who have been accepted into and are enrolled in the Anthropology Honours program.

ANTH 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

APPLIED COMMUNICATIONS (ACOM)

ACOM 2003 – Applied Visual Communication I (formerly ACOM 2203)

(4 credits) 4 hours lecture

Principles of graphic communication, design, and layout will be applied to the production of a variety of print-based media including newspapers, newsletters, reports, manuals and brochures using current computer-based page-layout and graphics programs. Typography, the uses of colour, the selection of photographs and art-work, and the sizes, weights and quality of paper as they affect the options for printing processes will be examined and applied.

Prerequisite: Computer Science 1205 or consent of the department.

ACOM 2011 – Directed Field Studies I – Journalism

(15 credits) 16 weeks, work-term project

Students in the Journalism stream of the Bachelor of Communications Degree program will complete a Directed Field Study in a workplace setting, and work in a print, broadcast or other journalism milieu.

Prerequisite: Completion of a minimum 45 credits (or consent of the department) with a minimum grade of C in all required courses and a minimum overall Grade Point Average of 2.00; and have successfully completed Applied Communications 3345 Journalist's Workplace I Directed Field Study preparation, and have consent of the department.

ACOM 2013 – Directed Field Studies I – Public Relations

(15 credits) 16 weeks, work-term project

Students in the Public Relations stream of the Bachelor of Communications Degree program will complete a directed field studies in an organizational setting – either corporate, non-profit or government.

Prerequisites: Successful completion of the following courses or their equivalents: Applied Communications 2041, 2245, 2003, 2211 or 2061, 2249, 3341, 3355, 3351, 3349, and 3500 Applied Communications 2281 or Freelance Writing 1305, Computer Science 1205, Management 2130; 150 hours of paid or volunteer public relations experience, and departmental approval.

ACOM 2015 – Directed Field Studies I – Technical Communication

(15 credits) 16 weeks, work-term project

Students in the Bachelor of Communications – Technical Communication degree program will complete directed field studies in an organizational setting. Students will usually be placed with large firms and assist with documenting products and systems. Students will be graded on a letter grade system.

Prerequisites: Students will have completed a minimum of 45 credits (or consent of the department) with a minimum grade of C in all required courses and a minimum overall Grade Point Average of 2.00, and have successfully completed the Introduction to Work Experience (or approved equivalent) workshop through Career Services.

ACOM 2017 – Directed Field Studies I – Electronic Publishing

(15 credits) 450 hours work-term

Students in the Bachelor of Communications – Electronic Publishing degree program will complete Directed Field Studies lasting a minimum of 450 hours, in an appropriate corporate setting. Within this production environment, students will apply techniques and concepts acquired in the core curriculum, and document theoretical and practical findings.

Prerequisite: Completion of a minimum of 60 credits (or permission of chair) with a minimum grade of C in all required courses and a minimum overall Grade Point Average of 2.00. Completion of the Introduction to Work Experience (or approved equivalent) workshop through Career Services.

ACOM 2041 – Introduction to Public Relations for Technical Writers (formerly ACOM 2241)

(3 credits – TG) 2 hours lecture, 1 hour tutorial

This course will provide students with an overview of the field of public relations and environments in which technical writers work. Public relations will be considered from the perspective of human communication theories. Students will also learn the history and role of public relations in organizational settings applicable to technical writers.

Possible Substitution: Communications 1841.

ACOM 2061 – Applied Technical Writing I (formerly ACOM 2261)

(3 credits – TG) 2 hours lecture, 2 hours tutorial

Introduction to the varieties of technical writing. Forms and styles of technical description, procedures, reports, proposals, business plans and policies. Introduction to the integration of text and graphics.

Note: Technical Writing Certificate students only.

Possible Substitutions: Communications 1661 Technical Writing I or ENGL 2263 Technical Writing (Formerly ENGL 3363) (U of C COMS 363).

ACOM 2063 – Stylistics for Technical Writers (formerly ACOM 2263)

(3 credits) 3 hours lecture

In this course, students refine their writing skills by applying the principles of rhetoric and stylistics. We will observe the effectiveness of diverse texts-essays, stories, advertising, magazine and newspaper writing - and consider precisely how and whether these forms of communication work. The rhetorical analysis of texts will also apply to our own writing, as we look at the relationship between authorial intention and audience reception.

Note: Technical Writing Certificate students only.

ACOM 2067 – Information Architecture (formerly ACOM 2267)

(3 credits) 3 hours lecture

This course examines how documents are structured and how you can categorize or chunk information. Navigational principles and retrieval strategies are researched and concepts first introduced in Applied Communications 2061 will be extended. Students will examine how information needs to be managed in the workplace and the importance of search and retrieval in design. Projects will require students to develop materials for print and web. A number of research-based information development practices will be explored and skills in these methods will be developed through assignments. An introduction to some usability testing strategies will be covered.

Note: Technical Writing Certificate students only.

ACOM 2205 – Principles of Graphics I

(3 credits) 3 hours lecture

This course introduces students to the principles of effective graphic design. Students explore the ways in which humans communicate effectively through spatial arrangements, visual cues, signs and conventions. The history of the major communications vehicles will be explored. Design and use of photographs and other pictorial materials will be developed, and current approaches to typography examined.

ACOM 2245 – Interpersonal Communications

(3 credits – TG) 3 hours lecture

This course introduces the fundamentals of interpersonal communications with a focus on “influencing with integrity”. Students will practice communicating one-on-one and in small groups; learn effective listening and conflict resolution skills; appreciate differences in others; and examine personal values, intentions and behaviours.

ACOM 2251 – Introduction to Fund Development

(3 credits) 3 hours lecture

This course is designed for programmers and managers working in the nonprofit sector who will need basic understanding and skills in fund development to support their organization and/or community. Through in-class discussion, small group work, and assignments, students will learn the planning and implementation of fund development and understand it as an integral part of an organization's business plan.

ACOM 2255 – Writing for Publication

(3 credits) 3 hours lecture

This course involves writing for general and trade periodicals; the freelance writer's marketplace and marketing; techniques of writing non-fiction.

ACOM 2271 – Publishing – Origins to Today

(3 credits) 3 hours lecture

This course is designed to provide publishing specialists with an historic context for the forms, markets, and media they are working in. The course surveys how information has been circulated and published in human societies. It examines the earliest recorded information, historic techniques of reproduction and distribution, how the book emerged and how new electronic forms of publishing are both a continuance of tradition and a challenge to it.

ACOM 2273 – Introduction to Digital Layout

(3 credits) 2 hours lecture, 2 hours lab

This course reviews major computerized layout programs and develops competency in one of them. Students will compare a cross-section of programs and become proficient in one platform. Students will explore all key areas of layout technique, from the building of templates, to the mastering of typography and style to control of large-document projects.

Prerequisite: Applied Communications 2205 and Computer Science 1209.

ACOM 2279 – Standard and Digital Photography

(4 credits) 3 hours lecture, 2 hours lab

This course introduces students to traditional photography while it lays the groundwork for digital photographic techniques. Students will gain an understanding of film, camera, exposure and digital processes. Students will gain experience in the use of traditional and digital cameras and with the application of colour theories.

Prerequisites: Applied Communications 2205 and Computer Science 1209.

ACOM 3005 – Research Methods for Technical Writers (formerly ACOM 3305)

(4 credits) 4 hours lecture

This course develops competence in major forms of research relating to technical writing including the use of surveys, focus groups, content analysis, and the use of existing information accessed through libraries, online databases, and other computer-based search tools. Elements of descriptive statistics as they apply to the analysis of survey design will be reviewed. The course will provide instruction and practice in accessing available information as it is used in technical communication.

Possible substitutions: Communications 3605 Research in Information Design or may also substitute the following: Athabasca University SOSI 366 Research Methods in the Social Sciences.

Note: Bachelor of Applied Communications Degree students only.

ACOM 3011 – Directed Field Studies II – Journalism

(15 credits) 16 weeks

Students in the Bachelor of Communications – Journalism degree program will complete a second Directed Field Study in a print, broadcast, or other journalism milieu.

ACOM 3013 – Directed Field Studies II – Public Relations

(15 credits) 16 weeks

Students in the Bachelor of Communications – Public Relations degree program will complete a second Directed Field Studies in an organizational setting. Students in Public Relations will work with industry professionals in the corporate, public and non-profit sectors of industry.

Prerequisites: Completion of Applied Communications 2013 and a minimum of 45 credits or consent of the department with a minimum grade of C in all required courses and a minimum overall G.P.A. of 2.00.

ACOM 3015 – Directed Field Studies II – Technical Communication

(15 credits) 16 weeks

Students in the Bachelor of Communications – Technical Communication degree program will complete a second Directed Field Studies in an organizational setting. Students will usually be placed with large firms and will continue to develop documentation expertise at a more advanced level.

Prerequisites: Completion of a minimum of 60 credits or consent of the department with a minimum grade of C in all required courses and a minimum overall G.P.A. of 2.00. Applied Communications 2015.

ACOM 3017 – Directed Field Studies II – Electronic Publishing

(15 credits)

Students in the Bachelor of Communications – Electronic Publishing degree program will complete their second Directed Field Studies for a minimum of 450 hours, in an appropriate corporate setting. Within this production environment, students will apply techniques and concepts acquired in the core curriculum and document theoretical and practical findings.

Prerequisite: Applied Communications 2017.

ACOM 3065 – Technical Writing II (formerly ACOM 3365)

(3 credits) 4 hours lecture

This course will introduce students to intermediate-level elements of technical writing. Considerations of audience, purpose and technique in print and electronic media will be examined for a variety of writing needs.

Prerequisites: Applied Communications 2003, 2061 and 2067.

ACOM 3363 – Software and System Documentation

(3 credits) 2 hours lecture, 2 hours tutorial

This course will introduce students to advanced elements of technical writing. Documenting software programs and computer operating systems will be emphasized, as well as writing for other scientific or technical purposes and media. Single-sourcing software will be explored and large document control practised.

Prerequisite: Applied Communications 3065.

ACOM 3373 – Digital Illustration

(3 credits) 2 hours lecture, 2 hours lab

This course introduces student to the principle tools, theories, and methods of computer-based illustration. Both text-based and object-based illustrations are explored. Students work with industry-standard computer programs to produce a variety of products, such as templates and letterheads, logos, wordmarks, designed heads, backgrounds and finished layouts.

Prerequisites: Applied Communications 2205, 2273, 2279 and Computer Science 1209.

ACOM 3375 – Principles of Graphics II

(3 credits) 2 hours lecture, 1 hour tutorial

This course builds on the insights developed in Applied Communications 2205. Students will explore the technical and aesthetic aspects of designing for the web. They will learn to use web authoring tools and apply the principles of usability and accessibility to authentic web design projects.

Prerequisite: Applied Communications 2205.

ACOM 3377 – Pre-Press Technique

(3 credits) 3 hours lecture

This course focuses on the process of putting together a document for output. It teaches the integration and interaction of layout, image manipulation, illustration and press-ready PDF generating software programs. File formats, color management, font management, printing processes and new digital prepress technologies are also dealt with.

Prerequisite: Applied Communications 2273.

ACOM 3379 – Advanced Digital Photography

(3 credits) 2 hours lecture, 2 hours lab

This course extends and develops skills developed in Applied Communications 2279. Students gain an in-depth understanding of digital photography including concepts such as image file formats, resolution, colour depth and dynamic range. Students will photograph and manipulate digital images for use in publications. This course also explores the legal and ethical implications of using digital images.

Prerequisite: Applied Communications 2279.

ACOM 3381 – Document Production I

(3 credits) 2 hours lecture, 2 hours lab

This course introduces students to document production. Students develop foundation skills for the production of traditional and online publications.

Prerequisite: Completion of at least six core courses or their equivalents in the Bachelor of Communications – Technical Communication and Bachelor of Communications – Electronic Publishing degree program.

ACOM 3383 – Research Design and Methodology

(3 credits) 1 hour lecture, 2 hours tutorial

Journalists are presented daily with the results of polls, surveys, clinical trials and other research projects by individuals and organizations seeking to have this information published or broadcast. Students in this course will consider both the structural and ethical aspects of how such projects are organized with a particular focus on issues such as reliability and generalization.

Note: Enrolment restricted to students in the journalism degree program.

ACOM 3389 – International Journalism Projects

(3 credits) 1 hour lecture, 2 hours tutorial

The Journalism Program participates from time-to-time in joint courses with partner institutions. The content of this course will vary according to the needs and goals of the specific student group involved, but will offer lecture material appropriate to the journalism discipline being studied and result in the production of print, television, web or photojournalism.

ACOM 3500 – Media, Culture, and Communication Theory (formerly ACOM 4401)

(3 credits) 3 hours lecture

This senior level course examines the role of communications in creating and explaining everyday cultural practices, and the larger systems that structure them. Students will consider multiple theories of communication, derived from various disciplines and perspectives, to address the concept of subjectivity, and how the communication of information and ideas impacts on our understanding of our social and personal environments. Students will apply communication theories to specific artifacts and/or issues that they have defined and researched.

Prerequisite: Communications 2500.

Note: Applied Communications Degree or Journalism Certificate students only.

ACOM 4009 – Issues in Communications, Law and Ethics for Technical Writers (formerly ACOM 4409)

(3 credits – TG) 3 hours lecture

This course focuses on key issues facing the technical writing profession. The course examines the role ethics plays in society and explores different models for defining issues, interests and values relating to the ethical issues confronting technical writers.

Possible substitutions: Communications 4679 or may also substitute the following: Athabasca University PHIL 333 Professional Ethics

Prerequisite: Applied Communications 3500.

ACOM 4065 – Instructional Multimedia (formerly ACOM 4465)

(3 credits) 3 hours lecture

This project-based course provides students with an opportunity to explore applications in instructional multimedia and E-learning. Concepts covered include learning theories, curriculum and instructional design concepts, and script-writing for multimedia. Procedures for systematic design of instructional and training materials using multimedia are also covered. Students will apply these concepts to produce a camera-ready script.

Possible substitution: Athabasca University EDPY 479 Intro to Computer Based Education.

ACOM 4407 – Media, Technology and the Internet

(3 credits) 2 hours lecture, 1 hour online tutorial (blended delivery)

Students in this senior course will examine the impact of technological change on the media by exploring relevant elements of communications theory and current issues in the evolution of the Internet and web journalism. Students will also produce Internet based content for the Journalism Program's online news site.

ACOM 4419 – Senior Journalism Projects

(3 credits) 1 hour lecture, 2 hours tutorial

In this senior journalism course students will use the skills they have acquired to complete a major journalism project – in print, broadcast, photo, web journalism, or across media lines. This project will be based on a detailed project proposal submitted for faculty consideration by the student, during the semester prior to the semester in which the student intends to complete this course.

Prerequisite: Consent of the department.

ACOM 4425 – Journalism Theory and Practice

(3 credits) 1 hour lecture, 2 hours tutorial

This course provides for a critical review of interrelationships between education and the practice of journalism through a review of workplace vocabulary, and analysis of employer-employee relationships, generational and gender issues, opportunities present and future in journalism, and other communications disciplines, and conflicts in the practice of journalism, among other issues. Each student in this course will also complete a professional level employment e-portfolio that highlights their skills and prepares them for their second Directed Field Study and/or fulltime work.

Prerequisite: Applied Communications 2011.

ACOM 4437 – Senior Journal Projects

(3 credits) 1 hour lecture, 2 hours tutorial

In this senior journalism course – with a focus on production of the program newspaper The Calgary Journal – students will use the skills they have acquired to complete a major journalism project, based on a detailed project proposal submitted for faculty consideration by the student, during the semester prior to the semester in which the student intends to complete this course.

Prerequisite: Consent of the department.

ACOM 4439 – Advanced Journalism Studies

(3 credits) 1 hour lecture, 2 hours tutorial

This senior journalism option will focus on research of a journalism related issue, creation of a substantial journalism project, or projects that contain both research elements and journalism production elements. The project will be based on a detailed project proposal submitted for faculty consideration by the student, during the semester prior to the semester in which the student intends to complete this course.

Prerequisite: Consent of the department.

ACOM 4463 – The Editorial Function

(3 credits) 3 hours lecture

Students practice substantive editing, copy editing, and proofreading. They examine issues in reliability and correctness of fact, relation of text to graphics and layout, ethics, copyright and project management. This course draws together subjects and issues from all previous writing courses.

Prerequisite: At least four (4) Applied Communications courses from the curriculum of the Electronic Publishing or Technical Communication programs.

Note: Second or third year Applied Communications Degree students only.

ACOM 4467 – Advanced Technical Documentation

(3 credits) 3 hours lecture

This course allows students to practice lessons learned in earlier technical writing courses on scientific research documents. Technical writing enters the chain of science leading to consumer products at the point where scientific research becomes technology. Scholarly scientific publications, language research, and other sources of special terminology are examined. User testing methods are studied and applied.

Prerequisite: Applied Communications 3005.

ACOM 4469 – Portfolio

(2 credits) 1 hour lecture, 2 hours lab

The student portfolio demonstrates the ways in which students have acquired and achieved the learning outcomes of the Bachelor of Communications – Technical Communication and Bachelor of Communications – Electronic Publishing programs. Portfolio items are products created in all core courses in the program. In this course, students analyze and consolidate their collection and organize a public presentation of their work.

Prerequisite: Completion of at least 90 credits towards the Bachelor of Communications – Electronic Publishing or Technical Communication Degree programs, and both Directed Field Studies.

ACOM 4473 – Publication Markets and Distribution

(4 credits) 4 hours lecture

This course surveys the major issues in the marketing and costing of publications, both print-based and electronic. Major markets are examined in light of the promotional, distribution, estimation, and production models that ensue. A comparison is drawn between traditional and electronic forms, their interdependencies studied and solutions proposed for issues specific to each kind of product.

ACOM 4481 – Document Production II

(3 credits) 2 hours lecture, 2 hours lab

This course continues the work done in Applied Communications 3381. Students solicit and evaluate articles, design and commence layout, and source printers and other suppliers. Organizational tasks such as promotion and finance continue; preparation for adaptation to the web commences. Students finish laying out, proofing and correcting documents commenced in the previous production course.

Prerequisite: Applied Communications 3381.

ACOM 4483 – Magazine Production III**(2 credits) 1 hour lecture, 2 hours lab**

Students finish laying out, proofing, and correcting the magazine commenced in the two previous production courses. Students will transmit artwork to the printer, organize the magazine launch, and distribute the magazine. In addition to the printed version, students will produce an electronic version of the magazine and place it online.

Prerequisites: Applied Communications 3381 and 4481.

APPLIED JUSTICE (AJUS)**AJUS 2010 – Directed Field Studies I****(15 credits)**

Applied degree work semesters are designed to provide an extension of the learning process into a relevant work environment. Each Directed Field Studies must be a minimum of 450 hours of paid work in an approved agency. Workterms provide students with an opportunity to integrate theoretical concepts with practical applications; familiarize students with the justice system and its place within the community; familiarize students with current programs, agencies, policies and procedures; provide students with an opportunity to develop and demonstrate their skills and abilities; and foster in students an attitude of professionalism and ethical practice. Students will be required to participate in an orientation to the work-term and to familiarize themselves with the work-term manual and its policies. During the work-term, students will also be required to participate in a methods integration seminar. This seminar will provide an opportunity to engage in reflection and discussion of significant learning experiences within the work setting with a member of the faculty.

Prerequisite: Students must have satisfactorily completed the course requirements for the first four (4) semesters of the program.

AJUS 2201/CRJS 1001 – Introduction to Criminology**(3 credits – TG) 3 hours lecture**

In this course, students are introduced to the major theoretical concepts presently available as an explanation of crime, criminals and criminality in the field of criminology.

AJUS 2203/CRJS 1003 – Introduction to the Justice System**(3 credits – TG) 3 hours lecture**

In this course, students will examine the functional patterns and roles of the major components in the Canadian Justice System. This process includes (but is not limited to) familiarizing the students with the evolving nature of law enforcement, courts and correctional services.

**AJUS 2209/CRJS 2009 – Selected Issues in Human Justice****(3 credits) 3 hours lecture**

In this course, students will critically examine topical issues within Human Justice. Each semester's offering will focus on current issues within the major fields of corrections, law enforcement and the judiciary.

Prerequisites: Applied Justice 2201 and 2203.

AJUS 2211/CRJS 1011 – Introduction to Human Relations**(3 credits) 3 hours lecture**

This course will provide students with an understanding of the development of interpersonal relationships. Students will explore cross-cultural, interdisciplinary and evolving perceptions of normal human relationships, as well as the significance of relationship skills in the justice system.

AJUS 2213/CRJS 1013 – Diversity Issues and the Criminal Justice System**(3 credits) 3 hours lecture**

This course will explore issues of diversity and justice within Canadian society. Emphasis will be placed on issues, such as ethnicity, gender, sexual preference, age, and social class, and access to justice throughout Canadian history. Situated in an exploration of competing theoretical paradigms, students will be challenged to consider the complexity of diversity issues in context of the history and practices of the Canadian Criminal Justice System.

**AJUS 2215/CRJS 2015 – Introduction to Research Methods in Justice Studies****(3 credits) 3 hours lecture**

Students in this course will develop a foundational understanding of social science research methods as practiced within Criminology and Criminal Justice. Specifically, this course will focus on the theory of inquiry, scientific method, inductive versus deductive reasoning, overview of qualitative and quantitative approaches to research design and data collection, criminological data sources, common errors in research and research ethics.

Prerequisite: Applied Justice 2201 and 2203.

AJUS 3010 – Directed Field Studies II**(15 credits)**

Applied degree work semesters are designed to provide an extension of the learning process into a relevant work environment. Work-terms provide students with an opportunity to integrate theoretical concepts with practical applications; familiarize students with the justice system and its place within the community; familiarize students with current programs, agencies, policies and procedures; provide students with an opportunity to develop and demonstrate their skills and abilities; and foster in students an attitude of professionalism and ethical practice. Students will be required to participate in an orientation to the workterm and to familiarize themselves with the work-term manual and its policies. During the work-term, students will also be required to participate in a methods integration seminar. This seminar will provide an opportunity to engage in reflection and discussion of significant learning experiences within the work setting with a member of the faculty.

Prerequisite: Students must have satisfactorily completed Work Term I and all of the course requirements for the first six (6) semesters of the program.

AJUS 3301/CRJS 4001 – Human Rights and Civil Liberties**(3 credits) 3 hours lecture**

This course explores the relationship between individuals and the nation state. Beginning with a review of competing paradigms related to Human Rights and Civil Liberties, emphasis will be placed on the Canadian Charter of Rights and Freedoms and its interpretation by the judiciary. Issues such as equality before the law, freedoms of expression and religion, obscenity and hate literature will be explored.

Prerequisites: Applied Justice 2201 and 2203.

AJUS 3303/CRJS 4003 – Criminological Theory**(3 credits – TG) 3 hours lecture**

Relying primarily on a lecture and group discussion format, the course will involve examining the original works of selected theorists. Emphasis will be placed on the economic, political, and social context in which theories emerged and how they are reflected in criminal justice practice. Among the perspectives covered will be: positivist explanations; the classical and neo-classical schools of thought; biological explanations; conflict criminology; and the new integrated and interdisciplinary theories.

Prerequisites: Applied Justice 2201 and 2203.

AJUS 3305/CRJS 2005 – Aberrant Behaviour**(3 credits – TG) 3 hours lecture**

In this course, students critically analyze aberrant behaviors with emphasis on their nature, incidence, correlates, control and prevention. Attention may be given to specific subject areas, which will be examined in conjunction with the current Diagnostic and Statistical Manual (DSM). Students will be able to differentiate aberrant behavior from normative conduct in both its application and impact on the criminal justice system.

AJUS 3307/CRJS 3007 – Professional Ethics in Criminal Justice**(3 credits – TG) 3 hours lecture**

Students will study the development of ethical thinking, models of ethical decision-making, professional codes of ethics and issues in ethics relevant to criminal justice practitioners. Case analysis and evaluation will be utilized to increase students' competencies in ethical reasoning.

Prerequisites: Applied Justice 2201 and 2203.

AJUS 3309/CRJS 3009 – Crisis Intervention and Conflict Resolution Strategies

(3 credits) 3 hours lecture

This course will introduce theoretical and practice-based models of crisis intervention and conflict resolution. Students will become familiar with, and learn to analyse and respond to common situations that they may face as criminal justice practitioners. The curriculum will focus on such situations as suicide, relationship violence, sexual assault, chemical dependency, mental health, Post Traumatic Stress Disorder, institutional violence, vicarious victimization and “burnout.”

Prerequisites: Applied Justice 2201, 2203, 2211 and 3313.

AJUS 3311/CRJS 3011 – Criminal Law

(3 credits – TG) 3 hours lecture

In this course, students will focus on the process of legal problem solving. Students will gain experience in the unique deductive logic within the context of current Canadian criminal law.

AJUS 3313/CRJS 2013 – Interviewing Skills

(3 credits) 3 hours lecture

In this course, students learn basic interviewing techniques. Various aspects of interpersonal communication used in the interview situation such as feedback and mechanisms, paraphrasing and nonverbal communication are discussed and practised during a series of exercises and experiences related to the functioning of the justice system. As an applied course students will demonstrate (to criteria) skill mastery in both interviewing and self-appraisal.

AJUS 3325 – Justice Practicum I

(6 credits) 3 hours tutorial biweekly, 360 hours practicum

This course involves supervised study and practice. Students spend two and one half days a week in a justice-related agency. After an initial orientation period, students are expected to assume responsibility for assigned agency duties in order to enhance their knowledge and skill in social work methods. During agency work, attention is given to developing students’ specific skills and competencies in relation to the Department’s experiential learning outcomes. Seminars will focus on integrating relevant Justice Studies’ program outcomes with students’ work in the field.

Prerequisites: Applied Justice 2213 and 3307.

AJUS 4401/CRJS 3001 – Quantitative Research Methods and Data Analysis

(6 credits – TG) 3 hours lecture, 2 hours tutorial

This course provides a detailed examination of quantitative research and data analysis techniques used in criminological research. Within the context of common sources of criminological/criminal justice data, students will learn how to apply descriptive and inferential statistics in quantitative research. Common measures of central tendency, dispersion and association, as well as multivariate analysis will be applied to disaggregated and aggregated data. Students will also be introduced to emerging trends in quantitative data analysis in criminological research such as crime pattern analysis.

Prerequisite: Applied Justice 2215.

AJUS 4403/CRJS 2003 – Young Persons in Conflict with the Law

(3 credits – TG) 3 hours lecture

In this course, students will be provided an overview of the behavioural dynamics of young persons involved in anti-social acts. An examination of the legal and social effects of legislation on the community and the young offender is also undertaken. A consideration of community resources is included.

AJUS 4405/CRJS 3005 – Qualitative Research Methods

(3 credits – TG) 3 hours lecture

This course introduces students to naturalistic/qualitative research methods and their application to issues of crime and justice in contemporary society. Students are guided through a process of designing and selecting data collection methods that are appropriate, well thought out and valid.

Prerequisite: Applied Justice 3313.

AJUS 4407/CRJS 4007 – Conflict Resolution

(3 credits – TG) 3 hours lecture

This upper level course will provide students with the basic concepts and requisite skills in dealing with conflict resolution in a variety of criminal justice settings. As an applied course, students will be expected to demonstrate skill mastery to specific criteria.

Prerequisites: Applied Justice 2211 and 3313.

AJUS 4411/CRJS 2011 – Comparative Criminal Justice Systems

(3 credits – TG) 3 hours lecture

This course introduces students to a variety of criminal justice system models including common law systems, civil law systems, and systems that differ fundamentally from common and civil law traditions. The selection of countries will vary from year-to-year depending on current social, economic, and/or political issues. The course will present a conceptual framework for a constructive functional comparative analysis of the different models. In addition, the intent of this course is to provide the student with a sampling of criminological phenomena around the world.

Prerequisite: Applied Justice 2201 and 3303.

AJUS 4413/CRJS 4013 – Evidence and Procedures

(3 credits – TG) 3 hours lecture

This is an advanced course in the study of criminal law as it relates to procedural law and law relating to evidence. Selected topics will include criminal procedure and evidence, including jurisdiction, police powers of search and seizure, the right to counsel and pre-trial and trial procedures. The course will include a survey of the system of rules and standards by means of which the admissibility of evidence is determined.

Prerequisites: Applied Justice 2201, 2203 and 3311.

AJUS 4415/CRJS 4015 – Advanced Topics in Law, Criminology and Criminal Justice

(3 credits – TG) 3 hours lecture

This course is designed to offer instruction in topical and timely areas of academic interest in the study of law, criminology and criminal justice (e.g., terrorism, victimology, crime and media, crime prevention and community development).

Prerequisites: Applied Justice 2201, 2203, and 3311.

AJUS 4417/CRJS 4017 – Casework Methods and Practice

(3 credits) 3 hours lecture

This course provides an examination of the principles, ethics, values and varying components of an effective casework process. A general systems approach is utilized in an application to case studies and the realities of a helping relationship in the justice system.

Prerequisite: Applied Justice 2211 and 3313.

AJUS 4419/CRJS 2019 – Restorative Justice

(3 credits) 3 hours lecture

Increasingly, restorative justice programs and practices are emerging as viable alternatives within provincial and federal correctional agencies in the Canadian Justice System. Seen in contrast to the traditional justice paradigms of retribution and punishment, the restorative justice paradigm is emerging in most western societies. This course will explore the philosophical basis of restorative justice and its practice in Canada. International examples will also be discussed.

Prerequisites: Applied Justice 2201 and 2203.

AJUS 4421/CRJS 4021 – Women and Crime

(3 credits – TG) 3 hours lecture

This course is an advanced-level study, comparison and critical evaluation of the multiple dimensions (theories, disciplines, systems) concerning women in the Canadian criminal justice system: women as offenders, as victims and as criminal justice workers.

Prerequisites: Applied Justice 2201, 2203, 2213 and 3301.

AJUS 4425 – Justice Capstone Practicum II**(6 credits) 3 hours tutorial biweekly, 415 hours practicum**

This course involves supervised study and practice. Students spend three and one half days a week in a justice-related agency. After an initial orientation period, students are expected to assume responsibility for assigned agency duties in order to enhance their knowledge and skill in social work methods. During agency work, attention is given to developing students' specific skills and competencies in relation to the Department's experiential learning outcomes. Seminars will focus on integrating relevant Justice Studies' program outcomes with students' work in the field.

Prerequisite: Applied Justice 3325.

AJUS 4427 – Justice Capstone Project**(6 credits) 3 hours tutorial weekly, 205 hours fieldwork**

Students are required to complete one of the following capstone project options. They can undertake a significant applied research project or engage in an interdisciplinary community development project. It is the responsibility of each capstone student to propose a specific capstone project. Department of Justice Studies approval must be granted for each specific project before a student can begin a capstone project. Students who are completing a practicum are required to work with the Department's Experiential Learning Coordinator.

Prerequisite: Applied Justice 4425.

AJUS 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ART HISTORY (ARTH)**ARTH 1101 – The History of Art: Prehistory to Renaissance (formerly ARTH 2201)****(3 credits – TG) 3 hours lecture**

This course provides a critical overview of the visual arts from the Old Stone Age to the Renaissance. Students are offered a systematic study of aesthetics and the development of art styles which will enable them to develop a basic appreciation and understanding of art and its origins.

**ARTH 1103 – The History of Art: Renaissance to the Present (formerly ARTH 2203)****(3 credits – TG) 3 hours lecture**

This course provides a critical overview of the visual arts in Western Europe from the Renaissance to contemporary times.

Recommended Preparation: Art History 1101.

**ARTH 2205 – Art and Architecture of Canada: 1870 to the Present (formerly ARTH 3303)****(3 credits – TG) 3 hours lecture**

This course provides a chronological survey of the visual arts and architecture in Canada from 1870 to the present day. Students will explore the development of the visual arts to enable them to better understand contemporary visual expression in Canada.

Recommended Preparation: Any 1000-level Art History course.

ARTH 2207 – Curious Narratives: Provocative Themes in Art Explored**(3 credits – TG) 3 hours lecture**

Curious Narratives explores and interrogates some of the significant themes in art that have emerged across time. Themes such as art and power, class, revolution, and exoticism will be explored through a variety of sources. Artistic production including architecture, painting and sculpture will be examined to reveal thought-provoking connections across boundaries and time.

Recommended Preparation: Any 1000-level Art History course.

**ARTH 2209 – History of Modern Art from 1850 to 1920 (formerly ARTH 3310)****(3 credits) 3 hours lecture**

This course is a critical look at the major schools, movements and themes of modern art in Europe and North America from 1850 to 1920.

Recommended Preparation: Any 1000-level Art History course.

ARTH 3309 – Modern Architecture**(3 credits – TG) 3 hours lecture**

This course focuses on developments in architecture from the mid-nineteenth century to 1960. The course will examine new architectural forms that emerged during this time, brought about by profound social, cultural, political and technical transformations.

Recommended Preparation: Any 1000-level Art History course.

ARTH 3311 – History of Modern Art from 1920 to 1970**(3 credits) 3 hours lecture**

This course is a critical look at the major schools, movements and themes of modern art in Europe and North America from between the World Wars to the present.

Recommended Preparation: Any 1000-level Art History course.

ARTH 3313 – Impressionism: Art, Leisure & Society**(3 credits – TG) 3 hours lecture**

This course will focus on the social history of Paris 1865-1885 as reflected in the subject matter of Impressionist art, particularly leisure issues such as industrialization, class, the secularization of society, the critic-dealer, and gender inequality also figure prominently.

Recommended Preparation: Any 1000-level Art History course.

ARTH 3315 – Art & Ideas**(3 credits) 3 hours lecture**

Art and Ideas introduces students to the discipline of art history through the exploration of influential art historical methodologies and theoretical perspectives that have emerged in the discipline.

Recommended Preparation: Any 1000-level Art History course.

ARTH 3317 – Contemporary Art from 1970 to Today**(3 credits) 3 hours lecture**

This course examines Contemporary art from 1970 to the present in different geographic contexts focusing on various genres, themes and stylistic movements. In exploring the changing meaning of visual culture, the lectures analyze the theories, concepts and institutions informing current art practices.

Recommended Preparation: Any 1000-level Art History course.

ARTH 3401 – The Grand Tour: Travel Studies in Western Europe**(3 credits) 3 hours lecture**

The art and architecture of selected western European regions will be explored from an interdisciplinary perspective as a prelude to a field study trip to Europe, offering students an experiential knowledge and a greater appreciation of the regions' artistic and cultural history.

Prerequisites: General Education 1201, 1202, or 1203 and consent of the department.

Recommended Preparation: Art History 1101 and/or 1103.

Note: Students will be responsible for paying all costs, including travel, associated with the field trip.

ARTH 4411 – Architecturae: Poetic Intentions in Architecture**(3 credits) 3 hours lecture**

This advanced seminar examines significant buildings with the intention of discovering their essential nature. Students will explore architecture as the embodiment of ideas through the investigation of concepts ranging from light, transparency, opacity and texture, to more nuanced themes, such as the narrative of passage, extreme topographies and genius loci. The seminar provides opportunities for the exploration of links between theory and design in contemporary architecture.

Prerequisite: One 2000-level or 3000-level Art History course.

ARTH 4850 – Topics in Art History

(3 credits) 3 hours lecture

This course offers the opportunity for advanced study of selected topics in art history. Specific content will vary by term and instructor.

Prerequisite: One of Art History 3309, 3311, 3313, 3315 and 3317.

ARTH 3199, 4199 – Directed readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ASTRONOMY (ASTR)

ASTR 1101 – The Solar System (formerly ASTR 2201)

(3 credits – TG) 3 hours lecture

This is primarily a descriptive course aimed at non-science students. Conceptual understanding will be stressed over strict mathematical derivation. The topics covered in this course emphasize astronomy in our own solar neighbourhood. Topics include the Sun, the terrestrial and Jovian planets and their moons, comets, asteroids, as well as the formation of the solar system.

Note: Only one of Astronomy 1101 and Astronomy 1301 can be used for graduation purposes.

ASTR 1103 – The Universe at Large (formerly ASTR 2203)

(3 credits – TG) 3 hours lecture

This is primarily a descriptive course aimed at non-science students. Conceptual understanding will be stressed over strict mathematical derivation. The topics covered in this course emphasize larger-scale astronomy. Topics include the lives and deaths of stars, supernovae, pulsars, black holes, the Milky Way and other galaxies, active galaxies and quasars, and cosmology.

Note: Only one of Astronomy 1103 and Astronomy 1301 can be used for graduation purposes.

ASTR 1301 – Fundamentals of Astronomy I (formerly ASTR 2211)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course covers basic concepts of astronomy, with emphasis on our solar system. Topics include spherical astronomy, Newton's laws and gravitation, time, elements of celestial mechanics, astronomical observation and measurement, telescopes, the planets and their satellites, as well as the sun and the rest of the solar system. This course stresses scientific explanation and uses mathematics, the language of science, extensively.

Prerequisites: Mathematics 30 (Pure or Applied) and Physics 30 or equivalent. This course is recommended for science majors.

Note: Only one of Astronomy 1101 and 1301 can be used for graduation purposes.

BIOCHEMISTRY (BCEM)

BCEM 2201 – General Biochemistry

(3 credits – TG) 3 hours lecture, 3 hours lab

This course deals with the biochemistry of the major groups of biological molecules. Topics include carbohydrates, polypeptides, lipids, nucleic acids, and their precursors. Laboratory exercises will involve the isolation and characterization of selected biological molecules.

BCEM 3201 – Protein Biochemistry

(3 credits) 3 hours lecture, 3 hours lab

The structure function relationships that exist within this broad category of biomolecules will be investigated. Topics will include levels of protein structure, domains, mosaics, and functional roles of selected proteins or protein classes. Laboratory exercises will involve the utilization of purification techniques in the isolations of selected proteins from simple cellular systems.

Prerequisite: Biochemistry 2201 with a grade of C- or higher.

BCEM 3202 – Enzymes and Metabolic Systems

(3 credits) 3 hours lecture, 3 hours lab

Students will investigate the nature of catalytic proteins, their properties, and the kinetics of enzyme catalyzed reactions. An understanding of these concepts will then be applied to some of the important metabolic pathways that support life. Laboratory exercises will highlight the study of enzymes and metabolism.

Prerequisites: Chemistry 2102 with a grade of "C-" or higher; and Biochemistry 2201 with a grade of "C-" or higher.

BCEM 4212 – Biochemical Pharmacology

(3 credits) 3 hours lecture, 2 hours seminar

This course covers the fundamental biochemical and physiological concepts of pharmacology. Important concepts include drug administration, sites of action, distribution, metabolism, elimination and adverse effects. The biochemical mechanisms themselves and how they are related to physiological states and effects such as neuronal excitation, blood pressure, and inflammation will be examined. Frequently encountered drugs are used to illustrate these concepts.

Prerequisites: Biochemistry 2201 with a grade of C- or higher.

BIOLOGY (BIOL)

BIOL 0115 – Introduction to Biology

(0 credits) 3 hours lecture, 1 hour tutorial, 3 hours lab

This is a credit-free upgrading course; special fees apply. Topics include energy flow in the biosphere, energy flow in the cell, adaptation, population and matter and energy exchange.

Corresponding Alberta High School Equivalent: Biology 20.

BIOL 0130 – Fundamentals of Biology

(0 credits) 3 hours lecture, 1 hour tutorial, 3 hours lab

This is a credit-free upgrading course; special fees apply. Topics in this course include: cell chemistry, cell ultra-structure, organelle function, metabolic pathways of photosynthesis and respiration, mitotic and meiotic processes, genetics and heredity and human systems.

Corresponding Alberta High School Equivalent: Biology 30.

Recommended Preparation: Biology 0115 or Biology 20.

BIOL 1202 – Introduction to Cell Biology (formerly BIOL 2231)

(3 credits – TG) 3 hours lecture, 3 hours lab

This course will employ an inquiry approach to expose students to the biology of the cell. The major groups of biological molecules will be studied prior to introducing students to how these macromolecules interact to form prokaryotic or eukaryotic cells. Laboratories will introduce students to basic equipment and techniques used in the study of cells and also develop authentic laboratory skills.

Prerequisite: Chemistry 30 or equivalent.

BIOL 1204 – The Evolution of Eukaryotes (formerly BIOL 2233)

(3 credits – TG) 3 hours lecture, 3 hours lab

This course follows Biology 1202 and moves from an investigation of cellular biology to the mechanisms of evolution which has provided much of the diversity seen in modern eukaryotes. It will provide insight into the necessity and methods of determining evolutionary history using the major groups Protista, Fungi, Plants, and Animals. Evolution will be used as a context in which biological diversity can be explained.

Prerequisite: Biology 1202 with a grade of C- or higher.

BIOL 1205 – The Organization and Diversity of Life (formerly BIOL 2205)

(3 credits – TG) 3 hours lecture

This course introduces students to the diversity of living organisms and to the common patterns of organization and function that unite them. Particular emphasis is placed on evolution as a unifying principle in biology. The evolutionary history of modern organisms is explored.

BIOL 1212 – Human Anatomy and Physiology

(3 credits – TG) 3 hours lecture, 2 hours lab

This course provides an introduction to the anatomy and physiology of the systems of the human body. Topics include cells and tissues plus the anatomy and physiology of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, immune, respiratory, digestive, urinary and reproductive systems.

**BIOL 1215 – Evolution and Heredity**

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is designed to give students an appreciation of evolution by explaining the mechanisms of the evolutionary process in terms of the laws of inheritance as well as the interaction of heredity and the environment. It is oriented toward human populations, their biological histories and their congenital medical problems.

Recommended Preparation: Biology 30 or equivalent.

BIOL 1216 – Human Physiology

(3 credits – TG) 3 hours lecture, 3 hours lab

This course describes how the systems of the human body perform their functions. Topics include physiology of the nervous system, hormonal control mechanisms, muscle physiology, body defence mechanisms and physiology of the reproductive, circulatory, respiratory, urinary and digestive system. Labs are designed to let the student discover and gain an appreciation of how his/her body functions.

Prerequisite: Biology 30 or equivalent.

**BIOL 1220 – Anatomy and Physiology I**

(3 credits – TG) 3 hours lecture, 3 hours lab

A basic course in human anatomy and physiology designed for students in the health studies fields. Topics include: terminology, membranes, skin and glands, cells and tissues, the skeletal system, the muscular system, central and peripheral nervous systems, autonomic nervous system, and the endocrine system. Each topic includes an emphasis on homeostasis.

BIOL 1221 – Anatomy and Physiology II

(3 credits – TG) 3 hours lecture, 3 hours lab

This course is a continuation of Biology 1220 and involves a second semester of basic human anatomy and physiology. It includes the following systems and areas: the cardiovascular system, the lymphatic system, the immune system, the respiratory system, digestion and nutrition, the urinary system, body fluids, electrolytes and fluid balance, the reproductive systems and embryology. Each topic includes an emphasis on homeostasis.

Prerequisite: Biology 1220.

BIOL 2101 – Genetics (formerly BIOL 3311)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course will provide an overview of genetic principles through the historical recounting of seminal work and the logic used therein, and then connect theory to practical skills such as gene mapping and pedigree interpretation. Students will be introduced to the connection between the central dogma of modern biology (replication, transcription, and translation) and the establishment of phenotype. Tutorials will provide a venue for students to map genes in a model experimental organism using microscopy and statistical techniques.

Prerequisite: Biology 1204 or equivalent, with a grade of C- or higher.

BIOL 2102 – How They Do It: Patterns of Reproduction (formerly BIOL 3317)

(3 credits – TG) 3 hours lecture

Reproduction is one of the fundamental properties of living systems. This course will cover a broad range of biological topics using reproduction (both asexual and sexual) as a unifying theme.

Prerequisite: Biology 1205 or Biology 1202 with a grade of C- or higher, or consent of the department.

Note: This course is not recommended for students majoring in the biological sciences.

BIOL 2202 – Cellular and Molecular Biology (formerly BIOL 3331)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course provides a thorough study of cell structure and function. Topics studied are (a) basic genetic mechanisms including the characteristics of chromosomes, DNA replication and repair, transcription and translation, and the regulation of gene expression, (b) methods used to study macromolecules and to visualize cells, (c) characteristics of membranes, (d) organelles, (e) cell communication, (f) the cell cycle and cell division, (g) cell junctions, cell adhesion and the extracellular matrix, and (h) cancer.

Prerequisite: Biology 2101 or equivalent with a grade of C- or higher.

BIOL 2203 – Human Anatomy (formerly BIOL 1214)

(3 credits – TG) 3 hours lecture, 3 hours lab

This course provides a systematic survey of the structure of the human body. Topics include cells and tissues of the body plus the anatomy of the skeletal, articular, muscular, digestive, respiratory, urinary, reproductive, circulatory, nervous, integumentary and endocrine systems. Labs are designed to provide practical demonstrations that parallel the material discussed in the lectures.

Prerequisite: Biology 1202 with a grade of C- or higher.

**BIOL 2204 – Zoology II: Deuterostomes (formerly ZOO L 3377)**

(3 credits) 3 hours lecture, 3 hours laboratory

This course examines the biology of deuterostomes, including ambulacrarians (non-chordate deuterostomes), non-vertebrate chordates and vertebrates. Particular emphasis will be placed on the comparative anatomy of the vertebrates, and the various ways in which vertebrates have solved common biological problems. Laboratory exercises will consist largely of dissection of representative vertebrates.

Prerequisite: Biology 1204 with a grade of C- or greater, or equivalent, or permission of the department.

BIOL 2213 – Principles of Ecology and Evolution (formerly BIOL 3313)

(3 credits – TG) 3 hours lecture, 3 hours lab

This course introduces ecological processes and evolutionary principles that explain the origin, maintenance, and dynamics of biological diversity. Ecological interactions will be studied to understand the evolution of traits, and the dynamics of populations and communities. Mechanisms of genetic change of populations will be discussed and how these changes give rise to large-scale evolutionary patterns.

Prerequisite: Biology 1204 with a grade of C- or higher.

BIOL 2214 – Zoology I: Protostomes

(3 credits) 3 hours lecture, 3 hours lab

A survey of the diversity and evolution of the protostomes and the lower invertebrates. The evolution of the increasing grades of organization from cellular to organ system, and type of body plan (acoelomate, pseudocoelomate, and schizocoelomate), is discussed with reference to the major phyla. Emphasis is placed on functional morphology of groups, such as the Annelids, Molluscs and Arthropods.

Prerequisite: Biology 1204 with a grade of C- or higher.

BIOL 2215 – The Human Organism (formerly BIOL 3305)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course provides an overview of structure and function in the human body. The interaction of body systems with diet, pathogens and environmental agents will be discussed as it relates to health and disease. Where appropriate, the implications of human biology for society will be explored.

Prerequisite: Biology 30 or equivalent, or Biology 1205 with a grade of C- or higher or equivalent, or consent of the department.

Note: Not recommended for majors in the Biological Sciences.

BIOL 2309 – Plants and People

(3 credits – TG) 3 hours lecture

This course deals with human interaction with plants as sources of food, fuel, shelter, fiber, medicine and psychoactive substances. The impact of plants on culture and religion will be explored. Plant improvement by traditional and modern methods will also be discussed.

Prerequisite: Biology 1205 or Biology 1204 with a grade of "C-" or higher or consent of the department.

BIOL 3101 – Molecular Genetics (formerly BIOL 4411)

(3 credits – TG) 3 hours lecture, 3 hours lab

Prokaryotic and eukaryotic chromosome structure; DNA replication, repair, transcription, RNA translation and processing, and mechanisms of gene regulation will be studied. In the laboratory, students will characterize an unknown gene by practicing techniques such as genomic DNA isolation, plasmid transformation and purification, restriction mapping, Southern blotting, and polymerase chain reaction (PCR).

Prerequisite: Microbiology 2201 and Biology 2202 or equivalents with grades of C- or higher.

BIOL 3102 – Intermediate Cell Biology

(3 credits) 3 hours lecture, 3 hours lab

This course explores cell signalling, proliferation, differentiation, and programmed cell death. Readings of primary scientific literature are required as part of the lecture component. In the laboratory, students will characterize an unknown gene product through techniques such as western blotting, cell fractionation, cell culture, vital staining, and methods in fluorescence microscopy.

Prerequisites: Microbiology 2201, Biology 2202 and Biochemistry 2201 or equivalents with grades of C- or higher.

BIOL 3103 – Introduction to Biophysics

(3 credits) 3 hours lecture, 1.5 hour tutorial

The aim of this course is to apply concepts and laws of physics to the study and understanding of living systems. As shown in the course outline, the topics that will be covered are: biomechanics of bone and muscle, hemodynamics, diffusion and osmosis, physics of respiration and cough, heat regulation mechanisms, electroreception and conduction of impulses along the nervous system, magnetic sense, and the physics of vision and hearing.

Prerequisite: Mathematics 1200, Physics 1202 or 1212 and Biology 1202.

Note: Credit for both Biology 3103 and Physics 3103 will not be allowed.

BIOL 3104 – Human Physiology I (formerly Z00L 3361)

(3 credits) 3 hours lecture, 3 hours lab

This course deals with the normal functions of and interactions between organs and organ systems in the human body. The emphasis will be on how these functions are controlled in the normal state and how they are integrated in the whole organism. The major topics studied in this course include: homeostasis, signal transduction and intercellular communication, properties of excitable cells, the nervous system, the muscular systems, the endocrine system and the reproductive system.

Prerequisites: Biology 2203, 2202 and Chemistry 1202 with grades of C- or higher.

BIOL 3106 – Evolutionary Biology

(3 credits – TG) 3 hours lecture, 3 hour laboratory

All biological systems are the product of evolution and thus can only be fully understood from this perspective. This course will introduce the major themes of evolutionary biology through readings, lectures, videos, discussions and laboratory exercises. Topics will include: development of evolutionary theory, insect mimicry, basic population genetics, species concepts, evolution of altruism, sexual selection, human variation and evolution.

Prerequisite: Biology 1204 with a grade of C- or higher.

BIOL 3108 – Conservation Biology

(3 credits – TG) 3 hours lecture

This course examines the principles of conservation biology: the scientific study of biological conservation and diversity. Topics will include minimum viable population size and population viability analyses, conservation genetics, biogeography, metapopulation dynamics, and extinction vulnerability. We will focus on the issues of habitat loss and fragmentation, invasive species, and the challenges of conserving populations.

Prerequisite: Biology 2213 with a grade of C- or higher, or equivalent.

BIOL 3203 – Genomes

(3 credits) 3 hours lecture, 1 hour computer lab

Students will apply what they've learned about gene structure and cell biology in preceding courses to study cases of human diseases. The structures of the genomes from human and model systems will be compared. Online bioinformatics and proteomics exercises will allow students to take a hands-on approach toward investigating disease and evolutionary theories in the context of modern biology.

Prerequisites: Biology 2202 and Biochemistry 2201 with a grade of C- or higher.

BIOL 3204 – Histology

(3 credits) 3 hours lecture, 3 hours lab

The course provides an introductory survey of the microscopic structure and organization of human cells, tissues and organ systems with an emphasis on the relationships between structure and function. The labs, which involve extensive microscopy, are strongly integrated with the lectures. Appropriate examples of histopathology will be explored.

Prerequisites: Biology 1202 and Biology 2203, each with a grade of C- or higher.

BIOL 3205 – Human Physiology II (formerly Z00L 3363)

(3 credits) 3 hours lecture, 3 hours lab

This course is a continuation of Biology 3104-Human Physiology I. The major topics studied in this course include the immune system, blood, the cardiovascular system, the respiratory system, the urinary system, the digestive system, metabolism, fluid and acid-base balance, metabolism and thermoregulation, and the body's response to exercise and stress.

Prerequisite: Biology 3104 with a grade of C- or higher.

BIOL 3206 – Embryology (formerly Z00L 3373)

(3 credits – TG) 3 hours lecture, 3 hours lab

Modern embryology involves a rapprochement between classical morphology and molecular mechanisms; this course uses both types of information to describe the development of vertebrate and invertebrate organisms. Topics include: gametogenesis, fertilization, cleavage, gastrulation, organogenesis and growth. Laboratory exercises will emphasize vertebrate model systems.

Prerequisite: Biology 1202 with a grade of C- or higher.

BIOL 3216 – Human Adaptation to Environmental Stress

(3 credits) 3 hours lecture

This course will address human physiological adaptations in response to extreme and diverse environmental conditions. Using applied examples and case studies, the problems of hypoxia (high altitude), high pressure (diving and submarines), high gravitational forces (fighter pilots), microgravity (space flight), radiation, circadian stress as well as excessive heat, cold, humidity and pollution may be examined. Students will play an active role in their understanding of environmental physiology through completion of an independent research paper and presentation of a specific area of interest.

Prerequisite: One of Biology 1212 or Biology 1216 or Biology 1221 or Biology 3205 with a minimum of C- or higher, or with the consent of the department.

BIOL 4101 – Advanced Cellular and Molecular Biology I

(3 credits) 1 hour lecture, 6 hours lab

In this course students carry out one or more laboratory research projects, obtaining experience with experimental design, data analysis, and laboratory techniques. Lectures provide students with guidance and relevant theoretical information.

Prerequisites: Biology 3101, 3102 and 3203 each with a grade of C- or better

BIOL 4102 – Pathophysiology: Mechanisms of Disease**(3 credits – TG) 3 hours lecture, 2 hours tutorial**

Students will study the development and consequences of diseases that result from alterations in the function of molecules, cells, organs and systems, including the influence of environment and genetics. The course will use a multidisciplinary approach to understand basic disease processes and their underlying mechanisms. The course will focus on a selected set of human diseases, chosen to illustrate fundamental features of pathophysiological processes.

Prerequisites: Biology 2202, Biology 3205, and Biochemistry 2201, each with a grade of C- or higher.

BIOL 4202 – Advanced Cellular and Molecular Biology II**(3 credits) 1 hour lecture, 6 hours lab**

In this course, students continue their laboratory research projects from the prerequisite course (Biology 4101 – Advanced Cellular and Molecular Biology I), obtaining experience with experimental design, data analysis, and laboratory techniques. Lectures provide students with guidance and relevant theoretical information.

Prerequisite: Biology 4101 with a grade of C- or higher.

BIOL 4203 – Current Topics in Cellular and Molecular Biology**(3 credits) 3 hours lecture**

Current topics in cellular and molecular biology, and related fields, will be explored through faculty- and student-led seminars. The seminar discussions will focus on peer-reviewed literature, covering both recent and landmark papers in selected topics. Students are required to present the findings of recent papers, participate in analysis of the findings, and complete written critical reviews of selected topics.

Prerequisite: Biology 4101 or equivalent with a grade of C- or higher.

BIOL 4204 – Evolution in Health and Disease**(3 credits) 3 hours lecture**

This course explores ways in which an understanding of evolutionary mechanisms both aids in the understanding of disease processes and informs the development of effective treatments. Emphasis will be placed on 'civilized diseases', which result from mismatch between our evolutionary history and modern lifestyles. In addition to evolution within our species, the course will examine co-evolutionary processes between pathogens/parasites and their human hosts.

Prerequisite: Biology 1202 with a grade of "C-" or higher, or equivalent.

BIOL 4206 – Viruses**(2 credits) 2 hours lecture**

This course provides an overview of the major categories of viruses, with emphasis on host-specificity and genetic mechanisms. It also deals with the use of viruses as vectors for genetic manipulations, and the effects of viral infections on our society.

Prerequisite: Biology 3101 or equivalent, with a grade of C- or higher.

BIOL 4207 – Womb to Tomb: Embryology, Development and Aging**(3 credits) 3 hours lecture, 3 hours lab**

This course examines the complete arc of the human life cycle, from fertilization to senescence. Particular emphasis will be placed on embryological development, and on ways in which diseases associated with aging may be forestalled, minimized or prevented. Labs will be devoted to the examination of chick and pig embryos.

Prerequisite: Biology 3204 with a grade of "C-" or higher, or equivalent.

BIOL 4208 – Seminars in Health Science**(3 credits) 3 hours lecture**

This is an interactive seminar and project-based course in which students will explore the themes of (1) critical appraisal of scientific and medical literature, (2) scientific integrity and professionalism and (3) scientific communication. Students will be given the opportunity for in-depth independent investigation on a topic of their choice in the area of human health science and related fields. A critical written review and oral presentation of the topic, as well as ongoing thoughtful contribution to class discussions will be required.

Prerequisites: Biology 3204, Biology 3205 and Philosophy 2223 with a grade of "C-" or higher or consent of the department.

BIOL 4209 – Neuroscience**3 credits – 3 hours lecture, 2 hours tutorial weekly**

This course is an exploration of the expansive field of neuroscience through a multidisciplinary examination of current research. The latest discoveries and techniques in the field will underscore an investigation into hot topics including neurogenesis, learning and memory, addiction, stress, pain, cognition and consciousness, emotional processing, motor control and selected diseases and disorders. An integrative understanding of the topics at a cellular, systems and behavioural level will be emphasized.

Prerequisites: Biology 3205 with a grade of C- or higher.

BIOL 4211 – Applied Human Physiology**(3 credits) 3 hours lecture, 3 hours lab**

This course will build on the knowledge of basic physiology of humans to address the integrated physiological responses of human subjects to work, exercise and environmental extremes. In addition, interactions between these stresses and aging, gender, heredity, nutrition and disease may be discussed. Students will play an active role in developing their understanding of applied human physiology through laboratory exercises, an independent group laboratory project and writing an independent literature review paper in a specific area of interest.

Prerequisite: Biology 3205 with a grade of C- or higher.

BIOL 4215 – Parasitology**(3 credits) 3 hours lecture, 1 hour tutorial**

This course provides an introduction to the biology of human parasites including protozoa, helminthes, and arthropods. Emphasis is placed on the cell biology, morphology, life cycle, epidemiology, pathogenesis and clinical manifestations of parasites of medical importance. In addition, the fundamental mechanisms in the parasite-host relation and defense mechanisms are studied.

Prerequisite: Biology 2202 with a grade of C- or higher.

BIOL 5201 – Independent Projects I**(3 credits) 6 hours lab**

This course provides the student with the opportunity to do real biological scholarship. The student will be expected to design and complete a project of their choosing in an area of biology under the guidance of a faculty supervisor. The project results will be presented as a paper and an oral seminar to the department. (After consultation with a departmental faculty member who will supervise the project, permission to take the course must be obtained from the department chair.)

Prerequisite: Any 3000 level Biology course and consent of the department.

BIOL 5202 – Independent Projects II**(3 credits) 6 hours lab**

This course provides the student with the opportunity to do real biological scholarship. The student will be expected to design and complete a project of their choosing in an area of biology under the guidance of a faculty supervisor. The project results will be presented as a paper and an oral seminar to the department. (After consultation with a departmental faculty member who will supervise the project, permission to take the course must be obtained from the Department Chair.)

Prerequisite: Biology 5201 and consent of the department.

BIOL 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

BLACKFOOT (BKFT)

BKFT 0130 – Introductory Blackfoot Language

(0 credits)

This is a credit free upgrading course; special fees apply. This is a basic introduction in both the written (using the Roman alphabet) and oral aspects of the Blackfoot language. The course will focus on grammar, vocabulary and oral skills.

CANADIAN STUDIES (CNST)

CNST 1131 – Introduction to Canadian Studies (formerly CNST 2231)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course introduces students to the diversity and complexity of Canadian society. Popular culture, art, music, politics, the economy, regionalism, and ethnic relations are some of the topics that may be examined. This course also addresses issues such as identity, difference, nationhood and patriotism.

Note: Canadian Studies 1131 = Athabasca University HIST 326. Students who take both Canadian Studies 1131 and History 2232 can obtain credit for Athabasca University HIST 329. Students may not, however, count Canadian Studies 1131 more than once.

CNST 2233 – Canada in Comparative and International Perspective (formerly CNST 3333)

(3 credits – TG) 3 hours lecture

This course offers the opportunity to examine and compare Canada, from a variety of perspectives, to one or more countries in the world. The specific content of the course will vary by term and instructor. Possible topics include popular culture, health care, legal systems, and military history.

CNST 2237 – Introduction to Folklore: the Canadian Context (formerly CNST 3337)

(3 credits – TG) 3 hours lecture

Introduction to the academic study of folklore: basic terminology, folk groups, performance and applications with examples taken from the Canadian and Albertan context. Introduction to traditional genres of folkloristic expression and analysis of current folk groups and their folklore.

CNST 3199, 4199 – Directed readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

CHEMISTRY (CHEM)

CHEM 0115 – Basic Chemistry I

(0 credits) 3 hours lecture, 1 hour tutorial, 3 hours lab

This is a credit-free upgrading course; special fees apply.

Topics include: matter and measurement in chemistry, atomic structure, periodic table, chemical formulae and nomenclature, chemical reactions and chemical equations, mole concept and stoichiometric calculations, chemical bonding solution, stoichiometry and gas laws. Students who successfully complete this course or its equivalent are adequately prepared to take Chemistry 0130.

Corresponding Alberta High School Equivalent: Chemistry 20.

Recommended Preparation: Pure Mathematics 10 or Equivalent.

CHEM 0130 – Basic Chemistry II

(0 credits) 3 hours lecture, 1 hour tutorial, 3 hours lab

This is a credit-free upgrading course; special fees apply. Topics include: solution stoichiometry, acids and bases, oxidation-reduction, energy changes, reaction rates, chemical equilibria, redox reactions and electrochemistry. This is a quantitative chemistry course and therefore some math skills are strongly recommended.

Corresponding Alberta High School Equivalent: Chemistry 30.

Recommended Preparation: Chemistry 0115 or Chemistry 20 AND Mathematics 0115 or Pure Mathematics 20.

CHEM 1201 – General Chemistry (formerly CHEM 2201)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 3 hours lab

This course builds on basic concepts learned previously. Topics include basic quantum mechanics, the periodic table and the chemistry of selected elements, atomic and molecular structure, various theories of chemical bonding, intermolecular forces and phase diagrams, and the major classes of organic and biological compounds. Laboratory exercises will reinforce lecture topics and develop laboratory skills and other competencies.

Prerequisite: Chemistry 30 and Pure Mathematics 30.

CHEM 1202 – General Chemistry II (formerly CHEM 2203)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 3 hours lab

This course builds on basic concepts covered in prerequisite courses. Topics include the properties of real gases and solutions, acid/base concepts, chemical kinetics, various equilibria (including acid/base, ionic, and solubility equilibria), elementary thermochemistry and thermodynamics, and electrochemistry. Laboratory exercises will reinforce lecture topics and develop laboratory skills and other competencies.

Prerequisite: Chemistry 1201 with a grade of C- or higher.

Recommended Preparation: Mathematics 1200.

CHEM 1203 – An Introduction to Organic Chemistry

(3 credits – TG) 3 hours lecture

This course is designed for students with a general interest in organic chemistry or for students requiring a one semester course in the above. Topics include nomenclature, structures, properties, and reactions of the major classes of organic and biologically important compounds. The principles of stereochemistry, reaction mechanisms and synthesis are presented.

Prerequisite: Chemistry 30 or equivalent.

CHEM 2101 – Organic Chemistry I (formerly CHEM 3351)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 3 hours lab

This is a first course in a sequence of introductory organic chemistry. Topics to be covered include structure and its effects on reactivity, nomenclature, stereochemistry, spectroscopy, reaction types such as substitution, elimination and addition from a mechanistic perspective, and an introduction to synthesis. The laboratory component of the course is designed to reinforce lecture topics and to further develop skills and competencies necessary in modern chemistry laboratories.

Prerequisite: Chemistry 1202 with a grade of C- or higher.

CHEM 2102 – Organic Chemistry II (formerly CHEM 3353)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 3 hours lab

This course continues the mechanistic exploration of organic chemistry introduced in the previous course. Lecture topics will include conjugated systems, carbonyl chemistry, aromaticity, substitution and addition reactions in aromatic, conjugated and carbonyl systems, radical reactions, enolate chemistry, pericyclic reactions and a more intensive look at synthesis of organic compounds. The laboratory component allows a more complete look the preparation of compounds and qualitative and quantitative organic analysis.

Prerequisite: Chemistry 2101 with a grade of C- or higher.

CHEM 2103 – Organic Chemistry

(6 credits) 6 hours lecture, 2 hours tutorial, 6 hours lab

Chemistry 2103 covers a full year of organic chemistry in one course. Topics include: structure and bonding; functional group classification; physical properties; stereochemistry; structure and reactivity relationships; and spectroscopic methods of structure determination. The mechanisms and expected products of several categories of organic reactions will be covered in significant detail in order to illustrate the principles of organic chemistry.

Prerequisite: Chemistry 1202 with a grade of C- or higher.

CHEM 2205 – Computers in Chemistry

(3 credits) 1 hour lecture, 2 hours lab

This course will provide the student with a basic knowledge of a number of computer programs that can be used to communicate or visualize chemical concepts. Programs used may include Microsoft Excel, Maple, ChemSketch (or other chemical drawing program), and Virtual ChemLab. The laboratory component will support the lecture by allowing students to use the programs to develop projects of their choosing.

Prerequisites: Chemistry 1202 (or the previous 2203) and Mathematics 1200 (or the previous 2249/2251) with a grade of C- or higher.

CHEM 2209 – General Chemistry for Engineers

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 3/2 hours lab (3 hours lab every 2 weeks)

This course covers basic chemical concepts and introduces atomic and molecular structure with a view to problems encountered in engineering. Topics of discussion include oxidation-reduction reactions, chemical kinetics and equilibria, the chemistry of water, the chemistry of energy sources and quantum theory in chemistry.

Prerequisite: Chemistry 30 or equivalent.

Note: Credit for both Chemistry 1202 and 2209 will not be allowed.

CHEM 2210 – Behaviour of Liquids, Gases, Solids

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 3/2 hours lab (3 hours of lab every 2 weeks)

Students will be introduced to the behaviour of fluids and solids; phase transformations, the phase rule and phase diagrams. Students will undertake an examination of ideal and real gases; equations of state and their applications to engineering; simple kinetic theory and the properties of fluids. In examining liquids emphasis will be placed on vapour pressure, shear behaviour, and fluid flow in pipelines. In addressing the behaviours of solids students will examine crystalline and non-crystalline structure, non-equilibrium solid phases, electrical and thermal conductivity, dislocations, stress and strain, creep and fracture in solids.

Prerequisite: Chemistry 30 or equivalent.

CHEM 2211 – The Chemistry Between Us

(3 credits) 3 hours lecture

Chemistry 2211 is a study of the Chemistry each of us experiences on a daily basis. Topics include: the nature of chemical species; food chemistry and metabolism; medications, cosmetics, and cleaning agents; explosives and propellants; energy and fuel sources; and environmental chemistry. Students will gain an understanding of chemical safety and the risks and benefits of living in a chemical world.

Recommended Preparation: Cluster 1 Foundation Level course.

**CHEM 2301 – Analytical Chemistry I: Quantitative Analysis (formerly CHEM 3101)**

(3 credits – TG) 3 hours lecture, 4 hours lab

This course stresses the importance of precision measurement in the practice of chemistry; the analytical methods employed in data manipulation and complexometric analysis. The laboratory component will focus on the development of analytical laboratory skills in organic and inorganic analysis.

Prerequisites: Chemistry 1202 and Mathematics 1200 with a Grade of C- or higher.

CHEM 2220 – Introduction to Atomic Theory and Chemical Bonding

(3 credits) 3 hours lecture

This course will enable students, currently and previously enrolled in the Bachelor of Engineering program (University Transfer Program), to take further chemistry courses. It will cover classical and quantum mechanical atomic theories and how they have been developed into useful models for understanding molecular bonding, structure and reactivity.

Prerequisites: Chemistry 2209 and Mathematics 1219 with a grade of C- or higher.

CHEM 2302 – Analytical Chemistry II, Introduction to Instrumental Analysis

(3 credits – TG) 3 hours lecture, 4 hours lab

This course follows Chemistry 2301 (Analytical Chemistry 1, Quantitative Analysis) and introduces students to the principles and practice of instrumental methods in quantitative analysis. Lectures will cover spectroscopic analysis (UV-visible, atomic absorption/emission), electroanalytical methods (potentiometry, voltammetry, coulometry and redox titrations) and analytical separation methods (extraction methods, chromatography [including ICP,HPLC,GC,GC-MS] and capillary electrophoresis). Labs will cover quantitative analysis of organic and inorganic materials using some of the above methods.

Prerequisite: Chemistry 2301 with a grade of C- or higher.

CHEM 3103 – Advanced Organic Synthesis

(3 credits – TG) 3 hours lecture, 4 hours lab

This course deals with the synthetic aspects of organic chemistry: oxidations, reductions, concerted reactions, stereoselectivity, synthetic equivalents, and protecting groups. The reaction types will then be used in planning efficient synthetic pathways towards important complex target molecules such as clinical drugs and natural products. The laboratory component will emphasize isolation, purification, and characterization of major and minor products from selected syntheses.

Prerequisites: Chemistry 2102 with a grade of C- or higher.

CHEM 3201 – Spectroscopy

(3 credits) 3 hours lecture, 3 hours lab

This course is an exploration of atomic and molecular spectroscopy and application of group theoretical concepts. Topics will include vibrational, absorption and emission spectroscopy, both single and multidimensional NMR based on various nuclei, as well as mass spectrometry. Fundamental theories that lead to spectral phenomenon, as well as the application of these theories in the identification of complex unknowns will be addressed both through lecture and laboratory work.

Prerequisite: Chemistry 2102 with a grade of C- or higher.

Pre or Co-requisite: Chemistry 3602 or department consent.

CHEM 3357 – Industrial Organic Chemistry

(3 credits – TG) 3 hours lecture, 1 hour tutorial

Topics discussed in this course include: the hybridization of the carbon atom; covalent bonding; reactions of alkanes, alkenes, alkynes and aromatic hydrocarbons; functional groups and their reactions; polymerization and industrial applications. Major projects will include cradle-to-grave analysis of an assigned organic compound and theoretical development of new recycling methods for organics.

Prerequisite: Chemistry 2209 or equivalent.

CHEM 3401 – Solid State

(3 credits) 3 hours lecture, 1 hour tutorial, 4 hours lab

This course is a study of the models and concepts underlying the field of inorganic chemistry, and the physics of chemical species in the solid state. Topics covered will include coordination complexes, crystal structures, and electronic models of solids. The laboratory component involves synthesis and analysis of inorganic compounds, investigation of semiconductor materials, and research on nanotechnology. Credit for both Chemistry 3401 and Physics 3401 will not be permitted.

Prerequisites: Chemistry 1202 and Physics 1202, both with a grade of C- or higher.

NOTE: Credit for both Chemistry 3401 and Physics 3401 will not be allowed.

CHEM 3601 – Thermodynamics

(3 credits) 3 hours lecture, 3 hours lab

This is an introduction to thermodynamics from a classical, macroscopic perspective. Lecture topics will include the laws of thermodynamics, Maxwell relations, internal energy, enthalpy, entropy, Helmholtz and Gibbs free energies, chemical potential and equilibrium, as well as a detailed study of the Kinetic Theory of Gases for mono- and polyatomic gases, both ideal and real. The laboratory component will support the lecture material through theoretical modeling and basic thermodynamic and kinetic experiments.

Prerequisites: Chemistry 1202, Physics 1202 or 1212 and Mathematics 1202, with a grade of C- or higher or department consent.

Note: Credit for both Chemistry 3601 and Physics 3601 will not be allowed.

CHEM 3602 – Elementary Quantum Mechanics

(3 credits) 3 hours lecture, 3 hours lab

This is an introductory course in quantum mechanics. The basic theories and formalism of quantum mechanics will be developed, followed by its application to a variety of model systems from atomic and molecular physics and chemistry; including a discussion of electron spin with reference to both single- and multielectron atoms. The lab will reinforce the lecture topics through both computer simulations and experiments to illustrate the use of quantum mechanics in spectroscopy.

Prerequisites: Chemistry 1202, Mathematics 2207 and Physics 2201 with grades of C- or higher, or department consent.

Note: Credit for both Chemistry 3602 and Physics 3602 will not be allowed.

CHEM 3801 – Nuclear Chemistry

(3 credits) 3 hours lecture, 1 hour tutorial, 2 hours lab

This course is a study of the models, applications, and politics of nuclear science. Topics covered will include quantitative and qualitative descriptions of nuclear chemistry; the nuclear politics of warfare, global energy security, and reactors; nuclear medicine; and cosmology. The laboratory component includes both data analysis exercises and formal discussions on the role of nuclear technology in our world.

Prerequisites: Chemistry 1202, Physics 1202 and Mathematics 1202, all with a grade of C- or higher.

CHEM 3802 – The Science and Politics of Nuclear Energy

(3 credits) 3 hours lecture, 1 hour lab

This course is designed for students with an interest in how nuclear energy impacts our world. Students will explore the science, politics, and policies surrounding nuclear technology in Canada and abroad. Lecture topics include nuclear warfare, classification of radiation, nuclear reactors in Canada, nuclear politics, global energy security, and the future of nuclear energy.

Prerequisites: General Education 11XX, and General Education 13XX

CHEM 4213 – Drug Discovery

(3 credits – TG) 3 hours lecture

This course illustrates the interrelation of Chemistry and Biology in the process of drug discovery and development. Topics include methods of lead discovery and optimization, classes of drug targets, structure-activity relationships and bioisosterism, and radiopharmaceuticals. Concepts will be illustrated using the development of several clinical drugs as examples.

Prerequisite: Chemistry 3103 with a grade of C- or higher.

Pre or Co-requisite: Biology 4212.

CHEM 4701 – Molecular Modelling

(3 credits) 2 hours lecture, 2 hours lab

This is an introductory course in molecular modelling. The formalism, advantages, and drawbacks of a number of models will be discussed through the study of the shape, symmetry, and properties of inorganic, organic, and biological systems. The lab will reinforce the lecture topics through hands-on computer simulations of various molecular systems, including some chosen by the student.

Prerequisite: Chemistry 3602 or Physics 3602 with a grade of "C-" or better or department consent.

CHEM 5201 – Independent Projects I

(3 credits) 6 hours lab

Students will be expected to design and complete a project of their choosing in some area of Chemistry under the guidance of a supervisor. The project results will then be presented as a paper and an oral presentation to the department. To register in this course, you must first consult with a departmental faculty member who will supervise your project and obtain permission from the department chair.

Prerequisite: Consent of the department.

CHEM 5202 – Independent Projects II

(3 credits) 6 hours lab

Students will be expected to design and complete a project of their choosing in some area of Chemistry under the guidance of a supervisor. The project results will then be presented as a paper and an oral presentation to the department. To register in this course, you must first have a research proposal approved by the departmental faculty member who will supervise your project and obtain permission from the department chair.

Prerequisite: Chemistry 5201 and Consent of the department.

CHEM 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

CHILD AND YOUTH CARE COUNSELLOR (CYCC)

CYCC 1110 – Fundamental Skills in Interviewing

(3 credits) 3 hours lecture

This course emphasizes the acquisition of skills necessary to interview individuals on a one-to-one basis. Students' attitudes towards the helping relationship and strategies for facilitating relationships will also be explored. Students will learn basic communication skills and styles and be challenged to create goals related to their own communication style.

CYCC 1130 – Mental Health and Substance Abuse Issues (formerly HLTH 1130)

(3 credits) 3 hours lecture

This course will examine a variety of mental health and substance abuse issues affecting children, youth and families. Students will learn risk and protective factors and examine best practices (i.e. assessment, intervention and referral) relevant to serving those impacted by mental health and/or substance abuse issues.

CYCC 1132 – The Profession of Child and Youth Care

(3 credits) 3 hours lecture

This course is the foundation for all subsequent Child and Youth Care Counsellor courses. Students are challenged to explore their belief and value systems, gain self-awareness and understand the personal impact when working with vulnerable children, youth and families. The history and scope of the CYC child and youth care profession are also examined.

Note: Child and Youth Care Counsellor 1132 is a prerequisite for all subsequent Child and Youth Care courses.

CYCC 1142 – Fieldwork

(3 credits) 3 hours tutorial, 45 hours fieldwork

This course is an observation fieldwork experience which allows students the opportunity to observe a variety of child welfare, justice, community and educational programs. In seminar, students will explore their "professional presentation of self" through the development of a portfolio, journal writing, self care practices and discussions of ethical practice.

CYCC 1221 – Fundamental Skills in Counselling

(3 credits) 3 hours lecture

This course emphasizes the acquisition of skills necessary to counsel individuals on a one-to-one basis. Students' attitudes toward professional relationships and issues in child and youth care counselling are explored.

CYCC 1232 – Working with Vulnerable Children, Youth and Families**(3 credits) 3 hours lecture**

This course emphasizes attitudes, knowledge, skills, and proficiencies unique to the competent child and youth care counsellor. This course will explore interventions and strategies utilized when working with vulnerable children, youth and families within a variety of environments.

CYCC 2210 – Policies, Systems, and Issues Regarding Children and Youth (formerly CYCC 1210)**(3 credits) 3 hours lecture**

This course examines the political, systemic and legal issues regarding children and youth, including current provincial and federal legislation. Issues of delinquency, socialization, advocacy for vulnerable children and youth, and professional and ethical practice, are examined within the contexts of historical, ecological and environmental factors.

CYCC 2216 – Group Process and Counselling Theory (formerly CYCC 1216)**(3 credits) 3 hours lecture**

This course is designed to connect the theories of counselling to group process and facilitation. Students will acquire the skills necessary to counsel individuals in group situations and to facilitate groups effectively. The role of groups in the treatment of vulnerable children, youth and families is explored.

CYCC 2226 – Assessment and Intervention (formerly CYCC 1226)**(3 credits) 3 hours lecture**

This course integrates theory and practice, providing students with the tools they will need to effectively assess, evaluate and provide intervention for vulnerable children, youth and families.

CYCC 2235 – Youth Care Practice with Families (formerly CYCC 1235)**(3 credits) 3 hours lecture**

This course examines diverse family types, focusing on assessing family needs and dynamics through systems theories. Students will learn intervention strategies for working with vulnerable children, youth and families.

CYCC 2241 – Practicum (formerly CYCC 1241)**(6 credits) 2 hours tutorial, 210 hours fieldwork**

Students complete a practicum in a residential setting, school or community agency to learn the specific skills required to work with vulnerable children, youth and families. They will have the opportunity to integrate theory and practice through seminars and supervised experiences.

CYCC 2242 – Practicum (formerly CYCC 1242)**(6 credits) 2 hours tutorial, 210 hours fieldwork**

This course is a continuation of Child and Youth Care Counsellor 2241.

CYCC 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

CHILD STUDIES (CHST)**CHST 1101 – Professional Preparation****(3 credits) 3 hours lecture**

This course introduces dimensions of professionalism to prepare students for success in the Bachelor of Applied Child Studies program and within the human services field. This course will focus on such as topics as professional communication skills, group/team effectiveness, self care, and professional roles within the community.

CHST 2010 – Directed Field Studies I**(15 credits – TG) 16 weeks**

Students in the Bachelor of Applied Child Studies program will complete directed field studies in a community agency that serves children and families, external to Mount Royal University. Students will work with professionals from related disciplines and gain experience from direct practice in a variety of professional roles.

Prerequisite: Completion of Semesters 1-4 or consent of the department.

CHST 2201 – Social and Environmental Conditions**(1.5 credits – TG) 1.5 hours lecture**

This course examines environmental and social factors such as poverty, violence and abuse, family structure and dynamics and their potential impact on the developing child.

CHST 2203 – Child and Youth Human Rights**(3 credits) 3 hours lecture**

This course will address prevailing issues pertaining to child and youth human rights, within the context of the United Nations Convention on the Rights of the Child. This course will also explore human rights advocacy at local, national, and international levels and consider implications for professional practice in Canada.

CHST 2211 – Disabling Conditions**(3 credits – TG) 3 hours lecture**

This course examines disabling conditions that may be experienced by children and adults and may have an impact on development.

CHST 2241 – Observing Children in Play-Based Settings**(1.5 credits) 1.5 hours lecture**

This course provides the foundation, knowledge, and skills in observing children and relating observations to knowledge of child development and factors that affect development. Students will utilize a variety of observation and assessment tools to guide their observations of children in different settings. The seminar will provide the opportunity for students to discuss their observations and link their observations to theoretical knowledge.

Pre or Co-requisites: Child Studies 2201 and Psychology 3351 or equivalents.

CHST 2243 – Observing Child Studies Systems**(1.5 credits – TG) 1.5 hours lecture**

This course provides the foundation knowledge and skills for observing children, youth and adults and relates these observations to knowledge of factors that affect development. Students will utilize a variety of observations and assessment tools to guide their observations in different settings. The seminar will provide the opportunity for students to discuss their observations and link their observations to theoretical knowledge.

CHST 2281 – Introduction to Child Focused Services**(3 credits – TG) 3 hours lecture**

This is an introductory course, which will provide an overview of interdisciplinary community practice with children in the contexts of their families and communities.

CHST 2283 – Supporting Children Through Play**(3 credits – TG) 3 hours lecture**

This course will examine the importance of learning through play and planning play programs for children 0-12 in group care settings as well as after school care and school age programming. Issues regarding health, safety and nutrition and early prevention/intervention will be explored.

Prerequisite: Child Studies 2281 or equivalent.

CHST 3010 – Directed Field Studies II**(15 credits – TG)**

Students in the Bachelor of Applied Child Studies program will complete directed field studies in a community agency that serves children and families, external to Mount Royal University. In addition to the provision of direct service, students will be involved in the development and evaluation of programs and in leadership and supervisory roles.

Prerequisites: Completion of Child Studies 2010 and Semesters 1-6 or consent of the department.

CHST 3301 – Policies and Issues

(3 credits – TG) 3 hours lecture

In this course students will examine the process by which social policy is developed in Canada, and understand the ways in which the process of policy development can be influenced. A review and analysis of social problems, policies and issues as they relate to the delivery and development of appropriate local, provincial and national services will occur.

CHST 3303 – Working with Families

(3 credits – TG) 3 hours lecture

This course will address the stresses involved in child rearing today, and provide students with the opportunity to learn how to assess families' needs, to learn a variety of strategies related to communicating effectively with family members, and to provide information, support or a structured intervention program to families as appropriate.

CHST 3305 – Diversity Issues

(3 credits – TG) 3 hours lecture

This course will provide knowledge, experiences, skills and an attitudinal orientation that will enable students to recognize and honour diversity in all aspects of their work with children, families and communities.

CHST 3307 – Community Development

(3 credits – TG) 3 hours lecture

In this course, students examine the theory and history of community development in Canada. They are taught ways to conduct capacity inventories and to find and mobilize various associations or volunteer groups.

CHST 3309 – Interviewing Skills

(3 credits – TG) 3 hours lecture

This course is designed to provide students with an understanding of the interview process, and its application to working with diverse populations of children, youth and adults. The course will provide students with the opportunity to practice interviewing skills, and learn about the ethical issues related to interviewing.

Prerequisite: Interdisciplinary Studies 1240 or equivalent.

CHST 3311 – Program Planning and Evaluation

(3 credits – TG) 3 hours lecture

This course will assist in preparing students to work effectively within the nonprofit sector by increasing their knowledge and skills of program planning and evaluation. Students will learn how to use a programming framework that involves the processes of program preparation, implementation, and evaluation for developing community-based nonprofit programs. Such programs may offer services to children, youth, adults, or families in communities ranging from local neighbourhoods to international locations within the nonprofit sector.

CHST 3341 – Observing Services for Children and Youth with Disabilities

(1.5 credits – TG) 1.5 hours lecture

In this course, students will observe a number of inclusive community agencies. The seminars will focus on the way in which each agency contributes to the well being of children, families and the community, and ensures that the service is inclusive.

Prerequisites: Child Studies 2281 and 2283 or equivalents.

CHST 3381 – Children and Youth at Risk

(3 credits – TG) 3 hours lecture

This course will examine in-depth the many factors – social, economic, generational, environmental – which impact youth at-risk. Within this context, students will gain knowledge of existing programs, which meet the needs of youth at-risk and identify gaps that exist within the community.

CHST 4401 – Working with Groups

(3 credits – TG) 3 hours lecture

The purpose of this course is to develop and practice group facilitation and leadership skills as well as enhance the student's understanding of self within the group process. To achieve this aim, the students will both design and participate in a group.

CHST 4403 – Community Based Research

(3 credits – TG) 3 hours lecture

This course will enable students to develop the knowledge, skills and attitudes necessary to plan and conduct effective research. Students will also learn to critically evaluate the components of sound research design and the practical application of research in working with children, families and communities.

CHST 4405 – Ethics and Ethical Issues

(3 credits – TG) 3 hours lecture

This course will review the foundation of ethics and ethical decision making from an historical and philosophical perspective. Students will have the opportunity to examine some basic ethical issues and dilemmas.

CHST 4407 – Leadership in Human Services

(3 credits – TG) 3 hours lecture

This course examines the basic theme of the central question "What do leaders do when they lead?" Students will explore the theory and practice of leadership, developing an understanding of how leaders lead and why leaders act the way they do and examine the unique role of leaders in human service programs.

CHST 4441 – Observing Specialized Services for Children and Youth

(1.5 credits – TG) 1.5 hours lecture

In this course students will observe a number of specialized services and programs for children at risk and children with special needs. The seminars will focus on the way in which each service contributes to the well being of children, families and communities.

Pre or Co-requisites: Child Studies 2281, 2283 and 3381 or equivalents.

CHST 4443 – Community Collaboration

(1.5 credits – TG) 1.5 hours lecture

This course will assist students in understanding the dynamics, techniques and potential of successful collaboration. Students will observe collaboration in child focused services and analytical discussion will occur in seminars.

Co-requisite: Child Studies 3307 or equivalent.

CHST 4481 – Children's Mental Health interventions

(3 credits – TG) 3 hours lecture

In this course students will be introduced to a variety of assessment tools, programs (such as Head Start, Early Intervention, Early Literacy) will be reviewed and strategies such as music, art and drama therapy for children with specialized needs, as well as supported inclusion will be reviewed.

CHINESE (CHIN)

CHIN 1105 – Beginners' Chinese I (formerly CHIN 2205)

(3 credits – TG) 4 hours lecture, 1 hour lab

Basic concepts of the Chinese National Language Reading and writing of characters, essentials of grammar, basic vocabulary, and oral drills on normal speech patterns.

Prerequisite: Consent of the department.

Note: This course is not open to students with a background in a Chinese dialect. All students seeking entry into Chinese courses for the first time must consult the department.

CHIN 1107 – Beginners' Chinese II (formerly CHIN 2207)

(3 credits – TG) 4 hours lecture, 1 hour lab

Continuation of Chinese 1105.

Prerequisite: Chinese 1105 or consent of the department.

CHIN 2217 – Chinese Civilization (formerly CHIN 3317)

(3 credits – TG) 3 hours lecture

Discussion of the principal trends in the development of the Chinese civilization and its place in the Asian setting.

Note: This course is given in English and no knowledge of Chinese is required.

CHIN 3199, 4199 – Directed readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

CLASSICS (CLAS)

CLAS 1111 – The Technical Terms of Medicine and the Life Sciences (formerly CLAS 2211)

(3 credits – TG) 3 hours lecture

The Greek and Latin elements of modern medical and life-sciences terminology.

COMMUNICATIONS (COMM)

COMM 1112 – Introduction to Radio Writing

(3 credits) 3 hours lecture

This course is reserved for Broadcasting students, and is designed to provide students with necessary skills required to write for radio. Students are introduced to the art of writing for sound through writing and producing commercial and public service announcements. In addition, students learn research techniques, interviewing, logging, programming as well as how to contact and work for advertising clients and prepare radio campaigns.

COMM 1114 – Introduction to Broadcast Journalism (Radio)

(3 credits) 1 hour lecture, 1 hour tutorial, 2 hours lab

This course is reserved for Broadcasting students and is designed as an introduction to journalism for radio, with concentration on newsgathering and news presentation. While developing students' radio news judgement, this course will also develop students' general news judgement. Students will learn to write news for broadcast.

COMM 1116 – Introduction to Radio Operations

(3 credits) 1 hour lecture, 2 hours tutorial

This course is reserved for Broadcasting students and emphasizes the operation of typical equipment used in most am and fm radio stations. Students will learn the techniques involved in the cueing and playing of various audio formats. They are also taught editing, recording and dubbing, program mixing and microphone techniques. Other areas covered include program preparation, documentary production, production values, programming and music selection. Students will also spend at least two hours each week on-air on CMRC, our internet radio station.

COMM 1144 – Digital Photography for Broadcast

(3 credits) 1 hour lecture, 2 hours tutorial

This is an introductory course designed to provide the second-year broadcasting students with basic knowledge of digital photography techniques and the use of Adobe Photoshop and its applications to the television medium. Topics include: digital camera operations, exposure control, lighting, composition, colour correction, file formats and the use of Adobe Photoshop to create backdrops for green screen use. Students should supply their own 5 MP or better digital camera.

COMM 1201 – Advanced Radio Operations

(3 credits) 2 hours lecture, 2 hours lab

Students will receive advanced audio technical skills, specific to their course choice. All students will engage in a variety of live and pre-produced broadcast exercises that will allow them to demonstrate these advanced production skills. In addition, students will participate in various group projects such as radio dramas and variety/talk shows. Each student will be required to work weekly shifts in all areas of CMRC's operation.

Prerequisites: Communications 1112, 1114 and 1116.

COMM 1202 – Radio Commercial Writing

(3 credits) 1 hour lecture, 3 hours tutorial

This course is designed to expand the fundamental radio writing skills of students through regular weekly copy-writing assignments for use on CMRC, editorial writing, research for talk show format, production of radio documentaries, and production of commercials and public service announcements. Students will also be working on a variety of presentation and promotional assignments, many in conjunction with Communications 1201.

Prerequisites: Communications 1112, 1114 and 1116.

COMM 1203 – Radio News

(3 credits) 1 hour lecture, 3 hours tutorial

Through regular assignments for use on the CMRC radio station, students are trained to handle an increasing volume of work under pressure of deadlines and to apply broadcast journalism skills through reporting on meetings, panel discussions and press conferences. Students will complete a ten-minute radio current affairs documentary. In addition, students will be assigned a regular news beat and will report on their beat at regularly scheduled intervals throughout the semester. Students will also host various current affairs programs such as live election night specials, political convention coverage and live coverage of public meetings.

Prerequisites: Communications 1112, 1114 and 1116.

COMM 1204 – Broadcast Journalism (Television)

(3 credits) 1 hour lecture, 2 hours lab

Students are introduced to the television application of Broadcast Journalism. Through regular news assignments for CMRC-TV News Shows, using electronic newsgathering equipment and techniques, students will develop newsgathering, writing, reporting and presentation skills for television.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1205 – Radio Practicum

(3 credits) 90 hours practicum over 3 weeks

This course provides a practical experience in radio broadcasting through one or more internships with local radio stations. Areas of emphasis will include commercial writing, foreground writing, research, radio news, traffic, music library and radio production.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1206 – Radio Performance

(3 credits) 1 hour lecture, 2 hours tutorial

This course will focus on news reading and broadcast presentation skills. Emphasis is placed on interpretation and the ability to lift the word from the printed page with credibility. Students will also write and perform a commentary.

Prerequisite: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1209 – Television Operations

(3 credits) 3 hours lecture, 7 hours tutorial over 3 weeks

This course provides an introduction to the operation of basic television equipment: television camera, audio board, television lights, microphones, video switcher and television graphics. This course will also include basic interviewing techniques for television.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1211 – Advanced Television Production

(6 credits) 1 hour lecture, 2 hours tutorial, 6 hours lab

In this course, students will acquire sophisticated operational skills on television equipment through a practical approach to production techniques including commercial, program and news production and pre-production projects; principles of directing; and advanced operational skills including editing, shooting and lighting for both studio and on-location projects.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1213 – Extended Broadcast Studies

(3 credits) 1 hour lecture, 2 hours tutorial

This course runs in tandem with Communications 1211. It is designed to provide second-year broadcasting students in the operations 'stream' with increased exposure to broadcast production techniques. Topics include: advanced audio recording and camerawork, nonlinear editing, specialized lighting and mobile productions.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1240 – Television Program Production and Television Operations

(3 credits) 1 hour lecture, 2 hours tutorial, 3 hours lab

Students learn the techniques and disciplines of television production in this course. This course further develops skills in audio, lighting, VTR editing, camera, studio directing and switching. Students will be introduced to Electronic Field Production. Directing a television interview will form the basis of learning the basic principles of directing. Students also develop skills in on-air work.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1241 – Television Creative Writing/Producing

(3 credits) 1 hour lecture, 2 hours tutorial, 3 hours lab

This course is designed to introduce students to the basics of television commercial writing and production. The theory of commercial writing will be discussed and sample commercials will be viewed and analyzed. Practical exercises in commercial writing and production will be carried out on a weekly basis, enabling students to produce commercials, promotional materials and presentations.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1242 – Advanced Television Creative Writing/Producing

(6 credits) 1 hour lecture, 2 hours tutorial, 6 hours lab

This course is for students who wish to continue on a more advanced level towards qualifying for a writer/producer position in a commercial television station operation. More advanced writing and production techniques will be examined and carried out, along with a number of presentation and commercial projects.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1244 – Broadcast Industry Organizational Structure

(3 credits) 1 hour lecture, 2 hours tutorial

This course gives students an understanding of Broadcast organizations and companies, including the varied landscape of media ownership, content distribution, revenue sources, and licensing requirements. Factors such as new technology, the regulatory framework in Canada, and challenging economic environments past and present will be examined in the context of how these factors impact the product that ultimately is picked up by broadcast audiences.

Prerequisite: all previous Broadcast courses in semesters 1, 2 and 3.

COMM 1245 – Advertising for Broadcasters

(3 credits) 1 hour lecture, 2 hours tutorial

This course covers the theory and practice of advertising. The specifics will include communication plans and focus group testing, both done in conjunction with Communications 1242 assignments. Students will learn the basics of print advertising, media campaigns, media buying, marketing and various advertising techniques currently used.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1246 – Broadcast Sales

(3 credits) 1 hour lecture, 2 hours tutorial

This course covers is reserved for Broadcasting students and covers the disciplines and techniques used by radio and television salespersons. Media sales terminology, media buys, station ratings, types of rate cards and their use, sales presentations and marketing theory will form the basis for this course.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1247 – Television News Production

(6 credits) 1 hour lecture, 2 hours tutorial, 6 hours lab

This course is for students who wish to specialize in television news. The focus of the course will be the theory and practice of news line-up, writing, reporting, presenting and producing.

Prerequisite: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1248 – Television News and Documentary Writing

(3 credits) 3 hours lecture

This course is for students who wish to specialize in television news. It emphasizes advanced techniques for writing news for television, including the principles and practices of beat reporting, as well as reporting politics, business and social issues. Investigative reporting principles and practices will be introduced.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1281 – Television Practicum

(3 credits) 90 hours practicum over 3 weeks

This course will be offered in the Spring Semester following the fourth semester in the Broadcasting program. Communications 1281 will provide a practical experience in television through one or more internships with television stations and production companies. Areas of emphasis will include commercial writing and producing, promotions, operations and news.

Prerequisites: All previous required 1100-level and 1200-level Broadcasting courses.

COMM 1600 – Foundations of Information Design

(3 credits) 3 hours lecture

Introduction to information design through a survey of the field's evolution and current status; its theoretical foundations, key concerns and issues, core competencies and specializations, and the technologies and societal trends that will impact the work of information in the future. Emphasis is placed on developing a strong professional identity and the process of career planning.

COMM 1610 – Tools for Information Designers

(3 credits) 3 hours lecture, 1 hour lab

Information design occurs over a variety of media, uses a variety of strategies, and a range of specialized tools. This course introduces students to the software environments that have been adapted to meet strategic issues in design. Using a case-study approach, the course requires students to solve real-world information design problems using appropriate tools and methods. The course is roughly divided between paper-based and web-based and digital publishing outcomes. Major topics include file management, text management, graphics; quality assurance, color systems, preformatted elements, and multi-purposing.

COMM 1620 – Foundations of Graphics

(3 credits) 3 hours lecture, 1 hour lab

An inquiry into the foundations of graphics as they relate to visual communication and visual problem solving. The goal is to develop an understanding of the inventive potential of form to create meaning. The emphasis will be on developing this understanding through an iterative process of research, practice, and analysis. Students will interpret project criteria and produce visual solutions for specific assigned problems. Emphasis will be placed upon original concept development and the use of formal design principles.

Pre or Co-requisites: Communications 1610 and 1600.

COMM 1661 – Technical Writing I

(3 credits) 2 hours lecture, 1 hour tutorial

Examination of the principles and techniques of technical writing. Through analysis of selected technical prose and directed practice in writing, students will develop competence in the presentation of technical information for a variety of audiences. Technical writing includes a wide range of purposes and forms. This course covers, but is not limited to the principles of analysis, process, definition; progress, recommendation, and research reports; proposals and memoranda; transitions, and the mechanics of clear and precise statements. Additional topics will include forms and styles of technical description, procedures, business plans, policies and an introduction to the integration of text and graphics.

COMM 1700 – Journalism in Society

(3 credits) Blended delivery, 2 hours lecture and 1 hour online

Journalism is a product of social interaction and is shaped by a range of societal forces. Through a focus on the concept of the news agenda, students will consider the nature of news, the structures and conventions that shape how journalists gather and present news, the role news plays in democratic societies, the importance of ethical and professional practice considerations, and the influence of external 'voices' on the decisions journalists make daily.

**COMM 1707 – Journalism Elements**

(3 credits) 6 hours lecture / tutorial combined, and one hour online

This multifaceted and multidisciplinary course will introduce students to the goals, structure and craft of twenty-first-century broadcast, photo, and print journalism. Work will include researching, reporting, writing and illustrating news stories on events and developments in local communities. An online component will focus on grammar development and current events. Students will be encouraged to adopt reflective and creative approaches to the development of their skills, knowledge and abilities.

COMM 1709 – Journalism Practice

(3 credits) 6 hours lecture / tutorial combined, and one hour online

Having been introduced in Journalism Elements to the multifaceted and multidisciplinary nature of contemporary journalism, student journalists will now complete significant projects in broadcast, photography and print. An online component will focus on Canadian Press style rules and the program's ethical practice policy. Each student will complete an electronic portfolio as a showcase of their work, and as an archive of reflection on their development and learning as a journalist.

Prerequisite: Communications 1707.

COMM 1720 – Managing Digital Media

(3 credits) 3 hours lecture and tutorial combined

With the potential for any one news story to be edited for use in a variety of ways, and presented in a variety of formats, it is imperative that journalists understand the demands, legal implications and structure of digital file creation, alteration, movement and management. Using media production software, and with a focus on file management, students in this course will use their own work to create a range of media files, and store and retrieve these files for an online production project.

Prerequisite: Communications 1707. Journalism Certificate students exempted.

COMM 1841 – Introduction to Public Relations

(3 credits – TG) 2 hours lecture, 1 hour tutorial

This course will provide students with an overview of the field of public relations and environments in which practitioners work. Public relations will be considered from the perspective of human communication theories. Students will also learn the history and role of public relations in different organizational settings, and all key components of the public relations process from both a theoretical and practical point of view. Issues facing the practitioner and the industry will also be discussed.

COMM 1845 – Interpersonal Communications

(3 credits – TG) 3 hours lecture

This course introduces the fundamentals of interpersonal communications with a focus on 'influencing with integrity'. Students will practice communicating one-on-one and in small groups; learn effective listening and conflict resolution skills; appreciate differences in others; and examine personal values, intentions and behaviours.

COMM 1849 – Applied Writing I for Public Relations

(3 credits) 2 hours lecture, 2 hours tutorial

This course will introduce students to intermediate-level elements of writing for specific communications disciplines. Considerations of audience, purpose and technique in media will be examined for a variety of writing assignments in public relations.

Prerequisite: Communications 1841.

COMM 2500 – Introduction to Communication Studies (formerly ACOM 2500)

(3 credits – TG) 3 hours lecture and tutorial combined

When we consume information or communicate with others we are sharing and assessing facts, ideas, opinions, and biases. In doing so we are developing a sense of who we are as individuals, and we're also making decisions about how our world functions. This course will introduce students to the discipline of Communication Studies, and permit examination of a range of communication theories, which describe these dynamic social and personal processes.

**COMM 2501 – Media History and Contemporary Issues**

(3 credits) 3 hours lecture and tutorial combined

This course surveys the development of civilization through the lens of human communication and information technology. Starting with Ice Age artifacts and progressing through emergence of the first writing systems, the alphabet, early literacy and the printing press, emphasis on the social impacts of communication developments into the 20th century further prepares students for critical assessment of technology convergence, participatory media and generational issues that mark the globalized world of New Media today.

**COMM 2663 – Rhetoric**

(3 credits) 3 hours lecture

This course gives students the opportunity to refine their writing skills by applying the principles of rhetoric and stylistics. To this end, analysis of such realms of discourse as advertising, magazine articles, fiction, political speech and debate will be emphasized to understand how these forms of communication achieve their effects. The rhetorical analysis of texts will, moreover, apply to students' own writing. Rhetorical theory and application will, in other words, be closely linked to ensure that students understand, through practice, the stylistics resources available in language that make ideas clear, cogent and compelling.

Prerequisite: Communications 1661.

COMM 2666 – Typography

(3 credits) 2 hours lecture, 2 hours lab

Introduction to the topic of typography and examination of the role of type in visual communication and information design through normative and conceptual relationships. Topics will include principles of typography and layout, concept development, and the historical foundations of typography. Students will use typographical principles and methods of visual organization to solve assigned communication problems.

Prerequisites: Communications 1600, 1610 and 1620.

COMM 2667 – Information Architecture

(3 credits) 3 hours lecture

Introduction to the principles and best practices of effective information design for both print and electronic media. The course includes such topics as information types, information categorization and hierarchies, types of organizational patterns, message and document genres, structural markup languages, structured information design and technologies, content management, and single sourcing.

Prerequisites: Communications 1661 and 1600.

COMM 2670 – Programming for Information Designers

(3 credits) 2 hours lecture, 1 hour tutorial

Discussion of, and practice with, programming techniques with emphasis on web-based applications. Elements of good style and usability are introduced.

Prerequisite: Communications 1610.

COMM 2673 – Introduction to Digital Layout

(3 credits) 2 hours lecture, 2 hours lab

An introduction to digital layout and presentation graphics. Students will learn how to develop and organize information to be used for a variety of print media. A series of problems based on the relationship between typography and imagery will be assigned.

Prerequisites: Communications 1620, 1610 and 2666.

COMM 2680 – Intercultural Communication in Information Design

(3 credits)

This course serves as an introduction to the field of intercultural communication and the cultural aspects and effects of information design. This course considers the field of social semiotics and the theoretical and practical study of these cultural aspects in areas including, but not limited to, discourse in place, social semiotics and the grammar of visual design.

Prerequisites: Communications 2666 and 2667.

COMM 2803 – Applied Visual Communication for Public Relations

(3 credits) 3 hours lecture

Communications 2803 is a survey of major issues, techniques, and strategies in visual communications. Principles of graphic communication, design and layout will be applied to the production of a variety of print-based media including newspapers, newsletters, reports, manuals and brochures, using current computer-based page-layout and graphics programs. Typography and the uses of paper as they affect the options for printing processes will be examined and applied.

Prerequisite: Consent of the department.

COMM 2849 – Applied Writing II for Public Relations

(3 credits) 2 hour lecture, 2 hours tutorial

In this course, students move beyond the basics in public relations writing to focusing on specific genres including employee communication, briefs, advertising copy, speeches and corporate profiles. As well students will learn to write/deliver persuasive speeches, develop usable web content, and will hone their newswriting and interviewing skills. Students also learn the basics of writing for publication.

Prerequisite: Communications 1849.

COMM 3500 – Media, Culture and Communication Theory

(3 credits) 3 hours lecture and tutorial combined

This senior level course examines the role of communications in creating and explaining everyday cultural practices, and the larger systems that structure them. Students will consider multiple theories of communication, derived from various perspectives, to address the concept of subjectivity, and how the communication of information and ideas shapes our understanding of, and response to, our social and personal environments. Students will apply theories to specific artifacts and/or issues that they have defined and researched.

Prerequisite: Communications 2500.

COMM 3501 – Intercultural Communication

(3 credits) 3 hours lecture and tutorial combined

Intercultural Communication examines communication among individuals of different cultural backgrounds, including the study of similarities and differences across cultures. The course will introduce students to key intercultural communication topics: communication and culture, linguistic differences, ecological influences on culture, the dimensions of cultural difference, stereotyping, and intercultural encounters, culture shock and adaptation.

Prerequisite: Communications 2500.

COMM 3503 – Communication in Organizations

(3 credits) 3 hours lecture

This course is designed to help students think critically about communication in the context of organizations and the cultural components that affect communication effectiveness. Through theory-based lectures and experiential exercises, students will better understand the nature, goals, strengths and limits of organizational design.

Prerequisite: Communications 2500.

COMM 3511 – Information Media

(3 credits) Blended delivery - 2 hours lecture, 1 hour online tutorial

Almost daily, we're presented with new information sharing technologies that demand our attention, make demands on our time, and challenge and change our use of information and technology. Students in this course will consider current trends and issues in information imparting and information sharing technologies using the Internet as a place to go and a place to investigate.

Prerequisite: One of Communications 1700, 2500 or 2501.

COMM 3513 – Media, Influence and Power

(3 credits) 3 hours lecture/tutorial combined

Media organizations can be large and powerful in their own right, but they are also subject to influence by other societal institutions such as political and business elites. Students in this course will consider how the media and these other institutions use power, how they influence one another, and the cultural impact of these relationships.

Prerequisite: One of Communications 1700, 2500 or 2501.

COMM 3515 – Media Futures

(3 credits) 3 hours lecture and tutorial combined

Dramatic change is a constant in the world of media. Traditional media such as newspapers, TV networks and radio stations need adapt to the growth in web-based media including blogs, YouTube and Facebook. Moreover, every medium is converging with every other medium, every screen is merging with every other screen – the cell phone being just one example. This course will examine the extraordinary impacts these changes are having on media, journalism and our democratic and cultural life.

Prerequisite: One of Communications 1700, 2500 or 2501.

COMM 3521 – The Documentary

(3 credits) 3 hours lecture and tutorial combined

This course examines the documentary form in cinema and television. Students will consider the history of the documentary, its role in Canadian visual production development, and the different styles and impacts of the documentary.

Prerequisite: One of Communications 1700, 2500 or 2501.

COMM 3600 – Usability

(3 credits) 2 hours lecture, 2 hours lab

Study of the relevant research and practical application of usability testing as part of product development. Students will address complex information design issues and problems including legal documents, business forms, diagrams, transportation maps, statistical information, charts, graphs and tables, instructional materials, way finding systems, and computerized information systems. The course includes strategies for planning, conducting, and analyzing a test. Teams will conduct an expert (heuristic) evaluation and report results from an actual test in a usability lab using industry standard format.

Prerequisites: Communications 1661 and 1610.

COMM 3605 – Research in Information Design**(3 credits) 3 hours lecture**

Introduction to research methods used by practitioners and scholars in information design. Students explore the relationship between theory and research and learn how to design and carry out empirical studies using both quantitative and qualitative methods. Emphasis is placed on the research methods used in workplace settings to design user-centered information products and to test their usefulness and usability.

Prerequisite: Communications 1600.

COMM 3610 – Visual Communication for Information Designers I**(3 credits) 3 hours lecture**

Introduction to the principles of visual communication in the context of information design. The theoretical and historical issues of organizing and visualizing statistics, number, and/or complex relationships will be explored. Emphasis on conceptualization, visual diagramming, and analysis of subtle visual relationships including design and use of photographs and other pictorial materials will be developed, and current approaches to typography are examined.

Prerequisites: Communications 1620, 1610 and 2666.

COMM 3611 – Visual Communication for Information Designers II**(3 credits) 3 hours lecture**

This course builds upon the foundation established in Visual Communications I. Students explore advanced topics in effective graphic design in the context of information design.

Prerequisite: Communications 3610.

COMM 3620 – Document Production I**(3 credits) 2 hours lecture, 2 hours lab**

This course focuses on the basic principles of document production relating to the principles of publishing. Publishing principles and practices, marketing problems, distribution methods and informational systems and techniques are examined. Students will be expected to produce a variety of documents and publications.

Prerequisites: Communications 3600 and 3670.

Co-requisite: Communications 3611.

COMM 3665 – Technical Writing II**(3 credits – TG) 3 hours lecture**

Introduction to intermediate-level elements of technical writing. Consideration of audience, purpose and technique in print and electronic media will be examined for a variety of writing needs. Technical communication business practices are also examined.

Prerequisites: Communications 1661 and 2667.

COMM 3670 – Project and Content Management**(3 credits) 3 hours lecture**

Introduction to project and content management. Content includes concepts, principles, and the inputs, outputs, tools and techniques necessary to take a project from inception to completion. Projects will be developed that are specific to the communication professions.

Prerequisite: Communications 1600, 1841 or 1707.

COMM 3707 – News Reporting**(3 credits) 3 hours lecture /tutorial combined**

In their role as staff reporters for the journalism program community newspaper, students will practice reporting and writing news stories for print publication, and writing about the community, arts, business, and sports among a range of other news beats. CP Style, pitching stories, updating stories, and editorial responsibility will also be discussed and practiced.

Prerequisite: Communications 1709. Journalism Certificate students exempted.

COMM 3709 – News Editing and Reporting**(3 credits) 3 hours lecture /tutorial combined**

Student journalists in this course, in context of their work with the journalism program community newspaper, will consider more formally the role of editors, while continuing to develop their own reporting skills. Copyediting, section editing, and content planning will be discussed and practiced.

Prerequisite: Communications 3707.

COMM 3717 – Specialized Writing**(3 credits) 3 hours lecture /tutorial combined**

Journalists need to present information to a variety of audiences and in a variety of ways. Students in this course will consider and practice such forms as longform writing, in-depth profiles, editorial writing, and personal column writing.

Prerequisite: Communications 3707.

COMM 3720 – Newspaper Production and Design**(3 credits) 2 hours lecture and 2 hours production laboratory**

Working with appropriate production software student journalists will consider design principles and production management of a newspaper, while practicing technical and content-based production processes, page design and layout as members of the journalism program newspaper production team.

Prerequisites: Communications 1709 and 1720. Journalism Certificate students exempted.

COMM 3727 – Visual Journalism**(3 credits) 3 hours lecture /tutorial combined**

Photography and graphics are essential elements of successful publications. In this course students will build on their understanding of the use of photo tools, software and graphics, through the production of news photography, news graphics, multimedia and journalism focused special photo projects; all in context of their work on the journalism program newspaper.

Prerequisite: Communications 1709.

COMM 3729 – Online Writing, Editing and Production**(3 credits) 2 hours lecture and 2 hours tutorial**

Building on work completed in as a member of the journalism program newspaper's editorial team, student journalists in this course will plan, produce and edit a range of original online journalism for presentation on an online news site, while also considering such issues as the design, nature and goals of online journalism.

Prerequisites: Communications 3709, 3720 and 3727. Journalism Certificate students exempted.

COMM 3735 – Ethics, Law and Media**(3 credits) 3 hours lecture and tutorial combined**

The course considers ethics and law in relation to the media, and their link to democracy and our political institutions, through consideration of how the justice system functions, and of ethical and legal issues that routinely confront journalists and media organizations.

Prerequisite: Communications 2501.

COMM 3737 – Research Design and Methodology**(3 credits) 3 hours lecture and tutorial combined**

Journalists are presented daily with the results of polls, surveys, clinical trials and other research projects by individuals and organizations seeking to have this information published or broadcast. Students in this course will consider structural and ethical aspects of how such projects are organized, including issues of reliability and generalization, and an array of theoretical and epistemological approaches used to conduct research in the social sciences.

Prerequisite: Communications 2500.

COMM 3740 – Broadcast Reporting**(3 credits) 3 hours lecture /tutorial combined**

Student journalists in this course will undertake the production of high-quality broadcast news stories, including practice in shooting and editing video in a digital context. Discussion of the goals of broadcast news reporting in contemporary practice, and detailed analysis of the process of producing television news stories, provide the basis for work done in tutorials.

Prerequisites: Communications 1709 and 1720. Journalism Certificate students exempted.

COMM 3747 – Broadcast News Production

(3 credits) 3 hours lecture /tutorial combined

Student journalists in this course will prepare broadcast news reports, features and other elements of a news program. The course will feature the production of an online broadcast news magazine for which students will fill all editorial roles including work on air as presenters, and behind the scenes as members of a production team.

Prerequisite: Communications 3740.

COMM 3797 – Special Topics in Journalism

(3 credits) 3 hours lecture and tutorial combined

The content of this course will vary according to the needs and goals of the specific student group involved, but will offer material appropriate to the consideration of new forms of media and their impacts.

Prerequisite: Consent of the program.

COMM 3799 – International Journalism Projects

(3 credits) 3 hours tutorial and production lab

The content of this course will be based on journalism project work completed in an international context, and result in the production of journalism products appropriate to the needs and goals of the specific student group involved.

Prerequisite: Consent of the department.

COMM 3841 – Media Relations

(3 credits) 1 hour lecture, 2 hours tutorial

This course examines the relationship between public relations and the media. Through work on a client project, students learn about the importance of strategic media planning and practice writing public service announcements (PSAs), news releases, feature articles and creating media kits. Students participate in a mock news conference and receive media training.

Prerequisites: Communications 1841, 1849 and 3849.

COMM 3843 – Communication and Organizational Culture

(3 credits) 3 hours lecture

This course is designed to help students think critically about communication in the organizational context. Through theory-based lectures and experiential exercises, students will better understand the nature, strengths and limits of organizational design, the nature of metaphor and its usefulness in describing organizational management, and how to apply theory learned in the classroom in the practice of public relations.

Prerequisite: Communications 1841 or consent of the department.

COMM 3847 – Public Relations Management

(3 credits) 2 hours lecture, 2 hour tutorial

Building on the introduction to public relations course, students learn the fundamentals of public relations program planning. The course begins with theory and case study analysis and discussion, and ends with teams formulating plans, hosting and evaluating a client based communication event. Students conduct research, analyze target audiences and messages to be delivered, undertake budgeting and scheduling activities, and evaluate the results. Students are assigned to work on an event as part of their course experience.

Prerequisite: Communications 1841.

COMM 3851 – Computer Mediated Communication

(3 credits) 1 hour lecture, 2 hours tutorial

This course introduces public relations students to on-line/digital communication in both the classroom and the computer lab. Participants learn to use the technologies and understand them sufficiently to advise others on their applications, strengths and weaknesses. Students become familiar with multimedia/CD-ROM, and the public relations uses for Internet and Intranet applications.

Prerequisites: Computer Science 1205 and Communications 2203 or consent of the department.

COMM 3855 – Research Methods for Public Relations

(3 credits) 4 hours lecture

This course develops competence in major forms of research including the use of surveys, focus groups, content analysis, and the use of existing information accessed through libraries, online databases, and other computer-based search tools. Elements of descriptive statistics as they apply to the analysis of survey design are reviewed. The course provides instruction and hands-on practice in conducting communications research and communicating the findings as a fundamental part of the public relations profession.

Prerequisites: Communications 1841 and 2849.

COMM 3860 – Government Public Relations

(3 credits) 3 hours lecture

In this course students will explore the critical role strategic public relations plays as organizations seek to inform and influence government policymaking processes and outcomes. Students will monitor current issues facing organizations; examine the theory, practice and context of government relations; and understand what it takes to create and manage an effective government relations program.

Prerequisites: Communications 2849 and 3841.

COMM 4501 – Roles and Practices in Contemporary Communications

(3 credits) 3 hours lecture and tutorial combined

Contemporary work environments in communication are evolving. Changes in technologies, workforce demographics, business models, audience relationships, regulatory regimes, social norms and other factors affect how communicators work, and precisely the work they do. This senior course focuses on problembased learning. Working together, students from all Bachelor of Communication degree streams will examine and reflect on the origins, character and implications of changes in the contemporary communicator's work. Students' investigations will result in major, team-based, public presentations.

Prerequisite: Communications 2501.

COMM 4620 – Document Production II

(3 credits) 2 hours lecture, 2 hours lab

This course covers the production function, the purchasing of paper, printing and distribution – typically half the total costs of operating a magazine. Topics include minimizing paper waste, the advantages of offset and rotogravure printing, the effect of makeup on readership and costs, and setting distribution strategies. Students will be expected to produce a magazine in print and e-zine formats.

Prerequisite: Communications 3620.

COMM 4665 – Instructional Design

(3 credits) 3 hours lecture

Course introduces and applies systematic instructional design and instructor-led training. Students will study a major model of instructional design and apply it to develop and refine a unit of instruction. Students will prepare and deliver a training lesson, participate in team instructional design activities, and evaluate the training developed and presented by other students.

Prerequisite: Communications 3600.

COMM 4679 – Issues in Communications: Ethics and Law

(3 credits – TG) 3 hours lecture

Building on work done in previous courses, and students' work experience, this course focuses on key ethical issues and the law facing information designers. The course examines the historical foundation of ethics and explores different models for defining issues, interests and values relating to the ethical issues confronting information designers.

Prerequisites: Communications 4501 and satisfactory completion of Work Term I.

COMM 4680 – Portfolio**(3 credits) 2 hours lecture, 2 hours lab**

The portfolio as a professional tool for information designers. The course includes portfolio and writing theory along with a collaborative workshop environment. Students develop a professional portfolio based on course project, internship experiences, and/or work history. In addition, students write a reflective paper examining their growth and maturity as information designers. Interviewing techniques, resume writing, and the job search process are included in the course. The student portfolio demonstrates the ways in which students have acquired and achieved the learning outcomes of the Bachelor of Communication degree program. Portfolio items are products created in all core courses in the program. In this course, students analyze and consolidate their collection, and organize a public presentation of their work.

Prerequisite: Senior Standing and Approval of the department.

COMM 4690 – Information Design Workplace Issues and Work Experience Preparation Seminar**(0 credits) 1.5 hours lecture**

This mandatory, non-credit, preparation seminar for work experience will examine conditions and issues, which may arise in the workplace, and the responsibilities and rights of employers and employees. Potential employers and working information designers will be invited to present their perspectives and expectations as students develop resumes, portfolios and prepare to apply for work opportunities in a subsequent semester.

Note: The seminar must be completed as preparation for, and in advance of, the required work experience.

COMM 4691 – BCMM Information Work Experience

To expand both their skills and understanding of the communication industry, Information Design students are encouraged to complete two non-credit semester-long work experiences (with a 12 fulltime work week minimum) in the communications field during their program, but are required for graduation purposes to complete one such work experience. The student must receive a grade of Satisfactory. Work experiences in print, photo, online and communications may be taken at any point following semester four.

Note: Students may complete this non-credit work experience up to three times. Formal assignments will include a detailed report and analysis of the work experience. Work experience fulfill degree requirements and are assigned “pass/fail” grades. Work experience terms integrate academic studies and work experience with participating employers.

Prerequisite: Successful completion of all core courses in years one and two of the degree and 30 Credits.

COMM 4692 – Information Design Work Experience II (optional)

To expand both their skills and understanding of the communication industry, Information Design students are encouraged to complete a second non-credit semester-long work experience (with a 12 fulltime work week minimum) in the communications field during their program. The student must receive a grade of Pass.

Prerequisite: Communications 4691 and departmental approval.

COMM 4705 – Online Editorial Board**(3 credits) 3 hours lecture and tutorial combined**

Senior student journalists will serve on the editorial board of the online edition of journalism program's community newspaper and play a central role in its ongoing development, by participating in the editorial design of the web publication while also practicing leadership and team-building skills required in professional journalism environments.

Prerequisites: Communications 3709, 3720 and 3729.

COMM 4707 – Editorial Board**(3 credits) 3 hours lecture and tutorial combined**

Senior student journalists will serve on the editorial board of the journalism program's community newspaper, and play a central role in its ongoing development by participating in the editorial design of the publication, while also considering and practicing leadership and team-building skills required in professional journalism environments.

Prerequisites: Communications 3709, 3720 and 3729. Journalism Certificate students require permission from the program chair to take this course.

COMM 4709 – Public Affairs Reporting**(3 credits) 3 hours lecture and tutorial combined**

Student journalists will investigate and report on public policy issues or contemporary social concerns, using advanced research techniques, and with an eye toward completing a comprehensive journalism project on a topic to be determined.

Note: Enrolment is limited to up to ten students per semester who submit to the program chair a detailed proposal at least one semester in advance.

Prerequisites: Communications 3709, 3717 and 3737.

COMM 4711 – Public Affairs Reporting II**(3 credits) 3 hours lecture and tutorial combined**

Student journalists will investigate and report on public policy issues or contemporary social concerns, using advanced research techniques, and with an eye toward completing a comprehensive journalism project on a topic to be determined.

Note: Enrolment is limited to up to ten students per semester who submit to the program chair a detailed proposal at least one semester in advance. With chair permission, a student may take both ACOM 4709 and 4411 to accommodate a preplanned yearlong project.

Prerequisites: Communications 3709, 3717 and 3737.

COMM 4717 – Magazine Writing, Editing and Production**(3 credits) 3 hours lecture and tutorial combined**

Student journalists will consider the goals and requirements of designing, writing and editing mainstream and trade publications, with consideration of issues in feature writing, researching and fact-checking. Students will also produce a print magazine as a focus of their coursework.

Prerequisites: Communications 3709, 3720 and 3717.

COMM 4727 – Photojournalism Projects**(3 credits) 3 hours lecture and tutorial combined**

Senior student journalists, with specific and previously demonstrated interests in photojournalism, will discuss the processes and requirements of producing a major photojournalism effort. Each will then design and complete a major project to advance their skills and portfolios.

Prerequisites: Communications 3727 and 3729.

COMM 4729 – Multimedia Projects**(3 credits) 3 hours lecture and tutorial combined**

Multimedia implies the use of more than one type or form of media in the design of a journalistic, corporate or educational project. Students in this course will consider the appropriate use of multimedia, beginning with audience needs, by undertaking a project of their own design from conception to completion.

Prerequisites: Communications 3727, 3729 and 3747.

COMM 4737 – Research Projects**(3 credits) 3 hours lecture and tutorial combined**

Working in teams, students will design and complete significant research projects that focus on media issues, using a range of research methodologies appropriate to their goals, such as content analysis, surveys and focus groups. These projects will be published through an online journal established by the journalism program.

Prerequisite: Communications 3737.

COMM 4747 – Broadcast Projects

(3 credits) 3 hours lecture and tutorial combined

Senior student journalists with a specific and previously demonstrated interest in broadcast journalism will develop, produce and present a number of programs for broadcast on significant and timely community issues through online programming. Treatment possibilities include feature reports, documentaries, talk shows and public forums.

Prerequisite: Communications 3747.

COMM 4757 – Corporate Communications

(3 credits) 3 hours lecture and tutorial combined

Major companies invest substantial resources in communicating internally and externally to ensure employees/clients/customers receive timely information. Students will examine the structure and context of corporate communications, while also practicing the use of some specific corporate communication tools.

Prerequisite: Communications 3735. Journalism Certificate students exempted.

COMM 4759 – The Business of Media

(3 credits) 3 hours lecture and tutorial combined

Revenue generation is essential to financial health of media organizations. Student journalists in this course will consider the goals and structure of advertising sales departments, issues in budgeting, and the value and design of promotional and audience development campaigns.

Prerequisites: Communications 3720 and 3747.

COMM 4767 – Media and Technology

(3 credits) Blended Delivery: 2 hours lecture and one hour online

Technological change routinely alters the way we understand and use communication tools. Students in this course will consider the history, general nature and impact of technological change on information and the media, with consideration of the issues, trends and communication devices current during the semester in which the course is offered. Participants will also write for the program's online magazine on the development and use of technology.

Prerequisites: Communications 3500 and 3729.

COMM 4790 – Workplace Issues and Work Experience Preparation Seminar

This mandatory non-credit preparation seminar for the student's work experience will examine conditions and issues, which may arise in the workplace, and the responsibilities and rights of employers and employees. Potential employers and working journalists will be invited to present their perspectives and expectations as students develop resumes, portfolios and prepare to apply for work opportunities in a subsequent semester. The student must receive a grade of Pass.

Note: Must be completed as preparation for and in advance of required internship.

COMM 4791 – Journalism Work Experience I (Required)

To expand both their skills and understanding of the communication industry, journalism students are encouraged to complete two non-credit semesterlong work experiences (with a 12 full time work week minimum) in the communications field during their program, but are required for graduation purposes to complete one such work experience. The student must receive a grade of Pass. Work experiences in print, photo, online and communications may be taken at any point following semester four. Broadcast and Internetbased work experiences may be taken at any point following semester six.

Prerequisite: Successful completion of all core courses in years one and two of the degree. Students considering a broadcast internship need first complete Applied Communications 3740, 3747 and receive departmental approval.

COMM 4792 – Journalism Work Experience II (Optional)

To expand both their skills and understanding of the communication industry, journalism students are encouraged to complete two non-credit semesterlong work experiences (with a 12 fulltime work week minimum) in the communications field during their program, but are required for graduation purposes to complete one such experience. The student must receive a grade of Pass. Work experiences in print, photo, online and communications may be taken at any point following semester four. Broadcast and Internet-based work experiences may be taken at any point following semester six.

Prerequisite: Communications 4791 and departmental approval.

COMM 4841 – Strategic Communication Planning

(3 credits) 2 hours lecture, 2 hours tutorial

This course is designed to build on material covered in COMM 3847 – Public Relations Management and on the experience in COMM 4891 – Work Experience I. Students will increase their understanding of strategic and operational planning concepts in the public relations context by offering consulting services to clients. Working in groups, students will review business plans, conduct a communications audit and write a comprehensive communication plan to assist their client organizations in achieving organizational goals.

Prerequisite: Communications 3847 and 4891 or consent of the department.

COMM 4845 – Investor Relations

(3 credits) 3 hours lecture

This senior-level course for public relations students represents one of the key growth areas for the profession. Students examine the role of investor relations, its purpose within specific organizations, including the appropriate regulations, brokerage, security and ethical considerations of communicating in the financial marketplace. Financial communication documents are analyzed including proxies, disclosure documents, annual and quarterly reports, etc. Students learn how to successfully plan and manage an annual shareholder meeting, an investor presentation, and respond to the financial media.

Prerequisite: Communications 4892 and consent of the department.

COMM 4847 – International and Intercultural Public Relations

(3 credits) 3 hours lecture

This is a senior-level course for public relations students. Students learn the essential elements of effective public relations activities in an international and intercultural context. They examine those elements through the relevant policies and activities governing public relations abroad including marketing, advertising, cultural diversity issues, legislation and government regulations such as NAFTA and GATT, as well as new communication technologies, financial markets, ethics, and international labour and workplace issues.

Prerequisite: Communications 4892 or consent of the department.

COMM 4849 – Fund Development and Corporate Philanthropy

(3 credits) 3 hours lecture

This is a senior-level course for public relations students, covering two aspects of social public relations – raising funds and creating programs that give financial resources away. This course covers such areas as: understanding government regulations, corporate giving guidelines, accessing funding agencies, understanding the options for fund maintenance, market and audience research, ethical considerations, and the public relations activities required to establish, maintain and promote partnerships with key stakeholders.

Prerequisite: Communications 4892 or consent of the department.

COMM 4851 – Issues and Ethics in Public Relations

(3 credits) 3 hours lecture

This is the capstone course for students in their final semester of the public relations major in the Bachelor of Communication degree. The course, structured as a combination of senior seminar and directed reading, provides students the opportunity to reflect on the learning they have gained; examine the profession they are about to enter; contemplate and consider work experience placements and integrate these perspectives in a thesis of relevance to the profession and their future endeavours.

Prerequisites: Communications 4892 and consent of the department.

COMM 4860 – Issues Management, Risk and Crisis Communication

(3 credits) 3 hours lecture

In this course students will undertake a detailed examination of the principles and applications of the critical elements of sensitive issues management, risk and crisis communications within the context of the public relations responsibilities in organizational communication. The course will concentrate on theoretical considerations of such core topics as trust, effective spokespersons during crisis, credible messaging and stakeholder dialogue. It will address the fundamentals of issues management, effective implementation of crisis communication strategies and workable risk communication models.

Prerequisite: Communications 4891

COMM 4890 – Public Relations Workplace Issues and Preparation Seminar

(Non-Credit) 1.5 hours lecture

This mandatory, non-credit preparation seminar for work experience, will examine conditions and issues which may arise in the workplace and the responsibilities and rights of employers and employees. Potential employers and working public relations professionals will be invited to present their perspectives and expectations as students develop resumes and portfolios and prepare to apply for work opportunities in a subsequent semester. This seminar must be completed in advance of, and in preparation for, the required work experience placement.

COMM 4891 – Public Relations Work Experience I

The work experiences required for the public relations major in communication studies offers students the opportunity to integrate the theory and practice of public relations learned in the classroom to supervised work experience in a public relations/communications management setting. Students need complete two such work experiences for graduation purposes, and must receive a grade of Pass.

Prerequisite: Successful completion of the following courses or their equivalents: Computer Science 1205; Communications 1841, 1849, 2803, 2849, 3841, 3855, 3851, 3847; Management 2131; 150 hours of paid or volunteer public relations experience; departmental approval.

COMM 4892 – Public Relations Work Experience II

The work experiences required for the public relations major in communication studies offers students the opportunity to integrate the theory and practice of public relations learned in the classroom to supervised work experience in a public relations/communications management setting. Students need to complete two such work experiences for graduation purposes. The student must receive a grade of Pass.

Prerequisite: Communications 4891 and departmental approval.

COMM 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

COMPUTER SCIENCE (COMP)

COMP 0110 – Computer Information Processing

(0 credits)

This is a credit free upgrading course; special fees apply. This is an introductory computer course directed at novice students. It introduces the basic computer terminology and concepts to students while at the same time giving students a very clear and conceptual understanding of how the computer functions. Students will learn how to work in the Window 95 environment, concepts of Windows, Word Processing using Microsoft Word, Electronic Spreadsheet applications using Microsoft Excel. Some of the basic functions of the Internet in relation to sending and receiving e-mail, as well as some basic information searches.

Note: Students with credit in high school computer 10, 20, or 30 courses should not register in this course.

COMP 1001 – Introduction to Computer-Based Problem Solving for the Sciences

(3 credits) 3 hours lecture, 2 hours tutorial

Computers are an essential tool in contemporary scientific practice. This course provides the students with a foundation in algorithmic thinking as well as exposure to a graphical programming environment. Students also receive significant practice in scientific problem-solving and modeling using common desktop productivity tools.

Note: Only one of Computer Science 1001 and 1501 can be used to satisfy program requirements.

COMP 1171 – Introduction to Computer Systems and Applications

(3 credits) 3 hours lecture, 2 hours lab

This course is intended for Computer Information Systems students, and covers introductory concepts in more depth than a course for non-majors. It introduces how Information Technology is typically used in organizations and how this technology can be applied to solve business problems. Students create nontrivial spreadsheet applications and design and develop a realistic business database application. They develop practical and conceptual skills in this software and gain an understanding of how it is used in a business environment.

COMP 1202 – Database Design and Development

(3 credits) 2 hours lecture, 2 hours lab

This course is an introduction to data management for non-major students. It covers database design and development techniques for building reliable, effective and maintainable data management applications with microcomputer spreadsheet and database packages.

Prerequisite: Computer Science 2203.

Pre or Co-requisite: Computer Science 1205 or consent of the department.

COMP 1205 – Introduction to Computing for Public Relations

(3 credits) 2 hours lecture, 1 hour tutorial, 1 hour lab

This course is designed to develop the knowledge and skills required to be a proficient user of applications relevant to the communications field. It focuses on configuring a windows desktop environment, file management, effective use of the Internet and the word processing skills required by professional writers. Spreadsheets and presentation software are also introduced.

Note: Credit will be allowed for only one of Computer Science 1205, 1207, 1209, 1213 and 2203.

COMP 1207 – Introduction to Computing for Small Business and Entrepreneurship

(3 credits – TG) 2 hours lecture, 2 hours lab

This course is an introduction to computers and to the use of presentation software, word processors and spreadsheets in small business applications. Students will be introduced to social and organizational issues arising from the use of information technology and to the use of the Internet and public databases for marketing research.

Note: Credit will be allowed for only one of Computer Science 1205, 1207, 1209, 1213 and 2203.

COMP 1209 – Introduction to Computing for Applied Degrees

(3 credits – TG) 2 hours lecture, 2 hours lab

This course develops the knowledge and skills required to be a proficient user of fundamental computer applications. Students will learn how to effectively use some of the following computer applications: word processors, spreadsheets, databases, presentation programs and the Internet.

Note: Credit will be allowed for only one of Computer Science 1205, 1207, 1209, 1213 and 2203.

COMP 1213 – Computer Applications and Issues for Journalists I

(3 credits) 2 hours lecture, 2 hours lab

This course will enable students to achieve the computer competency and literacy needed in the ever changing world of information technology and electronic media. The impacts of computer technology will be examined, from historical, technical and social perspectives. Students will have the opportunity to become effective users of computer applications important in the production of journalism: word processors, document manipulation software and digital imaging software.

Note: Credit will be allowed for only one of Computer Science 1205, 1207, 1209, 1213 and 2203.

COMP 1215 – Computer Applications and Issues for Journalists II

(3 credits) 2 hours lecture, 3 hours lab

Building on competencies and knowledge attained in prior courses, this course will provide the opportunity to study advanced concepts and issues relevant for journalists. The course will cover design principles and techniques for web publishing. The implications of technology on society will be examined, including issues such as privacy and ethics. Students will advance their skills in using desk top publishing software and applications for web site development, culminating in the production of the student's initial e-resume/portfolio with work samples produced in journalism courses.

Prerequisite: Computer Science 1213 or consent of the Department.

COMP 1230 – Intermediate Microcomputer Applications

(3 credits – TG) 2 hours lecture, 2 hours lab

Students will develop skills in the use of applications from areas such as desktop publishing, presentation tools, web page creation, graphics and spreadsheets. A project approach is used and the course includes the study of a variety of techniques to enhance the creation, distribution and presentation of information.

COMP 1233 – Microcomputer Hardware and Operating Systems

(3 credits) 3 hours lecture, 2 hours lab

This course covers microcomputer hardware, architecture and system software from a theoretical and practical systems-level perspective. In the hardware topics, emphasis is placed on operating principles at the component level and how components interact in a computer system. The course includes an introduction to operating systems, including both Windows and Linux. The lab work focuses on troubleshooting hardware and systems software problems.

Prerequisite: Computer Science 1273 or 1274.

COMP 1235 – Multimedia Development

(3 credits) 2 hours lecture, 2 hours lab

This course will introduce students to a variety of multimedia applications including digital image processing, 3-D image rendering, sound editing, and animation sequencing. The skills derived from this course can be used for the creation of multimedia presentations as well as for web page development. The focus of the course is on practical development rather than theory.

Prerequisite: Computer Science 2203, 1205, 1207 or 1209 or consent of the department.

COMP 1270 – Networks I

(3 credits – TG) 3 hours lecture, 1 hour lab

This course is an introduction to networks and data communications. The practical experiences involve the administrative tasks associated with managing a local area network. These are used as a basis upon which to build a functional understanding of the components of a network - system software, network directory objects, hardware, and communications protocols - and how they interact to control access to resources and to move data. The course includes an introduction to IP addressing and network security.

Prerequisite: Computer Science 1233.

COMP 1271 – Introduction to Programming I

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course provides an introduction to programming, with emphasis on the design of algorithms for solving problems using computers.

Note: Credit may not be obtained for both Computer Science 1271 and 2231.

COMP 1273 – Introduction to Programming II

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course continues the study of the art of programming. Students learn to design a modular solution, to develop and execute a test plan and to debug a large program in a systematic manner.

Prerequisite: Computer Science 1271.

COMP 1274 – Building Internet Solutions

(3 credits) 3 hours lecture, 2 hour lab

This course will provide the concepts and practice necessary for creating Internet/Intranet content. Course will introduce how the Internet and World Wide Web work, as well as cover HTML, Java Script and some form of serverside scripting.

Prerequisites: Computer Science 1171 and 1271.

Note: Credit will be allowed for only one of Computer Science 1274 and 1370.

COMP 1276 – Database Management Systems I

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course emphasizes concepts necessary to design and implement databases. Students develop a thorough understanding of logical data modeling. Students are initially introduced to the database environment and they learn to effectively add, access, and process data stored in a computer database SQL is covered in depth.

Prerequisites: Computer Science 1171 and 1273.

COMP 1278 – Database Management Systems II

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course covers advanced concepts associated with the physical design of databases such as denormalization, query optimization, indexes, transaction processing and stored procedures and database triggers. Data warehousing, data mining and distributed database topics will be introduced Security and administration issues will be examined.

Prerequisites: Computer Science 1276 and 1281.

COMP 1281 – Systems Analysis

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

Introduction to systems analysis as applied to business applications Students apply the tools and techniques presented in class to case studies and prepare feasibility studies and project proposals. Topics include preliminary investigation, requirements definition, data and process modelling, decision analysis and cost/benefit analysis.

Prerequisites: Management 3210 and one of Computer Science 1273 or 1274.

COMP 1370 – Introduction to Internet Development (formerly COMP 1371)

(3 credits) 2 hours lecture, 2 hours lab

This course lays the groundwork for effective creation of Internet documents and sites. Students will acquire an in-depth understanding of HTML and an introduction to Cascading Style Sheets Students will explore strategies for readability and interactivity.

Note: Credit will be allowed for only one of Computer Science 1274, 1370 or 1371.

COMP 1501 – Programming I: Introduction to Problem Solving and Programming

(3 credits) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course provides an introduction to problem solving in the context of computer programming. The problem solving process is explored in depth, with a focus on applying the key steps in a variety of situations. The course emphasizes the design of fundamental algorithmic solutions and the implementation of those solutions in a visual development environment. Pre-existing modular building blocks for objects and methods form the basis for program implementation.

Note: Only one of Computer Science 1001 and 1501 can be used to satisfy program requirements.

COMP 1502 – Programming II: Object Oriented Programming

(3 credits) 3 hours lecture, 1 hour tutorial, 1 hour lab

The concepts and practices essential to programming within an object-oriented environment are studied. The course also encompasses the key facets of designing a modular solution, developing and executing a test plan and debugging in a systematic manner. Exception handling is also covered.

Prerequisite: Computer Science 1001 or 1501 with a minimum grade of C-.

COMP 1511 – Web I: Client Development

(3 credits) 3 hours lecture, 1 hour lab

This course covers the concepts and practice necessary for creating Internet content. The course provides a technical overview of the Internet environment and the structure of the World Wide Web. The technical segment will focus on the design and implementation of an effective web site at the introductory level.

Prerequisite: Computer Science 1001 or 1501 with a minimum grade of C-.

COMP 2008 – Scientific Computing I: Modeling and Simulation

(3 credits) 3 hours lecture, 1 hour tutorial

This course provides an introduction to the fundamentals of scientific computing, the modeling process, computer simulations, and scientific applications. While the focus is on cellular automaton simulations and Monte Carlo techniques, a limited number of system dynamics models may also be examined.

Prerequisite: Computer Science 1001 with a minimum grade of C-.

COMP 2011 – Directed Field Studies I for Computer Information Systems (formerly ENTR 2011)

(15 credits)

The Directed Field Studies provides Computer Information Systems students with an opportunity to extend what they have learned in the classroom into a relevant work environment. It is also an opportunity to acquire new knowledge (both technical and business) through observation, practice and self-assessment. Directed Field Studies are highly individualized so that each student will gain something unique from the course. Normally this first Directed Field Studies will involve a single employer, and will be arranged through the University. It must allow an appropriate and effective learning opportunity. A significant amount of time is required from the student during the semester prior to the Directed Field Studies (e.g. attending workshops, interviewing, developing suitable learning objectives).

Prerequisite: All first and second year Computer Science courses in the Computer Information Systems and Business program, Entrepreneurship 2201, Administration 1120, 1210 and 1130 or 1150.

COMP 2203 – Introduction to Computers

(3 credits – TG) 3 hours lecture

This course provides a non-technical introduction to the use of computers and their impact on society. Major topics in the field will be explored, ranging from the workings of the microcomputer to the implications of the Internet. Students will use microcomputers for word processing, spreadsheet analysis, database management and communications.

Note: Credit will be allowed for only one of Computer Science 1205, 1207, 1209, 1213 and 2203. Students who have completed Computer Science 1171, cannot also receive credit for Computer Science 2203.

COMP 2215 – Introduction to Programming

(3 credits – TG) 3 hours lecture, 1 hour tutorial

Introduction to algorithm design and implementation using a structured programming language. Discussion of, and practice with, elementary programming techniques with emphasis on good style.

COMP 2231 – Introduction to Computer Science I

(3 credits – TG) 3 hours lecture, 2 hours tutorial

Problem solving and programming in a structured programming language. Data representation, program control, basic file handling, the use of simple data structures and their implementation.

Note: This course is intended for prospective majors in Computer Science and for others with a sound mathematical background. Credit may not be obtained for both Computer Science 1271 and 2231.

COMP 2233 – Introduction to Computer Science II

(3 credits – TG) 3 hours lecture, 2 hours tutorial

Continuation of Computer Science 2231. The implementation of abstract data structures using pointers and objects, with emphasis on modularity and software design.

Prerequisite: Computer Science 2231 with a minimum grade of C- or higher.

COMP 2265 – Computer Architecture and Low-Level Programming

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

Course topics include the organization and operation of the functional units in a stored program computer, internal data representation, programming at the architecture level and the relationship between high-level languages and machine operation.

Prerequisite: Computer Science 2231 with a minimum grade of C- or higher.

COMP 2503 – Programming III: Data Structures

(3 credits) 3 hours lecture, 1 hour tutorial

Data structures important to computing such as basic linear structures, trees, heaps and hash tables will be studied. Additionally searching and sorting methods will be covered. The representation, uses and algorithms for manipulating these data structures will be examined. The emphasis is on using these structures to solve problems.

Prerequisite: Computer Science 1502 with a minimum grade of C-.

COMP 2521 – Database I: Data Modeling and Query Languages

(3 credits) 3 hours lecture, 1 hour tutorial

This course emphasizes concepts necessary to design and implement databases. Conceptual and logical data modeling is covered in detail. The technical segment focuses on the relational database environment.

Prerequisite: Computer Science 1502 with a minimum grade of C-.

COMP 2531 – Computer Architecture and Operating Systems

(3 credits) 3 hours lecture, 1 hour lab

This course covers fundamental hardware and system software topics. Hardware including CPU architecture and computer organization is studied first. Then students explore the inner workings of operating systems, including file systems, process scheduling, concurrency, and memory management.

Prerequisite: Computer Science 1501 or 1001 with a minimum grade of C-.

COMP 2541 – Systems Analysis

(3 credits) 3 hours lecture, 1 hour tutorial

This course provides an introduction to systems analysis in the development of computer-based information systems. The theory and models of software evolution are studied. The course covers system development methodologies and key systems analysis tools and techniques, with a focus on object-oriented strategies.

Prerequisites: Management 3210 and either Computer Science 1502 or 1511 with a minimum grade of C-.

COMP 3008 – Scientific Computing II: Data and Visualization

(3 credits) 3 hours lecture, 1 hour tutorial

This course provides an introduction to the underlying theory and practical concepts in data visualization. A number of topics pertaining to data will be covered, including types of data, its acquisition, representation, storage and access, as well as various forms of data analysis. The foundations of visualization and consequent design principles will be presented. Current examples and case studies in data visualization will be examined, with particular emphasis on scientific applications.

Prerequisite: Computer Science 2008 with a minimum grade of C-.

COMP 3011 – Directed Field Studies II for Computer Information Systems (formerly ENTR 3011)

(15 credits)

The Directed Field Studies provides Computer Information Systems students with an opportunity to extend what they have learned in the classroom into a relevant work environment. It is also an opportunity to acquire new knowledge (both technical and business) through observation, practice and self-assessment. Students will be expected to achieve higher levels of competencies than they did in the first Directed Field Studies course. They must demonstrate their entrepreneurial abilities by generating a suitable work experience, which must be approved prior to the start of the course. It must allow an appropriate and effective learning opportunity. A significant amount of time is required from the student during the semester(s) prior to the Directed Field Studies (e.g. attending work shops, self marketing, developing suitable learning objectives).

Prerequisites: Computer Science 2011, plus 22 courses of the Computer Information Systems and Business program, including 11 Computer Science courses and 6 Business courses.

COMP 3012 – Robotics

(3 credits) 3 hours lecture, 1 hour tutorial, 2 hours laboratory

This course provides an introduction to the underlying theory and practical concepts in robotics. This includes aspects of geometry, kinematics, statics, dynamics, control, motion planning, trajectory generation, and programming. Students also receive practical experience using a rapid prototyping tool to construct a robotic system.

Prerequisites: One of Computer Science 1502 or 2233 or 2531 with a minimum grade of C-, and one of Mathematics 1200 or 1203 or equivalent with a minimum grade of C-.

COMP 3307 – Computing Applications in Small Business and Entrepreneurship

(3 credits) 2 hours lecture, 2 hours tutorial

This course covers the design and implementation of databases to manage distribution and inventory for a business. It also includes the design and development of print and electronic promotional pieces using desktop publishing and web authoring software, and the exchange of data between applications. The goal of the course is to enable students to use computing resources to gain a competitive edge.

COMP 3309 – Information Technology and Society

(3 credits – TG) 3 hours lecture

A study of the implications of information technology for society. Historical perspectives, social context of computing, legal and ethical problems, economic issues, and philosophical frameworks for analysis will be covered.

COMP 3313 – Introduction to Computability

(3 credits – TG) 3 hours lecture, 2 hours tutorial

This course provides students with an opportunity to gain insight into the theoretical foundations of computing science. Topics include abstract machines (finite automata; push down automata and Turing machines), the hierarchy of formal languages (regular, context-free, and recursive) recognized by these machines, and applications of these languages.

Prerequisites: Mathematics 1271 and Computer Science 2233 or 2005 with minimum grades of C- or higher.

COMP 3321 – Introduction to Logic Circuit Design

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

Boolean Algebra. Design of combinational circuits and their implementation using primitive logic gates. Design and implementation of synchronous and asynchronous sequential circuits.

Prerequisites: Computer Science 2233 and Mathematics 1271 with minimum grades of C- or higher.

COMP 3325 – The Hardware/Software Interface

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course will cover hardware and system software topics, including Boolean algebra, combinational circuits, sequential logic, computer organization, data exchange, interrupts and asynchronous programming, real time programming, DMA, I/O ports, and software implementation of protocols.

Prerequisites: Philosophy 1179 and Computer Science 2265 or 3355 with minimum grades of C- or higher.

COMP 3331 – Information Structures I

(3 credits – TG) 3 hours lecture, 2 hours tutorial

Data structures important to computer science will be studied, including trees, graphs and hash tables. Searching and sorting techniques will be emphasized. Associated algorithms and their time and space efficiency will also be studied.

Prerequisite: Computer Science 2233 with a minimum grade of C- or higher.

Pre or Co-requisite: Mathematics 1271 with a minimum grade of C- or higher.

COMP 3333 – Foundations of Software Engineering

(3 credits – TG) 3 hours lecture, 2 hours tutorial

Introduction to software development problems and to the processes and methods used to address them. Software life cycles models. Software process improvement. Goals and methods for requirements analysis and specification, software design, implementation, integration and testing of software. An introduction to one or more informal methods (focusing on object-oriented approaches) currently in wide spread use.

Prerequisite: Computer Science 3331 with a minimum grade of C- or higher.

COMP 3335 – Information Structures II

(3 credits – TG) 3 hours lecture, 2 hours tutorial

This course is a continuation of Computer Science 3331. Advanced data structure topics, including collision resolution in hash tables, search algorithms, tree structures, and strings will be covered. Advanced algorithmic tools for storing and manipulating information will be studied.

Prerequisite: Computer Science 3331 with a minimum grade of C- or higher.

COMP 3349 – Programming Paradigms

(3 credits – TG) 3 hours lecture, 2 hours tutorial

This course will examine the basic principles of several major programming paradigms, with emphasis on declarative paradigms such as functional and logic programming. Data types, control expressions, loops, types of references, lazy evaluation, different interpretation principles and information hiding will be studied.

Prerequisites: Computer Science 3331 and Philosophy 1179 with minimum grades of C- or higher.

COMP 3355 – Computer Architecture and Low Level Programming

(3 credits – TG) 3 hours lecture, 2 hours tutorial

The organization and operation of the functional units of a stored program computer, internal data representation, programming at the architectural level, and the relationship between high-level languages and machine operation.

Prerequisite: Computer Science 2233 with a minimum grade of C- or higher.

Pre or Co-requisite: Mathematics 1271 with a minimum grade of C- or higher.

COMP 3357 – The Software/Hardware Interface

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 1 hour lab

Low and intermediate level support software necessary to access I/O devices and interfaces, to manage information and to provide a software interface between a single-user microcomputer environment and its hardware will be studied. Emphasis will be placed on I/O, interrupt handling, file systems and systems programming concepts. Process interaction will be introduced.

Prerequisites: Computer Science 3331 and 3355 with minimum grades of C- or higher.

COMP 3504 – Programming IV: Best Practices in Design and Development**(3 credits) 3 hours lecture, 1 hour tutorial**

This course continues the study of the art of object-oriented programming by focusing on the practical integration of contemporary best practices in software development. The course will focus on object-oriented design and development. Current methodologies such as extreme programming and test-driven development will be covered. The course will also cover refactoring and design patterns.

Prerequisites: Computer Science 2503 and 2541 with a minimum grade of C-.

COMP 3512 – Web II: Web Application Development**(3 credits) 3 hours lecture, 1 hour tutorial**

This course focuses on the concepts and technologies needed to develop web-centric applications. The overall architecture of Internet applications is examined at a high level. Special emphasis is given to server-side programming, including the creation of multi-tier and multi-layer web applications and using Web Services to integrate web applications with other IT applications.

Prerequisite: Computer Science 1511, 2503 and 2521 with a minimum grade of C-.

COMP 3532 – System Administration and Maintenance**(3 credits) 3 hours lecture, 1 hour lab**

This course covers the deployment and maintenance of modern computer systems, with particular emphasis on the administration of user accounts. The course includes an overview of basic administrative tasks associated with network operating systems such as Windows and Linux.

Prerequisite: Computer Science 2531 with a minimum grade of C-.

COMP 3533 – Network Infrastructure and Security**(3 credits) 3 hours lecture, 1 hour lab**

This course covers the principles and practice of computer networking, focusing on the high-level protocol-oriented aspects of computer networks. Networking as it relates to database and file service applications is examined along with Internet structure, protocols and routing. Various aspects of security in networked information systems are studied.

Prerequisite: Computer Science 3532 with a minimum grade of C-.

COMP 3551 – GUI Development**(3 credits) 3 hours lecture, 1 hour tutorial**

This course focuses on the design and development of contemporary event driven graphical user-interface (GUI) applications. Special emphasis will be given to events, event handling, and exception handling. Different GUI design approaches and design patterns will be examined. Graphics, audio, and timers will also be covered.

Prerequisite: Computer Science 2503 with a minimum grade of C-.

COMP 3591 – Mandatory Work Experience**(0 credits)**

The Bachelor of Computer Information Systems degree requires that all students complete at least one paid work experience term. Through a competitive process, students are hired by suitable employers, monitored by the University and evaluated by the employer. The course includes work term assignments, on-site performance assessments, employer evaluations and a group debriefing session at the end of the term.

Prerequisites: COOP 0001 and Management 3210 and Computer Science 2503, 2521, 2541, 3512 and 3532 as well as three of: Management 2130, Human Resources 2170, Marketing 2150, and Accounting 2121.

COMP 4401 – Quality Assurance and Testing**(3 credits) 3 hours lecture, 1 hour lab**

This course covers the issues involved in ensuring a high quality deployment of a new application. Topics include quality assurance, project management, integrating a new application with existing applications, quality control (testing) and deployment strategies.

Prerequisite: Computer Science 4403.

COMP 4403 – Object-Oriented Design and Development**(3 credits) 3 hours lecture, 1 hour tutorial, 1 hour lab**

This course covers the principles of software development methodologies: object-oriented analysis (OOA), design (OOD), implementation, and testing.

Prerequisite: Computer Science 1276 and 1281.

Pre or Co-requisite: Computer Science 1274.

COMP 4405 – Emerging Technologies and Their Evaluation**(3 credits) 3 hours lecture, 1 hour lab**

Students will use a selected emerging technology. Students will also learn methods and techniques for evaluating the business and information systems value of new information technologies.

Prerequisites: Computer Science 1270 and 4403.

COMP 4407 – Networks II**(3 credits) 3 hours lecture, 1 hour lab**

This course covers the design of networks and networked solutions. Topics include: how to design networks, how to diagnose network performance problems, performance implications of different network topologies and how to design and implement network security measures.

Prerequisite: Computer Science 1270.

COMP 4409 – Advanced Internet Application Development**(3 credits) 3 hours lecture, 1 hour lab**

This course focuses on the design and development of complex Internet applications. Topics included in this course are: Internet application technology, patterns, frameworks and best practices in the design and development of Internet applications. The overall architecture of Internet applications will be examined. Students will use a current Internet development platform to create real-world Internet applications.

Prerequisite: Computer Science 4421.

Recommended Preparation: Computer Science 1278.

COMP 4421 – Client-Side Application Development**(3 credits) 3 hours lecture, 1 hour lab**

This course focuses on the design and development of complex client-side applications. Major topics include input and output design, user interface design, event handling, graphics, and common data structures. In addition, current software engineering processes and paradigms, patterns and best practices for development of applications will be introduced. Students will use a current development platform to create realistic business applications.

Prerequisite: Computer Science 4403.

COMP 4473 – Internet Development II (formerly COMP 1373)**(3 credits) 2 hours lecture, 2 hours lab**

This course builds upon the techniques, skills and insights acquired in Computer Science 1371 and Computer Science 2215. Students will acquire the ability to develop a highly interactive user experience and connect a browser application to a database on the server. This involves topics such as client-side scripting, applet development, server-side scripting, data security and dynamic connectivity.

Prerequisites: Computer Science 1370 and 2215.

COMP 4513 – Web III: Advanced Web Development**(3 credits) 3 hours lecture, 1 hour lab**

This course covers advanced web development topics, applying the foundation client and server techniques learned in Web I and II, and database topics from Databases I. In addition to practical theory, students will learn about asynchronous JavaScript, web services, electronic commerce, search engine optimization and content management systems. Students will use a modern API to develop an application using maps, social network plug-ins, or other advanced web technology.

Prerequisite: Computer Science 3512 with a minimum grade of C-.

COMP 4522 – Database-II: Advanced Databases

(3 credits) 3 hours lecture, 1 hour lab

This course covers advanced concepts and techniques associated with information management. Database implementation and administration issues are examined in depth. Emerging database trends such as data warehousing and data mining are introduced. The course also provides an overview of distributed database topics, including distributed transactions.

Prerequisite: Computer Science 2521 with a minimum grade of C.

COMP 4535 – Computer Security

(3 credits) 3 hours lecture, 1 hour tutorial

This course covers the concepts and techniques of computer security. It focuses on security issues relevant to the Internet and protecting an organization's internal network. Risk assessment and development of security policies are covered.

Prerequisite: Computer Science 3533 with a minimum grade of C.

COMP 4543 – Project Management and Quality Assurance

(3 credits) 3 hours lecture, 1 hour tutorial

This course covers strategic approaches for successful management of system development or enhancement projects, from both technical and organizational perspectives. The steps involved in ensuring a high quality deployment of a new application are examined.

Prerequisite: Computer Science 2541 with a minimum grade of C.

COMP 4545 – Information Systems Organization

(3 credits) 3 hours lecture, 1 hour tutorial

This course provides a strategic perspective of an Information Systems Organization. There are two dimensions: the first deals with Information as a strategic resource and the second deals with administering and controlling this strategic resource. This course discusses how the organization manages and uses information to ensure its competitive advantage.

Prerequisite: Computer Science 2541 with a minimum grade of C.

COMP 4553 – Human-Computer Interaction

(3 credits) 3 hours lecture, 1 hour tutorial

This course covers the fundamental theory and practice in the design and evaluation of human-computer interfaces. The impacts of computer-based information systems on individuals and organizations are examined along with the rationale for a user-centric approach in all IT applications and systems.

Prerequisite: Computer Science 3551 with a minimum grade of C.

COMP 4555 – Games Development

(3 credits) 3 hours lecture, 1 hour tutorial

This course focuses on the design and implementation of interactive computer games. It emphasizes the algorithms and data structures required to create real time computer graphics, animation, sound, and network communication. In the technical segment, the course uses a variety of development tools in conjunction with a modern 3-D game engine.

Prerequisite: Computer Science 3551 with a minimum grade of C.

COMP 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

CREE (CREE)

CREE 0130 – Introductory Cree Language

(0 credits)

This is a credit free upgrading course; special fees apply.

This is a basic introduction in both the written (using the Roman alphabet) and oral aspects of the Plains Cree (Y dialect) language. The course will focus on grammar, vocabulary, and oral skills.

CRIMINAL JUSTICE STUDIES (CRJS)

CRJS 1001 – Introduction to Criminology

(3 credits – TG) 3 hours lecture

In this course, students are introduced to the major theoretical concepts presently available as an explanation of crime, criminals and criminality in the field of criminology.

CRJS 1003 – Introduction to the Justice System

(3 credits – TG) 3 hours lecture

In this course, students will examine the functional patterns and roles of the major components in the Canadian Justice System. This process includes (but is not limited to) familiarizing the students with the evolving nature of law enforcement, courts and correctional services.

CRJS 1011 – Introduction to Human Relations

(3 credits) 3 hours lecture

This course will provide students with an understanding of the development of interpersonal relationships. Students will explore cross-cultural, interdisciplinary and evolving perceptions of normal human relationships, as well as the significance of relationship skills in the justice system.

CRJS 1013 – Diversity Issues and the Criminal Justice System

(3 credits) 3 hours lecture

This course will explore issues of diversity and justice within Canadian society. Emphasis will be placed on issues, such as ethnicity, gender, sexual preference, age, and social class, and access to justice throughout Canadian history. Situated in an exploration of competing theoretical paradigms, students will be challenged to consider the complexity of diversity issues in context of the history and practices of the Canadian Criminal Justice System.

CRJS 2001 – Crime and Criminal Intelligence Analysis

(3 credits) 3 hour lecture

This course introduces students to crime and intelligence analysis as a law enforcement activity. It focuses on an introductory exploration of the foundation and components of crime analysis and the tools employed by crime analysts to assist law enforcement agencies to identify and address community crime concerns.

Prerequisites: Criminal Justice 1001 and 1003.

CRJS 2003 – Young Persons in Conflict with the Law

(3 credits – TG) 3 hours lecture

In this course, students will be provided an overview of the behavioural dynamics of young persons involved in anti-social acts. An examination of the legal and social effects of legislation on the community and the young offender is also undertaken. A consideration of community resources is included.

Prerequisites: Criminal Justice 1001 and 1003 or permission of the department.

CRJS 2004 – Issues and Trends in Canadian Policing

(3 credits) 3 hours lecture

This course introduces students to the major trends and issues related to policing in Canada. Students will gain an appreciation of the historical development of policing in Canada and how this development informs contemporary issues such as the delivery of policing services, police organizations, human resource development within police agencies and the different roles within a police department.

Prerequisites: Criminal Justice 1001 and 1003.

CRJS 2005 – Aberrant Behavior**(3 credits – TG) 3 hours lecture**

In this course, students critically analyze aberrant behaviours with emphasis on their nature, incidence, correlates, control and prevention. Attention may be given to specific subject areas, which will be examined in conjunction with the current Diagnostic and Statistical Manual (DSM). Students will be able to differentiate aberrant behaviour from normative conduct in both its application and impact on the criminal justice system.

Prerequisites: Criminal Justice 1001 and 1003.

CRJS 2006 – Corrections**(3 credits) 3 hours lecture**

This course will provide a comprehensive historical review of the correctional system and its various elements as well as an examination of current theory and practice of Canadian corrections. Particular attention will be given to such contemporary issues as trends from incarceration to community-based treatment as well as coverage of such topics as the incarceration process, probation, parole, institutional programs, rehabilitation and special populations. Attention will also be paid to emerging and proposed changes to corrections. Where appropriate, comparative analysis will also be introduced.

Prerequisites: Criminal Justice 1101 and 1003.

CRJS 2008 – Geography of Crime: Prevention, Patterns and Trends**(3 credits) 3 hour lecture**

This course explores the fields of environmental criminology and the geography of crime. It provides a critical examination of the theoretical approaches within these fields. Special emphasis is placed upon the relationship between crime and the environment (patterns), crime prevention, spatial dynamics of crime, the criminality of place and the decision processes involved in criminal events.

Prerequisites: Criminal Justice 1001 and 1003.

CRJS 2009 – Selected Issues in Human Justice**(3 credits) 3 hours lecture**

In this course, students will critically examine topical issues within Human Justice. Each semester's offering will focus on current issues within the major fields of corrections, law enforcement and the judiciary.

Prerequisites: Criminal Justice 1001 and 1003.

CRJS 2011 – Comparative Criminal Justice Systems**(3 credits – TG) 3 hours lecture**

This course introduces students to a variety of criminal justice system models including common law systems, civil law systems, and systems that differ fundamentally from common and civil law traditions. The selection of countries will vary from year-to-year depending on current social, economic, and/or political issues. The course will present a conceptual framework for a constructive functional comparative analysis of the different models. In addition, the intent of this course is to provide the student with a sampling of criminological phenomena around the world.

Prerequisites: Criminal Justice 1001 and 1003 or permission of the department.

CRJS 2013 – Interviewing Skills**(3 credits) 3 hours lecture**

In this course, students learn basic interviewing techniques. Various aspects of interpersonal communication used in the interview situation such as feedback and mechanisms, paraphrasing and nonverbal communication are discussed and practiced during a series of exercises and experiences related to the functioning of the justice system. As an applied course students will demonstrate (to criteria) skill mastery in both interviewing and self-appraisal.

Prerequisites: Criminal Justice 1001 and 1011.

CRJS 2015 – Introduction to Research Methods in Justice Studies**(3 credits) 3 hours lecture**

Students in this course will develop a foundational understanding of social science research methods as practiced within Criminology and Criminal Justice. Specifically, this course will focus on the theory of inquiry, scientific method, inductive versus deductive reasoning, overview of qualitative and quantitative approaches to research design and data collection, criminological data sources, common errors in research and research ethics.

Prerequisites: Criminal Justice 1001 and 1003.

CRJS 2017 – Corporate and White Collar Crime**(3 credits) 3 hour lecture**

This course deals with corporate and white collar crimes, which, despite the significant financial and physical harm they cause, do not receive adequate attention in many criminology courses. This course will fill this void by focusing exclusively on the definitions, laws, types, causes, and policy responses that shape crimes by corporations, government agencies, professionals, and others engaged in legitimate occupations.

Prerequisites: Criminal Justice 1001 and 1003.

CRJS 2019 – Restorative Justice (formerly AJUS 4419)**(3 credits) 3 hours lecture**

Increasingly, restorative justice programs and practices are emerging as viable alternatives within provincial and federal correctional agencies in the Canadian Justice System. Seen in contrast to the traditional justice paradigms of retribution and punishment, the restorative justice paradigm is emerging in most western societies. This course will explore the philosophical basis of restorative justice and its practice in Canada. International examples will also be discussed.

Prerequisites: Criminal Justice 1001 and 1003 or permission of the department.

CRJS 3001 – Quantitative Research Methods and Data Analysis**(6 credits – TG) 3 hours lecture, 2 hour tutorial**

This course provides a detailed examination of quantitative research and data analysis techniques used in criminological research. Within the context of common sources of criminological/criminal justice data, students will learn how to apply descriptive and inferential statistics in quantitative research. Common measures of central tendency, dispersion and association, as well as multivariate analysis will be applied to disaggregated and aggregated data. Students will also be introduced to emerging trends in quantitative data analysis in criminological research such as crime pattern analysis.

Prerequisite: Criminal Justice 2015.

CRJS 3005 – Qualitative Research Methods**(3 credits – TG) 3 hours lecture**

This course introduces students to naturalistic/qualitative research methods and their application to issues of crime and justice in contemporary society. Students are guided through a process of designing and selecting data collection methods that are appropriate, well thought out and valid.

Prerequisites: Criminal Justice 2015 and 2013.

CRJS 3007 – Professional Ethics in Criminal Justice**(3 credits – TG) 3 hours lecture**

Students will study the development of ethical thinking, models of ethical decision-making, professional codes of ethics and issues in ethics relevant to criminal justice practitioners. Case analysis and evaluation will be utilized to increase students' competencies in ethical reasoning.

Prerequisites: Criminal Justice 1013 and 2009.

CRJS 3009 – Crisis Intervention and Conflict Resolution Strategies

(3 credits) 3 hours lecture

This course will introduce theoretical and practice-based models of crisis intervention and conflict resolution. Students will become familiar with, and learn to analyze and respond to common situations that they may face as criminal justice practitioners. The curriculum will focus on such situations as suicide, relationship violence, sexual assault, chemical dependency, mental health. Post Traumatic Stress Disorder, institutional violence, vicarious victimization and burnout.

Prerequisites: Criminal Justice 1001, 1003, 1011 and 2013.

CRJS 3011 – Criminal Law

(3 credits – TG) 3 hours lecture

In this course, students will focus on the process of legal problem solving. Students will gain experience in the unique deductive logic within the context of current Canadian criminal law.

Prerequisite: Criminal Justice 1003 or permission of the department.

CRJS 4001 – Human Rights and Civil Liberties

(3 credits) 3 hours lecture

This course explores the relationship between individuals and the nation state. Beginning with a review of competing paradigms related to Human Rights and Civil Liberties, emphasis will be placed on the Canadian Charter of Rights and Freedoms and its interpretation by the judiciary. Issues such as equality before the law, freedoms of expression and religion, obscenity and hate literature will be explored.

Prerequisites: Criminal Justice 2013, 3007 and 3011.

CRJS 4002 – Critical Analyses of Forensic Sciences in the Criminal Justice System

(3 credits) 3 hours lecture

This course introduces students to the role forensic science plays in the Canadian criminal justice system. Students will gain an appreciation of the development of forensic science and learn that the criminal justice system, at times, struggles with creating a balance between science and the law. As a result, the student will be introduced to various forensic techniques commonly used, but will also be given an opportunity to critically examine how these techniques can both assist and hinder the due process of determining guilt or innocence of accused persons.

Prerequisite: Criminal Justice 2005.

CRJS 4003 – Criminological Theory

(3 credits – TG) 3 hours lecture

Relying primarily on a lecture and group discussion format, the course will involve examining the original works of selected theorists. Emphasis will be placed on the economic, political, and social context in which theories emerged and how they are reflected in criminal justice practice. Among the perspectives covered will be: positivist explanations; the classical and neo-classical schools of thought; biological explanations; conflict criminology; and the new integrated and interdisciplinary theories.

Prerequisites: Criminal Justice 1001, 2005 and either 3001 or 3005.

CRJS 4007 – Conflict Resolution

(3 credits – TG) 3 hours lecture

This upper level course will provide students with the basic concepts and requisite skills in dealing with conflict resolution in a variety of criminal justice settings. As an applied course, students will be expected to demonstrate skill mastery to specific criteria.

Prerequisite: Criminal Justice 3009 or permission of the department.

CRJS 4013 – Evidence and Procedures

(3 credits – TG) 3 hours lecture

This is an advanced course in the study of criminal law as it relates to procedural law and law relating to evidence. Selected topics will include criminal procedure and evidence, including jurisdiction, police powers of search and seizure, the right to counsel and pre-trial and trial procedures. The course will include a survey of the system of rules and standards by means of which the admissibility of evidence is determined.

Prerequisites: Criminal Justice 1001 and 3011 or permission of the department.

CRJS 4015 – Advanced Topics in Law, Criminology and Criminal Justice

(3 credits – TG) 3 hours lecture

This course is designed to offer instruction in topical and timely areas of academic interest in the study of law, criminology and criminal justice (e.g., terrorism, victimology, crime and media, crime prevention and community development).

Prerequisites: Criminal Justice 1001 and 1003 or permission of the department.

CRJS 4017 – Casework Methods and Practice

(3 credits) 3 hours lecture

This course provides an examination of the principles, ethics, values and varying components of an effective casework process. A general systems approach is utilized in an application to case studies and the realities of a helping relationship in the justice system.

Prerequisites: Criminal Justice 1001 and 2013 or permission of the department.

CRJS 4021 – Women and Crime

(3 credits – TG) 3 hours lecture

This course is an advanced-level study, comparison and critical evaluation of the multiple dimensions (theories, disciplines, systems) concerning women in the Canadian criminal justice system: women as offenders, as victims and as criminal justice workers.

Prerequisites: Criminal Justice 1001, 1003 and 1013, or permission of the department.

CRJS 4401 – Indigenous People and the Canadian Criminal Justice System

(3 credits) 3 hour lecture

This course examines the relationship between Indigenous People and the Canadian criminal justice system. At its core is an examination of Indigenous Peoples' over-representation as victims and offenders and under-representation of practitioners in the Canadian criminal justice system. The course also discusses underlying factors and government initiatives to address this issue, including traditional Indigenous approaches to justice.

Prerequisites: Criminal Justice 1001, 1003 and 1013.

CRJS 5001 – Honours Seminar

(3 credits) 3 hours seminar

Honours students are required to participate in a weekly seminar to explore the synthesis of research and theory within the study of justice. Information related to the research and writing phases of an Honours proposal and final paper will be reviewed, with particular emphasis placed on the development of a meta-analysis/literature review. Discussions will also focus on preparation for graduate schools and professional schools.

Prerequisite: Acceptance into the Bachelor of Arts – Criminal Justice Honours stream.

CRJS 5010 – Honours Research Project I

(3 credits)

Under the one-on-one supervision of a full-time faculty member in the Department of Justice Studies, Honours students will conduct an in-depth scientific investigation of a selected topic in justice. In this first of two back-to-back required Honours Research Project courses, students will focus on producing a research proposal related to their proposed project. Approval of a formal research proposal and completion of appropriate research ethics reviews are prerequisites to any data collection.

Prerequisite: Acceptance into the Bachelor of Arts – Criminal Justice Honours stream.

CRJS 5020 – Honours Research Project II

(3 credits)

Under the one-on-one supervision of a full-time faculty member in the Department of Justice Studies, Honours students will conduct an in-depth scientific investigation of a selected topic in justice. In the second of two back-to-back required Honours Research Project courses, students will undertake and complete a research project. Approval of a formal research proposal and completion of appropriate research ethics reviews are prerequisites to any data collection.

Prerequisite: Criminal Justice 5010.

CRJS 5025 – Criminal Justice Capstone Practicum

(6 credits) 2.5 days per week placement + 3 hours tutorial biweekly
This course involves supervised study and practice. Students spend three and one half days a week in a justice-related agency. After an initial orientation period, students are expected to assume responsibility for assigned agency duties in order to enhance their knowledge and skill in social work methods. During agency work, attention is given to developing students' specific skills and competencies in relation to the Department's experiential learning outcomes. Seminars will focus on integrating relevant Justice Studies' program outcomes with students' work in the field.

Prerequisites: Criminal Justice 2013, 3007 and 3009, or permission of department.

CRJS 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

DIRECTED READINGS

(1 to 4 credits)

Subject to the approval of the department chair.

In order to establish a more flexible approach by which students may pursue and receive credit in areas of study, which are of particular interest to them, a category of courses entitled Directed Readings has been established. The credit value may vary between 1 and 4 credits. The actual value will be determined by the instructor and the chair of the department concerned. However, no more than one course, not to exceed 4 credits, of directed readings can be used for graduation purposes. The objectives agreed upon will be filed in the Office of the Registrar and will be made available to any institution requesting them for evaluation purposes. Arrangements for directed readings must be completed within three weeks of the first day of classes.

DISABILITY STUDIES (DAST)**DAST 1102 – Disabling Conditions I**

(3 credits) 3 hours lecture

This course is the first of two that focus on the etiology of a wide range of disabling conditions. Genetic processes that result in disabilities will be outlined. Students will be introduced to prenatal, peri-natal or postnatal causes of disabilities and to the anatomical and physiological basis of various disabilities. Diagnostic processes, accommodations and intervention approaches associated will also be discussed.

DAST 1104 – Disabling Conditions II

(3 credits) 3 hours lecture

This is the second of two courses focusing on the etiology of the range of disabling conditions. Causation, diagnostic processes, characteristics, accommodations and intervention approaches will be discussed in detail for a wide range of disabling conditions.

Prerequisite: Disability Studies 1102

DAST 1111 – Social History of Disability

(3 credits) 3 hours lecture

This course is an overview of the social, cultural, historical and philosophical perspectives of disability. Historical and current views are examined.

DAST 1123 – Positive Behavioural Supports

(3 credits) 3 hours lecture

This course will introduce students to approaches and techniques that may be applied in response to difficult and challenging behaviours demonstrated by persons with disabilities. Students will learn to select respectful approaches appropriate to the age of the client and nature of his or her disability. Case studies will be utilized throughout the course.

DAST 1124 – Field Experience

(3 credits) 1.5 hours tutorial and 50 hours fieldwork

This is an introductory field experience course where students will obtain beginning, hands-on practical knowledge in supporting individuals with disabilities on a one-to-one basis. Under the supervision of agency personnel in a disability-related setting, students will learn basic skills in engagement and assist staff in helping people with disabilities meet their individual goals. Students are required to attend weekly classroom sessions where individual field experiences will be discussed.

Co-requisites: Disability Studies 1102 and 1111.

DAST 1126 – Practicum I

(3 credits) 1.5 hours lecture and 75 hours fieldwork

This is an intermediate practicum course where students obtain hands-on practical knowledge in working with individuals with disabilities, their families and their support networks. Under the supervision of a skilled community-based practitioner, students will engage with key support people in the life of a person and develop skills in the areas of assessment, person-centered planning and beginning intervention. Students are required to attend weekly classroom sessions where individual field experiences will be discussed.

Prerequisites: Disability Studies 1124.

DAST 2205 – Disability Work Management (formerly DAST 1205)

(3 credits) 3 hours lecture

This course is an introduction to vocational rehabilitation and supported employment/ career development for people with disabilities.

DAST 2206 – Organizations and Leadership (formerly DAST 1206)

(3 credits) 3 hours lecture

This is an introductory course which focuses on providing students with theoretical and practical information about principles of effective leadership and the functioning of human service organizations. Students will explore the theory and practice of leadership and organizational development in the context of disability-related organizations.

DAST 2208 – Advocacy for Canadians with a Disability (formerly DAST 1208)

(3 credits) Internet Delivery

Students will learn about historical social change movements in society led by marginalized groups. This course will review critical issues and specific examples relevant to the practice of social justice and advocacy for change. The course incorporates planning exercises, ethical discussions, and outcome analysis.

DAST 2209 – Disability Social Policy (formerly DAST 1209)

(3 credits) 3 hours lecture

In this course students will review and analyze social problems, policies, and issues as they relate to the delivery and development of services for persons with disabilities. It will explore the process by which social policy is developed in Canada and how human service workers can influence policy.

DAST 2211 – Group Facilitation (formerly DAST 1211)

(3 credits) 3 hours lecture

This course is designed to develop skills for working with groups through a combination of lectures, observation, and experiential learning. The stages of group development, group roles and norms, theoretical frameworks, intervention, group design, implementation and evaluation will be addressed.

Prerequisites: Interdisciplinary Studies 1240.

DAST 2224 – Practicum II (formerly DAST 1224)

(3 credits) 1.5 hours tutorial and 100 hours fieldwork

This is a senior-level practicum course where students obtain hands-on practical knowledge in implementing Positive Behavioral Support strategies to address challenging behaviors. Under the supervision of a skilled community-based practitioner, students will learn strategies for responding to challenging behaviors in ways that are respectful of the rights and dignity of all individuals involved. Students are required to attend weekly tutorials where individual field experiences will be discussed.

Prerequisites: Disability Studies 1123 and 1126.

DAST 2226 – Practicum III (formerly DAST 1226)

(3 credits) 1.5 hours tutorial and 150 hours practicum

This is an advanced-level practicum where students have an opportunity to apply many of the supervision and leadership skills which they are learning in Disability Studies 1206: Organizations and Leadership. Under the supervision of an experienced community-based practitioner, students will develop supervisory skills necessary for working successfully with staff in disability-related organizations. As part of their practicum requirement, students must attend bi-weekly integration seminars where reflections from individual practicum experiences will be discussed.

Prerequisite: Disability Studies 2224.

Co-requisite: Disability Studies 2206.

DAST 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

EARLY LEARNING AND CHILD CARE (ELCC)

ELCC 1104 – Introduction to Early Learning and Child Care

(3 credits) 3 hours lecture

This initial course provides students with an overview of the field of early learning, child care and the profession. Students will begin to develop a personal philosophy of early childhood education as they gain knowledge and skills about quality care, professional roles and government regulations.

ELCC 1107 – Diversity in Child Care Settings

(3 credits) 3 hours lecture

This course will explore various aspects of diversity and the implications of communicating in early child care settings.

ELCC 1109 – Principles of Development I

(3 credits) 3 hours lecture

This course is the first of two courses that covers the theories and sequences of development from birth to twelve-years.

ELCC 1110 – Learning Through Play I

(3 credits) 3 hours lecture

This course will examine play as it affects children's total development. Topics to be discussed include: definitions and theories of play; values and types of play; and the role of the adult and the effect of the environment in the facilitation of play.

Pre or Co-requisites: Early Learning and Child Care 1104 and 1109.

ELCC 1120 – Learning Through Play II

(3 credits) 3 hours lecture

This course considers the foundations of a play-based learning environment. Students will explore the theory, methods and techniques of developmentally appropriate practices.

Pre or Co-requisites: Early Learning and Child Care 1104, 1109, and 1110.

ELCC 1180 – Fieldwork

(3 credits) 1 hour lecture, 100 hours fieldwork

Students will observe one day a week in a variety of self-selected and pre-selected environments. This course will focus on the practical application of the theories learned in Early Learning and Child Care 1104 and 1109.

Pre or Co-requisite: Early Learning and Child Care 1104.

ELCC 1209 – Principles of Development II

(3 credits) 3 hours lecture

This course is the second of two courses that cover the theories and sequence of development from birth to twelve years.

Pre or Co-requisite: Early Learning and Child Care 1109.

ELCC 1213 – Communicating with Parents and Professionals in Early Learning and Child Care Settings

(3 credits – TG) 3 hours lecture

This course will examine communication strategies necessary for early learning and child care professionals in their interactions with colleagues, parents and other professionals. This will include both verbal and written communications, problem solving and conflict resolution approaches applicable to the child care professional.

Pre or Co-requisite: Early Learning and Child Care 1104.

ELCC 1219 – Connecting with Communities: Working Effectively in a Community Context

(3 credits) 3 hours lecture

This course will review and examine social policies as they relate to the development and delivery of services for children. In addition, this course will examine the ways that Early Learning Professionals can locate and access resources within the community that would be useful in their practice with children and families.

ELCC 1282 – Practicum I

(3 credits) 2 hours lecture, 260 hours practicum

For two days per week, students will interact with young children in an early childhood setting under supervision. Students will be accepted into practica on the basis of academic performance, professional suitability, health and conduct. They will be required to withdraw for violation of professional ethics or behaviour.

Prerequisites: Early Learning and Child Care 1104 and 1180.

Pre or Co-requisites: Early Learning and Child Care 1110, 1120 and 1209.

Note: Students must successfully complete Early Learning and Child Care 1282 to enrol in Early Learning and Child Care 1285.

ELCC 2121 – Guidance and Planning (formerly ELCC 1121)

(3 credits) 3 hours lecture

This course covers the planning of play environments for children to age twelve with a focus on a variety of curriculum areas. Students will explore the theory, methods and techniques of developmentally appropriate practices.

Prerequisites: Early Learning and Child Care 1209, 1120 and 1282.

ELCC 2211 – Child, Family and Community (formerly ELCC 1211)

(3 credits) 3 hours lecture

This course focuses on the family of the pre-school child. Issues concerning families are discussed in terms of the effect they have on all members of the family and on the development of the child. The role of the early childhood professional in understanding, accepting and supporting families is discussed. Various means of developing partnerships with parents will be explored.

Prerequisites: Early Learning and Child Care 1120 and 1209.

ELCC 2215 – Young Children with Special Needs (formerly ELCC 1215)**(3 credits) 3 hours lecture**

This course provides students with information about young children with special needs. Along with learning about specific types of conditions and an introduction to the field of exceptional children. This course will discuss, also present, techniques to integrate children with special needs into early childhood programs.

Prerequisites: Early Learning and Child Care 1120 and 1209.

ELCC 2217 – Professional Practices in Early Childhood Organizations (formerly ELCC 1217)**(3 credits) 3 hours lecture**

This course discusses professional practices in relation to leadership and management organizational structure of child care programs.

Pre or Co-requisite: Early Learning and Child Care 2285.

ELCC 2220 – Issues in Early Learning and Child Care (formerly ELCC 1220)**(3 credits) 3 hours lecture**

This course will examine current trends and issues that pertain to the profession of early learning and child care.

Pre or Co-requisite: Early Learning and Child Care 1285.

ELCC 2285 – Practicum II (formerly ELCC 1285)**(6 credits) 370 hours practicum**

This course is a continuation of Early Learning and Child Care 1282. Students will spend three days per week in a child care setting under supervision. The theories and appropriate practices of early learning and child care will be reinforced and students' skills in these areas will be developed and assessed. Students will be accepted into practica on the basis of academic performance, professional suitability, health and conduct. They will be required to withdraw for violation of professional behaviour and ethics.

Prerequisites: Early Learning and Child Care 1120 and 1209.

Pre or Co-requisites: Early Learning and Child Care 2121 and 1282.

Note: Students must successfully complete Early Learning and Child Care 1285 for Graduation.

ELCC 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ECOLOGY (ECOL)**ECOL 1210 – Ecology (formerly BIOL 1210)****(3 credits – TG) 3 hours lecture, 3 hours lab**

This course provides an exploration of the relationship between living organisms and their environment. Topics include an introduction to environmental influences, communities and populations as well as discussions of North American biomes. An appreciation of how Ecological Theory is applied to current problems relating to land use and resource exploitation is developed. This course is intended for career program students, as a general interest Arts and Science Requirement and for university transfer students.

ECOL 2211 – Terrestrial Ecology (formerly BIOL 2211)**(3 credits) 3 hours lecture, 3 hours lab**

The study of the interactions and the interdependencies of organisms in terrestrial ecosystems will be the focus of this course. Ecological processes and interactions at the individual, population and community levels within terrestrial ecosystems will be examined. Spatial and temporal patterns of variability within terrestrial ecosystem components and the resulting effects on ecosystem function will be investigated. Natural variability as well as human-induced changes will be profiled. This course will also examine how managed and unmanaged natural terrestrial ecosystems interact with industrial systems. The resulting effects of these interactions on biodiversity and ecosystem function will be critically examined.

ECOL 2219 – Aquatic Ecology (formerly BIOL 2219)**(3 credits) 3 hours lecture, 3 hours lab**

The study of the structure and function of aquatic ecosystems is undertaken in this course. There is an emphasis on freshwater systems. The goal is to understand how physical, chemical, biological and anthropogenic factors influence population dynamics and community structure in aquatic ecosystems. Laboratory and field research methods used in aquatic ecology are introduced. Current literature and case studies in various areas of aquatic ecology will be critically reviewed. Aquatic biodiversity issues and sustainability issues are emphasized. The interactions and integration of industrial systems with natural aquatic systems will also be reviewed.

Prerequisite: Successful completion of semesters 1 and 2 of Direct Entry, Bachelor of Applied Science - Environmental Science program or equivalents or consent of the department.

ECONOMICS (ECON)**ECON 0130 – The Canadian Economy****(0 credits) 3 hours lecture**

This is a credit-free upgrading course; special fees apply.

This course involves a survey of the institutions characteristic to the Canadian economy and contemporary problems in an historical perspective. While this course may be presented for admission to the University of Calgary, credit-free upgrading courses completed at Mount Royal University are not eligible for Alberta Education graduation credits or transcript purposes. However, students who are deemed "mature" under Alberta Education criteria may challenge the Alberta Education diploma examinations and receive credit towards an Alberta high school diploma. Students should therefore confirm their maturity status in advance of Mount Royal University enrolment by contacting Student Records, Alberta Education for formal confirmation.

ECON 0205 – Introduction to Business Economics (formerly ECON 1205)**(3 credits) 3 hours lecture**

This course combines principles of micro- and macroeconomics for application in a business environment. Topics covered include demand, supply, price determination, price regulation, applications of elasticity, national income determination, inflation, unemployment, fiscal and monetary policies and international trade.

Note: This course is open only to selected Business Administration students.

ECON 0260 – Issues in Consumer Economics (formerly ECON 1160)**(3 credits – TG) 2 hours lecture, 1 hour tutorial**

Issues facing contemporary Canadian consumers are discussed. This course focuses on key issue areas in the discipline including: the interplay between societal trends, consumer choices, and the environment; sustainable lifestyles; credit management, rights, responsibilities and ethics in interactions between government, business and consumers; factors affecting consumer choices in food, shelter and planning for the future; and collective issues such as transportation and health care.

ECON 1101 – Principles of Microeconomics (formerly ECON 2201)**(3 credits – TG) 3 hours lecture, 1 hour lab**

This course examines how individuals, firms, and governments allocate scarce resources. Market, firm, and society choices are examined using the principles of consumption and production under the following market structures: perfect competition, monopoly, oligopoly, and monopolistic competition. These principles form the basis for analyzing the decision-making processes associated with contemporary microeconomics issues.

ECON 1103 – Principles of Macroeconomics (formerly ECON 2203)

(3 credits – TG) 3 hours lecture, 1 hour lab

This course will acquaint students with introductory macroeconomic principles and issues, including key macro variables, and two important short run models of income determination, namely the Keynesian model and the AS/AD model. The course also examines the monetary system, interest rates and the monetary transmission mechanism, business cycles, fiscal and monetary policies, international trade, exchange rates and the balance of payments.

ECON 1109 – Engineering Economics (formerly ECON 2209)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

Engineering economics includes such topics as the time value of money, project evaluation, depreciation and taxation, inflation, replacement analysis, public sector projects and the analysis of uncertainty and risk. Various problem-solving techniques will be developed with an emphasis on engineering decision making.

ECON 1143 – The Economics of Contemporary Issues (formerly ECON 2243)

(3 credits – TG) 3 hours lecture

This course will apply principles of microeconomics and macroeconomics to current issues in society. By examining current issues from an economic perspective, students will learn how to assess contemporary issues in terms of the individual and overall winners and losers resulting from policies, regulations and systems. Specific issues to be covered in this course depend upon their currency and importance in relation to the time of the course offerings.

ECON 1170 – Economics of Crime and Criminal Justice

(3 credits) 3 hours lecture

This course discusses the economic elements underlying the behaviour of criminals, victims, and law enforcement agencies. Major topics covered include the supply of crime by criminals, the demand for crime prevention by victims, and public policy issues such as crime control and the allocation of criminal justice resources.

ECON 2211 – Intermediate Economic Theory – Microeconomics I (formerly ECON 3301)

(3 credits – TG) 3 hours lecture

This course acquaints the student with intermediate level microeconomic theory and expands upon the principles learned previously in Economics 1101. Microeconomics is concerned with individual decision making: consumer choice, demand theory, production theory, costs, business organization and decisions, distribution of income, competitive and noncompetitive market structures.

Prerequisites: Economics 1101 and 1103 or consent of the department.

ECON 2213 – Intermediate Economic Theory Macroeconomics I (formerly ECON 3303)

(3 credits – TG) 3 hours lecture

The course deals with Keynesian and AS/AD models, the Hicks-Hansen and Mundell-Fleming macro models in an open economy context (IS-LM-BP), AD-AS model under static expectations, the New-Classical, and New-Keynesian models, exchange rates and fiscal and monetary policies in dealing with contemporary macro economic problems of recession, unemployment and inflation.

Prerequisites: Economics 1101 and 1103 or consent of the department.

ECON 2221 – International Trade (formerly ECON 3321)

(3 credits – TG) 3 hours lecture

This course examines international trade theory, policy and applications. Topics include a brief history of trade, absolute and comparative advantage basis for trade, the Heckscher-Ohlin theory, trade with economies of scale, tariffs, non-tariff trade barriers, political economy of non-tariff barriers, strategic trade policies, trade agreements, role of the World Trade Organization (WTO) and developing economies' trade policies. The course emphasizes current applications, policy development, as well as the institutional framework underlying the interaction between nations.

Prerequisites: Economics 1101 and 1103

ECON 2223 – Gender Economics (formerly ECON 3323)

(3 credits – TG) 3 hours lecture

This course examines how gender differences impact women in both the household and the marketplace. Basic economic theory provides the framework to explore such issues as marriage, fertility and child care as well as determine overall trends in the labour market.

Prerequisite: Economics 1101 or consent of the department.

ECON 2229 – International Money and Finance (formerly ECON 3329)

(3 credits – TG) 3 hours lecture

This course examines international monetary theory, policy and applications. Topics include: balance of payments, the role of money and relative interest rates, exchange rate models/regimes and their effect on price levels and output, international investment and global capital markets, currency crises, the international financial architecture, including the role of the World Bank and the International Monetary Fund (IMF). This course emphasizes current applications, policy development, as well as the institutional framework underlying the interaction between nations.

Prerequisites: Economics 1101 and 1103.

ECON 2241 – Money and Banking (formerly ECON 3341)

(3 credits – TG) 3 hours lecture

This course examines topics such as financial intermediation, determination and behaviour of interest rates, commercial banking and the money supply process, central banking and monetary control, regulation of financial markets, transmission of monetary impulses to output, employment and prices.

Prerequisite: Economics 1103 or consent of the department.

ECON 2244 – Managerial Economics (formerly ECON 3245)

(3 credits – TG) 3 hours lecture

Managerial economics is concerned with resource-allocation, strategic decisions, and tactical decisions that are made by analysts, managers, and consultants in the private, public, and not-for-profit sectors of the economy. Managerial economic techniques seek to achieve the objectives of the organization in the most efficient manner, while considering both explicit and implicit constraints on achieving the objective(s).

Prerequisite: Economics 1101.

ECON 2255 – Canadian Public Finance (formerly ECON 3355)

(3 credits – TG) 3 hours lecture

This course examines the institutions behind, and the economic rationale for, Canadian government policy relating to public expenditures and taxation. Topics include public goods; externalities; public expenditure theory and policy; tax and user price theory and policy; and social welfare and social insurance.

Prerequisites: Economics 1101 and 1103 or consent of the department.

ECON 2257 – Intermediate Economic Theory – Microeconomics II (formerly ECON 3357)

(3 credits – TG) 3 hours lecture

This course provides an in-depth examination of topics such as consumer behaviour, producer theory, exchange, factor markets, oligopoly, externalities, public goods, general equilibrium and welfare economics.

Prerequisite: Economics 2211.

ECON 2259 – Intermediate Economic Theory – Macroeconomics II (formerly ECON 3359)

(3 credits – TG) 3 hours lecture

This course examines the role of expectations in macroeconomic models and theories of aggregate consumption, investment, money demand, and economic growth. Students will also study business cycle theories and the inflation unemployment relationship, as well as the theory and practice of economic stabilization policy.

Prerequisite: Economics 2213.

ECON 2261 – Development Economics

(3 credits – TG) 3 hours lecture

This course provides an introduction to economic challenges facing developing countries, models of economic development, comparative analysis of national economic development experience, perspectives on economic development policies, and roles of the state, domestic institutions and international institutions in the development process.

Prerequisites: Economics 1101 and Economics 1103.

Note: Students with prior credit for Economics 2263 may not take this course for additional credit.

ECON 2263 – Development Economics - Field School Program

(3 credits – TG) 3 hours lecture

A hands-on introduction to economic challenges facing developing countries, models of economic development, comparative analysis of development experience, perspectives on economic development policies, and roles of the state, domestic institutions and international institutions in the development process. The entire course is taught at a Mount Royal Field School in a developing country.

Prerequisites: Economics 1101 and Economics 1103, or consent of Department.

Note: Students with prior credit for Economics 2261 may not take this course for additional credit.

ECON 2267 – Agricultural Economics (formerly ECON 3367)

(3 credits – TG) 3 hours lecture

Principles which determine the production and price of agricultural products, analysis of the problems in farming, such as costs, technological developments, demand and supply changes, resource combination, enterprise selection, scale of operation, seasonal, cyclical and secular changes in prices, underlying principles, concepts and factors that control efficient marketing and merchandising of agricultural products.

Prerequisites: Economics 1101 and 1103 or consent of the department.

ECON 3305 – History of Economic Thought

(3 credits) 3 hours lecture

Studying the contributions of leading economic thinkers, from Adam Smith to John Maynard Keynes, this course examines the various perspectives that have influenced the development of economic thought. This course will analyze these economic theories and address some of the implications for policy researchers.

Prerequisites: Economics 1101 and 1103.

ECON 3395 – Introduction to Applied Econometrics (formerly ECON 2295)

(3 credits – TG) 3 hours lecture

The course introduces techniques for quantifying economic relationships. Topics include estimation and testing of hypotheses, forecasting and construction of prediction intervals, use of appropriate functional forms, detection and correction of measurement problems, model specification, and use of statistical software programs for single equation regression analysis.

Prerequisites: Economics 1101 and 1103, and one of the following: Policy Studies 2209, Mathematics 1224, Management 2262; or consent of the department.

ECON 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ECOTOURISM AND OUTDOOR LEADERSHIP (ETOL)

ETOL 2011 – Practicum I

(3 credits) 250 hours of practicum

This is a formal work experience with an assigned organization. Participants will be required to participate in the specified hours of practicum and to complete assignments. Students will be accepted into the practicum upon completion of the course. Prerequisites and/or consent of the department chair. The course is limited to ETOL students enrolled in the Bachelor of Applied Ecotourism and Outdoor Leadership Degree Program who have successfully completed, or are concurrently enrolled in, the core courses.

Prerequisites for the Practicum include the following courses: Ecotourism 2201, 2203, 3305, 3307 and Recreation Studies 1217 and 1247 with an overall grade point average of 2.0. Specific practicum assignments may require some students to hold current certification in Wilderness and Remote Emergency Response and CPR.

ETOL 2201 – Foundations of Outdoor Leadership

(3 credits) 3 hours lecture

This course will survey the history, philosophy, rationale, benefits and recreational opportunities of outdoor leadership. Students will become familiar with the organization, governance and scope of outdoor leadership. Participation is required in one weekend.

ETOL 2203 – Sustainable Tourism

(3 credits – TG) 3 hours lecture

This course will study the development of the ecotourism industry. Students will examine the political, economic and management issues and trends related to ecotourism in Alberta, Canada and internationally. Students will initiate the development of a personal portfolio in this course.

ETOL 2401 – Ecotourism Facilitation Skills

(3 credits) 3 hours lecture

This course studies the knowledge and skills of leading groups in global ecotourism environments. Students will study teaching and learning methodologies, learning styles, interpretation, group facilitation, moderator techniques, needs assessment surveys and program assessment methods.

Prerequisites: Ecotourism and Outdoor Leadership 2203, Applied Communications 2245 and Recreation Studies 1247.

ETOL 3011 – Practicum II

(9 credits) 450 hours of practicum

This practicum experience provides students with a further opportunity to apply the Ecotourism and Outdoor Leadership theories and skills studied during the previous semesters and to continue to build upon their experience from Ecotourism and Outdoor Leadership 2011. It is expected that students will diversify their experience relative to the past experience. Students will be required to submit a practicum plan to the ETOL practicum coordinator prior to embarking on the practicum placement. Goals and strategies will be reviewed by a Faculty Advisor prior to the work-term. Students will be accepted into the practicum upon completion of the course Prerequisites and/or consent of the department chair.

Prerequisite: Ecotourism and Outdoor Leadership 2011.

ETOL 3303 – Expedition

(3 credits – TG) 1 hour lecture, 96 hours fieldwork

This course is designed to familiarize students with a variety of outdoor activities, such as cycle touring, canoeing and kayaking, backpacking, caving, rock climbing and mountaineering. The emphasis will be on experiential methods of learning and practical application of leadership skills. Participation is required in a 10-day expedition.

Prerequisite: Ecotourism and Outdoor Leadership 2201, Physical Education 2404, 2410, 2414, 2416 and 2418, or equivalent outdoor experience and consent of the department. Additionally, students must provide proof of valid Emergency Wilderness Response Certification at the time of the Expedition.

Note: Students will be responsible for payment of personal subsistence costs associated with the fieldwork. Ecotourism and Outdoor Leadership 3303 will commence prior to the start of the Fall Semester with a 10-day expedition in late August.

ETOL 3305 – Program Planning

(3 credits – TG) 3 hours lecture

This course involves the study of the theory, method and techniques of program planning in ecotourism and outdoor leadership. Students will plan, develop and implement a program.

Prerequisites: Ecotourism and Outdoor Leadership 2201 and 2203.

ETOL 3307 – Administration of Outdoor Centres

(3 credits) 3 hours lecture

This course provides a study of the organization and administration of outdoor centres. The student will study and report on outdoor centre organization; administrative systems; training programs; facilities and standards.

ETOL 3309 – Individual Projects

(3 credits) 3 hours lecture

Students will complete individual project assignments negotiated with the course instructor.

Prerequisite: Ecotourism and Outdoor Leadership 2201, 2203 and 3305.

ETOL 4405 – Issues in Ecotourism

(3 credits – TG) 3 hours lecture

This course addresses the evolving nature of the field of ecotourism and tourism locally, nationally and internationally. Students will study the issues related to standards, advocacy groups, private industry, certification, leadership and future trends.

ETOL 4409 – Applied Leadership

(3 credits – TG) 3 hours lecture

Students will plan, develop, market, implement and report on an ecotourism outdoor leadership event.

Prerequisites: Ecotourism and Outdoor Leadership 3305 and 2401.

ETOL 5010 – E-portfolio

(3 credits) 3 hours lecture

In order to make the transition between the Ecotourism and Outdoor Leadership Applied Degree (ETOL) program and full-time career opportunity, several steps have been put in place to create a meaningful representation of the educational experiences successfully completed at Mount Royal University. This course is designed to encapsulate, in electronic portfolio format, those experiences and will include such diverse elements as: ETOL courses completed, certifications gained, practicum-based work experience undertaken, significant outdoor trips and expeditions accomplished, etc. This is a capstone course for the program that will aim to tie all learning experiences together into one format.

EDUCATION (EDUC)

EDUC 1209 – The Learner: Elementary Art Education I (formerly EDUC 2209)

(3 credits – TG) 3 hours lecture, 2 hours lab

This course is designed to assist prospective teachers in developing their visual communication abilities. Participants will explore various materials and participate in studio projects designed to enhance their understanding of age-appropriate art experiences for elementary students.

EDUC 1231 – The Teacher: Professional Dimensions I (formerly EDUC 2231)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course examines the teaching-learning process with reference to psycho-social, philosophical, and political influences in contemporary society, addressing the concept of personal worldview and its impact on teaching and learning. Students are encouraged to recognize similarities and differences between education and schooling. All students are required to participate in relevant field experiences.

EDUC 1233 – The Teacher: Professional Dimensions II (formerly EDUC 2233)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course investigates the evolution of the educational enterprise through historical and personal perspectives. Further, it examines possible future developments and their impact on education and schooling. Students will participate in field experiences involving diverse school environments and begin developing their teaching e-portfolio.

Prerequisite: Education 1231.

EDUC 2271 – The Teacher: Introduction to Methods and Materials in Teaching English as a Second Language (TESL)

(3 credits – TG) 3 hours lecture

This course introduces students to recognized methods useful for working with beginner level ESL learners and the concomitant demands for materials and learning resources. Students will become familiar with the theoretical underpinnings of Total Physical Response (TPR), audio-lingual, Language Experience Approach (LEA) and the selection/design/ preparation of learning resources required to support these methods.

Prerequisites: Linguistics 1111 and 1113 or Education 2371.

EDUC 2307 – The Learner: Elementary Art Education II (formerly EDUC 3307)

(3 credits – TG) 3 hours lecture, 2 hours lab

This course provides an opportunity for prospective teachers to continue to develop their visual communication abilities through participation in advanced studio projects that assist them in producing age-appropriate art materials for use in the classroom. All students are required to participate in relevant field experiences.

Prerequisite: Education 1209.

EDUC 2312 – The Learner: Elementary Music Education I (formerly EDUC 3312)

(3 credits – TG) 3 hours lecture

This course provides an opportunity for prospective teachers to develop musical skills, concepts and instructional methodologies that are considered to be important for teaching music in the elementary school setting. Students are required to participate in relevant field experiences.

EDUC 2321 – The Learner: Education and Individual Development (formerly EDUC 3321)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course examines human behaviour, focusing on physical, emotional, cognitive, moral and social development. Emphasis is placed on understanding classroom implications of motivation, memory, learning styles, student diversity, principles of reinforcement, and the universal aspects of learning. Students are required to participate in relevant field experiences.

Prerequisites: Education 1231 and 1233.

EDUC 2325 – The Community: Understanding Current and Emerging Pedagogical Technologies (formerly EDUC 3325)

(3 credits – TG) 3 hours lecture, 2 hours lab

This course provides an overview of technological influences in education. It is designed to assist prospective teachers in critically examining current and evolving applications of technology relevant to the teaching and learning process.

Prerequisites: Education 1231 and 1233.

EDUC 2341 – The Community: Diversity and Education (formerly EDUC 3341)

(3 credits – TG) 3 hours lecture

This course explores key processes, perspectives and practices underlying effective learning in diverse settings. Topics include the construction of the concept of difference, stereotyping, prejudice, discrimination, racism, classism and sexism, all of which are examined with reference to their impact on learning.

Prerequisites: Education 1231 and 1233.

EDUC 2351 – The Learner: Aboriginal Cultural Dimensions and Classroom Applications (formerly EDUC 3351)

(3 credits – TG) 3 hours lecture

This course is designed to prepare and sensitize prospective teachers to aboriginal perspectives, values, and methods as they relate to the learning context. The course will include an in-depth examination of traditional aboriginal education and associated values.

Prerequisites: Education 1231 and 1233.

EDUC 2371 – The Learner: Language Development and Literacy (formerly EDUC 3371)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course focuses upon language development and the importance of literacy. Students will examine certain principles of learning in order to gain understanding as to how language development occurs as well as to determine best practice in teaching language and literacy. Students are required to participate in relevant field experience.

Prerequisites: Education 1231 and 1233.

EDUC 3323 – The Learner: Effective Assessment - Measurement and Evaluation

(3 credits) 3 hours lecture

This course is designed to assist students in developing an understanding of concepts and issues related to the differentiated assessment of learning. Participants will be required to develop competence in the construction of various instruments and processes used to measure and evaluate individual learner performance.

Prerequisites: Education 1231 and 1233.

EDUC 3361 – The Learner: Exceptional Students, Special Needs, and Inclusive Schooling

(3 credits) 3 hour lecture

This course examines characteristics of students exhibiting a range of mild, moderate, and severe disabilities and students exhibiting exceptional gifts and talents. Diverse educational, cultural, and linguistic backgrounds will be discussed. The course also examines methods that can be used in adapting classroom instruction and management to the diverse needs.

Prerequisite: Education 2321.

EDUC 3372 – The Learner: Early Literacy Teaching English as a Second Language (TESL)

(3 credits – TG) 3 hours lecture

This course will introduce the student to ways of working with pre-literate ESL children as they begin to acquire early literacy concepts and skills, develop oral language and breadth, and depth of vocabulary knowledge. The course will comprise a balanced approach to an early literacy program that is necessary for later literacy success in reading comprehension.

Prerequisites: Linguistics 1111 and 1113 or Education 2371.

EDUC 4321 – The Teacher: Developing a Philosophy of Education

(3 credits – TG) 3 hours lecture

This course examines basic beliefs concerning what is “sensible”, “right”, and “good” in promoting learning. Participants will critically reflect upon significant issues and experiences and will develop their philosophy of teaching and learning.

Prerequisites: Education 1231 and 1233.

EDUC 4325 – The Community: The Impact of Social Issues in Education and Schooling

(3 credits – TG) 3 hours lecture

This course examines factors such as the economy, the state, social class, gender, ethnicity, sub-cultural membership, ideology, religion, and the home environment, and their relationship to and impact on learning in general and schooling in particular.

Prerequisites: Education 1231 and 1233.

EDUC 4471 – The Community: ESL in Mainstream: Language through Content Teaching English as a Second Language (TESL)

(3 credits – TG) 3 hours lecture

This course will introduce students to the principles of language through content (LTC) teaching and would enable them to respond to the needs of ESL learners as they attempt to learn language AND content together in the context of the mainstream classroom.

Prerequisites: Linguistics 1111 and 1113 or Education 2371.

EDUC 4491 – The Community: Community Involvement in the Fine Arts (formerly EDUC 3491)

(3 credits – TG) 3 hours lecture, 2 hours lab

This course uses a seminar approach to explore facets of planning and the implementation of meaningful fine arts experiences in the community setting.

Prerequisite: Education 1209 or 2307.

EDUC 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ENGINEERING (ENGR)

ENGR 1205 – Statics

(3 credits – TG) 3 hours lecture, 1.5 hours tutorial

This course introduces the basic principles of Vector Mechanics as applied to Statics. The course content emphasizes the concept of equilibrium (2D and 3D) in application to particles, rigid bodies and simple structures, as well as equivalent systems, distributed forces and friction. Evaluation of knowledge and problem solving skills takes place through written assignments, quizzes, midterms and an exam.

Prerequisite: 65% in Physics 30 or equivalent, and 65% in Pure Math 30 or equivalent.

ENGR 1215 – Electricity and Magnetism

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 2 hours lab

This course provides students with an introduction to electrostatics; electric charges and fields; potential and capacitance; magnetic fields; energy considerations; electromotive force, inductance; time-varying electric and magnetic fields. Elements of atomic structure; electric current flow; Ohm's law. Kirchoff's laws and the electromagnetic properties of materials are also studied. A vector approach will be employed throughout.

Prerequisites: Engineering 1205 and Mathematics 1217 or equivalents with grades of C- or higher.

ENGR 1233 – Computing for Engineers I with C++

(3 credits – TG) 3 hours lecture, 2 hours tutorial

Topics covered in this course include an overview of computer systems, software, operating systems, editors, and compilers. C++ programming topics include selection and loop structures, functions, structural decomposition, array and aggregate data types, reading from and writing to files, testing strategy, and documentation. In terms of an introduction to object-based programming, topics include the use of class libraries and construction of simple classes.

Prerequisites: 65% or higher in Physics 30, Pure Math 30 and Math 31 (or equivalents).

ENGR 1234 – Computing for Engineers I with Matlab

(3 credits - TG) 3 hours lecture, 2 hours tutorial

This course covers the fundamentals of computer programming with an emphasis on solving engineering problems using Matlab Syntax, variables, statements, control structures, functions, data structures/array operations, files/data management, 2D/3D plotting, searching, sorting, recursion and symbolic math will be addressed. Evaluation will take place through assignments, midterms and a final exam.

Prerequisites: 65% or higher in Physics 30, Pure Math 30 and Math 31 (or equivalents).

ENGR 1261 – Orientation to the Engineering Profession I

(1 credit – TG) 1 hour lecture

This course is an introduction to the engineering profession. The University Transfer Program will be discussed, along with cooperative/internship education, engineering ethics, public safety, professionalism, and sustainable development. Various disciplines and career paths will be illustrated through guest speakers and A/V media.

ENGR 1263 – Orientation to the Engineering Profession II

(1 credit – TG) 1 hour lecture

This course is a continuation of ENGR 1261 and is qualitatively similar to ENGR 1261 in terms of the course content, how the content is presented and how it is evaluated (pass/fail).

ENGR 1271 – Engineering Design and Communication I

(3 credits – TG) 3 hours lecture, 2 x 1.5 hour tutorials

This course introduces the principles of engineering design, visual communications (technical drawing/sketching/), written communications (technical writing) and leadership/project management. Students achieve basic competency in these areas through theoretical and applied assignments, term projects and team-based activities. Students learn about and work with the engineering design process, various technical writing styles/documents and various forms of graphical presentation such as multi-view orthographics.

ENGR 1273 – Engineering Design and Communication II

(2 credits – TG) 1.5 hours tutorial, 3 hours lab

This course is a continuation of Engineering 1271. Students will improve on their basic competency in engineering design, visual and written communication primarily through hands-on, team-based, open-ended design projects. In this course, one large project will be undertaken in order to develop the design and communication skills that the students will require for success as engineers.

Prerequisite: Engineering 1271 with a grade of C- or higher.

Pre or Co-requisite: Engineering 1263.

ENGR 1303 – Electric Circuits and Machines

(3 credits) 3 hours lecture, 1 hour tutorial, 3 hours lab

This course introduces current, voltage and power, Kirchoff's current and voltage laws, capacitors, electricity and magnetism fundamentals as applied to circuits and machines, inductors, circuits and systems, instrumentation, circuit design, DC and AC circuit analysis, DC and AC machines, and first order circuits and transient analysis, from both a theoretical and an applied standpoint.

Prerequisites: Mathematics 1217 or equivalent, and Engineering 1205 or equivalent, both with a C- or higher.

ENGR 3309 – Heat and Mass Transport

(3 credits) 3 hours lecture, 3 hours lab

Energy flows and material flows are crucial to the study of industrial systems. This course introduces concepts necessary to the study of conservation and transport of energy, momentum, and mass. Topics will include: aspects of fluidflow, thermodynamics, conduction/diffusion transport, convective transport, and radiative transport. Applications of interest to industrial ecology which involve fluid-flow, heat transfer, and mass transfer will be studied.

Prerequisites: Chemistry 2209 and 2210 and Mathematics 3307 with a C- or higher.

Pre or Co-requisite: Mathematics 3101.

ENGR 3319 – Statistics for Engineering

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course involves: the presentation and description of data; introduction to probability theory; Bayes Theorem; discrete and continuous probability distributions; estimation; sampling distributions; tests of hypotheses on means; variances and proportions and simple linear regression and correlation. Applications are chosen from engineering practice.

Prerequisite: Mathematics 1219 with a C- or higher.

ENGR 3349 – Dynamics

(3 credits – TG) 3 hours lecture, 1 hour lab

This course introduces the basic principles of Vector Mechanics as applied to Dynamics. The course content emphasizes kinematics and kinetics of particles and rigid bodies, rectilinear and curvilinear translation, general plane motion, rotation, relative motion, force, mass, acceleration, friction, impulse, momentum and conservation of linear and angular momenta. Evaluation of knowledge and problem solving skills takes place through written assignments, quizzes, midterms and an exam.

Prerequisites: Mathematics 1217 or equivalent, and Engineering 1205 or equivalent, both with a C- or higher.

ENGR 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ENGLISH (ENGL)

For Film Studies courses, please see FILM STUDIES

ENGL 0115 – Writing and Communication Skills

(0 credits) 4 hours lecture

This is a credit free upgrading course; special fees apply.

This course provides students with opportunities to improve their English language communication skills provided they are adequately prepared to study English at a high school level. This is not an ESL course. Instruction will emphasize development of grammar, spelling, vocabulary and punctuation. Students who successfully complete this course or its equivalent are adequately prepared to take English 0130 or English 0212.

ENGL 0130 – Literature and Composition

(0 credits) 4 hours lecture

This is a credit-free upgrading course; special fees apply. Students write paragraphs and essays of various lengths based upon ideas derived from the study of literary works and from other sources.

Corresponding Alberta High School Equivalent: English 30-1.

Recommended Preparation: English 0115, English Language Arts 20-1 or English Language Arts 30-2 or equivalents.

ENGL 0212 – Introductory Composition (formerly ENGL 1112)

(3 credits – TG) 3 hours lecture

This course is designed for students whose understanding of the elements of English grammar and the mechanics of good writing needs reinforcing. Introductory Composition will provide a review of grammar and the mechanics; as well, it will focus on the structures of sentences, paragraphs and essays. Along with written assignments offering practice in composition, the course will emphasize discussion and analysis of readings. Instruction in research methods will also be provided as preparation for a research paper.

Note: Students must have passed English Language Arts 30-1, English Language Arts 30-2 or English 0115 to qualify for this course.

ENGL 1101/GNED 1401 – Critical Writing and Reading

(3 credits – TG) 4 hours lecture

This foundational composition course offered by the department of English focuses on effective writing styles for academic and wider social contexts. Students will respond to texts pertaining to a variety of disciplines and develop critical reading and thinking skills. Students will also refine their understanding and practice of the structures of writing.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 60% or higher, or English 0212 with a grade of C or higher.

ENGL 1117 – Introduction to Writing Poetry (formerly ENGL 2217)

(3 credits – TG) 3 hours lecture

In this workshop-based course, students will acquire the skills, understanding and practice they need to write, edit, and discuss their own original poetry. The course will result in the completion of an original portfolio which can be used to apply for entry to upper-level courses.

Prerequisite: English Language Arts 30-1 or equivalent.

Recommended Preparation: English 0212 or 1101.

ENGL 1118 – Introduction to Writing Fiction (formerly ENGL 2218)

(3 credits – TG) 3 hours lecture

In this workshop-based course, students will acquire the skills, understanding and practice they need to write, edit, and discuss their own original fiction. The course will result in the completion of an original portfolio which can be used to apply for entry to upper-level courses.

Prerequisite: English Language Arts 30-1 or equivalent.

Recommended Preparation: English 0212 or 1101.

ENGL 1131 – Introduction to Fiction (formerly ENGL 2231)

(3 credits – TG) 3 hours lecture

In this course selected novels and short stories are studied, with instruction in the writing of critical essays.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 60% or higher.

ENGL 1135 – Introduction to Poetry (formerly ENGL 2235)

(3 credits – TG) 3 hours lecture

A study of selected poetry written in English, with instruction in the writing of critical essays.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 60% or higher.

ENGL 1137 – Introduction to Dramatic Literature (formerly ENGL 2237)

(3 credits – TG) 3 hours lecture

A study of six to eight plays, with instruction in the writing of critical essays.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 60% or higher.

ENGL 1141 – Introduction to Children's Literature (formerly ENGL 2241)

(3 credits – TG) 3 hours lecture

This course offers a critical study of literature for young children (ages two-eight). By providing a survey of the various genres of children's literature, this course introduces students to the range of work available for preschool and primary school children. Students will also be given opportunities to develop their skills for oral presentation and written composition.

Prerequisite: English Language Arts 30-1 or 30-2 or equivalent with a grade of 60% or higher.

Note: Students cannot receive credit for both English 1241 and 1141.

ENGL 2202 – Theory in English Studies (formerly ENGL 3302)

(3 credits – TG) 3 hours lecture

Why do English students study concepts like "representation," "the subject," and "the other," all of which originate in European philosophy? This course explores the question by analyzing the historical influx of Theory into English Studies, and the resulting experiments and controversies.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and English 1131, 1135, 1137 or 1141 with a grade of C- or higher.

ENGL 2205 – Literary Research and Methods

(3 credits – TG) 3 hours lecture

This course focuses on effective literary scholarship and criticism, channeling research and writing skills developed in junior English courses into coherent focus. The course highlights key elements in the discipline of English, including (but not restricted to) in-depth research skills, understanding the contexts for literary criticism, and various analytical methods.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137, or 1141.

ENGL 2207 – Advanced Writing (formerly ENGL 3307)

(3 credits – TG) 4 hours lecture

A course in which students study rhetorical theory and apply it to the examination of their own writing and that of selected texts.

Prerequisite: English 1101/General Education 1401 or 1402 or 1403.

Note: Credit will be allowed for only one of Applied Communications 2263, English 2207 or Freelance Writing 1301. English 2207 = Athabasca University ENGL 353. Credit will be allowed for only one of English 2207 and ENGL A353.

ENGL 2210 – English Literature to the Restoration (formerly ENGL 1113)

(3 credits – TG) 3 hours lecture

This course surveys English literature from its earliest beginnings to the Restoration (1660), with an emphasis on major authors. Students will read a variety of genres closely and critically, and will examine how these texts relate to their socio-political, religious and cultural environments. Students will be introduced to literary research.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and English 1131, 1135, 1137 or 1141 with a grade of C- or higher.

ENGL 2211 – English Literature from the Restoration to the Present (formerly ENGL 1114)

(3 credits – TG) 3 hours lecture

This course surveys English literature from the Restoration (1660) to the present. Students will read a variety of texts closely and critically within various cultural contexts. Students will be introduced to literary research.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and English 1131, 1135, 1137 or 1141 with a grade of C- or higher.

ENGL 2216 – Women's Literary Tradition I (formerly ENGL 3318)

(3 credits – TG) 3 hours lecture

As we examine a variety of literary texts – past and present – we will explore a women's literary tradition which until recently, has been overshadowed by the 'master' pieces of a male literary tradition. Readings from both literary and critical works will assist us, as we examine the question of "tradition" itself and women's place within and outside that tradition. At the same time, we will ask some difficult and challenging questions about gender, the self, and society.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

Note: English 2216 = Athabasca University ENGL 307. Credit will be allowed for only one of English 2216 and ENGL A307.

ENGL 2219 – Women's Literary Tradition II (formerly ENGL 3319)

(3 credits – TG) 3 hours lecture

A continuation of English 2216, this course will examine the ways in which contemporary women authors transform their private experience of the world into a public expression of female culture.

Prerequisite: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

ENGL 2228 – Intermediate Special Topics (formerly ENGL 3329)

(3 credits – TG) 3 hours lecture

This course provides an examination of selected literary topics. The offerings vary depending on student and faculty interests. As this is a variable content course, the specific topic will be announced and advertised each time the course is offered. Students may not receive credit for this course more than once.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

ENGL 2248 – American Literature from 1865 to 1945 (formerly ENGL 3348)

(3 credits – TG) 3 hours lecture

This course surveys American literary developments of the later nineteenth and early twentieth century, including the Harlem Renaissance and the rise of modernism. A culturally diverse selection of authors will be studied both in and outside the realist and naturalist traditions.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

Note: For students enrolled in the AU@MRC collaborative B.A. degree, English 2248 = English A348. For all other students, English 2248 = AU English 3xx.

ENGL 2249 – American Literature from 1945 to the Present (formerly ENGL 3349)

(3 credits – TG) 3 hours lecture

This course surveys American literature from World War II to the present, with emphasis on the prose and poetry of a culturally diverse array of writers, the advent of postmodernism, and 'America' as a geographical and cultural category.

Prerequisite: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

Note: For students enrolled in the AU@MRC collaborative B.A. degree, English 2249 = English A349. For all other students, English 2249 = AU English 3xx.

ENGL 2263 – Technical Writing (formerly ENGL 3363)

(3 credits – TG) 3 hours lecture

This course focuses on the principles and techniques of technical writing. Through analysis of selected technical prose and directed writing practice, students will develop competence in the presentation of technical information for a variety of audiences.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 75% or higher, or one of English 0212, English 1101/General Education 1401, 1402, or 1403.

Note: English 2263 may not be used to satisfy the senior-level arts and science graduation requirements for applied degree programs. Credit will be allowed for only one of Applied Communications 2061, English 2263 and Freelance Writing 1311.

ENGL 2264 – Intermediate Creative Writing, Poetry 1: Contemporary Practice (formerly ENGL 3364)

(3 credits – TG) 4 hours lecture

This course blends creative writing with writerly readings and analysis of published contemporary poetry. Students will be encouraged to explore a range of styles, as well as experiment, play with, write and re-write their own work in light of critiques by fellow students, the instructor and the implicit examples found in literature. Students will also take part in online workshops using course-specific software.

Prerequisite: Admission to the course is by consent of the department based on an evaluation of a portfolio (no more than 12 poems) of the student's original creative writing. Portfolios will be submitted to the English Department the semester before the course is to begin. Students with little or no workshop experience may be advised to take English 1117.

**ENGL 2265 – Intermediate Creative Writing,
Poetry 2: Poetic Precedents (formerly ENGL 3365)**

(3 credits – TG) 4 hours lecture

Building on English 2264, this course blends creative writing with writerly readings and analysis of a selection of poetic precedents chosen for their historical or literary value. Student will be encouraged to explore a range of styles, as well as experiment, play with, write and re-write their own work in light of critiques by fellow students, the instructor and implicit examples found in literature. Students will also take part in online workshops using course-specific software.

Prerequisite: Admission to the course is by consent of the department based on an evaluation of a portfolio (no more than 12 poems) of the student's original creative writing. Portfolios will be submitted to the English Department the semester before the course is to begin. Students with little or no workshop experience may be advised to take English 1118.

**ENGL 2266 – Intermediate Creative Writing,
Fiction 1: Contemporary Practice (formerly
ENGL3366)**

(3 credits – TG) 4 hours lecture

This course blends creative writing with writerly readings and analysis of contemporary prose fiction. Students will be encouraged to explore a range of styles, as well as experiment, play with, write and re-write their own work in light of critiques by fellow students, the instructor and the implicit examples of literature. Students will also take part in online lab work using course-specific software.

Prerequisite: Admission to the course is by consent of the department based on an evaluation of a portfolio (no more than 20 typed, double-spaced pages of prose) of the student's original creative writing. Portfolios will be submitted to the English Department the semester before the course is to begin. Students with little or no workshop experience may be advised to take English 1118.

Note: English 2266 = Athabasca University ENGL 381. Credit will be allowed for only one of English 2266 and ENGL A381.

**ENGL 2267 – Intermediate Creative Writing,
Fiction 2: Precedents (formerly ENGL 3367)**

(3 credits – TG) 4 hours lecture

Building on English 2266, this course blends creative writing with writerly readings and analysis of a selection of precedents in fiction chosen for their historical or literary value. Students will be encouraged to explore a range of styles, as well as experiment, play with, write and re-write their own work in light of critiques by fellow students, the instructor and the implicit examples of literature. Students will also take part in online workshops using course-specific software.

Prerequisite: Admission to the course is by consent of the department based on an evaluation of a portfolio (no more than 20 typed, double-spaced pages of prose) of the student's original creative writing. Portfolios will be submitted to the English Department the semester before the course is to begin. Students with little or no workshop experience may be advised to take English 1118.

**ENGL 2270 – Canadian Literature to 1914
(formerly ENGL 3370)**

(3 credits – TG) 3 hours lecture

This course surveys Canadian literature in English from its beginnings to the early twentieth century, and explores topics such as the development of a colonial literature; the literary articulation of Canadian subjects and themes; the adaptation of literary forms to Canadian experience; and the role of the literary institution in the development of Canadian nationalism. Students will examine the literature of exploration, travel and settlement; narrative, dramatic, and lyric poetry; and prose fiction.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

Note: English 2270/2271 = Athabasca University ENGL 302. Credit will be allowed for only one of English 2270/2271 and ENGL A302.

**ENGL 2271 – Canadian Literature from 1914 to the
Present (formerly ENGL 3371)**

(3 credits – TG) 3 hours lecture

This course focuses on the development of modernism and postmodernism in twentieth century Canadian writing.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

Note: English 2270/2271 = Athabasca University ENGL 302. Credit will be allowed for only one of English 2270/2271 and ENGL A302.

**ENGL 2273 – Reading the Popular
(formerly ENGL 3373)**

(3 credits – TG) 3 hours lecture

This course examines the historical development of popular literary forms, including but not limited to persistent characters, themes, and narrative structures. These forms will be studied especially in genre fiction constructed for a trans-Atlantic mass readership in the twentieth century such as mystery, romance, horror, etc and in related non-print media as well.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

**ENGL 2291 – Postcolonial Literature I
(formerly ENGL 3391)**

(3 credits – TG) 3 hours lecture

This course aims to introduce students to postcolonial issues through a variety of literary, filmic and theoretical texts from a variety of regions.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

Note: English 2291/2292 = Athabasca University ENGL 433. Credit will be allowed for only one of English 2291/2292 and ENGL A433.

**ENGL 2292 – Postcolonial Literature II
(formerly ENGL 3392)**

(3 credits – TG) 3 hours lecture

This course furthers the exploration of postcolonial issues through a variety of literary, filmic and theoretical texts from a variety of regions.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141. English 2291, Postcolonial Literature I, is NOT a prerequisite for English 2292.

Note: This course will not duplicate texts assigned in Postcolonial Literature I. English 2291/2292 = Athabasca University ENGL 433. Credit will be allowed for only one of English 2291/2292 and ENGL A433.

ENGL 2293 – Science Fiction (formerly ENGL 3393)

(3 credits – TG) 3 hours lecture

This course examines representative works of science fiction with attention to the tradition, its leading themes and modern developments.

Prerequisite: English 1101/General Education 1401 or 1402 or 1403.

ENGL 2295 – Fantasy (formerly ENGL 3395)

(3 credits – TG) 3 hours lecture

This course examines the historical roots, literary applications and theoretical context of fantastic elements in fiction. Texts may include representative examples of dream vision, allegory, romance, surrealism, and magic realism, with a particular emphasis on modern fantasy fiction.

Prerequisite: English 1101/General Education 1401 or 1402 or 1403.

ENGL 2298 – Children's Literature to 1900 (formerly ENGL 3398)

(3 credits – TG) 3 hours lecture

Offering opportunities for advanced critical study, this course chronicles the history of children's literature from its origins in folklore to the achievements of the Golden Age at the end of the nineteenth century. Through an examination of texts within their cultural context, this course explores various attitudes toward childhood that inform works written in times past. Written assignments will provide students with opportunities to develop their awareness of the critical issues and theoretical perspectives that dominate the field.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

ENGL 2299 – Children's Literature from 1900 to the Present (formerly ENGL 3399)

(3 credits – TG) 3 hours lecture

A continuation of ENGL 2298, this advanced course surveys the development of children's literature from the beginning of the twentieth century to the present day. Focusing on classic and contemporary texts that ask readers to think about who they are and what kind of world they inhabit, this course explores the literary, social and educational values that inform works written for children and adolescents. Written assignments will provide students with opportunities to develop their critical and theoretical understanding of the field.

Prerequisites: English 1101/General Education 1401 or 1402 or 1403 and one of English 1131, 1135, 1137 or 1141.

ENGL 3246 – Early American Literature

(3 credits – TG) 3 hours lecture

Using letters, accounts, speeches, journal entries, poems, and other narratives, the course surveys early American literature from 1492 to 1820, focusing on such themes as "discovery" and contact; emerging federalism; indigenous communities; racism and the North-South divide; gender; work; individuality and self-reliance; crime and violence; landscape, environment, and identity.

Prerequisite: English 2210 or 2211 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, or 2267.

Recommended Preparation: Three 2000-level English courses.

ENGL 3256 – Canadian Drama

(3 credits – TG) 3 hours lecture

This course examines Canadian drama from Confederation to the present, focusing on theatrical innovation, language and style. Canadian theatre history and the nature of Canadian drama are examined in the light of both nationalism and regionalism and their relation to dominant themes, stylistic trends, and sensibilities within Canadian literature.

Prerequisites: English 2210 or 2211 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, or 2267.

Recommended Preparation: Three 2000-level English courses.

ENGL 3304 – Composition Theory

(3 credits – TG) 3 hours lecture

This course surveys theoretical models of composition and composition instruction. Beginning with an exploration of the nature of composition and writing, this course will examine such topics as classical and contemporary compositional theory, feminist and political pedagogies, expressive and rhetorical approaches to writing and its instruction.

Prerequisite: One of English 2202, 2203, 2207, 2264, 2265, 2266, or 2267.

Recommended Preparation: Three 2000-level English courses.

ENGL 3305 – Script Writing

(3 credits) 3 hours lecture

This course explores the theory and practice of writing for stage, screen, and live performance. Workshop exercises will focus on developing dramaturgical skills needed for writing dialogue, plotting action, using generic conventions, and developing characters. Students will have the opportunity to create their own plays, screenplays, or performance pieces.

Prerequisite: One of Film 2246 or 3345, or English 2256, 2257, 2264, 2265, 2266, or 2267.

Recommended Preparation: Three 2000-level English courses.

ENGL 3306 – History of the English Language

(3 credits – TG) 3 hours lecture

This course covers the development of English from Anglo-Saxon (or Old English) to Early Modern English in the seventeenth century. It includes a basic component of linguistics and an examination of manuscript culture and textual transmission.

Prerequisites: English 2210 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, or 2267.

Recommended Preparation: Three 2000-level English courses.

ENGL 3308 – The Novel from 1900 to Now

(3 credits) 3 hours lecture

Using critical theory to interrogate contemporary practice, this course examines the development of prose fiction from the beginning of the twentieth century to the present day. In particular, it considers how the novel, as both a literary and cultural form, mediates the aesthetic, intellectual, social, and political concerns of the twentieth and twenty-first centuries.

Prerequisite: One 2000-level English course.

Note: Credit will be allowed for only one of English 2259 and English 3308.

ENGL 3309 – Theatre and Performance from 1900 to Now

(3 credits – TG) 3 hours lecture

This course examines the extent to which "all the world's a stage". Theatre and performance texts and theories will be used to illuminate key issues and ideas in contemporary culture such as ritual, realism, the absurd, the society of spectacle, subjectivity, and identity.

Prerequisite: One 2000-level English course.

Note: Credit will be allowed for only one of English 2257 and English 3309.

ENGL 3310 – Critical Theory and Cultural Studies

(3 credits) 3 hours lecture

How did English Studies fracture during the "theory wars"? This course historicizes the question by reading, in detail, influential and provocative thinkers of the 1960s, 1970s and 1980s. Topics might include the writings of Ahmad, Derrida, Ebert, Foucault, Haraway, hooks, Irigaray, Jameson, Kristeva, Lacan, Levinas, Said, Spivak, Zizek and others.

Prerequisite: English 2202

Note: Credit will be allowed for only one of English 2203 and English 3310.

ENGL 3311 – Poetry and Poetics 1900 to Now

(3 credits) 3 hours lecture

From the Great War to 9/11, the critical events of the past century and the continuing challenges of the 21st century have compelled poets to debate, reinvent, and sometimes reject traditional poetic forms and conventions. An overview of forms, conventions, and historic poetic practice will provide the basis for looking at more recent modern and post-modern approaches.

Prerequisite: One 2000-level English course.

Note: students cannot receive credit for both English 2254 and 3311.

ENGL 3312 – Shakespeare: The Earlier Plays (formerly ENGL 2212)

(3 credits – TG) 3 hours lecture

This course examines selected plays written by Shakespeare during the first half of his career (ca 1590-1599), with a focus on both language and theatrical conventions. Students will consider critical problems related to sources, dating, performance, reading, audience, censorship, publication, editing, reception and contemporary adaptation.

Prerequisites: English 2210 or 2211 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

Note: English 3312 = Athabasca University ENGL 324. Credit will be allowed for only one of English 3312 and ENGL A324.

ENGL 3313 – Shakespeare: The Later Plays (formerly ENGL 2213)

(3 credits – TG) 3 hours lecture

This course examines selected plays written by Shakespeare during the second half of his career (ca 1600-1613), with a focus on his evolution as a dramatist, culminating in the later tragedies and romances. Students will consider critical problems related to sources, dating, performance, reading, audience, censorship, publication, editing, reception and contemporary adaptation.

Prerequisites: English 2210 or 2211 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

Note: English 3313 = Athabasca University ENGL 325. Credit will be allowed for only one of English 3313 and ENGL A325.

ENGL 3323 – Early Medieval Literature

(3 credits) 3 hours lecture

This course is a study of representative texts from the early medieval literary age, offering a range of popular genres from the Old and Middle English periods. Texts will be read in the original language, and instruction in the grammar, orthography and pronunciation of early medieval English will be provided.

Prerequisites: English 2210 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3324 – Literature in the Age of Chaucer

(3 credits) 3 hours lecture

This course examines a selection of representative texts produced during the Age of Chaucer (mid-fourteenth century to c 1500), offering a variety of literary genres and diverse contexts. The texts will be read in the original language, with instruction in the grammar, orthography and pronunciation of Middle English provided.

Prerequisites: English 2210 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

**ENGL 3327 – Studies in Women's Literature**

(3 credits) 3 hours lecture

Varying in topic from semester to semester, this course examines the ways in which women authors transform their experiences of the world into a public expression of female culture. Women's writing may be studied from a variety of perspectives, themes, historical moments, or genres.

Prerequisite: English 2202 or English 2216 or one 2000-level Women's Studies course.

Recommended Preparation: Three 2000-level English courses.

Note: Credit will be allowed for only one of English 2219 and English 3327.

ENGL 3330 – Restoration and Early Eighteenth Century Literature (formerly ENGL 4430)

(3 credits – TG) 3 hours lecture

Examining the first half of the Long Eighteenth Century, this course involves a study of the works of such writers as Pepys, Cavendish, Dryden, Montagu, Swift, Pope, Addison, Steele, Gay, Thomson, Gray, and the social and literary backgrounds that forged a new and lively literature of the Enlightenment.

Prerequisites: English 2210 or 2211 and one of English 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3331 – Later Eighteenth Century Literature (formerly ENGL 4431)

(3 credits – TG) 3 hours lecture

This course examines the literature from around 1750 to the end of the Long Eighteenth Century. Writers studied may include Boswell, Johnson, Cowper, Radcliffe, Edgeworth, Crabbe, Burney and Burns.

Prerequisites: English 2210 or 2211 and one of English 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3340 – Early Romantic Literature

(3 credits – TG) 3 hours lecture

This course examines British literature in the context of the various political and socio-economic changes from 1760 to 1815 and will familiarize students with key aspects of British Romanticism. Writers may include, among others, Wollstonecraft, Blake, Dorothy and William Wordsworth, Coleridge, and Austen.

Prerequisites: English 2210 or 2211 and one of English 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3341 – Later Romantic Literature (formerly ENGL 4441)

(3 credits – TG) 3 hours lecture

This course examines British Romantic writers from 1815 to mid-century. Among others, writers studied may include Byron, Mary Shelley, Percy Shelley, Hemans, and Keats.

Prerequisites: English 2210 or 2211 and one of English 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3342 – Early Seventeenth-Century Literature

(3 credits – TG) 3 hours lecture

This course studies literature in the historical and social contexts of the late Elizabethan and early Stuart periods. Readings may include texts by Donne, Herbert, Jonson, Lanyer, Wroth, and Herrick.

Prerequisites: English 2210 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3343 – Later Seventeenth-Century Literature

(3 credits – TG) 3 hours lecture

This course studies literature in the historical and social contexts of the Stuart period until the Restoration. Readings may include texts by Vaughan, Crashaw, Bradstreet, Philips, Marvell, and Milton.

Prerequisites: English 2210 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3344 – Victorian Realism and Social Reform (formerly ENGL 4444)

(3 credits – TG) 3 hours lecture

This advanced course examines British literature of the Victorian period (approximately 1830-1900) within a context of social critique exemplified primarily in narrative (fiction and poetry), but also nonfiction prose and drama. Writers studied include, among others, Carlyle, Tennyson, Mill, Dickens, Barrett-Browning, Eliot, and Hardy.

Prerequisites: English 2210 or 2211 and one of English 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3345 – Victorian Literary Aesthetics (formerly ENGL 4445)

(3 credits – TG) 3 hours lecture

This advanced course addresses the Victorian fascination with aesthetics by surveying various nineteenth-century movements and genres. Focusing on such groups as the Pre-Raphaelites, the Aesthetes, and the Symbolists, this course will examine Victorian (self-) invention, particularly in the realms of dramatic, lyric, and pictorial form, as a means to explore the role of art in society.

Prerequisites: English 2210 or 2211 and one of English 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

ENGL 3350 – The American Renaissance

(3 credits) 3 hours lecture

This course introduces students to some of the representative texts, contexts, and critical debates in American literature from about 1820 to 1865, a period of extraordinary literary productivity and innovation as well as tumultuous social, political, and economic transformation culminating in the Civil War.

Prerequisites: One of English 2210 or 2211, 2248 or 2249, and one of English 2202, 2207, 2263, 2264, 2265, 2266, or 2267.

ENGL 3353 – Aboriginal Literatures

(3 credits) 3 hours lecture

This course will critically engage the literary works of First Nations / Aboriginals through various genres and will be framed by social, cultural, historical and political contexts. The focus will vary and may include: Indigenous knowledge, Nation/Identity formation, the numbered Treaties, the role of women, humour, orality and language, stereotyping and racism.

Prerequisites: One of English 2210 or 2211, and one of English 2202, 2207, 2263, 2264, 2265, 2266, or 2267.

ENGL 3372 – Western Canadian Literature

(3 credits – TG) 3 hours lecture

Through representative texts, students will examine how writers' conceptions of the West alter over time, what constitutes a definition of "West," and how Indigenous and non-European authors create alternatives to Eurocentric narratives of western expansionism and frontiers. Students will also study how conceptions of region and landscape affect identity.

Prerequisites: English 2210 or 2211 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, or 2267.

Recommended Preparation: Three 2000-level English courses.

ENGL 3382 – Textualities/Sexualities

(3 credits – TG) 3 hours lecture

This course examines both the body of the text and the text of the body. While reading the body as it is represented in writing, we will investigate such concepts as representation (including what has been erased or silenced), the gendered text, the imaginary and the limits of textualized sexualities.

Prerequisite: English 2202, 2203, 2216, 2219, or Film Studies 3345 or consent of the department.

Recommended Preparation: English 2210 and 2211.

ENGL 3390 – African Writing in English

(3 credits) 3 hours lecture

This course will consist of a carefully nuanced, historically and culturally specific study of the theories and literatures emerging from one of the regions of the African continent whose traditions were broken by the experience of colonialism.

Prerequisite: One of English 2202, 2291 or 2292.

Recommended Preparation: Three 2000-level English courses.

ENGL 3394 – The Graphic Novel

(3 credits – TG) 3 hours lecture

The graphic novel has recently emerged as a unique storytelling medium. This course focuses on both the theoretical bases of sequential art and the graphic novel's literary and aesthetic properties. Students will draw on a variety of modern and postmodern theories of texts to analyze specific graphic novels.

Prerequisites: English 2210 or 2211 and one of 2202, 2203, 2207, 2263, 2264, 2265, 2266, 2267 or Film Studies 3345.

Recommended Preparation: Three 2000-level English courses.

Note: Students cannot receive credit for both English 3394 and English 3329.

ENGL 4401 – Select Topics in Themes, Forms, and Genres

(3 credits – TG) 3 hours lecture

This advanced seminar explores the historical or cultural significance of a specific literary theme, form, or genre. Variable in focus, the course may concentrate on topics related, for example, to concepts of diaspora or beauty or disease; developments in satire or comedy or realism; approaches to the short story or sonnet or long poem.

Prerequisite: One 3000-level English course.

ENGL 4410 – Select Topics in Medieval Literature, 650-1500

(3 credits – TG) 3 hours lecture

This advanced seminar engages students in a selection of poetic, prose, and dramatic works from the medieval period. Featured works may include Beowulf, the works of Chaucer, literature by and about women, Romances in poetry or prose, religious ecstasies, Arthurian legends, and Middle English lyrics.

Prerequisite: One 3000-level English course.

Recommended Preparation: English 3323 or 3324.

ENGL 4420 – Select Topics in Early Modern Literature, 1450- 1700

(3 credits – TG) 3 hours lecture

This advanced seminar engages students in a study of literature from the Early Modern Period, a survey that may include transitional texts between the Middle Ages and the Renaissance, a tracing of Romance from Roland to Quixote, Shakespearean and non-Shakespearean theatre, Milton's prose, 17th-century poetry, and women's writing.

Prerequisite: One 3000-level English course.

Recommended Preparation: English 3342 or 3343.

ENGL 4440 – Select Topics in Literature of the Long Nineteenth Century, 1790-1917

(3 credits – TG) 3 hours lecture

This advanced seminar focuses on ideas, issues, or individuals important to the poetry, prose, and drama of the Romantic, Victorian, and Golden Ages. Varying from semester to semester, select topics may include (among others) Pre-Raphaelite poetry and painting, performance in nineteenth-century culture, and the literature of the New Woman.

Prerequisite: One 3000-level English course.

Recommended Preparation: One of English 3340, 3341, 3344, or 3345.

ENGL 4443 – Select Topics in Literature of the Long Eighteenth Century, 1660-1832

(3 credits – TG) 3 hours lecture

This advanced seminar features a selection of works from the long eighteenth century. Texts may include those by the early novelists Bunyan, Defoe, Richardson, Fielding, or Sterne, feminist writers from Aphra Behn to Jane Austen, Restoration comedy through Romantic drama, or the satiric verse tradition leading to Romantic poetry.

Prerequisite: One 3000-level English course.

Recommended Preparation: One of English 3330, 3331, 3340, 3341.

ENGL 4446 – Select Topics in Literature of the Long Twentieth Century, 1865-Present

(3 credits – TG) 3 hours lecture

This advanced seminar studies a selection of literary and other forms of cultural text produced between 1865 and the present. A national literature such as Canadian, American, or British may furnish the texts or a postcolonial approach may offer a study of African, Caribbean, Irish, or subcontinental Indian literature written in English.

Prerequisite: One 3000-level English course.

ENGL 5110 – Honours Seminar

(3 credits) 3 hours lecture

This project-driven seminar involves advanced studies in literature and language. Given various practical opportunities for research, including an independent honours project, students will assess their scholastic experiences to generate analysis of English studies as a field of inquiry. They will also apply this understanding of English studies to specific texts and disciplinary debates.

Pre or Co-requisite: One 4000-level English course.

Note: Enrolment restricted to students admitted to and enrolled in the English Honours Program.

ENGL 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ENTREPRENEURSHIP (ENTR)

ENTR 1232 – Entrepreneurship Studies

(3 credits – TG) 3 hours lecture

This course introduces students from non-business programs to the key elements of starting up and operating a small business. Students will gain applied skills by preparing a business plan for a new enterprise. This business plan will enable students to market their own professional skills to prospective customers. Lectures will expose students to the entrepreneurial environment, marketing principles, legal issues, funding sources for a small business, and personnel issues.

ENTR 2010 – Directed Field Studies I

(15 credits)

The work term provides students with an opportunity to apply entrepreneurial theory in a small business environment. Students in the Small Business Stream are required to either start a new business or work in their family business(es). Students in the International Stream are required to obtain a placement with a company that provides them with significant exposure to international business or start a new venture. Students starting a new venture may use the business plan created in Entrepreneurship 3333 as a basis for their Directed Field Study. Students, through journals, reports, discussions and faculty mentoring, will become skillful at both personal and situational analysis. The Directed Field Study is designed to allow individual work-experience and will require students to demonstrate proficiency in multi-disciplined business applications. Students will be required to submit a Directed Field Study submission report for Directed Field Study coordinator approval prior to embarking on the work-term.

Prerequisites: Entrepreneurship 3333 and Computer Science 1207.

ENTR 2015 – Directed Field Studies I for Sport and Recreation

(15 credits)

This work-term provides students with the opportunity to apply business, entrepreneurship, sport and recreation theory in a private, public or not-for-profit environment. The work-term is designed to allow students to demonstrate proficiency at an introductory level in the field. Students will be required to submit a work-term submission report for work-term advisor approval prior to embarking on the first work-term.

Prerequisites: Marketing 2150, Entrepreneurship 2301, Physical Education 1203 and 1216 and Recreation Studies 1203 and 1247 or with department consent.

ENTR 2201 – Introduction to Entrepreneurship

(3 credits – TG) 3 hours lecture

This course develops an awareness of the state of entrepreneurship in Canada. Students are introduced to elements of successful entrepreneurship, opportunity identification and assessment, economic development potential of small business in Canada, alternative forms of work arrangements in the new economy balancing an entrepreneurial lifestyle, determining what success means to each student, goal setting and visioning.

Note: Only one of ENTR 2201, 2301 or 3301 can be used to satisfy program requirements.

ENTR 2237 – Human Resources for Small Business

(3 credits – TG) 3 hours lecture

This course will introduce students to the various elements of Human Resources management. In addition to the functional areas within HR, students will focus on the legal, ethical, and strategic HR management issues. Contemporary HR issues will also be discussed.

Note: Only one of Entrepreneurship 2237 or Human Resources 2170 can be used to satisfy program requirements.

ENTR 2301 – The Entrepreneurial Experience

(3 credits) 3 hours lecture

This highly experiential course develops an understanding of entrepreneurship and builds awareness of the experiences an entrepreneur will have in the real world. Students will be exposed to industry entrepreneurs and participate in entrepreneurial competitions. A framework of entrepreneurial attitudes, behaviors and skills will be examined based on current entrepreneurial research and practices observed in industry. Entrepreneurial experiences are explored in developing and industrial nations, in new and existing companies and in non-profit settings.

Note: Only one of ENTR 2201, 2301 or 3301 can be used to satisfy program requirements.

ENTR 3010 – Directed Field Studies II

(15 credits)

This work-term provides a business laboratory in which the student will apply the entrepreneurial theories studied during the year and build upon the skills attained in Entrepreneurship 2010. It is expected that students will achieve higher-level competencies in the functional areas of business. Students who did not start a new venture in Entrepreneurship 2010 must launch a new new venture during this work-term. Students who did start a new venture in Entrepreneurship 2010 have the flexibility to undertake multiple contracts in an entrepreneurial environment. Student will be required to submit a Directed Field Studies submission report for Directed Field Studies coordinator approval prior to embarking on the second work-term.

Prerequisite: Entrepreneurship 2010.

ENTR 3015 – Directed Field Studies II for Sport and Recreation

(15 credits)

This work-term provides students with a further opportunity to apply theory learned in the first three years of study in the Bachelor of Applied Business and Entrepreneurship – Sport and Recreation program. Students will continue to build upon their experience from ENTR 2015. It is expected that students will diversify their work experience. Students will be required to submit a work-term submission report for work-term advisor approval prior to embarking on this work-term. Goals and strategies will be reviewed by a faculty member prior to the work-term.

Prerequisite: Entrepreneurship 2015.

ENTR 3251 – Marketing Research for Small Business

(3 credits – TG) 3 hours lecture

This course is designed to provide the entrepreneurship students with a practical guide to the marketing research process. They will learn how they can utilize marketing research to assist them in effective marketing decision making, what types of research are the most cost- and time-effective for an entrepreneur, and how to apply the principles in researching their own small business.

Prerequisites: Entrepreneurship 2201, Marketing 2150 and Management 2262.

ENTR 3302 – Innovation and Creativity for Entrepreneurial Practice

(3 credits) 3 hours lecture

This course introduces the concepts of innovation and entrepreneurial creativity. Students draw upon the inspired thinking and entrepreneurial pursuits of leaders in a variety of disciplines in order to understand the process of innovation and appreciate the role of creativity in making innovation possible. Emphasizing the development of the student's own entrepreneurial creativity and ability to innovate, the experiential and reflective activities in this course encourage students to explore their potential as passionate agents of change – in their own lives and in society.

ENTR 3305 – The Art of the Pitch

(3 credits) 3 hours lecture

This course will help students develop their entrepreneurial communications skills to help them prepare for and present their business ideas to prospective investors, partners, employees and customers. It will focus on skill development in visual, verbal and vocal communications to pitch business ideas and handle questions and answers about their presentations.

ENTR 3331 – Law for Small Business

(3 credits – TG) 3 hours lecture

This course requires students to recognize and analyze legal principles and processes in contemporary business environments. The primary topics are: the legal system – courts, civil litigation, and Constitutional issues; applicable tort and contract principles and cases; real property law; business and nonprofit entities, forms, organization and liabilities; insurance and risk management; leases and employment law. Additional topics may include intellectual property; marketplace legislation; commercial law; negotiable instruments; purchase and sale of a business; and trust law.

Note: Only one of Entrepreneurship 3331 or Management 3230 can be used to satisfy program requirements.

ENTR 3333 – New Venture Feasibility

(3 credits) 3 hours lecture

This course introduces students to the key skills required to succeed as an entrepreneur. Students will gain applied skills by researching and preparing a business plan for a new enterprise. Lectures will expose students to critical new venture marketing and funding issues, and will use local case material and guest speakers to provide insight into the entrepreneurial environment.

Prerequisites: Management 2130 or Entrepreneurship 2201 or 2301, Marketing 2150, Accounting 2121.

Note: Only one of Entrepreneurship 3333 or 4433 can be used to satisfy program requirements.

ENTR 3370 – Society, Innovation and Enterprise

(3 credits) 3 hours lecture

In this course, students will be equally introduced to theories and practical understanding of private initiatives for public purpose. Current social realities have generated a paradigm shift in relation to the interface of business and society. This new paradigm sees innovation and market models as venues to address social challenges. The course explores the foundations of the social economy and relates them to the necessary entrepreneurial thinking of organizational structures and operating systems. Students will be exposed to the social context of social enterprises through service learning or other experiential activities.

ENTR 4331 – Opportunity Development in the Entrepreneurial Venture

(3 credits) 3 hours lecture

In this course, students will work to develop an understanding of how opportunities are identified, selected and developed for the creation of an entrepreneurial endeavor within a new business, mature organization or nonprofit setting. Students will build an awareness of the local and global factors that lead to favorable conditions for opportunity development, as they work towards a single relevant, innovative and scalable opportunity that has the potential to attract the required resources. Opportunities will be analyzed using a range of practical tools and methodologies. Assessment will, where possible, mirror the processes and criteria relevant to entrepreneurs in the real world.

Prerequisites: Entrepreneurship 2301 or 3301 and 3302.

ENTR 4332 – Modeling and Start-up of the Entrepreneurial Venture

(3 credits) 3 hours lecture

In this course, students will be immersed in the issues encountered by entrepreneurs while modeling and assessing the feasibility of opportunities. They will be challenged to evaluate the opportunities they developed in ENTR 4331 and consider industry, market and product research through the lens of the pre-start-up and start-up phases of the venture life cycle. Contingency strategies will be developed as necessary after students receive feedback on progress and viability.

Prerequisite: Entrepreneurship 4331.

ENTR 4343 – Start-up to Survival of the Entrepreneurial Venture

(3 credits) 2 hours lecture, 2 hours studio

In this course, the ventures that students developed in ENTR 4332 will continue to be evolved through to the early growth phase of the venture life cycle. In this course the focus will be on topics such as marketing, sales, financials, business modeling, opportunity valuation, next levels of fundraising, management team and founder as leader, and other topics related to bringing ventures to fruition. In addition, the reasons businesses typically fail will be analyzed.

Prerequisite: Entrepreneurship 4332.

ENTR 4344 – Growth of the Entrepreneurial Venture

(3 credits) 2 hours lecture, 2 hours studio

In this course, students will analyze ventures in the later growth phases of the venture life cycle in order to gain an understanding of the requirements and alternatives for the successful evolution of an organization. The class will focus on issues that impact the ability of a venture to expand operations or pursue harvesting scenarios. Topics to be explored include evolution of operations, professional management, integrated systems, later stage venture financing, IPOs, harvest calculations and negotiations, and the franchising alternative.

Prerequisite: Entrepreneurship 4343.

ENTR 4433 – Business Plan Development**(3 credits) 3 hours lecture**

Students will be able to prepare and present a solid business plan for a new or existing enterprise. Areas covered will include identifying and assessing opportunities, developing a winning strategy, identifying resource requirements and selling the plan to financing sources.

Prerequisites: Management 2130 or Entrepreneurship 2201 or 2301, Marketing 2150, Accounting 3224.

Note: Only one of Entrepreneurship 3333 or 4433 can be used to satisfy program requirements.

ENTR 4434 – Small Business Practicum**(3 credits – TG) 2 hours lecture, 1 hour tutorial**

This course is designed to help students acquire the ability to rationally analyse the real life issues and problems of a currently operating small business. Teams of two students will work as consultants to an existing small business. This course provides the opportunity to integrate problems and apply knowledge by identifying, examining, and creating a recommended solution within a holistic framework.

Prerequisites: Entrepreneurship 2010, Finance 4427 and Management 4431.

ENTR 4435 – Small Business Strategy**(3 credits) 3 hours lecture**

Students will develop a comprehensive framework for the strategic management processes used in small business. Integrated cases will incorporate and expand upon concepts and analytical techniques introduced in previous courses. Strategic concepts will be applied through a term-long business decisions laboratory using an interactive medium.

Prerequisite: Entrepreneurship 2010.

ENTR 4445 – Managing the Family Enterprise**(3 credits) 3 hours lecture**

Each year thousands of new family businesses are created. Approximately 30% of family businesses survive the first generation; failure is often attributed to family conflict and lack of succession planning. This course addresses critical issues in family business including: inter-generations transfers, managing conflict, introducing professional manager and the decision to join the family firm.

Prerequisite: Entrepreneurship 3333.

ENTR 4451 – Applied Internet Marketing**(3 credits) 2 hours lecture, 1 hour tutorial**

Students will develop proficiency in e-commerce systems development by working on a large e-commerce project. The formal course material reinforces the project work by covering topics such as security, project management, marketing and effectively scaling server resources. Course will be co-taught by entrepreneur and computer instructors.

Prerequisites: Marketing 2150 and Computer Science 1401.

ENTR 4461 – The Entrepreneurial Manager**(3 credits) 3 hours lecture**

This course contains experiential learning aspects and it addresses the issues addressed by owners/managers who attempt to create viable organizations out of identified opportunities in order to create value. It will empower students to develop their own unique approaches, systems, skills and methodologies to deal with unstructured situations in preparation to become entrepreneurial managers.

Prerequisite: Entrepreneurship 2201 or 2301 or Management 2130.

ENTR 2299, 3399 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ENVIRONMENTAL SCIENCE (ENVS)**ENVS 2010 – Directed Field Studies I (formerly IDEC 3000)****(15 credits)**

Students will be assisted in finding a work-term placement. This normally will be in a business, industry or a research laboratory that deals with environmentally related problems. Completion of non-credit safety courses prior to the work placement will be required. Students will be mentored by a faculty member during the work-term. An oral and a written report, completed by the student, in addition to an evaluation carried out by the employer will be required following the work-term.

Prerequisite: Successful completion of Semesters 1 to 4 of the Biogeochemical Process stream or the Physical Process stream courses or equivalents or consent of the department.

ENVS 2201 – Introduction to Industrial Ecology**(3 credits) 3 hours lecture**

The major ideas and tools of industrial ecology will be introduced. Industrial ecology "focuses on the potential role of industry in reducing environmental burdens throughout the product life cycle, from the extraction of raw materials, to the production of goods, to the use of those goods and to the management of the resulting wastes" (Journal of Industrial Ecology). Topics covered will include: environmental concerns, risk assessment, global budgets and cycles, industrial processes, life-cycle assessment, design for environment, pollution prevention and zero emission strategies.

ENVS 2205 – Data Processing and Statistics**(3 credits – TG) 2 hours lecture, 2 hours lab**

The organization, processing, and presentation of quantitative data. Fundamental statistical ideas, descriptive statistics, inferential statistics (including Analysis of Variance, regression and correlation), statistical quality control and timeseries analysis will be covered. Laboratories will include the analysis of data using statistical software packages.

Prerequisite: Pure Mathematics 30.

ENVS 2211 – Professional Development: Health and Safety for the Environment Industry**(1 credit) 3 hours lab**

This course will prepare students for work experience (Directed Field Studies) through Professional Development activities. Recent developments, trends and opportunities in the environmental industry and the field of Industrial Ecology will be covered by representatives from industry and government. The Professional Development component will prepare students to search for work experience opportunities in the environmental field. As the labour market increasingly expects that employees practice due diligence in their adherence to mandated occupational health & safety legislation and regulations, students will be introduced to the general workplace health, safety and career development issues as they relate to the Canadian environmental industry. Within this context, students must demonstrate certifiable proficiencies in H2SAlive, First Aid with CPR, Transportation of Dangerous Goods (TDG), Workplace Hazardous Materials Information System (WHMIS) and other strategies as required by industry.

ENVS 3010 – Directed Field Studies II (formerly IDEC 4000)**(15 credits)**

Students will be assisted in finding a work-term placement. This normally will be in a business, industry or a research laboratory that deals with environmentally related problems. Students will be mentored by a faculty member during the work-term. An oral and a written report, completed by the student, in addition to an evaluation carried out by the employer will be required following the work-term.

Prerequisite: Successful completion of Semesters 1, 2, 3, 4 and 5 of the Biogeochemical Stream or Physical Processes Stream or equivalents or consent of the department.

ENVS 3303 – Life-Cycle Assessment

(3 credits) 3 hours lecture, 3 hours lab

Life-cycle assessment (LCA) compiles and analyzes comprehensive information on the overall consumption of resources and the production of wastes during the whole life-cycle of a product or service. For example, in the case of a product, this includes the extraction of the raw materials, the energy used during manufacture and the wastes produced, the energy used to transport the finished product to market, and the ultimate fate of the discarded product. The analysis indicates the potential environmental impact of the product or service, and allows comparisons to be made of alternate products or services. Case studies of a wide variety of industries and industrial processes will be discussed. Laboratories will consist of field studies and simulations using a number of different software packages and databases that are available.

Prerequisite: Environmental Science 2201.

ENVS 3307 – Air Pollution Monitoring

(3 credits) 3 hours lecture, 3 hours lab

This course will examine the methods used to monitor pollutants emitted to the atmosphere, the precision and accuracy of these methods and the audit procedures used to determine compliance, emission credits and documenting improvement to industrial processes.

Prerequisites: Chemistry 2209, 2210, Mathematics 1217 or equivalents or consent of the department.

ENVS 3315 – Applied Instrumentation

(3 credits) 2 hours lecture, 3 hours lab

This course is aimed at offering a fundamental understanding of field screening techniques and practices of instrumental measurements for the qualitative determination of substances. The main analysis methods dealt in this course are Atomic Absorption and Emission Spectroscopy, Infra red Spectroscopy, Ion Chromatography, High Pressure Liquid Chromatography, Gas Chromatography. Students are also introduced to the scientific way of expressing results and also error analysis. The lab component gives the students hands-on experience with the above-mentioned analytical techniques.

Prerequisite: Chemistry 2209.

ENVS 3321 – Water Pollution and Surface Water Analysis

(3 credits) 2 hours lecture, 3 hours lab

A study of the sources, transport, effects and fates of chemicals in surface waters. Topics include: industrial effluents, the nature and composition of surface waters, the principles of water pollution control, aquatic environmental chemistry. Emphasis will be placed upon water quality analysis: pH, acidity, alkalinity, hardness, residual chlorine, chloride, sulphate, dissolved oxygen, BOD, field sample preservation. Field trips will be arranged involving sampling procedures and field recording of data for chemical and physical water quality parameters.

Prerequisites: Chemistry 2209 and 3357 or equivalents or consent of the department.

ENVS 3323 – Watershed Management

(3 credits) 3 hours lecture, 3 hours lab

Ensuring a safe and adequate supply of water is a global concern. This course is designed to provide an understanding of watershed practice and an approach to managing watershed systems in a sustainable fashion.

Prerequisite: Environmental Science 3321 or 3333 or consent of the department.

ENVS 3333 – Ground Water Contamination

(3 credits) 3 hours lecture, 3 hours lab

This course will provide a basic understanding in applied hydrogeology with emphasis being on the fate and behaviour of industrial chemicals in the groundwater, the impact of industrial activities on groundwater quality, control, monitoring and remediation of contaminated groundwater systems.

Prerequisites: Chemistry 2209 and 3357 or equivalents or consent of the department.

ENVS 3335 – Issues in Environmental Assessment

(3 credits) 3 hours lecture

This course will review and analyze provincial, national and international environmental assessment issues. Important representative case studies will be reviewed. Guest speakers will be drawn from appropriate organizations. Current methodologies in environmental impact assessment will be covered, including overviews of Risk Assessment, Cumulative Effects Assessment and Strategic Environmental Assessment. The advantages of moving towards Comprehensive Risk Assessment and Comprehensive Policy Support Assessment will be critically discussed. These integrated decision methodologies will be necessary to support industrial ecology infrastructure and be crucial to making progress towards economic and environmental efficiency at all system levels.

Prerequisite: Successful completion of Semesters 1, 2, and 3 of the Biogeochemical Stream or equivalents or consent of the department.

ENVS 4401 – Environmental Systems Modelling

(3 credits) 2 hours lecture, 3 hours lab

This course covers foundations and techniques of mathematical modelling in environmental science. The course will focus on dynamic modelling coupled with the use of appropriate and current software. Topics covered include basic concepts in environmental systems modelling, Applied Systems Thinking in environmental problem solving and strategies for analyzing and using environmental systems models. Emphasis will be given to practical applications of dynamic modelling to specific eco-industrial problems.

ENVS 4405 – Air Quality

(3 credits) 2 hours lecture, 3 hours lab

This course will examine the composition, evolution, and future of the earth's atmosphere. It will include human impact, mitigating initiatives and will examine the predictive methods and databases currently in use to predict future scenarios. It will examine the atmosphere as part of the biogeochemical cycling of its constituents.

Prerequisites: Chemistry 2209 and 3357, Computer Science 1209 and Environmental Science 2205 and 3315 or equivalents or consent of the department.

ENVS 4407 – Pollution Prevention: Toward Zero Emissions

(3 credits) 3 hours lecture

This course is a study of the principles of recovery, reuse and recycling ("3R's") of pollutants and contaminants. Examples will be drawn from the 176 currently listed in the National Pollutant Release Inventory (NPRI). Measures taken to reduce the release, allow tracking of transfers, and achieving reductions will be analyzed. Measures to control and reduce emission of carbon dioxide, methane, and other greenhouse gases will be discussed. The technologies and techniques as well as the voluntary and legislative measures will be compared. The petroleum industry will be analyzed in detail with an examination of wellsite and facility technologies.

Prerequisite: Successful completion of Semesters 1, 2, 3, 4, and 5 of the Biogeochemical stream and the Physical Processes stream courses or equivalents or consent of the department.

ENVS 4411 – Industrial Sanitation

(2 credits) 2 hours lecture

This course provides an integration of the principles of soil conservation, reclamation and land management practices of industrial and protected areas.

Prerequisite: Successful completion of Semesters 1, 2, 3 and 4 of the Biogeochemical Stream or equivalents or consent of the department.

ENVS 4413 – Principles of Eco-Industrial Development

(2 credits) 2 hours lecture

Students will be introduced to the process of initiating, planning, designing, marketing, financing and operating eco-industrial parks and eco-industrial networks. An examination of case studies on existing eco-industrial parks and the application of key concepts through the completion of a term project with a network of local companies will be involved.

Prerequisite: Successful completion of Semesters 1, 2, 3, 4, and 5 courses or equivalent or consent of the department.

ENVS 4415 – Industrial Ecology Project

(2 credits) 1 hour tutorial, 3 hours lab

Students will undertake an applied project in an area of industrial ecology under the supervision of a faculty member. Each student will be required to present the results of their project as a seminar.

Prerequisite: Successful completion of Semesters 1, 2, 3, 4 and 5 of the Biogeochemical Stream courses or the Physical Processes Stream courses or equivalents or consent of the department.

ENVS 4417 – Design for the Environment

(3 credits) 2 hours lecture, 3 hours lab

This course develops concepts and procedures to integrate and implement the vision of industrial ecology into business decisions. It will examine how leading-edge industrial ecology precepts can be implemented in the real world. The course will explore a systematic approach to support business decisions within the industrial ecology framework. Students will develop skills in incorporating environmental objectives and constraints into process and product design, materials and technology choices. Case studies will highlight DFE success stories. Project work will provide hands-on experience in the DFE field. The course will examine local, regional and global issues related to the design and redesign of industrial systems in order to make them more sustainable.

Prerequisite: Successful completion of Semesters 1, 2, 3, 4, 5, 6 and 7 of the Biogeochemical Stream courses or Physical Processes Stream courses or equivalents or consent of the department.

ENVS 4419 – Regulatory Management

(1 credit) 3 hours lab

Students will be introduced to the processes associated with Regulatory Management through case studies of relevant local, regional, national, and international laws, regulations, and treaties governing the environment. The understanding of the origins, current status, and future impacts of these studies will provide insight into the effects of environmental initiatives on the region, the province, Canada and in the international arena.

ENVS 4421 – Environmental Resource Management

(3 credits) 3 hours lecture

This course investigates development and use of natural resources in modern society with an emphasis on the interrelationship between industrial activities and resource consumption, and their effects on the biosphere. Topics covered include analyses of new directions in products and systems' design, and their impacts on sustainable environmental resource management. Critical international issues in environmental resource management will also be examined.

Prerequisite: Environmental Science 3335 or Geography 2445 or equivalent or departmental approval.

ENVS 4423 – Market Based Initiatives

(3 credits) 3 hours lecture

This course will examine the initiatives being taken by local, regional, and national governments, and the United Nations to encourage organizations to improve their environmental outcomes for economic reasons. Emission trading, the evolution of environmental law and its role in regulatory management, and the elements of ISO-14000 will be reviewed.

Prerequisite: Mathematics 1200.

ENVS 4431 – Management of Residuals

(3 credits) 3 hours lecture

This course is designed to provide the students an understanding of the principles and concepts of waste management. Topics include: environmental chemistry of hazardous wastes, principles of industrial metabolism, waste disposal, health risks, regulatory aspects of residuals management, principles of industrial metabolism, optimization of materials.

Prerequisite: Successful completion of Semester 1, 2, 3, 4 and 5 of the Biogeochemical Stream courses or equivalents or consent of the department.

ENVS 4433 – Quality Assurance/Quality Control

(3 credits) 3 hours lecture, 3 hours lab

This course will examine the use of QA/QC procedures to the management of the quality aspects of data collection, generation and use. It will provide an overview of the legal framework within which the data collection, generation and use must operate. It will examine the relationship between QA/QC and legal concepts such as due diligence and strict liability.

Prerequisites: Computer Science 1209 and Environmental Science 2205 or equivalents or consent of the department.

ENVS 4441 – Site System Remediation Design

(3 credits) 3 hours lecture, 3 hours lab

This course will provide an in-depth technical and practical evaluation of remediation systems for contaminated sites.

Prerequisite: Successful completion of Semesters 1, 2, 3, 4 and 5 of the Biogeochemical Stream courses or equivalents or consent of the department.

ENVS 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

FILM STUDIES (FILM)

FILM 1143 – Introduction to the Study of Film (formerly ENGL 1143)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course surveys the history of narrative film from its beginnings to the present. Students will view and discuss, historically and aesthetically, approximately 10 major films, paying particular attention to their "film language". The influence of technology, film theories and criticism will, where appropriate, be considered. Written assignments will offer students practice in film analysis.

Prerequisite: English Language Arts 30-1 or equivalent.

Recommended Preparation: English 0212 or 1101.

FILM 2214 – Contemporary Film and Theory (formerly ENGL 1144)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course examines the influence of technology, film theories and criticism on contemporary cinematic works. Film selections will reflect the global scope of cinema and assignments will offer students practice in comparative film criticism and appreciation.

Prerequisites: Film Studies 1143 and English 1101/General Education 1401 or 1402 or 1403.

FILM 2246 – Film Genres (formerly ENGL 2246)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This intermediate course surveys a number of film genres, ranging from westerns, noir, romance, comedy, gangster, adventure, horror, sci-fi/fantasy, and epics to zombie/slasher, and various cult forms. Experimental, non-genre, and cross-genre films will also be considered as the course overall moves to questions of genre history, precedents, and development.

Prerequisites: English 1144 or Film Studies 1143 and English 1101/General Education 1401 or 1402 or 1403.

FILM 3345 – Film Theory (formerly ENGL 2245)

(3 credits – TG) 3 hours lecture

This course examines diverse analytical and theoretical models of film critique ranging from classical film theories such as formalism, realism, and semiology to contemporary perspectives including poststructuralist, postcolonial, feminist, queer, and cultural studies approaches.

Prerequisites: English 1144 or Film Studies 1143 and English 1101/General Education 1401 or 1402 or 1403.

Recommended Preparation: Film Studies 2214.

FILM 3349 – Canadian Film

(3 credit) 3 hours lecture

This course explores the history, development, distinctiveness, and cultural significance of film in Canada. Examining Canadian films, students will explore works in different genres, engage issues of film production, and focus upon questions of film interpretation. These areas of study will foster an understanding of the creation of “Canada” and the “Canadian” through film.

Prerequisite: Film Studies 1143.

Recommended preparation: at least one of Film Studies 2214, 2246, and 3345.

FINANCE (FNCE)

FNCE 2010 – Directed Field Studies I

(15 credits)

This Directed Field Studies course requires students to work for an employer in a financial services position. The employer and placement must be approved by the work experience coordinator. The work placement will normally be completed over a four month period. Any deviation from this pattern must be approved by the work experience coordinator and the Faculty Advisor. Under no circumstances will a work-term consist of less than 450 hours of work. Students are typically employed by banks or financial service firms. Students must complete a series of research projects to relate their practical experience with their academic studies.

Prerequisites: Finance 3201, 3203, 3205, 3207, 3301 and 3303. Successful completion of work experience PD sessions.

FNCE 2130 – Personal Finance

(3 credits) 3 hours lecture

This course explores the importance of financial planning within the Canadian political and economic environment, enabling students to understand the principles and practices of managing personal finances. Students will develop an appreciation for financial planning, both in the short and long-term, including making informed decisions about personal budgeting, use of credit, insurance, taxation, investment alternatives, and other important considerations.

FNCE 2132 – Introduction to the Stock Market

(3 credits) 3 hours lecture

This course focuses on key principles of fundamental and technical analysis necessary to make successful investment decisions. Examined are key factors which influence various financial markets such as stocks, bonds and gold. Students will participate in a group stock market game by applying stock selection principles to construct a portfolio.

FNCE 3010 – Directed Field Studies II

(15 credits)

This Directed Field Studies course requires students to work for an employer in a financial services position. The employer and placement must be approved by the work experience coordinator. The work placement will normally be completed over a four month period. Any deviation from this pattern must be approved by the work experience coordinator and the Faculty Advisor. Under no circumstances will a work-term consist of less than 450 hours of work. Students are typically employed by banks or financial service firms. Students must complete a series of research projects to relate their practical experience with their academic studies.

Prerequisite: Finance 2010 and successful completion of work experience PD sessions.

FNCE 3201 – Retirement Planning

(3 credits) 3 hours lecture

This course provides a detailed look at how individuals plan for, and make financial decisions related to, retirement. It is designed to prepare the financial planner to provide guidance to clients on the retirement planning process, the various private and government pension plans, investment products for retirement, income tax implications, and the numerous strategies available to them. The course begins with an overview of retirement planning through case studies, followed by a detailed look at pensions. The characteristics of registered retirement plans will be examined to illustrate how they are used in accumulating funds for retirement. The taxation of retirement income will be examined, along with the tax planning opportunities that are available.

FNCE 3203 – Income Tax Planning

(3 credits) 3 hours lecture

This course is designed to help financial planners build the knowledge and judgement necessary to guide clients in managing their business and financial assets. The course examines how various business forms (including proprietorships, partnerships, and corporations) are structured and taxed, and how they can be used to generate wealth for the owner/manager or the passive investor. It reviews the taxation of employment income and benefits, with an emphasis on ways to increase an individual's compensation without necessarily increasing his/her taxable income. This course also explores the taxation of investment income, including property income, interest, dividends and capital gains, and reviews the main deductions available for various income sources. This is followed by a discussion of how an individual can make use of the different tax strategies available to maximize his or her wealth accumulation.

FNCE 3205 – Strategic Investment Planning

(3 credits) 3 hours lecture

This course examines the theory and various strategies underlying decisions in the area of strategic investment planning. Among the instruments described are guaranteed, interest-producing investments; bonds and debentures; mutual funds; and financial derivatives. Methods of fundamental and technical analysis of potential investments are discussed, as well as real estate and tax shelters.

FNCE 3207 – Risk Management and Estate Planning

(3 credits) 3 hours lecture

This course provides a detailed look at the risk management process and the insurance products that are available to manage risk. It examines the risks of disability, death, and property and liability losses. Students will study the legal requirements of insurance policies and the application of the risk management process. This course also covers the estate planning process. It addresses the tools of estate planning, including property interests, family law, intestacy, probate, wills, powers of attorney, taxation upon death, trust and estate freezes. It then examines special considerations in estate planning such as non-traditional families or household units.

FNCE 3227 – Introduction to Finance

(3 credits – TG) 4 hours lecture

This course provides an introduction to the theory, methods, and issues of finance. The main topics include the following: 1) time value of money and capital budgeting techniques; 2) uncertainty and the trade-off between risk and return; 3) security market efficiency; 4) optimal capital structure; 5) dividend policy decisions; 6) financial planning and working capital management; and 7) long term financing considerations including leasing.

Prerequisite: Accounting 2121.

FNCE 3301 – Canadian Securities Course I

(3 credits) 3 hours lecture

This is part one of two courses intended to prepare students for the Canadian Securities Institute Exam. Topics are determined by the Canadian Securities Course™. Topics include financial statements, formulae for evaluating investments, common and preferred stocks, bonds, mutual funds, derivatives, and RRSPs.

Pre or Co-requisites: Finance 2132 and 3201.

FNCE 3303 – Canadian Securities Course II**(3 credits) 3 hours lecture**

This is part two of two courses intended to prepare students for the Canadian Securities Institute Exam. This course is intended to prepare students to effectively work in financial services. Building on material from the first course, students will examine portfolio building and financial planning and management. Students will write the Institute's Canadian Securities Course™ exam as part of completion for this course. As part of this course, students will be required to develop a comprehensive financial plan.

Prerequisite: Finance 3301.

Pre or Co-requisites: Finance 3203 and 3205.

FNCE 4407 – Investment Principles**(3 credits) 3 hours lecture**

The principles and techniques of investing in securities are discussed with emphasis on stocks and bonds. Topics include portfolio selection and performance measurement, valuation of bonds and stocks, and the application of financial theory to investment decisions. Security analysis includes fundamental approaches with an emphasis on financial statement analysis.

Prerequisite: Finance 2132 or 3301 or 3303 or 3227.

FNCE 4409 – Securities Analysis and Valuation**(3 credits) 3 hours lecture**

Students will study fundamental analysis approaches for the valuation of equities and fixed income securities. For equities, both micro-analytical and macro-analytical approaches will be studied and synthesised, in order to explore the best practices in equity research. Fixed income analysis will focus on the quantitative valuation and risks associated with both basic and complex fixed income vehicles. A critical review of literature in the field will supplement students' knowledge. Students will value both debt and equity securities, through project work. Financial modelling will form an integral part of the projects. Approximately 25% of the Chartered Financial Analyst® Level 1 curriculum will be reviewed.

Prerequisite: Finance 3227.

FNCE 4427 – Entrepreneurial Finance**(3 credits) 3 hours lecture**

This course addresses financial issues facing entrepreneurs. This course will build upon material introduced in Entrepreneurship 3333. Students will examine more complex financing alternatives such as public share offerings and venture capital vehicles. Additional topics such as capital structure decisions, leasing, international financial management and business valuation will be examined. Whenever possible guest lecturers will be invited to come and share their experiences with financing new ventures.

Prerequisite: Finance 3227.

FORENSIC STUDIES (FORE)**FORE 5501 – Forensic History, Risk Populations and Issues (formerly FORE 4401)****(3 credits – TG) Distance Delivery – Internet**

This course focuses on prevailing social/ethical forensic issues where health care overlaps with the law. Roles of the forensic subspecialties are outlined, together with the target forensic populations they serve. Historical roots, principles and professional practices of emerging subspecialties are examined, while current and future career opportunities are explored. A larger systems overview of criminal justice and health care is used to examine the broad scope of societal influences and the increasing impact of legal dimensions on forensic practice. Risk populations, issues and relevant laws and acts (local and international) are examined in relation to victims of physical and/or psychological trauma/abuse/neglect as well as perpetrators. Issues relevant to families of both victims and perpetrators are also explored.

FORE 5503 – Forensic Psychiatric and Correctional Populations (formerly FORE 4403)**(3 credits – TG) Distance Delivery – Internet**

This multidisciplinary web course addresses the roles of various professionals in forensic psychiatric and correctional areas. The focus of this course is on the perpetrators of violence. Assessment, intervention and prevention are addressed for various forensic concepts and at risk populations in these settings. Relevant ethical/legal practice issues in the correctional and forensic psychiatric setting are debated with the opportunity to access international forensic resources on the web.

FORE 5505 – Victims of Violence (formerly FORE 4405)**(3 credits – TG) Distance Delivery – Internet**

This multidisciplinary web course focuses on recognition, assessment and intervention with victims of violence. Topics include: victim behaviours, patterns of injury, evidence collection, forensic photography, fact testimony; risk reduction, prevention of violence and follow up. Specific sections discuss domestic violence, sexual assault, child abuse/neglect, elder abuse and violence against professionals. Course content is designed for nurses and physicians and is also valuable for other professionals (e.g., Police, social workers, paramedics) who interact with health care professionals or victims of violence.

FORE 5507 – Forensic Science (formerly FORE 4407)**(3 credits – TG) Distance Delivery – Internet**

This multidisciplinary web course focuses on forensic lab analyses in criminal investigations. Specific laboratory techniques, limitations and implications of findings are discussed including microscopy, gas chromatography, DNA analysis, toxicology, fingerprinting, trace evidence and blood spatter analysis. We briefly introduce hypothesis development, event reconstruction, death investigation and analysis of remains.

FORE 5509 – Expert Witness Testimony (formerly FORE 4409)**(3 credits – TG) Distance Delivery – Internet**

This course is designed to increase professionals' understanding of the issues and preparation required to give expert witness testimony. Issues include criteria and qualifications for expert witnesses, role in court, fields of expertise, locating experts, ethical considerations and the future of expert witnesses.

FORE 5511 – Crime Scene Investigation and Evidence (formerly FORE 4411)**(3 credits – TG) Distance Delivery – Internet**

This course centers around a functional analysis of undertaking investigations with a focus on the crime scene. The course presents basic information on conducting investigations applicable to both law enforcement and other forensic professionals who may be at the scene. It also provides an assessment of the various investigative techniques that are applied to specific types of crimes against persons and property. The types of physical evidence expected during a crime analysis and criminal profiling are explored. In particular, information will be covered on the legal responsibilities in conducting an investigation, rules of evidence, evidence collection, working with victims and suspects, courts testimony as a fact witness, case presentation requirements and the important role of evidence documentation and preservation.

FORE 5513 – Sexual Assault Examination and Intervention Theory (formerly FORE 4413)**(3 credits) Distance Delivery – Internet**

This online course provides the knowledge required to practice as a sexual assault nurse examiner (SANE) or physician examiner. Content is aimed at providing comprehensive care to victims of sexual assault including techniques for history taking and physical/psychosocial assessment, injury identification, evidence preservation and collection, assessing risks for infection/pregnancy and selecting treatment, crisis counseling, discharge considerations and court testimony. The course is designed for licensed nurses and physicians although police, social workers and lawyers involved with sexual assault may benefit - it is NOT open to undergraduate students.

Prerequisite: Forensic Studies 5505 is strongly recommended prior to Forensic Studies 5513 if the student has limited clinical experience.

FORE 5515 – Sexual Assault Examination and Intervention Practicum (formerly FORE 4415)

(1.5 credit) 53 hours practicum

This optional clinical practicum is designed for nurses or physicians who do not have access to working with sexual assault teams or whose employers cannot provide clinical experience. Students will observe sexual assault examinations and interventions, gain practice with examination techniques and observe health professionals giving testimony in court. Availability of the practicum is dependent upon ability to make arrangements with a centre near the student's location. Prior learning credit may be considered for relevant experience.

Prerequisite: Forensic Studies 5513 or equivalent, or consent of the chair of the department of Advanced Specialty Health Studies.

FRENCH (FREN)

Note: Students who register for a French course in the Department of Languages and Cultures must ensure that they register in a course appropriate to their level of language skills.

In general, students who have completed French 30 should register in either French 1113 or French 2216. Students who have completed FLA 30 should register in French 2235. Students who are unsure of their level should contact the department to take a short placement test and/or take the online placement test available on the French web page. Francophone students are also advised to take the placement test.

All placement tests should be written as early as possible. For further information, please contact the Secretary of the Department of Languages and Cultures 403.440.6528.

FREN 1109 – Beginners' French I (formerly FREN 2209)

(3 credits – TG) 4 hours lecture, 1 hour lab

Basic elements of the French language, including training in comprehension, speaking, reading and writing of French.

Note: Not open to students with credit in French 20, 30, 31 or equivalent.

FREN 1111 – Beginners' French II (formerly FREN 2211)

(3 credits – TG) 4 hours lecture, 1 hour lab

A continuation of French 1109.

Prerequisite: French 20 or 1109 (formerly 2209), or consent of the department.

Note: Not open to students with credit in French 30, 31 or equivalent.

FREN 1113 – Beginners' French III (formerly FREN 2213)

(3 credits – TG) 4 hours lecture, 1 hour lab

A continuation of French 1111.

Prerequisite: French 1111 or consent of the department.

Note: Not open to students with credit in French 1115 or 1117.

Students are encouraged to check their proficiency level by taking the on-line Placement Test: <https://breeze.mtroyal.ca/p56368710>.

FREN 2216 – Francophonie: Language and Culture I (formerly FREN 1115)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course provides a study of French language and culture in French-speaking countries, including France, Canada, and other parts of the world. Students develop their ability in spoken and written French, building upon a knowledge of basic grammar.

Prerequisite: French 30 or 31 or equivalent; French 1113 or consent of the department.

Students are encouraged to check their proficiency level by taking the on-line Placement Test: <https://breeze.mtroyal.ca/p56368710>.

FREN 2218 – Francophonie: Language and Culture II (formerly FREN 1117)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course is a continuation of French 2216, with additional grammatical structures and vocabulary.

Prerequisite: French 2216 or consent of the chair of the department.

Students are encouraged to check their proficiency level by taking the on-line Placement Test: <https://breeze.mtroyal.ca/p56368710>.

FREN 2235 – Second-Year University French I (formerly FREN 3315)

(3 credits – TG) 4 hours lecture

Advanced training in grammar, vocabulary, reading and writing.

Prerequisite: French Language Arts 30, French 2218, or consent of the department.

Students are encouraged to check their proficiency level by taking the on-line Placement Test: <https://breeze.mtroyal.ca/p56368710>.

FREN 2237 – Second-Year University French II (formerly FREN 3317)

(3 credits – TG) 4 hours lecture

A continuation of French 2235.

Prerequisite: French 2235 or consent of the department.

FREN 2250 – Contemporary French Culture and Civilization (3 credits) 3 hours lecture

This course explores features of contemporary France from a cultural perspective, and also includes a brief overview of French civilization and its impact on modern French society.

Note: Classes will be conducted in English. No knowledge of the French language is required.

FREN 3325 – Contemporary French Civilization

(3 credits) 3 hours lecture

This French language civilization course provides students with an opportunity to use French as a working language to study contemporary French society. Students read selected texts at the intermediate level related to the major political, social, economic and cultural forces at work in France today.

Prerequisite: French 2235 or consent of the department.

FREN 3335 – Translation I

(3 credits – TG) 3 hours lecture

This course offers an introduction to translation theory and practice to students who are proficient in English and have a good command of French. Students will gain an understanding of the issues which arise in translating a variety of texts, and will practice strategies for solving these challenges.

Prerequisite: French 2237 or consent from the department.

FREN 3339 – Francophone Literatures I

(3 credits) 3 hours lecture

This course offers an introductory study of French and French Canadian literatures. It examines a selection of novels, poems and plays written by well-known francophone authors. It addresses literary movements and themes; and focuses the attention of students on cultural issues that have shaped the emergence of these literatures.

Prerequisite: French 2235 and/or 2237 or consent of the department.

FREN 3341 – French Composition

(3 credits) 3 hours lecture

This third-year course is designed to teach students how to develop their writing skills in French, by concentrating on the structures of sentences, paragraphs and essays. Students will also enrich their vocabulary and acquire knowledge of modern writing genres by reading essays and poems and commenting on journalistic, business, and fiction selections.

Prerequisite: French 2235 and/or 2237 or consent of the department.

FREN 3343 – Francophone Cinema for Oral and Written Communication

(3 credits – TG) 3 hours lecture

An intermediate course in French using French films as a vehicle to promote oral/aural and written mastery.

Prerequisite: French 2218, or consent of the department.

FREN 3349 – French Phonetics

(3 credits – TG) 3 hours lecture

This course provides an introduction to French phonology, including comparative and contrastive differences between French and English. It is a practical course emphasizing phonetic correction.

Prerequisite: French 2218, or consent of the chair of the department.

FREN 4435 – Translation II

(3 credits – TG) 3 hours lecture

This course offers advanced translation theory and practice to students who are proficient in English and have a very good command of French. Students will gain a better understanding of translation issues and translation skills through translating a variety of texts, and will practice strategies for solving these challenges.

Prerequisite: French 3335 or consent of the department.

FREN 4439 – Canadian Travel Writing

(3 credits) 3 hours lecture

This course explores the generic aspects of travel literature in French (travel discourse, representations of Otherness and of space, factual writing) with a focus on the Western Canadian regions from the end of the Eighteenth Century to the present.

Prerequisite: French 3339 or consent of the department.

FREN 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar

GENERAL EDUCATION (GNED)

GNED 1101 – Scientific and Mathematical Literacy for the Modern World

(3 credits) 3 hours lecture

Students will expand their understanding of the intersections of mathematics, science and technology with daily life. The course will develop and apply critical thinking and scientific reasoning skills through the examination of issues drawn from the real world and current events.

GNED 1102 – Controversies in Science

(3 credits) 3 hours lecture

This course provides an introduction to scientific knowledge, its role in society, and the relationship between scientific inquiry and mathematics. Students will learn about the scientific method, the role of mathematics and statistics as reasoning tools, and how to research, evaluate, and write about science. Science controversies will be used as case studies.

GNED 1201 – Aesthetic Experience and Ideas

(3 credits) 3 hours lecture

This course examines human aesthetic responses and our capacities to interpret diverse forms of cultural expression. Students will study some of the following: literary and/or religious texts, paintings, sculpture, architecture, music, film, dance, opera, the decorative arts, as well as other forms of aesthetic expression.

GNED 1202 – Texts and Ideas

(3 credits) 3 hours lecture

"Texts and Ideas" is a course that explores how specific ideas shape attitudes, belief systems, and values through the perspectives of various disciplines. Through the critical reading of key texts, students will learn about the nature, origins and relevance of one or more ideas, such as "leadership," "mind," "the self," "modernity," or "the good life".

GNED 1203 – Cultural Perspectives on Science

(3 credits) 3 hours lecture

This course introduces students to the study of science as a cultural activity with the goal of developing their critical thinking and writing skills. Students will learn to be conversant with some of the issues and debates concerning how science, technology, and medicine have shaped and continue to shape beliefs, values, and identities in our world.

GNED 1301 – Globalization

(3 credits) 3 hours lecture

Students will gain an understanding of the impact and opportunities of globalization, as well as the barriers. A thorough discussion of the pros and cons of globalization will be included. The international environment will be introduced through a holistic analysis of political, economic, and cultural differences. International institutions and trading blocs will be discussed, and the factors contributing to cross-cultural effectiveness will be introduced.

GNED 1304 – Communities and Societies

(3 credits) 3 hours lecture

Students will be guided to develop a richer awareness of the various communities and societies in which they live and participate. This interdisciplinary course will progressively examine family, communities of belonging, post-secondary education, the city, the province, the state, and global economic, political and cultural concentric systems.

GNED 1401/ENGL 1101 – Critical Writing and Reading

(3 credits – TG) 4 hours lecture

This foundational composition course offered by the department of English focuses on effective writing styles for academic and wider social contexts. Students will respond to texts pertaining to a variety of disciplines and develop critical reading and thinking skills. Students will also refine their understanding and practice of the structures of writing.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 60% or higher, or English 0212 with a grade of C or higher.

GNED 1402 – Writing for the Professions

(3 credits – TG) 3 hours lecture

This course presents the principles and techniques of writing for the professions. The course provides students with an opportunity to develop skills in written and oral communication and to critically analyse documents and genres commonly used in various professions. Practice in a variety of writing situations encountered by professionals such as correspondence, proposals, documented research reports, abstracts, definitions, product and process descriptions is provided.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 60% or higher, or English 0212 with a grade of C or higher.

GNED 1403 – Writing in a Digital Context: Language, Media, Culture

(3 credits) 3 hours lecture

Working online and in the classroom, students in this foundational composition course will explore how various new media shape their writing. The course examines social media in particular, such as social networking sites, video file sharing, and blogging, in the context of rhetoric, cultural studies, and new literacies.

Prerequisite: English Language Arts 30-1 or equivalent with a grade of 60% or higher, or English 0212 with a grade of C or higher.

GNED 2301 – Wellness and the Student: From Personal Health to Community Action

(3 credits) 3 hours lecture

This course provides an introduction and overview to aspects of holistic health and wellness and highlights strategies for promoting well-being. Utilizing a mix of theory and application, students will gain an understanding of individual well-being and the interconnectivity between individual well-being and the well-being of families and communities. Students will also explore community actions that impact health and well-being.

GNED 2402 – Inside Information: Challenges and Controversies in the Information Age

(3 credits) 3 hours lecture

This course surveys the many challenges confronting us in the “Information Age”. Students will have the opportunity to explore the major issues that influence information use, creation, and dissemination. Topics may include: tensions between the right to know and the right to privacy; information equity, access, and power; and intellectual freedom.

GNED 3104 – How Things Work: The Physics of Everyday Technology

(3 credits) 3 hours lecture, 1 hour tutorial

Students will use the technology they use every day to learn a broad range of concepts in physics. The operation of devices including light bulbs, air conditioners, automobiles, motors, microwaves, LEDs, DVDs, cameras and iPods will be used to illustrate topics such as heat, thermodynamics, electricity, and light. Some modern applications such as medical imaging and nanotechnology will also be covered.

Prerequisite: General Education 2104.

GNED 3302 – Wellness and the Student: From Community Health to Global Action

(3 credits) 3 hours lecture

This course introduces how personal wellness impacts family and community health and highlights strategies for promoting global well-being. Utilizing a mix of theory and application, students gain an understanding of the interconnectivity of family and community well-being to global health. Students also explore individual, community and global actions that impact global health and wellbeing.

GEOGRAPHY (GEOG)

GEOG 1101 – The Physical Environment

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to the physical elements of the environment. Topics include: weather, climate, hydrology, landforms, soils, vegetation, and the processes producing variations of these elements on the surface of the earth. Examples of environmental inter-relationships and problems that affect humanity are emphasized.

GEOG 1102 – World Regional Geography

(3 credits – TG) 3 hours lecture

The major cultural regions of the world are introduced in this course. Emphasis is placed on cultural characteristics, including population, political situation, economy, language, and religion, as well as the physical environment, including landforms and climate, that make regions distinctive. Historical developments provide context for understanding regional features. This course provides the background for understanding current world affairs.

GEOG 1103 – The Human Environment

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is the study of societies and cultures; their economies, technologies and political systems as these influence human use of physical and natural environments. The course concentrates on human/environment interrelationships and the manner in which humans attempt to impose order upon the surface of the earth. Some emphasis will be placed on student projects in the laboratories.

GEOG 1105 – Introduction to Mapping, GIS and Remote Sensing

(3 credits – TG) 3 hours lecture, 3 hours lab

This course covers three key areas of geographical techniques: 1) an introduction to topographic and thematic maps, map projections, and map design and layout; 2) the use of geographic information systems to manipulate and visualize data and; 3) an introduction to digital imagery and remote sensing. This course utilizes descriptive statistics and includes a hands-on applied computer component.

GEOG 2107 – Weather and Climate

(3 credits – TG) 3 hours lecture, 2 hours lab

This course involves the study of physical principles of meteorology and climatology. Air masses and fronts, mid-latitude depressions, small and large-scale storms, atmospheric-oceanic coupled circulations, and human-induced climate change are among the topics presented. The characteristics and distributions of climates are explored. Laboratory work emphasizes North American examples.

Prerequisite: Geography 1101 or consent of the department.

GEOG 2109 – Soil Characteristics and Formation

(3 credits – TG) 3 hours lecture, 3 hours lab

This course includes a study of the physical, chemical and biological characteristics of soils, and the processes and factors of soil formation. Laboratory work will include the analysis of soil samples gathered during weekend field trips.

Prerequisite: Geography 1101 or Geology 1101 or 1109 or consent of the department.

GEOG 2111 – Landform Processes and Morphology

(3 credits – TG) 3 hours lecture, 2 hours lab

This course involves a systematic study of the origin, nature and distribution of landforms. Laboratory work will include geomorphic interpretation of maps and air photographs. Weekend field trips are possible in this course.

Prerequisite: Geography 1101 or Geology 1101, 1103 or 1109.

GEOG 2225 – Regional Geography of Canada

(3 credits – TG) 3 hours lecture

This course involves a regional geography approach to the study of Canada. Included is the study of the physical framework of Canada and its significance in Canada's historical development. The concept of geographic regions, and the patterns and characteristics of these regions are explored using selected detailed studies.

Recommended Preparation: A previous course in Geography.

GEOG 2230 – Regional Geography of Europe

(3 credits) 3 hours lecture

This course will explore Europe's regional geography, its physical setting, its human geography (history, demography, economics, politics, culture), and its environmental challenges. Students will be exposed to the internal and external forces that bind the continent's various parts together and the social geographic factors that pull them apart. Special emphasis will be placed on contemporary Europe in the era of globalization and the deepening and widening of the European Union.

Recommended Preparation: A previous course in Geography.

**GEOG 2333 – Economic Geography**

(3 credits – TG) 3 hours lecture

This course provides a survey of the basic elements of economic geography. Included is the study of the environmental, economic, social and technological influences on the distribution of economic activities. Special reference is made to economic development, multinational corporations and newly industrializing economies.

Recommended Preparation: Geography 1103.

Note: This course transfers as a senior Geography course to the University of Calgary and to other post-secondary institutions.

GEOG 2335 – Introduction to Urban Geography

(3 credits – TG) 3 hours lecture

This course introduces the topic of cities, focusing on the history of the urban environment and culture, and urban issues and sustainability from a geographical point of view. Major cities of the world and local examples will be studied.

Prerequisite: Geography 1103 or consent of the department.

**GEOG 2337 – Political Geography**

(3 credits – TG) 3 hours lecture

Students will be instructed in the influence of physical and cultural landscapes on politics, and the influence of politics on the landscape. Topics of study include globalization, regionalism, terrorism, war and disputed territory. The political response to global environmental issues, and the politics of poverty and development are also discussed in this course.

Prerequisite: A previous Geography course or consent of the department.

**GEOG 2437 – Biogeography**

(3 credits – TG) 3 hours lecture

Biogeography is the study of the spatial and temporal distribution of biota. As practiced by geographers, biogeography is closely related to biology, ecology and environmental science with an emphasis on systems and spatial analysis. This course uses a foundation of evolutionary theory and science that forms the basis for thinking critically about contemporary human uses of plants, animals and other biota. Further, the course will explore themes related to human adaptation and impacts in response to the evolution of the biosphere.

Recommended preparation: A previous course in Geography.

**GEOG 2443 – Tourism and Recreation Geography**

(3 credits – TG) 3 hours lecture

This course involves the study of: dimensions of tourism and recreation, scales and impacts of human activities on recreational resources and environments, planning for sustainable tourism, cultural and heritage tourism, nature-based and ecotourism, and development and management issues.

Recommended Preparation: Geography 1101 or 1103.

**GEOG 2445 – Environmental Problems and Resource Management**

(3 credits – TG) 3 hours lecture

Environmental and resource issues are introduced, with emphasis on topics such as ethics, sustainability, policy and decision-making, and management strategies. Case examples highlight issues on resource sectors including fresh water, oceans, parks, wildlife, forests and energy.

Recommended Preparation: Geography 1101 or 1103.

**GEOG 2553 – Geographic Information Systems**

(3 credits – TG) 3 hours lecture, 3 hours lab

This course includes the technical and theoretical foundations of Geographical Information systems (GIS). Raster and vector representations of the physical landscape and associated map analysis techniques are explored. Modeling and performing single and multiple map analyses focus on practical case studies, and form the basis of lecture and laboratory assignments. Cartographically sound visualization techniques will be emphasized.

Prerequisite: Geography 1105 or consent of the department.

**GEOG 2555 – Introduction to Remote Sensing**

(3 credits – TG) 3 hours lecture, 3 hours lab

This course provides a basic overview of the use and interpretation of aerial photographs and remotely-sensed imagery. Both physical and cultural landscape features will be identified and interpreted using remote sensing software.

Prerequisite: A previous course in Geography or Geology or consent of the department.

Recommended Preparation: Geography 1105.

GEOG 3107 – Advanced Biogeography

(3 credits) 3 hours lecture, 3 hours lab

This course is designed to advance knowledge in the fields of biogeography, macro-ecology, and conservation. Drawing from topics developed in the prerequisites, the course will include: empirical studies documenting ecological and biogeographic patterns; theoretical and methodological studies that explore those patterns; case studies of anthropogenic impacts and conservation efforts; and area field studies to explore appropriate examples.

Prerequisite: Geography 2107 or 2109 or 2111 or consent of department.

GEOG 3109 – Overseas Field Study in Physical Geography

(3 credits) 3-week field school

This course introduces the concepts of field research and reconnaissance survey techniques in physical geography, as applied to regions outside of North America. Group travel-study is combined with formal instruction during the course. Pre-Field School classes are also included.

Note: Students will be responsible for paying all costs, including travel associated with the international field school experience.

GEOG 3129 – Advanced Overseas Field Study in Physical Geography

(3 credits – TG) 3 week field school

This course is a continuation of the Overseas Field Study in physical geography course. Students practice field research and reconnaissance survey techniques in physical geography, as applied to regions outside of North America. Group travel-study is combined with formal instruction during the course. Pre-Field School classes are also included.

Prerequisite: Geography 3109.

Note: Students will be responsible for paying all costs, including travel associated with the international field school experience.

GEOG 3309 – Overseas Field Study in Human Geography

(3 credits – TG) 3-week field school

This course introduces the concepts of field research and reconnaissance survey techniques in human geography, as applied to regions outside of North America. Group travel-study is combined with formal instruction during the course. Pre-Field School classes are also included.

Note: Students will be responsible for paying all costs, including travel associated with the international field school experience.

GEOG 3329 – Advanced Overseas Field Study in Human Geography

(3 credits – TG) 3 week field school

This course is a continuation of the Overseas Field Study in Human Geography course. Students practice field research and reconnaissance survey techniques in human geography, as applied to regions outside of North America. Group travel-study is combined with formal instruction during the course. Pre-Field School classes are also included.

Prerequisite: Geography 3309.

Note: Students will be responsible for paying all costs, including travel associated with the international field school experience.

GEOG 3445 – Global Environmental Issues

(3 credits) 3 hours lecture

This course focuses on the science, politics, and geography of global environmental issues. Advancing concepts, theories and models introduced in the prerequisites this course will use a spatial approach to address environmental issues, discourses, and worldviews, and will emphasize the utility of a geographer's skills and methods.

Prerequisite: Geography 2333 or 2337 or 2445 or consent of department.

GEOG 3447 – Parks and Protected Areas

(3 credits - TG) 3 hours lecture

This course will emphasize social and environmental science-based management in both provincial and national park systems. It will explore park formation, policies, planning and resource conservation from within a park and protected areas management framework.

Prerequisite: Geography 2443 or 2445.

GEOG 3553 – Spatial Analysis and GIS

(3 credits) 3 hours lecture, 3 hour lab

This course is designed to advance knowledge in spatial methods and science with specific emphasis on Geographic Information Systems (GIS) and Remote Sensing. Important principles and concepts of GIS/Remote Sensing are expanded beyond those introduced in the prerequisites.

Prerequisite: Geography 2553 or 2555 or consent of department.

GEOG 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

GEOLOGY (GEOL)

GEOL 1101 – Physical Geology

(3 credits – TG) 3 hours lecture, 3 hours lab

This course provides a study of the principles of physical geology. Topics include: the classification and identification of rocks and minerals; processes in the earth's interior; plate tectonics and mountain building; surface processes and geologic hazards; and geologic resources, and an introduction to geologic time.

Note: Credit can only be obtained for one of Geology 1120, 1101, 2209 or U of C GLGY 201, 209 or 271.

GEOL 1103 – Historical Geology

(3 credits – TG) 3 hours lecture, 3 hours lab

A study of the earth's geologic history as interpreted from sedimentary rocks. Emphasis will be on rock types and fossils, and their stratigraphic and environmental significance, as they relate to the physical and organic evolution of North America, from Precambrian to Recent times.

Prerequisite: Geology 1101 with a grade of C- or higher.

GEOL 1109 – Introduction to Geology

(3 credits – TG) 3 hours lecture, 1 hour tutorial

Basic concepts regarding the major features of the earth: its rock and mineral composition; processes controlling erosion, deposition and surface structures; formation of the landscape; the history of the earth; plate tectonics and geologic hazards and how it all relates to you.

Note: Designed primarily for non-science students.

GEOL 1151 – Introduction to the Petroleum Industry

(3 credits) 3 hours lecture

An overview of the history, operations and technical aspects of the petroleum industry. The course content will emphasize the geologic occurrence of petroleum. Topics include: origin, migration and occurrence of petroleum; methods of exploration; and production and uses of petroleum.

Note: A non-science background is assumed.

GEOL 2101 – Introduction to Geologic Field Methods

(3 credits) 10-day field school

This course introduces the concepts of mapping geology at large and small scales. Detailed maps will be prepared using pace, compass and triangulation methods. Geologic sections will be measured with staff and tape and students will complete field reports. The field work will concentrate mainly on sedimentary rocks and basic structural geology. Field exercises are typically conducted outside of Calgary and normally occur during the two week period before Labour Day.

Prerequisite: Geology 1103 and consent of the department.

Note: This course occurs in rugged field conditions and varying weather, for which participants must be prepared and equipped. Students may be required to cover food and accommodation costs.

GEOL 2103 – Minerals and Rocks

(3 credits – TG) 3 hours lecture, 3 hours lab

This course focuses on the identification of rocks and rock forming minerals in hand sample and under the binocular microscope. Included are rock classification schemes; the interpretation of rock textures and structures; an introduction to the petrographic microscope; orthoscopic optical techniques and elementary petrography.

Prerequisites: Chemistry 1201 and Geology 1103 with a minimum grade of C- or higher or departmental approval.

GEOL 2105 – Structural Geology

(4 credits) 3 hours lecture, 3 hours lab

This course will introduce orthographic and stereographic techniques used to examine tectonic structures. Students will also study the classification of tectonic structures, geological maps and cross sections, the mechanical principles involved in the deformation of rocks and the manipulation of structural data.

Prerequisites: Geology 1103 and 2105 with a grade of C- or higher.

Note: There will be a weekend field trip during the course. Students will be required to cover food and accommodation costs.

GEOL 2107 – Palaeontology

(3 credits – TG) 3 hours lecture, 3 hours lab

Principles of classification, comparison of fossil with modern forms, morphology of invertebrate fossils, their evolutionary history and paleoecologic significance.

Prerequisite: Geology 1103 with a grade of C- or higher.

GEOL 2109 – Stratigraphy and Sedimentation

(3 credits – TG) 3 hours lecture, 3 hours lab

This course is an introduction to stratigraphic principles and sedimentary processes. Included are the properties, classification and interpretation of sedimentary rocks, stratigraphic nomenclature and stratigraphic relationships and interpretations.

Prerequisites: Geology 1101 and 1103 with a grade of C- or higher.

GEOL 2111 – Crystallography and Optical Mineralogy

(3 credits – TG) 3 hours lecture, 3 hours lab

External and internal symmetry, chemistry, structure and conoscopic optical properties of crystalline material as a basis for more refined identification of rockforming minerals.

Prerequisite: Geology 2103 with a grade of C- or higher.

GEOL 2151 – Environmental Geology and Earth Resources

(3 credits – TG) 3 hours lecture

Environmental geology involves the application of geological information to environmental problems. This course examines the interaction between man and the environment from a geological perspective with an emphasis on natural resource development in Western Canada.

Prerequisite: Geography 1101 or Geology 1101 or Geology 1109

**GEOL 2153 – Natural Hazards and Disasters**

(3 credits – TG) 3 hours lecture

This course examines natural disasters and provides a survey of important historical and recent disasters from a geologic perspective. Topics covered include: earthquakes, tsunami, volcanic eruptions, landslides, mudflows, flooding, climate change, droughts and extraterrestrial impacts. The lab component of this course involves two one day field trips to examine locally occurring natural hazards.

Prerequisite: Geography 1101 or Geology 1101 or Geology 1109

**GEOL 2155 – Geological History of Life**

(3 credits – TG) 3 hours lecture

The history of life from the earliest records to the present Fossils, geological time, extinction, evolution. The rise and development of various animals and plants including trilobites, ammonites, dinosaurs, and horses.

Recommended Preparation: Geology 1109.

**GEOL 2157 – Water: Geologic and Geographic Issues**

(3 credits) 3 hours lecture

This course will introduce students to the science of water and emphasize its geological and geographical occurrence on our planet. The hydrologic cycle will be studied in depth. Case studies will examine historical uses, current usage and potential future challenges.

Prerequisite: Geography 1101, Geology 1101 or 1109 (minimum C- or higher).

Note: only one of GEOL 2157 and GEOL 2127 may be used for graduation purposes.

GEOL 3101 – Advanced Geological Field Methods

(3 credits) 14-day field school

In this course students will use geological mapping techniques to complete the detailed mapping of lithologies and structures in a selected area of the Precambrian Shield. Emphasis will be placed on the relationship between tectonic setting and ore deposits. The field work component of this course will run during a fourteen day period in late August and early September and students will complete a detailed geological report, on the area studied, during the fall semester.

Prerequisites: Geology 2101, 2105 and 2111 with a grade of C- or higher.

Note: This course occurs in rugged field conditions and varying weather, for which participants must be prepared and equipped. Students will be required to cover travel, food and accommodation costs.

GEOL 3103 – Igneous Petrology

(3 credits) 3 hours lecture, 3 hours lab

This course involves the theoretical and practical study of igneous rocks in hand specimen and thin section. Major topics include the description, classification and origin of igneous rocks. Melting, magma crystallization and magma differentiation are also covered; along with the relationship between tectonics and igneous petrology.

Prerequisite: Geology 2111 with a minimum grade of C-.

GEOL 3107 – Geomorphology

(3 credits – TG) 3 hours lecture, 3 hours lab

This course focuses on landforms and formations and the processes which produce them. Topics of study include glaciation, fluvial geomorphology (rivers and lakes), effects of climate change and other dynamic changes about land forms and their associated geology. Included in the laboratory work are map interpretation and air photo analysis.

Prerequisite: Geology 2109 with a grade of C- or higher.

GEOL 3109 – Sedimentary Petrology

(3 credits) 3 hours lecture, 3 hours lab

This course involves the theoretical and practical study of clastic, carbonate and other sedimentary rocks in hand specimen and thin section. Major topics include the description, classification and origin of rocks. Sedimentary facies and their relationship to depositional environments will also be covered.

Prerequisite: Geology 2111 with a minimum grade of C-.

GEOL 3111 – Metamorphic Petrology

(3 credits) 3 hours lecture, 3 hours lab

This course involves the theoretical and practical study of metamorphic rocks in hand specimen and thin section. Major topics include the description, classification and origin of metamorphic rocks. Chemical equilibrium, metamorphic textures and the relationship between regional metamorphism and tectonics are also covered.

Prerequisites: Geology 3103 with a minimum grade of C- and Geology 3109 with a minimum grade of C-.

GEOL 3113 – Geochemical Processes

(3 credits – TG) 3 hours lecture, 3 hours lab

A study of the chemical processes taking place in geologic settings with emphasis on the abundance relationships of the elements in the Earth's crust. Also included is a study of the laws governing the migration and distribution of elements of the Earth and the application of geochemistry in the search for mineral deposits.

Prerequisite: Geology 2103 with a grade of C- or higher.

GEOL 4101 – Advanced Topics in Sedimentary Geology

(3 credits) 3 hours lecture

This course will include topics current in the field of Sedimentary Geology. These will include sedimentary facies models, seismic stratigraphy, sequence stratigraphy, micropaleontology and ichnology.

Prerequisite: Geology 3109 with a grade of C- or higher.

GEOL 4103 – Advanced Topics in Igneous/Metamorphic Geology

(3 credits) 3 hours lecture

This course will be taught in a seminar format. Topics studied will include those current in the field of igneous and metamorphic petrology such as: structural or geochemical analyses of igneous bodies and/or metamorphic terranes, the granulite problem, analysis of igneous or metamorphic suites, weaknesses of geochronology and/or geothermobarometric studies applied to igneous or metamorphic geology.

Prerequisites: Geology 2105, Geology 3103 and Geology 3111 with a grade of C- or higher.

GEOL 4105 – Hydrogeology

(3 credits) 3 hours lecture, 3 hours lab

This course is a detailed study of the occurrence of groundwater. Topics covered include rock properties that affect groundwater; the quality of groundwater; the geology of groundwater basins; and procedures for surface and subsurface investigations.

Prerequisites: Geology 3107 and 3109 with a grade of C- or higher.

GEOL 4107 – Geological History of Western Canada

(3 credits) 3 hours lecture, 3 hours lab

This course involves a detailed study of the geological evolution of Western Canada from the Precambrian to the Recent. Lab studies will examine a wide variety of rocks from the different time periods.

Prerequisite: Geology 3101 with a grade of C- or higher.

GEOL 4109 – Petroleum Geology

(3 credits) 3 hours lecture, 3 hours lab

This course studies the principles and theory of hydrocarbon formation, migration and entrapment. It also considers the methods, tools and data used in the subsurface analysis of oil and natural gas accumulations with emphasis on Canadian examples.

Prerequisites: Geology 3109 and Geophysics 3101 with a grade of C- or higher.

GEOL 4111 – Ore Deposits and Economic Geology

(3 credits) 3 hours lecture, 3 hours lab

This course will focus on the study of ore occurrences and processes of formation with emphasis on Canadian deposits. Students will also be introduced to mining and exploration techniques, economics, and the Canadian mining industry.

Prerequisites: Geology 2105 and 3103 with a grade of C- or higher.

GEOL 4113 – Geoscience Research

(3 credits) 3 hours lecture

This course will develop student skills in geoscience research methods. Topics will include how to develop a geoscience research question, choose suitable geoscience analytical techniques, produce a geoscience project proposal, and write a geoscience research paper. Students will determine research topics in consultation with faculty. Each student will be required to produce research paper(s) and present these to students and faculty in a conference-style setting.

Prerequisites: Geology 3113 and Geology 3111 with a grade of C- or higher.

GEOL 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

GEOPHYSICS (GEOP)

GEOP 3101 – Exploration Geophysics

(3 credits – TG) 3 hours lecture, 3 hours lab

This course is an introduction to seismic, gravity and magnetic methods as used in the exploration for hydrocarbons and other geologic resources, and their use in engineering studies.

Prerequisites: Geology 2105, Mathematics 1201 and Physics 1202 or 1212 with a grade of C- or higher.

GERMAN (GERM)

GERM 1105 – Beginners' German I (formerly GERM 2205)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course imparts, on the introductory level, an active, practical skill in the use of the spoken and written word, using material from everyday situations.

Note: May not normally be taken for credit by students with German 30 or 31.

GERM 1107 – Beginners' German II (formerly GERM 2207)

(3 credits – TG) 4 hours lecture, 1 hour lab

A continuation of German 1105.

Prerequisite: German 1105.

Note: May not normally be taken for credit by students with German 30 or 31.

GERM 2226 – First-Year University German I (formerly GERM 1125)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course develops the student's ability in speaking, reading and writing German, using modern texts.

Prerequisite: German 30 or 1107.

GERM 2228 – First-Year University German II (formerly GERM 1127)

(3 credits – TG) 4 hours lecture, 1 hour lab

A continuation of German 2226.

Prerequisite: German 2226.

GERM 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar

HEALTH STUDIES (HLTH)

HLTH 1112 – General Health Care

(3 credits) 2 hours lecture, 1 hour tutorial

This course provides the student with information about health care needs and rights of clients in rehabilitation settings. Students have scheduled opportunities to learn skills necessary for assessment and management of health care of disabled clients. Topics will include basic needs such as safety, hygiene, activity, nutrition, elimination and respiration. Variables influencing health such as stress, common health problems, sexuality, loss and death are also considered.

HLTH 1117 – Canadian Health Care System, Culture and Context for Internationally Educated Health Care Professionals

(3 credits) 3 hours lecture

This course is designed to introduce internationally educated health professionals to the context and culture of the Canadian health care system. Overarching themes of patient-safety, communication and interprofessionalism are the focus of this course.

Prerequisite: English proficiency requirement measured at a Canadian Language Benchmark of 6. Proof of professional status as a health care professional.

HLTH 1213 – Health, Safety and Nutrition

(3 credits) 3 hours lecture

This course is designed to provide the student with basic knowledge and skills in the health maintenance of the child up to six years of age. Concepts inherent in health maintenance include the nutritional, physical and emotional needs and problems of the developing child. Principles of child safety and the impact of hospitalization are also included.

HLTH 1285 – Medication Administration Review

(0.5 credit) .5 hour lecture

This course includes a review of pharmaceutical math, theory and practice skills for oral, subcutaneous, intramuscular, and intravenous medication administration. Relevant nursing implications will be addressed. Students will complete a self-study module and attend a one day workshop to facilitate the review and application of medication administration.

HLTH 1286 – Medication Math Review for Nurses

(0.5 credit) .5 hour lecture

This course includes a review of pharmaceutical math for the safe administration of oral, subcutaneous, intramuscular and intravenous medications. Students will complete a self study module and attend a one day workshop to facilitate the review and application of medication math skills.

HLTH 1287 – Nursing Psychomotor Skills Review

(0.5 credit) .5 hour lecture

This course includes a review of surgical and medical asepsis principles and practices. Review of common nursing procedures is completed and a supervised skills practice session is provided. Documentation principles are reviewed. Students will complete a self study module and attend a one day workshop.

HLTH 1288 – Documentation Skills Review

(0.5 credit) 5 hour lecture

This course includes a review of documentation principles and skills using a nursing skills approach. Students will complete a documentation module by self-study and attend a one day workshop on documentation principles.

HLTH 1289 – Health Assessment Review

(1 credit) 1 hour lecture

This course provides a holistic approach to health assessment. It includes a self-study module review; review of health assessment resource materials; and a two day workshop to facilitate the application of health assessment skills.

HLTH 1290 – Mental Health Nursing Theory Review

(1 credit) 1 hour lecture

This course provides a holistic approach and review of the concepts of mental health, mental illness and nursing roles when caring for clients with mental health needs.

HLTH 1291 – Mental Health Nursing Practice Clinical Review

(2 credits) 90 hours clinical experience

This clinical course provides an opportunity for supervised clinical practice experience in mental health settings. The focus is on the practical application of knowledge and skills as well as internationally educated nurses' successful transition to the scope of Canadian nursing practice in mental health settings.

HLTH 1292 – Child Health Nursing Theory Review

(1 credit) 1 hour lecture

This course provides a family-centred approach and review of child growth and development, health and illness patterns and nursing roles when caring for children and their families.

HLTH 1293 – Child Health Nursing Practice Clinical Review

(2 credits) 90 hours clinical experience

This clinical course provides an opportunity for supervised clinical practice experience in child health settings. The focus is on the practical application of knowledge and skills as well as internationally educated nurses' successful transition to the scope of Canadian nursing practice in child health settings.

HLTH 1294 – Maternal Newborn Health Nursing Theory Review

(1 credit) 1 hour lecture

This course provides a family-centred approach and review of the health needs and nursing care for childbearing families during prenatal, labour and delivery and post partum stages for the mother and infant.

HLTH 1295 – Maternal Newborn Nursing Practice Clinical Review

(2 credits) 90 hours clinical experience

This clinical course provides an opportunity for supervised clinical practice experience in maternal newborn health settings. The focus is on the practical application of knowledge and skills as well as internationally educated nurses' successful transition to the scope of Canadian nursing practice in maternal newborn health settings.

HLTH 2250 – Research for Practice in Health and Community Studies

(3 credits) 3 hours lecture

In an interdisciplinary environment, students will have an opportunity to broaden their spirit of professional inquiry. Learners will be able to describe knowledge and ways of knowing, how knowledge is generated, sources of evidence, methods of appraisal, and how this evidence informs one's professional practice. Using a combination of classroom discussion, small group and project work, students across disciplines will study research designed to illuminate areas of collaborative health and community practice.

HLTH 2310 – Professional Nursing in Canada

(3 credits) 3 hours lecture, 1 hour lab

Nurse-person relationship; professional practice including roles/responsibilities of nurses in Canada, nursing competencies, standards of practice, family nursing; cultural diversity; nursing practice: health and wellness concepts and psychomotor skills development and introduction to health care technology.

HLTH 2320 – Nursing Theory Review I

(3 credits) 3 hours lecture, 1 hour lab

Pharmacology, health assessment, pathophysiology review, common health problems of Canadians, and general medical-surgical nursing theory review, critical thinking and clinical judgment in nursing practice.

HLTH 2330 – Nursing Theory Review II

(3 credits) 3 hours lecture, 1 hour lab

Pharmacology, health assessment, pathophysiology review, common health problems of Canadians, and general medical-surgical nursing theory review, critical thinking and clinical judgment in nursing practice. Includes a brief review of nursing specialties: mental health, child health and family newborn health.

HLTH 2403 – Nursing Clinical Review

(3 credits) 160 hours clinical experience

Opportunity for supervised clinical practice experience is offered in general medical-surgical settings in Calgary (Alberta South) or Edmonton (Alberta North) and potentially at settings throughout Alberta based on demand. The focus is on practical application of previously-learned knowledge and skills and the successful transition to the roles and responsibilities of nurses working in the Canadian health care system.

Prerequisites: Health Studies 2310, 2320 and 2330 or with permission of department Chair.

HLTH 3101 – Professional Communication Skills for Nurses

(3 credits) 3 hours lecture (Blended Delivery)

Half of Semester (6 weeks)

This course is designed to focus on the elements of therapeutic communication skills for Internationally Educated Nurses (IEN's). This course will include effective initiation of a professional relationship, trust-building and therapeutic responding to patients and family members. In addition, this course will examine formation of collaborative partnerships with other health care professionals, assertive communication principles dealing with conflict and sensitivity to diversity and cultural influences.

Prerequisites: English proficiency requirement measured at a CLB of 8 and/or CARNAs current CELBAN or IELTS requirements.

HLTH 3103 – Professional Nursing In Canada

(3 credits) 3 hours lecture (Blended Delivery)

Half of Semester (6 weeks)

This course is designed to familiarize Internationally Educated Nurses (IENs) with professional concepts, issues and practices in nursing. It provides an opportunity for IENs to understand the scope of practice of nurses in Canada and have an opportunity to examine entry to practice competencies, standards of practice, ethical and legal issues. The concepts of health promotion, illness and injury prevention, determinants of health, primary health care and population health promotion are key components to this course and will provide the IEN with the opportunity to understand the Canadian health care system and the nurse's role within an interprofessional approach.

Prerequisites: English proficiency requirement measured at a CLB of 8 and/or CARNAs current CELBAN or IELTS requirements.

HLTH 3105 – Health Alterations and Therapeutics I

(3 credits) 3 hours lecture (Blended Delivery)

First Half of Semester (6 weeks)

This course occurs over the first half of a semester and precedes HLTH 3211 – Health Alterations and Therapeutics II. This course provides opportunity for International Educated Nurses (IENs) to acquire knowledge and skills for the purpose of developing clinical reasoning, to provide nursing care for a diversity of individuals experiencing alterations in health, using health promotion approaches and resources. IENs will integrate client concerns, with associated pathophysiology, pharmacological therapeutics, and nursing therapeutics.

Prerequisite: English proficiency requirement measured at a CLB of 8 and/or CARNAs current CELBAN or IELTS requirements.

HLTH 3107 – Professional Nursing Health Assessment (3 credits) 1 hour lecture (Blended Delivery), 2 hours lab (Blended Delivery)

Half of Semester (6 weeks)

This course will focus on preparing Internationally Educated Nurses (IENs) with the theory, reasoning and skills needed to complete a holistic health assessment. IENs will utilize a health promotion approach when conducting a health history in order to identify health alterations and integrate health promotion opportunities. IENs will conduct a holistic health assessment using clinical reasoning to determine priorities and appropriate care measures.

Prerequisite: English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements.

Co-requisite: Any core Bridge to Canadian Nursing (BCN) theory courses as required by CARNA.

HLTH 3109 – Health Assessment Workshop

(1 credit) 16 hours lab (8 hrs Lab per day over a two day period)
2 day course

This course provides Internationally Educated Nurses (IENs) with a holistic approach to health assessment. It includes a self study module, review of health assessment materials, and a two day workshop to facilitate the application of health assessment skills. This course is different than HLTH 3107 – Professional Nursing Health Assessment as it is a two day condensed and focused review of a holistic health assessment.

Prerequisite: English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements.

Co-requisite: Any core Bridge to Canadian Nursing (BCN) theory courses as required by CARNA.

HLTH 3211 – Health Alterations and Therapeutics II (3 credits) 3 hours lecture (Blended Delivery)

Second Half of Semester (6 weeks)

This course occurs over the second half of a semester and is a continuation of HLTH 3105 – Health Alterations and Therapeutics. This course provides opportunity for International Educated Nurses (IENs) to acquire knowledge and skills for the purpose of developing salience, clinical imagination and clinical judgment, and to provide nursing care for a diversity of individuals experiencing alterations in health, using health promotion approaches and resources. IENs will integrate client concerns, with associated pathophysiology, pharmacological therapeutics, and nursing therapeutics.

Prerequisite: English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements and Health 3105.

HLTH 3217 – Professional Nursing in Family Newborn (1 credit) 3 hour lab (Blended Delivery)

(4 Week course)

This course provides Internationally Educated Nurses (IENs) with a family centered approach in promoting health and identifying the health needs and nursing care for childbearing families during prenatal, birthing and post birthing stages. IENs will examine effective family centered care considering health promotion, illness/injury prevention, clinical reasoning, advocacy, forming of collaborative relationships and importance of inter-professional partnerships.

Prerequisites: Pre English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements and Health 3101, 3103 and 3105.

Co-requisite: Any core Bridge to Canadian Nursing (BCN) theory courses as required by CARNA.

HLTH 3219 – Professional Nursing in Child Health (1 credit) 3 hours lab (Blended Delivery)

4 Week Course

This course provides Internationally Educated Nurses (IENs) with a family centred approach in promoting health, and providing holistic, individualized care for children and their families. IENs will examine effective family centered care considering health promotion, illness/injury prevention, clinical reasoning, advocacy, forming of collaborative relationships and the importance of interprofessional partnerships.

Prerequisite: Pre English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements and Health 3101, 3103 and 3105.

Co-requisite: Any core Bridge to Canadian Nursing (BCN) theory courses as required by CARNA.

HLTH 3221 – Professional Nursing in Mental Health (1 credit) 3 hours lab (Blended Delivery)

(4 week course)

This course provides Internationally Educated Nurses (IENs) with a holistic, health promotion approach to learning mental health concepts and nursing roles in caring for adults and families experiencing acute and chronic mental illness. IENs will examine effective family centered care considering health promotion, illness/injury prevention, clinical reasoning, advocacy, forming of collaborative relationships and importance of inter-professional partnerships.

Prerequisite: Pre English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements and Health 3101, 3103 and 3105.

Co-requisite: Any core Bridge to Canadian Nursing (BCN) theory courses as required by CARNA.

HLTH 3313 – Professional Nursing Skills

(1 credit) 3 hours lab (Blended Delivery)

First Half of Semester (4 weeks)

This course provides opportunity for Internationally Educated Nurses (IENs) the opportunity to review and apply nursing skills within the context of simulated client care with a holistic perspective. This course occurs over the first half of a semester and precedes HLTH 3415 – Professional Clinical Practice. The IEN will be able to practice psychomotor skills, learn about documentation, terminology, have and review math for medications. In the safety of a lab environment, simulated experiences will be used to challenge the IEN to demonstrate the skills while integrating nursing knowledge, assessment, clinical reasoning, and communication skills while providing a professional nurse/client relationship.

Prerequisites: English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements and any core Bridge to Canadian Nursing (BCN) theory courses as required by CARNA (Health Studies 3221, Health Studies 3217 and Health Studies 3210 are not considered core BCN courses).

Co-requisite: Health Studies 3107 or Health Studies 3109 may be a co-reg

HLTH 3415 – Professional Clinical Practice

(3 credits) 193 hours practice experience

Second Half of Semester (6 weeks)

This is a clinical practicum that provides Internationally Educated Nurses (IENs) with nursing practice experience in caring for adult clients who are experiencing increasingly complex health/illness situations. This course occurs over the second half of a semester and is a continuation of HLTH 3313 – Professional Nursing Skills. This course is designed to provide integration of professional knowledge, clinical reasoning, reasoning skills, communication skills and values within the context of the Canadian health care system. Emphasis is on furthering understanding of professional nursing practice and registered nursing scope of practice in order for IENs to make a successful transition to professional nursing in Canada.

Prerequisites: English proficiency requirement measured at a CLB of 8 and/or CARNA's current CELBAN or IELTS requirements and Health 3313 and any core Bridge to Canadian Nursing (BCN) theory courses as required by CARNA (Health 3221, 3217, 3219 are not considered core BCN courses).

HLTH 4001 – The Nature of Adult Mental Health Nursing Practice

(3 credits) Distance Delivery

This course provides current frameworks and models to guide the scope of the licensed practical nurse role within the mental health care system. It will include an exploration of the trends, issues, and legislation that influence mental health nursing practice.

HLTH 4002 – Developing Scholarship of Clinical Education (3 credits) 3 hours lecture

The intent of this course is to develop the theoretical and practice knowledge base needed by the Clinical Teacher to be an effective clinical educator for Licensed Practical Nurses in the development of their practice.

Prerequisite: Approval of department Chair.

HLTH 4003 – Competencies for Mental Health Nursing Practice

(3 credits) Distance Delivery

This course enhances licensed practical nurse competencies for mental health nursing practice. Particular emphasis is placed upon concepts such as risk assessment, crisis response, client education, relational communication, and ethical practice.

Prerequisite: Consent of the department Chair.

HLTH 4005 – Mental Health Concerns, Disorders and Interventions

(3 credits) Distance Delivery

This course focuses on the client's unique experience in living with mental health concerns/disorders. The role of the licensed practical nurse in client-centered, supportive interventions and treatment modalities, including medications will be explored.

Prerequisite: Consent of the department Chair.

HLTH 4462 – Integrative Healing Practices in Nursing

(3 credits) 3 hours lecture

This course explores a variety of healing paradigms using an interactive, participative and experiential design. The student will have frequent opportunities to discuss reactions, raise questions and critically analyze current integrative health practices. Students will integrate and apply research-based practice when examining integrative healing practices related to bodywork, mind-body practices, energy therapies, biological, orthomolecular and herbal therapies.

Prerequisites: For Bachelor of Nursing students - all previous Nursing 1100, 1200, 2100, 2200, and 3100 level courses, General Education 1101 or 1102, 1201 or 1202 or 1203, 1301 or 1304 and 1401 or 1402. *Co-requisite:* Nursing 4111 and 4112 for Bachelor of Nursing students.

Note: This course meets the requirements for the senior level nursing option, NURS 4XXX. The course is normally limited to students currently enrolled in the 4th year of the Bachelor of Nursing program. Other students need approval of department Chair.

HLTH 1399 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

HISTORY (HIST)

HIST 1100 – Introduction to History

(3 credits) 1.5 hours lecture, 1.5 hours tutorial

All History majors must take this course during their first ten courses in the program (or as soon as possible after a student declares a major in History). Lectures introduce major historical themes, topics, and categories of analysis, while tutorials focus on skills development through interactive assignments and discussion.

Note: Registration is limited to students enrolled in the BA. (History).

HIST 1101 – Europe to 1500 (formerly HIST 2201)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course, which introduces students to the academic study of history, surveys the history of Western civilization up to 1500, with a focus on the political, social, economic, intellectual, and cultural life of European societies.

HIST 1103 – Europe Since 1500 (formerly HIST 2203)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course, which introduces students to the academic study of history, surveys the history of Western civilization since 1500, with a focus on the political, social, economic, intellectual, and cultural life of European societies.

HIST 1111 – South Asia and the Indian Ocean: 2500 BCE – Present (formerly HIST 2211)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to the history of South Asia from approximately 2500 BCE to the creation of the independent states of India and Pakistan in the mid-twentieth century. Topics to be examined include state formation, social and religious developments, trading world of the Indian Ocean, the impact of Islamic and European states and economies, modes of reaction to colonial rule, the construction of communal identity, and the course of nationalism.

HIST 1117 – America to 1865 (formerly HIST 2217)

(3 credits – TG) 4 hours lecture

This course provides a survey of the history of the United States from colonial settlement to the end of the American Civil War. Course topics include the struggle for liberty by groups and individuals, sectional conflict, interactions between Native Americans and the federal government, and changes in politics, society, and diplomacy.

HIST 1119 – The United States, 1865 to the Present (formerly HIST 2219)

(3 credits – TG) 4 hours lecture

This course provides a survey of the history of the United States from the Civil War to the present. Course topics include the struggle for liberty by groups and individuals, America's rise to global power, and political, social, and economic changes.

Note: History 1119 = Athabasca University HIST 380. Credit will be allowed for only one of History 1119 and HIST A380.

HIST 1131 – Canada, Origins to 1867 (formerly HIST 2231)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course introduces students to key issues and events in early Canadian history. Themes include social and cultural change, as well as economic and political developments. Topics such as the interactions between Natives and non-Natives, war and conflict, and French and British relations will be examined.

HIST 1133 – Modern Canada, 1867 to Present (formerly HIST 2233)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course introduces students to key issues and events in modern Canadian history. Themes include social and cultural change, as well as economic and political developments. Specific topics covered may include Canada's military participation, the Cold War, immigration and regionalism.

HIST 2202 – The Historian's Craft (formerly HIST 3301)

(3 credits – TG) 3 hours lecture

The Historian's Craft is an introduction to history as a distinct field of study. It aims to help students understand what history is, what it means to be a historian, and how to write history. The course is intended primarily but not exclusively for history majors in order to prepare them for the advanced study of history in upper-division courses.

Prerequisite: Any one of the following courses: History 1100, 1101, 1103, 1111, 1117, 1119, 1131, or 1133.

HIST 2205 – Health, Disease and Medicine in Western Society (formerly HIST 3305)

(3 credits – TG) 3 hours lecture

This survey course in the social history of medicine focuses on the "medical revolution" of the nineteenth century. Topics include epidemics, mental illness, the development of the medical profession, and the role of medicine in culture and society.

Recommended Preparation: Any 1000-level History course.

HIST 2207 – Histories of Western Sexualities (formerly HIST 3307)

(3 credits – TG) 3 hours lecture

Histories of Western Sexualities aims to help students understand that, contrary to our intuitive understanding, sexuality – both our sexual practices and our attitudes towards sexuality – have varied enormously over time and between cultures – that is, our sexuality is “historically contingent” and “socially constructed”. Given the enormity of the subject, the course will focus on sexuality in Western cultural experience and the topics covered will vary from semester to semester.

HIST 2208 – Women and Gender in Canada to 1900

(3 credits) 3 hours lecture

This course examines women’s experiences and gender dynamics in Canada from the eighteenth through the nineteenth century. Themes include race and racism, family, politics and political culture, spousal and sexual violence, religion, public and private spheres, as well as sexuality.

Recommended Preparation: Women’s Studies 1172 or any first year history course.

Note: History 2208 = Woment Studies 2241. Credit will be allowed for only one of History 2208 and Women Studies 2241.

HIST 2209 – Women and Gender in Canada Since 1900

(3 credits) 3 hours lecture

This course examines women’s experiences and gender dynamics in twentieth century Canada. Themes include feminism’s three waves, the social welfare state, the rise of the Left, World War II, post-war family and consumption, immigration and race, heterosexism and homophobia, environmentalism, and anti-racism.

Recommended Preparation: Women’s Studies 1172 or any first year history course.

Note: History 2209 = Women Studies 2241. Credit will be allowed for only one of History 2209 and Women Studies 2241.

HIST 2210 – Travel Studies in Canadian History

(3 credits) 3 hours lecture

Themes and course content will vary, but may include topics such as the settlement of the west, the military history of Canada, Aboriginal/European relations, urban history, and Canadian cultural history. This course will include at least one multi-night field trip to sites in Canada.

Recommended Preparation: History 1131 and/or 1133.

Note: Students will be responsible for paying all costs, including travel, associated with the field trip.

HIST 2212 – Travel Studies in American History

(3 credits) 3 hours lecture

Themes and course content will vary, but may include topics such as the Revolutionary War, the American Civil War, Aboriginal Peoples of the United States, urban history, and American cultural history. This course will include at least one multi-night field trip to sites in the United States.

Recommended Preparation: History 1117 and/or 1119.

Note: Students will be responsible for paying all costs, including travel, associated with the field trip.

HIST 2213 – Travel Studies in European History

(3 credits) 3 hours lecture

Themes and course content will vary, but may include topics such as the two World Wars, religion and the state, social history, and European cultural history. This course will include at least one multi-night field trip to sites in Europe.

Recommended Preparation: History 1101 and/or 1103.

Note: Students will be responsible for paying all costs, including travel, associated with the field trip.

HIST 2215 – History of the People of the Plains: Treaty 7 Field Course

(3 credits – TG) 3 hours lecture

This course examines the history of the Native peoples in what is now southern Alberta. Topics include Natives prior to European contact, the events leading to Treaty Seven, and the impact of Treaty Seven on First Nations. This course combines lectures in a traditional classroom setting with a week-long experiential field study component.

Note: Students will be responsible for paying all costs, including travel, associated with the field trip.

HIST 2216 – The American Revolutionary Era

(3 credits) 3 hours lecture

This course is an examination of the creation of the American Republic from 1763 to 1800. Students will understand how thirteen of the English colonies in America rebelled against colonial authority, fought for independence, formed a new nation, and attempted to secure its existence.

Recommended Preparation: History 1117.

HIST 2218 – Women in Industrial Europe, 1750 to the Present (formerly HIST 3317)

(3 credits – TG) 2 hours lecture, 1 hour tutorial

A senior course designed as an introduction to European women’s history focussing on women’s experience in Britain, France and Germany since 1750. Some of the central themes which will be examined include: women and work; the family; sexuality and motherhood; ideology and the state; feminism and political action; and women, war and revolution.

Recommended Preparation: Any 1000-level History course.

HIST 2220 – The United States as a World Power, 1898-1991

(3 credits) 3 hours lecture

This course is an examination of the emergence of the United States as a major world power from the Spanish-American War to the end of the Cold War. Students will study and understand key events, trends, and policies as well as the people who shaped foreign policy during this period.

Recommended Preparation: History 1119.

HIST 2229 – Early Modern Europe, 1453-1789

(3 credits) 3 hours lecture

This course explores the social, political, and cultural history of Europe from the Renaissance to the eve of the French Revolution. Social and cultural changes are considered within the contexts of religious innovation and conflict, the development of capitalism, the rise of the modern state, and the impacts of global exploration and colonialism.

HIST 2232 – Canadian Social History (formerly HIST 3331)

(3 credits – TG) 3 hours lecture

This course focuses on the history of Canadians in a number of spaces such as home, workplace and recreational settings. A variety of topics such as religion, education, health, crime and punishment, the arts, and popular culture may be examined, as may issues such as race and ethnicity, gender and sexuality, regional identity and class.

Recommended Preparation: History 1131 or 1133.

Note: Students who take both Canadian Studies 1131 and History 2232 can obtain credit for Athabasca University HIST 329. Students may not, however, count History 2232 more than once.

HIST 2237 – Modern European Intellectual History (formerly HIST 3337)

(3 credits – TG) 3 hours lecture

This historical survey covers the ideas and thinkers of the period 1800-1930 that shaped the modern twentieth century world-view.

Recommended Preparation: Any 1000-level History course.

HIST 2239 – European Nationalism in the Age of the Nation-State (formerly HIST 3339)

(3 credits – TG) 3 hours lecture

This course examines the history of nationalism in Europe between 1780 and 1990. Two separate but related themes will be pursued: how the nation-state emerged as the dominant form of geopolitical organization in Europe, and how nationalism confronted and was adapted to circumstances and rival ideologies. Topics may include popular sovereignty and nationalism in revolutionary and Napoleonic Europe liberal nationalism; the Vienna settlement and the revolutions of 1848; the unification of Italy and Germany; the decay of Europe's multi-national empires; racism, anti-Semitism, and national identity; nationalism and totalitarianism; communism and the nationality question; internationalism since 1945.

HIST 2241 – Britain in the Nineteenth Century (formerly HIST 3341)

(3 credits – TG) 3 hours lecture

This course will examine the history of Great Britain in the nineteenth century. Beginning with the struggles against Revolutionary and Napoleonic France, and ending with the death of Queen Victoria in 1901, the course will examine Britain's development as the world's leading industrial and imperial power, and the political, social and cultural changes associated with Victorianism. The central themes of the course may include reform and repression in British political life; responses to industrialization; Victorian thought and culture; and the changing face of imperial development.

HIST 2243 – Europe in the Nineteenth and Twentieth Centuries

(3 credits) 3 hours lecture

This course examines the history of Europe between 1789 and 1989. This period is distinguished by transformations in virtually every area of human life; the creation and destruction of a Europe-dominated world order; the rise, spread and collapse of communism; increasingly destructive spasms of organized violence; and ongoing efforts at collective identity formation.

HIST 2247 – Canada's Frontier: the History of the West (formerly HIST 3347)

(3 credits – TG) 3 hours lecture

This course analyzes the West as a distinct region within Canada and in Canadian history. Topics may include: Native peoples, European exploration and settlement, immigration, rural and urban society, social and political protest/reform, the New West, regionalism, political movements, and gendered experience.

Recommended Preparation: History 1131 and/or 1133.

HIST 2255 – Immigration, Ethnicity, and Race in the United States (formerly HIST 3355)

(3 credits – TG) 3 hours lecture

This course studies the ways immigrants to the US and their descendants created and preserved community and identity at work, in politics, and in social relations. The course also examines the ways dominant groups responded to immigration and migration. The creation of and changes in racial and ethnic identities are central themes of the course.

HIST 2263 – Conflict and Society in the Twentieth-Century (formerly HIST 3363)

(3 credits – TG) 3 hours lecture

This course examines the role of conflict in society during the twentieth-century. It will focus on the ideas that produced social and political upheaval and the impact of this upheaval on various groups. Specific themes and topics to be addressed include the Great War; democracy, fascism and communism in the interwar period; Nazism and the "Final Solution"; the Cold War; competing nationalisms, genocide and contemporary civil wars.

HIST 2271 – Latin America Before Independence

(3 credits) 3 hours lecture

This course is an introduction to the history of colonial Latin America. Topics will include the process of conquest, the development of imperial bureaucracies to facilitate control, and the nature of everyday life within the colonies. The course will conclude with an assessment of Latin America's wars of independence.

HIST 2273 – Latin America After Independence

(3 credits) 3 hours lecture

This course is an introduction to the history of Latin America after Independence. It will trace two centuries of volatile change within a region encompassing twenty unique republics. Among the topics to be explored are chronic militarism, uneven economic development, and ongoing struggles for social justice.

HIST 2291 – Film and History (formerly HIST 3391)

(3 credits – TG) 3 hours lecture

This course examines film as a historical document. Films are a valuable source of social, cultural and intellectual history, as well as historical continuity and change. Themes addressed may include: collective memory; documentary films versus fictional films; war and film; issues of gender; race, ethnicity and representation of minority groups; class; sexuality; and film as a source of propaganda.

Recommended Preparation: Any one of History 1101, 1103, 1131 or 1133.

HIST 3306 – Making the Mosaic: Race and Ethnicity in Canada

(3 credits) 3 hours lecture

This course examines the experience and meanings of race, ethnicity, and immigration in Canadian history. Themes may include Aboriginal/European relations, the settlement of the west, law and race, discrimination, urban history, multiculturalism, and the politics of immigration.

Recommended Preparation: History 1131 and/or 1133.

HIST 3318 – Deviance and Conformity: the History of the Canadian Institutional State

(3 credits – TG) 3 hours lecture

This course examines the extension and consolidation of state authority through the intellectual, social, and cultural history of various institutions in Canada. Topics might include asylums, medicine, prisons, reserves, and education. Special attention is paid to how concepts like health, ethnicity, class, learning, and sanity were constructed to serve the interests of the state.

Recommended Preparation: At least one of History 1131, 1133, 2205, 2207, or 2232.

HIST 3319 – Conflict and Violence in Canadian History

(3 credits) 3 hours lecture

This course examines conflicts and violent events in Canadian history and how they have shaped Canadian society. It takes a casestudy approach to the problem, and themes may include relations between labour and capital, French/English relations, nativism and immigration, racial/ethnic/gendered violence in society, Native/ newcomer relations, and the impact of war on society.

Recommended Preparation: History 1131 and/or 1133.

HIST 3329 – The Witch trials of Early Modern Europe

(3 credits – TG) 3 hours lecture

Between 1450 and 1700 Europe experienced many trials and executions on the charge of diabolical witchcraft. This course focuses on the origins, intellectual foundations, historical development, and eventual decline of the trials. The course also examines the overlap between issues of religion, law, gender, the history of science, and social relations in early modern Europe.

Recommended Preparation: History 1103 or 2229.

HIST 3333 – The Renaissance

(3 credits – TG) 3 hours lecture

This course explores the intellectual and cultural developments known as “the Renaissance” within the social, economic and political contexts of Europe in fourteenth and fifteenth-century. Students will study a wide range of contemporary sources to examine the values and beliefs of people who created or reacted to humanism and the reshaping of their societies by the emergence of modern capitalism, the discovery of new worlds, and the advent of a revolutionary information technology: printing. The work of modern historians will be used to illuminate and contextualize the developments in this period, as well as to demonstrate the range of critical perspectives that have been applied to it.

Note: History 3333 = Athabasca University HIST 373. Credit will be allowed for only one of History 3333 and HIST A373.

HIST 3335 – The Reformation

(3 credits – TG) 3 hours lecture

This course examines social, political and religious trends in European history from the mid-fifteenth to early seventeenth century. It focuses in particular on the changes that occurred in European religious life in this period, collectively referred to as the Reformation.

Note: History 3335 = Athabasca University HIST 374. Credit will be allowed for only one of History 3335 and HIST A374.

HIST 3336 – Topics in European History

(3 Credits) 3 hours lecture

This course offers the opportunity to examine selected themes in European history. The specific content of the course will vary by term and instructor Possible topics include the French Revolution, the culture of coffeehouses, history of alcohol, consumer culture, history of the book, science and society, and Gregorian England.

HIST 3343 – Resistance and Resilience: Native Peoples in the United States

(3 credits – TG) 3 hours lecture

This course surveys the diverse histories of Aboriginal groups in what is now the United States from the pre-contact era to the present day. Emphasis will be placed upon the relationship between Native peoples and the newcomers they encountered, and the struggle of Native peoples to retain their cultures and autonomy while dealing with significant changes.

HIST 3345 – First Nations in Canada: Co-operation, Coercion and Confrontation

(3 credits – TG) 3 hours lecture

Survey of the diverse histories of the various First Nations groups in what is now Canada. Emphasis will be placed upon the relationship between Native peoples and the French, British and Canadian governments.

Recommended Preparation: Any junior-level history course.

Note: History 3345 = Athabasca University INST 369. Credit will be allowed for only one of History 3345 and INST A369.

HIST 3346 – Indigenous People in Latin America

(3 credits) 3 hours lecture

This course is an introduction to the history of Latin American indigenous societies. Themes to be explored include native resistance and collusion with Iberian conquest efforts, the resilience of indigenous cultures in the face of coercive change, and the robust revival of the region's indigenous populations in the recent past.

HIST 3356 – Topics in Canadian History

(3 credits) 3 hours lecture

This course offers the opportunity to examine selected topics in Canadian history. The specific content of the course will vary by term and instructor Possible topics include political culture, popular culture, French Canada, Canada-US relations, or military history.

Recommended Preparation: History 1131 and 1133.

HIST 3357 – Topics in American Culture

(3 credits – TG) 3 hours lecture

This course provides an introduction to themes in American cultural history. Each semester a different topic will be chosen for study. For instance, the history of public amusement, history of sexuality and African American culture.

HIST 3358 – American Environmental History

(3 credits) 3 hours lecture

This course examines the ways Americans have utilized the environment to meet their wants and needs, as well as the ways in which the environment has shaped society. Students will study primary documents and historians' accounts to understand this complex relationship from multiple perspectives. Potential topics include industry, agriculture, cities, energy, reform movements, and invasive species.

HIST 3361 – The Holocaust

(3 credits) 3 hours lecture

This course examines the causes, course and consequences of the Holocaust – the mass murder of European Jewry (and others) by the Nazi State during World War II. The roles of victims, perpetrators, bystanders, rescuers, and survivors will be explored, as well as post-war “collective memory” and Holocaust “representation”.

Recommended Preparation: Any one of History 1103, 2237, 2243, or 3365.

HIST 3365 – World War II

(3 credits – TG) 3 hours lecture

This course examines the origins, conduct and consequences of the Second World War. It focuses particularly on the experience of ordinary participants, including front-line soldiers, civilians on the home front, prisoners of war, members of resistance movements and collaborators in occupied Europe. In addition to explaining the events of the war itself, the course will examine how the conflict is remembered in North American popular culture.

Note: History 3365 = Athabasca University HIST 367. Credit will only be allowed for one of History 3365 and HIST A367.

HIST 3373 – World War I

(3 credits – TG) 3 hours lecture

This course examines the origin, conduct and consequences of the First World War. The focus of study will include the nature of warfare at the beginning of the 20th century as well as the social, economic and political changes affected by the war. In addition to examining the events of the war, the way that war has been represented culturally and intellectually will be addressed.

Recommended Preparation: History 1103.

**HIST 3383 – History of Religion in Canada**

(3 credits) 3 hours lecture

This course explores diverse religious experiences in Canada from a historical perspective. Themes may include missionary activity and cultural conflict, relations between church and state, the impact of religion on gender, class, and racial identities, as well as the role of religion in social and political change.

Recommended Preparation: History 1131 and 1133.

**HIST 3385 – Religion, War, and Society in Europe, 1558-1714**

(3 credits – TG) 3 hours lecture

This course takes a comparative approach to the study of the political and social development of France and Britain in the later Sixteenth and Seventeenth Centuries. It considers how the development of the state and society were shaped by fierce religious conflicts and profound economic and cultural change. The course encompasses various key subjects in this period including the reign of Elizabeth I, the French Wars of Religion, the British Civil Wars, the Frondes, Oliver Cromwell and the English republican experiment, Louis XIV and the expansion of the French state, and the beginnings of a British constitutional monarchy in the Revolution of 1688-89.

**HIST 3802 – Public History Field Experience**

(3 credits) 3 hours lab

This course is an opportunity for history majors to have a supervised, hands-on learning experience in the field of history. Students will perform meaningful work at a historical agency, museum, archive, or other institution dedicated to the study and interpretation of history, historic preservation, and/or heritage resources.

Prerequisites: History 1100 and History 2202 and approval of the Humanities Department

Note: Course availability will vary from term to term and admittance to the course is competitive. History faculty will work with local institutions to arrange placements. To obtain Department approval to enroll in the course students must complete an application form available from the History B.A. Advisor and the student must have a minimum GPA of 2.5 for the last 20 courses completed. Applications are due June 1 for the upcoming Fall term and October 1 for the upcoming Winter and Spring terms.

HIST 4401 – Special Topics in War and Society

(3 credits – TG) 3 hours lecture

This course provides students with the opportunity to focus on a particular theme from the field of war and society in a seminar environment. Topics might include the development of military medicine, the Holocaust, technology and warfare in the 20th century, literature and war, or war on the home front.

Prerequisites: History 2202 and one of History 2263, 3365 or 3373.

**HIST 4402 – The Age of Enlightenment**

(3 credits – TG) 3 hours Lecture

This course examines the Enlightenment through reading and discussion of primary documents and historians' debates. Emphasis will be placed on interpretations of the Enlightenment and analyzing what impact it made on later generations. Possible topics include Enlightenment or Enlightenments; British Enlightenment; Enlightenment bodies; and religion in the Enlightenment.

Prerequisites: History 2202, and 1103 or 2229.

**HIST 4403 – Landmarks in the History of Science**

(3 credits) 3 hours lecture

This course examines major events in the history of science through reading and discussion of primary documents and historians' debates. Emphasis will be placed on appreciating science as a product of the past culture which produced it. Possible topics include the Scientific Revolution; Darwinism; science and society; and the popularization of science.

Prerequisites: History 2202, and one of History 1101 or 1103 or 2229.

**HIST 4404 – Topics in Canadian Social History**

(3 credits – TG) 3 hours lecture

This course offers students an opportunity for advanced study in the social history of Canada. Topics may include labour, immigration, religion, family, First Nations, women, health, and social welfare.

Prerequisites: History 2202 and one of History 1131, 1133 or 2232.

**HIST 4405 – Special Topics in Public History**

(3 credits – TG) 3 hours lecture

This course provides students with an introduction to the practice of history in a variety of venues such as museums and historic sites. The course will expose students to the skills, methods and techniques utilized by public history practitioners. Topics may include archives, electronic media, curatorial authority, controversies, First Nations peoples, tourism, and cultural heritage.

Prerequisites: History 2202 and one of History 1101, 1103, 1111, 1117, 1119, 1131, or 1133.

HIST 4411 – The American Civil War and Reconstruction

(3 credits) 3 hours lecture

This course is an exploration of the rise of sectional conflict, the Civil War, Reconstruction, and the ways in which Americans have remembered these events. Topics include slavery, political conflict, strategy and tactics, the home front, race, Reconstruction and reunion, and the role of the media in shaping popular conceptions of history.

Prerequisites: History 1117 and 2202.

**HIST 4455 – Canada in the Era of the Cold War**

(3 credits – TG) 3 hours lecture

This advanced seminar course focuses on the social, political, and cultural history of Canada from 1945 to 1991. Themes include Canadian defence, nuclear weapons, foreign policy, espionage, domestic and international politics, the development of social programs, and Canadian culture.

Prerequisites: History 2202 and one of History 1131, 1133, or 2232.

HIST 4461 – Limits of Representation: Holocaust and Memory

(3 credits) 3 hours lecture

The Holocaust changed the historical, political and cultural landscape, and this course will help students understand how society remembers and historicizes this event. In this senior seminar course, students engage with primary documents such as published and unpublished survivor testimony, historical and contemporary novels and films and other representations of this traumatic event.

Prerequisites: History 2202 and 3361.

HIST 4486 – The Industrial Revolution

(3 credits – TG) 3 hours lecture

This course examines the origins, spread and consequences of the Industrial Revolution in Europe between 1750 and 1900. The course is intended to provoke informed reflection on the important changes produced by the transition to the industrial age, with particular emphasis on developments in England where the Industrial Revolution first began.

Prerequisites: History 2202 and one of History 1103, 2241 or 2243.

HIST 5110 – Honours Project I

(3 credits) 3 hours lecture

Required for all students in the Honours stream, History 5110 is an advanced seminar course that provides students with the practical skills and knowledge necessary to develop their Honours project (History 5120), a substantial piece of independent research.

Prerequisite: History 2202.

Note: This course is restricted to students who have completed 30 courses towards the B.A. and who are officially accepted and enrolled in the History Honours Program. This course is offered only in the Fall semester.

HIST 5120 – Honours Project II

(3 credits) 3 hours lecture

Required for students in the Honours stream, History 5120 is an independent study course in which students research, write and present an Honours project, a substantial piece of original research. The project will be conducted under the direction of a faculty supervisor.

Prerequisite: History 5110.

Note: This course is restricted to students in the final year of their program who are officially accepted and enrolled in the History Honours Program. This course is only offered in the Winter semester.

HIST 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

HUMAN RESOURCES (HRES)

HRES 2170 – Introduction to Human Resources

(3 credits – TG) 3 hours lecture

This course will introduce students to the various elements of Human Resources management. In addition to the functional areas within HR, students will focus on the legal, ethical, and strategic HR management issues. Contemporary HR issues will also be discussed.

Note: Only one of Entrepreneurship 2237 and Human Resources 2170 can be used to satisfy program requirements.

HRES 3274 – Recruitment & Selection

(3 credits – TG) 3 hours lecture

This course provides students with the knowledge and skills to design and implement strategic recruitment and selection initiatives. Topics include: analyzing and developing job requirements, legal considerations, identifying sources of applicants, screening mechanisms, testing methods, and effective interviewing techniques. Students will take part in interview simulations in order to enhance their skills in this area.

Prerequisite: Human Resources 2170.

HRES 3275 – Compensation & Benefits

(3 credits – TG) 3 hours lecture

This course provides students with an overview of direct and indirect compensation theory and practices within the Canadian business environment. Students will explore the design, implementation, and management of compensation and benefits systems, and how these align with an organization's overall vision. Current practices that link total rewards and employee attraction, retention, and motivation will also be discussed.

Prerequisite: Human Resources 2170 or Entrepreneurship 2237.

HRES 3277 – Organizational Learning and Development

(3 credits – TG) 3 hours lecture

This course provides students with the theoretical constructs as well as practical elements for assessing, designing and developing learning initiatives from a broader organizational and strategic perspective. Areas of examination in this course include an overview to strategic learning and development within organizations, building a learning culture, as well as assessing what type of learning and development interventions can be introduced to address individual and organizational performance.

Prerequisite: Human Resources 2170.

HRES 3278 – Employee Relations

(3 credits) 3 hours lecture

This course provides students with the theoretical constructs as well as practical elements for engaging in effective employee relations. Practical areas of examination in this course include an overview to effective employee relations within organizations, recognition strategies to maintain an engaged work force, how prevailing attitudes affect good employee relations, managing conflict and diversity as well as coping with change. It also provides an overview to the role of coaching in performance management.

Prerequisite: Human Resources 2170.

HRES 4273 – Labour Relations

(3 credits – TG) 3 hours lecture

This course examines the current state of industrial and labour relations within Canada. Applicable legislation will be discussed, and students will review the terms and conditions contained within collective agreements. The roles and impacts of unions, both within organizations, and within Canadian society will be explored. Students will take part in a bargaining simulation in order to develop their knowledge and skills in this area.

Prerequisite: Human Resources 2170 or Entrepreneurship 2237.

HRES 4407 – Transition Management

(3 credits) 3 hours lecture

This course provides students with an understanding of how HR professionals effectively identify, guide, and implement changes within an organization. Topics include: change agents, barriers to change, and employee communication strategies during times of transition. Students will explore the concept of coaching employees through transitions, and effectively aligning change to an organization's strategic intent.

Prerequisite: Management 3276.

HRES 5101 – Strategic Human Resources Management

(3 credits) 3 hours lecture

This course is an examination of the overall role and functions of human resource management in relation to an organization's strategic planning process. Students will explore how to manage human resources effectively in the dynamic legal, social, and economic environment currently challenging organizations. The emphasis will be on the methods in which typical HR activities, e.g., recruitment & selection, and compensation & benefits align with the organization's goals and objectives.

Prerequisites: Finance 3227, Human Resources 3275, Management 2130, 3276, and Marketing 2150.

HRES 2299, 3399 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

HUMANITIES (HUMN)

HUMN 1103 – Symbols (formerly HUMN 2203)

(3 credits – TG) 3 hours lecture

This course provides an exploration of the meaning of symbolism in human experience. Theoretical approaches may include psychology (Jung, Lacan), hermeneutics (Cassirer, Ricoeur), educational theory (Steiner), etc. Specific themes that may be examined in-depth include the nature of the Symbolic religious symbolism; metaphors and images of life and death; and symbols of technical power and control.

HUMN 1109 – Western Culture I: Before the Reformation (formerly HUMN 2209)

(3 credits – TG) 3 hours lecture

This course surveys the development of Western cultural experience from its origins in Ancient Greece (circa 800 BCE – 323 BCE) to the end of the Middle Ages (circa 1500 AD). Although the course employs an historical framework, its overall approach is interdisciplinary, drawing on the findings of archaeologists, classical scholars, philosophers, art historians, literary critics as well as historians of the Ancient World and the Medieval World.

HUMN 1111 – Western Culture II: Since the Reformation (formerly HUMN 2211)

(3 credits – TG) 3 hours lecture

This course surveys the development of the Western cultural experience from the Reformation (circa 1500 AD) to the present. Although the course employs an historical framework, its overall approach is interdisciplinary, drawing on the insights of artists, poets, novelists, musicians, philosophers, and scientists, as well as historians of the Early Modern and Modern periods of Western culture.

HUMN 2201 – Outstanding Lives (formerly HUMN 1101)

(3 credits – TG) 3 hours lecture

This course provides an interdisciplinary study of the original works of significant thinkers from the areas of the arts, fine arts, science, religion and politics. Each semester a different individual or individuals are the focus of study.

HUMN 2219 – Ancient Greece (800 BCE – 323 BCE) (formerly HUMN 3309)

(3 credits – TG) 3 hours lecture

This course provides a comprehensive introduction to the history and culture of Ancient Greece (circa 800 BCE – 323 BCE). The course employs an interdisciplinary approach, examining the mythology, religion, history, politics, philosophy, science, art and literature of this ancient culture that has often been seen as the cradle of Western civilization.

Recommended Preparation: History 1101.

Note: Humanities 2219 = Athabasca University HUMN 309. Credit will be allowed for only one of Humanities 2219 and HUMN A309.

HUMN 2221 – Science and Religion in Early Modern Europe (formerly HUMN 3321)

(3 credits – TG) 3 hours lecture

This course explores the tremendous changes that occurred in science and religion between 1450 and 1700. In particular, it looks at the reasons that religion and natural science split apart into separate institutions during the Renaissance and the Scientific Revolution. Topics such as authority and belief, the earthly and heavenly realms, the extent of human knowledge, and the relation between humans and nature will be discussed.

Recommended Preparation: One or more of Humanities 1105, 1109, 1111, History 1101, 1103, 3333, 3357, Philosophy 1101, 2215, 2263, 2267, Religious Studies 1101, 2207.

HUMN 2297 – Issues in Science and Religion (formerly HUMN 3397)

(3 credits – TG) 3 hours lecture

This course examines issues of mutual concern for science and religion such as evolution and creation, value and meaning of humanity, exploitation and/or stewardship of life, of the world.

HUMN 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

INDIGENOUS STUDIES (INST)

INST 1101 – Introduction to Indigenous Studies: the Canadian Context

(3 credits) 3 hours lecture

This course provides an introduction to the interdisciplinary field of Indigenous Studies. Specifically, the course surveys the diverse histories and traditional and contemporary cultures of the various groups in what is now Canada. Taught from an Aboriginal perspective, the course explores a wide range of topics, with an emphasis on colonization and decolonization.

INST 1111 – Introduction to Indigenous Studies: International Perspectives

(3 credits) 3 hours lecture

Taught from an Aboriginal perspective, this course explores a range of topics, with an emphasis on colonization and decolonization in a comparative international context. The Indigenous peoples focused on will vary from semester to semester and may include groups from areas such as Australia, New Zealand, South America and the United States.

Recommended Preparation: Indigenous Studies 1101.

INSURANCE (INSR)

INSR 2140 – Principles and Practice of Insurance

(3 credits) 3 hours lecture

The basic concepts and language of insurance are discussed including: the legal context of insurance; the insurance contract and document process; risk; ratemaking and underwriting; the participants in the industry and their relationship to each other; claims process and adjusters; and reinsurance.

INSR 2141 – Insurance on Property

(3 credits) 3 hours lecture

This course provides an introduction to property insurance; basic fire insurance, extended coverage endorsement; Insurance Act Provisions: discussion of perils, and clauses and limitations relating to the most common personal lines policies.

Prerequisite: Insurance 2140.

INSR 2143 – Automobile Insurance

(3 credits) 3 hours lecture

This course provides an introduction to and development of automobile insurance including: legislation related to automobile insurance, policies and regulations with a concentration on personal coverages; claims; industry programs for insurance availability; insurance rating; and specifics of policy coverage in each province.

INSR 2144 – Loss Adjusting

(3 credits) 3 hours lecture

This course provides basic knowledge of insurance and professional conduct within the claims domain: management of relationships relative to the claims handling process; the fundamentals of investigation, evaluation, negotiation and settlement within the claims process.

Prerequisite: Insurance 2140.

INSR 2145 – Insurance Agency

(3 credits) 3 hours lecture

An overview of the insurance business from an agency perspective including: recognition of the needs of personal lines clients and small commercial risks; the progress of a risk assessment from initial client contact through the evaluation and application process, to binding and policy documents; review of major product lines and common policy transactions.

Prerequisite: Insurance 2140.

INSR 3247 – Underwriting Essentials

(3 credits) 3 hours lecture

This course provides an overview of how an underwriter accepts or rejects for the insurer within parameters set by the insurer and imposed by external environmental conditions and includes the study of the characteristics required by an underwriter in the analysis of individual property, liability, and automobile risks.

Prerequisite: Insurance 2140.

INSR 3249 – Liability Insurance

(3 credits) 3 hours lecture

This course provides a review of the Canadian legal system and those legal principles that affect liability insurance. The Commercial General Liability Policy is studied in-depth, including discussion of miscellaneous liability coverage relating to other business liability exposures and underwriting liability exposures.

Prerequisite: Insurance 2140.

INTERDISCIPLINARY STUDIES (INTS)

INTS 1240 – Fundamentals of Interpersonal Communication (formerly HLTH 2240, SLWK 1111 and INTS 2240)

(3 credits) 3 hours lecture

This course provides an introduction and overview to aspects of interpersonal communication. Utilizing a mix of theory and application, the course provides students with opportunities to gain an understanding of the elements of interpersonal communication and demonstrate a foundational level of knowledge and skill of the application of interpersonal communication for use in a variety of settings.

INTERIOR DESIGN (INDS)

INDS 2010 – Directed Field Studies I

(15 credits)

This course will foster an understanding of the business culture unique to the interior design profession. Students will participate in paid work experiences within businesses associated with the design and construction of interior environments. In addition to applying academic skills and theory acquired in Semesters 1 – 4, students will develop personal and professional acumen for working effectively within the interior design profession.

INDS 2211 – Design I

(3 credits) 2 hours lecture, 3 hours studio

This course explores the role of design as a human activity and the relationship of design to human behaviour and well-being. Students will develop awareness of human history in the context of design and invention, an understanding of design as effective problem analysis and exploration, and a context and vocabulary for design critique.

INDS 2213 – Design Communication I

(2 credits) 1 hour lecture, 2 hours studio

Design Communication I introduces drawing as a means of communication. Focus is on the development of freehand drawing skills with various media, including but not limited to, graphite, conte, charcoal, pen and brush with ink. Students will gain sensitivity and expertise with line, play of light, colour, proportion and perspective drawing.

Prerequisite: Admission to the Bachelor of Applied Interior Design program.

INDS 2221 – Design II

(4 credits – TG) 2 hours lecture, 6 hours studio

This course is a continuation of Interior Design 2211, and examines design through the application of the elements and principles of visual design in two dimensional and three-dimensional problems. Project and assignment solutions will be derived through application of problem-solving processes.

Prerequisite: Interior Design 2211 or consent of the department.

INDS 2223 – Design Communication II

(2 credits – TG) 1 hour lecture, 3 hours studio

Skills introduced in Design Communication I will be further developed, practised and refined, with particular emphasis on freehand and technical perspective drawing of interior spaces and principle of layout and composition.

Prerequisite: Interior Design 2213 or consent of the department.

INDS 2225 – Construction I

(4 credits – TG) 2 hours lecture, 6 hours studio

This course introduces the student to theoretical and practical exercises related to technical problems in architectural and design drawing. Students will establish confidence and familiarity with conventions, methods and applications of orthographic drawing.

Prerequisite: Successful completion of all first-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 2229 – Lighting

(1 credit) 1 hour lecture

This course provides a foundation of light theory for the students, as well as techniques to research and specify light sources and fixtures. Students explore and develop an understanding of the impact of light on environmental issues and on the health and safety of individuals.

Prerequisite: Successful completion of all second-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 2231 – Colour and Light

(2 credits) 2 hours lecture

This course provides an introduction to the theories of colour and light. It will also look at the relationship of colour and to the materials used in design. Through discussions, exercises and field trips, students will develop awareness of the importance of colour and light in the successful resolution of functional problems of interior spaces.

Prerequisite: Admission to the Bachelor of Applied Interior Design program.

INDS 2233 – Materials

(1 credit) 1 hour lecture

This course investigates the properties of basic construction and finishing materials used in the interior environment. Students will learn how to select appropriate materials to satisfy given criteria by implementing a prescribed problem solving process.

Prerequisite: Successful completion of all first-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 2235 – Universal Design

(1 credit) 1 hour lecture

Students will develop an understanding of universal design and will be exposed to the physiological, psychological, and social impact that universal design has on diverse populations.

Prerequisite: Successful completion of all first-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3010 – Directed Field Studies II

(15 credits)

This second semester of paid work experience will provide students with practical experience in areas which pertain to their specific interests and skills. Although employment will be coordinated through the Career Services office, students will be encouraged to find their own employment opportunities.

INDS 3301 – Design III**(4 credits – TG) 2 hours lecture, 6 hours studio**

This course builds on core skills and understandings developed during the foundation Interior Design courses. Students are provided with opportunities to learn the theory of residential design and to apply that theory, using a prescribed problem process, to the resolution of both theoretical and practical projects. These projects consider the needs of diverse populations and range from the simple to the complex.

Prerequisite: Successful completion of all second-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3305 – Construction II**(4 credits) 2 hours lecture, 6 hours studio**

This course is a continuation of Interior Design 2225. This course emphasizes skill development in the design and construction of architectural woodwork and the preparation of related construction drawings.

Prerequisite: Successful completion of all second-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3309 – History of Interiors**(3 credits – TG) 3 hours lecture**

This course explores the development of interior environments and the impact on style of social, cultural, economic and political issues. Students will study the design and development of the historical decorative arts from ancient Egypt to the architecture, interiors and furniture of the twenty-first century.

**INDS 3311 – Design IV****(4 credits – TG) 2 hours lecture, 6 hours studio**

Design IV is a continuation of Interior Design 3301. Students will solve a complex design project with specific programming and design requirements. The students are introduced to commercial design theories, applying them to specific design situations to experience and develop an understanding of the designer's role in creating public spaces. Consideration will be given to populations of diverse age, culture, income, physical abilities, etc.

Prerequisite: Successful completion of all third-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3313 – Design Communication III**(2 credits) 1 hour lecture, 3 hours studio**

Students will gain practice in using freehand perspective drawing techniques as a thinking and problem-solving tool, and to enhance their drawing skills for visually communicating finished design solutions.

Prerequisite: Successful completion of all second-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3315 – Construction III**(4 credits) 2 hours lecture, 6 hours studio**

This course is a continuation of Interior Design 3305, and focuses on construction materials and methods utilized in the fabrication of both residential and commercial environments, as well as the conventional drawing methods used to convey construction intent.

Prerequisite: Successful completion of all third-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3317 – Interior Design Business I**(2 credits) 2 hours lecture**

This course provides an overview of the interior design profession with an emphasis on the associated business principles and practices. Topics include the history of the profession, scope of services, and the allied professions and consultants that support the practice and provides an overview of interior design office operation, its practices and the standard business documents utilized. The emphasis is on ethics and professionalism, responsibilities of the interior designer, communication skills, research development, time management, and employment and entrepreneurial opportunities.

Prerequisite: Successful completion of all first-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3323 – Design Communication IV**(2 credits) 1 hour lecture, 2 hours studio**

This course further develops competency in freehand representation of design ideas. Students will enhance their personal styles for visually communicating interior design solutions.

Prerequisite: Successful completion of all third-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3327 – Interior Design Business II**(1 credit) 1 hour lecture**

Interior Design Business II is a continuation of Interior Design 3317. Students continue to refine their communication skills, research and information gathering techniques. A major emphasis in this course will be on professional attitude and presentation, marketing and interview skills are addressed such that students are adequately prepared for their first directed field studies.

Prerequisite: Successful completion of all third-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3331 – Computer Drafting**(2 credits) 1 hour lecture, 3 hours studio**

This course teaches the basic concepts required for competency in drafting with AutoCAD software. The first portion of the course concentrates on learning the tools for drawing 2-dimensional representations; the final portion focuses on reinforcing these skills and building drawing efficiency.

Prerequisite: Successful completion of all third-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 3333 – Case Studies in Design**(1 credit) 1 hour lecture**

In this course students will select and research a variety of centres of design excellence in North America and Europe. Research will include historical sites, contemporary design installations, and significant architects and designers who have contributed to the quality of the centre. Students will select one of the researched centres for an optional field study tour. The cost of the tour will be borne by the student.

INDS 3335 – Building Code and Systems I**(1 credit) 1 hour lecture**

This course provides an introductory overview of the National Building Code (NBC) and the Alberta Building Code (ABC), with a focus on those sections that apply specifically to the design and development of interior spaces. The course will also provide an overview of the systems that govern the design and support the efficacy of the built environment – structure, HVAC, power and communication, plumbing, acoustic, lighting and fire safety systems.

Prerequisite: Successful completion of all first year Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4401 – Design V**(4 credits – TG) 2 hours lecture, 6 hours studio**

This course is a continuation of Interior Design 3311. Commercial design theory and the factors that affect the function, efficiency and aesthetics of the office environment are addressed. The unique requirements of retail or hospitality design will be explored and the factors affecting the design for diverse populations.

Prerequisite: Successful completion of all fifth-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4405 – Construction IV**(4 credits) 2 hours lecture, 6 hours studio**

This course is a continuation of Interior Design 3315, addressing the construction and specification of elements in typical commercial interior environments. Students gain practice in the use of AutoCAD software by producing computer generated construction details related to their design projects.

Prerequisite: Successful completion of all fifth-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4407 – Interior Design Business III

(3 credits) 3 hours lecture

This course, which is a continuation of Interior Design 3317 and 3327, will present the sequence of business activities expedited on a typical design project. Emphasis is on the organizational procedures, information management and supportive documentation required in the design process. Additional topics addressed are ethics, professionalism and communication skills.

Prerequisite: Successful completion of all fifth-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4411 – Design VI

(3 credits) 1 hour lecture, 6 hours studio

This course requires students to independently investigate and research an adaptive re-use project of their own choice. The project provides an opportunity for self-expression, and synthesizes the theory and skills acquired throughout the program.

Prerequisite: Successful completion of all seventh-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4413 – Design Communication V

(2 credits) 1 hour lecture, 2 hours studio

This course provides instruction in the use of digital media in combination with freehand drawing to represent design ideas.

Prerequisite: Successful completion of all fifth-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4415 – Construction V

(2 credits) 1 hour lecture, 3 hours studio

This course builds on knowledge and skills acquired in Interior Design 4405 and addresses current trends in construction methods and materials in the creation of interior environments. Students will explore alternative methods for presenting construction assemblies based on project work in Interior Design 4411.

Prerequisite: Successful completion of all seventh-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4421 – Design Issues

(2 credits) 2 hours lecture

Design Issues provides the students with exposure to a broad range of ideas and current issues related to the built environment. It also provides an opportunity for in-depth exploration of a topic of personal interest, and a forum within which to share ideas and research. An excellent opportunity is provided for syntheses of a number of approaches to a design problem.

Prerequisite: Successful completion of all seventh-semester Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4435 – Building Code and Systems II

(1 credit) 1 hour lecture

This course will provide a continuation and expansion on the material covered in Interior Design 3335.

Prerequisite: Successful completion of all third year Bachelor of Applied Interior Design program core requirements or consent of the department.

INDS 4437 – Design Theory

(2 credit) 2 hours lecture

This course will look at the ideas impacting the design and interpretation of interior environments. In particular, students will study the social, cultural, technological, and political issues which have influenced, and continue to inform, the design of interior spaces. Students will analyze and respond to the ideas of influential designers, theorists, and architects from the modern period to the present. Starting with the Industrial Revolution, topics such as mass production, craft, ornamentation, spatial organization, taste, style, gender, domestic space and work cultures will be examined.

Prerequisite: Interior Design 3309.

INDS 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

INTERNATIONAL BUSINESS (INBU)

INBU 2201 – Cross-Cultural Management

(3 credit) 3 hours lecture

This course provides an overview of cross-cultural management practices and examines how culture is expressed through organizational behaviour within the business community in Canada and abroad. In this course students will be exposed to the importance of culture and the nature of cultural diversity in relation to communication, etiquette, motivating employees, and organizational structure.

INBU 3301 – Global Business Environment

(3 credits) 3 hours lecture

Learn how to adapt and assess your marketing strategies to opportunities offered by the global economy. Upon successful completion of this course, you will be able to implement your own international business plan. Topics include international buying and selling, export and import processes, the international institutional framework, international marketing, trade financing and negotiating abroad.

INBU 3302 – International Marketing

(3 credits – TG) 3 hours lecture

There are ways to succeed in international marketing and they include understanding who your customers are, what they want and how you can best provide it. International Marketing prepares you to master the challenges of international markets. Topics include domestic versus international marketing, principles of marketing, market research techniques, promotional strategies, pricing, missions and trade fairs and international marketing management.

INBU 3303 – International Finance

(3 credits) 3 hours lecture

Financing plays an essential role in international trade – and your international finance training must be practical, hands-on and adaptable to your business environment. Topics in International Finance include the role of financing in international trade, risk analysis, exchange rates, export costing, official sources of trade financing and cash flow planning.

Prerequisites: Finance 2132 or 3227.

INBU 3304 – Global Supply Chain Management

(3 credits) 3 hours lecture

Logistics involve the steps taken to get your products to market. Logistics can be a source of competitive advantage; both speed and efficiency of delivery are key elements affecting marketing and financing. In this course, you will learn ways to deliver your product better, cheaper and faster than your competitors. Topics include commercial documentation, government documents, regulatory compliance, health and environment issues, transportation and customs clearance.

INBU 3305 – International Market Entry Strategies

(3 credits) 3 hours lecture

Success in international trade means that your product must get into the hands of prospective customers in the most efficient, safe and cost-effective manner possible. Topics in this course include distribution channels, partnering, barriers to entry, market entry strategies, managing a joint venture, investment-based strategies and exit strategies.

INBU 3306 – International Trade Research

(3 credits) 3 hours lecture

Effectiveness in international trade depends greatly upon developing an in-depth understanding of your target markets. International Trade Research will help you discover how to evaluate import and export opportunities, source market information, analyse data and define research objectives. Topics include Management Information Systems for international trade, using databases, applications of trade research and competitor intelligence.

INBU 3307 – International Trade Law

(3 credits) 3 hours lecture

Gain a clear understanding of international laws and regulations and examine key legal issues that may have implications for your expansion into the global marketplace. Topics in International Trade Law include international business agreements, Canadian contract law, public trade law, international sale of goods and product liability and insurance.

INBU 4408 – International Trade Management

(3 credits) 3 hours lecture

The emergence of a global economy has challenged traditional assumptions about management. For companies seeking to penetrate worldwide markets, the skills learned in International Trade Management could mean the difference between success and failure. Topics include sources of market information, international business planning, applications of trade research and competitor intelligence, including benchmarking the competition, building an international work force, operating a trade office and managing international assets.

Prerequisite: International Business 3301, 3302, or consent of the department.

INBU 2299, 3399 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ITALIAN (ITAL)

ITAL 1101 – Beginners' Italian (formerly ITAL 2201)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course is designed for students with no previous knowledge of the language, and provides training in the comprehension, speaking, reading and writing of Italian. Upon successful completion of the course, students will be able to carry on an elementary conversation and read basic texts in Italian. Elements of Italian culture will also figure prominently in the teaching of the language.

ITAL 1103 – Beginners' Italian II (formerly ITAL 2203)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course will provide students with the opportunity to further develop their oral, reading and writing skills. It also allows them to gain a more in-depth understanding of Italian culture.

Prerequisite: Italian 1101 or equivalent.

ITAL 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

JAPANESE (JPNS)

JPNS 1105 – Beginners' Japanese I (formerly JPNS 2205)

(3 credits – TG) 4 hours lecture, 1 hour lab

Basic concepts of modern Japanese. Reading and writing of characters, essentials of grammar, basic vocabulary, and oral drills on normal speech patterns.

JPNS 1107 – Beginners' Japanese II (formerly JPNS 2207)

(3 credits – TG) 4 hours lecture, 1 hour lab

Continuation of Japanese 1105.

Prerequisite: Japanese 1105 or consent of the department.

JPNS 2209 – Japanese Culture

(3 credits) 3 hours lectures

This course will provide a comprehensive introduction to the geography, nature, history and social life of Japan. Students will explore the modern and traditional aspects of Japan through family, society and the arts. Classroom activity will be augmented by cultural activities.

Note: This course is taught in English; no knowledge of Japanese and no prerequisites are expected.

JPNS 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

LANGUAGES (LANG)

LANG 2231 – Languages of Canada (formerly LANG 3331)

(3 credits – TG) 3 hours lecture

This course is an introduction to the socio-linguistic picture of modern Canadian society. It is based on the analysis of history and contemporary life of various Canadian linguistic communities using different languages to develop and build their cultures as well as to communicate.

LATIN AMERICAN CULTURES (LAST)

LAST 1101 – Introduction to Contemporary Latin American Cultures

(3 credits) 3 hours lecture

This course provides an overview of Latin American regional similarities and cultural differences through the study of contemporary indigenous peoples, the Iberian heritage and contemporary national cultures. Students will explore many forms of artistic expression, including literature, architecture and popular culture. The aim is the development of cultural understanding of the various societies in Hispanic America.

LAST 2201 – Cultures of South America

(3 credits) 3 hours lecture

This course is a continuation of Introduction to Contemporary Latin American Cultures 1101. It offers a more in-depth study of the societies in South America from a Latin American perspective. Students will explore and analyse a variety of cultural contexts and forms of expression.

Prerequisite: Latin American Cultures 1101.

LAST 2202 – Cultures of Mexico, Central America and the Caribbean

(3 credits) 3 hours lecture

This course is a continuation of Introduction to Contemporary Latin American Cultures 1101. It offers a more in-depth study of the societies of Mexico, Central America and the Caribbean from a Latin American perspective. Students will explore and analyse a variety of cultural contexts and forms of expression.

Prerequisite: Latin American Cultures 1101.

LINGUISTICS (LING)

LING 1111 – The Nature of Language I (formerly LING 2211)

(3 credits – TG) 3 hours lecture

This course provides a survey of the field of theoretical linguistics: its content, techniques, and objectives through the solution of problems from selected languages. Topics include articulatory phonetics and phonology; words and their meaning; and the formation of sentences.

LING 1113 – The Nature of Language II (formerly LING 2213)

(3 credits – TG) 3 hours lecture

This course provides a survey of the field of applied linguistics; its content, techniques, and objectives. Topics include language in historical and social context; language change and variation; language families; writing systems; language acquisition; and psycholinguistics.

Prerequisite: Linguistics 1111

LING 2201 – Syntax I

(3 credits) 3 hours lecture

This course provides an overview of the theory and methodology of syntactic analysis, using English as a primary example. Topics will include syntactic categories, grammatical, thematic and structural relations, and syntactic movement.

Prerequisite: Linguistics 1111 with a minimum grade C-

LING 2207 – Second Language Acquisition (formerly LING 3311)

(3 credits) 3 hours lecture

This course offers an overview of linguistic perspectives on second language acquisition and their implications for second language teaching. Topics will include: the nature of language proficiency; language and the mind; and the roles of first language and universal grammar in learning a second language.

Prerequisite: Linguistics 1113.

LING 2215 – Phonology I

(3 credits) 3 hour lecture

This course is an introduction to the theory and practice of phonological analysis. Topics may include the classical phoneme, features and their organization, underlying and surface representations, rules and derivations, syllabic and metrical structure.

Prerequisites: Linguistics 1111

LING 2221 – Modern English Grammar (formerly LING 3321)

(3 credits – TG) 3 hours lecture

A comprehensive exploration of contemporary English. The course is based on modern linguistic analysis, but also includes traditional grammatical terminology, as well as language change, attitudes to language varieties and problems in usage.

LING 2231 – First Language Acquisition (formerly LING 3331)

(3 credits – TG) 3 hours lecture

An overview of major issues and developmental patterns in child language acquisition.

Prerequisite: Linguistics 1111, 1113 (may be Co-requisite) or Psychology 1105 or equivalent.

LING 3315 – Language Typology

(3 credits) 3 hour lecture

This course introduces students to the methodology of language typology and presents an overview of the results of research in this field. Topics include an examination of the similarities and differences between languages, and the identification of common and rare characteristics found in language.

Prerequisites: Linguistics 1111.

Recommended Preparation: Linguistics 2201 and/or Linguistics 2215.

LING 3371 – Introduction to Psycholinguistics

(3 credits – TG) 3 hours lecture

An introduction to the field of Psycholinguistics; its findings, research orientations and methodologies.

Prerequisite: Linguistics 1111 or 1113.

LING 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

LOGISTICS AND SUPPLY CHAIN MANAGEMENT (LSCM)

LSCM 2010 – Directed Field Studies I

(15 credits)

This Directed Field Studies course requires students to be employed in a logistics or supply chain management position. The employer and placement must be approved by the work experience coordinator and the position must consist of at least 450 hours of work. Students will typically work in a supply chain function for an organization or in a company specializing in transportation, distribution, or logistics. Under the supervision of a faculty advisor, students must complete a series of applied research projects to relate their practical experience with their academic studies.

Prerequisites: Accounting 2121, Logistics and Supply Chain Management 2201, 3203 or 2203, 3303, 3305 and 3307. Successful completion of work experience professional development sessions.

LSCM 2201 – Introduction to Logistics and Supply Chain Management

(3 credits) 3 hours lecture

This course provides an overview of the importance of logistics and the supply chain process in determining the competitive success of an organization. Students will be introduced to the various components of the supply chain and their logistical requirements. Topics to be surveyed in this course include value process management, transportation management, purchasing, inventory management, demand forecasting, materials and warehouse management, enterprise resource planning (ERP), supply chain information systems, production and operations management, e-commerce, customer and supplier relations, quality assurance, outsourcing, third-party logistics and global productions.

LSCM 3010 – Directed Field Studies II

(15 credits)

This Directed Field Studies course requires students to be employed in a logistics or supply chain management position. The employer and placement must be approved by the work experience coordinator and the position must consist of at least 450 hours of work. Students will typically work in a supply chain function for an organization or in a company specializing in transportation, distribution, or logistics. Under the supervision of a faculty advisor, students must complete a series of applied research projects to relate their practical experience with their academic studies.

Prerequisites: Logistics and Supply Chain Management 2010, 4402 and 4403 or consent of the department. Successful completion of work experience professional development sessions.

LSCM 3203 – Principles of Quality Management

(3 credits) 3 hours lecture

This course provides an introduction to basic concepts, processes, and issues in quality management practices with respect to services, goods and information. Topics include planning, organizing and controlling for quality; the human aspects of quality; quality assurance and purchasing; ISO standards; and, continuous improvement and reengineering.

Prerequisite: Logistics and Supply Chain Management 2201, or consent of the department.

LSCM 3301 – Introduction to Physical Distribution

(3 credits) 3 hours lecture

The challenge of logistics is ensuring that the right products reach the right destination in the right condition, and at the right time. This course provides an overview of the various transportation modes and procedures in Canada. Topics include modes of transportation and intermodalism, intermediate agencies, and distribution methods such as warehousing, materials handling and unitization.

LSCM 3303 – Fundamentals of Purchasing

(3 credits) 3 hours lecture

Organizations are recognizing the value of purchasing beyond the basic transactional level. This course introduces students to the principles of purchasing, while addressing the impacts of technology, supply chain management and business strategy on purchasing in today's business environment. Other topics include procurement planning and procedures and supplier relations.

LSCM 3305 – Physical Distribution and Logistics

(3 credits) 3 hours lecture

Logistics and transportation are critical links in today's supply chain. Building on the fundamentals addressed in Logistics and Supply Chain Management 3301, this course explores the concepts of physical distribution and logistics, as well as addressing the specific areas of contracts, loss and damage, dangerous goods, marine insurance, Canada Customs, international trade and the transportation regulatory environment.

Prerequisite: Logistics and Supply Chain Management 3301.

LSCM 3307 – Introduction to e-Business

(3 credits) 3 hours lecture

This course examines the impact technological changes have made on the face of business. This course encompasses Internet technology, the nature of e-business competition, and underlying economics of e-business to provide a comprehensive look at how businesses survive and thrive on the Internet. Topics include web and Internet fundamentals, e-business models, customer interface, and marketing and e-business strategy.

Prerequisite: Marketing 2150 or consent of the department.

LSCM 4402 – Inventory and Warehouse Management

(3 credits) 3 hours lecture

Through the application of sound materials management principles, students will be equipped to develop and implement strategic inventory and warehousing plans. The course is broken into two components; inventory management and warehouse management. Inventory management topics include inventory functions, demand forecasting, aggregate and production planning, master production and materials requirements planning, and lean or JIT inventory management. Warehouse management topics include facility layout, retrieval technologies, performance benchmarking, safety, security, and risk management.

Prerequisites: Logistics and Supply Chain Management 3303 and 3305, or consent of the department.

LSCM 4403 – Operations Management

(3 credits) 3 hours lecture

This course is a survey of the decision processes in production and operations management, and the relationship to other business areas. Topics covered include forecasting, product and service design, capacity planning, waiting line models, facility location and layout, process selection, design of work systems, linear optimization, quality inspection and control, life cycle management, inventory management, aggregate planning, material requirements planning, project operations management, and operations scheduling.

Prerequisite: Management 2263.

LSCM 4407 – Business Negotiations/Project Management

(3 credits) 3 hours lecture

This course provides an overview of the basic principles of interest-based bargaining and project management. The first part of the course will focus on the basics of interest-based bargaining and how those skills can be applied to supply chain management in a global environment. The second part of the course focuses on the input/output tools and techniques necessary to take a project from inception to completion. The students will also learn how to operate project management software for budgeting and scheduling purposes.

Prerequisite: Logistics and Supply Chain Management 2201 or Management 3276, or consent of the department.

LSCM 4409 – Supply Chain Decision-Making

(3 credits) 3 hours lecture

Participants in this course will solve various applied business problems in logistics and supply chain management. Emphasis will be on the application of critical evaluation and judgment, together with skills from the foundation disciplines in prerequisite courses, to formulate innovative business solutions for integrated case study scenarios.

Prerequisite: Logistics and Supply Chain Management 4402 or consent of the department.

LSCM 4411 – Integrated Business Solutions

(3 credits) 3 hours lecture

This course demonstrates how to apply selected information technologies for supply chain management. Emphasis will be upon identifying, assessing and using the best available software to enable enhanced performance within an overall enterprise based systems environment. Participants will be exposed to a menu of commonly used software applications including Enterprise Resource Planning tools, transactional e-commerce packages, inventory management systems, materials supply and purchasing tools, planning and scheduling packages, demand forecasting and collaborative supply chain applications.

Prerequisites: Logistics and Supply Chain Management 3305 and 4402 or consent of the department.

MANAGEMENT (MGMT)

MGMT 2130 – Management Principles and Practices

(3 credits – TG) 3 hours lecture

This course is a comprehensive and practical study of the major functions that comprise management processes, and the constraints within which the manager must operate. The focus (through the use of case studies and experiential exercises) is on how to perform these functions in an ethical and socially responsible manner to maximize productivity within the constraints of the organizational environment. A strong emphasis is put on understanding and identifying ethical dilemmas in the business world.

MGMT 2131 – Introduction to Business Administration

(3 credits – TG) 3 hours lecture

This course introduces the functional areas of business and the integration of these areas for effective and efficient operation of organizations in a variety of sectors. Emphasis is placed on effective team work skills, research skills, and decision-making skills.

MGMT 2262 – Business Statistics I

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course introduces descriptive and inferential statistical analysis while emphasizing thinking skills and computer literacy. Topics include descriptive statistics, probability theory, simple random samples, discrete and continuous random variables, the central limit theorem, confidence intervals, and hypothesis testing. This course will emphasize the application of statistical analysis to business situations, the understanding of which will be further enhanced through exposure to current statistical computer software.

MGMT 2263 – Business Statistics II

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This is the second course in applied statistical analysis as offered in the Bissett School of Business. This course examines inferential statistical analysis while emphasizing thinking skills and computer literacy. Topics include parametric and nonparametric hypothesis testing procedures. Simple and multiple regression analysis will also be examined and applied to business situations. The understanding of the course material will be further enhanced through exposure to both manual and computerized methods using current statistical computer software.

Prerequisite: Management 2262.

MGMT 2275 – Creativity in the Workplace

(3 credits) 3 hours lecture

In this course, students will gain an understanding of the concept of creativity—its nature, complexity, and relationship to major components present in any environment. They will analyze their own creative strengths and weaknesses, and will learn and practice tools to improve their creative competence. Through various learning activities, learners will develop an appreciation for why we need to learn about, and practice, creativity.

MGMT 3210 – Business Communication Theory and Practice

(3 credits – TG) 3 hours lecture

Students will develop their abilities for writing business letters, memoranda, reports, and for preparing and delivering oral presentations. Students will develop an understanding of strategic communications by exploring both internal and external organizational communication strategies.

Prerequisite: English 1101/General Education 1401 or General Education 1402 or any 1100-level English or higher.

MGMT 3230 – Business Law

(3 credits – TG) 3 hours lecture

Students will gain experience in legal problem solving with emphasis on legal issues involving business. The core of the course requires critical legal thinking in the following areas: agreements, liability, property rights, constitutional rights, and different ways to set-up businesses and non-profit activities. Additional topics will vary from semester to semester and may include crime, consumer protection, commercial transactions, creditor and debtor relations, and other timely legal topics.

Note: Only one of Entrepreneurship 3331 or Management 3230 can be used to satisfy program requirements.

MGMT 3265 – Management Information Systems

(3 credits – TG) 3 hours lecture

This course focuses on the role of information technology in an organization and its application to business problems. Techniques for designing, implementing and managing information systems are presented. Topics covered include hardware and software, file management, database organization, networking and telecommunications, systems development and design, flowcharting, system security, backup and recovery, and artificial intelligence.

Prerequisite: Accounting 2120 or 2121.

MGMT 3269 – Project Management

(3 credits) 3 hours lecture

This course introduces students to project management. Content includes concepts, principles, and the inputs, outputs, tools and techniques necessary to take the project from inception to completion. Students will learn, using PMBoK (Project Management Body of Knowledge), how to initiate a project, plan for its completion, monitor and control the project during implementation, and closing the completed project. Projects will be developed that are industry specific and will be used to allow students to take a project from inception to completion.

MGMT 3276 – Organizational Behaviour

(3 credits – TG) 3 hours lecture

This course provides an examination of the behaviour of people in organizations. Emphasis will be placed on the application of theory through group interaction and case studies. Topics include: individual behaviour, group behaviour, leadership, motivation, conflict resolution, and organizational culture.

Prerequisite: Management 2130.

MGMT 3353 – Business Integration

(3 credits) 3 hours lecture

This integrative course develops the applied skills associated with the implementation of business strategies across an organization. It focuses on evaluating the competitive environment and the internal resources that are associated with a small firm or a functional unit. From that understanding, students will explore how a manager or a divisional supervisor helps contribute to creating a competitive position for the firm. The course also helps students understand the integration of different organizational functions. Given the emphasis on the daily decisions of a manager, students will be able to understand and experience the challenges in running a company, through business-case discussions and an on-line simulation.

Prerequisites: Accounting 2121, Human Resources 2170, Management 2130, and Marketing 2150.

MGMT 4230 – Advanced Business Law

(3 credits) 3 hours lecture

From a broad based understanding of legal principles and problem solving gained in MGMT 3230 students will learn theory and develop skills in the following legal subjects: contract interpretation, drafting, and management; secured transaction and creditors rights; legal research and preparing briefs of the law; consumer protection; environmental protection; international business; and E-commerce and the law.

Prerequisite: Management 3230.

MGMT 4402 – Corporate Social Responsibility

(3 credits) 3 Hours Lecture

This course deals with the interrelationship of corporate social responsibility, corporate integrity, organizational culture, corporate strategy and organizational management/leadership. Topics covered may include: fair-trade and globalization and other converging and emerging ideas about the continuing evolution of CSR.

Prerequisite: Management 3276.

MGMT 4403 – Environmental Management & Sustainable Development

(3 credits) 3 hours lecture

This is an advanced management course that introduces students to the issues, concepts, problems and processes of environmental management. Various management topics will be discussed including the design, implementation, and operation of an Environmental Management System, the tools of environmental management, and the concept of Sustainable Development. Students will gain an understanding of management processes and concepts and their application to the field of environmental management. Specific environmental issues will also be discussed and their relationship to the management of an organization.

MGMT 4407 – Governance and Ethical Issues in Organizations

(3 credits – TG) 3 hours lecture

This course will focus on the decisions faced by strategic leaders in the organization, and their impact on the actions taken by managers and employees of the organization. Emphasis will be placed on assessing the competing interests between social and personal values. Additional topics will include workplace practitioners and pressures, the natural environment, and the broader well-being of the society in which the organization exists. Cases in governance and ethical issues will be used to support the learning activities of this course.

MGMT 4408 – Financial Risk Management

(3 credits – TG) 3 hours lecture

The focus of this course is on understanding the creation of economic value in a firm by managing exposure to risk with the use of specific financial instruments, such as the use of derivatives and hedging strategies to manage currency and interest rate risks. Additional topics may include the quantification and management of market risk, credit risk and operational risk; the examination and testing of various financial models; and the tax consequences of financial decisions.

Prerequisite: Finance 3227 or Administration 1227.

MGMT 4431 – Leadership Development (formerly ENTR 4431)

(3 credits – TG) 3 hours lecture

The course offers a balanced integration of theory and practice of skills generally accepted as necessary to leaders of small enterprises and other organizations. The course is designed to help guide individuals in developing specific personal management competencies. Topics include problem solving, decision-making, team building, initiating and managing change, organization, and managing conflict.

Prerequisite: Human Resources 2170 or Entrepreneurship 2237.

MGMT 5333 – Strategic Management

(3 credits – TG) 3 hours lecture

This capstone course develops the conceptual and applied skills associated with analyzing a competitive situation from a general management point of view. It addresses issues affecting the fundamental direction of the firm, considers the formulation and implementation of strategy, focuses on the extent to which different aspects of the firm fit with key environmental forces, and discusses the organization's ability to leverage its unique core competencies. The course views the organization holistically and, as such, goes beyond the mere integration of specific organizational functions.

Prerequisites: Management 3276, Marketing 2150, Human Resources 2170, and Accounting 3224, Finance 3227 and Logistics & Supply Chain Management 4403.

MGMT 2299, 3399 – Directed Readings

See Directed readings which are listed alphabetically in this section of the calendar.

MARKETING (MKTG)

MKTG 2150 – Introduction to Marketing

(3 credits – TG) 3 hours lecture

This course provides an introduction to the fundamental concepts and principles of marketing including an introduction to the 4 P's or marketing mix - product, price, place and promotion. Upon successful completion of this course, the student will have the ability to: evaluate customer wants and needs; analyze and interpret market research; link trends in the environment to marketing decisions; develop a customer or target market profile for a product (good, service or idea); and communicate a marketing strategy effectively in visual, verbal and written formats. This course serves as the foundation for subsequent marketing courses.

MKTG 2154 – Professional Selling

(3 credits – TG) 3 hours lecture

This course provides an in-depth study of the sales process: prospecting, presenting, meeting objections and closing. Emphasis is placed on understanding the sales process and developing the skills necessary for successful selling. Using information access and retrieval skills, a complete sales presentation is developed and presented to the class.

MKTG 3253 – Retail Management

(3 credits – TG) 3 hours lecture

This course provides an introduction to the nature, scope, problems and challenges of retail management. The strategy and decision-making involved in location analysis, retail organization, merchandising and managing the retail mix is examined.

Prerequisite: Marketing 2150.

MKTG 3254 – Sales Management

(3 credits – TG) 3 hours lecture

This course provides an examination of the techniques of marketing and promotion, the direction and organization of sales personnel and the control of marketing costs. Students will discuss many of the business problems faced by an actual sales manager.

Prerequisites: Marketing 2150 and 2154.

MKTG 3255 – Services Marketing

(3 credits) 3 hours lecture

This course provides students with knowledge and understanding of the important differences between services organizations and manufacturing businesses, and focuses on the development and implementation of distinctive and innovative marketing strategies for services firms in the light of these differences.

Prerequisite: Marketing 2150.

MKTG 3256 – Advertising and Sales Promotion

(3 credits – TG) 3 hours lecture

Upon successful completion of this course, the student will be able to: understand the issues involved in planning integrated communication campaigns at a strategic and operational level; understand how to appraise the suitability of elements of the marketing communications mix for specified objectives; plan media effectively for a specified target audience; and evaluate the success of communication campaigns. The student will have the ability to prepare an effective fully integrated communications plan for a specified product or service.

Prerequisite: Marketing 2150.

MKTG 3257 – Business to Business Marketing

(3 credits – TG) 3 hours lecture

This course provides an examination of marketing in the business to business environment. Topics covered include organizational buying behaviour, evaluation of business markets and development of business to business marketing strategy. Students will have the opportunity to develop a trade show concept and exhibit the project to the class. Information access and retrieval skills are further developed in completing the project. The information must then be synthesized in order to draw conclusions, make decisions, solve problems and generate new ideas.

Prerequisite: Marketing 2150.

MKTG 3258 – Marketing Research

(3 credits – TG) 3 hours lecture

A study of the theory and application of marketing research is undertaken, including why marketing research is done and how it is used. The components of effective marketing research including proposals, research design, questionnaire design, collection of data, analysis and interpretation of results are introduced and applied in real-life situations. Students learn to use and evaluate various online sources of business information such as the Internet, Strategis, Statscan, Dialog and trade publications.

Prerequisite: Marketing 2150.

Pre or Co-requisite: Management 2262.

MKTG 4150 – Buyer Behaviour

(3 credits) 3 hours lecture

Buyer behaviour is a discipline that looks at why people buy the things they do. This marketing discipline applies knowledge from areas such as psychology, sociology, anthropology, and economics to describe and understand how buyers are likely to behave. This course examines the complex behavioural processes which determine buyer behaviour and customer relationship management. A variety of situations will be analyzed with special reference to individual and group influences. Database planning, design and creation will be covered, with a focus on the role of the database in a firm's marketing strategy emphasizing customer relationship building and servicing.

Prerequisite: Marketing 2150.

MKTG 4259 – Marketing Decision Making

(3 credits – TG) 3 hours lecture

This course uses a problem-solving approach to marketing concepts through case analysis and a business simulation. The course provides an in-depth examination of the decision-making necessary for marketing strategy formulation, product positioning, pricing, channel, marketing research, and promotion, and marketing for nonprofit organizations. The development of thinking skills is encouraged through activities such as distinguishing fact from opinion, challenging assumptions and recognising bias in yourself and others. Communication of ideas both verbally and in writing is required.

Prerequisites: Marketing 2150 and 3258.

MKTG 2299, 3399 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

MATHEMATICS (MATH)

MATH 0109 – College Preparation Math Refresher

(0 credits)

This is a credit-free upgrading course; special fees apply. This course is a math refresher geared for students who have been away from school and who need to revisit prealgebra concepts such as dealing with fractions, exponents and simple geometry.

MATH 0115 – Algebra Foundations

(0 credits) 5 hours lecture, 1 hour tutorial

This is a credit-free upgrading course; special fees apply. This course comprehensively covers the essential topics of algebra and the basic principles of geometry to an intermediate level. The course is designed to meet the needs of students who have a minimal background in algebra or whose proficiency may have declined during years away from formal education. Successful completion of this course prepares students for Mathematics 0130, where algebraic skills are utilized to study more advanced topics.

Corresponding Alberta High School Equivalent: Pure Mathematics 10/20.

MATH 0130 – Algebra and Trigonometry

(0 credits) 5 hours lecture, 1 hour tutorial

This is a credit-free upgrading course; special fees apply. Topics include: inequalities, properties of functions and graphs, polynomial functions, rational functions, exponential and logarithmic functions and trigonometric functions.

Corresponding Alberta High School Equivalent: Pure Mathematics 30.

Recommended Preparation: Mathematics 0115, Pure Mathematics 20 or equivalent.

MATH 0131 – Calculus and Matrices

(0 credits) 5 hours lecture

This is a credit-free upgrading course; special fees apply Part 1: Calculus – Limits, differentiation of sums, products and quotients (excluding exponential, logarithmic and trigonometric functions), the Chain Rule, application to curve sketching, maximum and minimum problems, motion, simple integration, area under a curve and area between curves. Part 2: Matrices – Systems of linear equations, operations with matrices, special matrices, the determinant function, inverses of matrices.

Corresponding Alberta High School Equivalent: Mathematics 31.

Recommended Preparation: Mathematics 0130, Pure Mathematics 30 or equivalent.

MATH 1102 – Introduction to Geometry

(formerly MATH 2102)

(3 credits) 3 hours lecture

Introduction to Geometry is a foundational course intended for an audience interested in geometry and its applications. We will introduce Euclidean geometry in two and three dimensions, along with analytic geometry. Popular topics such as symmetry, fractals or the golden ratio will also be covered.

MATH 1103 – Journey Through Statistics

(formerly MATH 2103)

(3 credits) 3 hours lecture

Journey through Statistics is a course intended for a general audience that is interested in statistical concepts in their every day life. Our course will be more qualitative than quantitative and its intention is to spark interest in statistics and probability as a discipline. The emphasis will be given to understanding statistical and probabilistic concepts as opposed to computational aspects.

MATH 1160 – Higher Arithmetic (formerly MATH 2160)

(3 credits – TG) 3 hours lecture

This course explores elementary number theory, numeration systems, operations on integers and rational number and elementary combinatorics using both inductive and deductive methods. Emphasis will be put on the development of clarity and understanding of mathematical processes and ideas, the application of these ideas to problem solving and the communication of these ideas to other people.

Prerequisite: Mathematics 30-Pure or the permission of the department.

MATH 1200 – Calculus for Scientists I

(formerly MATH 2249)

(3 credits – TG) 4 hours lecture, 1 hour tutorial

This course provides an introduction to calculus with some exposure to applications in the sciences. Topics covered will include algebraic operations, functions and graphs, transcendental functions, limits, derivatives, integrals and the fundamental theorem of calculus. Studying calculus will expose students to a variety of important mathematical ideas and help students develop their calculation, critical thinking and problem solving skills.

Prerequisite: A grade of 60% or higher in Pure Mathematics 30 or in Mathematics 0130, or a grade of C- or higher in any of Mathematics 1283 or 1285 or equivalent.

MATH 1202 – Calculus for Scientists II

(formerly MATH 2253)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to integral calculus and its applications. Methods of integration are studied and applied to the calculation of volumes, surface areas, arc lengths and work. Inverse trigonometric and hyperbolic functions, L'Hospital's Rule, first and second-order linear differential equations are also studied.

Prerequisite: Mathematics 1200 with a grade of C- or higher.

MATH 1203 – Linear Algebra for Scientists and Engineers

(formerly MATH 2211)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to linear algebra for science students. Topics covered are vector and matrix algebra, systems of linear equations, determinants, linear transformations, polar coordinates and complex numbers. Applications in the physical sciences are studied with the help of eigenvalues and eigenvectors.

Prerequisite: Pure Math 30 with a 60% or higher.

MATH 1205 – The Beauty of Mathematics

(3 credits – TG) 3 hours lecture

This course introduces the student to the skills of problem solving and critical thinking. Students are also exposed to some of the history, philosophy, ideas, and people in mathematics. An emphasis is placed on applications of mathematics to everyday life.

MATH 1211 – Concepts of Mathematical Statistics

(3 credits – TG) 4 hours lecture, 1 hour lab

This course involves descriptive statistics and a brief introduction to probability theory. A systematic treatment of inferential statistics is undertaken in this course. Topics include the inferences of one population and two population means and proportions, regression and correlation, and chi-square test.

Prerequisite: Pure Mathematics 30 or equivalent with a grade of 60% or higher; or Mathematics 0130, 1283 or 1285 with a grade of C or higher or consent of department.

Note: Only one of the Mathematics 1211, Mathematics 1224, Mathematics 2233 and Mathematics 2333 can be used for graduation purpose.

MATH 1217 – Calculus for Engineers and Scientists I

(3 credits – TG) 3 hours lecture, 1.5 hours tutorial

Functions, limits, continuity, derivatives, mean value theorem, integrals, fundamental theorem of calculus, applications in the physical sciences

Prerequisite: Pure Mathematics 30 with a grade of 65% or higher or Mathematics 0130 or equivalent with a grade of C or higher. Mathematics 31 or equivalent with a grade of 65% or higher or Mathematics 0131 with a grade of C or higher.

Note: Credit for more than one of Mathematics 1217, 2249, 2251 and 2285 will not be allowed.

MATH 1219 – Multivariable Calculus for Engineers

(3 credits – TG) 3 hours lecture, 1.5 hours tutorial

Techniques of integration, double and triple integrals, partial derivatives, applications.

Prerequisite: Mathematics 1217 with a grade of C- or higher.

Note: Credit for both Mathematics 1219 and 2253 will not be allowed.

MATH 1224 – Introduction to Statistics

(3 credits – TG) 4 hours lecture, 1 hour lab

This course involves descriptive statistics and some basic theory of probability including Bayes' Rule, expectation, probability distribution (binomial, Poisson, normal) and sampling distributions. Confidence interval and hypothesis testing are introduced.

Prerequisite: Pure Mathematics 30 or equivalent with a grade of 60% or higher; or Mathematics 0130, 1283 or 1285 with a grade of C or higher or consent of department.

Note: Only one of the Mathematics 1211, Mathematics 1224, Mathematics 2233 and Mathematics 2333 can be used for graduation purpose.

MATH 1225 – Statistical Inference

(3 credits – TG) 5 hours lecture

This course involves inferences concerning means, proportion and variance. Analysis of variance (one and two ways), regression and correlation analysis are also discussed as well as nonparametric statistics. Application of these statistics to problems in business, biology and social sciences is studied.

Prerequisite: Mathematics 1224 or consent of department.

MATH 1271 – Discrete Mathematics (formerly MATH 2271)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to symbolic logic, techniques of proof, sets, equivalence relations. There is also an exploration of mathematical induction, recursion, counting principles, graphs, and trees.

Prerequisite: Mathematics 1203 with a grade of C- or higher.

MATH 1281 – Precalculus I

(3 credits – TG) 5 hours lecture

A course which covers precalculus topics such as introduction to sets, mathematical systems, the basics of algebra, linear and quadratic equations, systems of equations and problem solving techniques.

MATH 1283 – Precalculus II

(3 credits – TG) 5 hours lecture

A course which covers precalculus topics such as systems of inequalities, introduction to linear programming with applications, functions and relations, graphs of polynomials and rational functions, coordinate geometry (straight line and circle), plane geometry and measurement in two or three dimensions.

Prerequisite: Pure Mathematics 30 or equivalent, or Mathematics 1281.

MATH 1285 – Precalculus III

(3 credits – TG) 5 hours lecture

A course which covers precalculus material such as trigonometric, exponential and logarithmic functions, inverse trigonometric functions, analytic geometry, sequences and series, the binomial theorem, mathematical induction.

Prerequisite: Pure Mathematics 30 or equivalent, or Mathematics 1283.

MATH 1505 – Puzzling Adventures in Mathematics (formerly MATH 2505)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is a problem-solving approach to discrete mathematics covering secret codes, public-key codes, error-correcting codes, applications of graph theory, and parallel algorithms. The material in the course is introduced and examined through the use of mathematical puzzles.

Prerequisite: A grade of C- or higher in any level one, cluster one, General Education course.

MATH 2101 – Abstract Algebra (formerly MATH 3315)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to abstract algebra with applications in cryptography. Topics studied include groups and rings, polynomial arithmetic and the division algorithm, and congruencies.

Prerequisite: Mathematics 1203 with a grade of C- or higher.

MATH 2207 – Mathematical Methods

(3 credits) 3 hours lecture, 1 hour tutorial

This course provides an introduction to solving systems of ordinary differential equations and ordinary differential equations with series solutions and also partial differential equations. Multivariable calculus basics including vector calculus, multiple, line and surface integrals will be covered, as are applications by exploring Green's theorem, Gauss's theorem, and Stokes' theorem.

Prerequisite: Mathematics 1202, and 1203, each with a minimum grade of C-.

MATH 2211 – Linear Methods I

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course involves descriptive statistics and a brief introduction to probability theory. A systematic treatment of inferential statistics is undertaken in this course. Topics include the inferences of one population and two population means and proportions, regression and correlation, and chi-square test.

Prerequisite: Pure Mathematics 30 or equivalent with a grade of 60% or higher; or Mathematics 0130, 1283 or 1285 with a grade of C or higher.

Note: Only one of the Mathematics 1211, Mathematics 1224, Mathematics 2233 and Mathematics 2333 can be used for graduation purpose.

MATH 2233 – Statistics for Biological Sciences

(3 credits) 3 hours lecture, 1 hour tutorial

This course involves descriptive statistics, some probability theory and a systematic treatment of inferential statistics. Topics include inferences of population means and proportions, regression and correlation, chi-square test, analysis of variance. Applications of these statistical methods to problems in biological and health sciences are studied.

Prerequisite: Mathematics 1200 with a grade of C- or higher.

Note: Only one of the Mathematics 1211, 1224, 2233 and 2333 can be used for graduation purpose.

MATH 2235 – Statistics with Applications in Geology

(3 credits) 3 hours lecture, 1 hour tutorial, 1 hour lab

This course involves probability theory, discrete and continuous random variables and probability distributions. A systematic treatment of inferential statistics is undertaken. The topics include estimation and hypotheses testing, analysis of variance, linear regression and correlation. Applications of these statistical methods to problems in geological science are studied. Statistical computer software is used in this course.

Prerequisite: Mathematics 1200 with a grade of C- or higher.

MATH 2251 – Calculus I

(3 credits – TG) 4 hours lecture

This course is designed for students with some previous exposure to calculus. Topics including functions and graphs, transcendental functions, limits, derivatives, integrals and the fundamental theorem of calculus with emphasis on why the theorems and formulae are true and how they can be applied. By studying calculus, students will improve their critical thinking and problem solving skills and gain insight into the discipline of mathematics.

Prerequisite: Pure Mathematics 30 or equivalent with a grade of 65% or higher; or Mathematics 0130, 1283 or 1285 with a grade of "B-" or higher; and Mathematics 31 with a grade of 50% or higher, or Mathematics 0131 with a grade of "D" or higher.

Note: Credit for more than one of Mathematics 1200, 1217, and 2251 will not be allowed.

MATH 2285 – Calculus with Applications

(3 credits – TG) 3 hours lecture, 2 hours lab

This course is an introduction to calculus with an emphasis on applications in sciences. Problem solving is a major component of this course.

Prerequisite: Pure Math 30 with a grade of 60% or higher or equivalent.

Note: Credit for more than one of Mathematics 1200, 1217, 2251, and 2285 will not be allowed.

MATH 2301 – Calculus III (formerly MATH 3349)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is a continuation of the calculus stream. Convergence of sequences and series are studied, along with Taylor polynomials, curves and surfaces in three dimensions, multivariate functions and differentiation and Lagrange multipliers. Applications include three dimensional mechanics.

Prerequisites: Mathematics 1202 and 1203 a grade of C- or higher.

MATH 2302 – Calculus IV (formerly MATH 3353)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

Functions of several variables are thoroughly studied in this course. The focus is on multivariate integration and differentiation, through the study of the theorems of Green, Gauss, and Stokes. Approximation, optimization techniques, and applications to fluid dynamics are also examined.

Prerequisite: Mathematics 2301 with a grade of C- or higher.

MATH 2311 – Linear Algebra II (formerly MATH 3311)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to abstract vector spaces and subspaces. Projections and best approximations are studied with the help of the Gram-Schmidt algorithm. Other topics that are studied are population dynamics, Fourier analysis, and eigenvalues and eigenvectors.

Prerequisite: Mathematics 1203 with a grade of C- or higher.

MATH 2321 – Mathematical Probability (formerly MATH 3321)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course involves probability theory, discrete and continuous random variables. Topics also include mathematical expectation, variance, moments, moment generating functions and the central limit theorem. There is a discussion of inferential statistics: estimation, confidence interval, and hypothesis testing procedure.

Prerequisite: Mathematics 1202 with a grade of C- or higher.

MATH 2323 – Introduction to Mathematical Statistics (formerly MATH 3323)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

Central limit theorem. Sampling distributions. F and t distributions. Estimation. Hypothesis tests (proportions, means, variance, chi-square). Method of moments. Maximum likelihood estimators. Concept of minimum variance unbiased estimators. Neyman-Pearson lemma. Likelihood ratio tests. Elementary regression and correlation.

Prerequisite: Mathematics 2321 with a grade of C- or higher.

Co-requisite: Mathematics 2302.

MATH 2333 – Statistics for Life Sciences (formerly MATH 3333)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course involves exploratory data analysis; a brief introduction to probability theory and inferential statistics. Topics include inferences on population means and proportions, chi-square test, regression and correlation. Applications of these statistical methods to problems in medical and health sciences are studied.

Prerequisite: Pure Mathematics 30 or equivalent, or department approval.

Note: Only one of the Mathematics 1211, 1224, 2233 and 2333 can be used for graduation purpose.

MATH 3101 – Numerical Analysis (formerly MATH 3361)

(3 credits – TG) 3 hours lecture, 2 hours tutorial

In this course, the theory and practice of numerical computational procedures to solve practical problems will be studied. Methods for solutions of nonlinear equations, solutions of simultaneous linear equations, curve fitting, solution of the eigenvalue problem, interpolation and approximation, numerical differentiation and integration, solution of ordinary and partial differential equations are included. The laboratory includes the application to elementary problems and the computer solution of comprehensive problems.

Prerequisite: Mathematics 3307 with a minimum grade of C-, or equivalent or consent of the department.

MATH 3303 – Topics in Applied Mathematics and Data Analysis

(3 credits) 3 hours lecture, 2 hours lab

Techniques of applied mathematics are a great asset and an important quantitative tool for scientists. The course gives an introduction to Discrete Fourier transform, Fast Fourier Transform, filter design and wavelet analysis. Statistical data analysis and stochastic processes are also discussed. These topics will be addressed through their applications to the natural sciences.

Prerequisites: Mathematics 1202 and Mathematics 1203 with a minimum grade of C-.

MATH 3307 – Differential Equations

(3 credits – TG) 3 hours lecture, 1.5 hours tutorial

Classification of ordinary differential equations, first order equations with applications, second order equations with applications, series solutions about regular and singular points, special functions. Laplace transforms, linear systems of differential equations.

Prerequisite: Mathematics 1219 with a grade of C- or higher.

MATH 3309 – Mathematics for Engineers IV

(3 credits – TG) 3 hours lecture, 1.5 hours tutorial

Functions of several variables, partial derivatives, Chain Rule and differentials. Vector calculus, with line and surface integrals; Green's, Gauss' and Stokes' Theorems.

Prerequisite: Mathematics 1219 with a grade of C- or higher.

MATH 3325 – Theory of Interest

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course involves probability theory, discrete and continuous random variables. Topics also include mathematical expectation, variance, moments, moment generating functions and the central limit theorem. There is a discussion of inferential statistics: estimation, confidence interval, and hypothesis testing procedure.

Prerequisite: Mathematics 1202 with a grade of C- or higher.

Note: Credit will be given for only one of Engineering 1319, Management 1262/1263, Mathematics 1211, 1224, 1225, 3333; the University of Calgary Anthropology 307, Educational Psychology 511/513, Engineering 319, Political Science 399, Psychology 312, Sociology 311, 312, Statistics 201/211, 213/217, 333, 343/347, 357.

MATH 4101 – Abstract Algebra II

(3 credits) 3 hours lecture, 1 hour tutorial

This course is a continuation of the study of abstract algebra. Topics from the theory of groups, rings, and fields are covered. Specific topics include the fundamental theorem of finite abelian groups, polynomial rings, ideals and factor rings, finite fields, and extension fields.

Prerequisite: Mathematics 2101 with a grade of C- or higher.

MATH 4102 – Analysis I

(3 credits) 3 hours lecture, 1 hour tutorial

This course can be viewed both as a continuation of the calculus stream, and as a first course in real analysis. Topics will include the topology of Euclidean space, continuity and differentiability of vector-valued functions, the implicit function theorem, and Fourier series with applications to partial differential equations.

Prerequisite: Mathematics 2302 or Mathematics 2207 with a grade of C- or higher.

MATH 4103 – Complex Analysis

(3 credits) 3 hours lecture, 1 hour lab

This course involves functions of a complex variable, complex series, Cauchy's theorem and contour integration. Residue Theorem and its applications will be studied. An introduction to Fourier integrals and the Heisenberg inequality are also covered.

Prerequisite: Mathematics 2302 with grade of C- or higher.

MATH 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

MICROBIOLOGY (MIBI)**MIBI 1211 – Microbiology for the Health Care Professional**

(3 credits) 3 hours lecture, 1 hour lab

This course will examine the structure/function relationships in microorganisms and how these relationships are expressed in host-parasite interactions. Microbial diseases of specific organ systems will be examined as will host response mechanisms.

Recommended Preparation: Biology 30, Chemistry 30 or equivalent, or consent of the department.

MIBI 1217 – Environmental Microbiology

(3 credits) 2 hours lecture, 3 hours lab

This course provides an introduction to microbial structure and function, the role of microbes in the environment, and the use of microbes in bioremediation and the production of biofuels. The laboratory component of the course provides the student with hands-on training in microbiological techniques.

MIBI 2201 – Microbiology I (formerly MIBI 3343)

(3 credits – TG) 3 hours lecture, 3 hours lab

This course provides an introduction to microbiology, with emphasis on prokaryotes: their evolution, structure, genetics, metabolism, growth and nutrition. Students will also be introduced to some of the applications of microbiology in medicine, industry, and environmental science. The laboratory provides students with practice culturing, studying and identifying microorganisms using aseptic, microscopic and biochemical techniques.

Prerequisites: Biology 1202 and Chemistry 1202 or equivalent, with grades of C- or higher.

MIBI 3105 – Microbiology II

(3 credits) 3 hours lecture

This course provides students with an opportunity to delve more deeply into topics introduced in Microbiology I. Concepts in microbial genetics, metabolism, ecology, and pathogenicity will be developed, and various applications of microbiology in medicine and industry will be explored.

Prerequisites: Microbiology 2201, Biochemistry 2201 and Biology 2202, or equivalents, with grades of C- or higher.

MUSIC (MUSC)

MUSA – .5 Hour Private Instruction*

MUSB – 1 Hour Private Instruction*

MUSC – Lecture and Performance Courses

MUSD – 1.5 Hours Private Instruction (restricted to Music Diploma students)

All music courses must be chosen in consultation with the Mount Royal University Conservatory.

* Most music courses may be arranged on a private lesson basis. In the event of low enrolment in certain courses, an hourly rate as established by the Mount Royal University Conservatory will apply.

MUSC 1104 – Chamber Ensemble I

(2 credits – TG) 2 hours lecture

This course involves the playing of chamber music (quartets and trios) appropriate to the student's instrument and coaching by a faculty member.

MUSC 1108 – Repertoire/Literature I

(2 credits – TG) 2 hours lecture

This course provides a study of solo literature for the student's principal instrument. This will be done in small classes grouped according to instrument families (strings, woodwinds, brass, piano, voice). Literature may be played by the students in class and augmented by recordings where necessary.

MUSC 1109 – Theory of Music I

(3 credits – TG) 2 hours lecture, 2 hours lab

This course explores the theoretical fundamentals of music. Harmony, melody, and rhythmic elements will be explored in detail. Focus will be placed on the development of basic aural, sight-singing and rhythmic skills with an emphasis on melodic materials from the modal and tonal styles.

Prerequisite: Consent of the department.

MUSC 1110 – Music Exploration I

(3 credits – TG) 3 hours lecture

Exploration of the art of music and its materials is undertaken in this course. The emphasis is on the development of listening skills beginning with obvious features and moving to more specific aspects of particular styles and types of music. Examples will be drawn from a variety of styles – classical and popular, past and present – and will coordinate with musical events in Calgary during the current semester.

MUSC 1115 – Choir I

(1 credit – TG) 3 hours practicum

This choir performs a variety of literature from different periods and styles. Some vocal instruction is given in the context of the rehearsal, but the primary purpose is to present the singers with a broad selection of music and prepare it for public concerts.

Prerequisite: Permission of the Conductor. Audition required.

MUSC 1119 – Orchestra I

(1 credit – TG) 3 hours practicum

Emphasis is placed on playing together as a group. Instruction in good ensemble playing will be given. Students supply their own instruments except those not commonly owned privately.

Prerequisite: A playing level of Grade VIII from any recognized conservatory. Audition required.

MUSC 1120 – Chamber Ensemble II

(2 credits – TG) 2 hours lecture

This course is a continuation of Music 1104.

MUSC 1121 – Repertoire/Literature II

(2 credits – TG) 2 hours lecture

This course is a continuation of Music 1108.

MUSC 1123 – Theory of Music II

(3 credits – TG) 2 hours lecture, 2 hours lab

This course is a continuation of Music 1109. It will develop skills in Harmonic Analysis with focus on Western Classical Music. Melodic development and principles of counterpoint, classical, and contemporary forms will also be introduced. Focus will be placed on the development of basic aural, sight-singing and rhythmic skills with an emphasis on harmonic materials from the tonal styles. Multi-meter and cross rhythms will be introduced.

Prerequisite: Music 1109 or consent of the department.

MUSC 1214 – Choir II

(1 credit – TG) 3 hours practicum

This course is a continuation of Music 1115.

Prerequisite: Music 1115.

MUSC 1215 – Choir III

(1 credit – TG) 3 hours practicum

This course is a continuation of Music 1214.

MUSC 1216 – Choir IV

(1 credit – TG) 3 hours practicum

This course is a continuation of Music 1215.

MUSC 1219 – Orchestra II

(1 credit – TG) 3 hours practicum

This course is a continuation of Music 1119.

MUSC 1220 – Orchestra III

(1 credit – TG) 3 hours practicum

This course is a continuation of Music 1219.

MUSC 1221 – Orchestra IV

(1 credit – TG) 3 hours practicum

This course is a continuation of Music 1220.

MUSC 1230 – Chamber Ensemble III

(2 credits – TG) 2 hours lecture

This course is a continuation of Music 1120.

MUSC 1231 – Repertoire/Literature III

(2 credits – TG) 2 hours lecture

This course is a continuation of Music 1121

MUSC 1234 – Jazz History I

(3 credits – TG) 3 hours lecture

This course familiarizes the student with the history of Jazz, from its early beginnings to current jazz practices, in the context of the prevailing social and economic conditions of the day. The principle exponents and various styles including BeBop, Cool Jazz, 3rd Stream Music, Hard Bop, Free Jazz, Jazz Fusion/Jazz Rock will be examined in terms of their contributions to the development of Jazz and Popular music, with a view to fostering an appreciation and understanding of its role, value, influence on today's musical world and establishment of trends for the future.

Prerequisite: Consent of the department.

MUSC 1240 – Chamber Ensemble IV

(2 credits – TG) 2 hours lecture

This course is a continuation of Music 1230.

MUSC 1241 – Repertoire/Literature IV

(2 credits – TG) 2 hours lecture

This course is a continuation of Music 1231.

MUSC 2109 – Theory of Music III

(3 credits) 2 hours lecture, 2 hours lab

This course focuses on theoretical fundamentals required for the study of Harmonic, Melodic and Form Analysis in Common Practice Chromaticism, including advanced modulation and extended chords will be introduced. Focus will be placed on the development of basic aural, sight-singing and rhythmic skills with an emphasis on harmonic materials and melodic from the modal and extended tonal styles.

Prerequisite: Music 1123 or consent of the department.

MUSC 2123 – Theory of Music IV

(3 credits) 2 hours lecture, 2 hours lab

This course will focus on skill development in detailed structural analysis of repertoire from the entire Common Practice style period. Principles of form, harmony, melody and rhythm from other styles will also be introduced. Focus will be placed on the development of advanced aural, sight-singing and rhythmic skills with an emphasis on chromatic melodic materials and extended harmonies.

Prerequisite: Music 2109 or consent of the department.

MUSC 2201 – Introduction to Music History

(3 credits – TG) 3 hours lecture

This course is an overview of the history of western art music, by means of listening and analysis, from its beginnings in Medieval Europe to the present day. It includes units on the music of the Medieval, Renaissance, Baroque, Classical, Romantic and 20th Century eras (including the significant pop/jazz developments).

MUSC 2241 – History of Musical Style I

(3 credits – TG) 3 hours lecture

This course examines the history of western art music from its beginnings in Medieval Europe through the Renaissance.

Prerequisite: Music 2201.

MUSC 2251 – Jazz Theory I

(3 credits – TG) 2 hours lecture, 2 hours lab

This course introduces the student to the fundamentals of Jazz Theory and Composition which, combined with the development of supportive musical skills, will improve the student's ability to master jazz improvisation and to perform the different styles and concepts inherent in Jazz and Popular music. Focus will be placed on the development of basic aural, sight-singing and rhythmic skills with an emphasis on melodic materials from the modal and tonal styles.

Prerequisite: Music 1123 or consent of the department.

MUSC 2253 – Jazz Theory II**(3 credits – TG) 2 hours lecture, 2 hours lab**

This course is a continuation of Music 2251. It will continue to develop an understanding of the fundamentals of Jazz Theory and Composition, combined with the development of supportive skills, to further improve the student's ability to master Jazz improvisation and to perform with greater success the different styles and concepts inherent in Jazz and Popular music. Focus will be placed on the development of basic aural, sight-singing and rhythmic skills with an emphasis on harmonic materials from the tonal styles Multi-meter and cross rhythms will be introduced.

Prerequisite: Music 2251 or consent of the department.

MUSC 2261 – Jazz Composition and Arranging I**(2 credits) 2 hours lecture**

This course will cover practical arranging concepts and build a more extensive understanding of the application of jazz theory in arranging. Topics such as chord voicings, voice leading, voicing and transposition for horns, a linear approach to harmonization, arranging techniques for small jazz ensembles and writing for the rhythm section will be discussed.

Prerequisite: Music 1237 or equivalent.

MUSC 2263 – Jazz Composition and Arranging II**(2 credits) 2 hours lecture**

Further development and application of arranging concepts. Weekly orchestrations based on existing instrumentation and use a variety of techniques to create and perform personalized arrangements of different pieces.

Prerequisite: Music 2261.

MUSC 2281 – Jazz Improvisation I**(3 credits) 3 hours lecture**

Theory and techniques of jazz improvisation with an emphasis on functional harmony, melodic form, scales, tune studies, ear training, and development of style.

Prerequisite: Music 1237 or equivalent.

MUSC 2283 – Jazz Improvisation II**(3 credits) 3 hours lecture**

The application theory in jazz improvisation Functional harmony, melodic concepts, transcription form, ear training and the development of style all consistent in depth. Weekly assignments utilizing a variety of techniques will lend the student to improved soloing and understanding.

Prerequisite: Music 2281.

MUSC 3343 – History of Musical Style II**(3 credits – TG) 3 hours lecture**

This course examines the history of western art music from the Baroque era through Beethoven. Emphasis is on the evolution of musical style.

Prerequisite: Music 2241.

MUSC 3345 – History of Musical Style III**(3 credits – TG) 3 hours lecture**

This course examines the history of western art music from the Romantic period to the present day. Emphasis is on the evolution of musical style.

Prerequisite: Music 3343.

MUSC 1199, 1299 – Directed Readings

See Directed readings which are listed alphabetically in this section of the calendar.

MUSIC – PRIVATE LESSONS

Private lessons are available through the Mount Royal University Conservatory. Arrangements for instruction can be made through The Conservatory Office, Room W302, Telephone 403.440.6821. Due to the specialized nature of instruction, fees for these courses are billed at a higher rate than other University courses. Fees for the courses listed below and other private lessons may be obtained directly from. The Conservatory Office See section entitled **Special Fees** under **Fees and Deposits**. Lessons are offered in the areas listed below. A variety of instruction to meet individual needs can be arranged through. The Conservatory Office Principal and Secondary Instruments or Voice:

MUSA – .5 Hour Private Instruction**(1 credit – TG) lecture****MUSB – 1 Hour Private Instruction****(2 credits – TG) lecture****MUSD 1100 Level – Principal Instrument or Voice I****(3 credits) 1.5 hrs/wk Private Instruction**

The intent of this course is to focus on personal performance abilities. Through weekly one and a half hour lessons the qualified instructor will help each student master the elements of music through an in depth study of technical material and relevant musical literature. The student is expected to complete all assignments put forth by the instructor as well as an end of term performance and where applicable an end of year jury. Practice and attendance is necessary for success in this course.

Note: Restricted to Music Diploma students

MUSD 1200 Level – Principal Instrument or Voice II**(3 credits) 1.5 hrs/wk Private Instruction**

The intent of this course is to focus on personal performance abilities. Through weekly one and a half hour lessons the qualified instructor will help each student master the elements of music through an in depth study of technical material and relevant musical literature. The student is expected to complete all assignments put forth by the instructor as well as an end of term performance and where applicable an end of year jury. Practice and attendance is necessary for success in this course.

Note: Restricted to Music Diploma students

MUSD 1300 Level – Principal Instrument or Voice III**(3 credits) 1.5 hrs/wk Private Instruction**

The intent of this course is to focus on personal performance abilities. Through weekly one and a half hour lessons the qualified instructor will help each student master the elements of music through an in depth study of technical material and relevant musical literature. The student is expected to complete all assignments put forth by the instructor as well as an end of term performance and where applicable an end of year jury. Practice and attendance is necessary for success in this course.

Note: Restricted to Music Diploma students

MUSD 1400 Level – Principal Instrument or Voice IV**(3 credits) 1.5 hrs/wk Private Instruction**

The intent of this course is to focus on personal performance abilities. Through weekly one and a half hour lessons the qualified instructor will help each student master the elements of music through an in depth study of technical material and relevant musical literature. The student is expected to complete all assignments put forth by the instructor as well as an end of term performance and where applicable an end of year jury. Practice and attendance is necessary for success in this course.

Note: Restricted to Music Diploma students.

NATIVE STUDIES (NTST)

NTST 0130 – Introduction to Native Studies

(0 credits)

This course will provide an overview of Aboriginal world views and belief systems. Students will gain an awareness of similarities and differences among First Nations in the area of social organizations, spiritual beliefs and cultural practices.

NATURAL SCIENCE (NTSC)

NTSC 1112 – An Introduction to Current Environmental Issues

(3 credits – TG) 3 hours lecture

This course involves a current, comprehensive and holistic overview of critical environmental issues for non-science majors. The environmental issues explored in this course from various points of view will serve as a valuable and solid foundation for students, who will be making decisions that shape the future of their society.

NTSC 1115 – An Introduction to Forensic Science

(3 credits) 3 hours lecture, 3 hours lab

This course offers students an opportunity to gain an understanding of a variety of forensic techniques, ranging from blood pattern analysis and identification of human remains, to gas chromatography, and DNA 'fingerprinting'. Hands-on laboratory exercises will reinforce these concepts. Successful students will also gain insight into how the 'CSI Effect' has altered the relationship between science and the legal system.

NTSC 1201 – The Chemistry of Life and Death

(3 credits) 3 hours lecture, 1 hour tutorial

The student will be introduced to fundamental chemical principles, the importance of water to life, the bases of organic chemistry and biochemistry. Chemical changes that occur before and after death will be examined and the effects of thanatochemistry introduced.

Prerequisite: Biology 30, Chemistry 30 or equivalents, or consent of the department.

NTSC 1272 – Health in Today's World

(3 credits) 2 hours lecture, 1 hour tutorial

This course examines human health behaviour as a lifetime process of response and adaptation to the demands of an internal and external environment. The multi-disciplinary approach is designed to assist students as individuals and family members to acquire the knowledge to make healthy choices that will affect the quality of their lifestyle.

NTSC 2201 – Environmentally Sustainable and Healthy Societies

(3 credits – TG) 3 hours lecture

Every human being, every institution and every organization can make a difference in the quest for a sustainable and healthy future for humankind. This course will examine current practices that result in unhealthy societies and unsustainable environmental impacts and the changes that must be made in order to establish a sustainable and healthy future planet. Our future depends on managing our planet in ways that create sustainable relationships with our ecosystems.

NTSC 3301 – Environmental Health

(3 credits) 3 hours lecture

Many aspects of human health are affected by the environment, and many diseases can be initiated, promoted, sustained or stimulated by environmental factors. For that reason the interactions of people with their environment are an important component of public health. This course introduces students to the complexity of environmental health issues facing society today.

Prerequisite: Natural Science 2201 or Biology 1202 or Chemistry 3357 or Nursing 2279 or 3375 or consent of the department.

NTSC 3321 – Environmental and Developmental Legacy of Alberta's Oil and Gas Industry

(3 credits) 3 hours lecture

This course investigates the development of Alberta's oil and gas industry in relation to how it affects our environment and our socio-economic development. Topics covered include analyses of changes in the environmental and socioeconomic status of Alberta since the oil discovery; and how changes in petroleum technologies and petroleum policies affect our environment and our economy. These concepts will be illustrated by using case studies drawn from companies and agencies involved in the Alberta's oil and gas development.

NONPROFIT STUDIES (NPRO)

NPRO 2010 – Directed Field Studies I

(15 credits)

The Directed Field Studies course requires students to work for an employer in a nonprofit capacity. This on-the-job experience combined with faculty mentoring will enable students to become skillful at both personal and situational analysis and to demonstrate proficiency in multi-discipline and business applications. Students must complete a series of research projects to relate their practical experience with their academic studies. Students may, with prior approval, engage in a new nonprofit organizational startup.

Prerequisites: Nonprofit Studies 2201, 2247, and 3305 with minimum grades of C or higher, or consent of the department.

NPRO 2201 – Canada's Nonprofit Sector – Foundations

(3 credits) 3 hours lecture

This foundation course introduces the history of the nonprofit sector, its role in service delivery, and its composition. It will introduce basic concepts and vocabulary unique to Canada's nonprofit sector. Recent trends in the nonprofit sector will also be discussed.

NPRO 2247 – Introduction to Volunteer Management

(3 credits) 3 hours lecture

This course discusses the role of the volunteer in the community and within a nonprofit organization. Course material will include a brief history of voluntarism, the recruitment and training of volunteers, and the role of volunteers in the planning and delivery of community programs. Special attention will be paid to the unique aspects of managing volunteers, including risk management, retention, recognition, and incentives.

NPRO 3010 – Directed Field Studies II

(15 credits)

This course requires students to work for an employer in the nonprofit sector of the economy. Students will typically be employed in a nonprofit organization, in government, or in industry. This on-the-job experience combined with faculty mentoring will enable students to become skillful at both personal and situational analysis and to demonstrate proficiency in multi-discipline nonprofit and business applications. Students may, with prior approval, engage in a new nonprofit organizational startup. Students will build upon the experiences gained from their first work term and demonstrate a higher level of competency in the nonprofit sector.

Prerequisites: Nonprofit Studies 2010 and Management 4407 with minimum grades of C or higher, or consent of the department.

NPRO 3305 – Program Planning and Assessment for the Nonprofit Sector

(3 credits) 3 hours lecture

This course addresses program planning and assessment principles currently used in the nonprofit sector. It will equip students with the knowledge and skills necessary to create new programs and initiatives.

NPRO 4405 – Strategic Management for the Nonprofit Sector

(3 credits) 3 hours lecture

This course introduces the fundamentals of strategic planning and strategic management for the nonprofit sector. A variety of perspectives, models, and approaches to strategic planning are presented. Factors such as organizational leadership, culture, complexity, and dynamic issues external to the organization are covered.

Prerequisites: Nonprofit Studies 2010 or consent of the department.

NPRO 2299, 3399 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

NURSING (NURS)

NURS 1111 – Theoretical Foundations of Nursing I

(3 credits) 3 hours lecture, 12 hours – field study

This course introduces the curriculum framework concepts of person, nursing, health and environment and the Bachelor of Nursing program goals. Emphasis will be placed on the history and evolution of the concepts of health and nursing as a basis for understanding the profession of nursing and knowledge based practice. Students will participate in a field experience observing nurses in a variety of roles.

Pre or Co-requisites: Interdisciplinary Studies 1240 and Biology 1220.

Co-requisite: Nursing 1112.

NURS 1112 – Health Promotion with Individuals I

(3 credits) 2 hours lecture, 2 hours lab

The focus of this course will be on the individual's holistic experience of health within the context of family and health promotion. Students will integrate theory and practice of health assessment related to determinants and patterns of health, foundational nursing care principles and intervention strategies.

Pre or Co-requisites: Interdisciplinary Studies 1240 and Biology 1220.

Co-requisite: Nursing 1111.

NURS 1213 – Health Promotion with Individuals II

(3 credits) 2 hours lecture, 2 hours lab

This course is a continuation of Health Promotion for Individuals I. Additional focus will be placed on understanding the family and the individual's holistic experience of health and health promotion. Students will further integrate theory and practice of health assessment related to determinants and patterns of health, nursing care, teaching principles and intervention strategies.

Prerequisites: Nursing 1111 and 1112, Interdisciplinary Studies 1240 and Biology 1220.

Pre or Co-requisite: Biology 1221.

Co-requisite: Nursing 1214.

NURS 1214 – Professional Practice I

(3 credits) 105 hours practice experience

The primary focus is on supporting/promoting health in providing safe, focused and knowledgeable nursing care to individuals experiencing episodic illness. Students will apply their understanding of patterns of health in the context of the determinants of health, and primary health care principles using a variety of guided learning experiences.

Prerequisites: Nursing 1111 and 1112, Interdisciplinary Studies 1240 and Biology 1220.

Pre or Co-requisite: Biology 1221.

Co-requisite: Nursing 1213.

NURS 2111 – Theoretical Foundations of Nursing II

(3 credits) 3 hours lecture

This course continues exploration of the concepts of person, nursing, health and environment, with emphasis on holistic understanding of the individual's experience of illness in the context of the determinants of health, professional practice and primary health care. Students will also gain understanding of the local and national environments in which nurses practice.

Prerequisites: Nursing 1111, 1112, 1213 and 1214, Biology 1220, 1221, Interdisciplinary Studies 1240, Mathematics 2333 or Anthropology 3307, General Education 1101 or 1102 and 1401 or 1402.

Co-requisite: Nursing 2112, 2113 and 2114.

NURS 2112 – Alterations in Health: Nursing Knowledge and Therapeutics I

4 credits (4 hours lecture, 2 hours tutorial, 2 hours lab alternating weeks) x first half of semester

This course helps students to understand nursing care for diverse individuals experiencing alterations in health, using health promotion approaches and resources. Students integrate the principles of pharmacology, pathophysiology and related nursing practice knowledge, critical thinking and clinical judgment.

Prerequisites: Nursing 1111, 1112, 1213 and 1214, Biology 1220, 1221, Interdisciplinary Studies 1240, Mathematics 2333 or Anthropology 3307, General Education 1101 or 1102 and 1401 or 1402.

Co-requisite: Nursing 2111 and 2114.

NURS 2113 – Alterations in Health: Nursing Knowledge and Therapeutics II

3 credits (3 hours lecture, 2 hours tutorial, 2 hours lab alternating weeks) x second half of semester

This course occurs over the second half of a semester and is a continuation of Alterations in Health: Nursing Knowledge and Therapeutics I and helps students to understand nursing care for diverse individuals experiencing alterations in health, using health promotion approaches and resources. Students integrate the principles of pharmacology, pathophysiology and related nursing practice knowledge, critical thinking and clinical judgment.

Prerequisites: Nursing 1111, 1112, 1213, 1214 and 2112, Biology 1220, 1221, Interdisciplinary Studies 1240, Mathematics 2333 or Anthropology 3307, General Education 1101 or 1102 and 1401 or 1402.

Co-requisite: Nursing 2111 and 2114.

NURS 2114 – Professional Practice II

(6 credits) 210 hours practice experience

This course focuses on promoting the health of diverse individuals within the context of family and community from a holistic, interdisciplinary and collaborative partnership approach to care, considering primary health care principles. Students will apply pharmacology, pathophysiology, nursing practice knowledge, critical thinking and clinical judgment to care of adults experiencing illness in hospital settings. Students will integrate previous and current theoretical and practical knowledge.

Prerequisites: Nursing 1111, 1112, 1213 and 1214, Biology 1220, 1221, Interdisciplinary Studies 1240, Mathematics 2333 or Anthropology 3307, General Education 1101 or 1102 and 1401 or 1402.

Co-requisite: Nursing 2111, 2112 or 2113.

NURS 2215 – Health Promotion with Populations, Communities and Families

(3 credits) 3 hours lecture

This course focuses on the principles of population health, primary health care, health promotion and the determinants of health as a means of understanding populations, families, and communities and the larger social, political, cultural and economic factors that impact health. Students will interpret theoretical knowledge in order to make recommendations for nursing practice.

Prerequisites: Nursing 1111, 1112, 1213, 1214, 2111, 2112, 2113 and 2114, Biology 1220, 1221, Interdisciplinary Studies 1240, or Anthropology 3307, General Education 1101 or 1102 and 1401 or 1402.

Co-requisite or Prerequisite: Health Studies 2250, General Education 1201 or 1202 and 1301 or 1302.

Co-requisite: Nursing 2216.

NURS 2216 – Professional Practice III

(4 credits) – 145 hours practice experience

This course will provide opportunities for students to use a population health promotion model while working with diverse high-needs population groups across the lifespan. Students complete a population/aggregate assessment and develop a planned intervention considering the principles of primary health care and population health within a community setting. Students will integrate previous and current theoretical and practical knowledge.

Prerequisites: Nursing 1111, 1112, 1213, 1214, 2111, 2112, 2113 and 2114, Biology 1220, 1221, Interdisciplinary Studies 1240, or Anthropology 3307, General Education 1101 or 1102 and 1401 or 1402.

Co-requisite or Prerequisite: Health Studies 2250, General Education 1201 or 1202 and 1301 or 1302.

Co-requisite: Nursing 2215.

NURS 3102 – Adult Health

(3 credits) Variable lecture hours over 7 weeks

In this course students will use primary health care, considering population groups and influences, as a framework for promoting health, and providing holistic care for diverse adults and families experiencing complex acute and chronic illness. Students will examine effective collaborative relationships and inter-professional partnerships, advocacy, capacity building, critical thinking and clinical judgment in a variety of contexts.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201,1202 or 1203, and 1301 or 1304 and 1401,1402 or 1403.

Co-requisite: Nursing 3104.

NURS 3104 – Professional Practice in Adult Health

(4 credits) 144 hours clinical experience

In this course students will integrate primary health care and population health strategies promoting health and providing holistic care for a diversity of adults and families experiencing complex acute and chronic illness in a variety of hospital settings and contexts. Students will demonstrate evidence based, ethical, safe, and effective nursing care reflecting critical thinking, clinical judgment and collaboration while integrating previous and current theoretical and practical knowledge.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201,1202 or 1203, and 1301 or 1304 and 1401,1402 or 1403.

Co-requisite: Nursing 3102.

NURS 3112 – Family Newborn Health

(3 credits) Variable lecture hours over 7 weeks

In this course students will use primary health care, considering population groups and influences, as a framework for promoting health, understanding and caring for the unique needs of child bearing individuals and families. Students will examine effective community and family centered approaches to care considering collaborative relationships and inter-professional partnerships, advocacy, capacity building, critical thinking and clinical judgment in a variety of contexts.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201,1202 or 1203, and 1301 or 1304 and 1401,1402 or 1403.

Co-requisite: Nursing 3114.

NURS 3114 – Professional Practice in Family Newborn Health

(4 credits) 144 hours clinical experience

In this course students integrate primary health care and population health strategies promoting health and providing holistic care for child bearing individuals and families in a variety of settings and contexts. Students will demonstrate evidence based, ethical, safe, and effective nursing care reflecting critical thinking, clinical judgment and collaboration while incorporating community and family centered approaches. Students will integrate previous and current theoretical and practical knowledge.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201,1202 or 1203, and 1301 or 1304 and 1401,1402 or 1403.

Co-requisite: Nursing 3112.

NURS 3122 – Child Health

(3 credits) Variable lecture hours over 7 weeks

In this course students will use primary health care, considering population groups and influences, as a framework for promoting health, and providing holistic care for a diversity of children and families considering their unique needs. Students will examine effective community and family centered approaches to care, considering collaborative relationships and interprofessional partnerships, advocacy, capacity building, critical thinking and clinical judgment in a variety of contexts.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201,1202 or 1203, and 1301 or 1304 and 1401,1402 or 1403.

Co-requisite: Nursing 3124.

NURS 3124 – Professional Practice in Child Health

(4 credits) 144 hours clinical practice experience

In this course students integrate primary health care and population health strategies promoting health and providing holistic care for a diversity of children and families in a variety of settings and contexts. Students will demonstrate evidence based, ethical, safe, and effective nursing care reflecting critical thinking, clinical judgment and collaboration while incorporating community and family centered approaches. Students will integrate previous and current theoretical and practical knowledge.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201,1202 or 1203, and 1301 or 1304 and 1401,1402 or 1403.

Co-requisite: Nursing 3122.

NURS 3132 – Mental Health

(3 credits) Variable lecture hours over 7 weeks

In this course students will use primary health care, considering population groups and influences, as a framework for promoting health, and providing holistic care for a diversity of adults and families experiencing acute and chronic mental illness. Students will examine effective collaborative relationships and inter-professional partnerships, advocacy, capacity building, critical thinking and clinical judgment in a variety of contexts.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201,1202 or 1203, and 1301 or 1304 and 1401,1402 or 1403.

Co-requisite: Nursing 3134.

NURS 3134 – Professional Practice in Mental Health**(4 credits) 144 hours clinical experience**

In this course students integrate primary health care and population health strategies promoting health and providing care for a diversity of adults and families experiencing acute and chronic mental illness in a variety of settings and contexts. Students will demonstrate evidence based, ethical, safe, and effective nursing care reflecting critical thinking, clinical judgment and collaboration while integrating previous and current theoretical and practical knowledge.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201, 1202 or 1203, and 1301 or 1304 and 1401, 1402 or 1403

Co-requisite: Nursing 3132.

NURS 3142 – Seniors' Health**(3 credits) Variable lecture hours over 7 weeks**

In this course students will use primary health care, considering population groups and influences, as a framework for promoting health, providing holistic care and understanding the unique needs of a diversity of older adults and their families. Students will examine effective community and family centered approaches to care, considering collaborative relationships and interprofessional partnerships, advocacy, capacity building, critical thinking and clinical judgment in a variety of contexts.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201, 1202 or 1203, and 1301 or 1304 and 1401, 1402 or 1403.

Co-requisite: Nursing 3144.

NURS 3144 – Professional Practice in Seniors' Health**(4 credits) 144 hours clinical experience**

In this course students integrate primary health care and population health strategies promoting health and providing holistic care for a diversity of older adults and families in a variety of settings and contexts. Students will demonstrate evidence based, ethical, safe, and effective nursing care reflecting critical thinking, clinical judgment and collaboration while incorporating community and family centered approaches. Students will integrate previous and current theoretical and practical knowledge.

Prerequisites: All previous Nursing 1100, 1200, 2100, and 2200 level courses, Interdisciplinary Studies 1240, Health 2250, Psychology 2235, Physical Education 2007, General Education 1101 or 1102, and 1201, 1202 or 1203, and 1301 or 1304 and 1401, 1402 or 1403.

Co-requisite: Nursing 3142.

NURS 4111 – Leadership, Trends and Issues in Nursing**(4 credits) 4 hours lecture**

In this course students will examine concepts of leadership and critically appraise the changing social, geo-political and health care environments that influence the nursing profession, nursing practice and health. Students will develop appropriate strategies that will strengthen their capacities to influence and respond to current trends and issues.

Prerequisites: All previous Nursing 1100, 1200, 2100, 2200 and 3100 level courses, General Education 1101 or 1102, 1201 or 1202 and 1301 or 1302.

Co-requisite: Nursing 4112 and Nursing 4XXX.

NURS 4112 – Integrated Professional Practice**(3 credits) 120 hours clinical experience (full time over 3-4 weeks)**

This course is a consolidation experience in which students use health promotion and primary health care approaches to provide holistic care to a diversity of adults and families experiencing illness in acute hospital settings. Students will exemplify evidence based, ethical, safe and effective nursing care, and demonstrate critical thinking, caring inquiry, reflection and collaborative practice, while integrating previous and current theoretical and practical knowledge. The course prepares students for the transition to autonomous practice in NURS 5114.

Prerequisites: All previous Nursing 1100, 1200, 2100, 2200, and 3100 level courses, General Education 1101 or 1102, 1201 or 1202 and 1301 or 1302.

Co-requisite: Nursing 4111 and Nursing 4XXX.

NURS 4113 – Advanced Theoretical Perspectives in Professional Practice**(3 credits) 3 hours lecture**

This course provides students the opportunity to explore the theoretical perspectives of various nursing specialties, unique populations and healthcare settings. Selected topics in this course vary from semester to semester. Check with an academic advisor for details.

Prerequisites: All previous Nursing 1100, 1200, 2100, 2200 and 3100 level courses, General Education 1101 or 1102, 1201 or 1202 and 1301 or 1302.

Co-requisite: Nursing 4111 and 4112.

NURS 4465 – Supportive Environments For Mental Health**(3 credits) 3 hours lecture - Internet delivery**

This course focuses on developing supportive environments that contribute to mental health of individuals and local and global communities. This course intends to meet a need for awareness and understanding of these broad connections. In this course, theoretical concepts set the stage for mental health practice explorations. The notion of supportive environments provides a conceptual shift from problem solving to facilitating empowerment, from protection to liberation, and from exclusion to inclusion.

Prerequisite: All previous Nursing 1100, 1200 and 2100 level courses or consent of the department.

NURS 5114 – Transition to Independent Practice**(10 credits) 370 hours clinical experience**

This precepted experience provides opportunity for students to demonstrate a full scope of professional nursing practice. Students will care for selected persons (individual, family, community, population) in a variety of nursing practice settings, using health promotion, primary health care and population health strategies. Students will exemplify evidence based, ethical, safe and effective nursing care, and demonstrate critical thinking, caring inquiry, reflection, autonomy and collaborative practice in preparation for graduation. It is expected that the student will integrate all previous theoretical and practical knowledge.

Prerequisites: Nursing 4111, Nursing 4112, Nursing 4XXX

NURS 5583 – Independent Professional Practice Specialty Focus**(10 credits) 370 hours clinical experience**

This course provides opportunity for professional development in the application, integration and synthesis of knowledge, skills and attitudes in a nursing practice setting. Emphasis is on complexity of nursing care with clients (individuals, families and/or aggregates).

Prerequisite: Prior to enrolling in N5583, students must have completed all courses (i.e. MRC and AU nursing and non-nursing courses and Arts and Science Requirements).

PHILOSOPHY (PHIL)**PHIL 1101 – Philosophy: Knowledge and Existence (formerly PHIL 2201)****(3 credits – TG) 3 hours lecture, 1 hour tutorial**

This course provides an introduction to philosophy through the discussion of selected topics such as: skepticism, perception, personal identity, free will and determinism and God.

**PHIL 1149 – Philosophy: Values and Ethics (formerly PHIL 2249)****(3 credits – TG) 3 hours lecture, 1 hour tutorial**

This course provides an introduction to philosophy through a first enquiry into the nature and justification of moral standards.

**PHIL 1175 – Reason and Argument (formerly PHIL 2275)****(3 credits – TG) 3 hours lecture, 1 hour tutorial**

This course offers an introduction to deductive and inductive techniques used in appraising arguments. The course may contain some elementary formal logic, but its main focus will be on analyzing arguments as they occur in everyday life and ordinary language.

**PHIL 1179 – Introduction to Symbolic Logic
(formerly PHIL 2279)**

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course introduces sentential and first-order logic from both deductive and semantic points of view. Some elementary metatheorems are also discussed.

**PHIL 2211 – The Classical Period
(formerly PHIL 3301)**

(3 credits – TG) 3 hours lecture

An introduction to philosophy through the study of a period in its history. A selection of philosophers from the Pre-Socratics, through Plato and Aristotle, to the Hellenistic and Roman philosophers will be discussed.

Recommended Preparation: Philosophy 1101 or 1149.

**PHIL 2215 – The Early Modern Period
(formerly PHIL 3305)**

(3 credits – TG) 3 hours lecture

This course is an introduction to philosophy through the study of a period in its history. A selection of philosophers from Descartes through Kant will be discussed.

Recommended Preparation: Philosophy 1101 or 1149.

**PHIL 2219 – Philosophy of Law
(formerly PHIL 3319)**

(3 credits – TG) 3 hours lecture

An investigation of philosophical accounts of the nature of law and legal systems. Acquaints the students with central positions in jurisprudence, such as the nature of law, the relationship of law to morality, punishment, rights, and justice.

Recommended Preparation: Philosophy 1149.

**PHIL 2221 – Metaphysics
(formerly PHIL 3321)**

(3 credits – TG) 3 hours lecture

An examination of such topics as categories, existence, persons, space, time, necessity.

Recommended Preparation: Philosophy 1101.

PHIL 2223 – Bio Ethics (formerly PHIL 3313)

(3 credits – TG) 3 hours lecture

A critical and analytical examination of ethical and legal problems arising in and about health care. Issues to be considered may include: euthanasia, abortion, the conditions for the withdrawal of treatment, the physician-patient relationship, research on human subjects, and genetic engineering. The practical applications of ethical and legal theory are emphasized.

PHIL 2229 – Business Ethics (formerly PHIL 3329)

(3 credits – TG) 3 hours lecture

A critical and analytical examination of some central moral problems that arise in and for business. Emphasis throughout the course will be placed not only on the details of the particular problems studied but also on the conceptual and other tools needed to understand and resolve or solve such problems. Topics to be discussed will include: the moral responsibilities and rights of corporations and their officers, codes of business ethics, and conflicts of responsibilities and rights.

**PHIL 2237 – Feminist Philosophy
(formerly PHIL 3337)**

(3 credits – TG) 3 hours lecture

Issues in feminist philosophy and methodology. Topics may include feminist theories of knowledge and science, ethics, metaphysics, political theory and feminist methodology.

Recommended Preparation: Philosophy 1101 or 1149.

PHIL 2241 – Existentialism

(3 credits) 3 hours lecture

Existentialist thought is a historical movement in philosophy. It is also a methodology of philosophy that explores and demonstrates the significance of human existence itself. This course serves as an introduction to existentialist methods, debates, and concepts, as well as to significant existentialist thinkers.

**PHIL 2253 – Social and Political Philosophy
(formerly PHIL 3353)**

(3 credits – TG) 3 hours lecture

In this course some of the fundamental issues in social and political thought are studied. Issues to be studied may include rights, justice, authority, equality, freedom, democracy, property, liberalism, the family and communitarianism.

**PHIL 2263 – Theory of Knowledge
(formerly PHIL 3363)**

(3 credits – TG) 3 hours lecture

A study of some of the central problems in epistemology, including the following: knowledge and belief, empirical (perceptual and inductive) knowledge, a priori knowledge, appearance and reality, truth, and skepticism.

Recommended Preparation: Philosophy 1101.

**PHIL 2267 – Philosophy of Science
(formerly PHIL 3367)**

(3 credits – TG) 3 hours lecture

For students in any discipline who would like to understand some of the fundamental principles of scientific enquiry and the place of scientific discoveries in human knowledge. Topics will include: scientific explanation, theory, prediction, confirmation, and, when feasible, other material relating to the interests of the students in the course.

Recommended Preparation: Philosophy 1101, 1175 or 1179.

**PHIL 2281 – Philosophy of Mind
(formerly PHIL 3381)**

(3 credits – TG) 3 hours lecture

A study of topics such as: thought, emotions, action and the will, mind-body identity, personal identity, and theories about the nature of mind.

Recommended Preparation: Philosophy 1101.

**PHIL 2291 – Philosophy and the Environment
(formerly PHIL 3391)**

(3 credits – TG) 3 hours lecture

Traditional and contemporary philosophical theories and methods will be brought to bear on issues raised by the relationship between human beings and their environment. Moral and other philosophical aspects of some major issues, such as pollution, population growth, and use of natural resources, will be considered.

**PHIL 3307 – Analytic Philosophy
(formerly PHIL 2217)**

(3 credits – TG) 3 hours lecture

This course consists of a study of the motivations and positions of Analytical Philosophy, a movement that formed the basis of twentieth century English-language Philosophy. The course will examine some of the central concepts of Analytic Philosophy and their historical roots.

Prerequisite: Any course in Philosophy.

PHIL 3333 – Philosophy of Art (formerly PHIL 2233)

(3 credits – TG) 3 hours lecture

This course consists of an examination of the criteria and concepts employed in aesthetic evaluation. Aesthetics deals primarily with the concepts of art and beauty and with our evaluative judgments about them.

Prerequisite: Any course in Philosophy.

PHIL 3345 – Topics in Moral Theory (formerly PHIL 2245)

(3 credits – TG) 3 hours lecture

This course consists of an investigation of selected central theories in moral philosophy. In any given term, the course may focus on general theories or concepts, for example contemporary metaethics, utilitarianism, or theories of rights. Sometimes it may focus on a particular set of problems, such as moral personhood, freewill, or moral responsibility.

Prerequisite: Any course in Philosophy.

PHIL 3350 – Topics in Continental Philosophy

(3 credits) 3 hours lecture

This course examines key figures, methods and debates within continental philosophy. While its focus may vary, the course serves as an introduction to themes such as desire and embodiment, anxiety and despair, freedom and choice, transcendence and immanence, social oppression and resistance, cultural and religious difference.

Prerequisite: One of Philosophy 1101, 1149, 1175, 1179, 2241, 2211, 2215, 2219, 2221, 2223, 2229, 2237, 2253, 2263, 2267, 2281, 2291, 3307, 3333, 3345.

PHIL 3199, 4199 – Directed readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

PHYSICAL EDUCATION (PHED)

PHED 1001 – Human Anatomy (formerly PHED 1224)

(3 credits – TG) 3 hours lecture, 3 hours lab

This course provides a systematic survey of the structure of the human body. Topics include: cells and tissues of the body; the anatomy of the skeletal, articular, muscular, digestive, respiratory, urinary, reproductive, circulatory, nervous, integumentary and endocrine systems. Labs are designed to provide practical demonstrations that parallel the material discussed in the lectures.

Note: To obtain transfer credit, Physical Education 1001 must be completed with a grade of C- or higher before enrolling in Physical Education 3001.

PHED 1003 – Historical and Philosophical Foundations in Sport and Culture (formerly PHED 2243)

(3 credits – TG) 3 hours lecture

This course provides an examination of the cultural meanings of sport, leisure, and physical education; and the place of the body in our culture both historically and in the present.

PHED 1005 – Leadership and Communication in Physical Education (formerly PHED 2211)

(3 credits – TG) 3 hours lecture

This course presents the theory and application of leadership and interpersonal communication skills as they apply to large and small groups in the field of physical activity and sport.

PHED 1007 – Critical Thinking and Research Methods (formerly PHED 2213)

(3 credits – TG) 3 hours lecture

A study of the use of the analytical approach to communication with emphasis on information gathering, problem solving, search processes, describing and analysing data and applying critical thinking to the discipline of physical education and kinesiology.

PHED 1050 – Practicum I in Sport, Recreation, and Physical Activity

3 credit hours (175 hours of practicum)

This is a formal industry experience with an assigned organization in the sport, recreation, and/or physical activity industries. Participants will be required to participate in the specified hours of practicum and to complete assignments. Students will be accepted into the practicum upon completion of the course prerequisites and/or consent of the department chair.

Prerequisites for the Practicum include the following courses: Physical Education 1203 and 1216 and Recreation Studies 1247; Entrepreneurship 2301; Marketing 2150 with an overall grade point average of 2.0.

PHED 1171 – Introduction to Outdoor Pursuits

(3 credits – TG) 3 hours lecture

This course will survey the history, principles, philosophy, rationale and vocational opportunities of outdoor pursuits. Students will become familiar with fundamental camping and navigation techniques as the cornerstones of outdoor living. Participation is required in one weekend.

PHED 1201 – Foundations of Sport and Recreation

(3 credits) 3 hours lecture

This course provides an introduction to the history and philosophy of sport/ physical activity and its relationship to culture. The focus will be the significance of the body and the human movement phenomenon. The emphasis is to provide a foundation for further research in physical activity and sport.

PHED 1203 – Organization and Administration of Sport and Recreation

(3 credits – TG) 3 hours lecture

This course is a study of the principles and practices of administration and management of sport and recreation. Students will learn administrative (management) process and its relationship to other organizational functions such as communication, leadership, governance, evaluation and human resource management. Various organizational designs and structures available to sport and recreation administrators will be explored. Other topics include risk management, finances of sport and recreation organizations and running efficient meetings.

PHED 1215 – Lifetime Leisure Activities

(3 credits – TG) 3 hours lecture

This course provides an exposure to a variety of lifetime physical and leisure skills. It includes a variety of individual, dual and team, physical activities; cultural and social recreational activities; managing and planning leisure time; and an introduction to personal health associated with lifetime leisure pursuits.

Note: An additional lab fee of \$40 will be charged for this course.

PHED 1216 – Program Planning for Physical Activity and Sport

(3 credits – TG) 3 hours lecture or 6 hours lecture for 7 weeks

An in-depth study of the theory, methods, techniques, and skills used in planning physical activity and sport programs. Topics include principles of program planning; identification of program needs; program planning in specific settings; and program evaluation.

PHED 1219 – Recruiting and Training Volunteers in Physical Activity and Sport

(3 credits – TG) 6 hours lecture per week for 7 weeks

A study of the role of the volunteer in physical activity and sport. The focus will be on the principles and strategies of recruiting and training volunteers for physical activity and sport programs.

PHED 1222 – Physical Activity and Sport – Promotion and Sales

(3 credits – TG) 3 hours lecture

An examination of the promotion component of marketing. Concepts and strategies of promotion will be studied, these include; advertising, publicity, personal selling, and sales presentation as applied to physical activity and sport programs, products and services.

PHED 1225 – Organization and Administration of Sport

(3 credits – TG) 3 hours lecture

This course provides an examination of the role, function and relationships of the administrator of athletic programs, their responsibilities to the athlete, coach, spectators, sponsor and the program. It is designed to give a philosophical overview as well as practical administrative skills to the sports and athletic program administrator.

PHED 1239 – Introductory Badminton

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is an introductory course in badminton with the emphasis on skills, teaching and coaching strategies as well as the organization of clinics and tournaments.

PHED 1249 – Introductory Tennis

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is an introductory course in tennis with the emphasis on skills, teaching and coaching strategies and the organization of clinics.

PHED 1259 – Fundraising in Physical Activity and Sport

(1.5 credits – TG) 3 hours lecture for 7 weeks

An insight into the ways and means by which support (financial and otherwise) may be obtained and sustained for physical activity and sport programs. The emphasis will be on strategies, planning methods and the implementation techniques associated with fundraising efforts.

PHED 1293 – Introductory Aquatic Lifesaving

(3 credits – TG) 3 hours lecture

Students will learn techniques of first aid, artificial respiration and other emergency care procedures required to assist a victim of an aquatic emergency. Students will also learn and perfect life saving skills related to water rescue. The Lifesaving Society Bronze Medallion and Bronze Cross Awards will be available to students who successfully meet all evaluation criteria.

Prerequisite: Students must be comfortable in deep water and be able to swim 200 metres continuously.

Note: Students will be responsible for payment of fees to outside organizations when the issue of a certificate involves a fee.

PHED 1295 – Water Safety Instructor

(3 credits – TG) 3 hours lecture

This course includes a comprehensive study of the techniques of teaching swimming, water safety and life saving. Other aquatic activities such as aqua aerobics, diving, competitive swimming and snorkelling will be introduced. Students must demonstrate competent swimming, rescue and artificial respiration skills.

Prerequisite: Current Lifesaving Society Bronze Medallion or higher award or consent of the department.

Note: Students will be responsible for payment of fees to outside organizations when the issue of a certificate involves a fee.

PHED 1296 – Advanced Aquatic Life Saving

(3 credits – TG) 4 hours lecture

Lifeguarding techniques for pools, basic first aid techniques and various emergency situations in aquatics will be studied. Students must meet the requirements for the Lifesaving Society National Lifeguard Service and Aquatic Emergency Care Award, Standard First Aid and Basic Cardiopulmonary Resuscitation Awards.

Prerequisite: Current Lifesaving Society Bronze Cross Award.

Note: Students will be responsible for payment of fees to outside organizations when the issue of a certificate involves a fee.

PHED 1297 – Basic SCUBA

(3 credits – TG) 3 hours lecture

This is a comprehensive course designed to prepare students for SCUBA diving certification. It includes diving physics and medicine as well as optional open water dives.

Prerequisite: Medical certificate, Bronze Medallion or consent of the department.

Note: Students will be responsible for payment of fees to outside organizations when the issue of a certificate involves a fee. An additional lab fee of \$50 will be charged for this course.

PHED 2001 – Introductory and Intermediate Coaching (formerly PHED 3331)

(3 credits – TG) 3 hours lecture

This course provides exposure to motor learning, growth and development, philosophy, psychology, public relations, administration and training methods as it pertains to coaching. Students will be introduced to the material included in the National Coaching Certification Program Part A and Part B of the Multi-Sport Competitive Coach Stream.

PHED 2003 – Physical Growth and Motor Development

(3 credits) 3 hours lecture

This course will provide the student with an understanding of the physical changes that occur during the growth period from childhood to adolescence. Particular attention will focus on the impact of physical maturation and development as related to physical activity, exercise and skill acquisition. The influence of growth and development on the design and instruction of physical activity programs will be explored.

PHED 2005 – Sport & Exercise Psychology (formerly PHED 2253)

(3 credits – TG) 3 hours lecture

This course provides an introduction to the psychosocial concepts underlying an understanding of human behaviour in physical activity, sport and health. This course is divided into two equal components. The first examines the perspective of Exercise and Health Psychology, while the second uses the perspective of Personality and Social Psychology.

PHED 2007 – Introductory Nutrition (formerly PHED 2237)

(3 credits – TG) 3 hours lecture

This course will provide the student with a basic understanding of the role of nutrition in health and fitness. By surveying the basics of human nutrition, and considering practical applications, the student will be prepared to apply nutrition guidelines to their individual nutrition needs and those of specialized populations.

PHED 2102 – Basketball (formerly PHED 1235)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is a comprehensive course in basic basketball skills, knowledge, teaching methods and team strategy.

PHED 2104 – Introductory Power Skating and Hockey Coaching (formerly PHED 1269)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is a theoretical and practical course on power skating techniques and ice hockey skills. The student will learn how to teach skating and organize hockey sessions for skill development. Topics include: proper use of biomechanical principles in skating; proper use of edges; drills to develop skating skills and techniques to develop necessary strength and power both on and off the ice. The student will be shown the proper execution of all basic hockey skills – shooting, passing, stickhandling and checking – and will be taught proven teaching progressions for each.

PHED 2106 – Soccer (formerly PHED 1271)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is a comprehensive course in basic soccer skills, knowledge, officiating and team strategy. Indoor and outdoor play will be covered. Lecture time will be spent on organizing tournaments, teaching methods and officiating the game of soccer.

PHED 2108 – Introductory Golf (formerly PHED 1229)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is an introductory course in golf with the emphasis on skills, rules, safety, etiquette, the care and selection of equipment and the organization of recreational activities.

PHED 2110 – Volleyball (formerly PHED 1237)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is a comprehensive course in basic volleyball skills, knowledge, teaching methods and team strategy. Students will learn how to organize and administrate volleyball tournaments and league play as well as prepare a comprehensive scouting report. Students will practice specific volleyball skills apart from class time.

PHED 2201 – The Essence and Experience of Physical Activity

(3 credits – TG) 3 hours lecture

This course investigates the fundamental factors, which influence the physical activities we choose, and the kinaesthetic principles governing how we move. Active participation in a variety of movement experiences (novel and familiar) will be an essential component of this course. This course will establish the fundamental kinaesthetic, physical and management parameters of physical activity.

PHED 2203 – Fundamental Fitness and Measurement

(3 credits – TG) 3 hours lecture, 2 hours lab

This is a foundation course in physical fitness incorporating the basic theory, testing and application of physical fitness, nutrition and weight control knowledge. It involves a lecture/lab presentation in which students will design personal fitness programs, apply the programs, test their progress and evaluate the results.

PHED 2228 – Flexibility and Relaxation (formerly PHED 1242)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is an introductory course, which will focus on developing a conceptual framework for utilizing flexibility and relaxation, in relation to overall fitness and personal well-being. A variety of relaxation techniques will be explored and incorporated in practical ways.

PHED 2255 – Elementary School Physical Education I

(3 credits – TG) 3 hours lecture

A comprehensive course involving aspects of the modern elementary school physical education program with a particular emphasis on movement experiences in games. Off campus travel is required for some field-work observation.

PHED 2257 – Elementary School Physical Education II

(3 credits – TG) 3 hours lecture

A comprehensive course involving aspects of the modern elementary school physical education program with particular emphasis on movement experiences in dance and gymnastics. Some off campus travel is required for practical experience.

PHED 2261 – Facility Development and Organizing Special Events

(3 credits – TG) 3 hours lecture

This course focuses on both the facility development and management of facilities including a focus on strategies for organizing and managing special events. This course will provide a viable and practical how-to approach to facility management, development, and the organization of special events in physical activity and sport.

PHED 2304 – Introduction to Strength Training (formerly PHED 1145)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is a practical course in strength training with emphasis on skill and safety and the design of basic personal strength training programs.

PHED 2308 – Cardiovascular Training (formerly PHED 1241)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This course is designed to both improve the cardiovascular fitness of the student and, at the same time, familiarize him or her with theoretical knowledge and training regimens.

PHED 2367 – Physical Activity for Special Populations (formerly PHED 3367)

(3 credits – TG) 3 hours lecture

This course provides an examination of specific problems within the psychomotor domain and the related delivery systems for their identification and amelioration. This is an applied course that focuses on the issues and challenges of providing physical activity experiences for persons with a disability.

Prerequisite: Physical Education 1001.

PHED 2402 – Backpacking (formerly PHED 1252)

(1.5 credits – TG) 3 hours lecture for 7-8 weeks

This course is an exposure to the skills, knowledge and attitudes necessary for trail hiking, off trail rambling and below treeline camping in the backcountry. Harmonious and minimal impact living and walking in the natural environment is a major priority. Participation is required in one weekend.

PHED 2404 – Introductory Rock Climbing (formerly PHED 1253)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is an introductory course in rock climbing with the emphasis on the skills necessary for easy lead climbing. Use will be made of indoor and outdoor facilities.

PHED 2406 – Back Country Skiing (formerly PHED 1258)

(1.5 credits) 3 hours lecture for 7-8 weeks

This course is an introduction to the basic skills and knowledge of back country skiing. Participation is required in one weekend of fieldwork.

PHED 2408 – Mountain Bike Trekking (formerly PHED 1255)

(1.5 credits – TG) 3 hours lecture for 7-8 weeks

This course is designed to provide students with the ability to demonstrate basic skills regarding safety, mountain bike maintenance and repair, riding technique and planning for back country touring. Participation is required in one weekend.

PHED 2410 – Wilderness Survival Techniques (formerly PHED 1173)

(1.5 credits – TG) 3 hours lecture for 7-8 weeks

This course prepares students to handle emergency situations in the Canadian climate. Participation is required in one weekend.

PHED 2412 – Introductory Swimming (formerly PHED 1290)

(3 credits – TG) 3 hours lecture

Students will understand and perfect the front crawl, back crawl, breaststroke, elementary back stroke, sidestroke and butterfly. Water entries, self-rescue skills, basic first aid and Cardio Pulmonary Resuscitation will also be covered in the course. Students will be introduced to other aquatic recreation activities such as skin diving, aquasizes and water games.

Prerequisite: Students enrolling in the course must be comfortable in deep water and be able to swim 100 metres continuously.

Note: Students will be responsible for payment of fees to outside organizations when the issue of a certificate involves a fee.

PHED 2414 – Introductory Canoeing (formerly PHED 1250)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is an introductory course in canoeing with the emphasis on basic techniques, equipment, safety precautions, group dynamics and leadership skills. Students may be involved in moving water situations.

Prerequisite: Students must be able to swim 100 metres.

PHED 2416 – Introductory Kayaking (formerly PHED 1251)

(1.5 credits – TG) 3 hours lecture for 7 weeks

This is an introductory course in kayaking with the emphasis on basic techniques, equipment, safety precautions, group dynamics and leadership skills. Students may be involved in moving water situations.

Prerequisite: Students must be able to swim 100 metres.

PHED 2418 – Introductory Mountaineering (formerly PHED 1254)

(1.5 credits – TG) 3 hours lecture for 7-8 weeks

This is an introductory course in mountaineering, which includes alpine and glacier techniques. Emphasis will be placed on safety and sound judgement. A peak ascent, within the Rocky Mountains, will be attempted. Participation is required in one weekend.

PHED 3001 – Biomechanics (formerly PHED 2263)

(3 credits – TG) 3 hours lecture, 2 hours lab

This course will provide the student with a basic knowledge of the mechanical principles that govern human movement and sport performance. By exploring linear and angular kinematics and kinetics the student will be prepared to apply their knowledge in both theoretical and practical contexts of human motion.

Prerequisite: Physical Education 1001 with a minimum grade of C- is required to receive transfer credit for Physical Education 3001.

Recommended Prerequisite: Physical Education 2201 with a minimum grade of C-.

PHED 3003 – Prevention and Care of Athletic Injuries (formerly PHED 3371)

(3 credits – TG) 3 hours lecture, 2 hours lab

This course provides a study of the responsibilities of physical educators toward the basic principles of athletic therapy and their role in the prevention and treatment (first aid) of athletic injuries.

Prerequisite: Physical Education 1001 with a minimum grade of C- is required to receive transfer credit for Physical Education 3003.

PHED 3150 – Practicum II in Sport, Recreation, and Physical Activity

9 credits (450 hours of practicum)

This practicum experience provides students with a further opportunity to apply the Sport and Recreation Business and Entrepreneurship theories and skills studied during the previous semesters and to continue to build upon their experience from PHED 1050. It is expected that students will diversify their experience relative to the past experience. Students will be required to submit a practicum plan to the Sport and Recreation Business and Entrepreneurship practicum coordinator prior to embarking on the practicum placement. Goals and strategies will be reviewed by a Faculty Advisor prior to the work-term. Students will be accepted into the practicum upon completion of the course pre-requisites and/or consent of the department chair.

Prerequisite: Physical Education 1050.

PHED 3301 – Musculoskeletal Assessment – Spinal

(3 credits – TG) 2 hours lecture, 2 hour tutorial

This course involves the study of athletic injuries that fall into the category of complex injuries, repetitive trauma; injuries common to athletics will be approached from the perspective of differential diagnosis. Assessment techniques utilized by Certified Athletic Therapists will be taught. Practical experience will emphasize the assessment of injured athletes as well as the utilization of appropriate intervention skills. Specific joints to be covered are: Cervical, Thoracic, Lumbar, Pelvis and Hip.

Prerequisite: Admission to the Advanced Certificate in Athletic Therapy.

PHED 3303 – Musculoskeletal Assessment – Peripheral

(3 credits – TG) 2 hours lecture, 2 hour tutorial

This course involves the study of athletic injuries that fall into the category of complex injuries, repetitive trauma; injuries common to athletics will be approached from the perspective of differential diagnosis. Assessment techniques utilized by Certified Athletic Therapists will be taught. Practical experience will emphasize the assessment of injured athletes as well as the utilization of appropriate intervention skills. This course will deal with the following joints: finger, wrist, hand, forearm, elbow, shoulder, knee, lower leg and foot.

Prerequisite: Admission to the Advanced Certificate in Athletic Therapy.

PHED 3304 – Advanced Strength Training (formerly PHED 1245)

(3 credits – TG) 3 hours lecture

This is an advanced course in the theory and practice of strength training. Emphasis will be on the utilization of free weight equipment for participants requiring additional or advanced strength training.

Prerequisite: Physical Education 2304.

PHED 3305 – Therapeutic Modalities in Athletic Therapy

(3 credits – TG) 2 hours lecture, 2 hour tutorial

This course will provide theoretical and practical in-depth knowledge of the safe and effective use of clinical modalities. Some of the topics include a review of the injury process, the transmission of energy, use of thermal agents, use of electrical agents and use of mechanical agents. These modalities are those typically used by Certified Athletic Therapists in Canada.

Prerequisite: Admission to the Advanced Certificate in Athletic Therapy.

PHED 3307 – Rehabilitation Techniques in Athletic Therapy

(3 credits – TG) 2 hours lecture, 2 hour tutorial

This course will provide theoretical and practical in-depth knowledge of the safe and effective use of rehabilitation to enhance the recovery of injury. The techniques are those typically used by Certified Athletic Therapists in Canada.

Prerequisite: Admission to the Advanced Certificate in Athletic Therapy.

PHED 3311 – Advanced Rehabilitation Techniques in Athletic Therapy

(3 credits – TG) 2 hours lecture, 2 hour tutorial

This course will build on the concepts learned in Physical Education 3301, 3303, 3305 and 3307. This course will integrate the assessment and rehabilitation of the body as a whole, viewing assessment and rehabilitation as a kinetic chain. Rehabilitation will be studied from the acute stage through to the chronic stages of an injury. This course will address the typical situations a Certified Athletic Therapist in Canada is confronted within a clinical setting.

Prerequisites: Physical Education 3301, 3303, 3305, 3307 and 3350.

PHED 3313 – Issues in Sports Medicine

(3 credits – TG) 3 hours lecture for 16 weeks or 6 hours lecture for 7 weeks

This course will include the study and investigation of topics of sports medicine that have a direct affect on Certified Athletic Therapists in Canada. Some of the topics include the role of the sports medicine physician, the role of pathology in sports medicine, diagnostic tools available, the role of athletic therapists and the role of other paramedical professionals in the care of athletes. Other topics will arise within the context of the course work.

Prerequisites: Physical Education 3301, 3303, 3305, 3307 and 3350.

PHED 3315 – Practical Clinical Management and Administration in Athletic Therapy

(3 credits – TG) 3 hours lecture for 13 weeks or 6 hours lecture for 7 weeks

This course will cover the theoretical and practical skills needed to operate an athletic therapy clinic or practice privately, with an athletic team or in conjunction with other paramedical professionals. Topics such as business plan writing, budgetary issues, marketing issues, personnel hiring and evaluation, physical planning of a clinic and operating, licensing, and codes will be covered.

Prerequisites: Physical Education 3301, 3303, 3305, 3307 and 3350.

PHED 3350 – Field Practicum I**(3 credits – TG) 2 hours lab, 175 hours practicum**

This is a formal work experience with an approved agency. Participants will be involved in integration seminars, and will be required to participate in the specified hours of practicum and complete the assignments as required.

Prerequisite: Admission to the Advanced Certificate in Athletic Therapy.

Note: This course is limited to students enrolled in the Advanced Certificate in Athletic Therapy who have successfully completed or are currently enrolled in the core course requirements.

PHED 3352 – Field Practicum II**(3 credits – TG) 2 hours lecture, 175 hours practicum**

This is a formal work experience with an approved agency. Participants will be involved in integration seminars, and will be required to participate in the specified hours of practicum and complete the assignments as required. Typical assignments are log book recordings of activities and case study analysis of situations specific to fieldwork of a trainer or Certified Athletic Therapist in Canada. This course will allow students to continue with an agency for seasonal sports that coincide with the academic year such as hockey, basketball, volleyball or badminton. This course will also allow the student to join another agency for sports that only last one semester. An example of such a sport is indoor soccer.

Prerequisite: Physical Education 3350.

Note: This course will be delivered in a block placement format. This course is limited to students enrolled in the Advanced Certificate in Athletic Therapy who have successfully completed or are concurrently enrolled in the core course requirements.

PHED 3354 – Clinical Practicum I**(3 credits – TG) 2 hours lecture, 175 hours practicum**

This is a formal work experience with an approved agency. Participants will be involved in integration seminars, and will be required to participate in the specified hours of practicum and complete the assignments as required. Typical assignments are log book recordings of activities and case study analysis of situations specific to fieldwork of a Certified Athletic Therapist in Canada. This work experience is specific and under the supervision of a paramedical professional such as a Certified Athletic Therapist, physiotherapist, sports medicine physician, chiropractor or sports massage therapist. Please note that the code of ethics for each of those professionals must be investigated and adhered to.

Prerequisite: Physical Education 3350.

Note: This course will be delivered in a block placement format. This course is limited to students enrolled in the Advanced Certificate in Athletic Therapy who have successfully completed or are concurrently enrolled in the core course requirements.

PHED 3356 – Advanced Clinical and Field Practicum**(6 credits) 275 hours practicum**

This is a formal work experience with an approved agency. Participants will be involved in integration seminars, and will be required to participate in the specified hours of practicum and complete the assignments as required. Typical assignments are logbook recordings of activities and case study analyses of situations specific to field and clinical work of a Certified Athletic Therapist in Canada. This work experience is specific and under the supervision of a paramedical professional such as a Certified Athletic Therapist, physiotherapist, sports medicine physician, chiropractor or sports massage therapist.

Prerequisites: Physical Education 3352 and 3354.

PHED 3385 – Physical Activity and the Older Adult**(3 credits – TG) 3 hours lecture**

This course will focus on the issues and challenges of providing physical activity experiences for the older adult with an emphasis on applied exercise leadership.

Recommended Preparation: Physical Education 2203 and 1001.

PHED 4001 – Exercise Physiology**(3 credits) 3 hours lecture, 2 hour lab**

This course will provide an overview of the human body's response to acute and chronic exercise, exploring the principles of neuromuscular and cardiorespiratory physiology and energy metabolism. It will further examine gender differences in response to exercise, ergogenic aids, and physiological responses during exercise in altered temperature and atmospheric pressure and exercise in health and prevention of disease.

Prerequisites: Biology 1216 and General Education 2301 or permission from the department.

PHED 4003 – Sociological Foundations in Sport and Culture (formerly PHED 2245)**(3 credits – TG) 2 hours lecture, 1 hour tutorial**

An examination of current methodologies in the study of cultural meaning of sport, leisure and physical education.

PHED 4005 – Motor Learning**(3 credits) 3 hours lecture, 2 hours lab**

This course presents the fundamental processes underlying the learning and performance of movement, how humans learn skilled actions and how the principles of motor performance and learning can be useful in teaching, coaching, rehabilitation and ergonomics.

Prerequisite: Physical Education 2003.

PHED 4007 – Fitness Assessment (formerly PHED 1218)**(3 credits – TG) 3 hours lecture**

This is a theoretical and practical course covering all aspects of fitness assessment. Topics include: testing protocols, counselling techniques and exercise prescription. Students will have the opportunity to become Certified Personal Trainers through the Fitness Appraisal Certification and Accreditation (FACA) Program, assuming they have the FACA prerequisites (see the department for details).

PHED 4101 – Advanced Coaching (formerly PHED 4431)**(3 credits – TG) 3 hours lecture**

This course provides exposure to selecting sport specific training programs, evaluating fitness, organizing and selecting training programs, detecting and correcting errors in skill techniques, advising on nutritional programs, developing mental strategies, pre-competition strategies, competition strategies, problem solving and motivational techniques for long term training programs. Students enrolled in this course may be trained in modules from the National Coaching Certification Program Competition-Development Multi-Sport stream.

Prerequisite: Physical Education 2001 or the National Coaching Certification Program Part A and B of the Competitive Coach Stream.

PHED 4267 – Issues and Trends in Sport and Recreation (formerly PHED 1267)**(3 credits) 3 hours lecture**

This course addresses the constantly evolving nature of the field of sport and recreation. Students will research, study and discuss the issues and trends that impact the profession. To successfully meet the requirements of this course, students must demonstrate an ability to review and critique examples of research related to the field.

Prerequisites: Entrepreneurship 2015 and 3015 or with department consent.

PHED 4509 – Field School - A**3 credits (3 hours lecture)**

This course is designed to provide students with a learning experience outside of the traditional classroom setting. Students will travel nationally or internationally to a discipline-specific and relevant location related to their program of study. Students will apply theoretical principles learned throughout the program. A project (typically research based) will be completed while on location or data collection will occur throughout the experience. Please note that additional fees (travel, accommodation, sustenance, program fees) will apply outside of the standard tuition.

Prerequisite: Approval of the department.

PHED 4511 – Field School - B

6 credits (6 hours lecture)

This course is designed to provide students with a learning experience outside of the traditional classroom setting. Students will travel nationally or internationally to a discipline-specific and relevant location related to their program of study. Students will apply theoretical principles learned throughout the program. A major project (typically research based) will be completed while on location or data collection will occur throughout the experience. Please note that additional fees (travel, accommodation, sustenance, program fees) will apply outside of the standard tuition.

Prerequisite: Approval of the department.

PHED 1199, 1299 – Directed readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

PHYSICS (PHYS)

PHYS 0130 – Introductory Physics

(0 credits) 4 hours lecture, 2 hours lab biweekly

This is a credit-free upgrading course; special fees apply. This course involves the study of electricity and mechanics of solids. These topics are considered with a minimum requirement of mathematics and the use of experiments.

Corresponding Alberta High School Equivalent: Physics 30.

Recommended Preparation: Mathematics 0115, Pure Mathematics 20 or equivalent.

PHYS 1104 – Everyday Physics – A Conceptual Introduction (formerly PHYS 2104)

(3 credits) 3 hours lecture, 1 hour tutorial

Physics is the study of the rules behind the working of the physical universe. This course makes the fun and excitement of doing physics accessible to non-science majors. Basic Concepts of physics will be introduced using the examples of everyday phenomena with reduced math content.

PHYS 1131 – Optics, Oscillations and Waves (formerly PHYS 2130)

(3 credits – TG) 3 hours lecture, 1.5 hours lab

This course offers a calculus-level introduction to oscillations and wave motion, with applications to mechanics, optics and acoustics. The topics covered include the harmonic oscillator, travelling and standing waves, and geometrical and wave optics. This course is designed primarily for engineering students intending to transfer to the University of Alberta (engineering students intending to transfer to the University of Calgary should take Physics 2369). However, this course is also suitable for students whose programme requires a first-year course in physics.

Prerequisites: Mathematics 31 or Mathematics 1200 or 2251 and Physics 30 or Physics 1201.

PHYS 1201 – Classical Physics I (formerly PHYS 2205)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 2 hours lab

This course provides an introduction to Newtonian point mechanics. The topics covered include: vectors, motion in one and two dimensions including circular motion, forces, work and energy, and impulse and momentum. Laboratory exercises provide further insight into these topics.

Prerequisite: Pure Mathematics 30 or equivalent with a grade of 60% or higher.

PHYS 1202 – Classical Physics II (formerly PHYS 2207)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 2 hours lab

This course provides an introduction to fluids, thermodynamics and electromagnetism. The topics covered include: pressure, Pascal's and Archimedes' principles, temperature, the ideal gas law, the laws of thermodynamics, electric forces and fields, electric potential, electric currents and circuits, and magnetic forces and fields. Laboratory exercises provide further insight into these topics.

Prerequisites: Mathematics 1200 and Physics 1201 with grades of C- or higher.

Note: This is the second course in a two-course sequence intended for students who are not planning to take more advanced courses in the physical sciences (such as students in the biological and earth sciences, and some general science students). Students planning to take more advanced courses in the physical sciences should take Physics 1212 instead. Credit will be given for only one of Physics 1202 and 1212.

PHYS 1209 – Elementary Modern Physics (formerly PHYS 2209)

(3 credits – TG) 3 hours lecture, 1 hour tutorial, 3 hours lab

This course will deal with relativity & space-time, the photoelectric effect, the Compton effect, the plank's radiation law, Bohr's atomic model, electron waves, the Heisenberg uncertainty principle & the meaning of wave functions, X-rays and radioactivity.

Prerequisite: Physics 1201 or 1211 with a grade of C- or higher.

PHYS 1243 – Basic Physics for Aviation

(3 credits) 3 hours lecture, 1 hour tutorial, 3 hours lab

This is an algebra-based physics course mainly designed to suit aviation students. This course will introduce students to relevant topics in mechanics and electricity. The topics include: motion in one and two dimensions, the laws of motion, work and energy, circular motion, impulse, linear momentum and collisions, kinematics and dynamics of a rigid body, current and resistance, D C circuits, basics of aerostatics and aerodynamics.

Prerequisite: Pure Mathematics 30 or equivalent.

PHYS 2201 – Acoustics, Optics and Radiation

(3 credits) 3 hours lecture, 1 hour tutorial, 2 hours lab

This course offers a rigorous introduction to wave motion and its applications to acoustics, optics and radiative energy transfer. The topics covered include the harmonic oscillator, travelling and standing waves, and geometrical and wave optics. **This course is intended for students pursuing a specialization in the physical sciences such as chemistry, geophysics and physics.**

Prerequisites: Mathematics 1202 and Physics 1202 with grades of C- or higher, or consent of department.

PHYS 2203 – Electromagnetism

(3 credits) 3 hours lecture, 1 hour tutorial, 2 hours lab

This course employs a calculus- and vector-based approach to electromagnetism. The topics include: electric charges, electric fields and potentials, electric currents, magnetic fields, electromotive force and induction, time-varying electric and magnetic fields, electromagnetic properties of materials, and elements of atomic structure.

Prerequisites: Mathematics 1202 and Physics 1202 with grades of "C-" or higher, or consent of department.

PHYS 2369 – Acoustics, Optics and Radiation (formerly PHYS 3369)

(3 credits – TG) 3 hours lecture, 2 hours lab

This course offers a rigorous introduction to wave motion and its applications to acoustics, optics and radiative energy transfer. The topics covered include the harmonic oscillator, travelling and standing waves, and geometrical and wave optics. **The course is designed primarily for engineering students intending to transfer to the University of Calgary (engineering students intending to transfer to the University of Alberta should take Physics 1131).**

Prerequisites: Mathematics 1217, 1219 and Engineering 1215.

PHYS 3103 – Introduction to Biophysics**(3 credits) 3 hours lecture; 1.5 hour tutorial**

The aim of this course is to apply concepts and laws of physics to the study and understanding of living systems. As shown in the course outline, the topics that will be covered are: biomechanics of bone and muscle, hemodynamics, diffusion and osmosis, physics of respiration and cough, heat regulation mechanisms, electro-reception and conduction of impulses along the nervous system, magnetic sense, and the physics of vision and hearing.

Prerequisites: Mathematics 1200, Physics 1202 or 1212 and Biology 1202.

Note: Credit for both Biology 3103 and Physics 3103 will not be allowed.

PHYS 3401 – Solid State**(3 credits) 3 hours lecture, 4 hours lab**

This course is a study of the models and concepts underlying the field of inorganic chemistry, and the physics of chemical species in the solid state. Topics covered will include coordination complexes. The laboratory component involves synthesis and analysis of inorganic compounds, investigation of semiconductor materials, and research on nanotechnology. Credit for both Chemistry 3401 and Physics 3401 will not be permitted.

Prerequisites: Chemistry 1202 and Physics 1202, both with a grade of C- or higher.

PHYS 3601 – Thermodynamics**(3 credits) 3 hours lecture, 3 hours lab**

This is an introduction to thermodynamics from a classical, macroscopic perspective. Lecture topics will include the laws of thermodynamics, Maxwell relations, internal energy, enthalpy, entropy, Helmholtz and Gibbs free energies, chemical potential and equilibrium, as well as a detailed study of the Kinetic Theory of Gases for mono- and polyatomic gases, both ideal and real. The laboratory component will support the lecture material through theoretical modeling and basic thermodynamic and kinetic experiments.

Prerequisites: Chemistry 1202, Physics 1202 or 1212 and Mathematics 1202, with a grade of C- or higher or department consent.

Note: Credit for both Chemistry 3601 and Physics 3601 will not be allowed.

PHYS 3602 – Elementary Quantum Mechanics**(3 credits) 3 hours lecture, 3 hours lab**

This is an introductory course in quantum mechanics. The basic theories and formalism of quantum mechanics will be developed, followed by its application to a variety of model systems from atomic and molecular physics and chemistry; including a discussion of electron spin with reference to both single- and multi-electron atoms. The lab will reinforce the lecture topics through both computer simulations and experiments to illustrate the use of quantum mechanics in spectroscopy.

Prerequisites: Chemistry 1202, Mathematics 2207 and Physics 2201 with grades of C- or higher, or department consent.

Note: Credit for both Chemistry 3602 and Physics 3602 will not be allowed.

PHYS 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

POLICY STUDIES (POST)**POST 2010 – Directed Field Studies I (formerly APST 2010)****(15 credits)**

This course will foster an understanding of the culture and professional practices of the administration and development of public policy. Students will participate in paid work experiences in a government agency or in a company, research institute or non-governmental organization. The initial directed field studies provides an opportunity to apply academic knowledge and analytical skills in a workplace, observe organizational behaviour, and develop methods of self-assessment. A significant time commitment will be needed to complete the orientation program offered by Career Services in the semester prior to placement.

Prerequisites: Policy Studies 2209, 2201, 3305 and Economics 1101, 1103, Political Science 1101, 2231, 2259 and either Economics 2255 or 2213 and Political Science 2229 or Policy Studies 3303 with minimum grades of C or higher. Completion of the Introduction to Work Experience workshops through Career Services is required.

POST 2201 – Introduction to Public Policy**(formerly APST 3301)****(3 credits – TG) 3 hours lecture**

This course is designed to advance the degree student's knowledge of public (government) policy development, initiation, and implementation. This course introduces students to various theories, models and approaches utilized by scholars and professional evaluators in the field of policy studies. This course also prepares students for the intellectual demands and skill-based practicalities needed in their future careers in the policy field.

Prerequisites: Political Science 1101 and 2231, or permission from the department.

POST 2209 – Methodology and Statistics**(formerly APST 2209)****(3 credits – TG) 4 hours lecture**

Credible and competent policy decisions – regardless of whether they originate in the private, public, or not-for-profit sectors of an economy – are based on statistical and strategic thinking. In this course statistical thinking abilities (identifying appropriate statistical techniques, computing required statistics, and interpreting the results) are balanced with well-developed strategic thinking skills (game theory and rational choice). Within this general framework, students will study the theoretical foundations of methodology and statistics and learn the applied techniques, though the use of Microsoft Excel and other computer software, employed by policymakers in all sectors of the economy.

**POST 3010 – Directed Field Studies II (formerly APST 3010)****(15 credits)**

This course will foster an understanding of the culture and professional practices within administrative fields, and enhance understanding of public policy development. Students will be involved in a paid work experience in a government agency, a company, a research institute or a non-governmental organization. The senior Directed Field Studies provides an opportunity to refine and hone the academic knowledge and analytical skills acquired and applied in the previous Directed Field Studies.

Prerequisites: Completion of a minimum of 20 courses in the core of the Applied Policy Studies program including: Policy Studies 2010, 2201, 2209, 3303, 3305, 4431 and Economics 2244, Political Science 2229, 2298 and English 2263 with minimum grades of C or higher. Attendance at all Career Services workshops required to prepare students for Directed Field Studies II.

POST 3030 – Internship

(15 Credits)

This course will foster an understanding of the culture and professional practices within administrative fields, and enhance understanding of public policy development. Students will be involved in a paid work experience in a government agency, a company, a research institute, or a non-governmental organization. The internship provides an opportunity to refine and hone the academic knowledge and analytical skills acquired in previous Policy Studies courses and apply them to an actual workplace/policy environment.

Prerequisites: Completion of a minimum of 20 required courses contained in the Policy Studies degree program, including Policy Studies 2201, 2209, 3303, 3305, and Economics 2213, 2244, Political Science 2231, 2259, 2287 and English 2263 with a minimum grade of C or higher. Attendance at all Career Services professional development workshops required to prepare students for their Internship.

POST 3303 – Federalism (formerly APST 3303)

(3 credits – TG) 3 hours lecture

This course is designed for the Policy Studies degree student, but is of interest to anyone who wishes to advance their understanding of key constitutional matters, government-level decision making, and policy development. This course will focus primarily on the Canadian federation. However, it will also explore other federal systems in a comparative setting, particularly the United States and Mexico, our continental partners in trade. With this course, students will acquire advanced knowledge of an essential aspect of Canadian constitutional, economic, and political life.

Prerequisites: Economics 1103, Political Science 1101 and 2231.

POST 3305 – Interest Groups and Group Behaviour (formerly APST 3305)

(3 credits – TG) 3 hours lecture

This course is a third year core requirement for students in the Policy Studies degree program. The course develops practical understanding and a working knowledge of the role of interest groups and their influence in policy formation, policy implementation and policy administration in a complex federal system with overlapping jurisdictions.

Prerequisites: Policy Studies 2201 and 3303.

POST 4421 – International Economic Policy (formerly APST 4421)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This is a senior course normally taken in the sixth semester of the Policy Studies degree program. Students will acquire basic competency in accessing, processing, and interpreting data relevant to international economics issues. The focus is on the theory and policy of international trade, monetary, and financial issues. Topics include restrictive trade practices and tariff policy, exchange rate regimes and their effects on prices and output, the political economy relating to the laws, the structure and actors influencing Canadian trade and monetary policy on the international flows of production, and capital/financial investment. Upon completion, students will have algebraic, graphical and data manipulation skills to evaluate, analyze and compose thoughtful written proposals on issues related to international economic policy.

Prerequisites: Policy Studies 2201, and 2209, Economics 2213, and Political Science 2287.

POST 4431 – Managing and Implementing Public Policy (formerly APST 4431)

(3 credits – TG) 3 hours lecture

This course is a senior-year core requirement for students in the Bachelor of Policy Studies. The course develops practical understanding and a working knowledge of the instruments and techniques of policy implementation. Topics include, understanding public policy formation, defining government's role, choosing policy instruments for policy outcomes, designing an implementation process and managing the implementation process.

Prerequisites: Policy Studies 2010, 2201, 2209, and 3303.

POST 4443 – Survey of Public and Private Law Principles (formerly APST 4443)

(3 credits – TG) 3 hours lecture

This is a senior survey designed to familiarize Bachelor of Policy Studies students with the principles of Canadian law in general and the particular distinctions between public and private forms of law.

Prerequisites: Policy Studies 2201, 3303 and Political Science 1101 and 2231.

POST 5010 – Selected Topics in Policy Studies (formerly APST 4401)

(3 credits) 3 hours lecture

This capstone course is designed for the student enrolled in the final academic year of the Policy Studies degree program. The course relates theoretical frameworks to real-world policy issues which are both current and topical. It will address different topics in a seminar-style format, with discussion being led by faculty with particular expertise in the policy areas under examination.

Prerequisites: Policy Studies 2201, 2209, 3303, and 3305.

POST 5020 – Integrative Professional Practice (formerly APST 4433)

(3 credits) 3 hours lecture

This capstone course is a senior-year core requirement for students in the Policy Studies degree program. The course develops a practical understanding and a working knowledge of the organisational relationships and professional conduct in institutions and agencies that formulate and implement public policy. The emphasis is on strengthening competency and familiarity with accepted professional conduct, ethical and legal environments and intra-group and inter-institutional techniques for effective problem solving and communication. Topics include personal responsibilities, civil rights and labour law, Conflict of Interest Guidelines, collaborative partnerships, motivation and performance, and public communication.

Prerequisites: Policy Studies 2201, 2010 and 4431.

POST 5120 – Honours Thesis

(3 credits)

In this course, students complete an honours thesis between 40 and 60 pages. The thesis is original research under the direction of an academic supervisor and will culminate in a formal paper. The submission of the written thesis is to be followed by an oral defence. The thesis is to be completed in the winter semester of the student's final year.

Co-requisite: Policy Studies 5020.

Note: Open only to students admitted to and enrolled in the Policy Studies Honours program.

POLITICAL SCIENCE (PLSC)

PLSC 1101 – Introduction to Government and Politics (formerly PLSC 2201)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

A systematic introduction to the basic concepts and institutions of the process of politics.

PLSC 1123 – Canadian Political Issues (formerly PLSC 2223)

(3 credits – TG) 3 hours lecture

This course explores selected themes in Canadian politics, such as federalism and regionalism, the Charter of Rights, issues of diversity and citizenship, and how we are governed.

PLSC 1183 – Issues and Trends in World Politics (formerly PLSC 2283)

(3 credits – TG) 3 hours lecture

Major trends and issues in world politics, such as international tensions, migration, ethnic conflicts, human rights and sustainable development.

PLSC 1185 – Model United Nations (formerly PLSC 2285)**(1 credit) 1 hour lecture**

This course allows students to participate in an inter-collegiate Model UN. Over the course of a weekend, a simulated Model UN involving students from numerous other colleges and universities will take place. Prior to the conference, students will work in groups (delegations) to research both their country and selected foreign policy issues (Terrorism, drug trade, disarmament, UN Reform, etc.) At the conference, students will present foreign policy speeches, draft resolutions, and negotiate (caucus) with other delegations to try to pass or defeat resolutions.

Pre or Co-requisite: Political Science 1183.

Note: Students may be responsible for personal travel and subsistence costs associated with enrolment in Political Science 1185. If these costs are a concern to you, check with your instructor prior to registration.

PLSC 2210 – History of Political Thought I (formerly PLSC 3310)**(3 credits – TG) 3 hours lecture**

This course focuses on the quest for the Good Regime in the West. The criteria for the Good Regime will be enunciated and applied to the Classical (Platonic, Aristotelian and Roman) and the Medieval (Augustinian and Thomistic) conception of the Good Regime. Prerequisite: Political Science 1101.

Note: Political Science 2210/2211 = U of C POLI 310.

PLSC 2211 – History of Political Thought II (formerly PLSC 3311)**(3 credits – TG) 3 hours lecture**

This course is a continuation of Political Science 2210. It focuses on the Machiavellian, Liberal, Marxian and Utopian conceptions of the Good Regime.

Prerequisite: Political Science 2210.

Note: Political Science 2210/2211 = U of C POLI 310.

PLSC 2227 – Women and Politics (formerly PLSC 3327)**(3 credits – TG) 3 hours lecture**

Examination of political participation by women, women's issues and public policy and feminist political theories.

Prerequisite: Political Science 1101 or consent of the department.

PLSC 2229 – Alberta and Provincial Politics (formerly PLSC 3329)**(3 credits – TG) 3 hours lecture**

Source of conflict and consensus; policy making; inter-governmental affairs; and the management of the Provincial Political Economy.

Prerequisite: Any junior (1100-level) Political Science course.

PLSC 2231 – The Canadian State (formerly PLSC 3321)**(3 credits – TG) 3 hours lecture**

The formal institutions of the Canadian state, including Parliament, the executive, federalism, the Constitution, and the courts. Emphasis on the way that political processes are shaped by these and other institutions.

Prerequisite: Any junior (1100-level) Political Science course or consent of the department.

PLSC 2237 – Perspectives on Political Economy (formerly PLSC 3335)**(3 credits – TG) 3 hours lecture**

This course is an introduction to Political Economy concepts and perspectives. These are then applied to the analysis of interconnected political and economic issues, both historic and current. It will utilize a case approach with a Canadian emphasis.

Prerequisites: Economics 1101 or 1103, and Political Science 1101 or 1123.

PLSC 2243 – Law, Politics and the Judicial Process (formerly PLSC 3343)**(6 credits – TG) 3 hours lecture, 1 hour tutorial, 2 hours lab**

The judicial system as a branch of government and as a part of the political process. Focus on the Canadian judiciary within a comparative context.

Prerequisite: Any one of Political Science 1101, 1123 or Applied Justice Studies 2201, 2209, 2211, 2213 or 2215.

PLSC 2259 – Comparative Government and Politics (formerly PLSC 3359)**(3 credits – TG) 3 hours lecture**

An introduction to the analytical concepts of the comparative approach to political analysis.

Prerequisite: Political Science 1101.

PLSC 2287 – Introduction to International Relations (formerly PLSC 3381)**(3 credits – TG) 3 hours lecture**

The structures and processes of international relations and foreign policy.

Prerequisite: Political Science 1101 or 1183.

PLSC 2298 – Politics and the Media (formerly PLSC 3398)**(3 credits – TG) 3 hours lecture**

This course will consider how politics is portrayed in the coverage given it by the mass media, with special emphasis on the cognitive psychology involved in framing issues and the coverage of political events by television and the new media of the Internet. Canadian and American experience will be stressed.

PLSC 3411 – Modern Political Thought**(3 credits – TG) 3 hours lecture**

PLSC 3411 continues the study of recurrent themes in political thought as were introduced in PLSC 2210 and 2211, particularly on the evolution of modern ideas about human nature, political institutions, political behaviour, and political obligation. Areas covered include the various forms of liberalism, conservatism, postmodernism, communitarianism, feminism, and socialism.

Prerequisites: Political Science 2210 and 2211 (Political Science 3411 may be taken concurrently with 2211).

PLSC 3485 – The Politics of the International Economic Order**(3 credits – TG) 3 hours lecture**

Analysis of the political management of international economic relations. Topics include the politics of trade and money relations, energy, multinational corporations and the New International Economic Order.

Prerequisite: Political Science 2287.

PLSC 3489 – Foreign Policies of the Major Powers**(3 credits – TG) 3 hours lecture**

This course provides an analysis of the foreign policies of selected major powers like the United States, Russia, China, the United Kingdom, and Canada. Topics include: understanding foreign politics, theories of foreign policy, determinance of foreign policy, balances of power and decision-making models.

Prerequisite: Political Science 2287.

PLSC 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

PSYCHOLOGY (PSYC)

PSYC 1103 – Introduction to Psychology I: Natural Science (formerly PSYC 1102)

(3 credits) 3 hours lecture

This course introduces the history, methods, and current state of knowledge in selected areas of modern psychological research. A range of content areas will be surveyed, including biological psychology, sensation and perception, learning, memory, cognition, and consciousness.

Note: Credit will be allowed for only one of Psychology 1102 and Psychology 1103. Credit will be allowed for only two of Psychology 1103, 1104, and 1105.

PSYC 1104 – Introduction to Psychology II: Social Science (formerly PSYC 1101)

(3 credits) 3 hours lecture

This course provides a survey of the current psychological knowledge in a range of topics that will include developmental psychology, personality, psychological disorders, therapy, stress, social psychology, assessment, motivation and emotion.

Prerequisite: Psychology 1103.

Note: Credit will be allowed for only one of Psychology 1101 and Psychology 1104. Credit will be allowed for only two of Psychology 1103, 1104 and 1105.

PSYC 1105 – Introduction to Psychology (formerly PSYC 2205)

(3 credits - TG) 3 hours lecture

This course introduces the history, methods, and current state of knowledge in modern psychological research. A wide range of content areas will be surveyed, including biological psychology, learning, memory, perception, personality, psychological disorders, therapy, stress, social psychology, psychological development in children, and the ethics of research. Additional topics may be included at the discretion of the instructor.

PSYC 1121 – Interpersonal Communications I (formerly PSYC 1221)

(3 credits – TG) 3 hours lecture

This course provides an opportunity to explore some important aspects of interpersonal communication, to develop a greater understanding of interpersonal effectiveness, and on the basis of this understanding to practice behaviours, that increase interpersonal effectiveness.

PSYC 1127 – Problem Solving and Decision Making (formerly PSYC 2227)

(3 credits – TG) 3 hours lecture

When people solve problems and make decisions, what steps and processes are involved? What is creative thinking, what is critical thinking, and how does each contribute to effective problem solving and decision making? What strategies are used by highly successful problem solvers and decision makers? What are the common obstacles to effective problem solving and decision making and how can these be overcome? How can we become more adept at solving problems and making decisions in academic, work, interpersonal, and everyday settings? This course will address these issues by reviewing relevant theories and research findings from the field of cognitive psychology.

PSYC 2210 – Statistical Methods for Psychology I

(3 credits) 2 hours lecture, 1 hour tutorial

This course introduces basic statistical techniques as applied to psychological research. Tabulation, graphic representation, univariate descriptive techniques, correlation and linear regression will be examined. The course will also cover basic inferential statistics, including normal curve and t tests. Students will learn statistical software and will use the software to perform calculations.

Prerequisite: Mathematics 30 (pure or applied) or equivalent;

Prerequisite or Co-requisite: Psychology 1104 or Psychology 1105.

PSYC 2211 – Statistical Methods for Psychology II

(3 credits) 2 hours lecture, 1 hour tutorial

This course introduces students to more advanced statistical techniques than those covered in Psychology 2210 (Statistical Methods for Psychology I). Statistical processes such as multiple regression, one-way and two-way analysis of variance including post-hoc comparisons, and non-parametric hypothesis tests are included. Students will use statistical software to perform data analyses.

Prerequisites: Psychology 2210

Note: Credit will be allowed for only one of Psychology 2212 and Psychology 2211.

PSYC 2213 – Research Methods I (formerly PSYC 3313)

(3 credits – TG) 3 hours lecture, 1 hour tutorial

This course is an introduction to basic research methods in psychology. Students will examine both the theory and application of a variety of research techniques including observation, surveys/questionnaires, and experiments. The course provides students with practice in defining and understanding key aspects of these techniques and applying these techniques to address a variety of psychological research questions.

Prerequisite: Psychology 2210 or Psychology 2212

Pre or Co-requisite: Psychology 2211

PSYC 2219 – Psychology of Death and Dying (formerly PSYC 3319)

(3 credits – TG) 3 hours lecture

The course examines social and psychological aspects of death and dying, such as: historical and cross cultural variability in death attitudes, spirituality, the dying process, ethical issues such as euthanasia and suicide, bereavement, burial practices and death perceptions across the life-span.

Prerequisite: Psychology 1104 or Psychology 1105, or consent of the department.

PSYC 2223 – Interpersonal Communications II: Teamwork, Diversity, and Conflict Resolution

(3 credits – TG) 3 hours lecture

Students will explore teamwork, diversity, and conflict resolution as three key aspects of work communication. Students will be assisted in developing conceptual understandings of these topics through illustrative case studies which consider a variety of work situations, through role plays, and through selected readings. Facilitated teamwork in seminars, in projects, and in presentations, as well as journal activities, will assist students in making their learning relevant to their current and anticipated work settings.

Recommended Preparation: Psychology 1121.

PSYC 2235 – Life-Span Development (formerly PSYC 3325)

(3 credits – TG) 3 hours lecture

This course provides an overview of the major developmental stages from birth to death. Development will be studied from a variety of theoretical perspectives and the application of theory to practical situations will be examined.

Prerequisite: Psychology 1104 or 1105.

PSYC 2245 – Social Psychology (formerly PSYC 3345)

(3 credits – TG) 3 hours lecture

Students will examine social psychological approaches to understanding social influence, social perception and cognition, attitudes and group dynamics.

Prerequisite: Psychology 1104 or 1105.

Note: Psychology 2245 = Athabasca University PSYC 379. Credit will be allowed for only one of Psychology 2245 and PSYC A379.

PSYC 2265 – Cognitive Psychology (formerly PSYC 3365)

(3 credits – TG) 3 hours lecture

This course provides a survey of the major areas of research and theory in cognitive psychology. Topics may include the origins of cognitive psychology in traditional learning theories, as well as contemporary views of neurocognition, attention, perception, language, memory, problem solving, creativity and intelligence.

Prerequisite: Psychology 1104 or 1105.

Note: Psychology 2265 = Athabasca University PSYC 355. Credit will be allowed for only one of Psychology 2265 and PSYC A355.

PSYC 2283 – Personality (formerly PSYC 3383)

(3 credits – TG) 3 hours lecture

This course emphasizes a scientific approach to the study of personality formation. It examines theories and research related to the structure and dynamics of personality. Five main theoretical views are covered: psychodynamic, learning, humanistic, existential, and trait. Representative theories are presented for each perspective along these lines: main concepts and hypotheses, empirical work (e.g., measurement of individual differences), and/or psychotherapeutic applications. The course establishes links of divergence, convergence, and similitude between the different theories of personality.

Prerequisite: Psychology 1104 or 1105.

Note: Psychology 2283 = Athabasca University PSYC 356. Credit will be allowed for only one of Psychology 2283 and PSYC A356.

PSYC 2285 – Introduction to the Psychology of Abnormal Behaviour (formerly PSYC 3385)

(3 credits – TG) 3 hours lecture

This senior-level course is a survey of the symptoms, causes and treatment of psychological disorders as they occur across the lifespan. Through lecture, videos and in-class applied exercises, students will consider the experience of psychological abnormality and study contemporary methods used in clinical diagnosis and intervention.

Prerequisite: Psychology 1104 or 1105.

Note: Psychology 2285 = Athabasca University PSYC 435. Credit will be allowed for only one of Psychology 2285 and PSYC A435.

PSYC 3305 – History of Psychological Thought

(3 credits – TG) 3 hours lecture

In this course, students will examine the societal, philosophical, and scientific trends that, beginning in ancient Greece, ultimately gave rise to modern psychology. In addition, students will learn how the topics of psychology were investigated prior to the formation of psychology as a distinct scientific discipline.

Prerequisites: Psychology 1104 or 1105 and two of Psychology 2235, 2245, 2265, 2283, or 2285.

PSYC 3307 – Evolutionary Psychology

(3 credits) 3 hours lecture

This course examines psychological questions about behaviour from an evolutionary perspective. Following a basic overview of evolutionary theory, this course will look at the origins of behaviours such as language, social cooperation, parenting, aggression, mate selection, and sex.

Prerequisites: Psychology 1104 or 1105 and Psychology 3375 and two of Psychology 2235, 2245, 2265, 2283, or 2285.

PSYC 3327 – Psychology of Sexuality

(3 credits – TG) 3 hours lecture

This course emphasizes psychological theory and research concerning human sexuality. It reviews methods and methodological problems in research on sexual behaviour. It covers basic information about sexual physiology and function, sexual development and differentiation, sexual behaviour, attraction, intimacy, sexual orientation and sexual dysfunction.

Prerequisites: Psychology 1101 or 1105, and 2213.

PSYC 3346 – Social Psychology: Social Influence and Persuasion

(3 credits – TG) 3 hours lecture

This course explores theories and research concerning social influence, with particular attention to compliance, conformity, persuasion and obedience. It will also explore how the principles of social influence apply to real world phenomena.

Prerequisite: Psychology 2245.

PSYC 3347 – Psychology of Gender

(3 credits – TG) 3 hours lecture

This course takes a psychological approach to the study of gender stereotypes, the empirical evidence for female-male differences and similarities in behaviour and experience, and the implications of gender roles for interpersonal relationships and social roles. Biologically-based and socially-based explanations will be evaluated.

Prerequisite: Psychology 1104 or Psychology 1105.

PSYC 3351 – Topics in Child Development

(3 credits – TG) 3 hours lecture

This course focuses on psychological development from conception through childhood and adolescence, examining such topics as the development of cognition, emotion, identity, moral thinking, and psychosocial abilities.

Prerequisite: Psychology 2235 or consent of the department.

Note: Psychology 3351 = Athabasca University PSYC 323. Credit will be allowed for only one of Psychology 3351 and PSYC A323.

PSYC 3353 – Topics in the Psychology of Aging

(3 credits – TG) 3 hours lecture

This course examines the nature, causes and implications of developmental changes across the middle and later adult years. Following a basic overview of theoretical perspectives and research methods used in the area, the course will look at age-related changes in physiological, psychological, and social functioning. Diversity in later adulthood is also discussed, as it is reflected in gender and in cultural, lifestyle and individual variability.

Prerequisite: Psychology 2235 or consent of the department.

Note: Psychology 3353 = Athabasca University PSYC 381. Credit will be allowed for only one of Psychology 3353 and PSYC A381.

PSYC 3355 – Topics in Adolescence

(3 credits – TG) 3 hours lecture

This course investigates the impact of various factors (environment, peers, family, school, work and media) on developmental processes that occur during adolescence. Theories and research are put into a meaningful framework to emphasize the diversity of this decade of development.

Prerequisite: Psychology 2235 or consent of the department.

Note: Psychology 3355 = Athabasca University PSYC 350. Credit will be allowed for only one of Psychology 3355 and PSYC A350.

PSYC 3367 – Human Memory

(3 credits) 3 hours lecture

This course provides an overview of the history, current theories, and research findings relating to human learning. Processes involved in encoding, storing and retrieving information from memory stores will be studied by examining such topics as implicit and explicit memory, autobiographical memory, and constructive processes.

Prerequisite: Psychology 2213 and 2265.

PSYC 3369 – Sensation and Perception

(3 credits – TG) 3 hours lecture

The course will provide students with an understanding of how the brain receives and processes information about the world around us. This will include the basic anatomy and physiology of the primary sensory systems, the scientific methods used to measure sensory function, and how information is represented in neural processing. The course will also look at traditional and cutting edge approaches to object perception, theories of depth perception, color perception, pattern recognition, motion, attention and at the processes of bottom-up and top-down processing and how they interact.

Prerequisite: Psychology 1104 or Psychology 1105.

PSYC 3375 – Brain and Behaviour

(3 credits – TG) 3 hours lecture

This course encourages students to adopt a biological perspective towards psychological questions and issues. From a basic overview of brain anatomy and neuron physiology, the course looks at a varied selection of topics such as vision, brain damage and recovery, Alzheimer's disease, sleep and dreaming, drug addiction, learning, aggression and schizophrenia. All these topics are of interest to psychologists and all can be reduced to, and understood in terms of, the operations of the nervous system.

Prerequisite: Psychology 2213.

Note: Psychology 3375 = Athabasca University PSYC 402. Credit will be allowed for only one of Psychology 3375 and PSYC A402.

PSYC 4401 – Social Cognition

(3 credits) 3 hours lecture

This seminar course examines theories and research results pertaining to the structures (self, person, role, and event schemas) and processes (expectations, attributions, and inferences) underlying self and person perception.

Prerequisite: Psychology 2245.

PSYC 4402 – Psychopharmacology

(3 credits) 3 hours lecture

This course provides an introduction to the relationship between drugs, the brain, and behaviour. Students will learn how neuropharmacologic agents (psychotropic and psychotherapeutic drugs), through their influence on the biochemistry and physiology of neurons and neurotransmitter systems, affect nervous system function, and thus behaviour.

Prerequisite: Psychology 3375.

PSYC 4403 – Advanced Topics in Brain and Behaviour

(3 credits) 3 hours lecture

A basic review of brain anatomy and physiology will be followed by an exploration of topics such as neurodevelopment, neuroplasticity, neuroendocrinology and psychoneuroimmunology. These areas of biopsychological study will be examined in relation to abnormal neural and behavioural function in disorders such as autism, depression, epilepsy, multiple sclerosis and schizophrenia.

Prerequisite: Psychology 3375.

PSYC 4406 – Introduction to Counselling and Psychotherapy

(3 credits) 3 hours lecture

This course critically examines the basic principles and therapeutic processes that characterize mainstream counselling/psychotherapy approaches, such as those based on the Psychodynamic, Behavioural and Cognitive-Behavioural, Humanistic, and Contextual/Systemic perspectives.

Prerequisite: Psychology 2285 or consent of the department.

PSYC 4412 – Advanced Statistical Methods for Psychology

(3 credits) 2 hours lecture, 2 hours tutorial

This course reviews material from prior 2200-level statistics courses and introduces more advanced analyses. Students will learn to screen data and to conduct analyses including multi-factor ANOVA, planned comparisons, advanced regression, power and nonparametric tests. Brief conceptual introductions to multivariate technique (e.g. factor analysis, mediation analysis, MANOVA/MANCOVA) will be provided.

Prerequisites: Psychology 2211 or 2212 and Psychology 2213 with a minimum grade of B.

PSYC 4413 – Research Methods II (formerly PSYC 3323)

(3 credits) 2 hours lecture, 2 hours tutorial

This course extends research concepts, practices, and designs introduced in Psychology 2213 and 4412. Students will gain more in-depth hands-on experience with core elements of the research process while critiquing, designing and conducting small research projects. In addition, specialized techniques in social science research will be introduced. This course lays a foundation for honours thesis research.

Prerequisites: Psychology 2213 with a minimum grade of B and Psychology 4412.

PSYC 4451 – Atypical Child Development

(3 credits) 3 hours lecture

Psychology 4451 provides a critical examination of issues pertaining to developmental psychopathology during childhood and adolescence with an emphasis on the characteristics of the disorders of development, their determinants, outcomes and interventions. Contemporary research and theories as well as current approaches to intervention and prevention will be emphasized.

Prerequisites: Psychology 2213, 2285 and 3351.

PSYC 4455 – Advanced Topics in Adolescence

(3 credits) 3 hours lecture

Course seminars will examine the foundations and pathways, normative and psychopathological, of adolescent development. Small-scale hypothesis-driven studies and multilevel research designs are utilized to demonstrate the complexity of the study of adolescent development. Advances in theory and research pertaining to the biological, cognitive, emotional, and social development of adolescents, including emerging adulthood, will be emphasized.

Prerequisite: Psychology 3355.

PSYC 4465 – Advanced Topics In Cognition

(3 credits) 3 hours lecture

This course examines current topics in cognitive psychology while focusing on theories and research findings. The topics may vary from year to year and may include research methods, perception, attention, memory, knowledge, problem solving, decision making, and cognitive development and aging.

Prerequisites: Psychology 2213 and 2265.

PSYC 4483 – Advanced Topics in Social Psychology

(3 credits) 3 hours seminar

This course explores select topics in social psychology. Students will focus on these topics in depth by critically evaluating theory and research in the area. Sample topics include group dynamics, leadership, conflict resolution, nonverbal and deceptive communication, interpersonal relationships, altruism and aggression.

Prerequisites: Psychology 2245 and 2213.

PSYC 4485 – Advanced Topics in the Psychology of Abnormal Behaviour

(3 credits – TG) 3 hours lecture

This course surveys current controversies in clinical psychology related to legal and ethical issues, research, and the diagnosis and treatment of psychological disorders.

Prerequisites: Psychology 2213 and 2285.

PSYC 5110 – Honours Seminar I

(3 credits) 3 hours seminar

Psychology 5110 is a weekly seminar course for students in the honours stream. The seminar will provide students with a variety of practical, technical, and intellectual skills that are central to scientific research and to the development of their honours thesis. Emphasis will be placed on students' ability to think critically and independently.

Prerequisite: Psychology 3323.

Note: This course is restricted to students in the final year of their program who are officially accepted and enrolled in the Psychology Honours Program.

PSYC 5120 – Honours Seminar II

(3 credits) 3 hours seminar

Psychology 5120 is a weekly seminar course for students in the Honours stream. The seminar will provide students with the opportunity to conduct research in their area of interest, gather data, analyze and present findings, and develop a written thesis. Some projects may be non-empirical or theoretical, in which case certain steps (e.g., gathering data) may be modified accordingly. The honours thesis project is conducted under the direct guidance of a faculty supervisor from the Department of Psychology.

Prerequisites: Psychology 4412 and Psychology 5110.

Note: this course is restricted to students in the final year of their program who are officially accepted and enrolled in the Psychology Honours Program.

PSYC 3199, 4199 – Directed readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

RECREATION STUDIES (RECR)

RECR 1132 – Twentieth Century Arts and Crafts: An Introduction

(3 credits – TG) 3 hours lecture

This course is an experiential exploration of arts and crafts incorporating various media.

RECR 1147 – Introduction to Voluntarism

(3 credits – TG) 3 hours lecture

This course provides a study of the volunteer in the community. Discussion will include a brief history of voluntarism, the recruitment and training of volunteers and the role of volunteers in the planning and delivery of community programs. The focus of the course is on the principles of volunteer management in a wide variety of community service environments.

RECR 1175 – Introduction to Tourism

(3 credits – TG) 3 hours lecture

This course provides a survey of the history, principles, organization, planning, regional attitudes, behaviour, patterns and vocational opportunities in tourism.

RECR 1203 – Recreation and Community Development

(3 credits) 3 hours lecture

This course examines the model of community development and how it is used to empower individuals and communities. The recreation practitioner as a facilitator of community action will be the focus.

RECR 1207 – Commercial Recreation

(3 credits – TG) 3 hours lecture

This course is an investigation of the many providers of commercial recreation services.

RECR 1211 – Administration and Governance for Community Recreation

(3 credits – TG) 3 hours lecture

This course is a study of the principles and practices of administration and governance for community recreation.

RECR 1247 – Theory and Practice in Leadership

(3 credits – TG) 3 hours lecture

This course studies leadership theory and introduces leadership skills that apply the theory in personal, community and work settings. Students are introduced to leadership skills inventories that allow them to analyze and evaluate their leadership skills. Students will reflect on their leadership experiences and develop strategies to plan personal learning opportunities to maximize their leadership skills.

RECR 2217 – Recreation and Sport Tourism (formerly RECR 1217)

(3 credits – TG) 3 hours lecture

This course is an investigation of principles and practices of marketing in sport and recreation studies.

RELIGIOUS STUDIES (RELS)

RELS 1101 – World Religions: Western (formerly RELS 2201)

(3 credits – TG) 4 hours lecture

Introduction to Western religions including; Judaism, Christianity and Islam.

RELS 1103 – World Religions: Eastern (formerly RELS 2203)

(3 credits – TG) 4 hours lecture

Introduction to Eastern religions such as Jainism, Hinduism, Buddhism, Confucianism and Taoism.

RELS 1105 – The Nature of Religion (formerly RELS 2205)

(3 credits – TG) 4 hours lecture

An introduction to the study of religion which relates religious traditions to contemporary thought and culture.

RELS 2207 – The Religion of the Hebrew Bible/Old Testament (formerly RELS 3301)

(3 credits – TG) 3 hours lecture

An introduction to the critical study and reading of the books of the Hebrew Bible/Old Testament in English translation. The course focuses on the religious beliefs and institutions of ancient Israel.

RELS 2208 – Religion and Popular Culture

(3 credits) 3 hours lecture

This course examines religious beliefs, practices, institutions, etc as expressed in works of popular culture. The course may focus on religion in a specific type of media (e.g., film, TV, literature, art) or on a religious theme (e.g., apocalypticism, the environment).

RELS 2209 – The Nature and Function of Religious Experience (formerly RELS 3309)

(3 credits – TG) 3 hours lecture

A study of ancient views and some contemporary psychological analyses of the nature and function of religious experience. Such religious phenomena as the genesis and development of religious behaviour, conversion and mysticism will be examined.
Prerequisite: One of Religious Studies 1101, 1103, 1105 or a university-level course in Psychology.

RELS 2215 – World Christianity (formerly RELS 3315)

(3 credits – TG) 3 hours lecture

This course examines Christianity as a global phenomenon, considering important issues and movements around the world. Topics include types of Christianity, Mission, Ecumenism, Pentecostalism, Fundamentalism, social justice issues, roles and status of women, globalization, secularization, and relations between Christianity and other religious traditions.

RELS 2243 – Religion and Social Morality (formerly RELS 3343)

(3 credits – TG) 3 hours lecture

The examination of religious views on the moral issues involved in human society, and on the moral implications of key social, economic, political and cultural elements in the modern world.

Prerequisite: Religious Studies 1105 or Philosophy 1149 or consent of the department.

RELS 2251 – Sikhism (formerly RELS 3351)

(3 credits – TG) 3 hours lecture

The central theme is the construction of Sikh identity. Particular attention will be given to the historical context from which Sikhism arose, the worldviews and goals it articulates, the development and content of its authoritative literature, and its religious practices. Sikhism outside of the Indian context may also be discussed.

Prerequisite: Religious Studies 1103.

RELS 2252 – Hinduism

(3 credits – TG) 3 hours lecture

This course is an examination of the major religious developments in Hinduism from ancient times to the modern period. The course introduces students to the central thinkers, literature, beliefs, and practices associated with Hinduism.

Recommended Preparation: Religious Studies 1103.

RELS 2255 – Judaism

(3 credits) 3 hours lecture

This course provides an introduction to the history, practices, beliefs, institutions and literature of the Jewish religion, from biblical times until the modern era. The course will describe the distinctive features associated with Judaism in different time periods, and the values, beliefs, and rituals that developed in response to the historical and cultural settings encountering Judaism.

Prerequisite: Religious Studies 1101 or consent of the department.

RELS 2279 – The Buddhist Tradition (formerly RELS 3379)

(3 credits – TG) 3 hours lecture

A study of the doctrinal development, and practices of the Buddhist tradition, including treatment of topics such as early Buddhism, Mahayana, and Tibetan Vajrayana.

Prerequisite: Religious Studies 1103.

RELS 2281 – Women and Religion (formerly RELS 3381)

(3 credits – TG) 3 hours lecture

An examination of the origins, content and influence of the view of women contained in the religious traditions and expressed in the religious practices of West and East.

Prerequisite: One of Religious Studies 1101, 1103, 1105 or any Women's Studies course.

RELS 2283 – The Beginnings of Christianity (formerly RELS 3383)

(3 credits – TG) 3 hours lecture

The history, literature and religion of the early Christians.

Prerequisite: Religious Studies 1101 or consent of the department.

RELS 3281 – Advanced Studies in Women and Religion

(3 credits – TG) 3 hours lecture

This course provides an examination of the work of contemporary women writers on religious traditions and/or selected issues in religion and its study.

Prerequisite: Religious Studies 2281.

RELS 3302 – Selected Topics in Religion

(3 credits – TG) 3 hours lecture

This course provides an in-depth examination of a selected topic or theme in the study of religion. Possible topics include religion and the body; religion and the environment; religious fundamentalism; religion and sexuality.

RELS 3322 – Religion in the Americas

(3 credits – TG) 3 hours lecture

This course examines religion in the Americas today (especially Canada, the US, Mexico and Brazil) along with relevant historical developments. Topics may include the impacts of colonization and immigration, indigenous traditions, Church-State relations, folk Catholicism, liberation theology, Afro-Christian traditions and Spiritism, and (neo-)Pentecostalism.

Prerequisite: Religious Studies 1101, 1103 or 1105.

Recommended Preparation: Religious Studies 2215.

RELS 3325 – Prophets and Prophecy

(3 credits) 3 hours lecture

This course examines the nature and function of prophets and prophecy. Normally, the course will consider the social setting of prophetic movements in the Ancient Near East, concentrating on the literary prophets of the Hebrew Bible and their role in society and theological contributions. The course may also examine prophets and prophecy across a range of historical, cultural, and religious contexts.

Prerequisite: Religious Studies 2207, 2215, 2283, or 2255.

RELS 3331 – Religious Perspectives on Suffering

(3 credits – TG) 3 hours lecture

The course will examine and critique positions that traditional philosophers of religion have taken in response to the fact of suffering, as well as those positions taken by a variety of nonwestern religious traditions.

Prerequisite: One of Religious Studies 1101, 1103, 1105 or consent of the department.

RELS 3333 – Religion, Death and Mortality

(3 credits – TG) 3 hours lecture

This course consists of an examination of various religious perspectives on death, mortality and the afterlife, as well as the death rituals of different religions.

Prerequisite: Religious Studies 1105 or consent of the department.

RELS 3335 – Apocalyptic Thought

(3 credits) 3 hours lecture

This course examines the apocalyptic mindset, its literature, and social influences. It discusses understandings of divine revelation (its purpose, and its effect on individuals), apocalyptic sects, and their surrounding societies. The course may discuss a range of apocalyptic thinking from the nature based cultures of the Ancient Near East to globalized apocalyptic modern movements.

Prerequisite: Religious Studies 2207, 2215, 2283 or 2255.

RELS 3352 – Advanced Studies in Hinduism

(3 credits) 3 hours lecture

This course is an in-depth study of a specific Hindu thinker, text, movement, or issue. Course content will vary from year to year. Possible topics include: the Bhagavad Gita, Gandhi, the poet saints, Sankara, the Upanisads, religious law, sacrifice, god, etc.

Prerequisite: Religious Studies 1103.

Recommended Preparation: Religious Studies 2252.

RELS 3353 – Advanced Studies in Sikhism

(3 credits) 3 hours lecture

This course is an in-depth study of a specific Sikh thinker, text, movement, or issue. Course content will vary from year to year. Possible topics include the Adi or Dasam Granths, Guru Arjan, the Namdhari tradition, the rahit traditions, religious syncretism, Singh Sabha movement, etc.

Prerequisite: Religious Studies 1103.

Recommended Preparation: Religious Studies 2251.

RELS 4403 – Asian Diasporas

(3 credits – TG) 3 hours lecture

This course considers the notions of religious and trans-national identities in and among Asian diasporas. Primary attention will be given to Hindu, Sikh, and Buddhist communities. Special consideration will be given to those communities in the local Calgary setting.

Prerequisite: Religious Studies 2252 or 2251 or 2279.

RELS 4452 – India and The West

(3 credits – TG) 3 hours lecture

This course examines the dynamic and often ambiguous encounter between India and the West, including the resulting process of self-representation and interpretation. It also considers the various ways in which Indians and the West have sought to construct, represent, understand, and critique both themselves and the other as a result of this encounter.

Prerequisite: Religious Studies 2252.

Recommended Preparation: Religious Studies 3352.

RELS 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

ROMANCE STUDIES (ROST)

ROST 1101 – Topics in Romance Culture (formerly ROST 2299)

(3 credits – TG) 3 hours lecture

This interdisciplinary course will provide an introduction to social life, art and architecture, and the economic and political systems of three of the four following cultures of the Mediterranean: Arabic, French, Italian and Spanish Classroom activity will be augmented by cultural activities.

ROST 4401 – Mediterranean Cultural Discovery

(3 credits – TG) 3 hours lecture

This interdisciplinary course will provide a cultural opportunity to students and an experiential knowledge of social life, art, architecture, economic and political systems of different Mediterranean regions: France, Spain, Italy and other European, North African or Middle Eastern cultures.

Prerequisite: Any four 1000, 2000 or 3000 Humanities (HUMN) courses or consent of the department.

Recommended Preparation: Romance Studies 1101.

SCIENCE (SCIE)

SCIE 0110 – Introduction to Science

(0 credits)

This is a credit-free upgrading course; special fees apply. Topics include zoology, botany, microbiology, biochemistry, chemistry, Newtonian and post-Newtonian physics.

Note: This course is the equivalent of Science 10. Not intended for science majors.

SCIE 0120 – Science, Technology and Society

(0 credits)

This is a credit-free upgrading course; special fees apply. Topics include telecommunications, computers, nuclear, hydroelectric and other power sources, extinction and environmental issues, cancer and treatment, vaccines, AIDS, genetic engineering and careers involving new technologies.

Note: This course is the equivalent of Science 20. Not intended for science majors.

SOCIAL SCIENCE (SOSC)

SOSC 0130 – Canadian History and Government in Perspective

(0 credits) 3 hours lecture

This course imparts a knowledge and understanding of the multiple perspectives in the historical development of regions that eventually comprised early and modern Canada. It also interprets those developments in their European and North American contexts incorporating a broad framework of philosophical precepts and perspectives that include Ideology, Individualism, Collectivism and Liberalism combined in the Canadian context with social, political, economic and legal historical institutions. This course will provide opportunities for students to develop the attitudes, skills and knowledge that will enable them to become engaged, active, informed and responsible citizens.

Corresponding Alberta High School Equivalent: Social Studies 30.

SOCIAL WORK (SLWK)

SLWK 1114 – Introduction to Social Work Practice

(3 credits) 3 hours lecture

This course provides an introduction to all aspects of Social Work practice from a generalist perspective. Social Work principles, ethics, theories and models of practice are discussed, while an understanding of oppression and social justice are emphasized.

SLWK 1187 – Social Welfare Policies and Issues

(3 credits) 3 hours lecture

This course examines the evolution of the Welfare State and how social welfare policy is developed. The course will review and analyze contemporary social problems, policies and issues relevant to Social Work practice in the context of social justice and advocacy for change.

SLWK 1215 – Social Work Methods

(3 credits) 3 hours lecture

This methods course provides students with an opportunity to develop the knowledge, skills and attitudes to assess client needs and to implement a social work model of intervention.

Prerequisite: Social Work 1114.

SLWK 1216 – Counselling Skills

(3 credits) 3 hours lecture

This course concentrates on the development of social work interviewing and counselling skills, emphasizing strengths-based practice. It is experiential, and students will be required to participate in simulated counselling interviews.

Prerequisites: Interdisciplinary Studies 1240 and Social Work 1114.

SLWK 1287 – Social Work Practicum I

(6 credits) 3 hours tutorial biweekly, 350 hours practicum

This course involves supervised study and practice. Students spend three days a week in a social service agency. After an initial orientation period, students are expected to assume responsibility for assigned agency duties in order to enhance their knowledge and skill in social work methods. During agency work, attention is given to teaching students specific skills, developing competence in terms of offering adequate services to clients and participating in the overall agency program. Seminars will focus on integrating relevant social work knowledge, with students' work in the field.

Prerequisites: Interdisciplinary Studies 1240, Social Work 1114 and 1187.

Co-requisite: Social Work 1215 and 1216.

SLWK 2217 – Administration in Social Work Organizations (formerly SLWK 1217)

(3 credits) 3 hours lecture

This course involves studies of detailed aspects of social service administration

Prerequisite: Social Work 1287.

Recommended: Social Work 2221.

SLWK 2218 – Social Work with Groups (formerly SLWK 1218)

(3 credits) 3 hours lecture

This course is designed to develop social work skills for working with groups through a combination of lectures, observation, and experiential learning. The stages of group development, group roles and norms, theoretical frameworks, intervention, group design, implementation and evaluation will be addressed.

Prerequisites: Interdisciplinary Studies 1240 and Social Work 1216.

SLWK 2221 – Community Development (formerly SLWK 1221)

(3 credits) 3 hours lecture

This course provides students with an opportunity to develop beginning skills in community organization and development. The focus of the course is on practice rather than theory and students will be evaluated on their ability to practice social work with a community as a client.

SLWK 2222 – Social Work with Families (formerly SLWK 1222)

(3 credits) 3 hours lecture

This course is designed to provide students with a framework for beginning to work with diverse families. The course will help students develop an understanding of the interactive influence of families, individuals, and society, as well as gain an appreciation of the diversity of family dynamics. Students will learn how to engage and assess families as well as apply effective interventions to support them in developing strengths.

Prerequisites: Social Work 1215 and 1216.

SLWK 2223 – Social Work and Mental Health (formerly SLWK 1223)

(3 credits) 3 hours lecture

This course provides students with an understanding of the many interrelated factors that affect individuals' mental health. The role of social workers in working with mental health consumers and understanding and addressing mental health issues, across the range of social work practice is examined.

Prerequisites: Social Work 1114 and 1215.

SLWK 2297 – Social Work Practicum II (formerly SLWK 1297)

(6 credits) 3 hours tutorial biweekly, 357 hours practicum

This course involves supervised study and practice. Students spend three days a week in a social service agency. After an initial orientation period students are expected to assume full responsibility for cases in order to enhance their knowledge and skill in social work methods and actively engage in social work practice. During agency work attention is given to teaching students specific skills, developing competence in terms of offering adequate service to clients and participating in the overall agency program.

Prerequisite: Social Work 1287.

Note: Social Work 2297 is open only to Social Work students who have successfully completed all Social Work courses in Semesters 1, 2 and 3.

SLWK 3301 – Children's Mental Health

(3 credits) 3 hours lecture

This course provides students with an understanding of many issues that affect the mental health of children including knowledge of the major mental disorders in children, factors contributing to these disorders, therapeutic interventions, suicide and suicide risk assessment, the mental health system for children and the role of social workers.

SLWK 3331 – International Community Development

(3 credits) Internet Delivery

This interdisciplinary course will provide students with an overview of International Community Development issues such as poverty, health care, education, human rights, foreign aid and controversy. Students will be encouraged to examine topics such as sustainable development, child soldiers, and the world AIDS crisis, from the unique perspective of their individual field of study.

SLWK 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

SOCIOLOGY (SLGY)

SLGY 1101 – Introduction to Sociology (formerly SLGY 2201)

(3 credits – TG) 3 hours lecture

This course introduces students to the discipline of Sociology. Sociology is the study of human social life in all its forms. A variety of fields within the discipline, such as social theory, culture, socialization and interaction, inequality, gender, race and racialization, and families will be explored throughout the course.

SLGY 1103 – The Sociological Imagination

(3 credits – TG) 3 hours lecture

This course expands the historical, philosophical, and theoretical developments covered in Introduction to Sociology (SLGY 1101). Students will further develop the conceptual and methodological tools required to conduct critical and reasoned analyses of social life. Topics to be covered include research methods, ethics, sexualities, religion, non-conformity, mass media, and globalization.

Prerequisite: Sociology 1101.

Note: Required for Sociology Majors and Honours.

SLGY 2229 – Crime and Society (formerly SLGY 3319)

(3 credits – TG) 3 hours lecture

This course serves as an introduction to the sociological study of crime. The goal is to critically assess crime as it intersects with race, class, and gender. Students will become familiar with classical and contemporary theories of crime as well as strategies toward rehabilitation or social change.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

SLGY 2231 – Classical Sociological Theory (formerly SLGY 3331)

(3 credits – TG) 3 hours lecture

This course offers students an overview of the development of sociological theory with emphasis on the period from the nineteenth century to the Second World War. Theorists such as Marx, Durkheim and Weber will be reviewed and analysed.

Prerequisites: Sociology 1101 and 1103.

SLGY 2232 – Introduction to Sociological Research Methods

(3 credits – TG) 3 hours lecture

This course is an introduction to the practice and principles of social research. Students will learn about the assumptions, dilemmas, choices, and practices associated with both qualitative and quantitative sociological research. Students will be required to undertake a project and to interpret research findings from an informed perspective.

Prerequisites: Sociology 1101 and 1103.

SLGY 2233 – Sociology of Gender (formerly SLGY 3303)

(3 credits – TG) 3 hours lecture

Gender operates on four dimensions in Canadian society: within individuals; through interaction with others; in the features of social institutions such as work, law, and family; and in the norms and values that shape the socio-cultural landscape. This course will introduce students to gender on each of these dimensions.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

SLGY 2235 – Sociology of Health and Illness

(3 credits) 3 hours lecture

This course examines health, illness, and health care systems from a critical and structural perspective. Students will examine how various understandings of health and illness, and the institutions that monitor them, have emerged and changed geographically and historically. In addition, issues such as viability of the Canadian public health care system and privatization will be discussed.

Prerequisite: Sociology 1101.

**SLGY 2245 – Mass Communication
(formerly SLGY 3345)**

(3 credits – TG) 3 hours lecture

This course engages in an analysis of the pervasive presence of mass media in modern society and the many ways that various forms of media representation intersect with mass audiences. An overview of the development of modern media is extended to include a summary of the key perspectives on media texts and how they position the audience.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

**SLGY 2253 – Urban Sociology
(formerly SLGY 3353)**

(3 credits – TG) 3 hours lecture

The course introduces students to the field of urban sociology. Through a focus on social interaction, students will investigate how power and inequality are produced, reproduced and also destabilized in urban social spaces. Specific topics that will be covered include theories of the city, urban ethnography, urban subcultures, forms of urban social resistance and urban design and control.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

**SLGY 2265 – Social Stratification and Inequality
(formerly SLGY 3365)**

(3 credits – TG) 3 hours lecture

This course introduces theories of stratification and inequality and explores different types of social stratification systems. There is an emphasis on the forces that contribute to the maintenance and disruption of social inequality. The focus is primarily on social inequality in Canada but cross cultural and global inequality will also be considered.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

**SLGY 2271 – Sociology of Families
(formerly SLGY 3371)**

(3 credits – TG) 3 hours lecture

This course offers a sociological investigation into families. The focus will be on theories of family and the social history of families. Some specific topics covered include the structure and function of families, family systems, family life stages (dating, marriage, parenting and old age), diverse family forms, and problems in family life such as violence and divorce.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

**SLGY 2273 – Sociology of Aging
(formerly SLGY 3373)**

(3 credits – TG) 3 hours lecture

Individuals experience changing roles, activities, and relationships as they age. In addition, population aging, caused by declining birthrates and increasing life expectancies, has profound implications for social structures, norms, and values. This course examines the social aspects of both individual and population aging.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

**SLGY 2275 – Theories of “Race” and Ethnicity
(formerly SLGY 3375)**

(3 credits – TG) 3 hours lecture

This course engages in a critical historical/theoretical investigation of the race concept. The focus is on race and ethnicity as experienced in everyday life. There is strong emphasis on reading and evaluating scholarly work on race/ethnicity and, in particular, on racism. While race and ethnic oppression are stressed, forms of resistance to racism and collective solidarity based on anti-racist organizing are also explored.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

**SLGY 2277 – Sociology of Religion
(formerly SLGY 3377)**

(3 credits – TG) 3 hours lecture

This course offers an introduction to sociological concepts and theories in the study of religion. Questions about the structure of religious organizations, creation of meaning, secularization and religious diversity will be addressed.

Prerequisite: Sociology 1101.

Recommended preparation: Sociology 1103.

SLGY 3233 – Sociology of Sexualities

(3 credits – TG) 3 hours lecture

This course examines sexualities through a critical sociological lens. The goal is to track how and why the predominant conceptions of sexuality have been constructed, with particular attention to the role of binary sexualities and subsequent concepts of ‘deviation,’ as well as how sexuality is used in and by mechanisms/institutions of power

Prerequisite: Any one of Sociology 2229, 2231, 2232, 2233, 2245, 2253, 2265, 2271, 2273, 2275, 2277, or consent of the department.

SLGY 3309 – The Sociology of the Body

(3 credits – TG) 3 hours lecture

This course focuses on matters of the body which affect social life. Through an examination of theoretical articles upon such topics as race, gender, disease, sexuality, smell, and appearance, we will learn about the many ways perceptions of bodies affect our lives and how society in turn defines and influences appearance and behaviour.

Prerequisite: Any one of Sociology 2229, 2231, 2232, 2233, 2245, 2253, 2265, 2271, 2273, 2275, 2277, or consent of the department.

SLGY 3315 – Sociology of Health and Illness

(3 credits) 3 hours lecture

This course undertakes a sociological examination of health and illness. This course looks at health, organization and history of health care, and changing perceptions of health and illness. Particular attention will be paid to the impact of class, race, gender, ability, and sexuality on the prevalence, incidence, conceptualization and understanding of health in Canada.

Prerequisites: Any three of Sociology 2275, 2277, 2229, 2231, 2232, 2233, 2245, 2253, 2265, 2271, 2273.

**SLGY 3317 – Young Offenders and the Law
(formerly SLGY 2217)**

(3 credits – TG) 3 hours lecture

In most societies, people below a certain age are thought to be less than fully culpable or cognizant of the consequences of their actions. As a result, juvenile justice systems are established to deal with them separately from adults. Using sociological theory, this course will consider Canada’s strategies for addressing young people, illegal activities, and legal consequences.

Prerequisites: Sociology 2229 and one of Sociology 2231, 2232, 2233, 2245, 2253, 2265, 2271, 2273, 2275, 2277 or consent of the department.

SLGY 3321 – Quantitative Methods and Statistics

(3 credits – TG) 2 hours lecture, 2 hour lab

This course focuses on the development of quantitative analytical skills in sociology. Students will study quantitative methods for gathering, preparing, analyzing, and interpreting social data, and also will be introduced to both descriptive and inferential statistics (including bivariate and simple multivariate analysis). They will also be required to undertake secondary data analysis.

Prerequisites: Sociology 2232 and one of Sociology 2229, 2231, 2233, 2245, 2253, 2265, 2271, 2273, 2275, 2277 or consent of the department.

Note: required course for sociology major and honours students.

SLGY 3323 – Qualitative Research Methods

(3 credits – TG) 2 hours lecture, 2 hour lab

This course presents an overview of qualitative methods in sociological research. Students will examine the strengths and weaknesses of qualitative methods such as interviewing techniques, fieldwork, and the case study approach, as well as how their lives - as researchers - intersect with and influence the people and situations they study.

Prerequisites: Sociology 2232 and one of Sociology 2229, 2231, 2233, 2245, 2253, 2265, 2271, 2273, 2275, 2277 or consent of the department.

SLGY 3333 – Contemporary Social Theory

(3 credits – TG) 3 hours lecture

This course explores several major currents of contemporary social thought since the World War Two era. Some of the theoretical perspectives that will be investigated are Western Marxism, Post-Structuralism, Post-Modernism, and theories of Globalisation/Post-Colonialism. These will be explored through their applicability to sociological issues of interest, such as subjectivity, agency/structure, power, and modernity.

Prerequisites: Sociology 2231 and one of Sociology 2229, 2232, 2233, 2245, 2253, 2265, 2271, 2273, 2275, 2277 or consent of the department.

SLGY 3335 – Women and Work

(3 credits) 3 hours lecture

Gender has a profound impact on the opportunities and experiences of women in both paid and unpaid work. This course will analyze the socially constructed gendered nature of work.

Prerequisite: Sociology 2233 or consent of the department.

SLGY 3351 – Economic Sociology

(3 credits – TG) 3 hours lecture

Using a sociological lens to examine markets, networks, social stratification, economic development and globalization reveals ways in which these diverse economic phenomena are embedded in societies. In addition, the sociological approach reveals how consumption is connected to status symbols, how gender affects work and pay, and how international production and trade can challenge national sovereignty.

Prerequisites: Sociology 2265 and one of Sociology 2229, 2231, 2232, 2233, 2245, 2253, 2271, 2273, 2275, 2277 or consent of the department.

SLGY 3370 – The Socialized Self

(3 credits – TG) 3 hours lecture

Drawing on a number of interpretive sociological perspectives, this course explores the process of socialization and the related process of the development of the self. Key concepts in the study of socialization such as role, identity, institution and ideology will be critically investigated, as will the role of socialization processes in the perpetuation of inequality and domination.

Prerequisites: Sociology 2275 and one of Sociology 2229, 2231, 2232, 2233, 2245, 2253, 2265, 2271, 2273, 2277 or consent of the department.

SLGY 3379 – Sociology of Divorce

(3 credits) 3 hours lecture

In this course we study the patterns and practices that surround the process of divorce, in order to understand the challenges associated with unworkable marriages, their dissolution, and the post-divorce experience. The diverse impacts upon both adults and children are examined.

Prerequisite: Sociology 2271 or consent of the department.

SLGY 4411 – Sociology of Disaster

(3 credits) 3 hours lecture

This course is an introduction to the sociological study of disasters and their effect on human populations. The goal of the course is to understand how floods, hurricanes, heat waves, oil spills and other catastrophic events provide a “strategic research site” where we can refine our ideas and assumptions about social life and inequality.

Prerequisite: Any one of Sociology 3233, 3309, 3317, 3321, 3323, 3333, 3351, 3370 or consent of the department.

SLGY 4415 – (De)Constructing Health and Medicine

(3 credits) 3 hours lecture

This course examines the changing conceptions of medicine and medical knowledge. More specially, it looks at how health, illness, and disease are defined and the implications of such representations and understandings. Particular attention is given to the ways in which medical knowledge invokes, represents, and implicates gender, race, class and sexuality.

Prerequisites: Sociology 3315 and one of Sociology 3233, 3309, 3317, 3321, 3323, 3333, 3351, 3370, or consent of the department.

SLGY 4419 – Mind and Society

(3 credits – TG) 3 hours lecture

Drawing on existential sociology and related perspectives (e.g., phenomenology and symbolic interactionism) and insights from the Sociology of Knowledge, this course critically examines one of the most elusive of sociological phenomena, the “mind” and how this social construct is intimately linked to the patterns we perceive as “society”.

Prerequisites: Sociology 3351 or 3233 and one of Sociology 2275 or 3370 or consent of the department.

SLGY 4421 – Economic Development and Social Change

(3 credits) 3 hours lecture

This course examines the processes of global economic development and social change through a comparative historical lens. It pays particular attention to how the conceptualization of development has varied according to changing societal conditions. The course also explores the controversies within sociology on how best to achieve progressive national development.

Prerequisites: Sociology 3351 and one of Sociology 3233, 3309, 3317, 3323, 3333, 3370 or consent of the department.

SLGY 4431 – Structure and Subjectivities

(3 credits) 3 hours lecture

Located in the debates between micro and macro theories of society, this course explores the connections between structure and agency through the ways in which the self is constructed. The goal is to understand how our sense of self is constituted to allow governance, but also to allow agency in the form of resistance.

Prerequisites: Sociology 3333 and one of Sociology 3233, 3309, 3317, 3321, 3323, 3351, 3370, or consent of the department.

SLGY 5010 – Intersections in Social Life

(3 credits) 3 hours seminar

This seminar-based course gives students an opportunity to assess the interlocking nature of the forces of social domination such as class, race, gender, sexuality, religion, and politics. Students will investigate such intersections in social life through critical reading and writing and through engagement with the process of individual and collective reflection.

Prerequisites: Sociology 3321, 3323 and 3333.

SLGY 5110 – Honours Seminar I

(3 credits) 3 hours seminar

Sociology 5110 is a weekly seminar course for students in the Honours stream. The course provides students with the necessary skills to successfully define a research question, explore its relevant theoretical and/or methodological issues as well as how to construct an appropriate research design. The course culminates in the defence of an Honours thesis proposal.

Prerequisites: Sociology 3321, 3323 and 3333.

Note: This course is restricted to students in the final year of their program who are officially accepted and enrolled in the Sociology Honours Program.

SLGY 5120 – Honours Seminar II

(3 credits) 3 hours seminar

This seminar course for Honours students targets the development of the practical skills students need to complete their Honours Thesis. Seminars will also provide support for students as they face the challenges of independent research. The course culminates in the defence of an Honours thesis.

Prerequisite: Sociology 5110.

Note: this course is restricted to students in the final year of their program who are officially accepted and enrolled in the Sociology Honours Program.

SLGY 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

SPANISH (SPAN)

Note: Placement Test: Students with Spanish language knowledge must consult the Spanish section of the Department of Languages and Cultures to be placed in a course corresponding to their ability. Placement tests will be administered in order to assess prior knowledge. Students should contact the Department to make an appointment to complete their placement test at least within two weeks before the beginning of classes each semester. The Spanish section reserves the right to place students in the language course that is appropriate to their level of language proficiency.

SPAN 1101 – Beginners' Spanish I (formerly SPAN 2201)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course offers a comprehensive introduction of the Spanish language to students with no prior knowledge. It includes training in listening, speaking, reading and writing of Spanish in its cultural context.

Note: May not normally be taken for credit by students with Spanish 30 or equivalent.

SPAN 1103 – Beginners' Spanish II (formerly SPAN 2203)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course is intended for students continuing from Spanish 1101. Students will develop basic communicative skills as well as further develop skills in reading, writing, listening and speaking Spanish.

Prerequisite: Spanish 30, 1101 or equivalent.

SPAN 2211 – Intermediate Spanish I (formerly SPAN 3301)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course builds on basic knowledge and skills. It offers further development of communication skills in Spanish as well as the study of some cultural aspects of the Spanish-speaking world.

Prerequisite: Spanish 1103 or consent of the department.

SPAN 2213 – Intermediate Spanish II (formerly SPAN 3303)

(3 credits – TG) 4 hours lecture, 1 hour lab

This course is the continuation of Spanish 2211. It deals with more difficult and complex grammatical structures and also provides further study of social and cultural aspects of the Spanish-speaking world.

Prerequisite: Spanish 2211 or consent of the department.

SPAN 2219 – Contemporary Spanish Culture and Society

(3 credits) 3 hours lecture

This course offers an introduction to contemporary Spanish culture and society, from the economic modernization in the 1960's to modern times. Students will explore topics ranging from race, nationalism and identity, to gender and faith. They will also learn about the importance of place, home life, schooling and the workplace.

Note: This course is taught in English; no knowledge of Spanish is required.

SPAN 2221 – Contemporary Hispanic Cultures and Oral Practice (formerly SPAN 3321)

(3 credits – TG) 3 hours lecture

This course explores specific features of the various Hispanic cultures in contemporary society. It offers a study of current issues in the Hispanic world as seen through a variety of sources such as short stories, articles, video programs and the web. Students are given opportunities to develop their oral skills by making presentations and participating in guided interactions. They can also further develop their writing skills through directed writing practice on the topics and issues analyzed in class.

Prerequisite: Spanish 2211 or consent of the department.

SPAN 2223 – Introduction to Textual Analysis and Composition (formerly SPAN 3323)

(3 credits – TG) 3 hours lecture

This course focuses on the development of writing skills through an analysis of cultural readings taken from journalistic, scientific and literary texts as well as from other media. Students will learn composition strategies and how to apply them in their writing. Various styles will be explored in class, including dialogues, summaries, narrations and essays.

Pre or Co-requisite: Spanish 2211 or consent of the department.

SPAN 3305 – High Intermediate Spanish

(3 credits – TG) 3 hours lecture

This course provides students with the opportunity to attain a high-intermediate level of language proficiency and to gain a more in depth understanding of Hispanic cultures. The main focus is on the exploration and analysis of oral and written contemporary texts from the Spanish-speaking world. A strong emphasis is placed on vocabulary enrichment, grammatical accuracy as well as the improvement of oral and written discourse.

Prerequisites: Spanish 2213 and 2223 or consent of the department.

SPAN 3309 – Critical Thinking in Spanish

(3 credits – TG) 3 hours lecture

This course is designed to develop students' critical thinking in Spanish. Students learn techniques for analyzing, comparing, summarizing and persuading in the target language. They explore, discuss and reflect on cultural issues in literary texts and other sources dealing with journalistic, social and political current events. A strong emphasis is placed on learners' development of language proficiency in terms of listening, speaking, reading and writing skills.

Prerequisites: Spanish 2213 and 2223 or consent of the department.

SPAN 3312 – Hispanic Cinema

(3 credits) 3 hours lecture

This course provides an introduction to Hispanic Cinema from Spain, Latin America, and the US. Students will further their development of Spanish language proficiency through the discussion and analysis of Hispanic cultures, historic events and sociopolitical currents as they are represented in film.

Prerequisites: Spanish 2213 and 2223 or consent of the department.

SPAN 3313 – Spanish in Contact with Other Languages

(3 credits) 3 hour lecture

Taught in Spanish this course discusses the development and expansion of the Spanish language and examines its status and role in comparison to other languages with which it comes into contact. Students will become familiar with concepts such as bilingualism, diglossia, code-switching, language attitude, language planning and language maintenance.

Prerequisites: Spanish 3305 and Spanish 3309.

SPAN 3315 – Introduction to Literature from Spain and Latin America

(3 credits) 3 hours lecture

This advanced Spanish course will explore a variety of texts from Spain and Latin America such as the picaresque novel, the “modernismo”, the boom and post-boom of Latin American literature, and the “Generación X” in Spain. Along with the specific analysis of texts, the historical context of each author and movement will be considered.

Prerequisites: Spanish 3305 and Spanish 3309, or consent of the department.

SPAN 3317 – Spanish Literature from the Golden Age to 19th Century

(3 credits) 3 hours lecture

This advanced Spanish course explores the significant periods in Spanish Peninsular Literature. From the classics of Cervantes to the highly acclaimed works of Emilia Pardo Bazán, this course emphasizes the evolution of the novel in Spain. Along with the specific analysis of texts, the historical context of each author and movement will be considered.

Prerequisites: Spanish 3305, 3309 and 3315 or consent of the department.

SPAN 3319 – Twentieth-Century Spanish American Testimonial Literature

(3 credits) 3 hours lecture

This course introduces the main concepts and manifestations of Twentieth-Century Spanish American testimonial narrative. Students will review texts and relate them to their different socio-historical contexts, while examining issues such as truth, fiction and memory, collective and individual voices, and the subaltern subject in testimonial literature. Readings will be complemented with audio-visual materials.

Prerequisites: Spanish 3305 and 3309 or consent of the department.

SPAN 3331 – Business Spanish I

(3 credits) 3 hours lecture

This course introduces students to the language and context of business. Spanish Students are exposed to a variety of authentic texts and commercial environments. They also analyze cultural perspectives of the business world in various Spanish-speaking countries.

Prerequisites: Spanish 3305 and Spanish 3309.

SPAN 3335 – Translation I

(3 credits) 3 hours lecture

This course is an introduction to the theory and practice of translation. Short written texts of a general nature from a variety of topics will be analyzed and translated. Students will also work on Spanish syntax, semantics, dialectal differences and cultural and stylistic components. Students will do English to Spanish and Spanish to English translations.

Prerequisites: Spanish 3305 and Spanish 3309 or consent of the department.

SPAN 3341 – Spanish-American Literature from Colonial Times to the 19th Century

(3 credits) 3 hours lecture

This course presents an overview of the evolution and development of literatures of Spanish America from their origins to the 19th century. It exposes students to in-depth reading of representative texts from different periods and gives evidence of the correlation between literary discourse and historical circumstances.

Prerequisites: Spanish 3305 and Spanish 3309 or consent of the department.

SPAN 4401 – Advanced Spanish

(3 credits – TG) 3 hours lecture

This course aims at developing students' Spanish language proficiency at an advanced level. In addition to working with a variety of complex texts, students will produce one major project in Spanish in which they will demonstrate their ability to research and present a topic from another area of their program of studies.

Prerequisites: Spanish 3305 and 3309 and two of Spanish 3335, 3312, 3331, 3313, 3341 or consent of the department.

SPAN 4411 – Twentieth Century Literature from Spanish America

(3 credits) 3 hours lecture

This course will explore a variety of Spanish American texts by authors such as Quiroga, Borges and Carpentier. Different types of writing, including naturalist, fantastic and magic realism, will be explored. Along with the specific analysis of texts, the sociocultural context of each writer and his/her historical period will be considered.

Prerequisite: Spanish 4401 or consent of the department.

SPAN 4413 – Teaching Spanish as a Second Language

(3 credits) 3 hours lecture

This course provides students with a comprehensive overview of second language teaching methodologies as well as their relationships with theories on the nature of language and second language acquisition. Students will engage in a range of theoretical, pedagogical and reflective activities. They will write lesson plans, observe classes and do teaching demonstrations.

Prerequisite: Spanish 4401 or consent of the department.

SPAN 4415 – Twentieth-Century Literature from Spain

(3 credits) 3 hours lecture

This advanced Spanish course will explore a variety of texts of twentieth-century literature from Spain. This course explores different literary movements such as the “Generación del 27”, “Generación del 50” and “Generación X”. Along with the specific analysis of texts, the historical context of each author and movement will be considered.

Prerequisite: Spanish 3315 or consent of the department.

SPAN 4417 – Contemporary Women's Literature from Spain and Latin America

(3 credits) 3 hours lecture

This advanced Spanish course explores a variety of texts from Spain and Latin America in order to develop an understanding of contemporary Hispanic literature written by women. This course investigates how language, history, ideology, popular culture, and politics shape the experience of contemporary women's literature in Spain and Latin America.

Prerequisites: Spanish 3305, 3309 and 3315, or consent of the department.

SPAN 4421 – Spanish Pragmatics and Instruction

(3 credits) 3 hours lecture

This course is an introduction to Pragmatics and Discourse Analysis as they relate to second language teaching and learning. It explores the nature of oral communication and a functional linguistic view of language. It also focuses on the practicalities of selecting and producing teaching materials to develop pragmatic language ability in beginner and intermediate Spanish second language learners.

Prerequisite: Spanish 4413 or consent of the department.

SPAN 4431 – Business Spanish II

(3 credits) 3 hours lecture

This course is a continuation of Business Spanish I. It provides students with a more in-depth foundation in business language, and introduces cultural concepts that will help them function in today's Spanish-speaking business world. Students will critically analyze authentic scenarios and gain an understanding of business cultural practices in Spain and Latin America.

Prerequisite: Spanish 3331.

SPAN 4435 – Translation II

(3 credits) 3 hours lecture

This course is a continuation of Spanish 3335 – Translation I. It offers students the opportunity to enhance their translation skills by means of intensive practice in the translation of more complex short texts in various fields. Students will critically examine and compare published translations and will do Spanish to English and English to Spanish translations.

Prerequisite: Spanish 3335 or consent of the department.

SPAN 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

SPEECH (SPCH)

SPCH 1115 – Bridging Communication Tradition

(3 credits – TG) 3 hours lecture

This course is designed to allow the student to explore and experience the oral tradition of native culture and the speech demands of the 21st century. Specifically it provides the student with practical experience in the arts of speaking and listening, as well as an opportunity to contrast communication characteristics of two cultures.

SPCH 1120 – Accent Modifications

(3 credits) 3 hours lecture

This course is designed for students whose first language is not English and who need the skills to be understood and to communicate effectively. Students will learn individual speech sounds, sound combinations, vocabulary and pronunciation. They will practice delivery techniques to develop a fluent, expressive oral presentation in English. This is a very good preparatory class for Speech 2001.

SPCH 2001 – Introduction to Public Speaking (formerly SPCH 1110)

(3 credits – TG) 3 hours lecture

This course provides an introduction to current theories of communication. An understanding of effective communication and its potential is promoted through participation in a variety of speaking situations. Opportunity is given for group discussion; audience analysis; development of good listening habits and how to research, organize and prepare various types of speeches.

SPCH 2003 – Delivery Techniques for Presentation (formerly SPCH 1113)

(3 credits – TG) 3 hours lecture

This course is designed to develop the vocal techniques of the student and to polish fundamental delivery skills. Specifically it provides the student with the option to move to advanced techniques in verbal and non-verbal delivery. It is relevant for anyone whose career path requires them to communicate with others.

SPCH 2005 – Oral Tradition, Narration, and Story-Telling

(3 credits) 3 hours lecture

Students will develop skills in storytelling by examining the elements of communication essential to the storytelling event. This performance based class will focus on developing the visual and aural elements necessary to share the narrator's words and illustrate the images in the story. Vocal expression, characterization and body language, including gesturing and facial expression, will be studied.

SPCH 2007 – Professional Speaking

(3 credits – TG) 3 hours lecture

This advanced course in Public Speaking will concentrate on further development of the student's presentation skills, enhanced with the use of modern technology as a key support component. Emphasis is on adapting presentation techniques to various situations including, interviews, business proposals, report reading, internet conferencing and group forum.

Prerequisite: Speech 2001 or equivalent.

SPCH 2009 – Great Speakers, Great Speeches

(3 credits) 3 hours lecture

Students will discover how, from the inception of democracy to modern times, society has been shaped and influenced by oratory and rhetoric. Drawing on examples such as Aristotle, Marc Antony, Ghandi, Churchill, Nelson Mandela, Mark Twain, Nellie McClung, Margaret Thatcher, Martin Luther King, and William Clinton, this course will investigate and analyse the speaking styles of great speakers of great speeches, and their effects on the values, beliefs and identities of cultures and societies.

SPCH 3001 – Persuasive Speaking

(3 credits) 3 hours lecture

This course is designed for the advanced speaker who wants to develop the art of persuasion further. Students will learn techniques for developing subject matter for different types of persuasive speeches, reasoning, ethics, and the necessary delivery techniques needed to convince, motivate, market, and sell ideas and products with greater success.

Prerequisite: Speech 2001 or equivalent.

SPCH 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

STUDIES IN AGING (SAGE)

Courses in the interdisciplinary certificate program are offered through distance delivery in the Fall and Winter Semesters.

SAGE 2401 – Perspectives in Aging (formerly SAGE 4401)

(3 credits – TG) Distance and Onsite Delivery

This course provides an understanding of the field of studies in aging. It examines the changing demographics and aging from a Canadian and global perspective. Ageism, theories of aging and research are examined with a view to understanding the current status of our knowledge of aging and societal responses to old age. Course content explores the diversity of individuals and groups within Canada's aging population and analyses current and future challenges for governments, institutions, agencies, and businesses in providing programs, services and products to such a diverse population. This course will be of interest to students from a broad range of programs.

SAGE 3403 – Health and Aging (formerly SAGE 4403)

(3 credits – TG) Distance Delivery

Examines effects of aging in the context of normal, healthy, and successful aging processes. Lifestyle factors such as nutrition, sexuality, exercise, leisure and health issues are considered. Integrative aspects of healthy aging such as housing, transportation, economics, family and community supports are examined. Death is discussed as the final outcome of life. Consideration of and planning for one's own aging is encouraged. Health promotion strategies related to these factors are addressed. Personally, this course would be of interest to all individuals, and from a professional perspective, to those students who will be encountering older adult clients in their work environment.

SAGE 3407 – Aging and Physical Health (formerly SAGE 4407)

(3 credits – TG) Distance Delivery

This course examines common physical problems associated with the aging process. Approaches to assisting the older adult through treatment, modification of activities of daily life, and ways to maintain and enhance function are emphasized.

SAGE 3413 – Aging Families (formerly SAGE 4413)**(3 credits – TG) Distance Delivery**

This course provides an overview of family relationships in later life and examines frameworks for understanding the family system. Concepts of interviewing, assessing and intervening with older adults in the context of the family are introduced.

**SAGE 3415 – Sexuality and Aging****(3 credits) 3 hours lecture**

Sexuality and sexual behaviour is of interest across the life span. This course explores the concept of sexuality from a multidisciplinary perspective. Physiological changes, social support, psychological health, and cultural attitudes will be examined to gain a greater understanding of sexuality in later life.

SAGE 4405 – Aging and Mental Health**(3 credits – TG) Distance Delivery**

This is an overview of current concepts in mental health in relation to older adults. Common mental health concerns of the older adult are presented and approaches to assessment and treatment are addressed, with an emphasis on cognitive and behavioural strategies.

Pre or Co-requisites: Studies in Aging 2401 and 3403 or consent of the department.

**SAGE 4409 – Nursing Practice with Older Adults****(3 credits – TG) Distance Delivery**

This course focuses on methods of assessment of health care needs of older adults. It stresses problem-solving in the development, implementation and evaluation of interventions across the continuum of health care contexts.

Pre or Co-requisites: Studies in Aging 2401 and 3403 or consent of the department.

Note: Open to registered nurses only.

SAGE 4417 – Interdisciplinary Teamwork in Aging**(3 credits – TG) Distance Delivery**

This course prepares the student to function within the context of interdisciplinary care of older adults. Across the continuum of health care contexts, aspects of the team approach are examined; the team members, organizational setting, team functioning and activities (including multi-dimensional assessment), small group communication and team evaluation. Particular emphasis is placed on the role of the older adult client as a team member. Additionally, students will have an opportunity to learn about resources available to older adults; types used and concepts.

Pre or Co-requisites: Studies in Aging 2401 and 3403 or consent of the department chair.

**SAGE 4481 – Clinical Practice****(6 credits – TG) 210 hours clinical practice**

This is a clinical experience course involving the development, planning and implementation of a specific program/focus for older clients. The student will be responsible for designing the clinical experience objectives and selection of the learning strategies. A portfolio of learning achievements will be required. This clinical experience allows the student to demonstrate content/concepts learned within the program.

Prerequisite: Students must have completed four other Studies in Aging courses with a minimum Grade Point Average of 2.00 in these courses and have the approval of the department.

SAGE 4490 – Capstone Project**(3 credits) 3 hours lecture**

This capstone course is designed for the student enrolled in the Studies in Aging certificate program. The course integrates concepts and theory. Under the direction of an academic supervisor, students have the opportunity to complete a project, comprehensive literature review or research project.

Prerequisites: Studies in Aging 2401, 3403, 3407, 4405, and at least one of Studies in Aging 3413, 4409 and 4417.

SAGE 4499 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

THEATRE ARTS (THEA)**THEA 1100 – Stagecraft I****(2 credits – TG) 1 hour lecture, 3 hours lab**

In Stagecraft I, students will be introduced to the technical elements of theatrical productions, stage and scenery. Students will gain carpentry skills and learn the proper and safe operation of hand and power tools through practical projects in the carpentry shop and utilizing stage equipment in the theatre. Students will understand theatre terminology and be introduced to production organization and management.

THEA 1103 – Make-up for Stage, Film, and Fashion**(3 credits) 1 hour lecture, 2 hours tutorial**

This is an introductory course in make-up technique particularly relevant to theatre workers and models. Practical class sessions allow you to practice make-up application.

THEA 1105 – Production Practicum I**(2 credits – TG) 100 hours practicum**

Students are required to work on the department's productions in performance or production crew capacities.

THEA 1110 – Acting I**(3 credits – TG) 2 hours lecture, 3 hours lab**

This course is an introduction to improvisation, movement and a creative dramatics approach through theatre games for the beginning actor. Dramatic works from Ibsen to our contemporaries will be discussed.

THEA 1112 – Introduction to the Theatre**(3 credits – TG) 3 hours lecture**

This course provides an introduction to the nature of theatre including the function and purpose of theatre both in historic and contemporary times, an introduction to script analysis and an opportunity to investigate the acting process through scripted scenework.

**THEA 1115 – Creative Drama and Movement for Adults Dealing with Children****(3 credits – TG) 3 hours lecture**

This course deals with directed play, emotional control, and the ability to co-operate with children through improvisation, theatre games and movement. The imagination is developed and students gain experience in developing expressive speech.

**THEA 1120 – Movement I****(2 credits – TG) 1 hour lecture, 3 hours lab**

This course introduces a movement approach for actors that promotes freedom and ease of movement. The work is a physical exploration, which includes training in movement techniques designed to develop flexibility, control, rhythm and expressiveness.

THEA 1130 – Voice for the Actor I**(2 credits – TG) 1 hour lecture, 3 hours lab**

This course provides an introduction to the nature of voice production and articulation. The emphasis will be on freeing the natural voice as it pertains to the stage task.

THEA 1135 – Basic Music Skills I**(1 credit) 1 hour lecture, 1 hour lab**

This course is designed to introduce the student to the rudiments of singing technique. The course will cover vocal vocabulary, techniques for singing, finding your range and singing on pitch.

THEA 1141 – Lighting I**(1 credit) 1 hour lecture, 1 hour lab**

This course is an introduction to stage lighting practice. Students will examine how stage lighting systems and equipment work and how they are used to light the stage. Students will be able to use basic lighting technology safely and understand basic electrical theory and practice. This course is also an introduction to how light is used as an artistic expression in theatre.

THEA 1146 – Sound I**(1 credit) 1 hour lecture, 1 hour lab**

This is a practical course in which students work primarily on the preparation and use of audio for theatre production. A series of lab sessions and creative projects are designed to enable the student to develop an awareness of the effectiveness of sound in theatre and a working knowledge of various types of basic audio equipment. Principles of sound propagation and travel are also covered.

THEA 1154 – Costumes I**(1 credit) 1 hour lecture, 1 hour lab**

This course is an introductory examination of costume shop procedures, tasks, equipment, and techniques with an introductory study of fibres and fabrics where students will acquire skills to sample hand and machine sewing techniques and to retrieve, manage and evaluate information to complete period costume research.

THEA 1157 – Drafting and Design I**(2 credits) 1 hour lecture, 3 hours lab**

In Drafting and Design I, students will be introduced to the use of drafting in the theatre, through practical exercises in orthographic and isometric projection, plans, elevations and sections. This is designed to increase their ability to glean information from drawings as supplied by the designer. This approach to the design process will be supplemented with an introduction to perspective rendering.

THEA 1200 – Stagecraft II**(2 credits – TG) 1 hour lecture, 3 hours lab**

This course is a continuation of Theatre Arts 1100 in more depth and detail. Students will be introduced to materials and techniques used in properties construction and scenic painting. Students will work on practical projects in colour mixing, and scenic painting techniques, as well as prop building.

*Prerequisite: Theatre Arts 1100.***THEA 1202 – Early Theatre****(3 credits – TG) 3 hours lecture**

This course addresses the history and development of Western Theatre from Ancient Greece to the English Restoration.

**THEA 1203 – Modern Theatre****(3 credits – TG) 3 hours lecture**

This course addresses the history and development of Western Theatre from the English Restoration to the present.

Recommended Preparation: English 0212 or 2201**THEA 1205 – Production Practicum II****(2 credits – TG) 100 hours practicum**

Students are required to work on the department's productions in performance or production positions.

*Prerequisite: Theatre Arts 1105 or 1110 with a C- or higher.***THEA 1206 – Production Practicum III****(3 credits – TG) 200 hours practicum**

Students in their second year will work on the department's productions in major acting roles and senior production positions.

*Prerequisite: Theatre Arts 1205.***THEA 1207 – Production Practicum IV****(3 credits – TG) 200 hours practicum**

Students in their second year will work on the department's productions in major acting roles and senior production positions.

*Prerequisite: Theatre Arts 1206.***THEA 1208 – Properties I****(2 credits) 1 hour lecture, 3 hours lab**

Students will gain an understanding of various basic techniques of properties construction, coupled with an appreciation of the aesthetic and structural consideration that are involved in the design, planning and execution of any given stage property. Students will produce projects in a wide range of different props from simple handprops to fake food and replica weapons. Props organization in the purchase and/or borrowing of properties as well as set dressing and running of props will be examined.

*Prerequisite: Theatre Arts 1200.***THEA 1209 – Properties II****(2 credits) 1 hour lecture, 3 hours lab**

The course is a continuation of Theatre Arts 1208 in more depth and detail. The course continues with instruction in the use of metals, dyes and paints and an introduction to furniture construction involving period styles.

*Prerequisite: Theatre Arts 1208.***THEA 1210 – Acting II****(3 credits – TG) 2 hours lecture, 3 hours lab**

This course is a continuation of Theatre Arts 1110. Contemporary plays are discussed, and classroom exercises are based on the scripts. The emphasis is on character analysis, character portrayal and performance techniques.

*Prerequisite: Theatre Arts 1110.***THEA 1211 – Acting III****(4 credits – TG) 3 hours lecture, 3 hours lab**

This course provides continued study in the techniques of acting with the emphasis on intensive scene work from contemporary scripts.

*Prerequisite: Theatre Arts 1210.***THEA 1212 – Acting IV****(4 credits – TG) 3 hours lecture, 3 hours lab**

This course provides continued study in the techniques of acting with the emphasis on scenes selected from period scripts. The periods to be studied may be chosen on the basis of the department's productions.

*Prerequisite: Theatre Arts 1211.***THEA 1215 – Acting for Film and Television****(2 credits – TG) 1 hour lecture, 1 hour tutorial**

This course will assist the actor in making the transition from stage to film and television.

*Prerequisite: Theatre Arts 1211, 1221 and 1231.***THEA 1220 – Movement II****(2 credits – TG) 1 hour lecture, 3 hours lab**

This course is a continuation of the work introduced in Theatre Arts 1120. Emphasis will be placed on the skilful integration of the developing skills.

*Prerequisite: Theatre Arts 1120.***THEA 1221 – Movement III****(2 credits – TG) 1 hour lecture, 3 hours lab**

This course provides the opportunity for more advanced and in-depth movement techniques for actors based on a solid foundation of understanding gained in Theatre Arts 1120 and 1220.

*Prerequisite: Theatre Arts 1220.***THEA 1222 – Movement IV****(2 credits – TG) 1 hour lecture, 3 hours lab**

This course is intended to teach the students the basics of theatrical stage combat covering the disciplines of unarmed combat, single sword and quarter staff in preparation for the development of character work in staged violence, with the safety of the actor as a prime concern. At the successful completion of this course, the student may receive certification for the Actor Combatant Level with Fight Directors Canada, the national governing body responsible for teaching Stage Combat.

Prerequisite: Theatre Arts 1221.

THEA 1230 – Voice for the Actor II

(2 credit – TG) 1 hour lecture, 3 hours lab

The focus of this course is on voice for characterization. Work is primarily on oral interpretation of literature with emphasis on vocal technique in performance.

Prerequisite: Theatre Arts 1130.

THEA 1231 – Voice for the Actor III

(2 credit – TG) 1 hour lecture, 3 hours lab

This course explores the varied demands made on the actor's voice in theatrical applications. Emphasis is on quality and control in performance.

Prerequisite: Theatre Arts 1230.

THEA 1232 – Voice for the Actor IV

(2 credit – TG) 1 hour lecture, 3 hours lab

This course is a continuation of work with the voice of the individual actor.

Prerequisite: Theatre Arts 1231.

THEA 1235 – Basic Music Skills II

(1 credit) 1 hour lecture, 1 hour lab

This is a continuance of Theatre Arts 1135. The student will build on existing techniques and will develop the ability to choose individual selections appropriate to their vocal style. In this course the student will develop a repertoire of songs appropriate for a performance audition. Units will include:

Unit I – What's Available

Unit II – Vocal Style

Unit III – Putting it all Together

THEA 1241 – Lighting II

(1 credit) 1 hour lecture, 1 hour lab

This course is a continuation of Theatre Arts 1141. Students will have the opportunity to learn more about light as a design element in the theatre as well as the planning and drafting of lighting for the stage. Students will learn to operate computer lighting control desks and be introduced to stage lighting colour theory. Students will learn stage lighting graphics and paperwork organization by creating a lighting design using the McCandless Method of design.

Prerequisite: Theatre Arts 1141.

THEA 1242 – Lighting III

(2 credits) 1 hour lecture, 3 hours lab

This course looks at the process of lighting from the point of view of the Master Electrician. Students will involve themselves in an in-depth study of the technology of theatrical stagelighting, modern theatre technology, including computer lighting control, digital dimming, projections and colour science will be examined through practical labs and projects.

Prerequisite: Theatre Arts 1241.

THEA 1245 – Lighting IV

(2 credits) 1 hour lecture, 3 hours lab

This course draws on the knowledge of the technology of stage lighting gained in Theatre Arts 1242 to examine, in-depth, the role of the lighting designer in professional theatre. Students follow the design process from script to final design blueprints, focus and level/cue setting through practical design projects in the theatre and theoretical designs using Computer Aided Drafting and Design software.

Prerequisite: Theatre Arts 1242.

THEA 1246 – Sound II

(1 credit) 1 hour lecture, 1 hour lab

This course is a continuation of Theatre Arts 1146. This is a practical course in which students work primarily on the preparation and use of audio for theatre productions. A series of lab sessions and creative projects are designed so that the student develops an awareness of the effectiveness of sound in theatre and a working knowledge of various types of audio equipment. Students will be introduced to digital audio technology and digital editing for show production.

Prerequisite: Theatre Arts 1146.

THEA 1248 – Sound III

(2 credits) 1 hour lecture, 3 hours lab

This course is structured to provide the student with knowledge of and experience in the use of contemporary theatre audio systems and methods. Students will explore the principles of sound generation, control, reproduction and processing, audio augmentation in stage productions and the proper preparation and operation of equipment for complex audio productions in the theatre using current audio recording, mixing and editing techniques.

Prerequisite: Theatre Arts 1246.

THEA 1249 – Sound IV

(2 credits) 1 hour lecture, 3 hours lab

This is a course in advanced audio theory and practice and the role of the Audio Engineer and the Sound designer in professional theatre. Through practical workshops and labs students will examine audio system configuration and architecture, digital audio and MIDI systems, wireless technology, monitor mixing techniques and live audio reinforcement.

Prerequisite: Theatre Arts 1248.

THEA 1254 – Costumes II

(1 credit) 1 hour lecture, 1 hour lab

This course is an examination of fabric and notions selection and costume design methods. Students acquire skills to cut and build a simple garment, and to retrieve, manage and evaluate period costume information in order to develop a costume design concept.

Prerequisite: Theatre Arts 1154.

THEA 1255 – Costumes III

(2 credits) 1 hour lecture, 3 hours lab

This course is an examination of drafting, draping and fitting basic blocks with a study of period costume design elements and methods, where students will acquire skills to draft, cut, build and fit a simple period costume. Students will retrieve, manage and evaluate information to identify period costume design elements and methods.

Prerequisite: Theatre Arts 1254.

THEA 1256 – Costumes IV

(2 credits) 1 hour lecture, 3 hours lab

This course is an examination of drafting, cutting and building a complex period costume with a study of the selection and application of fabric dyes, paints and decorative materials where students acquire skills in dyeing, painting and breakdown. Students will acquire skills to retrieve, manage and evaluate information to do comparative period costume research.

Prerequisite: Theatre Arts 1255.

THEA 1257 – Drafting and Design II

(2 credits) 1 hour lecture, 3 hours lab

This course is an examination of basic CADD (Computer Aided Drafting and Design) computer concepts with a study of basic CADD computer operations where students acquire skills in CADD drawings of elevations, ground plans, sections, and orthographic and isometric projections.

Prerequisite: Theatre Arts 1157.

THEA 1258 – Scenic Painting I

(2 credits) 1 hour lecture, 3 hours lab

This course is an introduction to the basic techniques in scenic painting for the theatre. Students will produce projects using basic painting techniques to produce various effects including woodgrain, brickwork and foliage.

Prerequisite: Theatre Arts 1257.

THEA 1259 – Scenic Painting II

(2 credits) 1 hour lecture, 3 hours lab

This course is a continuation of Theatre Arts 1258 in more depth and detail. The course continues with more complex painting projects involving colour mixing, stencils, stamps, scaling drop painting and more advanced texturing techniques.

Prerequisite: Theatre Arts 1258.

THEA 1267 – Stage Carpentry and Scenic Construction I**(2 credits) 1 hour lecture, 3 hours lab**

This course covers the construction of theatrical set pieces using advanced procedures. Theatre carpentry is studied using more advanced tools, joinery and building techniques. Topics may include, three dimensional elements such as ceilings, wagons, weight bearing staircases and platforms and irregular shapes and surfaces. Students will understand the role and responsibility of the Head Carpenter and carpentry shop organization and management.

Prerequisite: Theatre Arts 1267.

THEA 1268 – Stage Carpentry and Scenic Construction II**(2 credits) 1 hour lecture, 3 hours lab**

This course examines the roles and responsibilities of the Stage Carpenter in addition to further projects in scenic construction. Students will learn stage carpentry through practical exercises and projects in rigging and flying scenery, rigging knots and safe practice when operating a fly system will be addressed. Techniques for shifting scenery such as wagons, skids, revolves and flying will be introduced, as well as setup procedures. Scenic construction techniques will deal with movable scenery.

Prerequisite: Theatre Arts 1267.

THEA 1271 – Stage Management I**(2 credits) 1 hour lecture, 3 hours lab**

This is an introductory level course in stage management. Students will be introduced to the organizational skills necessary for successful stage management in a theatrical production. The position of the Assistant Stage Manager will be explored in detail. Clear and concise communication within the production team will be stressed. Various stage management forms will be introduced.

Prerequisite: Theatre Arts 1100.

THEA 1273 – Stage Management II**(2 credits – TG) 1 hours lecture, 3 hours lab**

This is an advanced course in stage management with the role of the Equity Stage Manager as the major focus. Organizational skills and communication skills will be stressed. Through practical projects, students will perform the role of Stage Manager, creating prompt book and calling cues. Study will include: an overview of technical direction, production management and administration. Performing arts unions and associations will be analysed.

Prerequisite: Theatre Arts 1100 and 1200.

THEA 1280 – Professional Development**(1 credit) 1 hour lecture, 1 hour lab**

This course is designed to prepare the student for field placement or employment in the profession.

THEA 1285 – Film and Television Set Etiquette**(2 credits) 1 hour lecture, 1 hour tutorial**

This course is an introduction to the technical aspects of the film and television industry. It will introduce basic film vocabulary and basic first day etiquette. Various union jurisdictions and job descriptions in the film industry will be addressed. Students will learn what personal supplies may be needed on a first day of work, what questions they need to ask the dispatcher, and how to fill out an employee start pack properly. A filming Code of Ethics and the ethics of shooting on location will also be discussed.

Note: This course is recognized by IATSE Local 212 as a prerequisite for permit status.

THEA 2001 – Introduction to Acting**(3 credits – TG) 3 hours lecture**

This course offers students an introduction to the technique of acting, including the analysis and enactment of scripted scenes, and characterization.

Recommended preparation: Theatre Arts 1112

Note: This course may not be taken by students enrolled in the Theatre Arts Performance diploma.

THEA 1199, 1299 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

UNDERGRADUATE STUDIES (UGST)**UGST 1001 – Effective Learning in the Undergraduate Context****(3 credits – TG) 3 hours lecture**

Effective Learning in the Undergraduate Context provides students with opportunities to increase their knowledge of effective learning, enhance their use of strategies, and reflect on their learning. Activities and assignments in a collaborative classroom setting will facilitate the application of concepts from research to the students' own learning.

UGST 1002 – Coping with Change: The Undergraduate Context and Beyond**(3 credits) 3 hours lecture**

This course presents current research and strategies related to effective coping in a rapidly- changing world. Topics such as stress, effective coping, relating and working well with others, and putting change in perspective are included. Lectures, discussions, and assignments are intended to emphasize the applicability of what students are learning to experiences they are likely to encounter during their lives, and particularly as students in the university setting. A study skills component is included to help students meet the expectations of university-level courses.

Note: Normally students may take only one of UGST 1001 or UGST 1002. Students wishing to take both courses require permission of the Dean, Faculty of Teaching and Learning.

WOMEN'S STUDIES (WMST)**WMST 1172 – Introduction to Women's Studies (formerly WMST 2272)****(3 credits – TG) 3 hours lecture**

An interdisciplinary study of major issues confronting Canadian women. Topics may include: Canadian feminism in historical perspective, health, sexuality, work issues (such as equal pay, unemployment, pensions and the impact of technology), family issues and women's role in Canadian politics.

**WMST 2205 – Issues for Women Globally (formerly WMST 3305)****(3 credits – TG) 3 hours lecture**

This course is an interdisciplinary study of the major issues confronting women within a global context. This course explores the political, social and economic role and status of women from developing countries. Themes may include the impact of economic globalization; citizenship, migration and refugee issues; the global sex trade; women and AIDS; militarization and nationalism; and, transnational feminist alliances for social change.

Recommended Preparation: Women's Studies 1172 or any 2000 level Women's Studies course.

**WMST 2207 – Contemporary Issues in Feminism (formerly WMST 3307)****(3 credits – TG) 3 hours lecture**

A survey and analysis of issues concerning women's lives in their contemporary social context. Topics include images of women, mother/daughter and other family relations, marriage and divorce, women and work, violence against women, sexuality and power.

Prerequisite: Women's Studies 1172 or one senior Women's Studies course.

Note: Women's Studies 2207 = Athabasca University WMST 401. Credit will be allowed for only one of Women's Studies 2207 and A401.

WMST 2221 – Women and Health (formerly WMST 3321)

(3 credits – TG) 3 hours lecture

This course will examine women's experiences of physical and psychological health, of perceptions and treatment of women in health care systems, and of the role of women as health care providers in families and society. Examples will come primarily, but not exclusively, from the Canadian context.

Recommended Preparation: Women's Studies 1172 or any 2000 level Women's Studies course.

WMST 2239 – Gender and Popular Culture (formerly WMST 3339)

(3 credits – TG) 3 hours lecture

This course will introduce students to feminist and postmodern theoretical perspectives on gender and popular culture. Selected themes may include gender and spectatorship; representing difference; advertising as ideological practice; cyberbodies and technoculture; and subculture and cultural resistance.

Recommended Preparation: Women's Studies 1172 or any 2000 level Women's Studies course.

WMST 2241 – Women in Canada

(3 credits – TG) 3 lecture hours

This course examines women's experiences in Canada from the 18th to the 21st century. Themes include family, sexuality, politics, economic roles, the law, social welfare, feminism, race, ethnicity and immigration.

WMST 2283 – Women and Aging (formerly WMST 3383)

(3 credits – TG) 3 hours lecture

This course will examine the reality and variation in women's lives as they age. The focus will be on Canadian society in social and historical context, but comparisons and examples will be taken from other societies.

Recommended Preparation: Women's Studies 1172 or any 2000 level Women's Studies course.

WMST 3301 – Feminist Theories

(3 credits – TG) 3 hours lecture

This course provides an introduction to Western European and North American feminist writings and their relationship to women's movements from the 17th to the early 21st centuries. The effects of historical ideas about gender, race, class and sexuality on early feminist analyses and visions of social change will be considered.

Prerequisite: One of Women's Studies 1172, 2205, 2221, 2239, 2283 or 3302.

Note: Students will receive credit for only one of Women's Studies 2207 and 3301.

WMST 3302 – Feminist Research and Methods

(3 credits – TG) 3 hours lecture

This course is a feminist examination of the connections between epistemology, method and methodology. This course explores a range of approaches taken by feminist researchers when rethinking traditional analytic paradigms in order to create distinctly feminist models to guide their work.

Prerequisite: Women's Studies 1172.

Recommended Preparation: Women's Studies 3301 or any 2000 level Women's Studies course.

WMST 3309 – Contemporary Feminist Debates

(3 credits) 3 hours lecture

This course examines contemporary debates among feminists in Canada and around the world. We will compare concerns about the global situation of women, as articulated by international bodies such as the United Nations, with concerns articulated by feminists in different parts of the world. Course topics will shift to reflect the continuous and dynamic evolution of feminist thought and activism in contemporary social and political contexts.

Prerequisite: One of Women's Studies 1172, 2205, 2221, 2239, 2283.

WMST 3311 – Race, Femininity and Representation.

(3 credits – TG) 3 hours lecture

This course will examine the conventions by which subjugated colonial female identities are constructed, contested and negotiated in and through Eurocentric practices of intercultural representation. Various strategies aimed at challenging dominant codes of intercultural representation will be considered in terms of their potential to foster more empowering identities for women.

Prerequisite: Women's Studies 2239 or Sociology 2275.

WMST 3345 – Sex, Gender and the Body

(3 credits) 3 hours lecture

This course will examine the diverse and historically varying relationships forged between biological sex, culturally formulated discourses of masculinity and femininity, and the sexed body. Topic areas will include: scientific discourse and medical research, health care, popular culture, body image, religious practices, and violent conflict.

Recommended Preparation: Women's Studies 1172 or any 2000 level Women's Studies course.

WMST 3346 – Gender, Culture and Technology

(3 credits – TG) 3 hours lecture

This course will examine the power relations structuring the development and use of technology. This course explores the interplay between gender, race, class and various technologies on the everyday lives of women, both locally and globally. The problems and possibilities associated with technological development will be considered.

Recommended Preparation: Women's Studies 1172 or any 2000 level Women's Studies course.

WMST 3850 – Advanced Special Topics in Women's Studies

(3 credits) 3 hours lecture

The specific content of the course will vary by term and instructor. Possible topics include but are not limited to: feminist perspectives on war and militarism, celebrity feminists, ecofeminisms, feminist approaches to development and globalisation, psychoanalytic feminisms, the intersections of feminist and queer theories, and feminist debates regarding prostitution and sex work.

Prerequisite: One of Women's Studies 1172, 2205, 2221, 2239, 2283

WMST 4401 – Advanced Studies in Feminist Theories

(3 credits) 3 hours lecture

This course offers advanced students an opportunity to explore in breadth and depth the intellectually dynamic evolution of one particular feminist theorist and/or body of thought within the broad range of available feminist theories. Potential topics could include: post-colonial and transnational perspectives, ecofeminisms, indigenous feminisms, queer theories, and feminist approaches to world politics.

Prerequisites: Women's Studies 3301 or 1172 and one of Women's Studies 2205, 2221, 2239, 2283, or consent of the instructor.

WMST 3199, 4199 – Directed Readings

See **Directed Readings** which are listed alphabetically in this section of the calendar.

SERVICES FOR STUDENTS

ABORIGINAL SERVICES

The Iniskim Centre specializes in services for Aboriginal students and acts as a resource for all. This centre provides a culturally supportive environment where academic excellence is fostered. The Iniskim Centre in collaboration with the Native Student Centre (Students' Association of Mount Royal University) is available for gatherings, events, and activities that are related to the interests of Aboriginal students. The array of services and programs offered include: the Aboriginal Education Program, admissions advocacy, an elder's room, a computer lab, a tutorial room, and a lively program of speakers and cultural activities.

The Aboriginal Education Program at Mount Royal University offers a university/college preparation program to adult students of Aboriginal ancestry. This upgrading/transition program includes three levels of study designed to meet the cultural and educational needs of Aboriginal adults seeking admission to post-secondary programs. The program is enhanced through tutorial support and academic services integrated with a cultural/spiritual component into the educational experience. For more information on the Aboriginal Education Program, please phone 403.440.5596, or view online at conted.mtroyal.ca/aborigenaleducation

ACCESSIBILITY SERVICES

Please see Student Learning Services for details.

ALUMNI

As a Mount Royal student, you are a future member of the Mount Royal Alumni family and, as such, you will have access to a wide variety of lifelong services and benefits. But don't wait until you finish your studies at Mount Royal to learn about alumni programs and services. The Office of Alumni Relations offers unique volunteer opportunities for students who are looking for ways to participate in the University community. Through our Student Alumni Chapter and its membership group, FAN Club, you can gain valuable experience by getting involved in the many University events and programs available on campus. We also work closely with the Mount Royal University Alumni Association and can help you connect with established alumni in your field of study or your area of interest, building a strong network to support you as you embark on your career.

For more information, visit the Alumni office – F101. You can also reach us by phone at 403.440.7000, email alumni@mtroyal.ca, or visit our website at mtroyal.ca/alumni

ATHLETICS

MRU Cougar Athletics

Whether you are on the court or cheering from the sidelines, Cougar Athletics will be an important part of your campus experience at Mount Royal University. As a leader in student engagement, Cougar Athletics promotes the creation of a vibrant campus and works to instill pride in belonging to the Mount Royal community.

MRU Cougar Athletics is a member of the Alberta Colleges Athletic Conference (ACAC), and is among the very best in Canada, having been presented with the Canadian Colleges Athletic Association's 25th Anniversary Overall Sports Supremacy Award in 1999 and having won numerous ACAC championships.

The Cougars are proud of our storied history and the coaches, athletes and administrators that have all contributed to the success of the Athletics program. The spirit of these individuals can be encapsulated by three powerful words - tradition, leadership and commitment. These three words embody Cougar Athletics philosophy and the dedication we have for providing a positive educational and athletic experience for everyone involved with our program.

We encourage you to come out and help cheer on the Cougars! **Admission is free for all Mount Royal University students and employees with their campus card.**

Intercollegiate Sports

Team Activities

Basketball: The men's and women's basketball program at Mount Royal University continues to be a leader among college teams in Alberta and Canada. Both teams are consistently ranked among the top ten college basketball programs in the nation and are perennially a threat to win the CCAA National Championship. The men's basketball team captured the gold medal at the 2008-09 CCAA National Championships.

Men's Hockey: The Cougars play in the most competitive conference in Canada. Cougar hockey has provided a viable alternative for many former WHL and AJHL Tier 1 and 2 level hockey players who are interested in combining a well respected formal education with a fast paced hockey team. The Cougars have won 12 ACAC Championships.

Soccer: Our soccer program has distinguished itself as a dynasty in college soccer, with the men winning the ACAC Championship twelve of the past eighteen years and the women winning seven ACAC titles in fourteen years. The men's team claimed the ACAC gold in the 2009-10 season.

Volleyball: The men's and women's volleyball programs have a long history of success at Mount Royal University. Both teams are continually ranked among the top ten college volleyball programs in the nation and are never to be taken lightly by the rest of the country. The men's team has won 17 ACAC Championships and 7 National CCAA titles, while the women have earned 12 provincial titles.

Women's Hockey: Since the addition of women's hockey to the ACAC just ten years ago, the Cougars women's team has built their program into one of the league's best. With four championships during that time, it's no wonder the Cougars attract some of the country's top female players. With renovations to their existing rink in addition to a new dressing room, the Cougars women's team hope to christen their new facilities with a repeat of last year's ACAC Championship.

Golf: Back to back ACAC men's team titles as well as an ACAC women's team title this past season has helped push the Cougars golf program to the top of the leader board. Participants in the CCAA national championship the past two seasons, expect the Cougars to remain near the top for years to come.

Badminton: The Cougar badminton program continues to strike fear in the hearts of their competition. Last year, the team won a bronze medal in women's singles at the CCAA national championship tournament and have won 24 overall national championships. Settling for nothing less than the best, this year's team is primed to enjoy another successful campaign.

All Cougar student-athletes are provided with the opportunity to obtain financial assistance through the Mount Royal University Athletics Academic Scholarship Programs and the Al Bohonus Awards Program.

For more information, contact Cougar Athletics in Room U231 or phone 403.440.6516.

BOOKSTORE

The Mount Royal University BookStore

Phone: 403.440.6300

E-mail: bookstore@mtroyal.ca

Hours of Operation

May 15 to June 30 (University hours)

Monday to Friday 8:30 a.m. to 4:30 p.m.

Saturday Closed

July 1 to August 15 (University Summer hours)

Monday to Friday 8:30 a.m. to 4 p.m.

Saturday Closed

August 23 to May 13, 2011 (Regular hours)

Monday to Thursday 8:30 a.m. to 6:30 p.m.

Friday 8:30 a.m. to 4:30 p.m.

Saturday 8:30 a.m. to 1:30 p.m.

* Hours of Operation are subject to change

** Closed Saturday, April 23, 2011

** Closed Wednesday, June 30, 2011

Students are encouraged to visit the Mount Royal University BookStore, on Main Street across from the library. The Mount Royal University BookStore has new and used textbooks, eBooks, online textbook rentals and custom access codes for required learning materials. Booklists are available in-store and online. A customized booklist can be printed and books ordered online through the bookstore website mtroyal.ca/bookstore or mymru.ca

The Mount Royal University BookStore provides a used textbook buyback service for texts required for the next semester, paying up to 50 % of the current retail price. Our used book buyback requirements are available on-line 24/7, with the exception of September and January. Not only do we buy for Mount Royal University, but for sixteen other universities and colleges across Canada. See **Textbooks** on our website.

The Mount Royal University BookStore carries resource books, study aids and a wide range of general reading material. Special orders are welcome. Stationery supplies, Mount Royal University crested clothing, gift items, and educationally priced computer software are also available. Shop on-line for clothing and educational pricing on computer products through our two on-line computer stores.

Visit mtroyal.ca/bookstore and join **e-events** for up-to-date news, sales and special events. The general public is always welcome.

CAMPUS CARD SERVICES (E251)

Second level East Wing at the end of the hall

Phone: 403.440.7711

Fax: 403.440.6101

E-mail: campuscard@mtroyal.ca

Website: mtroyal.ca/campuscard

Hours of Operation

Fall and Winter Semesters (September to April)

Monday through Friday 8:30 a.m. to 4:30 p.m.

Saturday and Sunday Closed

Spring Semester (May to June)

Monday through Friday 8:30 a.m. to 12:00 p.m.

1:00 p.m. to 4:30 p.m.

Saturday and Sunday: Closed

Summer Semester (July to August)

Monday through Friday 8:30 a.m. to 12:00 p.m.

12:30 p.m. to 4:00 p.m.

Saturday and Sunday Closed

Special Hours

At the start of each semester, and as required for some programs, special hours of operation may be in effect. Please check with the Campus Card office and/or the website for days and times.

Campus Card Remote Office

After hours, students and employees may go to Recreation Customer Service Centre (U130) for their Campus Card (except for September and the first two weeks of January).

Mount Royal Campus Card

The Mount Royal Campus Card is the official identification card for students and employees at Mount Royal University. The information contained on your card includes your name, student/employee identification number, and your photo. It will be necessary to have this card with you to access a variety of University departments such as the Library, Recreation and computer labs (You will have to meet eligibility requirements at these locations). Students and employees must provide their Mount Royal Campus Card at Security Services (X200) to access Mount Royal University after 10 p.m.

Campus Card Validation Sticker

Once you have been issued a Campus Card it's yours for life. You don't need a replacement card when you enroll in a new semester. To validate your card, pick up a new validation sticker available from the Campus Card office (E251) a couple of weeks prior to the start of any semester. The validation sticker verifies you are a registered student. This is required to use the U of C Library and has also been requested by off-campus merchants that provide discounts to students. These include ski resorts, sporting goods suppliers, beauty salons etc. Mount Royal University does not keep a list but students are encouraged to ask when making purchases.

Campus Card Issuance

New students and staff may pick up their cards 24 hours after they have updated their records with the Registrar's Office or Human Resources. (All your Prerequisite information must already be completed). To obtain your Mount Royal Campus Card, you will need your student/employee identification number and one piece of government issued photo identification (e.g. driver's license, provincial identification, passport, etc.) or two pieces of non-photo identification (e.g. birth certificate, social insurance card, credit card, health care card, etc.). You must also have completed your course registration for the upcoming semester.

Campus Card Replacement

A lost, stolen, or damaged card will be replaced by the Campus Card office for a fee of \$10. (This fee will be waived if you provide a photocopy of a Calgary Police Service report.) If you lose your Mount Royal Campus Card, please contact Security Services immediately at 403.440.6897.

Campus Card Door Access

The Mount Royal Campus Card is used to access areas of the University that are controlled by electronic locks, such as offices, computer labs, and Mount Royal Residence buildings.

Students – your current semester schedule will determine which labs you have access to. Remember, your card will only enable you access during the hours the lab is open for use. It may take up to one business day for late registrations or changes to your schedule to be updated in the electronic lock system. Please check with your instructor first. Additional questions may be answered by **Security Operations** (X200E)

Employees – your access to buildings and rooms will need to be identified on a key requisition form, signed by the department head. The completed form, along with your Campus Card will have to be taken to **Security Operations** (X200E), next to Security Services for encoding.

Residence – for access to the West Residence apartment units take your Campus Card in the Residence Administration Building B, Room 1019. You will need to contact the Residence Administration office to make arrangements to stay in residence between semester breaks. Special guests using the residences will be provided with door access upon check-in.

Security Operations (X200E)

Next to Security at the West Entrance

Phone: 403.440.7096

Fax: 403.440.6205

E-mail: securityoperations@mtroyal.ca

Website: mtroyal.ca/security

Hours of Operation

Monday through Friday 8:30 a.m. to 4:00 p.m.

CAREER SERVICES

Career Services offers a wide range of career and employment services that help provide Mount Royal students and graduates with a well rounded education. Designed as a comprehensive centralized resource area (A200 Kerby Hall), Career Services encompasses career education and employment development services and administers the work experience components of Co-operative Education and Applied Degree programs.

Career and employment assistance includes:

- Personalized resume, cover letter and portfolio critiques
- Customized 1 hour appointments on:
 - Clarifying and researching career choices
 - Developing effective self-marketing and job search tools
 - Job search strategies and connecting with employers
 - Interview preparation and dealing with difficult interview questions
- Access to an online job bank (new full-time, part-time and summer postings daily)
- Events and networking opportunities to connect with employers

Online and on-campus resources include:

- Career Resource Centre with books, videos and free take-away material
- Samples of resumes, cover letters and other job search tools
- Labour market information and business directories
- Web links to career exploration sites, occupational information and job banks
- Volunteer, international and student leadership opportunities
- Computer lab for career research, resume development and job search

Work Experience and Co-operative Education Programs:

Coordinators work in conjunction with program faculty to:

- Facilitate pre-employment preparation workshops and/or courses to help students create targeted resumes and cover letters, prepare for interviews and uncover the hidden job market
- Generate quality work experience opportunities for students that enhance their academic learning
- Better prepare students for the workplace by coordinating employer panels, mock interviews, guest speakers and other valuable industry specific events
- Create academic projects, completed while on work terms, that help students develop additional employability skills and further augment the experience they gain on the job
- Provide academic and on-the-job support to students in the workplace

Additional information about work experience and co-operative education programs can be found within the individual academic areas outlined in this Calendar.

For more information, to book an appointment for career and employment assistance, or to contact a Work Experience or Co-operative Education Coordinator, please call Career Services:

Phone: 403.440.6307

Website: mtroyal.ca/careerservices

Hours of Operation

Mid-August – end of June: 8:30 a.m. to 4:30 p.m.

July – mid-August: 8:30 a.m. to 4 p.m.

CATERING AND FOOD SERVICES

Mount Royal is pleased to offer a wide variety of food options — everything from a cereal bar to sushi to thai curries to coffee. And we go through a lot of coffee — more than 680 litres of coffee is purchased on campus on an average day, that's approximately 3,000 cups.

Sodexo is contracted to provide catering and retail food services on the majority of the campus. In addition to the Herb'n Market food court, Sodexo operates a variety of other retail outlets including Tim Horton's, Mr Sub, Jugo Juice, and several satellite locations. The Students' Association of Mount Royal University manages the food court in Wyckham House.

Sodexo is also a major employer of Mount Royal students throughout the year.

More information (including locations and hours of operation) is available at mtroyal.ca/CampusServices/CampusResources/FoodServices/index.htm

CHILD CARE CENTRE

Mount Royal University Child Care, Preschool and Before & After School Care Programs

An independent board, the Mount Royal College Day-Care Society, operates the Mount Royal University Child Care Centre. Both the Child Care and Preschool programs are located in the same facility which is located on the West side of Mount Royal University. The Before & After School Care Program is provided at St. James School which is located at 2227 – 58 Ave SW.

The Child Care Program provides full time, year round care for children of Mount Royal University students, faculty, support staff and the public at large for children aged 19 months to five years.

Child Care Centre Hours:

Monday to Friday 7 a.m. to 6 p.m

The Preschool Program provides part-time care to children aged three to five.

Preschool Program Hours:

3-day (M/W/F) or 2-day (T/Th) mornings 9 - 11:45 am

3-day (M/W/F) or 2-day (T/Th) afternoons. 1 - 3:45 pm

The Before & After School Care Program provides care to children attending St. James School Grades 1-6, aged 6-12.

Before & After School Care Hours:

Monday to Friday 7:15-9:30 am, 3:30-6 pm

All programs are moving towards Emergent Curriculum which is a play based curriculum, where activities and play experiences are implemented following weekly observations of all the children; so as to meet their needs in all areas of development.

Nutritious Snacks and Lunches (child care) are provided.

Daily physical activity both outdoor and indoor is incorporated into the children's schedule to promote a healthy lifestyle. We have excellent outdoor playground facilities, and we make use of the gyms on campus as well as various outdoor areas.

Supported Child Care is offered through Calgary and Area Child and Family Services Authority for children attending full time child care. This program gives children with special needs an opportunity to be included with their peers by providing extra support to facilities. Support is offered free of charge to parents who qualify.

Subsidies are available from Calgary and Area Child and Youth Services for parents who qualify.

We are affiliated with Mount Royal University Department of Child and Youth Studies where resources and most recent educational knowledge and practices are shared between department and the centre, thereby benefiting all involved.

We currently have an extensive waitlist for our Child Care Program, so it's strongly encouraged to plan ahead for your child care needs.

For detailed information about our programs including current fees, please refer to our website at mtroyal.ca/childcare. You may also make your enquiries by telephone at 403.440.6410 or by email at childcare@mtroyal.ca.

CONTINUING EDUCATION AND EXTENSION

The Faculty of Continuing Education and Extension

The Faculty of Continuing Education and Extension provides practical, strategic and up-to-the-minute personal and professional development for over 40,000 registrants each year in a variety of fields, including business, entrepreneurship, information technology, environment, fine arts and health and community development. In addition, the Faculty has a Corporate Training department that delivers customized training to external businesses and organizations.

The Faculty has a mandate to offer quality, market driven, cost-effective programs. The goal is continued growth as the city of Calgary grows, while maintaining the current level of customer service in building skills for career change and enhancement. Programs are offered in affiliation with business organizations and professional associations, leading to a certificate of completion, extension certificate or professional designation that is widely recognized and helps the learner to secure employment.

New courses in high-demand fields are developed each year. Representatives of business, industry and professional associations work with the Faculty of Continuing Education and Extension to develop new courses and update course content. There are many personal development courses as well as professional development programs.

The Centre for Complementary Health Education relocated to the Roderick Mah Centre for Continuous Learning at Lincoln Park Campus in the summer of 2011. Holistic therapies, therapy and wellness programs, the Practicum Centre, and the Funeral Director and Embalmer Extension Certificate program are centred there.

The Faculty also houses Events and Conference Services, which utilizes the facilities of the Roderick Mah Centre for Continuous Learning to host a variety of University and community events.

Instructors in the Faculty of Continuing Education and Extension at Mount Royal University are from the business community. They are actively involved as practitioners and professionals in their respective fields and pass on their expertise, both theoretical and hands-on, to the students.

Credit Extension, Open Studies and Academic Upgrading

Open Studies provides full or part-time learning opportunities for students who:

- wish to participate in post-secondary education but do not wish to enter a specific program of study at Mount Royal University at this time,
- need to pick up a course(s) to meet the admission requirements for their program of interest.
- may have missed an admission deadline.

Open Studies students may take upgrading courses (grade 12 equivalents), enrol in university level courses for general interest, personal or professional development, or earn credits to meet the competitive admission average for another Mount Royal program.

The Academic Upgrading area offers a set of high school equivalency upgrading courses that can be presented for admission to Mount Royal University, and other post-secondary institutions in Alberta. These courses are not eligible for Alberta Ministry of Learning credit for a high school diploma. However, if students wish to challenge the Alberta Ministry of Learning Diploma examinations to receive credit they should contact Information Services Alberta Learning. Upgrading courses can be taken alone or combined with credit courses.

Note: Grades for academic upgrading classes taken at Mount Royal University will be recorded as percentages on a credit transcript.

The Open Studies and Academic Upgrading Registration Guide is published in February, April and October. For further information, call 403.440.6282 or visit mtroyal.ca/openstudies.

In addition to providing adults with personal and professional development opportunities, the Faculty of Continuing Education and Extension offers the following special community services.

Transitional Vocational Program

The Transitional Vocational Program provides a variety of post-secondary opportunities designed to foster personal, professional and/or academic growth. The program serves adults who have previously participated in vocational, knowledge and employability, or special education programs.

The Employment Preparation Extension Certificate Program is a full-year program that prepares students for competitive employment and community living. It combines on-campus instruction with community-based work practicums. The Employment Assistance Program offers continued job placement and support services to graduates of the certificate program.

Adult Basic Education offers daytime and evening courses in Mathematics and Literacy and combination classes of the two courses. The Volunteer Tutor Adult Literacy Program aims at increasing access for adults to acquire literacy skills through the use of volunteer tutors and other resources to support learning.

Courses in Computer Information and Technology are designed to meet individual needs and assist to overcome technical barriers. For more information:

Phone: 403.440.6872

Fax: 403.440.6799

E-mail: tvp@mtroyal.ca

Website: conted.mtroyal.ca/tvp

Continuing Education – Registration and Information

The free Continuing Education Calendar is published in March, June and November and is distributed for free throughout the city. For further information, call the Faculty of Continuing Education and Extension at 403.440.6875, visit Room A101, Kerby Hall, Lincoln Park Campus or visit the website at: mtroyal.ca/conted.

Registration is handled by Continuing Education Registration Services, Room A101, Kerby Hall, Lincoln Park Campus and is open during the Fall, Winter and Spring semesters Monday to Friday, 8:30 a.m. to 4:30 p.m. by phone and in person, extended hours by phone during peak periods each semester. Monday to Thursday, 8:30 a.m. to 6:00 p.m. by phone; and during the Summer semester Monday to Friday, 8:30 a.m. to 4:00 p.m. To register call 403.440.3833 or toll-free 1.877.287.8001. Have your Visa or MasterCard ready. Cheques are accepted in person or by mail. Web registration is available at mtroyal.ca/conted/register.

COPY CENTRE

The Copy Centre is for the use of faculty, staff and students and is located in K- wing on the lower level of the main building. It offers over-the-counter photocopying and printing from disk, as well as a variety of printing and document services, including desktop publishing. Coin-operated photocopiers are located in the library at \$0.15 per copy.

Hours of Operation

Monday through Thursday 7:30 a.m. to 5 p.m.
Friday 7:30 a.m. to 4:30 p.m.

WELLNESS SERVICES

Location - EnCana Wellness Centre U216

Wellness Services at Mount Royal supports your health and wellness through a “whole person” approach addressing your mind, body and spirit. Wellness Service employees are experienced, knowledgeable professionals who use and develop best practices to meet the needs of students. Programs and services are available to help you reduce barriers to learning and to increase your sense of well-being. Whether you are experiencing a difficulty or want to enhance your health and wellness the Wellness Service team is ready to serve you in their peaceful, welcoming and inclusive environment. Drop by and visit the EnCana Wellness Centre to unwind, use the computer workstations, as well as know where to come when you choose to engage in any of our programs or services. Services include counselling, health services, injury rehabilitation and prevention, Diversity and Human Rights support, student leadership opportunities as peer health educators, tobacco reduction support, and religious and multi-faith activities and support.

Website: mtroyal.ca/wellness

Student Counselling Services

A team of registered professionals (psychologists and social workers) are available to assess the needs of individual students and develop specific interventions that assist students in achieving their intellectual, personal and career goals. We believe that student success, satisfaction and wellness are best served through the development of the whole person. All sessions are confidential and all services are provided free of charge to students attending classes at Mount Royal University.

Student Counselling offers the following:

- Personal Counselling – assistance for a wide range of personal concerns including stress, depression, anxiety, relationship issues and personal growth
- Career Counselling – Finding your career passion and help choosing a university major
- Academic Counselling – Guidance enhancing academic success and motivation
- Crisis Intervention – Support during times of significant stress or trauma
- Group Counselling and Workshops – Excellent skill development on a variety of topics

Hours of Operation

Monday to Friday 8:30 am to 4:30 pm

Appointments are recommended, but daily drop-in times are available on a first-come, first-serve basis.

Evening hours during peak times. Please call for information.

Summer Hours:

Monday to Friday 8:30 am to 4:00 pm

Location: U216, EnCana Wellness Centre

Phone: 403.440.6362

Email: counselling@mtroyal.ca

Website: mtroyal.ca/counselling

Health Services

Health Services is located in the EnCana Wellness Centre and is staffed by 3 clinic physicians, 1 psychiatrist, 5 nurses and 3 medical office assistants. Our health care professionals provide confidential medical services to students, staff, faculty and their child dependents. Health Services serves the Mount Royal community with booked appointments and emergency visits 5 days/week. Appointments can be made in person or over the phone. Our team sees patients for a variety of health care needs including complete medical examinations, mental health concerns and general illness/injury. Our patients come to us with gynecological issues including PAP testing and birth control consults. Sexual health education which may include STI testing helps to meet the needs of our growing young adult population. Health Services also offers health checks such as blood pressure and cholesterol monitoring, and an on-site lab collection facility for our patients. A comprehensive nursing student immunization program is also administered through our department. Patient health and wellness education is an important part of our mission in Health Services.

Our partnership with the Primary Care Network – Calgary West Central allows us to meet the needs of patients suffering from chronic health conditions with one-on-one sessions with a Chronic Disease Management nurse who focuses on prevention and wellness strategies. Our facility houses, 6 examination rooms, a laboratory, a minor surgical area and a patient recovery room. Health care services are covered for Canadian students through their provincial health care card (except Quebec). International students are generally covered by Student Guard, an insurance product that covers the cost of most physician visits.

Health Services operates throughout the year. In the fall and winter semesters, physicians and nurses are available from 8:30 am to 6 pm. During exam periods and the spring semester, the clinic hours run from 8:30 am to 4:30 pm (Mon-Thurs) and until 4:00 pm on Fridays. In the months of July and August, our physicians are not available and the clinic is staffed by a nurse and medical office assistant. During that period of the year, Health Services provides care to patients and over 4000 MRU Kids who participate in summer-long camps.

Location: U216, EnCana Wellness Centre

Phone: 403.440.6326

Optimal Therapies

Optimal Therapies is a comprehensive health, wellness and rehabilitation clinic located within the EnCana Wellness Centre at Mount Royal University. A team of health care practitioners work within a multidisciplinary clinic setting to assist individuals with acute and chronic injuries in addition to various other health related issues. Prevention and wellness education is fostered outside the walls of our clinic with the use of our travelling Lucy Booth throughout campus. Backpack and posture awareness campaigns offer an opportunity for students, staff and faculty to chat casually with practitioners about the various health topics affecting their well-being.

Optimal Therapies offers the professional services of a team of health care practitioners including 2 chiropractors, 3 athletic therapists, 6 registered massage therapists, 4 physiotherapists and a registered acupuncturist. Custom-made orthotics are also available at our clinic.

The clinic was originally conceived and developed as a vision to provide Mount Royal athletic therapy students with an educational setting to practice their skills by contributing to the care of injured Cougar Athletics varsity athletes. Our team of health care practitioners supports the learning of MRU's athletic therapy students by acting as mentors during the student's practicum placements.

Since that time, Optimal Therapies has expanded services to meet the demand for rehabilitation and injury prevention of the entire campus community and members of the general public. The clinic continues to explore and expand its horizons by offering holistic complementary and alternative medicines to meet the interests and desires of the university community.

Our clinic operates throughout the year and is open to members of the general public in addition to the students, staff, and faculty that made up our Mount Royal community. Services are available weekdays between 8 am and 8 pm and on the weekends between 9 am and 4 pm.

Location: U216, EnCana Wellness Centre

Phone: 403.440.6917

Website: mtroyal.ca/optimaltherapies

Diversity and Human Rights Services

Diversity and Human Rights Services is dedicated to supporting the Mount Royal Code of Personal Conduct and to taking a positive and conscious approach to promoting a healthy and inclusive environment of respect and dignity for all students, faculty and staff of the Mount Royal Community by:

- Offering innovative educational and promotional initiatives from workshops, in-class presentations, partnership building and networking in an effort to broaden awareness of Human Rights policies and practices and build respect for diversity.
- Providing expert advice to the University community on human rights issues
- Maintaining strict client confidentiality in accordance with the Freedom of Information and Protection of Privacy Act (FOIP)
- Exploring informal resolution methods for human rights complaints
- If necessary, explain and support the process of a formal complaint

The Alberta Human Rights Act and the Human Rights Policy at Mount Royal prohibit discrimination and harassment of any individual or group based on the following grounds:

- Race
- Ancestry
- Marital status
- Sexual orientation
- Physical disability
- Sources of income
- Religious beliefs
- Gender
- Age
- Place of origin
- Mental disability
- Colour
- Family status

Hours of Operation

Monday to Friday 9 a.m. to 4 p.m.

Location: U216C, EnCana Wellness Centre

Phone: 403.440.8675 or 403.440.5956

E-mail: jfillion@mtroyal.ca

Website: mtroyal.ca/humanrights

Positive Space Initiative

The Mount Royal Positive Space initiative aims to promote understanding and respect for sexual orientation and gender diversity. The initiative raises awareness and challenges the patterns of silence that continue to marginalize lesbian, gay, bisexual, transgendered, two-spirited and queer (LGBTQ) individuals. The initiative is also aimed at encouraging a widespread and visible commitment to welcoming sexual and gender diversity, as well as making talk of diversity more open and less unusual. Our goal is a campus free of discrimination on the basis of sexual orientation and gender identity. Through the Diversity and Human Rights Services office, the initiative operates by meeting regularly and providing support and a variety of activities for students, faculty and staff. Some events include: World AIDS Day and Transgender Day of Awareness & Remembrance. For more information:

Phone: 403.440.8675 or 403.440.5956

E-mail: jfillion@mtroyal.ca

Website: mtroyal.ca/positivespace

Health Education

The Health Education program is dedicated to improving the health of Mount Royal students and employees. The Health Education Coordinator, along with volunteer Peer Health Educators, creates opportunities for health education and prevention for all members of the University community. The Health Education program combines the efforts of existing services and programs within Wellness Services and provides innovative outreach programs to encourage the University community to LIVE WELL.

The outcomes of the health education program include:

- Awareness of current wellness programs and services
- Knowledge and understanding of personal health
- Less injuries, accidents, sickness, and stress
- Employ lifestyles changes that reflect a healthier wellbeing
- Less injuries, accidents, and sickness
- Improved stress management
- Lower health risks
- Peer Health Education opportunities
- Increased employee health and satisfaction

The Health Education program is dedicated to offering programs and services that meet the needs of the University community. This is achieved through promotional material, special events and awareness weeks, newsletters, and a Health Education website. Keep an eye out for events around campus!

Tobacco Education and Cessation

Tobacco Education and Cessation raises awareness in the University community about the abuse of tobacco and the ensuing consequences. One on one appointments are available, for those trying to quit tobacco use, and events are planned to provide information of the social, behavioural, environmental, physical, and psychological elements of tobacco addiction.

Multi-Faith Chaplaincy

For over 90 years, Mount Royal University has upheld a spiritual tradition that stems from the original vision of Dr. George Kerby. The University's recognition of the importance of spirituality and its diverse expressions continues today through the existence of the Multi-Faith Chaplaincy which facilitates spiritual wellness for individuals and groups.

The Chaplaincy offers weekly worship services, weekly prayer times, Scripture studies and spiritual counselling sessions with individual chaplains. The Chaplaincy Office also organizes multi-faith activities and events which promote interfaith dialogue and cooperation.

The Chaplaincy Team consists of professionals from a variety of religious and spiritual traditions. Chaplains are available to faculty, staff and students to provide guidance on spiritual issues.

The Chaplaincy office (Room F 122) is open daily from 8:30-4:30pm and information for contacting Chaplains, and Chaplains' hours are posted at the office, and at the Meditation Centre.

The Meditation Centre (Room W 201), a non denominational facility, is available for quiet, private reflection and meditation when not being used for group religious services.

Phone 403.440.8942 for Chaplains, or 403.440.8904 for the Chaplaincy Coordinator.

Skills Investment Program

Location: E-106

Phone: 403.440.5168

- Training and income support to eligible adult residents of Alberta

Many of the enrolment services are accessible electronically through MyMRU and through the University's website mtroyal.ca. Answers to common questions may be found at <http://ask.mtroyal.ca>

Regular hours of in-person service and telephone assistance during the Fall and Winter Semester (mid-August to mid-May) are Monday through Friday 8:30 a.m. to 4:30 p.m. Summer hours are Monday through Friday 8:30 a.m. – 4:00 p.m. Visit the Admissions and Recruitment Office to learn more about Mount Royal and to get all of the information you need to make your entry into Mount Royal as convenient as possible. If you require assistance, please call 403.440.5000 or toll free 1.877.440.5001.

New Student Orientation

Start your university education the right way, by attending the new student orientation at Mount Royal University. Our program is designed to be both fun and practical. New Student Orientation will help you become aware of what our expectations are of you as a student, the academic policies that affect you, and the various university services that will help you to succeed. It is also an opportunity for you to get your questions answered, to become more at ease about your studies with us, and to have a chance to meet a few people who, like yourself, are starting something new.

All new students are STRONGLY ENCOURAGED to attend. Research has shown that orientation programs can help to improve your chances for academic success and graduation.

For more information, call 403.440.8833 or go to mtroyal.ca/orientation

INCLUSIVE POST-SECONDARY EDUCATION

Inclusive Post-Secondary Education is a service at Mount Royal University that supports students with developmental disabilities to be fully included in academic programs of study and university life.

Students choose a program of study that reflects their interests and career goals. With the assistance of Inclusive Post-Secondary Education, they choose courses and a course load that meets their individual goals. Courses are audited and class requirements and materials are adapted to meet their unique talents to provide the most beneficial learning experience possible.

With the support of classmates and University staff, students supported through Inclusive Post-Secondary Education can become involved in university life both inside and outside of the classroom. Campus life at MRU provides opportunities for students to be involved not only in classes, but in student clubs, associations, events, and social and recreational activities.

Support is year round. In addition to helping students make the most of their classes from September to April, Inclusive Post-Secondary Education staff will assist students with arranging field placements and employment in the summer months. Inclusive Post-Secondary Education staff work closely with students and University instructors to offer support that maximizes both the student's involvement and the potential for everyone involved to have a positive experience.

For more information about the IPSE program please contact the Inclusive Post-Secondary Education Coordinator at 403.440.7281.

INSTITUTE FOR NONPROFIT STUDIES

Canada's nonprofit sector consists of over 2 million employees and has annual revenues of over \$120 billion. It has been largely unstudied. Mount Royal University recognized this as an opportunity and moved forward to develop a research and education hub. Since its launch in 2000, the Institute for Nonprofit Studies has become recognized as a major Canadian centre for research, scholarship and education pertaining to the nonprofit sector.

The Institute for Nonprofit Studies works in close collaboration with the nonprofit community, business and other post-secondary institutions to ensure that issues are identified clearly and that research and community educational activities are focused on areas of central concern to the nonprofit sector. To achieve this, an advisory committee composed of members of the nonprofit community, businesses, foundations, postsecondary institutions, and MRU faculty was created to help guide the Institute and its initiatives.

In terms of research, the Institute undertakes and funds research within three streams:

- Policy – inquiring into the affects of social policy and proposing policy changes needed for a vibrant nonprofit sector.
- Sustainability – examining the transformational changes necessary to sustain the contributions of the nonprofit sector to community.
- Governance – a focused stream of inquiry into the meaning of governance in the context of heightened accountability and community expectation.

By participating in national, provincial and municipal networks, the Institute ensures that its knowledge and practical tools can be widely disseminated.

To contact the Institute, please call 403.440.7739 or visit mtroyal.ca/nonprofit.

INTERNATIONAL EDUCATION

Office of International Education

The Office of International Education coordinates the implementation of the MRU Internationalization Strategy university-wide. Access for international students to MRU is facilitated through English language training programs delivered by the Languages Institute and through partnership agreements and direct recruitment into University programs and courses. The University participates in international development projects and provides customized training packages and study tours for local and international companies and government agencies. The Office of International Education is overseen by the Director and composed of two main areas: International Projects and the Languages Institute.

International Projects

This area focuses on the development of institutional partnerships and the creation of opportunities for student and faculty participation in international exchanges. Internationalization of the curriculum across the university is encouraged through the development of study tours/field schools, international Directed Field Study placements, practica, internships, work placements and language training.

The Languages Institute

The Languages Institute offers a full-time, credit-free English Language Program as well as ESL teacher training certificates and credit-free foreign language study. There are four full-time programs available: English Foundations (EF Levels 1 – 3), English for advanced communication (EAC Levels 1 & 2), and English for academic purposes (EAP Levels 1 – 3), and Teaching English as a foreign language (TEFL). Placement into a program depends upon language ability as determined by a placement test and the student's goals.

The EF, EAC and EAP programs have varying concentrations of oral work, reading, vocabulary development, grammar and writing. EAP, EAC, and TEFL students may also take a combination of upgrading and credit classes (maximum of two) with the approval of the Languages Institute Program Coordinator and pending seat availability. The Languages Institute also offers a variety of part-time courses that focus on specific skill development. All classes are open to permanent residents of Canada and individuals with a student visa or temporary resident permit. Students who wish to apply to MRU credit programs but who do not satisfy the University's English Language Proficiency Requirement can apply to the Languages Institute. Successful completion of EAP 3 with an average of 80% satisfies MRU's ELPR.

The Languages Institute's foreign languages program offers part-time, credit-free language studies in nine languages: French, Spanish, Italian, Portuguese, Russian, Mandarin, Japanese, Arabic and German. All foreign language instruction focuses on conversational skill development.

LIBRARY

library.mtroyal.ca

Mount Royal University Library is a great place to study with wireless access, soft seating as well as table and carrel work areas, a few group study rooms and booths, and a newly furnished quiet study classroom. The Library offers a wide range of services ranging from in-class and individual instruction, to assistance with research and information questions which can be dealt with in person at the Library Information desk, by email through "ask a librarian" or via our online chat service. Computers, along with printing and photocopying are available to help you complete your assignments as are laptops which may be borrowed. The Library provides access to over 200 licensed electronic databases, 40,000 ejournals, 110,000 ebooks, many statistical data files and more than 200,000 print volumes of materials. Course reserves are also managed in the Library and if we don't have what you are looking for, the items may be borrowed from other libraries through our interlibrary loan services. Stop by the Information Desk or call 403.440.6140 for more information about our services and hours of operation.

LOCKERS

Full-length, Half-length and Box lockers are available for rent at the Parking & Transportation Services office. Rental agreements are for September to April (Fall & Winter Semester) and May to June (Spring Semester). For current price information please visit the Parking & Transportation Services office or visit mtroyal.ca/AboutMountRoyal/TransportationParking/Lockers/index.htm. Lockers must be completely cleared of contents upon expiration of the rental agreement. Any contents remaining in the lockers at the expiration of the locker rental agreement will be turned over to the Lost & Found collection (administered by Campus Security) and will be disposed of if not claimed within 30 days.

Mount Royal University does not accept responsibility for any damage to the contents or loss of items from lockers, which have been rented to students and/or other parties. Valuables should not be stored in lockers. Students must use the locks provided by the University.

OFFICE OF THE OMBUDSPERSON

The Ombudsperson works as an independent, impartial agent for students, staff and faculty who seek resolution to problems and/or conflicts. If you believe you have been treated unfairly, if you are not sure what to do or who to turn to, or if you need information or advice about a Mount Royal policy or procedure, contact the Ombudsperson. S/he will help you informally explore in confidence your concern and can bring recommendations to the attention of those in authority by suggesting actions, amendments or clarifications to policies.

Location: Y320G

Phone: 403.440.6076

e-mail: ombuds@mtroyal.ca or jcollins@mtroyal.ca

RECREATION

Recreation Customer Service Centre U130

Phone: 403.440.6517

E-mail: recreation@mtroyal.ca

Website: mtroyal.ca/recreation

FACILITY HOURS (September 1 – June 30)

Monday - Friday 6 a.m. to 11 p.m.
 Saturday - Sunday 8 a.m. to 8 p.m.
 Holidays 8 a.m. to 8 p.m.

Recreation is a great way to have fun, meet new people, socialize with friends, get some exercise, learn new skills and enjoy friendly competition.

How do you get involved? Easy – all credit students are members. Stop by the Customer Service Centre each semester with your Campus Card to validate your membership. Other students and student family members can join at reduced rates.

Membership gives you access to the recreation facilities and great student rates on our programs and services.

PROGRAMS AREAS

- Aquatics • Climbing • Clubs & Drop-in Sports • Dance • First Aid & CPR • Group Exercise • Intramural Sports • Mind, Body & Spirit • Running • Sport Instruction • Squash • Triathlon

FACILITIES

- 14,000 sq. ft. fitness centre • 40 ft. indoor climbing wall • 200 m indoor running track • Six international squash courts • Five volleyball/basketball courts • Aerobics studios and multi-purpose room • 25 m salt water pool with hot tub • Steam rooms and family change room • Six outdoor tennis courts • Four outdoor playing fields • Two outdoor beach volleyball courts

SPORT INSTRUCTION

Recreation is not just about competitive activities; you will find a tremendous selection of fun and energizing courses to choose from at amazing prices for students. Enjoy your down time by using the Recreation Centre to its fullest. Check out our website, pick up a Rec Guide or visit our Customer Service Centre for more details.

RESIDENCE

Mount Royal Residence consists of 4 bedroom, 2 bedroom, and a few 1 bedroom townhouse and apartment style units, which house approximately 1,000 single students. Each unit is fully furnished and provides an individual bedroom for each student equipped with wireless internet, as well as full living room and kitchen facilities. All utilities including local telephone service, wireless internet and cable TV are included in the Residence Fees. Laundry facilities as well as mail boxes are located in the West Administration Building and the East Community Building. There are seven barrier free units.

Students may apply for Residence accommodation once they have applied for admission to a program, but should not wait until they are admitted to Mount Royal before applying for housing. A non-refundable application fee is required to complete the application, and the submission of a security deposit is required for room placement. Guaranteed placement is offered for all new students who compete their application and pay their security deposit by June 15. Room placement is first come first serve, based on payment of security deposit for a completed application. Security deposits will be fully refunded if the applicant is not accepted into a University program.

Residences Fees are due on August 1st for the Fall semester and December 1st for the Winter semester. Housing is also available for the Spring and Summer months for current residents and summer students.

For more information please see our website mtroyal.ca/CampusServices/LivingonCampus/index.htm or phone 403.440.6275 or write: Mount Royal University Residence, 200 Mount Royal Circle S.W., Calgary, AB T3E 7P7.

E-mail: residence@mtroyal.ca

Student Mail

Mount Royal University does not forward student mail nor does it release student addresses to third parties. Any mail for students from outside parties should be sent to their home addresses. Any mail for students staying in Residence should be sent to the student at the following address:

Name

Unit #

200 Mount Royal Circle S.W.

Calgary, Alberta T3E 7P7

STUDENT COMPUTER LABS AND FACILITIES

The following labs are available for drop-in use:

- EA2047
- E151
- EB1112
- Library
- The Student Computing Centres (Drop-in labs) have Microsoft Office 2007, Web Browsers and Printers available for Student Use.
- The Student Computing Centres are staffed by Lab Monitors for student assistance. They can assist with login/password issues, answer questions about printing, storage devices, MyMRU, Blackboard, Student Web Services, wireless access, Netstorage, etc.

The Centres are open at the following times:

	EA2047	E151	EB1112	Library
Monday-Thursday	8:30am-7:00pm	8:00am-10:00pm	8:30am-7:00pm	7:45am-10:00pm
Friday	8:30am-5:00pm	8:00am-5:00pm	8:30am-5:00pm	7:45am-8:00pm
Saturday	Closed	11:00am-5:00pm	Closed	10:00am-8:00pm
Sunday	Closed	11:00am-5:00pm	Closed	10:00pm-8:00pm

Note: The Library Classroom is only open as a "computer lab" when there are no class bookings. Please check the board posted at the entrance of the Classroom for "open lab" hours each day.

Laptop Rentals:

MRU rents out laptops for student use. The laptops have built-in wireless cards and are loaded with Internet Browsers and Microsoft Office applications. To rent a laptop, visit I.T. Services Counter, room E251. You will require a valid Driver's License and Campus Card. Method of payment is cash, Debit, Visa or MasterCard. Laptops can be rented out on a daily, weekly, two-week or weekend basis. Rental charges are:

- Daily/Overnight \$5.00
- Weekend \$15.00
- 7-Day Rental \$25.00
- Two Week Rental \$45.00

Wireless Access:

Wireless access is rapidly expanding around the University. You can only access the MRU wireless network, during the semesters which you are a currently registered student. You will authenticate using your MyMRU Username and password.

After Hours Access to Teaching Labs

If you require after hours access to a lab where you are currently taking a course, you need to get your Campus Card activated at the Security Operations Office (X200E). You will require a copy of your class schedule which shows that you are registered in a course that needs access to a specific lab.

Questions about Computing Facilities?

To view our Student Computing FAQs online:

- Log into MyMRU
- Click on the Student Resources Tab
- Click on the Computer Labs link in the left hand box under IT Services.
- Or go to mtroyal.ca/its/labs

STUDENT LEARNING SERVICES

Writing and Learning Services

- FREE workshops for Mount Royal students
- 30-minute, one-on-one appointments for specific, personalized information tailored to your needs
- Time management, textbook reading, note making, learning in class, study and test-taking tips, grammar review, writing strategies, organizing research papers, referencing
- Drop-In for APA, MLA and Chicago Referencing

Failure to meet with an Access Advisor prior to the beginning of the semester may result in academic accommodations and disability-related services not being available at the beginning of the first semester at Mount Royal.

Are you a student with a learning, physical, sensory or psychiatric disability?

- Did you know that you may be eligible for classroom accommodations and/or access services?
- You must be registered with Accessibility Services to access academic accommodations
- Contact us today to book your appointment with an Access Advisor
- **Failure to meet with an Access Advisor prior to the beginning of the semester may result in academic accommodations and disability-related services not being available at the beginning of the first semester at Mount Royal.**

Call 403.440.6868 or come to Y201 to book an appointment.

accessibility@mtroyal.ca

STUDENTS' ASSOCIATION

The Students' Association of Mount Royal University (SAMRU) is the independent voice of all students at Mount Royal University. SAMRU works to enhance students' lives in a meaningful way by delivering high quality services, leadership, advocacy and support. SAMRU serves students to help them succeed.

The Students' Association of Mount Royal University is a charitable, nonprofit organization run for students, by students. It is one of the oldest students' associations in Alberta and has been around since at least 1911 in one form or another. SAMRU currently operates under the legislative authority of the Post-Secondary Learning Act of Alberta. SAMRU has set itself the task of ensuring that the students of Mount Royal University have an opportunity to participate in all matters that affect the quality of student life at the University

The Wyckham House Student Centre

The Students' Association of Mount Royal University has always been visionary and strongly independent. Back in 1964, students received a government grant to be used for the creation of a student building. Students added to this money using student fees to create a building fund, which would eventually be used to build a student center. After relocating twice, the Wyckham House Student Centre became the home of the Students' Association. Officially opened in September 1987, Wyckham House is the student centre of the Mount Royal University campus, offering services and a social environment for the University community, and in particular, the students of the University.

Wyckham House has four levels. The basement level houses the Student Benefits Plan office, the CopyWrite, Postal Outlet, Ticketmaster, Bright Dental Clinic, and the Reflector newspaper office. The main level includes the Food Court (with eleven food kiosks to choose from), the Collegiate Shop offering convenience items, and the Liberty Lounge. On the second level, you can find: the Peer Support Centre, the AccessAbility Centre, the Native Student Centre, the Sustainability Centre, Students' Council chambers, the Executive Committee and staff offices, a study lounge with natural light and a TV lounge. The third level contains the Clubhouse with club lockers, meeting rooms, the Cultural Mosaic Centre, the Student Outreach and Safewalk office, the Pride Centre, and additional staff offices.

Student Centre Expansion

To meet the needs of a growing student population, Wyckham House has recently undergone a massive expansion, adding almost 45% more space for necessary student services. Expansion has provided new student service centres, additional volunteer centres, more food kiosks, a new Council Chambers, more administrative offices, space for clubs, and additional studying spaces. We continue to be the vibrant hub on campus.

Student Government at Mount Royal University

The Students' Association of Mount Royal University is governed by a Students' Council which includes a full-time Executive Committee comprised of the President and three Vice-Presidents, six student representatives for various faculties, four diversity representatives and four commissioners. The Students' Council Executive Committee is elected annually in February of each year by a popular vote of the Association's membership.

Representation

The Students' Association works to ensure that the student voice is heard at all decision-making levels in the University and to the government. Students' Association representatives have a voice on both of the University's governing boards: the Board of Governors and General Faculties Council and their subcommittees. Student representation for University committees is provided through the Association. These committees address a broad range of issues affecting campus life and academics.

Student perspective is provided to the municipal, provincial and federal governments through Association participation in various lobby organizations: the Calgary Student Caucus (CSC), the Alberta Students' Executive Council (ASEC), and the Canadian Alliance of Students' Associations (CASA), all meet regularly with government officials to discuss funding, tuition levels, student finance and a broad range of other issues that affect students.

Students' Association Services

Activities & Events

The SA holds many activities and special events for Mount Royal students throughout the year. These include big-name concerts, local acts, cabarets, and various special events hosted by student clubs. Start the year off right with Welcome Week – a week full of special events held throughout the Wyckham House Student Centre at the beginning of the Fall and Winter semesters.

Awareness Events

Awareness events occur during the year to raise social awareness and to provide students with information on current issues. Student Clubs are encouraged to participate and anyone who wants to volunteer is welcome.

Past Awareness events have included Global Diversity month, Sustainability month, Anti-Hatred week, Native Awareness Week, Montreal Massacre Memorial, Black History month, Gender Bender and many more!

Bursaries, Awards, and Scholarships

The SA currently provides four bursaries which you can apply for through MRU's Financial Aid and Awards office. The SA also provides dozens of other awards, ranging in value from \$500 to \$3000, which you can apply for through SAMRU's office.

The Students' Association also provides a Membership Development Fund supporting extra-curricular school-related student development.

Please see samru.ca for details, or drop in to room Z222.

E-Awards

Each year the SA hosts an Excellence Awards ceremony recognizing students who demonstrate contribution to student life on campus. SAMRU gives away close to \$20,000 each year at E-Awards.

Recipients are provided with a certificate and/or scholarship. Faculty and staff are recognized with "Teaching Excellence" and "Champion" certificates. Eligibility requirements vary for all award categories and scholarship amounts are listed in the application forms. Students are encouraged to nominate one or more of the many outstanding staff, faculty and/or peers they feel are deserving of recognition.

Nomination forms are available all year and can be picked up at the SA offices located on the second floor of Wyckham House in Room Z222, or online at samru.ca. The deadline date for nominations/ applications will also be posted in the SA reception area.

Emergency Student Loans (ESLs)

Students who experience unforeseen financial difficulty may be eligible to receive an Emergency Student Loan (ESL) from the SAMRU. Applications are available through the Peer Support Centre, located on the second floor of Wyckham House. Subject to funding availability, ESLs are interest-free loans not exceeding \$300, granted after establishing financial need and to be repaid by the recipient within 30 days.

SAMRU Businesses

The SA operates businesses that cater to students, as well as to faculty, staff and outside clients. The challenge for these businesses is to balance low cost, quality service to students, while also earning revenue for the Students' Association. The revenue from these businesses offsets Students' Association fees and helps to sustain important student support services. Having student-run businesses also helps keep prices as low as possible for Mount Royal students.

CopyWrite

Located in the basement of Wyckham House, CopyWrite provides postal services and a Ticketmaster outlet in addition to cheap colour and black and white copies, computer repairs, laser printing, scanning, typing, resume and fax services. Students can also sell and buy used textbooks on consignment. CopyWrite hires students to work part-time throughout the year and full-time in the summer.

The Liberty Lounge

"The Lib" provides live entertainment, DJs, pool tables, arcade games, TVs and plenty of special events. The Liberty is a place where students can relax and socialize with their peers and instructors on campus. The Liberty also provides some Mount Royal students with employment and valuable work experience.

Food Kiosks and Collegiate Shop

SAMRU leases space to various tenants to provide students with a variety of food choices and convenience items. Currently, the Wyckham House Food Court houses Booster Juice, Vanelli's Fresh Italian Foods, Cultures Fresh Foods, Dairy Queen, The Wycked Deli, Edo Japan, Good Earth Cafe, Subway, the Collegiate Shop, Thai Express, Zen Vietnamese Grill, Biblos Mediterranean Fare, and Mucho Burrito.

Bright Dental Clinic

Bright Dental Health Centre is located in the lower level of Wyckham House. They offer flexible appointments for check ups, cleaning, x-rays and other services.

Space Rental

The SA also leases various spaces throughout the Wyckham House Student Centre to temporary student-focused vendors with items such as posters, CD's and jewellery.

Student Outreach and Safewalk

"Join all in the fun"

Student Outreach and Safewalk provides members of the campus community escorted walks within 1.5km of the University grounds and delivers important messages and information on all current Students' Association initiatives and events. Visit the Security Desk, use the RED Help Phone, call 403-440-6898 or visit the Student Outreach and Safewalk office in room Z302 for an escort to your car or bus stop.

Native Student Centre (NSC)

"Honouring culture through student support services"

The Native Student Centre offers services including cultural activities, information sharing, educational resources, office equipment, and transitional support. Phone: 403.440.7795, 2nd floor of Wyckham House.

Peer Support Centre (PSC)

"Students helping students"

The Peer Support Centre offers service offerings include Food Bank Hampers, Emergency Student Loans, a Free Breakfast Program, Free Legal Clinic, a friendly ear and helpful referrals. Phone: 403.440.6269, 2nd floor of Wyckham House.

Cultural Mosaic Centre (CMC)

"Promoting cultural diversity on campus"

The CMC provides information, creates networking opportunities and provides a venue for international and Canadian students to explore each other's cultures. Phone: 403.440.5185, 3rd floor of Wyckham House.

AccessAbility Centre (AAC)

"Working together to make campus life more accessible"

This centre is designed to provide peer support, information, resources and advocacy for Mount Royal students with disabilities. Phone 403.440.7792, 2nd floor of Wyckham House.

The Sustainability Centre (SC)

"It's easy being green"

The Sustainability Centre aims to provide access to practical, sustainable alternatives for students; to share awareness, education and enthusiasm for change pertaining to environmental, social and economic sustainability; and to help reduce the ecological footprint on campus. Come visit us on the 2nd floor of Wyckham House.

Pride Centre

"We are family"

This is a safe, inclusive and celebratory space for people of all gender and sexual orientations in an environment that celebrates gender and sexual diversity on-campus. It recognizes our common ground and honours our differences, and works to educate the larger community in the spirit of mutual respect. Phone 403.440.5603, 3rd floor of Wyckham House.

Academic Appeals and Grievances

All students attending Mount Royal have rights and responsibilities. Students who have questions regarding their program, courses, exams, marks, or instructors can talk to the SA's VP Academic for an explanation of the University's policies and procedures, or to seek assistance with any academic appeals, grievances or non-academic misconduct charges.

Contests

Check out our website at samru.ca for regular contests and prizes, including movie tickets, t-shirts, CDs, and concert tickets. Look throughout Wyckham House for details.

The Students' Association offers far more services to its membership than those listed here. Check out the SAMRU Services Directory for a complete listing, stop by our offices in room Z222 in Wyckham House or visit our website at: samru.ca

Students' Association Health and Dental Plan

Eligible students (9 credits or more) at Mount Royal University are automatically enrolled in health and dental plans that have been established by the Students' Association through the Student Benefits Plan Office.

This plan provides a comprehensive set of extended health and dental insurance benefits.

Students must fill out the *Personal Information Form* at the Student Benefits Plan Office in order to activate their coverage under these plans.

The following are some of the more commonly used benefits of the plans:

Health Benefits

- Prescription drug coverage on the National Formulary
- Vision – coverage for eye exam, eyeglasses and contact lenses every 24 months
- Paramedical benefits (physiotherapy, massage therapy, athletic therapy, etc.)
- Ambulance
- Medical equipment and appliances
- Orthopaedic shoes and orthotics

Dental Benefits

- Diagnostic & Preventive
- Fillings
- Extractions (Wisdom Teeth)
- Additional Scaling and Root Canals
- Periodontal treatment (additional scaling)
- Major Restorative

Visit the Student Benefits Plan Office for a list of Select Dental Partners who provide an additional 20% off your coverage levels. (Note: * Insured portion is based on insurer's current eligible fee for services rendered, as a result, total coverage amount may differ, depending on the fees charged at the dental office)

This is a summary only for Health & Dental benefits. For complete details, including information on **Select and Alternate Dentists**, reimbursement levels and maximums, please visit the Student Benefits Plan Office or the website at: gallivan.ca

Add-On Family under the Plan

Students who are on the plan can also enrol their spouses and children under these plans (under 21-years-of-age or up to age 25, if attending school full-time) by paying an additional family coverage fee each year by the posted deadline.

Care Card

Each student covered under the student health insurance plan can pick up, or download a Care Card from our website gallivan.ca. In order for a student's Care Card to be activated a *Personal Information Form* must be completed at the Student Benefits Plan Office. Please use this card for as long as you are an eligible student and remain enrolled in the health plan at Mount Royal University. Students returning to school next year will not have a disruption of their coverage.

Waiving the Student Benefits/Rescinding Waivers

Eligible students who have comparable health and/or dental coverage elsewhere may apply to waive benefits. Each student is given an opportunity to waive benefits under the health and/or dental plans each year if they are enrolled in another plan with extended coverage. All waiver forms must be completed through the Student Benefits Plan Office or through the One-Time Online Opt-Out and must be received by the applicable deadline for the semester period of enrolment. (Please visit www.samru.ca for more information)

Please note, in the event that you don't specify an opt-out status on your waiver form, you will receive a one time opt-out by default. All waiver forms must be completed through the **SAMRU Student Benefits Plan Office or through the One-time Online Opt-out** and must be received by the applicable deadline for the semester period of enrolment. Confirmation of existing coverage must show the name of the insurance company providing coverage and the policy number. The easiest way for students to provide confirmation of coverage is by presenting a copy of a benefits card or a confirmation letter from the employer/insurance company. Confirmation may also be provided by presenting other documents such as a recent statement of claim, web page print-out or other insurance company document identifying you, the insurer and the policy number.

Once we confirm coverage, we DO NOT retain any confirmation documentation that you provide to us.

Approval of waiver forms will result in the plan fee being refunded. Opt-out cheques will be available for pick up in the fall and winter semesters for eligible students (9 or more credits at MRU). There will be no exceptions or extensions for students who fail to submit their completed waiver to the SAMRU Student Benefits Plan Office prior to the applicable deadline. Students who have previously waived their benefits and have lost comparable coverage, must come into the SAMRU Student Benefits Plan

Office and opt-in before the applicable deadline. For full details, please visit the Student Benefits Plan Office in room Z001 in the basement of Wyckham House.

Disclaimer

In the event of any discrepancy between the information herein and our contract with the insurer, the terms of the contract will apply.

WORSHIP

For over 90-years, Mount Royal University has upheld a spiritual tradition that stems from the original vision of Dr. George Kerby. The spiritual tradition continues today through the existence of an Interfaith Chaplaincy where a variety of services are available. Currently offered are: weekly Chapel Services, support groups, and weekly discussion groups. The Meditation Centre (Room W 201), a non denominational facility, is available for quiet reflections and religious services.

The Chaplaincy Team consists of professionals as well as student volunteers who are interested in the ministry. The Chaplains are available as resource persons to provide guidance on spiritual issues.

The Chaplaincy office (Room F 122) is open daily from 10 a.m. to 5 p.m. Phone 403.440.8942 or 403.440.8904.

MISCELLANEOUS SERVICES

Accidents

The University holds an insurance policy providing certain coverage benefits relating to accidents. If you are involved in an accident, please contact Security 403.440.6897 and Health Services 403.440.6326. Health Services can provide medical care and information on policy coverage and claims procedures.

Buses

The Calgary Transit System offers many bus routes to the University. Please visit mtroyal.ca/AboutMountRoyal/TransportationParking/transit.htm for a list of current bus routes.

Newspapers

The Calgary Journal

As part of their program of study, Journalism students produce a weekly community newspaper which serves more than 20 residential communities and business districts in the city's southwest quadrant.

The Reflector

Students needn't be enrolled in the Journalism program to write for the Reflector. All that is needed is a sense of adventure and humour, a desire to inform, educate, and entertain, and, on occasion, an affinity for the absurd. Everyone is welcome to contribute.

The Reflector is editorially autonomous and financially independent from the Students' Association of Mount Royal University. As such, it has a responsibility to provide accurate, fair, and non-discriminatory information about issues and events that are of interest to the students of the University.

Make a point of stopping by the Reflector office located in Wyckham House, or phone us at 403.440.6268.

Radio

CMRC, the University radio station operated by Broadcasting diploma students, broadcasts in-house, via cable, and online.

Room Bookings

Scheduling Services is the central booking office for Mount Royal University. This office assigns space for credit and non-credit courses and community functions such as meetings and seminars. Phone 403.440.6585. For Recreation activities phone 403.440.6976.

Tobacco Use

Smoking is not permitted at Mount Royal University except in certain outdoor designated locations (see directories or the policy for designated outdoor smoking areas). This policy applies to all University students, employees, and visitors and is in effect full-time.

Complaints regarding the infringement of this policy should be referred to the Manager, Chair or Supervisor of the area for violations by University employees. The Department of Security and Public Safety should be notified of violations by students or the public. Breach of this policy will be treated in the same manner as breaches of other existing University policies.

Theatres

The University has three excellent performance theatres. The Leacock Theatre, set aside for music and speech events, seats 300. Full theatrical lighting, sound equipment, and movable seating make the 250-seat Wright Theatre and the 183-seat Nickle Theatre ideal for performing arts activities. In addition to these three theatres, the 195-seat Jenkins Theatre (I-115) hosts lectures, films and special events.

Please note that the definitions that follow are general. More specific explanations of these terms as they are used at Mount Royal University may be found throughout this calendar.

GLOSSARY

Academic Schedule

- A calendar of important University dates such as the first and last day of classes, deadlines for payment of fees and last day to withdraw from a course. Students are responsible for meeting all crucial deadlines in the Academic Schedule.

Academic Standing

- Academic Standing in its various forms applies to all current Mount Royal students and relates to students' eligibility to register in credit courses within a Mount Royal program and their eligibility to graduate from a program. The stages of Academic Standing are, in order, Good Standing, Academic Warning, Academic Probation and Required to Withdraw.

Academic Probation

- A student is placed on Academic Probation when s/he has been on Academic Warning for two (2) semesters and has a cumulative Grade Point Average (GPA) less than 2.00. A student will be permitted to remain on Academic Probation for one (1) semester within a twelve month period.

Academic Warning

- A student is placed on Academic Warning when s/he has accumulated a minimum of nine (9) earned credits and has a cumulative Grade Point Average (GPA) of less than 2.00. A student will be permitted to remain on Academic Warning for a maximum of two (2) semesters within a twelve month period.

Admission

- Acceptance of a person who has formally applied to attend the University. Individuals may be admitted if they meet the admission requirements for the program they wish to study and submit all the necessary forms, transcripts and supporting documentation.

Admission Requirements

- Sometimes called entrance requirements.
- The background an applicant must have before being admitted to study at the University. Some examples of admission requirements are: a high school diploma, letters of reference, English Language Arts 30-1 and a Department of Transport Medical Clearance.

Advanced Placement (AP)

- Advanced courses offered at the high school level and developed by the University Entrance Examination Board, New York.
- Courses may be used for admission and/or transfer credit purposes.

Advisor

- Sometimes called an academic advisor or academic advisor.
- Faculty member or staff who helps students select their program of study and the specific courses that will satisfy graduation requirements for their program. Advisors have been assigned to each program the University offers. Students should keep their original advisor as long as they stay in the same program.

Alumni

Alumni are individuals:

- who have received degrees, diplomas, credit certificates, or high school diplomas from the University;
- who have received designated credit-free certificates in the following programs: Funeral Director Extension Certificate, Herbal Therapy Extension Certificate, Massage Therapy Extension Certificate, Personal Fitness Trainer Extension Certificate, TVP Employment Preparation Extension Certificate;
- who have successfully completed one full scholastic year (30 academic credits) of study at the University and one full year has passed since their last date of attendance; or
- who are 18 years of age or older and previously attended the Mount Royal University Conservatory for a minimum of 6 years.

Appeal

- A request that a grade on a particular piece of work or a final standing in a course or program be changed on grounds related to the accuracy or fairness of the mark assigned.

Approved Option

- A course relating to a student's field of study that must be chosen in consultation with and approved by the appropriate academic advisor.

Arts and Science Requirement

- Course selected from each of any four (4) of the seven (7) Arts and Science areas. See the General Graduation Requirements section.

Auditor

- Often referred to as an auditing student.
- A student who pays to attend a credit class. An auditor does not receive credit for attending the course and is not allowed to participate in assignments or exams. To audit a course, students must have the permission of the instructor.

Awards

- Are monetary and/or non-monetary awards that recognize a student's achievement in a course or program that is not solely based on a GPA calculation or financial need.

Bursaries

- Are monetary awards granted to students on the basis of demonstrated financial need. Emergency bursaries are given to students as a result of urgent, unforeseen circumstances that result in immediate financial need.

Continuing Student

- Student who was enrolled in one or more courses at Mount Royal University during the immediately preceding major semester (i.e., Fall or Winter). Students who attend the Winter Semester, miss the Spring Semester, and then return for the Fall Semester are also considered to be continuing students.

Convocation

- The ceremony to celebrate with those students who successfully completed their program and satisfied the University's graduation requirements. The convocation ceremonies are held in early November and early June.

Co-operative Education

- Integrated academic study and alternating salaried work-terms available in a number of specialized disciplines.

Co-requisite

- Course(s) students must take at the same time they are taking other particular courses.

Course Load

- The number of courses a student takes in a semester.

Credit

- Credit weight reflects student workload rather than classroom contact hours. Normally, students are expected to devote nine to twelve (9 – 12) hours of academic time and effort per week for a three (3) credit course. Academic time and effort includes class time (e.g., lectures, labs, studios, tutorials, etc.) as well as any experiential or blended components. In addition, all independent study (e.g., assignments, readings, preparation, study, etc.) is included. Courses are normally valued as three (3) credits or multiples of three credits.

Deferred Final Examination

- Students who miss a final examination due to some compelling reason may apply, through the Office of the Registrar, to write the examination at a later date. The decision to grant a deferred examination rests solely with the professor of the course in which the student wishes a deferral. Refer to the *Examination Policy* and *Deferred Examination* sections under *Academic Regulations*.

Directed Field Studies

- Integrate academic learning with work experience or self-employed businesses and may be included in the curriculum for applied baccalaureate degree programs.

Directed Readings

- Special arrangement whereby students may pursue and receive credit in areas of study on an independent basis. See *Directed Readings* under the *Course Description* section for procedures and restrictions.

Disqualified Student

- A student who is no longer permitted to attend Mount Royal University for a specified period of time. Students will be disqualified if they do not do well in their courses. The University transcript will carry a notation *Required to Withdraw*.

Drop/Add

- Frequently referred to as registration adjustment or change of registration.
- Students may drop or add courses following initial registration. Courses, which are *dropped*, do not show on a student's record.

eCampusAlberta

- A consortium of 15 Alberta Colleges and Technical Institutes that have formed a partnership offer Albertans greater access to online learning opportunities.
- See eCampusAlberta in the *Registration Information* section.

ESL/EAC/EF

- English as a Second Language/English for Academic Purposes/ English for Advanced Communication/ English Foundations.
- Special English courses offered to students who do not speak, read, or write English well enough to be successful in MRU credit courses. The ESL/EAP courses are offered through the Languages Institute. For further information call 403.440.5100.

Elective

- A course which is not specified for a program but counts towards an applied degree, diploma, or certificate. While academic advisors may recommend certain courses to fulfill elective requirements, students may freely choose their electives.

Fees

- Money which students must pay the University to attend courses. Tuition and fees cover things such as accident insurance, athletics, some laboratory costs, as well as class attendance. They do not cover text books.

Full-time Status

- For admission, registration and advising purposes, a full-time student is one who is admitted to a designated program and who enrolls in three (3) or more courses (normally a minimum of nine [9] credits) in a semester.
- For financial assistance, under The Province of Alberta Students Finance Act, and for fee assessment purposes, a full-time student is considered to be one taking at least three (3) courses and a minimum of nine (9) credits per semester for the Fall or Winter Semesters or at least two (2) courses and a minimum of six (6) credits for the Spring Semester. See the Fees and Financial Aid and Scholarships sections.
- For Income Tax purposes, a full-time student must be enrolled in a minimum of nine (9) credits (excluding Audit courses and courses for which credit was granted by the prior learning assessment and recognition process) per semester.
- For participation on a Mount Royal University Athletic Team, a full-time student must be enrolled in at least three (3) courses and a minimum of nine (9) credits.

Good Standing

- A student who has accumulated a minimum of nine (9) earned credits, and has a cumulative Grade Point Average (GPA) of 2.00 or better is considered to be in Good Standing. Grade Point Average (G.P.A.)

Grade Point Average (G.P.A.)

- The average of a student's marks. The University does not use percentage grades for final marks; thus, each letter grade is assigned a number of points (i.e., A = 4 points, D = 1 point) so that the marks can be added together and averaged. For more information, see the *Academic Status* section.

Grievance

- A claim or complaint by a student that a University unit has reached a decision which is not in keeping with University policy or taken an erroneous action which adversely affects the student.

Instructor

- Sometimes called a faculty member or teacher.
- A qualified individual who teaches at the University.

International Baccalaureate (IB)

- Advanced courses offered at the high school level and developed by the International Baccalaureate Office, Geneva.
- Courses may be used for admission and/or transfer credit purposes.

Limited Enrolment Program

- Often referred to as a quota program.
- A program which only accepts a fixed number of first year students.

Open Studies Student

- A student who is not admitted to a designated program of study. Students are only permitted to accumulate 30 credits (normally ten courses) as an Open Studies student

Option

- A course selected by the student from the list of courses available in the calendar. It counts toward an applied degree, diploma or certificate.

Parchment

- The award received for successful completion of the University's graduation requirements for a baccalaureate degree, applied degree, diploma or certificate.

Part-Time Status

- A student who is admitted to a designated program and who enrolls in one (1) or two (2) credit courses (normally fewer than [9] credits) in a semester.

Petition

- A request that a regulation be waived on compassionate grounds or because of extenuating circumstances (i.e., petition for readmission or against disqualification).

Practicum

- A course of study involving supervised practical work.

Prerequisite

- Course(s) that students must successfully complete prior to taking a higher-level course. Students who register in a course for which they do not have a prerequisite may be deregistered from that course.

Program

- An approved group of related courses leading to a baccalaureate degree, applied degree, diploma or certificate.

Re-Admitted Student

- A student who has taken course(s) at Mount Royal University in the past but not in the immediately preceding Fall or Winter semester.

Registration

- The period before each semester when students select and enrol in classes and pay fees. New and returning students cannot register in courses until they have been officially admitted to the University.

Required Courses

- Often called compulsory courses. Specific courses in a program that relate to the field a student is studying. Students may not substitute any other course for a required course without the written permission of the program chair. To graduate, students must complete all the required courses outlined in their program pattern.

Required to Withdraw

- A student is Required to Withdraw from the institution for a minimum of twelve months when s/he has been on Academic Probation for one (1) semester and has a cumulative Grade Point Average (GPA) less than 2.00. **The University transcript will carry a notation Required to Withdraw.**

Scholarships

- Are monetary awards granted to students on the basis of academic achievement and, in some cases, extracurricular activities.

Semester

- Often known as an academic session. Each academic year at the University is divided into periods of time called semesters. At Mount Royal, the Fall and Winter Semesters each last 13 weeks and are referred to as major semesters. There is also one Spring Semester, which usually lasts 6.5 or 13 weeks. Some courses may deviate from this standard. Students who attend the Spring Semester receive the same number of hours of instruction for each course taken as in the Fall or Winter Semester.

Senior Matriculation

- Frequently known as university entrance.
- A term used in Alberta to describe a student who has an Alberta High School Diploma (100 credits) with five (5) appropriate 30-level subjects. These five (5) 30-level subjects must be chosen carefully as different subjects are required for entrance to the various university faculties.

Student Loan

- A government loan to help students pay for books, tuition and living expenses while attending a college, university or technical school. Students must start paying back their loan once they have been out of school for six (6) months. See the *Financial Aid* section for more information.

TOEFL/ iBT

- Test Of English As A Foreign Language/internet-based TOEFL.
- An international test of English which is one option to demonstrate English proficiency for applicants whose native language is not English.

Transcript

- Sometimes called an academic record or student record.
- A permanent record of all of a student's courses, credits and grades. Transcripts are maintained by the Office of the Registrar and are only released upon written request by the student.

Transfer Credit

- Sometimes called advanced credit or advanced standing.
- Courses completed at another accredited college, university or technical institute are recognized as transfer credit if the courses are comparable to credit courses offered at the University and if the transfer credit satisfies graduation requirements for a Mount Royal University baccalaureate degree, applied degree, diploma or certificate.

Transfer Equivalency

- Courses completed at another accredited college, university or technical institute. Although the course may not apply to the student's current program of study, it may be used to determine eligibility to register in a particular course (prerequisite checking) and/or admission requirements. In addition, course equivalencies may be used in a degree audit to determine transfer credit for a student's current program or used to perform hypothetical scenarios.

Tuition

- See the *Fees* section of this calendar for more information.

Withdrawal

- Procedure for a student who withdraws from one or more courses or from the University completely and stops attending classes. Students who do not withdraw from courses using the proper procedures can be given an "F" grade in the course(s) even if they haven't attended class.

What if school could *go to you?*

15 Alberta institutions
600 online courses
60+ online programs
1 location

**Adult upgrading and
university transfer available.**

Online learning gives you the flexibility to:

- Complete your courses and program at your own pace
- Learn from home without traveling to a campus
- Pick up a course that's not offered on your home campus

Areas of study include:

- accounting
- agricultural finance
- animal health technology
- arts and cultural management
- business administration
- correctional studies
- criminal justice
- disability and community rehabilitation
- early childhood education
- geographic information systems
- gerontology
- health care
- hospitality management
- human resources
- land administration
- marketing
- nursing
- power engineering
- renewable energy and conservation

And more ...

24-7 technical support provided.
